

VOLUME LXXXV • NO. 8
APRIL 23 - MAY 7, 2004

BRIEFS

Communications Services Relocated

Communications Services has moved to the first floor of the administration wing of Barton Lab.

To find us, come in the west entrance of the building (off the parking lot), turn right, then left at the next hallway. We are located in the offices along this hallway. Follow the signs. Phone numbers will be the same.

The print shop and mail room will remain in Jordan Hall until early May.

Contact Gemma Osborne - X2248 or at gro2 if you have any questions.

Play Ball!

It's that time of the year again, spring has sprung which means it is time to think Softball.

This year we hope to have three teams again. This means games will be played on Wednesday and every third week. One team will play a double header. (Monday will be saved for practice or rain dates – yes it does rain on occasion in upstate NY.) All in all I think it worked out well last year. There where no major fights or injuries which is about all we can ask for.

In order to help organize the teams this year it would be nice if people who were interested in playing would get back to me with either their name and/or the names of others they know are interested in playing.

The trick this year is to figure out where the service center fits into the scheme of things. One option under consideration is to have service center staff and family serve as “free agents” and play on whatever team happens to need them. I’m open.

J. Zakour

Groundbreaking Ceremony Held for Ag Tech Park

Officials broke ground Friday, April 16 for the 72-acre Cornell Agriculture & Food Technology Park, slated for construction just south of the Station. Wielding gold shovels and wearing hard hats, Governor George E. Pataki, State Senator Michael F. Nozzolio, Assemblyman Brian Kolb, Station interim director Robert C. Seem, and Susan A. Henry, Ronald A. Lynch Dean of Agriculture and Life Sciences participated in the ceremonial groundbreaking to kick off construction of Phase I of the Park, which includes a 20,000 sq. ft. multi-tenant Flex Technology building and supporting roadway infrastructure.

Among the speakers at the ground breaking ceremony were: (clockwise from upper left) Interim director Bob Seem, Senator Michael Nozzolio, Dean Susan Henry, and Governor George Pataki

“The empty field we’re breaking ground on today will be transformed into a national center for cutting-edge research and product development in food agriculture and biosciences that will be recognized throughout the nation and around the world,” said Governor Pataki. “The Cornell Agriculture & Food Technology Park will secure the economic future of Geneva and the Finger Lakes region and become a driving force in attracting new high-tech and biotech jobs.”

“The park will be a major economic driver for the Station, the city, the county and the region,” said Robert C. Seem, Station interim director and president of the Park’s board of directors. “This is the day we dreamed of back in 1995 when this project was first envisioned. Faculty and staff at the Experiment Station and the people of Geneva have been anxiously waiting to see the road and the buildings emerge. I appreciate the support from Senator Mike Nozzolio, Congressmen Sherwood Boehlert and Jim Walsh for being the moving forces behind this project. And the assistance of Governor Pataki has been absolutely essential in the development of the Park and getting us where we are today.”

“Cornell University is going to be looking increasingly at technology transfer as a potential engine for economic development both on- and off-campus,” said Susan A. Henry, the Ronald P. Lynch Dean of Agriculture and Life Sciences at Cornell. “Increasingly, we will partner with new enterprises involved in cutting-edge technologies in agriculture and the new life sciences, as well as with other universities, SUNY campuses, and high-tech industries.”

The Ag & Food Tech Park is affiliated with the Cornell University College of Agriculture and Life Sciences, and the New York State Agricultural Experiment Station. In addition,

Benefit Dinner

There will be a benefit dinner for Terry Gee, Jr. on Wednesday, May 12, from 5:00-7:00 p.m. at the Hydrant Hose, Co., 79 Geneva St. The event includes a ziti dinner and a 50/50 raffle. All proceeds go to help defray expenses in Terry's battle with Leukemia. Terry's sister is Sherri Tennies, who has been working for the PGRU for the past 12 years. The cost per dinner is \$6.00, take-outs will be available. If you cannot attend but would like to make a tax deductible donation, please make checks payable to: Terry Gee, Jr. Leukemia Fund, Seneca Falls Savings Bank, 342 Hamilton St., Geneva, NY 14456. Tickets can be purchased in advance and delivered to you from Dawn Dellefave, PGRU, 787-2292 (dcd6@cornell.edu).

(GROUND BREAKING, continued)

Officials break ground for the Park (l to r): James Laurito, president and CEO, RGS Energy Group and president, NYSEG Energy East Corp; Nathan Rudgers, Commissioner, NYS Dept. of Ag and Markets; NYS Assemblyman Brian Kolb; Governor George Pataki; Bob Seem, interim director, NYSAES; NYS Senator Michael Nozzolio; Jim Hunter, former director, NYSAES; Susan Henry, Ronald P. Lynch Dean of Agriculture and Life Sciences, Cornell; Don Cass, Mayor of Geneva; and Carmen Orlando, Chairman, Ontario Board of Supervisors.

tion to enabling start-up and established companies to carry out cutting-edge research in food, agriculture and bio-based technologies, the Ag & Food Tech Park will greatly complement existing research and extension programs of the Experiment Station and Cornell University.

The Flex Technology building will provide space for a series of firms and is expected to create up to 80 new jobs initially. At full build-out of the Park, 1000 new jobs are expected in 10 to 15 years. So far, eight firms have expressed interest in locating at the site. In addition, a 85,000 sq. ft. USDA Grape Genetics facility is expected to be constructed on site, available for occupancy in 2006, housing 30 to 40 scientists.

More than \$7.3 million has been raised for the Park from federal, state, county and city contributions. At full build-out, there will be about 375,000 sq. ft. available at the Park for research development and light production by enterprises engaged in food, agriculture or bio-based technologies. Park officials are already partnering with the Infotonics Center of Excellence in Canandaigua and other universities in central New York to build collaborative relationships.

State Agriculture Commissioner Nathan L. Rudgers said, "It's exciting to be here today to see this greatly anticipated project get underway. The Agricultural Experiment Station has always played an important role in the growth of the agricultural industry in New York State. The creation of this Tech Park will enhance Geneva's role and its contributions to the industry."

"Access to the Geneva Ag & Food Tech Park is critically important to our efforts to create jobs in the Finger Lakes Region," said Senator Michael Nozzolio. "By promoting high-tech and research-based industries, we are positioning New York State to be an international leader in innovative and emerging technologies and creating new jobs."

Funding that ensured the spring groundbreaking came in March, when the NYS Department of Transportation announced \$1.5 million in funding through the Industrial Access Program (IAP) for construction of the Park road and other access infrastructure. The funding met the federal matching requirement for a \$2.8 million grant from the U.S. Dept. of Commerce Economic Development Administration (EDA) that was received in June 2003. In addition, the state committed \$310,000 to support the construction of the Flex Tech building, in February. Bids for construction and related infrastructure go out next week. A search for an executive director for the Park is underway.

L. McCandless

(BRIEFS, continued)

thing to increase your energy, gain lean muscle, and decrease unwanted body fat, only to purchase a product you are unsure whether or not it will work, or worse yet, that may be harmful to your health? If so, this lecture is for you.

The lecture is free and open to the Station Community. No registration is necessary.

This lecture is part of CU Wellness Open Mind Lunch Series.

Arbor Day Ceremony

The Station will hold its traditional Arbor Day ceremony on Friday, April 30, at 3:30 p.m. on the west walk of the Barton Laboratory Building. Interim Director Bob Seem has allowed this ceremony to take place for all Station employees, with supervisor's approval. The brief gathering will emphasize the importance of trees in the landscape and officially recognize the planting of the new Ginkgo recently placed in this area. This annual event is a great way to greet the spring planting season and to appreciate the diversity of woody perennials on our campus.

Rules of Life

If you must choose between two evils, pick the one that you haven't tried before.

United Way Campaign

This year's United Way Campaign was "a resounding success" according to John VanderWeide who served as this year's Chair for the Station drive. "Food Science had the highest pledge total and the Administrative Service Center wins the participation prize by a mile! Way to go Janice and ASC!"

Retirees also made a good showing with 43% participation and gifts totaling \$15,304.50. A crew from the Station also participated in a related event - the "Day of Caring" volunteer day. Volunteers painted three offices at Legal Assistance of the Finger Lakes on March 18, 2004. Participants were: Nestor Ortiz, Ann Griner, Ed Bailey, Phil Beman, Vince Volland, Soon Kong, Gemma Osborne and John VanderWeide.

There was also a drawing for prizes; winners were:

- United Way T-Shirts-Holly Lange, Herb Cooley and Heather Melidossian
- Entomology T-Shirt-Kathy DeRosa
- Station Club T-Shirt-Lorraine Barry
- Station Club Gift Certificate-Ping Wang
- Scandling Lunch Gift Certificate-Dale Frankish
- Food Science Mugs-Pat Marsella-Herrick and Jim Moravec
- Cornell Sweatshirt-Desen Zheng

"I'd like to personally thank everyone who gave to the United Way campaign this year," John said. "I also want to thank the director, department chairs and unit leaders for supporting the campaign, and would like to express my special appreciation to the department representatives and those who helped with the logistics, including Ann Griner and Lou Ann Rago who did all the real work. If you were unable to give this year, please consider budgeting for United Way next year."

Perennial Plant Exchange Saturday, May 1, 2004 10 AM - Noon Rain or Shine

Experiment Station pavilion

The pavilion is located behind Jordan Hall which is on the north side of West North Street in Geneva.

Bring divisions of your favorite perennials. Come at 10 AM to set up.

The exchange will begin at 10:30 AM

Contact Rixana Petzoldt at rixanapetzoldt@hotmail.com or Franzie Smith at 789-8112

(BRIEFS, continued)

Come March in the CALS Centennial Parade in Ithaca on May 12!!!!

Faculty, staff and students are needed to help engineer and ride on the Station's float in the CALS Centennial Parade in Ithaca, on May 12 from 2:30-3:30 pm—a chance that only happens once every 100 years!!

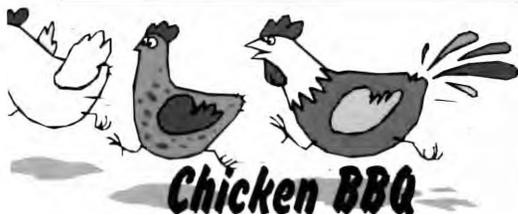

On May 12, 1904, festivities celebrating legislation that had been passed in Albany designating Cornell as the official New York College of Agriculture included a parade led by Liberty Hyde Bailey (then Dean of the College), fireworks, the largest bonfire Ithaca had ever seen, and a banquet that extended until the wee hours of the morning.

On May 12, 2004, exactly 100 years from the date of the original parade, the College will kick off its year-long Centennial celebration with a campus-wide parade that starts near Day Hall and ends in front of Fernow Hall. Academic department and student floats, antique cars, horse-drawn carriages, the Cornell equestrian team, the Cornell Pep Band, and other college revelers will march up Tower Road to Fernow. There a new flavor honoring the event will be revealed during the Centennial Ice Cream Social. Dean Susan Henry is encouraging the entire Cornell community to attend.

The Geneva Events Committee (formerly the Whale Watch Committee) is coordinating the Station effort and making plans now for the float. The theme is "celebrating the past, shaping the present, and inspiring the future." We are especially looking for students from SAGES to represent our "inspiring future."

To volunteer or participate, please call Gemma Osborne at X2248, or gro2@cornell.edu

Keep track of other Centennial lecture series, events, and symposia via the Centennial web site at www.cals.cornell.edu/centennial

A chicken BBQ to benefit the GHS class of 2004 Drug and Alcohol Free Graduation Party, Sunday, May 2, 2004 at the Town and Country Plaza.

Tickets are \$7 and can be purchased from Lorraine Barry, x2219, Cindy Huftalen, x2243 or Lou Ann Rago, x2301.

4th Annual Artists Among Us Art Exhibit and Spring Fling Dinner

The Station Club will be sponsoring the 4th Annual Artists Among Us Art Exhibit, which has been planned for April 28th and 29th this year. For the first time, the Art Exhibit will be held for two days, and we will be celebrating the event with a Station-wide International Spring Fling Dinner.

As you recall, we had a special Spring Fling a couple of years ago where staff brought a dish to pass (which represented their heritage and culture) and we shared in a sit-down dinner with various staff providing entertainment. We would like to host the same type of event in conjunction with this year's Art Show.

First, about the Art Exhibit

We will feature professional artists, closet artists, and doodlers; quilters, potters, and basket weavers; furniture craftsmen and wood wittlers, to name a few. Come see that spark of creativity that is hidden within each of us! We are an equal opportunity exhibit.

We look forward to another successful year and in sharing the talents of our Station family.

Secondly, our Spring Fling

All that is required is an R.S.V.P. (to ada10@cornell.edu), a dish-to-pass, and your own table setting. The Spring Fling Dinner will be held Thursday, April 29th beginning at 5:30 p.m. in the Jordan Hall Staff Lounge.

Thank you for your interest and participation!

Station Club and The Art Exhibit Committee (Holly King, Michele Mannella, David Kain, Gemma Osborne, Chaz Moser, Nestor Ortiz and Amy Andersen)

Pesticide Applicator Certification

WHAT: Annual Pesticide Applicator Certification Orientation (for new users of pesticides) and Pesticide Applicator Examination

WHY: The Cornell Pesticide Use and Application Procedures require that all new pesticide users at Cornell attend an orientation concerning the policies, procedures, and guidelines for safe and effective use of pesticides. At present, pesticide use is defined as any handling of pesticides, including:

- 1) pest control within buildings, outdoors, on University grounds, plants or animals;
- 2) teaching/demonstration of pesticide application(s);
- 3) recommendation of pesticide application or use;
- 4) pesticide-related efficacy testing, studies of impact on biological control agents, leaching, residue analysis, environmental fate, etc., and
- 5) transportation or storage of pesticides.

EXEMPTIONS:

- 1) Licensed veterinarians and licensed veterinary technicians working under the direct supervision of a licensed veterinarian in a vet facility are exempt from the requirement for certification when applying "general use" pesticides.
- 2) Small laboratory quantities of pesticides used for analysis and treatment of samples in a laboratory and in an environmentally non-dispersive manner are exempt from the requirement of attending the orientation.

WHO SHOULD ATTEND:

- 1) Anyone newly involved in, or who is expected to be involved in, pesticide use, as defined above.
- 2) Anyone involved in pesticide use, as defined above, who has not previously attended this orientation program.

WHEN: One afternoon and one morning, both required: May 11, 2004 12:00-3:30 and May 12; 8:15-12:00

WHERE: B15 Riley-Robb

REGISTRATION: All interested persons should contact Eric Harrington, 5-0485 or eh22@cornell.edu. We will discuss the categories of certification that you require, your eligibility, and other details as necessary. **PRE-REGISTRATION IS MANDATORY.**

ELIGIBILITY: You can become a Certified Commercial Technician if you have:

- completed a 30-hour training course or
- completed a bachelor's or associate's degree in a related field or
- have 2 years experience as an apprentice (applying under a fully certified applicator's supervision)

You can become a Certified Commercial Pesticide Applicator (fully certified) if you have:

- more than 1 year experience as a technician + 12 hours of category specific recertification training or
- more than 2 years experience as a technician or
- more than 3 years experience within the last 5 years as an apprentice or
- more than 3 years experience within the last 5 years as a private applicator or
- certification in a state with a NY reciprocity agreement (i.e. Pennsylvania)

Any person who cannot meet the education and/or experience requirements to become a technician or fully certified applicator must become a Commercial Pesticide Apprentice. An apprentice must receive 40 hours of pesticide use experience under the supervision of a certified applicator including 8 hours of "core" instruction. Apprentices must work under the direct supervision of a fully certified applicator until they have gained enough experience to become Technicians. Apprentices may attend the orientation program in January to receive hours toward their core training requirement. Apprentice training should be documented on the form "Documentation of Apprentice Training", available at <http://oeh.cals.cornell.edu/AppTrain.html>. More detailed information about supervising apprentices can be found at <http://oeh.cals.cornell.edu/>

(Continued)

(PESTICIDE, continued)

AppGuide.html.

Proof of Experience: Must be provided on letterhead from the certified applicator under whom you gained your experience and must be within the last 5 years.

Proof of Education: Must be provided via a copy of your degree or transcript, or a copy of the 30 hr course certificate.

You will be required to bring proof of experience and/or education to the exam not the orientation program itself.

REQUIRED READING: Each applicator needs to have: 1) a copy of the Pesticide Applicator Training Core Manual (Fifth Printing, 12/00; blue and white binder); 2) at least one category manual, for the specific category of certification, and 3) the Pesticide Applicator Handbook (PAH). In addition, anyone taking the category 1A exam (ag plant), category 2 exam (forest), or category 4 exam (seed treatment) must have a copy of the EPA How-to-Comply manual for information about the Worker Protection Standard. All manuals and the PAH are available from the PMEP Educational Resource Center at 255-7282. The Resource Center can send the manuals to a campus address through campus mail, and will take Cornell account numbers or procurement cards for payment. We will discuss the required category manuals when you call to register.

EXAM: The exam will be offered on campus by the DEC on Wednesday May 26, 2004. More details on the exam will be provided at the Orientation Training.

For more information, contact Eric Harrington, Assistant Director of Occupational and Environmental Health - CALS, at 8-5-0485 or eh22@cornell.edu

Position Available

Executive Director, available immediately @ American Red Cross in the Finger Lakes. Check out the website for a more detailed job description <http://www.redcrossfingerlakes.org/> or send resume with salary requirement and letter of interest postmarked no later than April 28, 2004 to ARC in the Finger Lakes, 34 Castle Street, Geneva, New York 14456, Attention: Search Committee.

CALENDAR of EVENTS

APRIL 23 - MAY 7, 2004

MEETINGS

Chairs and Directors

Date: Tuesday, May 4, 2004
Time: 3 PM
Place: 348 Morrison Hall

Geneva Chairs

Date: Wednesday, May 5, 2004
Time: 9:30 AM
Place: Director's office

SEMINARS

Plant Path

Date: Tuesday, April 27, 2004
Time: 3:30 PM, Coffee at 3 PM
Place: Rm. A113 Barton Lab
Speaker: Heather Melidossian, Geneva
Subject: Suppression of Grapevine Powdery Mildew by a Tydeid Mite

Food Science & Technology

Date: Wednesday, May 5, 2004
Time: 4 PM
Place: FS&T Conf. Rm., 2nd Floor
Speaker: Prof. David Pelletier, Nutritional Science, Ithaca
Subject: FDA's Regulation of GE Foods: Sorting Out the Science, Law and Politics

ENTOMOLGY

Date: Thursday, April 29, 2004
Time: 9 AM
Place: Rm. 310, Barton Lab
Speakers: Dr. Brian Olson, Senior Scientist in Field Research and Development, Dow AgroScience
Subject: Overview of the 2004 Agrichemical Business / Research and Development of Spinosad.

LTC

Date: Monday, April 26, 2004
Time: 9:30 AM - Noon
Place: Jordan Hall Staff Room
Subject: Dreamweaver Basics
Instructors: Clare van den Blink & Carrie Sanzone

(Continued)

SEMINARS CONTINUED

Date: Monday, April 26, 2004
Time: 1:30 - 4 PM
Place: Jordan Hall Staff Room
Subject: Dreamweaver Beyond the Basics
Instructors: Clare van den Blink & Carrie Sanzone

Date: Friday, April 30, 2004
Time: 8 - 11 AM
Place: LTC
Subject: Open Lab
Facilitator: Jane Irwin

SPECIAL SUMMER CLASS

English as a Second Language Summer Classes

Finger Lakes Community College will provide English as a Second Language (ESL) classes for 10 weeks this summer. These classes are free of charge and open to the community.

The ESL classes will be held in the Sawdust Cafe Tuesday and Thursday evenings from 6:30 - 9:00. The summer session will be May 25 through July 29, 2004.

FITNESS

Aerobics

Date: Mon. & Fri.
Time: 12:10 - 1 PM
Place: Sawdust Cafe

Taekardio

Date: Mon. & Wed.
Time: 12:10 - 1 PM
Place: Jordan Hall Auditorium

CLASSIFIEDS

SURPLUS VAN FOR SALE. 1994 Dodge Ram 250, 8 person, 126,643 K. Good condition, good people carrier w/cargo space. Minimum Bid \$1800. Submit sealed bids to Al Fairbrother at B&P, bids will be opened on April 30th at 2:00p.m. For vehicle questions, contact Bernice Anderson, x2281 between 8:00a.m. and 1:00p.m.

FOR SALE: Little League Dug Out Cards. Support the Seneca Falls, Geneva, Penn Yan and Seneca Little Leagues. Use the card to get discounts at Burger King, Subway, Arby's, Mc D's, Ponderosa, Friendly's, Mark's Pizzeria and many more establishments. Cards are \$10. each.
