

THE STATION NEWS

VOL. 5, No. 27.

December 30, 1925

Geneva, N.Y.

THE NEWS with this number greets the fifth New Year of its existence. If it is true that the first five years are the hardest, then we look forward with pleasure to the years ahead, with the hope that the pleasant relationships thus far established will continue. In its short existence the NEWS has seen four different sets of New Year's resolutions carefully embarked upon their twelve-month journeys, and it has patiently stood by when one by one they have met their fate upon the rocks. However, the NEWS again resolves to help continue and promote the general feeling of good will among the members of the Staff and extends wishes for a happy and prosperous New Year.

"BILL" HARMAN is spending the holiday recess at the Station, but plans to return to Cornell next week.

A SYRACUSE paper of last Sunday carried the picture of Miss Hazel Hefferon, formerly a technical assistant in the Bacteriological Department. Miss Hefferon carried off the honors as "Tiny Tim" in a Christmas pageant staged by the University of Syracuse, and won recognition by the "picture section" of the HERALD

DR. VAN SLYKE is spending the Christmas season in New York with his son, D. P. Van Slyke.

DR. ANDERSON is in Rochester attending a meeting of the American Chemical Society. Incidentally, the Rochester DEMOCRAT & CHRONICLE, generally noted for its veracity, lists Dr. Anderson as "Director of the Experiment Station at Geneva".

FRIENDS of Prof. C. S. Plumb will regret to learn that he met with a painful accident last week. While waiting for a trolley he was struck by an automobile and sustained several broken bones. His condition is considered serious. Prof. Plumb is a brother-in-law of Mr. Newton and was at one time Vice Director of the Station.

MISS LUCILE ROGERS of Cornell will spend the week-end with Miss Lida Thatcher.

THE ENTOMOLOGY AND HORTICULTURE departments are preparing their exhibits for the annual Horticultural Meeting in Rochester on Jan. 13-14-15. The display this year will be larger than that of previous years and will be arranged on the same general plan as adopted at the State Fair last fall.

---

MR. AND MRS. LUCKETT will return to Geneva the latter part of the week, following an extended visit in Indiana. We welcome the Editor's return and again hand him the reins to the NEWS.

---

THE NEXT Station Club card party has been planned for Friday evening, January 8th. Bridge and Five Hundred will be the chief games for the affair.

---

ACCORDING to present information, the "Madison Pullman Special" left without its "Conductor". For further information, see Dr. Hucker. He knows.

---

MISS MCGUIGAN returned to the hospital last week for another operation. We understand that "Millie" is progressing nicely and hopes to return to work in the near future.

---

MR. AND MRS. CHURCHILL are spending the Christmas season with their daughter in North Pelham, N.Y.

---

MR. NEWTON completed his 42nd year at the Station yesterday. We understand he intends to make it an even fifty.

---

AN attractive bead bag was picked up in the auditorium following the Christmas party. The owner may have the same by calling at the office for it.

---

MRS. HOAG is still confined to the house as the result of her fall from the trolley.

---
