

STATION NEWS

Vol. 49, No. 3.

July 16, 1947.

Geneva, N. Y.

ON WAY TO COPENHAGEN

Doctor Breed leaves LaGuardia Airport today for Copenhagen, Denmark, where he will attend the fourth International Congress for Microbiology to be held there July 20 to 26. He will return by plane on July 29th. Doctor Breed will discuss the classification and identification of bacteria before the Nomenclature Committee of the Association of Microbiologists of which he is honorary joint secretary. He will also participate in a conference on the further development of type culture collections in London, Paris, and Washington in relation to the expansion of this work under the auspices of UNESCO at Lausanne, Switzerland. Doctor Breed is making the trip to Copenhagen at the special invitation of Professor Th. Madsen, President of the Congress, and Professor S. Orla-Jensen, Vice President, both of Copenhagen. Members

of the Division of Food Science and Technology served tea in honor of Doctor Breed last Friday afternoon in Daguerre Hall.

WIDE REPRESENTATION

Although only about fifteen small fruit specialists attended the raspberry field day here on Monday, it was quite a representative group. Numbered among the scientists were several from the U. S. Department of Agriculture at Beltsville, Md., together with workers from the Maryland, North Carolina, Virginia, New Jersey, and Pennsylvania experiment stations. The group spent yesterday visiting nearby raspberry plantings.

APPLE INSTITUTE

Doctor Heinicke addressed members of the New York and New England Apple Institute Monday evening at their meeting at the Gannett Farm near Rush, N. Y. An opportunity was provided members of the Institute who cared to do so to visit the Station yesterday afternoon.

FIRST APPEARANCE

Over Station WGVA--1240 on your dial--Friday, July 18th, at 12:30 p. m., Doctor Heinicke will appear in person to inaugurate a regular weekly news feature from the Experiment Station as part of the farm program of WGVA. He will speak briefly on the relations of the Experiment Station to its new neighbor--WGVA--and his talk will be followed by a digest of news about the Experiment Station prepared by George Axinn. The news broadcast--a five minute feature--will be a regular part of the farm program over WGVA each Friday at 12:30.

LOST: EYEGLASSES

One of the visitors here for the raspberry field day lost a pair of eyeglasses, possibly on the Fruit Breeding Farm. Anyone finding them is requested to get in touch with Professor Wellington,

TWO NEW ARRIVALS

Our congratulations to Mr. and Mrs. Frank Kopko and Mr. and Mrs. Henry Bennett on the arrival of daughters in their families. Judith Corinne Kopko was born on June 29th and Evelyn Kay Bennett on July 13th.

VISITORS

Among recent visitors to the Station was one group all of whom have occupied prominent places in New York agriculture. It was comprised of Judge Berne A. Pyrke, former Commissioner of the Department of Agriculture and Markets; Jared Van Wagenen, Jr., prominent farmer and writer; and H. B. Knapp, Director of the School of Applied Agriculture at Farmingdale, Long Island.

GOING TO MICHIGAN

Representatives of the New York State Horticultural Society met with Doctor H. B. Tukey recently to arrange for a tour of Michigan fruit areas by New York fruit growers August 4 and 5. In a prospectus of the tour, it is stated that Michigan grows 60 per cent as many apples as New York, two to three times as many peaches, and twice as many cherries.

MORE VETERANS COMING

A group of World War II veterans from Seneca and Tompkins counties are planning a visit to the Station on the morning of Saturday, July 26th. The trip is being arranged by their adviser, R. H. Whitehead, agricultural teacher at Ovid Central School.

PICTURES?

Dick Maurer, photographer for the Department of Extension Teaching and Information at Ithaca, will be at the Station tomorrow and Friday. Those having subjects to be photographed at this time may get in touch with Mr. Lockett for appointments with Dick.
