

STATION NEWS

Vol. 49, No. 11.

September 10, 1947.

Geneva, N. Y.

BEGINNING NEXT MONDAY

Beginning Monday, September 15th, and until further notice, the official hours at the Station will be 8:15 a. m. to 12:00 noon and 1:00 to 4:30, Monday thru Friday, and 8:15 to 12:00 on Saturdays.

NAMED TO COMMITTEES

Vacancies on two of the standing committees of the Staff occasioned by Doctor Stotz's resignation were filled at the Staff meeting last Monday when Doctor Glasgow was named to the Policy Committee and Doctor Foster to the Graduate School Committee. The recommendation of the Publications and Information Committee that the Staff adopt names for the Station buildings was approved as follows: Administration building, Jordan Hall; horticultural building, Hedrick Hall; old dairy building, Sturtevant Hall; the entomology and chemistry buildings to retain their present names, pending the construction of new buildings which will replace them. The Staff action will now go to the Cornell Board of Trustees for consideration. Whether it was the lure of the meeting place--Daguerre Hall--the weather, or what have you, the attendance at Monday's meeting was very nearly a record. Doctor Breed presided in the Director's absence.

TO BE GUEST OF HONOR

Assoc. growth

The New York State Sanitarians, successors to the New York State Food and Dairy Inspectors, are holding their annual meeting in Utica next week, beginning Wednesday, the 17th, and will have Doctor Breed as their guest of honor at their banquet. Special recognition will be made at that time of his forty years of service to the New York dairy industry.

CHEMISTS CONVENE

The annual meeting of the American Chemical Society in New York City, beginning Monday, the 15th, will attract several of the Station chemists. Among those planning to attend sessions in their special fields of interest are Doctor Rice and Doctor Carpenter, both of whom are presenting papers, and Doctor Kertesz and Doctor Sondheimer.

FULL TIME FARMER

Henry Bennett has resigned his position with the USDA and is planning to devote full time to his farming operations on the Lyons Road.

BACK AT "SCHOOL"

George Axinn is spending some time in Ithaca this week for intensive training in Elmer Phillips' studio on some of the fine points of picture making and finishing.

DANISH SEED TESTER

Mr. Arne Kjaer (pronounced "Care"), Assistant Director of the Government Seed Testing Station in Copenhagen, Denmark, spent two days last week with Professor Munn and other members of the Division of Seed Investigations.

PAINFUL INJURIES

Miss Anne Hucker suffered severe injuries in an automobile accident near Ticonderoga over the Labor Day week-end. She is now in a Ticonderoga hospital but hopes to be able to be moved to Geneva within a few weeks. Our best wishes for a complete recovery--and that as soon as possible!

CHANGE OF ADDRESS

Mr. and Mrs. H. G. Beattie and Dick paid a brief visit to Geneva friends last week. The Beatties are moving to the Hotel Irving at 26 Gramercy Park, New York 3, about the 15th of the month.

FROM OXFORD UNIVERSITY

Among recent visitors was Professor E. H. Leach of the University of Oxford who called on Doctor Conn. Professor Leach is interested in starting biological stain standardization work in England similar to that under way in this country under Doctor Conn's direction. He was seeking details of the operation.

FROM NORWAY

Mr. Egil R. Andresen, a fruit grower from Moss, Norway, is spending this week at the Station to observe work in fruit production and with nursery stock.

SIXTH EDITION

The Williams and Wilkins Company is announcing the publication of the sixth edition of Bergey's "Manual of Determinative Bacteriology". "Not just another edition but a completely new book", reads the announcement. Doctor Breed has served as Chairman of the Editorial Board charged with the revision of the Manual which has been over four years in the making.

TO WED SATURDAY

According to an account in the Geneva Daily Times, Miss Beverly Collison is to be married next Saturday to Mr. Alfred Neussl of Healdsburg, Calif. Miss Collison is the daughter of Professor and Mrs. R. C. Collison who now make their home at Geyersville, Calif., following Professor Collison's retirement from the Pomology Division here in 1945.

KEGLERS ATTENTION!

Two bowling teams are being organized at the Station to participate in a new league at the Geneva Bowling Center. The new circuit is to be known as the Commercial League, and will bowl every Tuesday evening at 8:45. Thus far, 17 prospects have been signed up and divided into two teams, as follows:

#1

#2

Dr. Vittum
Dr. Robinson
Mr. Stepanek
Dr. Foster

Dr. Braun
Mr. Young
Dr. Schroeder

Mr. Emery
Mr. Hening
Dr. Rice
Dr. Bledsoe
Mr. Kokoski

Dr. Pearce
Dr. Cain
Dr. Curtis
Mr. Rickey

Both teams need help! If anyone else is interested, please contact Mr. Emery in bacteriology, Mr. Young in Plant Pathology, or Doctor Vittum in Vegetable Crops, and sign up.

PLANS IN THE MAKING

The Executive Committee of the Station Club met with Mrs. Hervey yesterday afternoon to make preliminary plans for the fall dinner and annual meeting. Watch this space for further details.
