

THE STATION NEWS

Vol. VI, No. 22.

June 2, 1926

Geneva, N.Y.

DR. HEDRICK returned to Geneva yesterday after a six months' sojourn abroad. The trip was most enjoyable and profitable, he says, particularly the time spent in Sicily. From our brief conversation with Dr. Hedrick, it is plainly evident that he will have many things of interest to tell at future Staff meetings. Mrs. Hedrick is spending a few days in Ithaca getting acquainted with her new grandson.

WE TAKE pleasure in making the following announcement:

The marriage of Dr. L. L. Van Slyke and Mrs. Hedwig Shaul took place this afternoon (June 2) at one o'clock at the summer cottage of Rev. and Mrs. Edwin H. Dickinson on Cayuga Lake, Sheldrake Springs. The ceremony was performed by Dr. Dickinson, assisted by Dr. Frank M. Weston. The guests were Miss Hilda Shaul of New York City; Dr. and Mrs. Donald D. Van Slyke of New York City, Rev. and Mrs. Lawrence P. Van Slyke of Oaxaca, Mexico, Mrs. Frank M. Weston of Geneva, and Dr. and Mrs. R. S. Breed of Geneva.

Dr. and Mrs. Van Slyke will be at home after August first at their residence at the Experiment Station on West Castle Street.

The NEWS extends congratulations and best wishes and takes this opportunity to welcome Mrs. Van Slyke into the Station group.

DR. HUCKER was called to his home in Iowa last Sunday upon the death of an aunt. He will probably return to Geneva early next week.

THE PLANT operated by Dr. Ernest Baker in Rochester was destroyed by fire last week. Dr. Baker was at one time a member of the Chemistry Department where he was engaged in casein investigations. For a while after leaving the Station he was employed as chemist at the Patent Cereal plant in this City.

MR. HARTZELL is spending a few days in Fredonia, and among other things, hopes to close up a deal for his property there preparatory to moving his household goods to Geneva.

MR. DANIEL spent the week-end in Geneva, returning to Fredonia Sunday. We understand that Derril has added the Charleston to his many other accomplishments. The Entertainment Committee pleast note.

MR. AND MRS. STREETER and Miss Anne Streeter left for Vermont and Maine last Friday. Miss Brooks accompanied them part way for a week-end vacation.

- - - - -

PROF. BREW is expected to spend the next few days in Geneva and vicinity making a survey of the City milk supply.

- - - - -

DR. AND MRS. JONES and Mr. and Mrs. Pederson returned to Geneva Monday by auto, following a month's vacation in Wisconsin.

- - - - -

MR. MARQUARDT successfully completed work at the College of Agriculture at Ithaca last week for his master's degree. Congratulations!

- - - - -

TENTATIVE plans are under way for the Station picnic. Just at present it seems probable that the time will be the last week in June and the place the Station pasture.

- - - - -

WITH VACATION time at hand and other distractions of the summer, State Fair exhibitors are urged to begin EARLY to make plans for their exhibits. Specifications for carpenter work at Syracuse should be in the hands of the State Fair Committee early next month, and copy for charts or any other work needed along that line should be handed in at the earliest possible date.

THE NEWSPAPERS have been commenting on the fact that out of a small salary a professor of mathematics at Columbia University who died recently managed to accumulate an estate of some \$50,000. It seems, however, that he accomplished the feat by a sort of Dr. Jekyll and Mr. Hyde existence, posing under an assumed name as a "bookkeeper" outside of the University circle and thus maintaining a standard of living that better fitted his income. At least he had the courage of his convictions.
