

THE STATION NEWS

Vol. VIII, No. 15.

October 13, 1926.

Geneva, N.Y.

MR. COLLISON, on behalf of the Staff Business Committee, announces that tentative plans of his committee provide for much the same sort of programs for the Staff meetings this coming year as were followed during the past year. This will call for reports by various members of the Staff on the progress of their research projects or accounts of scientific meetings which they may attend, together with three or four supper meetings to be addressed by prominent outsiders. Details for the November meeting will be announced at a later date.

PROF. WORK of the College of Agriculture brought his class in vegetable variety classification to the Station last Monday for an inspection of the squash varieties assembled here. Mr. Hall and Mr. Hawthorn conducted the party over the plats.

SPEAKING of squashes, Mr. Hall posted a notice today stating that squashes and pumpkins may be had by placing orders in Box 7 in Jordan Hall. The squashes range in price from 5¢ to 50¢, depending on the size and quality, while the pumpkins will cost from 5 to 10¢ for the small, pie size and 10 to 25¢ for the larger kinds.

MRS. VAN ALSTYNE and small son arrived in Geneva last Thursday. The Van Alstynes will occupy the Anderson residence until next fall.

MR. AND MRS. PRICKETT have moved into their new home at 13 Universal Avenue.

MRS. CARPENTER leaves tomorrow for a two weeks visit at her home in Ann Arbor. She is looking forward to seeing Michigan get off to a good start in the western Conference in its game with Minnesota on Saturday.

DR. BREED and Dr. Conn are attending sessions of the American Public Health Association in Buffalo this week. Miss Thatcher is also in Buffalo in charge of an exhibit of biological stains.
