

THE STATION NEWS

Vol. IX, No. 10.

September 7, 1927.

Geneva, N.Y.

ANNOUNCEMENTS of the marriage of Miss Lenore Treat of Spring Valley, N.Y., to George Howe last Saturday at Long Point, Lake Champlain, were received by a large number of the Station group this week. Mr. and Mrs. Howe will make their home at 169 Lafayette Avenue. Congratulations!

ALSO on Saturday, Dr. Schultz, chief chemist for the Patent Cereal Company and well known to many members of the Staff, married Miss Ruth Follett. Dr. and Mrs. Schultz will also reside at 169 Lafayette Avenue.

A COMMUNICATION from Dr. Thatcher tells of their safe arrival at Amherst and their delight in their new surroundings. The trucks carrying their furniture arrived about an hour after they did and the house was soon in a livable condition.

COL. C. B. SAYRE is spending two weeks at a regular Army camp near Watertown where he will command regular Army troops in his capacity as a reserve officer in Field Artillery. Mrs. Sayre has gone to her home in CHAMPAIGN, Illinois, where the Colonel will join her later.

AMONG the distinguished visitors who spent some of their time at the State Fair in or about the Station exhibit were Governor Smith, Commander Byrd, Commissioner Pyrke, Dean Mann, Mrs. H. C. Hockett, and "Bill" Wall and family.

ONCE MORE, we ask that all claims against the State Fair account be filed with Mr. Bowen or Mr. Luckett not later than September 15th.

MR. WALSH is spending his vacation in Syracuse.

MRS. VAN ALSTYNE and John returned from the Hudson Valley yesterday. The Van Alstynes are making their home in the McKay apartments at 22 De Lancy Drive.

- - - - -

MISS MARY FAHY, formerly with the Patent Cereal Co., has been appointed to the position made vacant by Miss Brennan's resignation as stenographer in the Horticultural Department.

- - - - -

ARTHUR CLARK has been drawn on the Federal Grand Jury which convenes in Canandaigua on September 17th.

- - - - -

MR. E. E. Metcalf of the Essex County Agricultural School at Hathorne, Mass., is spending the week at the Station in a study of the vegetable variety work.

- - - - -

DR. L. F. Chao and Dr. Hsieu-Wen Li, of Tsing Hua College, Peking, are inspecting the fruit work at the Station. Both of them have been spending some time in various American Universities.

- - - - -

THE NEW YORK Fruit Testing Cooperative Association, Mr. H. L. King, Manager, will hold its regular annual business meeting in Jordan Hall on Thursday, September 15th. The meeting usually brings together a representative group of fruit growers interested in the Station's new fruit introductions. There will be an exhibit of such of the new fruits as are in season at the time.

- - - - -

THE NEXT flower show at the Station will be a dahlia show and will be held sometime during the week of the 19th, in all probability.

- - - - -

IT IS reported that George Slate recently paid a visit to the trappist monastery near Montreal where experimental activities start at 2 A. M.

WE ARE indebted to one of our valued correspondents for the following:

"We have heard of dressing flax to make it look like silk, but we have never heard of making silk out of tow. According to a press report this task has been left to Rev. Francis Herron of St. Clair Township, Pa., who recently united in marriage Mr. Wm. Silk and Miss Lucinda Tow."
