March 19, 1930.

Geneva, New York

**MORE ABOUT PARKING** : The Staff committee delegated to give the parking conditions on the Station grounds their careful consideration met the situation by designating, with the approval of the Director, a permanent committee on parking composed of Dr. Willaman, chairman, Mr. Bowen, and Mr. Corcoran. This committee has met and has drawn up certain proposals about parking that will be sent to each member of the Staff very soon. As a guide for their deliberations, Dr. Willaman made a survey of the number of cars parked about the Station at four different times, together with an estimate of the capacity of available parking spaces. His findings, which follow, may be of interest in connection with the recommendations to be made by the committee.

It may be said that the committee is striving for three things in particular at this time, namely, to eliminate all parking of Station cars on North Street, to do away entirely with parking in the driveway west of the Biology Building, and to preserve the lawns.

**SPRAY SERVICE** : A group of spray service specialists employed by the Farm Bureaus in the fruit counties of the State spent most of last Saturday at the Station in conference with members of the Entomology Division on details pertaining to the 1930 spray program.

**SUCH A NIGHT!** : They asked for a fight, and they got a riot. But then, what could be expected from such close proximity of the O'Briens (always first), the Maloneys, the Flanagan's, and the Murphys? Efforts of the "cop" to keep these families in their own backyards Monday night at the Station Club's "Pugilistic Party" soon proved futile, and private and family struggles for the trophies awarded as prizes for various contests between these belligerent groups were still waging with little sign of abatement when our correspondent extricated himself from the fray at a late hour with the honors of the evening resting securely in the grasp of the O'Brien clan. We have been going to Station parties man and boy for many years, but never before have we seen the committee's efforts to "mix up" the crowd attain the degree of success that prevailed at Monday night's affair. We can only mention in passing Kathleen in all her girlish beauty, and the selection of Irish songs so delightfully rendered by Mrs. Sweeney with Mrs. Willaman at the piano and Dr. Willaman with the flute, and the program and refreshments prepared by the committee of which Dr. and Mrs. Horsfall were the head with the Hawthorns, Mrs. Collison, the Slates, the Sweeneys, the Herveys, and the Harlans assisting. It was a great night for the Irish, and they made the most of it!

**GRANGERS HERE TODAY** : Grangers from Yates, Seneca, and Ontario Counties are meeting in the auditorium in Jordan Hall today.
