

The Station News

Vol. XV, No. 13.

September 24, 1930.

Geneva, N. Y.

-----:
A SUCCESSFUL MEETING: There was a keen interest in the fruit exhibit and the addresses delivered at the twelfth annual meeting of the New York State Fruit Testing Association held at the Station on Thursday, September 18. A limited number of those in attendance remained until Friday and availed themselves of the opportunity to inspect in detail the Station fruit work. Contrary to Mr. King's forecast the weather for the meeting was very favorable.

-----:
MEMBERSHIP AND OFFICERS: It was reported at the Thursday meeting that the Fruit Testing Association has 1400 members. The following officers were elected for the coming year: President - B. D. Van Buren, Niverville, N. Y.; Vice-President - L. J. Clinton, Memphis, N. Y.; Secretary and Treasurer - Richard Wellington, Geneva, N. Y.; Manager - H. L. King, Geneva, N. Y. The Board of Directors is as follows: M. C. Burritt, Hilton, N. Y.; U. P. Hedrick, Geneva; Fred A Smith, Hawthorne, Mass.; George A. Moore, Williamson; Frank B. Smith, Castleton.

-----:
THE GROUNDS: At the Fruit Testing Association meetings complimentary remarks concerning the Station grounds were made by some of the visitors. This reflects credit to those directly responsible for beautifying the Station grounds. Some of our visitors were also favorably impressed with the parking arrangement. The parking committee can, therefore, feel that their determined efforts are producing desirable results.

-----:
STATE COLLEGE COUNCIL: The fall meeting of the State College Council will be held at the Station on Saturday, September 27.

-----:
THE VAN ESELTINES RETURN: The Van Eseltines have returned to Geneva from an extended trip to Europe. The main objective of their travel was the Meeting of the International Plant Congress held at London. Glen reports that the meeting was an inspiration, and that he is ready to do more and better work as a result of his experiences.

-----:
GOES TO BINGHAMTON: Dr. A. C. Dahlberg visited Binghamton during the past week. The purpose of the trip was to observe in the field the use of the new milk strainer developed at the Station. The new strainer was perfected by Dr. Dahlberg in cooperation with Dr. Drew of the Dairymen's League.

-----:
GO TO CUBA: Dr. Hucker, Mr. Kelly, and Mr. Marquardt were at Cuba, N. Y., on September 19. The purpose of the trip was to note the quality of cheese prepared with special cultures being studied by the department of bacteriology. This study completes Mr. Kelly's efforts at the Station before going to Cornell University. It is gratifying to be able to report that the studies are producing significant facts concerning the role of bacteria in producing flavors in cheese.

-----:
RETURNING TO ITHACA: After attending to numerous details concerned with his work at the Station Mr. Einset plans to return to Ithaca for graduate study. Olav is a busy man attempting to have the details of his work in perfect order before his departure.

-----:
NOMINATING COMMITTEE MEETS: Anticipating a spirited election at the Station Club Meeting on October 6, the nominating committee started its activities during the past week.

-----:
CONCERNING MEMBERSHIP: All members of the Station staff are eligible for membership in the Station club. New members of the Station staff are admitted to the club by signing its constitution.

-----:
THE SERIES: Station fans are looking forward to their opportunity of hearing a play by play description of the World's Series.

-----:
MOVE TO : The Kellys moved to Ithaca on Monday, As previously noted in the NEWS,
ITHACA : Mr. Kelly plans to continue his graduate studies at Cornell.
-----:

-----:
BUS SERVICE: A bus line between Seneca Castle and Geneva has been established as a
-----: substitute for the old trolley. Altho we do not have the new schedule,
the NEWS has the information that the bus will stop at the Station to receive or
discharge passengers. Further information on the bus service will appear in the NEWS
at a later date.
-----:

-----:
ENGLISH : English and Science is the title of a book recently received at the
AND : Library. In view of the fact that this book is highly recommended by
SCIENCE : Dr. Willaman and members of his department, we suggest it to other
-----: members of the staff.
-----:

-----:
A NEW : The Library has been presented with the last four volumes of "The
JOURNAL : Journal of Chemical Education", and current numbers will be available
-----: upon application to the library.
-----:

-----:
SOME : The following periodicals are missing from the Library:
MISSING :
COPIES : The Creamery and Milk Plant Monthly, August, 1929;
-----: Journal of Agricultural Research, Volume 40, No. 12, 1930.
-----: Biochemische Zeitschrift, Volume 212, No. 4-6, 1929.
-----:

The NEWS IS ASSISTING the Library Committee and the Librarian in locating lost
periodicals. Your cooperation in this service will be appreciated.
-----:

-----:
THE FIRST: Volume 1, Number 1 of "Concentrated Milk Industries" arrived at the
EDITION : Station during the week. An article by Mr. Marquardt dealing with skim
-----: milk powder studies was presented in the first number. The new publica-
tion is supported by the American Evaporated Milk Association and the Dry Milk
Institute of America.
-----:

-----:
AN : Thru the courtesy of the U. S. Chamber of Commerce, we are informed
INSPIRATION: that the handling of milk and its products comprises the largest indus-
-----: try in the United States. The information is furnished in the interest
of the National Dairy Show to be held at Cleveland this fall. It is gratifying to
the Station to record that its dairy research activities have always occupied a
prominent place at this Exposition. This year Drs. Breed, Carpenter, and Dahlberg
are listed on the program.
-----:

-----:
MISS CURTIS: It was reported in the last issue of the NEWS that Miss Curtis was
IMPROVING : confined to her home with a severe case of neuritis. At this time
-----: we are able to report that she has almost completely recovered from
the painful experience.
-----:

-----:
THE : Dr. and Mrs. C. E. Sayre of Norfolk, Nebraska are visiting Mr. and Mrs.
SAYRES : Sayre, Jr.
-----:

-----:
CABBAGE : The Ontario County Farm Bureau had a meeting at the Station last Friday
EXPERIMENTS: to see the cabbage fertilizer experiments on the **canning** crops farm.
-----: A group of cabbage growers and county agents from Wisconsin were also
here at that time.
-----:
