

The Station News

Vol. XXVI, No. 16.

April 22, 1936.

Geneva, N. Y.

OVERSUBSCRIBE : Everyone may feel justly proud of the record made by the Experiment QUOTA : Station in the 1936 Community Chest Drive just completed. The quota of \$450.00 was oversubscribed by approximately ten percent, not including so-called "Big Gifts" amounting to \$155.00.

CHEMISTS : There will be a meeting of the Chemists Club on Friday evening of this CLUB : week in "Daguerre Hall" at eight o'clock. Dr. Carl R. McCrosky of the Chemistry Department, Syracuse University, will speak on "Selenium and its Compounds". Dr. McCrosky will consider not only their properties but also their application to industry.

A. A. A. S. : Mr. Munn met with members of the local committee at Rochester, Saturday COMMITTEE : day morning regarding arrangements for the meetings of the American Association for the Advancement of Science to be held in Rochester and Ithaca in June. The Association of Official Seed Analysts of North America, after a three days session in Rochester, will move to the Station for a one day visit and conference at the seed testing laboratory here. Undoubtedly other visitors will appear at the Station at that time.

GOAT : Delegates from Long Island, the Hudson Valley, Chautauqua County, and central New York attended the spring meeting of the New York State Goat BreedERS ASSOCIATION held at the Station Saturday afternoon. An entertainment feature of the meeting consisted of the showing of 3,000 feet of standard film of the Stevens herd. The film was loaned to the Station by the Reverend Mr. Mairs of Middlebury, Virginia.

Mr. Sahler and Mr. Dawes who have followed the Station work in the Hudson Valley since its beginning were in attendance. These men are recognized breeders of Saanen goats.

NEW : Mr. Hamilton, Jr. Entomologist of the Bureau of Entomology and Plant Quarantine of the U. S. Department of Agriculture, was in Geneva yesterday enroute to Poughkeepsie and the Station laboratory there. Mr. Hamilton will take up work on a cooperative project on the codling moth under the supervision of Dr. Chapman. Dr. B. A. Porter of Washington, D. C., will come to Geneva today to discuss plans for carrying out this project.

IN : Dr. Reed was in Ithaca yesterday when he spoke over WESG on green-tip and ITHACA : delayed dormant sprays for apples.

FROM : Professor C. J. Hunn brought his advanced class in plant propagation and ITHACA : nursery management to the Station last Thursday afternoon to look over the work here in plant propagation and rootstocks.

CHEMICAL : Eight representatives of the chemistry division attended a meeting of the "MEET" : American Chemical Society in Rochester, Monday evening.

MARRIED : Mr. and Mrs. Aubrey W. Crawford who were married in the James Street
SATURDAY : Episcopal Church, Syracuse, New York, on Saturday morning left immediately
following their wedding breakfast for a trip south. Plans called for a short visit with Mr. Crawford's mother in Calhoun, South Carolina. Charleston was the most southerly point in their itinerary. It is expected that the Crawfords will spend a little time in Washington, D. C.

The heartiest congratulations of the Station group is extended.

ON THE: Dr. and Mrs. Goresline are in Buffalo this week where Mrs. Goresline is to undergo an operation. It is to be hoped that the Goreslines may be able to return to Geneva shortly.

MR. MURRAY : Mr. Murray, caretaker of the Chemistry Building, was taken ill last week and was operated on last Friday. Mr. Murray is progressing satisfactorily but may be confined to the hospital for some little time.

DAIRY : Dr. H. C. Supplee, a Director of Research of the Borden Company, addressed SEMINAR : the Dairy Seminar in Ithaca, Monday afternoon. Dr. Dahlberg, Mr. Marquardt, Mr. Hening, and Dr. Kucera of the dairy division attended.

BACK IN : Mr. and Mrs. Myers who have been in Geneva for the past three months WASHINGTON : have returned to Washington, D. C. Mr. Myers has been assisting Dr. Goresline and Dr. Beavens in analytical work in connection with fruit juice studies. Mr. Myers expects to return to Geneva sometime during the summer to continue his work here.

SOME : Mr. Lewis, Mr. Fisher, and Mr. Jarett of the Agricultural Division of the VISITORS : U. S. Tariff Commission spent sometime at the Station on Monday afternoon with Dr. Hedrick and Dr. Tressler.

PREMIO DE : The publications division is in receipt of a letter from Santiago de HONOR : Chile announcing the award of "Premio de Honor" and stating that "El Diploma" will be forthcoming soon. To start back--in September, 1935, a request came to the Station for a number of our publications to be entered in An American Exhibition of Agricultural Publications to be held by the Institute of Agronomical Engineers of Santiago, Chile. The fruit and vegetable books together with a large number of bulletins and Dr. Hedrick's "History of Agriculture in the State of New York", were consigned to Santiago. Nothing further had been heard from the project until this week when the statement of the award was received.
