Geneva, N. Y.

FOR THE HEDRICKS

Plans are rapidly taking shape for a reception for Dr. and Mrs. Hedrick for the evening of February 5. The affair will be held in Jordan Hall from 8:00 to 10:00. Save the date and watch this column for further details.

A HUGE SUCCESS

The "Basket Social" was a complete success from all angles--gorgeous baskets, an auctioneer unsurpassed in technic and in ability to produce results, a good crowd, and interesting and beautiful movies. The committee in charge of the event, headed by Mrs. Mack, are very appreciative of the support given the event and report that the Club treasury will be enriched by \$40.00 or more. This is good news indeed to those who have had to scurry round and borrow dishes and silver for Club affairs that required the serving of a meal as it will now be possible to replenish the stock of these necessary utensils. And everyone enjoyed thoroly Dr. Dahlberg's pictures and his brief remarks on impressions of Germany.

THE GARDEN CLUB

Dr. and Mrs. Hedrick will be hosts to the Geneva Garden Club tomorrow evening at their home on South Main Street. The Club will hold its annual business meeting and election of officers, and in addition will have as its guest speaker, Mrs. H. P. Weld of Ithaca, who will give an illustrated talk on "English Gardens". Also, two Junior Garden Club girls will tell of their experiences last summer. The meeting will get under way at 8:00 o'clock.

THE CHEMISTS' CLUB

The Chemists' Club is meeting in Jordan Hall Friday evening at 7:30 with Dr. W. R. Bloor of Rochester University School of Medicine as guest speaker. Dr. Bloor's topic will be "The Oxidation of Fats". Several members of the Club are planning to have dinner with Dr. Bloor at Fairchild's Restaurant at 6:00 o'clock and anyone wishing to attend the dinner is asked to notify Dr. Norton.

FORMERLY ASSOCIATED WITH DR. THATCHER

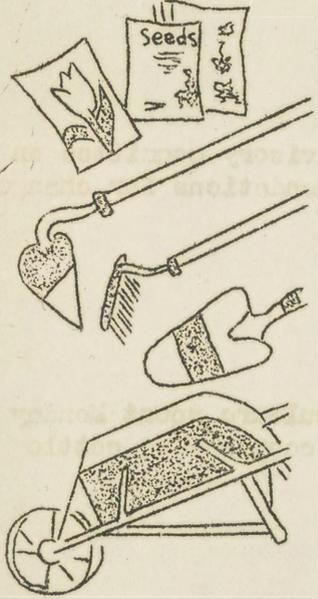

Dr. Carl L. Alsberg, at one time closely associated with Dr. Thatcher and formerly Director of the Food Research Institute at Stanford University, has recently been named Director of the Giannini Foundation at the University of California at Berkeley.

IN BERMUDA

Dr. and Mrs. Nebel leave this week for a brief vacation in sunny Bermuda.

TALKED ON RASPBERRIES

George Slate was in Sheridan last Friday to talk to Chautauqua County fruit growers on raspberry culture.

ATTENDING CANNERS MEETING

Mr. Sayre left for Chicago Sunday night to attend the meetings of the National Cannery Association being held in that city all of this week. Mr. Sayre appears on the program for four talks dealing with his fertilizer placement experiments and variety and other tests with sweet corn, peas, and tomatoes.

VISITORS FROM ITHACA

Prof. W. C. Muenscher and a group of juniors, seniors, and graduate students in botany from Cornell spent Saturday morning with Mr. Munn inspecting the work of the Seed Laboratory and discussing seed testing in general.

BARNSTORMING

Dr. Tukey and Mr. Harman have a heavy schedule of Farm Bureau meetings in Niagara, Orleans, Monroe, and Wayne counties for the next two weeks, beginning next Monday in Niagara County. Dr. Hamilton will join them in Orleans County for part of their tour. These trips generally involve two meetings a day and are a real work-out for the professors.

STATE SANITARY CODE

Dr. Breed was called to Albany recently to serve on the advisory committee on sanitation of the State Department of Health to consider recommendations for changes in the State Sanitary Code governing milk and cream.

COOPERATIVE WORK

Prof. R. H. Smith of the United States Department of Agriculture spent Monday in Geneva conferring with members of the Dairy Division on the cooperative cattle feeding experiment which is in progress.

IN NEW YORK

Dr. Conn will go to New York Friday for a conference regarding the future of the work on standardization of biological stains with the possibility of further development of this useful work.

LIBRARY ADDITIONS

The following have been added to the Library recently:

Hegi. Illustrierte Flora von Mittel-Europa.
