

# STATION NEWS

Vol. XXXIII, No. 19.

November 15, 1939.

Geneva, N. Y.

## A TRAVEL TALK

A public lecture to be illustrated by lantern slides and colored movies and sponsored by the Station Club will be given in Jordan Hall tomorrow evening at 8:00 o'clock, with Mr. Randall Jones of the Union Pacific Railroad as the lecturer and "Colorful Canyons and Painted Precipices" as the subject. The lecture is free and all are urged to come and bring their friends.

## TO CONVENE IN NEW YORK

The Entomology Division will have very nearly a one hundred per cent representation at the eleventh annual meeting of the Eastern Branch of the American Association of Economic Entomologists to be held in New York City tomorrow and Friday.

Papers will be presented by the following: Dr. Glasgow, "A Plot Arrangement for Timing the Application of a Control Program"; F. Z. Hartzell and Dr. Chapman, "Results from Field Tests During 1939 for Rosy Aphid Control"; Dr. Gambrell, "The Place of Rotenone Insecticides in the Elm Leaf Beetle Control Program"; Dr. Carruth, "Experiments with Insecticides for the Control of the European Corn Borer in Eastern New York"; F. G. Mundinger, "Pentatomids Attacking Tomatoes and Experiments on Control"; and S. W. Harman, "Experiences in New York with Non-residue Sprays for Codling Moth".

\*\*\*\*\*

## THE HORT SOCIETY

Dr. Tukey and Mr. Luckett were in Rochester last week for a meeting of the Executive Committee of the State Horticultural Society when the program for the winter meetings of the Society was discussed, together with space allotments for the joint educational exhibits of the College and Station. The Rochester meeting of the Society will be held January 9 to 12 and the Kingston meeting January 24 to 26.

\*\*\*\*\*

## PLANNING FOR UTICA

Mr. Tapley was in Utica Monday for a conference on the forthcoming meetings of the State Vegetable Growers Association and the Empire State Potato Club. Bill is general chairman on arrangements for the joint meeting, which will be held in the Hotel Utica January 4 and 5. A joint educational exhibit from the College and Station will be provided for these meetings also.

\*\*\*\*\*

## ON THE ROAD

Dr. Tukey left the first of the week for Sheboygan, Wis., and points west, with the expectation of returning home the last of the week in time to embark for the Hudson Valley the first of next week and a conference with fruit growers in that region on the program for the eastern meeting of the State Horticultural Society. While at Sheboygan Harold will appear three times on the program of the Wisconsin State Horticultural Society in addition to speaking at the annual banquet. He will also address plant science groups at the University of Chicago and the University of Wisconsin and will stop off at East Lansing on his way home for a visit with Loren at Michigan State College and to see Indiana beat Michigan State (??).

\*\*\*\*\*

## FROM CORTLAND

Dr. and Mrs. Wm. A. Wall of Cortland paid a brief visit to Geneva last week. Dr. Wall is director of the Cortland County Health Laboratory and was at one time City Bacteriologist here in Geneva.

\*\*\*\*\*

## DR. FARRAND DIES

We deeply regret to note the passing of Dr. Livingston Farrand on the evening of November 8. While he was President of Cornell many of us on the Station Staff had the good fortune to experience at first hand the rare qualities of his mind and friendly personality. His was a crowded life marked by many notable achievements.

\*\*\*\*\*

## MISS JESSIE KING

We extend sincere sympathy to Harry King and to other members of the family in the death of his sister. Many at the Station counted her among their choicest friends.

\*\*\*\*\*

## TALKED TO 4-H CLUB

Dr. Pederson was one of the guest speakers at a big 4-H Club rally in Penn Yan last week.

\*\*\*\*\*

## TALKING ON HOUSE PLANTS

Mr. Jahn is to be the speaker before the Geneva Garden Club tomorrow evening at 8:00 o'clock at Dr. Hedrick's residence. His topic—"Indoor House Plants".

\*\*\*\*\*

## OFF FOR FLORIDA

Mr. Stewart and Mae set out last week with their trailer for the sunny Southland, with Plymouth, Florida, as their headquarters. From that point, they expect to make the rounds of the winter vacation spots in that state. What a life!

\*\*\*\*\*

## BEAR HUNTING

Just by contrast, Dr. Reinking is headed into the "woods" of the Adirondacks in search of bear and any other big game that may be found in that region. Dr. Glasgow and his party returned home Monday night and report a fairly successful expedition.

\*\*\*\*\*

## TO REPORT ON HIS WORK

Dr. Sanborn is in New York City today for the annual meeting of the National Paper Board Association before which he will make a report on his work with paper food containers.

\*\*\*\*\*

## STUDYING METHODS

Mr. Frank Cosad, chemist for Olney & Carpenter of Wolcott, N. Y., is spending a few days in the Bacteriology Division observing bacteriological tests on frozen peas.

\*\*\*\*\*

## THE BACTERIOLOGISTS DO IT AGAIN

Only this time it is one of their very eligible bachelors who steps forward and announces his engagement. Bill Haynes is the lucky man and Miss Dorothy Starr of Waterloo is the lady. Miss Starr, a William Smith graduate, is teaching in South Onondaga. Congratulations!

\*\*\*\*\*

## THE LAND OF THE CREELES

The Editor leaves Friday for New Orleans for meetings of the American Society of Agronomy and of the Soil Science Society of America to be held in that city next week--strictly a business trip. During our absence, we shall be indebted to the NYA news gatherers and to Mr. Brundage for keeping the NEWS on schedule.
