

# STATION NEWS

Vol. XXXV, No. 18.

November 13, 1940.

Geneva, N. Y.

--: REMEMBER THE RED CROSS--THIS IS ROLL CALL WEEK :--

## ANOTHER CONVENTION

Another meeting in Atlantic City will attract a delegation from the Station this week, namely, the twelfth annual meeting of the Eastern Branch of the American Association of Economic Entomologists which will hold a two-day session at the seaside resort, beginning tomorrow. The following members of the Staff will present papers, while still others are planning to attend the meetings:

F. G. Munding, "Two Buprestic Cane-borers of Brambles and Experiments on Control".

F. L. Gambrell, "Dormant Treatments for Control of Viburnum Aphid".

G. W. Pearce, A. W. Avens, and P. J. Chapman, "The Use of Petroleum Oils as Insecticides. I. The Determination of the Amount of Oil Deposited on Apple Bark in Dormant Spraying".

P. J. Chapman, G. W. Pearce, and A. W. Avens, "The Use of Petroleum Oils as Insecticides. II. Factors Affecting the Amount of Oil Deposited on Apple Bark in Dormant Spraying."

S. W. Harman and D. C. Greenwood, "Codling Moth Control Studies, 1940".

\*\*\*\*\*

## IN CHICAGO

Director Parrott has been attending the annual meeting of the Land Grant College Association in Chicago, particularly the Experiment Station Section. He is expected back in his office today.

\*\*\*\*\*

## THE NATIONAL GRANGE

The annual meeting of the National Grange gets under way in Syracuse today. The Director is scheduled to appear sometime tomorrow for initiation into the seventh degree.

\*\*\*\*\*

## "CURRENT EPISODES"

We are in receipt of the first issue of Current Episodes, a mimeographed publication of ten pages devoted to very brief items believed to be of interest to Extension workers in New York State. Accompanying this first copy is a letter from Charles Taylor, who is directing the venture, inviting the Station to contribute to future issues. The publication is to appear monthly. The initial copy is in the Library.

\*\*\*\*\*

## ALSO ON FILE

Dr. Nebel has placed on file in the Library a letter from Mr. Robert E. Terwillinger of Cornell regarding certain details of the group insurance carried by the University, some of which Dr. Nebel believes may be of interest to those who are not fully informed on the operations of this insurance service.

\*\*\*\*\*

## FALL COLORING

Mr. Hartzell showed a collection of his colored photographs of fall coloring of trees and shrubs before members of the Canandaigua Botanical Society at their November meeting held at the home of Mr. E. T. Emmons here in Geneva last Saturday night.

\*\*\*\*\*

## PATRICK HONORED

So that he will know when to come back to Geneva, Stewart Patrick was presented with a watch by Boy Scout Troop 3 and its friends last Friday night on the occasion of his last meeting with the Troop as its Scoutmaster. Mr. Traphagen, chairman of the Troop Committee, presided at the informal presentation ceremonies. Pat left for Fort Benning, Ga., early Saturday morning and by this time is doubtless quite settled down to Army routine.

\*\*\*\*\*

## A NEW ARRIVAL

Congratulations to Dr. and Mrs. DeFelice on the arrival of Michele Armistice Day Morning!

\*\*\*\*\*

## ON HIS WAY SOUTH

Mr. Stewart set out with his trailer for Florida last week with his first scheduled stop at the home of J. G. Grossenbacher at Plymouth, Florida. This will also be Mr. Stewart's mail address during his stay in the South, mail being forwarded to him by Mr. Grossenbacher who will have his itinerary. Mr. Stewart expects to meet Dr. Harding, formerly head of the Bacteriology Division here and now retired from his duties with a Michigan dairy concern, in Florida later on and to do some of his winter traveling with Dr. Harding.

\*\*\*\*\*

## THE TRESSLERS' ADDRESS

Word has come back from California that until December 28, the Tresslers may be reached at the LaJolla Beach Club Apartments, La Jolla, California.

\*\*\*\*\*

## ASSISTED WITH EXHIBIT

The Station and several cheese manufacturers cooperated with A. L. Kehr of the Unadilla Academy at Unadilla, N. Y., and his chapter of the Future Farmers of America in placing an exhibit on New York State cheese at the national meeting of the Future Farmers of America in Kansas City recently.

\*\*\*\*\*

## AIDED WITH FILM

Dr. Holland and Joe Taylor of Ithaca, representing the New York State Jersey Cattle Club, have been working on a motion picture dealing with Jersey cattle activities in this State. The film is to be used among cattle breeders for educational purposes. Methods of handling a breed milk supply will be one of the features of the film.

\*\*\*\*\*

## A 50TH ANNIVERSARY

Dr. Tukey will be in Hartford, Conn., tomorrow and Friday for the fiftieth anniversary meeting of the Connecticut Pomological Society, where he will have a part on the program.

\*\*\*\*\*

## IN NEW YORK

Dr. Breed and Dr. Sanborn are in New York City for a two-day meeting with the National Paper Board Association, where they will report on the work with paper food containers.

\*\*\*\*\*

## LOCAL BACTERIOLOGISTS

The local branch of the Society of American Bacteriologists met at Strong Memorial Hospital in Rochester last Saturday, with Dr. Hofer, Chairman, presiding, for their regular fall meeting. Mr. Haynes, Mr. Walter, and Dr. Pederson reported on lines of work under way in the Bacteriology Division here. The spring meeting is to be held in Syracuse.

\*\*\*\*\*

## A CHANCE TO HELP

A dance and card party sponsored by Bundles for Britain will be held at the Seneca Hotel Friday evening, November 22, with the receipts to be devoted to the purchase of yarn. Tickets are \$1.00 each and may be obtained from Mrs. Chapman and Mrs. Honing, among others.

THE MILK ROOM WILL BE CLOSED THANKSGIVING DAY, NOVEMBER 21

FRED E. GLADWIN

Nov. 16, 1940

It is with profound sorrow that we note the death Saturday night of Fred Gladwin in a hospital in Dunkirk following a heart attack in his home in Fredonia Saturday afternoon. Altho he had been aware for some time of a heart condition, he was in his usual good health at the time of the fatal attack. Fred is survived by his wife, Florence Simmons, and a son Frederic, to whom we extend our sincere sympathy.

Funeral services will be held at 2:30 tomorrow (Tuesday) at the funeral home of Blood and Marson in Fredonia. Several members of the Station Staff are planning to attend the service.

- - -

Mr. Gladwin was born in New York Mills, near Utica, on September 3, 1877, but spent most of his boyhood days in Rochester. He graduated from the University of Rochester in 1904 and soon after was appointed head of the department of biology in the Dallas, Texas, high school, which position he filled until 1907 when he became a nursery inspector for the Western New York district for the New York State Department of Agriculture and Markets. In 1909, he was appointed a Special Agent of the Experiment Station and put in charge of the Vineyard Laboratory at Fredonia which came into being that year. Later, he was made an Associate in Research and in 1936 was made Chief in Research in Horticulture. His entire period of service with the Station, however, has been spent at the Vineyard Laboratory which now occupies an important place in the grape industry. Mr. Gladwin was also a veteran of the Spanish-American War.

Probably no member of the Station Staff is better known among the fruit growers of the State than Fred—and certainly none are better liked or more greatly respected for their knowledge and ability. It is not too much to say, and we have this on competent horticultural authority, that no man in the United States was better informed on all matters pertaining to grapes than he. Coupled with this knowledge and with experience gained thru the years of careful experimentation and observation, Fred possessed a high degree of tact and a warm and friendly personality that inspired both confidence and good will. To know him was to like him immensely and to respect his judgement and opinions.

It is to be regretted that the circumstances that confined him almost altogether to his duties at the Vineyard Laboratory prevented his being better known by the Staff as a whole. That has been our loss, for those whose duties brought them in touch with the Laboratory and with Fred will always cherish their associations with him.

Geneva, N. Y.
