Vol. XXXVI, No. 9.

Geneva, N. Y.

## WINTER—AT LAST!

All misgivings that we were to cal" Geneva winter vanished Sunday with yesterday's repeat performance. plow and shovels, however, be deprived of the pleasures of a "typi-morning and were still further removed Thanks to Trap's crew and their snow traffic has moved in and around the Station with little trouble—and surely spring cannot be far away, what with daylight saving time already enacted by the Common Council and the first robin having been sighted the other day. Then, there are two more new cars to add to the list— Bill Harman's and Vic Hopkins', with rumors of still other acquisitions. And, of course, there are the reports from the baseball training camps, the income tax deadlines, and the perennial fight over the budget—all of which add up to Spring!

## THE CASUALTY LIST

The Station has a casualty list of four names—two from falls on the ice and two from laboratory accidents, all of last week. Mr. Kopko and Mr. Kokoski suffered cuts and burns in the chemical laboratory which were painful but not serious. It remained for Dr. Dahlberg and Mr. Newton to make a really good job of it while they were about it. Dr. Dahlberg sustained cracked ribs and head injuries in a fall on the steps of the Entomology Building last Wednesday from which he is just now beginning to recover sufficiently to be back in his office. Mr. Newton suffered a fractured shoulder blade and broken ribs in a fall last Thursday in the driveway between the Dairy Building and Hedrick Hall. He is able to be up and around, however. Mr. Newton, by the way, will celebrate his 78th birthday next Sunday. Congratulations!

## PINCH-HITTING

Mr. Hartzell and Mr. Marquardt took over speaking engagements for Dr. Dahlberg—the former addressing a men's class at No. 9 Church last Thursday night and the latter speaking before a group of dairymen at a meeting of the Wayne County Farm Bureau in Newark yesterday.

## APPLE GROWERS

The Ontario County Farm Bureau is holding a special meeting for apple growers in Jordan Hall tomorrow. Among other matters to be discussed will be new developments in the spray program for insect pests and diseases with Dr. Hamilton, Dr. Chapman, and Mr. Harnon scheduled to bring the spray recommendations up-to-date.

## WILL ATTEND GRAPE CONFERENCE

Mr. Hartzell, Dr. Suit, and Mr. Taschenberg are leaving tonight for Erie, Pa., where they will participate in a two-day conference of technical workers and extension specialists from Michigan, Ohio, Pennsylvania, New York, and Canada on problems relating to the control of insect pests and diseases of grapes, with particular reference to the Lake Erie grape belt. The grape berry moth and its control will come in for a major share of the discussion.

## BIOLOGICAL STAINS

Dr. Conn spoke before technicians of the Bellevue Hospital in New York City last Friday evening on "The Chemistry of Biological Stains". Taking advantage of the opportunity afforded by the accumulation of material for this address on the part of Dr. Conn, the Division of Bacteriology has requested him to repeat the talk at a seminar in Daguerre Hall tomorrow afternoon at 3:45. Anyone interested in the subject is invited to attend.

## JOHN PARROTT LEAVES

John Parrott left yesterday for a year's service in the Army. Going as a volunteer, John was in charge of a group of recruits called up from Geneva and vicinity until they reached Syracuse where they were to undergo a final medical examination and a review of previous training and experience. From Syracuse the group will go today to Fort Niagara where definite assignments to training areas are to be made within the next few days.
