

STATION NEWS

HAPPY BIRTHDAY!

We're a day late with our greetings on Doctor Hedrick's seventy-sixth birthday, but our congratulations and best wishes are just as sincere! Hard at work on further additions to the list of books he has turned out since retiring as Director, Doctor Hedrick has manuscripts projected that will carry him through many more birthdays, and of course in the meantime he will get new ideas for still more books. So may his pen never run dry!

IN ROCHESTER

Several members of the Staff are in Rochester this week for the 91st annual meeting of the State Horticultural Society. A limited supply of programs for both the Rochester and Kingston meetings of the Society is available in the Editor's office.

JUST OUT

Bulletin No. 713 on "Timing Rotenone Applications for Control of the Pea Aphid on Long Island, with Special Reference to Mosaic Incidence", by H. C. Hockett, and the January number of Farm Research have just gone into the mails.

GOING TO VINELAND

Professor Ellsworth Wheeler is to address the Niagara Peninsula Fruit Growers Association in Vineland, Ontario, tomorrow on the control of the oriental fruit moth with DDT.

ENROUTE TO ROCHESTER

Mr. Lawrence Southwick of the Dow Chemical Company; Mr. S. K. Levering, a fruit grower from Ararat, Va., and Dr. C. G. Garmon, Washington, D. C., both of whom were former graduate students at Cornell, visited the Station this week on their way to the meeting of the Horticultural Society in Rochester.

MRS. HAYNES LEAVES

Mrs. William C. Haynes terminated her work as laboratory assistant in the Division of Food Science and Technology yesterday. Major Haynes is back in this country and was on his way to Fort Dix when last heard from, and is expected to be placed on terminal leave very soon now. For the time being, the Haynes's will make their home at 422 W. Main Street in Waterloo.

TO HEAD NUTRITION LAB

According to Extension Echoes, Dr. Karl C. Hamner will succeed Dr. L. A. Maynard as Director of the U. S. Plant, Soil, and Nutrition Laboratory at Ithaca on February 1st. Doctor Maynard will devote full time to the Directorship of the School of Nutrition, altho he will continue as consultant to the Laboratory in the fields of human and animal nutrition. Doctor Hamner has been a member of the Laboratory staff since 1939.

HERE ON LEAVE

Captain John Parrott was expected to arrive in Geneva yesterday for a visit with his father. It is our understanding that John is on terminal leave from Camp Lee.

PROF. KELSEY BACK

Professor L. D. Kelsey of the Extension Service has returned to his duties at the College of Agriculture following service with relief agencies in Greece. The trip back from Greece was made in a freighter and required five weeks, according to Extension Echoes. The Professor admitted that it felt good to strike dry land again. "Abe", as he is known about the Campus, has already set to work on the Farm and Home Week program which was his special responsibility when he was granted leave for overseas duty.

ELECTED

Station employees chosen as permanent officers for 1946 of the Geneva Chapter of the New York State Employees' Association at the meeting of the Association last week included Dr. Hofer as president and Miss Bette Cullinan as secretary, with the following chosen as members of the executive council: Thomas Gainey, Miss Jeanne Smith, Miss Maud Hogan, Parks Traphagen, and Frank Kokoski.

LEAVING SOON

Mrs. Raphael Filipeni, assistant bacteriologist with the Geneva Board of Health, is planning to join her husband in Wilkes Barre in the near future. Mrs. Filipeni carried on her laboratory work in the Station bacteriology laboratories.

A WEDDING

The wedding of Miss Alice King and Lt. (j. g.) Edward Howard Smith took place in Chevy Chase, Md., on Saturday afternoon, January 12th. The couple will make their home in Virginia near Washington where Lt. Smith is assigned to the Navy Department.

IN COSTA RICA

Extension Echoes has heard recently from Professor Emeritus M. F. Barrus, formerly extension professor in plant pathology. He is now connected with the Central Rubber Experiment Station at Turrialba, Costa Rica, and writes that he lives in a country that is like "a perpetual June at home, where the grass is always green and fruits and vegetables, all kinds, abound the year around". What a way to write home in January!
