

The Station News

Vol. XX, No. 23.

June 7, 1933.

Geneva, N.Y.

-----:
THE : The time and place for the Station Club picnic have been set. The
PICNIC : afternoon of Friday, June 16, is the time and Cayuga Lake State Park
-----: the place. Second only to the Christmas party in popularity among
the Club's activities, the picnic always brings out a crowd and marks a high spot
in the year. With an exceptionally able committee in charge of this year's event,
we look for an extraordinary success. Headed by Mr. Van Eseltine the committee
includes Dr. Horsfall in charge of transportation, Dr. Dahlberg in charge of food,
and Mr. Enzie directing the recreational features. Further details will be available
next week.

-----:
THEY HAD A : About fifty members of the Station Club and their friends attend-
GOOD TIME : ed the combination dance and card party held last Saturday even-
-----: ing, and from all appearances enjoyed themselves thoroly. This
party with the picnic will complete the Club's program until fall.

-----:
A SUCCESSFUL :
IRIS SHOW : The iris show held in Jordan Hall on Wednesday and Thursday of
-----: last week attracted a considerable number of flower lovers from
Geneva and vicinity. The Garden Club is now making plans for a rose show and with
this weather it will not be long before roses will be in their prime.

-----:
THE : During the past week the chief interest at the Station was the
WEDDING : approaching wedding of Miss Mary Palmer and "Bud" Hedrick,
-----: culminating in a beautiful service in new Trinity Church on
Saturday afternoon. Among the many guests from out of town were Mrs. Farrand and
Dr. and Mrs. Mann. Mr. Frederick Borg, formerly Station Librarian, served as an
usher. Mr. Borg is now teaching in a school in New Jersey.

-----:
COMING : The Keuka Park Garden Club of Penn Yan will visit the Station
TUESDAY : next Tuesday and have asked that some one be assigned to show them
-----: about. This task has been delegated to Mr. Van Eseltine who will
direct the visitors to points about the grounds of special interest to gardeners.

-----:
SPEAKING : Mention of Penn Yan reminds us that Dr. Dahlberg contacted another
OF PENN YAN : Rotary Club yesterday when he spoke before the Penn Yan group
-----: on his favorite topic--the work of the Dairy Division. He branded
as a base libel the inference published in these columns recently that the
"hand-outs" that accompany his talks have anything whatever to do with the continued
demand for his presence before these service organizations. We stand corrected.

-----:
OUT WITH : Mr. Tapley is the latest victim of the summer "flu" or whatever
THE "FLU" : it may be that has been playing havoc with folks the past few
-----: weeks. He was expected back in his office today.

-----:
NEW : Congratulations are in order for Mr. Daniel who successfully
PH.D.'S. : completed his examination for the Ph.D degree at Cornell and now
-----: may append those coveted letters to his name. Yesterday, Donald
Collins was to appear before his committee at Harvard for the final test for a
Ph.D. from that University. We have no doubt but that Donald came out of the test
with flying colors and should be added to our list this morning.

-----:
TOO : Little Caroline Pederson had the misfortune to fall from a teeter
BAD : the other day and suffer a broken collar bone. While the injury is
-----: proving somewhat inconvenient, fortunately it is not painful and
Caroline will doubtless be herself again before long.

-----:
FROM : Dr. and Mrs.C.R.Phipps paid a brief visit to Geneva this week. Dr.Phipps
MAINE : is entomologist at the Maine Experiment Station and was at one time a
-----: member of the Entomology Division here.

-----:
ARRIVED : Mr.Enzie has had word from Mrs.Enzie of the safe arrival of Philip
SAFELY : and herself in Portland,Oregon, by way of the air from Cleveland west.
-----: With the exception of some slight engine trouble near Omaha that
necessitated a change of planes, the trip was quite uneventful, and even with that
delay they arrived in Portland only two hours late.

-----:
A REAL : Mr. Flannigan of the Station dairy barn force had real occasion
CELEBRATION : to celebrate Memorial Day with the arrival of a baby girl in his
-----: family on that day.

-----:
ANOTHER : The Dairy Division has been informed that an approved herd certifi-
RECORD : cate has been issued for the Station herd by the State setting
-----: forth the fact that the entire herd of 58 animals is free from
Bang's disease. Infections from this disease are especially important from the
standpoint of breeding. In an effort to stamp out the disease in New York dairy
herds, the State has undertaken the testing and certifying of herds as to their
reaction to the test for Bang's disease. The Station's certificate is No.22,
indicating the newness of this project. Our herd,however, has long been free from
this infection as indicated by frequent check-ups made by the Station itself.

-----:
RECENT : Among recent visitors to the Station was Dr.A.D. Pratt and
VISITORS : Dr. Walter Claus. Dr. Pratt is animal nutrition specialist at the
-----: University of Virginia and has just recently been awarded the degree
of Ph.D. by the University of Rochester. Dr. Claus comes from Kiel, Germany, and
is chiefly interested in dairy manufactures. Following a visit to the middle west,
he plans to spend several days at the Station.

-----:
TO BUILD : The terrace in front of the Dairy Building is being cut away in
A WALL : preparation for the erection of a stone retaining wall. Consider-
-----: able difficulty has been experienced in the past in keeping this
terrace presentable, and it is hoped that the wall will improve the appearance of
the approach to this building. The work is being done by labor provided by a grant
of \$2,000 for the month of June from the State Temporary Relief Administration.

-----:
FARM :
RELIEF : The following dispatch comes from Madison, Wis.;

-----:
An amendment to the state beer bill designed to help out the Wisconsin cheese industry was approved by the State senate on May 4. The amendment, introduced by Senator Griswold, provides that where lunches are sold in beer places, Wisconsin cheese must be kept on hand, and if free lunches are served, Wisconsin cheese must be included. As the bill now stands, all Wisconsin hotels, restaurants, etc., where beer is served, must have cheese available for patrons.

How about New York State cheese with New York State beer?
