

The Station News

Vol. XXIII, No. 23.

December 5, 1934.

Geneva, N. Y.

-----:
DR. HUTT HERE : Dr. F. P. Hutt, Professor of Poultry Husbandry and Animal Genetics
TONIGHT : at Cornell, will speak before the Science Seminar in Jordan Hall
-----: tonight at 7:15 on the general subject of "Inheritance in Poultry."
Those interested in the physiology of vertebrates will find Dr. Hutt an especially
entertaining speaker. Several members of the Staff are planning to attend a dinner
for Dr. Hutt at six o'clock this evening at "The Seven Gables", the new dining hall
recently opened by the Wellingtons at the corner of Castle and North Streets. There
is still time to reserve a place at this dinner by communicating with Dr. Nebel.

-----:
TALKING : Dr. Hedrick and Mr. Harlan have been on two hop expeditions recently,
ABOUT HOPS : one in Waterville last Friday and one in Washington yesterday. At the
-----: Washington conference they had appointments with Secretary Wallace and
other members of the Department of Agriculture to discuss possible cooperative pro-
jects with hops between the State and the Department.

-----:
FOREIGN : Mr. Hening as President of the Station Club has received an invitation
POLICIES : addressed to all members of the Club by the College Club of Geneva to
-----: attend a lecture by Dr. Dexter Perkins, Head of the Department of History,
University of Rochester, tomorrow evening, Thursday, at 8:15 in Coxe Hall, Hobart
College. Dr. Perkins' topic will be "The Foreign Policy Under Roosevelt."

-----:
PROF. : Dr. Yale is leaving for Albany today to act as an instructor in the "school"
YALE : for dairy and milk inspectors which is being held at the State Office Build-
-----: ing under the auspices of the Mayors' Conference. Dr. Yale will discuss
high-temperature, short-time pasteurization. Mr. Eglinton and Mr. Kloser are also
planning to attend the school.

-----:
DR. BREED IN : Dr. Breed spoke before the annual Farm Bureau meeting in Owego on
NEW YORK CITY : Monday evening, and from that point proceeded to New York City to
-----: attend a meeting of the committee of the American Public Health
Association on Standard Methods of Milk Analysis and a conference called by the In-
ternational Association of Milk Dealers on methods of sampling milk where bacterial
counts are to be used as a basis for payment at Grade A plants. He will return to
Geneva by way of Albany where he also will attend the meetings of the school for
dairy and milk inspectors.

-----:
CHEMISTS : The Geneva Chemists Club will meet in Jordan Hall tomorrow, Thursday, at
CLUB : 7:30 p.m., when a brief organization meeting will be held to be followed
-----: by a social hour and refreshments. In a preliminary announcement, it is
stated that the purpose of the Club is to promote interest in chemistry and good will
among fellow chemists of the community. Any one interested in the science of chemis-
try, whether a member of the Station Staff or not, is cordially invited to participate
in the activities of the Club.

-----:
ANOTHER : Dr. Dahlberg was in Ithaca yesterday to present a paper before the
"SCHOOL" : second annual County Agents agricultural "school" on "Bull Indices and
-----: Proved Sires." Dr. Dahlberg explained the breeding program in the Sta-
tion herd which has made possible the development of one of the highest producing
Jersey herds in the State.

-----:
DR. TUKEY IN : As a sort of warming-up process for forthcoming winter meetings, Dr.
MICHIGAN : Tukey has gone to Grand Rapids to attend a joint meeting of the
-----: Michigan State Horticultural Society and the American Pomological
Society and to serve as fruit judge at the Michigan State Apple Show. He will also
give an address on "Fruit Development in Relation to Orchard Practice." A feature
of the annual meeting of the American Pomological Society is an exhibit of new fruits
which compete for the Wilder Medal awarded each year by the Society to outstanding
new varieties. Several of the Station's new seedlings have been entered in this
year's competition.

-----:
Y.M.C.A. GROUP : At the request of one of the young men's clubs at the Y.M.C.A.,
SAW PICTURE : Dr. Tressler showed the Station movie at their meeting last Mon-
-----: day evening.

-----:
CALLED TO : Dr. Kertesz has been asked to attend a round table conference of
PHILADELPHIA : representatives of the canning industry and federal food control
-----: authorities in Philadelphia next Tuesday to give the results of
his investigations on peas.

-----:
IN UTICA : Dr. Dahlberg moved on to Utica today where the Association of Ice Cream
TODAY : Manufacturers of New York State are holding their annual meeting. He
-----: will address the group on "Manufacturing Ice Cream with High Solids."
Incidentally, this Association has always taken a very keen interest in the work of
the Station and particularly in the Station's State Fair exhibit. For the past 11
years, the Association has delegated one or two of its members to visit the Station
exhibit. The report on the 1934 exhibit was that it presented more of interest to
the average visitor than the Century of Progress, which seems like a large order.

-----:
THE NEW FARM : At its annual meeting in Syracuse recently the State Farm Bureau
BUREAU PRESIDENT : Federation elected Mr. Herbert F. King of Trumansburg President.
-----: Mr. King is a prominent fruit grower of Seneca County, a vice-
president of the State Horticultural Society, and is well known to many here at the
Station.

-----:
FRUIT : Mr. Lockett is in Rochester today to meet with Mr. McPherson, Secretary of
SHOW : the State Horticultural Society, and with the contractor who supervises
-----: the construction work, to complete plans on the lay-out for the joint ex-
hibit of the College and the Station at the 80th annual meeting of the Society in
Rochester next month.

-----:
THE PARTY : The Social Committee of the Station Club announces that it has made
OF PARTIES : contact with Mr. and Mrs. Santa Claus and that they have agreed to be
-----: at Jordan Hall on the evening of Thursday, December 20, to meet the
members of the Club and their immediate families. Mrs. Santa will look after the
supper, thus relieving the ladies of the Club, while Santa himself will perform the
usual functions of his office. Supper is to be served at 5:00 o'clock and all res-
ervations must be in by next Wednesday, December 12. Mrs. Santa suggests that this
be strictly a family party because of the ever-increasing size of the Station crowd,
so when a member of the committee calls on you please be prepared to give the number
in your family who will attend, particularly the number of children.
