

Director and Mrs. J. G. Horsfall of New Haven, Conn., and formerly a member of the Plant Pathology Department here, returned in June from their trip around the world which included lectures and talks in many countries and a 3-week stay in New Zealand. A new book by Dr. Horsfall, Principles of Fungicidal Action, published by the Chronica Botanica Company as volume 30 in a series of plant science books has just been issued under the auspices of the International Plant Science Publications Society.

TO ATTEND AIRLINES SCHOOL

Doris Traphagen has handed in her resignation to become effective September 1st. Doris is going to attend Hartford Airlines Personnel School in Hartford, Conn. This school trains people for various jobs with the Airline companies. When she completes training, Doris will work for one of the Airlines. She's hoping to go to Florida but doesn't know what part of the country she will wind up in.

WANDERING BOYS RETURN

Two members of Food Science who succumbed to the call of the Minnesota Lake country last month have returned to work. Norm Lawrence returned last week and Keith Steinkraus reported in Tuesday. Both looked fine, all rested and tanned.... Doctor Provvidenti arrived last week after spending a month vacationing in Sicily.

STATION NOTES

Ann Bingman is sporting a brand spanking new DeSoto Hardtop, shades of plum and violet....Mrs. R. G. Stokes, from Mississippi, is spending part of the summer with her daughter, Mrs. Ken Hanson.

FARM SAFETY

Farm Safety Week starts July 22. Safety is everybody's business, but this week is dedicated to getting the importance of safety on the farm told.

POST-PICNIC NOTES: LAST CHANCE

LOST: One stainless steel tablespoon, plain pattern of parallel lines on handle. If you find this mixed in with your utensils, please leave it in the Editor's office where it will be gratefully retrieved by the owner.

FOUND: Two pyrex casseroles and some serving utensils are on display in the Editor's office. If not claimed within a reasonable time, they will be turned over to the Station Club property custodian.

FISHING NEWS

Fish are still biting! Maurice Campfield of Chemistry and Carl Breitfeld, State Food Inspector, caught their limit of lake trout last Wednesday and Thursday. Weights ran from 3 lbs. to 7 pounds.

FROM THE EDITORS DESK

Here is an important announcement from the editorial staff: In case you find mistakes in this paper, please consider they were put there for a purpose. We publish something for everyone, and some folks are always looking for mistakes.

SPORTS

The Entomology softball team is still eager to play ball and if any other Station team would like to challenge them a game can be arranged.
