

RECEIVES AWARD

Professor George Slate has been awarded the E. H. Wilson Award---named after his father-in-law---by the North American Lily Society. The award was given to one "who has made exceptional contributions to the field of lilies and to the society".

The award was announced at the annual meeting of the society, held last Tuesday in conjunction with the International Lily Show at the University of Wisconsin.

Professor Slate had intended to go to the meeting but was unable to do so. He said he was considerably surprised and pleased at the award. Officials of the society had asked him to recommend someone for the award and he had suggested a man in Oregon.

Professor Slate's father-in-law was an English botanist who did considerable work with lilies. He spent 10 years in China working in his field.

HOSPITAL FESTIVAL AND DEDICATION

The annual Hospital Festival is being held today, July 20th, at the North Street School grounds, rain or shine, from 6 to 10 P. M. The dedication of the new wing will take place at 3 P. M. Dr. Hucker is program chairman for this occasion. The public is invited and tours of the new wing will be carried on from 1:30 to 8:00 P. M.

WEEKEND GUEST

Mr. and Mrs. Albert Post, Dr. Cain's sister and brother-in-law, came up from Louisville, Kentucky, over the weekend to take their son back home. He has been visiting the Cain's along with a cousin from Florida. This niece of Dr. Cain's is also returning south with the Posts.

HOME FROM CALIFORNIA TRIP

Mrs. Braun arrived home on Monday from a California vacation. Her parents, Mr. and Mrs. Barnett Neidle, returned with her and will visit the Brauns for a while.

Tarr, R. T. Physical Geography of New York State. 1902 - 551.4 T7.

FAIR JUDGE

Henry Bennett will be one of the judges of the Grange exhibits at the Ontario County Fair this week.

MAKIN' HAY

(Facts and figures courtesy of "Farm Journal")

Agriculture's total output has risen more than 50 per cent since 1940.

The crop yield per acre has gone up some 40 per cent .

The physical and financial assets of agriculture have risen from \$53 billion in 1940 to a projected \$208 billion in 1960.

The 1959 gross income in agriculture was 9.6 per cent of the nation's entire Gross National Product. The total of \$46.3 billion was more than all State and local governments spent in that year, and more than the profits of all the nation's corporations before taxes.

Farmers have twice as much money invested in machinery as the steel industry and five times as much as the automobile industry.

Farmers are consuming $6\frac{1}{2}$ million tons of steel a year- nearly half as much as the entire automotive industry uses.

Farmers buy more petroleum products than any other single industry.
