Dr Sir:-

You will remember the writer as the former manager of the "Western ?Stove Metal Co." now in liquidation. The old Co. being closed up our concern are now making "?Stove Metal" as well as all other kinds of bearings.

As you may know, for many years I have given the most exhaustive attention to the subject of bearings & antifriction metals. Have now a large & well appointed foundry with the best labor saving machinery. We would like to sell you bearings & will do so at a figure less than you can make the same metal yourself, we are confident. Try us. All our bearings are bored out smoothly, ready for journal. Inclosed find our price list for Sept.

Respt Yours

H. W. Fowler
