Col. R. S. Stevens  
Gen. Manager

Dear Sir:-

The meeting of Managers & Superintendents held here on the 8th inst decided that they would prefer that the transfer of Freight Cars across the Bridge should be done by the Bridge Co., the actual cost of same to be borne pro rata by the several companies interested.

This will involve the necessity of the Bridge Co. either purchasing or hiring a Locomotive for this purpose.

If you have a "switch Engine" or other Engine suitable for the purpose which is not in commission on your Road and which is in good order which you would be willing to lease for this purpose, please inform me at what rate per month you will be willing to give us the use of it and when we could get it.

Yours truly
O. B. Gunn  
Chf Engr., Bridge Co.
