Dear Sir:-

The letter of your Master Mechanic addressed to yourself, with your endorsement thereon, in reference to the damage of your locomotive resulting from recent collision with one of ours, naming the amount of Thirty two hundred dollars ($3,200.00) as cost of repairing the same, this amount having been agreed upon by the Master Mechanics of our respective companies, is received.

The question as to who is to blame in this matter is not yet definitely settled, but should it be decided that this Company was at fault, the amount named will be accepted as basis for settlement.

Respectfully yours,

R. S. Stevens  
Genl. Manager
