Friend Stevens:-

I had intended to answer your favor before now but have had on my hands an insane person which has taken all my attention. I am very glad you are coming this way with Mrs. S. and want you to make my house your home so long as you can. I told Mr. Morrow of your contemplated visit and he desired me to ask you to make his house your home while in the city. So you see you have a city and county residence at your service and I hope you will be able to make a long tarry in our neighborhood.

Mrs. R. joins in best wishes to yourself and Mrs. S. and shall hope to meet you soon.

Very Truly,

C. Robinson
