ONE DOLLAR PER YEAR

Jan 3, 1917.

EDITORIAL.

Happy New Year! We are glad to see you back and hope you are glad to come. You know that ten days was not so short after all, and that you really need to come back to make up the sleep you lost the night you ushered in the New Year.

In spite of all the dissipation, we are rested and ready for the last lap of the race, -- the last month before Block Week and the end of the term. It will be a good month to study in, after the long vacation. Begin your Final Study early!

Besides, -- 1917 is brand new, never been seen before. What will the New Year give you and more important, what will you give it?

The Society for the Mutual Defense against the Homesick Feeling held two official meetings during the holidays. There was a party Christmas night, and the Wednesday following Dr. Matzke entertained the thirty stay-overs at a luncheon at the University Club.

The society holds a clear record of no cases of homesickness and notes unan- imously that staying here Christmas is a good vacation.
