ONE DOLLAR PER YEAR.

Jan. 13, 1917

In view of the rapidly increasing number of the articles commonly known as galoshes, and the consequent deterioration of the distinction obtained by wearing them, - we hereby respectfully submit -- first; that no freshman should be allowed to wear the aforementioned articles of footwear; secondly, that only upperclassmen be permitted the distinction of having jingling pedal extremities; and thirdly, that any sophomore found with unbuckled and flapping galoshes, be forthwith denied the right of wearing said galoshes, and said articles be confiscated and sent for the relief of the poor Belgians.

## REVIEW.

The new issue of the Review will be out about Monday. This will be an athletic number and will be of special interest, as it will contain pictures of the various teams of the past two years including Basketball, Baseball, and Crow, special articles written by Prof. Young, Miss Canfield and the class basketball managers will also be included.

The Cornell Dramatic Club scored a big success last night, when three plays were presented to an enthusiastic audience. Much credit is due to the coaches who have been at work on the plays for a long time.

## FOUND.

A key, which looks as if it might be a desk or locker key; was found in Bailey Hall on Thursday after the lecture. If you have lost one come and see if this is it.
