GALOSHES AND THE REASON WHY.

We have lately received articles which, with a peculiar insistence, dealt with galoshes. For such a persistent trend of thought there must be an underlying reason more potent than chance or whim. We believe we have hit upon it. It may be that our contributors have sensed the danger in the "hateful" clink of galoshes; that they sin against the tradition that we, in all public places, shall be carefully and well dressed. This tradition has asserted itself even so definitely as to command a "thou shalt not wear sweaters" and now it is at the bottom of this protest against unbuckled galoshes. Times have changed. Now that sweaters have evolved themselves into an infinite variety of becoming garb, the old rule justly totters. The very spirit of it all has changed; we stand now for personal care for its sake and for our sake where in the beginning the rule arose and served in overcoming our hostile welcome on the part of "the men." Unbuckled galoshes are ungainly, and as for us who really like to hear their busy clink, note: if you buckle all but the top buckle they clink better than ever.

HADES TRIP.

The Hades Trip given by the Sophomores to the Frosh last night at Risley was a wierd and gruesome affair. Even the righteous quaked when they found themselves face to face with all the trials and tribulations of the lower world. After confronting the majestic figure of Satan and coming before the Devil's Court, dancing was enjoyed and then a Stunt was given. Frances Riley was in charge of the affair.

SPORTS AND PASTIMES.
