EDITORIAL.

A course in elementary automobile repairing has begun and is open to the women of the University. Girls, do you realize what that means? The Faculty has taken the initiative, and, recognizing the fact that the women of the University can, with the proper degree of technical training serve their country when needed, to a degree not to be despised, have offered this course to all interested. The amount of enthusiasm with which it has been received by the girls is gratifying. But the chance has come to show the qualities most necessary to service, determination to overcome the petty obstacles which will block your progress in mastering the details, and fixity of purpose.

You, who have enrolled, show those who are watching critically that you will not be balked by those things and will make the most of an opportunity which, if it does not result in service to the country, will, nevertheless, be an asset to the individual.

PAGEANT.

All people in the Hebrew Scene will please get their costumes at Risley, today.

There will be a rehearsal of the Sappho Scene this afternoon at five o'clock.
