My dear Mr. Cooper

The bridge from Green Island to Troy consists of two parts as follows:

- **1835** - Main Bridge was built.
- **1852** - RR bridge added.
- **1852** - Rebuilt after fire of iron.
- **1877** - RR bridge added.
- **1897** - Rebuilt after fire.

**Cross section present bridge:**

The entire bridge was first built in 1835 - completed June 1836.

**Cross section as drawn:**

It was a long lattice type, was built by a man named Haywood or Howard or Howe (probably Howe).

Crosses were first drawn over it by
