lattice spans by the Delaware Bridge Co., the cross section being the same as that last given.

It may come worth of note that a road bridge from Sunnyside Island to West Troy built at
same date as the original iron Bridge by Howe or Howard, a
Some lattice, was in good
condition in 1887 when it
burned down.

This is third reliable inform-
ation, obtained from men who
have been with the Company
continuously since 1835 and from
drawings on file.

My father is an old engineer
and clerk and have for information
of work on the B&A & Erie
when they were under construction.
