was made of Rosendale
Cement & Sand, Sand 2 to
Cement 1.

All this may not interest you,
but it is authentic information
about a kind of thing when
our found it difficult to
get reliable figures.

We found that arches 8 ft. 16 in.
had to be in spiked abutment
masonry $6.98 per yd., including
bricked walls & foundations.

$600. Could send you more
about the old spans, but am
afraid cannot

Yours very truly, A. J. Swift
