Aug 7 1889.

Thos. Cooper Esq.

Dear Sir:

As you may possibly know, I have a pretty large collection of "scrap" - well arranged - on bridge work, as well as a goodly number of references in my "card index" <sup>on the same subject.</sup> If you think that ~~they~~ they will be of any service to you (vide a recent suggestion in Engineering News) in completing your paper on bridges, I would be glad to have you look them over in my rooms at 80 Washing-  
ton Sq. East, where they now are. Mr. Nichols - my co-partner in the rooms, will, I know, be glad to assist you, by showing the collections to you. While the collections are not at all complete, they cover a good deal of ground.

Yours truly  
 Thos. J. Henry.
