

# The Wabash Western Railway Company

Office Chief Engineer.

W. S. Lincoln.

St. Louis, Mo., Nov 22<sup>nd</sup> 1888

Theodore Cooper Esqr  
35 Broadway  
New York City.

Dr. Sir:

Complying with your request in letter of the 13<sup>th</sup> I send herewith the information desired. I have made the two statements which you can arrange to suit your convenience. The Wabash Railway and the Wabash Western, will probably be soon consolidated and become one road. Some minor changes have been made but they are occurring every day, and no statement would be entirely correct. If anything further is desired, I would be pleased to do what I could assist you. The statement does not include trestle openings of one span only.

Yours truly  
W. S. Lincoln  
Chf. Engineer
