### Staff recognized for years of service

On June 22, the College recognized 33 staff members for a combined 825 years of service to Cornell University.

At a ceremonial lunch, Dean Michael I. Kotlikoff recognized people for both their years of service and the extra efforts of all employees to help the college realize its mission of advancing the health and welfare of animals and humans.

The following pictures offer highlights from the event, which was organized by the Office of Human Resources.
