No. 4

Published by Cornell Chapter, Acacia Fraternity

## THE 1921-22 ACTIVES

Suiter, Cheney, Hodson, Rayner, Tozier, Davis, DeCamp — Abbey, Sumner, Dodson, Weeden, Bott, Gillette, Morris, Shellkopf — Gardner, Henderson, Nelson, Cooper, Johnson, Griffin, Brink — Kern, Barclay, Whirson, Kezer, Johnson, Kirby, Spencer, Benson — Caslick, Gillis, Krauss, Livermore, Kenworthy, James, Anderson.

## THE SENIORS

LESTER C. ANDERSON. Hats off to Hilton; she gave us here, a *regular* man. Concerning his personal characteristics we are unable to say, relatively, as to how great a part has been played by his varied experiences as a college man, as an Acacian, and as a soldier whose duty demanded service under fire. We are, however, certain of this: he is genuine.

This year he has served us as a worthy pilot, and in this service has demonstrated his ability as a leader, highly esteemed by all. Andy, here's to you; we don't know that you'll ever be a farmer, but we do know you'll be a good "agriculturist." As a "near" Benedict you have our fondest hopes; to you and yours we wish all the good things you could possibly wish for yourselves.

P. S.: Thanks for the cigars.

WELLS H. ASHLEY. If brother Ashley ever loses that optimistic spirit which is now carrying him forward in the engineering world over in Cleveland, there are three more professions he could fall back on, namely, spud peeler, a secretary, or a "wop" vaudeville actor. "Ash" certainly did his share of the fraternity work, and if he wasn't busy at that, or drawing lines (he sure was a line drawin' fool, too) he was always near the front with a broad smile and a congenial handshake. A man who has opinions and who can follow them, gains recognition in this world. So while *we'll* probably miss his voice around the piano and in the famous "Tralay" quartet, and his presence about the house, still we'll always know that others in the world will know that he is around. Luck! Ash.

A. J. BARCLAY. Here's the senior medic. Our only representative from that college. But Bare is capable of representing the college unassisted. If you think he can't make himself heard, come around sometime and hear him sing bass; man, how he can warble! Doe, we wouldn't exactly want to see you run the undertakers out of business, but we do wish you a big future.

G. M. BENSON. Little "Bennie." Our pet goat and a sewer digger of the first degree. Polycon proved his Waterloo, and consequently he lags behind a little. Bennie is an entertainer of high class; he clogs, tells funny stories, wears a moustache, and smokes "seegars." Bennie is strong with the co-eds, popular with the "elusive" set, and threatens to "an-hi-alate" all competitors.

As secretary, Bennie was always on the job; we will miss his detailed report of the moves made, motions seconded, and bills passed. Good luck, Benny-with-the-moustache.

CLARENCE C. BOTT. Though we are reluctant to say that he has accumulated any excess avoirdupois, yet we have evidences that college life agrees with "Skinny." Certain members of the fair sex have bade strong for a good share of time in his leisure hours, and we have concluded that these leisure hours thus spent have not been in vain. It makes it nice to have a big Paige for one's convenience.

Though Clarence is not a noisy chap, we remember that "still waters run deep" and in him we believe are qualifications of a future engineer.

EDWARD A. CASLICK. Another horse doctor; carries a line of honorary jewelry on his vest that would make a Broadway shop look empty. Ed will also be

with us next year, as instructor in the Vet. college.

Here's a lad that knows his stuff; even Doc Webster will admit it! If it takes all night Ed will stay with it until you admit that Vet. is just as productive of thought stimulation as Ag. or Arts. All right, Ed, pick up the marbles.

We are fortunate to enlist Ed as new editor of the Traveler.

DAVID W. CHENEY. Horse doctor; the Vet. college did well to enroll this fellow. He's a good student, hard worker, and a prince of a chap. Outside of certain misdemeanors in medicine class, Dave's just as we would have him be. We suggest, Dave, that you locate near Elmira until the present freshman class is graduated from that institution. May good fortune be yours; we have greatest confidence in your best judgment in such matters.

KENNETH G. GILLETTE. Brother Gillette pulls out of our midst this spring to conquer motors, juggle wrenches, clean spork plugs and shine plumbing fixtures in Homer. "Ken" has been so *doggone* noisy that we'll certainly miss him, especially when we've so often seen him flying around in his tropical clothes in front of Griff's wicked face and grasping hands. Ken possesses one of the important qualities that makes for success in life—perseverence. Victor Hugo said, "Nothing resists like an ant-like perseverance," and "Ken" has that old "get-there" spirit that will win for him. Brother Gillette told us confidentially that if there was a possibility he was certainly going to chauffeur for Mrs. Noble after graduation. Hold 'em, Drip!

CLAUDE A. KEZER. Another one of the honor students; he is also said to be a "cute" little fellow and a "delightful"

dancer. His time is well divided between feeding hungry Acacians skimmilk and oleo, writing plant pathology reports, and writing letters to Baltimore; he also took time enough out to win his varsity insignia in wrestling.

We venture to say it is well that the Spring Day house party came late in the term; there has been no study since! Here's for the best o' luck to "our own little Jeff."

**WILLIAM E. KRAUSS.** This is our senior dean; champion "home run hitter," etc. We are surely glad to learn that he is to be with us again next year; he will serve in the capacity of instructor in Animal Husbandry. Bill slips over to Sage evenings, takes lake trips in the motor boat, and in between times goes to Cornell. Now that he is to graduate, he will soon be relieved of the latter duties, and more time can be devoted to other items. If Dobby doesn't drive the Chevrolet into the gorge in the meantime, Bill will be at the train to meet us next fall. We hope he puts a little water in the radiator before he starts.

**FRED B. MORRIS.** You all know this good-natured democrat from Shelbyville, Indiana, and something of his accomplishments in Cornell. In addition to his regular college business, Freddie makes front room political speeches, champions the tennis court, rags the saxophone, sells insurance, and persists in

showing why all good fraternity brothers should have in their library a set of R. E. G.

We believe, Freddie, that a splendid personality and a keen intellect such as is yours, makes for a personal equipment which, with proper punch, will bring a man to the top. We will look for you back often, and so it is only temporary when we say in conclusion "Goo' bye, John."

P. S.: Thanks for the cigars. She shares in our good wishes.

**VAUGHN D. SUITER.** Here's the handy man of the group! In addition to serving us as junior steward, treasurer, dining room steward, and editor of the Traveler during his sojourn among us, he has also been on the job to do the thousand-and-one other things about the house that need someone with punch. Shorty has always seen to it that the raft was in ship-shape, and the sands hot; in business meetings, if a motion was in order, Shorty always knew just how to say it, and never lost time in doing so.

We're going to miss you, Shorty, from our midst; may your future success be measured unto you in proportion to our highest hopes in this respect.

Since you are another of the near-Benedicts, please communicate our cordial wishes to said party of the second part.

## OFFICERS--- PAST AND PRESENT

This issue would not be complete without a brief review of the officers of Acacia of the past and for the coming year.

In Bro. Anderson, V.D. for the past year, the Chapter found a very able man, and it is with great regret that we realize his stay will now be brief due to graduation. Wise counsel, suggestions at the right time, and the ability to lead, all marked the term of office of Bro. Anderson as that of a very able man. We feel sure that the active chapter will continue to profit greatly by his invaluable suggestions as an alumnus.

Bro. Anderson was very ably assisted throughout his term of office by Bro. Rayner as S. D., Bro. Benson as secretary, and Bros. Suiter and Gillis as treasurer, Bro. Gillis succeeding Bro. Suiter at the beginning of the second term, all very able men; and it is with the best of wishes that the chapter tends its heartfelt thanks to these men for their efficient service to the Chapter during the past year.

However, the Chapter feels that it has been wise in the selection of a capable man to follow in the footsteps of the retiring V. D. Brother Livermore has early proved his worth in many ways, since becoming connected with the Cornell Chapter of Acacia, and the Chapter feels that he is the man for the place. Bro. Livermore has already shown considerable executive ability as president of the Cornell Masonic Club, and we feel sure that wise counsel and leadership will be displayed from the chair for the coming year.

Bro. Livermore will be ably assisted by Bro. Krauss as S. D., Bro. Kenworthy as secretary, and Bro. Gillis as treasurer. Certainly no better types of ability and

workers for Acacia can be found. These men have already proved their worth in service and work for Acacia and we feel sure that the coming year will find a strong team at the helm of the Cornell Chapter.

“Jeff” Kezer has made a very capable steward this year and he is to be congratulated for the splendid management of the table. He has made several hundred dollars for the fraternity and has given us excellent board. The management has been very business-like and reflects credit on Jeff’s ability.

We think that we have an excellent man in our new steward, Bro. James, who has been trained in Jeff’s footsteps. Bro. James has been waiting tables this year and already has a good idea as to the proper management of the table. We are sure that we will be well fed next year, too, and wish Bro. James all the success possible in his new job.

Bro. Spencer has kept busy chasing up news and taking care of the correspondence. He has been especially particular to obtain all news as to announcements, marriages, and births, as he considers these to be very important. He will be succeeded by a very capable man, Bro. Henderson, who has proven himself to be very keen and witty. We extend our thanks to the retiring corresponding secretary for his excellent services, and our best wishes for success to the new secretary for the ensuing year.

---

### THE CORNELL MASONIC CLUB

Although the Cornell Masonic Club has made no striking name for itself during the present college year, it can at

least be said that it has been revived from its coma of last year, and set on a promising road for the present. This change has been largely due to the fact that the Acacia came to the rescue last fall, with the loyal cooperation of the Fraternity, put in some of its own men as officers and then saw to it that the Club got busy and *did* things. During the year, meetings have been held rather irregularly until this spring, when it was decided that henceforth, nothing preventing, the second Friday of each month would be the date for regular meetings.

Practically every get-together has evidenced growing interest from the University Masons by the increased attendance and number of new memberships recorded. Particularly true was this of the last meeting of the season, at which Registrar David F. Hoy was the speaker of the evening. On that occasion, the

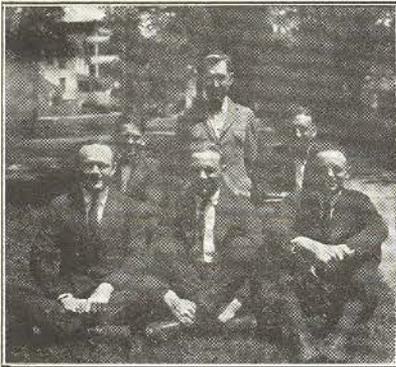

lounge room of Barnes Hall was crowded beyond its seating capacity.

Three dances have been held during the year, one at the Craftman's Club, one at the Ithaca School of Physical Education (The old Star Theater) and one at the Ithaca Hotel. Each of these dances were successful from both a social and financial standpoint, and were up to all the former high standards set by Masonic Club dances.

Next fall, an attempt will be made to have a man continually on the job at the registration line on the freshman and old-student registration days to get the name and address of every University Mason. By means of this roll, it will be possible to get the attention of every man the Club is after, and with this attention the organization should be able to live a thriving year for 1922-23.

JAMES N. LIVERMORE,  
President Cornell Masonic Club.

## THE HONORABLES

Kezer, Kirby, Caslick, Hodson, Shellkopf, Morris

E. A. CASLICK, better known among us "Parasite Ed," not because he lives off of those around him, no! no! There is a far better reason than that. "Ed"

mastered a certain obscure parasite; he sliced 'em up horizontally, vertically and laterally; counted their hearts, fingers and toes,—if they had any,—carried them around in his pocket, and it is said, that he would set them in front of his plate when he ate and study their social habits. Then he wrote them up, read the paper to the seminar and Sigma Xi said here's a man we want. "Ed," we're proud of your key and prouder yet of your accomplishment.

E. R. CUSHING has shown that old persistent attitude in more ways than just the particular one of studying the normal and pathological affects of certain bacteria in the bovine family. "Ed" took many a ride, cut many a hide and made

many a slide to get that little destructive bug where he could study it, and consequently another chapter has been written about another previously unknown phase of bovine bacteria. We were not surprised, but just mighty glad that Sigma Xi recognized you, Edward.

"Doc" HODSON, earning that title because of his early connections with a Hoosier horse apothecary, earned his Sigma Xi key by transporting a freight car-load of Kentucky clay to the basement of the Geology building, where he baked and examined it to discover something mysterious about it that nobody else would ever understand. If Brother Hodson can get away from this idea of buying and selling farms; stop preaching that vague philosophy and keep away from the girls, we will expect still greater things from him. "Doc" was also president of the honorary geological society this year.

There is "JEFF" KEZER, small, as his nick-name suggests, but mighty, who has been a hard, conscientious, consistent worker all through his college career. Jeff has made progress while in college, and although he is not a fellow who aspires or public honor and recognition, nevertheless, those who are deserving, get it.

Helios, an honorary agricultural society, recognizes those students who are good scholars, as well as active men in student affairs, and Jeff filled the bill. We're proud of you, Jeff.

"BOB" KIRBY, when he and his wife

were not too busy chaperoning, tackled the big task of increasing the grain supply of the nation. He didn't believe that the 17th amendment would do it, but he thought that if we knew a little more about the diseases of the grain plants, it might help. So "Bob" worked on plant diseases and contributed his bit to the science of Pathology. Why shouldn't a Sigma Xi key shine on Brother Kirby's breast?

S. W. SHELLKOPF, better known as "Shelly," was elected a member of the honorary architectural society, Gargoyle. Shelly has only been here this one year and we are more than proud of his showing during that short time. He is the type of fellow that will climb; he has ability and he's a good fellow. Gargoyle thought so anyway.

"FREDDIE" MORRIS, last but not least. "Fred" is mainly responsible for all this list of honorables, so-called, because he started the habit by being initiated into Helios last fall. Fred began the season by landing a berth on the stock judging team sent to St. Paul. After returning from there and finding that he hadn't had enough, he set out for the Eastman Stage, capturing second prize. And ever since he has had his finger in the campus pie somewhere or other. In fact, he became so insistent that the rest of them got the habit; hence, the list of aforementioned honorables. But then, Fred thought it up to someone to start things, and certainly, if accused openly of the act, he will be able to argue his way out with little difficulty.

## COMIN' THRU THE SAND

“I go to seek on many roads  
 What is said to be  
 True heart and strong, with love to light—  
 Will they not bear me in the fight  
 To order, shun or wield or mold  
 My destiny?”

Ahoy! Brethren, look to the east! We have toiled, we have traveled, we have kept the faith; and here we are at the threshold, youngsters in Acacia. Our determination was unflinching, our purpose, clear; and in the end our efforts were crowned with no less than the fulfillment of our every desire.

And now that we have time for reflection, we are reminded that not everything with a kick in it is made from dandelions. Consider, if you please, a piece of poplar. This piece of yellow poplar was fifteen millimeters in thickness; likewise, it had other proportions, too numerous to mention. There are many instruments of persuasion, and this is a good one. She was a splendid piece of architecture, smooth, and beautiful; however, she was too thin; and she was too short; and she was too narrow; but she had a powerful drive. There are times in the affairs of men, which, taken at the flood, lead on to victory. Thanks to the inspiration of the yellow poplar, we “found” the way.

And now that we *have* found the way,

our word to you, though brief, is meant to convey a spirit of earnest intention and a pledge of worthy purpose. And though we shall strive ever to see the bright side of the situations we meet, we shall likewise remember that difficulties are things that show what men are, and that these can be made as stepping-stones to a nobler and more useful life.

In the process of “comin’ thru the sand,” the ceremonies of initiation administered to us were impressive to the *n*th degree; what we did here, what we heard here, what we saw here, yea, what we felt here, shall linger long in the memories of those of us who were the recipients of this initiation, as being one of the most vitally important events of our college days. And so our key-word is ACACIA; may she ever, as in the past, continue to grow in influence and service, and may the covenants formed within her halls and the principles for which she stands, protect and promote always the welfare and honor of this, our cherished Fraternity.

## EDITORIALS

The War is over—yes and not only that it has been over for nearly five years. There are some of the alumni that have been lost during that period of upheaval throughout the world. There are some alumni that have not been exactly lost; we know where they have been and where some of them are at present. Even so there has drifted between us a big barrier of some kind; perhaps indifference, perhaps their wives, families and business relations along the mad rush for existence. On the other hand we are also striving to exist—we can't exist without you! It is the plea of the active Chapter to the Alumni for a closer tie of that friendship and brotherhood that has made this Fraternity an everlasting and time enduring organ. We are always

glad and willing to be criticized if you will only issue your complaints and suggestions. We admit that we have not been all that we should have been to you, but we don't admit that we have been defeated in our purpose to please the alumni. The policy has changed and it is going to continue to change until we find some means of getting in touch with all the alumni. When we once get in touch with all the alumni their old days will be recalled and they won't let us lose them again. If you have not heard from your Fraternity, write us and find out why you have not heard from us. It might be such a thing as your last Traveler was sent to your old address, and that we don't have your new one.

## ACTIVITIES

The Chapter has had a very successful year. Venerable Dean Anderson is to be congratulated upon the way he has led the chapter this year. "Andy" had the loyal support of the entire chapter. The activities of the year demonstrate very clearly what can be done by co-operation. The chapter has acted as a unit on all important matters, and this has been due to a large extent to "Andy's" leadership. The chapter feels that it has a leader in Bro. Livermore who will keep up the good work.

The chapter is proud of the men that were elected to honorary societies this year. There were four elected to Sigma Xi, one Phi Kappa Phi, two Helios, one Gargoyle, and one Sigma Gamma Epsilon.

The social program was carefully planned and carried out very successfully. The social activities have meant much to the chapter.

Last, but not least, is the chapter athletics. The teams put out this year were very good and a foundation was laid for next year.

The chapter was very fortunate in receiving through Bro. Rittershausen a number of very good articles and news

items from the alumni. The active chapter hopes to be able to get more news from the alumni, and thereby keep in closer contact with the chapter membership. Any news that would be of interest to the active chapter or the alumni will be very much appreciated.

## SOCIAL ACTIVITIES

### JUNIOR WEEK

Did we have a House Party? Well I'll say we did. There is no time like Jr. week it seems, for a real, genuine, honest-to-goodness good time, when finals are over and cares and worries forgotten; and the party this year was strictly in keeping with the occasion. The weather was ideal, so no one could even find fault with the weather man.

Most of the guests arrived Friday P. M.—all but one. "Jeff" Kezer, it seemd, in his anxiety for his lady frind's safe arrival, decided to accompany her on the last lap from Auburn to Ithaca. Either owing to the confusion of many city streets and crowds or for some other reason they failed to make the proper connections until quite late in the day. However, with the arrival of the long-looked for couple on the eight-thirty Lehigh, the party was declared to be in full swing.

The Masque perfordance, Junior Prom and Penn-Cornell basketball game, all followed in quick succession and each given its due attention by the house and its guests.

The Masque presentation, "Listen To Me," was up to its usual high standard and played to a full house. A laugh was thrust out in every line, laughing being the decided order of the evening.

The Old Armory, the scene of many other similar affairs of by-gone days, was tastefully decorated in maroon and yellow. With this background, and such music as only the Mason-Dixon eight of Philadelphia and Stromberg's orchestra of Cleveland are able to produce, the affair *could not but be* the top-notch affair of the season.

The Penn-Cornell basketball game was another typical Cornell holiday event, Penn meeting her first and only defeat of the season at the hands of the newly reorganized Cornell five in a fast and close game that was a thriller from start to finish.

The party closed with a house dance held on Saturday evening of Junior Week, everyone declaring the party a success, and all ready to sleep overtime for the next two weeks.

### ST. PATRICK'S DAY DANCE

As is told elsewhere in this issue, the Junior Week party was a great success, although we were all in need of sleep after the girls left.

Our next dance at the house was on St. Patrick's Day. Several maintained that it was somewhat strange that a Masonic Fraternity should select such a time for a party, but those who did the selecting had various reasons, some of which you may guess, for having the dance then.

There were about twenty-eight couples at the dance and all said they had a good time "shaking the hoof."

On the twenty-third of April we held another fete for the "Jazz Hounds." "Bones" Enos paid us a visit that evening and proved to us that he had forgotten nothing in the art of dancing since his last visit.

As a novelty the Music Committee purchased numerous articles relating to the ladies' toilette, such as lip-sticks, powder puffs and the like, and auctioned them off to the highest bidder. From this a neat sum was realized and it will be utilized in adding to our supply of music and records.

#### SPRING DAY HOUSE PARTY

Our Spring Day House Party, which was held from Friday, May 26 to Sunday, the 28th, was voted a huge success by all who attended. There were eighteen ladies in the house and anyone who knows our circumstances can realize that we had a house full. However, no great inconvenience was suffered by anyone.

Three of our Syracuse Brethren came down Friday afternoon and remained with us until Monday morning. Two others drove over Saturday afternoon, after taking a final, and stayed with us at the house until Sunday.

Instead of going to the Navy Day Hop at the Old Armory Friday evening and being crowded and sweltering, we hired a hall in Trumansburg, and had a very enjoyable party of our own which lasted until two-thirty.

Saturday our schedule was as usual, attending the circus in the morning, the Yale-Cornell ball game in the afternoon, and the crew races in the early evening. Owing to the rough water and darkness only the intercollege race was rowed,

much to our disappointment. However, that evening we danced away our regrets at the house and forgot, before the evening was over, that the races had not been rowed.

During the party we were under the able care of Mr. and Mrs. Riley Heath and R. S. Kirby and wife.

Alumni Brothers Mihalko, Tyler and Scammell were here for the entire party, and Alumni Brothers Lawrence and Ellis attended our two dances.

We are looking forward to another party like this next year.

### CUPID'S ACTIVITIES

#### GONE WRONG

There is one bit of news that will hardly bear reduction to the usual form of expression. It is too good.

The most common question among Cornell Acacias the past month has been, "D'hear 'bout Deat?" And by now the question has been asked and answered so many times that everyone in Ithaca who knows "Deat" knows what has happened to him. But in case some poor Brother back in Podunk somewhere hasn't been reading the daily papers, here's the dope:

New Dominion, May 10, 1922.—Announcement Dinner.

At a dinner party of elegant appointments given by the members of the faculty club at their rooms in High street last night, announcement was made of the engagement of Miss Lily Belle Sefton and Dr. Eugene Peyton Deatruck, both members of the faculty of West Virginia University. The tables were prettily decorated, a rose being placed at each cover. Preceding the dinner Miss Sophie Brunhoff sang "In the Heart of a Rose," and on investigation the diners found in the petals of the roses a tiny gold heart

bearing the names of Miss Sefton and Mr. Deatrick.

Between the courses of the dinner several pretty toasts were offered, Dr. Henry G. Knight acting as toastmaster. The following members made responses, Dr. Albert M. Reese, G. A. Berghy, Miss Rachel Colwell, B. F. Creech, Miss Nelle Summers, W. W. Hodge and M. J. Dorsey.

Miss Sefton is an assistant professor in the department of chemistry, having been in Morgantown two years. Her degree of Ph.D. is from Ohio State University. Mr. Deatrick is associate professor of soils and soil technologist in the agricultural station, his degree being Ph.D. from Cornell. Both of the instructors have many friends among the students and faculty of the University and also among the townspeople, who will be interested to know of their engagement. The date of the marriage has not been made public. —*Morgantown, W. Va.*

"Deat" replied to the Acacia banquet invitation by referring us to Luke 14: 19-20. We urge everyone to dust off his Bible and look up this passage. (It is found near the rear of the book.)

We extend to Brother Deatrick our

hearty congratulations, and to Mrs. Deatrick our sincere welcome into the Acacia family.

#### ENGAGEMENTS

Lester C. Anderson to Lucy H. Chapman, of Staten Island, N. Y.

Leland Spencer to Ruth N. Reed, of Oakfield, N. Y.

Robert J. Scammell to Mazzare Johnson, of Ithaca, N. Y.

Sheldon E. Brink to Alma R. Taylor, of Oneida, N. Y.

Fred Morris to Lillian Rafferty, of Shelbyville, Ind.

E. P. Deatrick to Lily Belle Sefton, of Morgantown, W. Va.

G. M. Benson to Mildred M. Schory, of Canton, Ohio.

#### BIRTHS

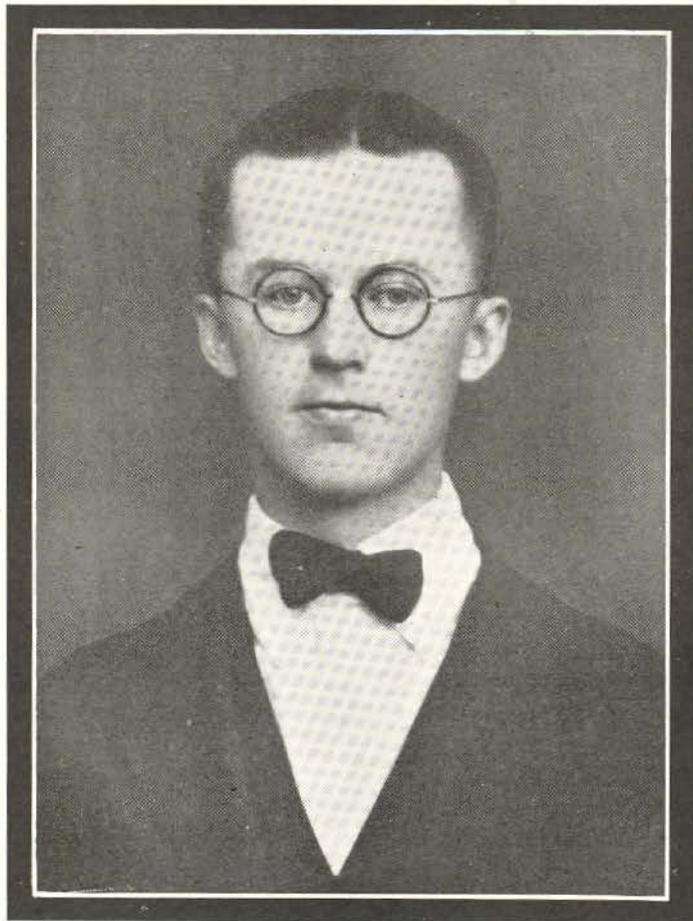

Born to Dr. and Mrs. C. E. Ladd, a son, Robert Daniel, Jan. 16, 1922.

Born to Mr. and Mrs. E. P. Vreeland, a son, Robert Lauren, March 7, 1922.

Born to Dr. and Mrs. E. R. Cushing, a daughter, Marie Elizabeth, June 2, 1922.

LELAND SPENCER.

**I N M E M O R I A M**

**JOHN L. HENDY**

**Born January 17, 1899**

**Pledged to Acacia, October 24, 1921**

**Died January 15, 1922**

## ATHLETICS

Everybody is interested in the activities of the House and University along athletic lines so I will try to give you a little dope on what has happened since the last issue of the Traveler.

Hockey wasn't as large a success as we hope it will be next year. But we let the other houses on the hill know that we are alive. The team consisted of Benson, Dodson, Griffin, James, Krauss and Whitson.

Interfraternity Basketball created a lot of interest this year. We put out a strong team which had a .500 percent standing at the close of the season. Our team consisted of Krauss, Dodson, Kern, Griffin, Weeden, and Kenworthy.

Now baseball is in season and Acacia has plenty of material for a good team and has entered the Inter-Fraternity league with 41 other fraternities. (The team is made up of the following men) Kern, Anderson, Benson, James, Weeden, Kenworthy, Dodson, Kezer, Griffin, E. Johnson, Krauss, Caslick and Tozier.

They lost one game to Alpha Psi and that left us second in our league.

"Jeff" Kezer made good in wrestling this year. He represented the University in the 135 pound class against Syracuse and won the decision over his man by 2 min. and 9 sec. "Jeff" even broke his opponent's nose during the 9 min. period. He was alternate for the 135 pound class at the Intercollegiates and got the Insignia for his efforts.

Frosh Tozier has made his debut in baseball and is on the Freshman team playing first base.

Cornell Hockey team won every game in the league in due form.

The Varsity Basketball team got off

with a bad start but finished third in the league, while U. of P. and Princeton fought for first place.

The Lacrosse team finished second in the league this year. Their only defeat was handed to them by Syracuse after a hard fought game, the score was 3-2. Next year we hope to have the title.

Coach Carney has a good baseball team this year. They have fallen into the hands of fate a few times and lost some games. Colgate won the first game on our new field and Yale took the last one from us after a heart rending rally or series of rallies.

Jack Moakley's team of trotters performed wonderfully all year until they got in the finals of the Intercollegiates. They were seized with track shyness and came in fourth.

The 27th day of May, 1922, was our "Waterloo." It seemed that every one of the Gods of Fortune deserted us. Even Cayuga rolled so high that our crews had to abandon their ships.

Gil Dobie had his warriors out for a spring airing. Some of the last year's team are missing and more may be missing in the fall, but we trust Gil will mold together the scraps and make a creditable team.

CORNELL VS. SYRACUSE CHAPTER  
BASEBALL GAME

On May 6th about half our gang went up to Syracuse Chapter to play the annual game of baseball which was an exciting affair. The boys all enjoyed themselves and for several days they were talking of the wonders of Syracuse. We all had an extremely pleasant time while there. The game was a hard fought af-

fair and, indeed, was rather close, but after much effort, Cornell Acacians won.

Our hosts treated us royally and they were true sports in every way. After the game we had lunch, and "Oh daddy" how we did eat after experiencing such a hard game. We must have scared the steward but he *never* showed it.

In the afternoon we went to the Track Meet between Syracuse, Colgate and Pittsburgh which was a thriller as could readily be seen by the scores. It was too bad that Colgate had to win the meet.

After the meet, Syracuse played Princeton in Lacrosse and beat the New Jersey Tigers to the tune of 5 to 2.

As that day was Syracuse's Spring Day, the Syracuse Acacians got their Cornell brothers the best girls ever for the May Day Dance. What better spirit could exist than that? Well, everyone had a fine time at the dance and the boys seem to think Syracuse Co-eds have got it all over the fair young ladies of Cornell.

George Sumner and Ken Gillette got there at last. They are the cow's tail at all times, it seems.

We are looking forward to having Syracuse chapter visit us next year and beat us as they said they would.

G. MILTON BENSON.

## FINANCIAL STATEMENT

June 6, 1921, to June 1, 1922.

Receipts and expenditures (bills paid not bills incurred) for the respective period

## ALUMNI NEWS

*Ship Ahoy! Whither Bound,*

Since the advent of THE NUN TRAVELER in February, 1912, the chapter publication of Cornell Acacia has sailed forth "every now and then" to convey its cargo of news to every alumnus. After ten years of faithful service, during which the old ship has weathered many a storm, it has reached the point in its career where it needs an overhauling and the addition of some modern machinery to enable it to function efficiently and effectively.

The burden of publication rests almost entirely upon the "actives." This is fundamentally wrong. The expense of printing the pamphlet is an item of considerable consequence in the chapter's yearly budget, which limits the number of issues to one or two per year. Is there an alumnus who would not welcome THE TRAVELER three times per year, in October, February and June?

The editor and his associates have the success of THE TRAVELER at heart. Theirs is a thankless job, and they are deserving of more encouragement and support from the alumni than has been customary in the past. How many of you alumni have taken the trouble to acknowledge receipt of THE TRAVELER or to give the editor news about yourself that would be of interest to your former associates through the columns of the chapter publication? Perhaps you have noticed that the last four issues have no section headed "Alumni News," and if so you must have experienced a feeling of mingled regret and chagrin. But can you justly accuse the editor of being overindulgent in his immediate surroundings for failure to in-

corporate the news that you most earnestly seek, when he is unable to get any response from *you* who must furnish the material for the alumni column?

Any alumnus who does not comprehend or appreciate the value of the chapter publication as an indispensable link in the chain that represents fraternal brotherhood should read the Grand Editor's message in the August 1921 number of *The Acacia Journal*. The following extract from his excellent article is quoted below for the benefit of those who have had the misfortune to lose interest in the Fraternity periodical.

"That the interest of the alumni and the strength of their support has a positive relation to the publication of the magazine can be determined by studying the experiences of those chapters which have regular and substantial publications. Perhaps no two chapters in the Fraternity have more thorough co-operation and interest from their alumni than Illinois and Purdue. Coincidentally the *Heth Hello* and the *Hour Glass* rank in the first division of Acacia chapter magazines. The same can be said of the *Wisconsin Letter*, the *Letters from Home*, *The Mummy*, and one or two others. And by the same sign we find that those chapters who have not adopted the publication idea or who have permitted their magazines to lapse into decay cannot boast of the same wholehearted and earnest support from their alumni. The reason is easily understandable both by the alumnus who hears nothing from the 'house' and therefore thinks himself forgotten, and by the active who never thinks of the alumnus as one who might be of help and appreciative of a little attention."

Only one more thought might be added to this quotation to strengthen its significance, namely, that the *Heth Hello*, the *Hour Glass*, and other publications in

their class are brim-full of alumni news and matters of particular interest to the alumni.

The problem of financing THE TRAVELER should be solved without further delay. Is there a better plan than to start an endowment fund for this purpose? The annual income from a fund of a few hundred dollars would be enough to defray the expenses of one issue, and surely the present membership of nearly one hundred will respond 100 percent strong if such a fund is established. The writer hereby agrees to subscribe ten dollars to the cause and requests the active chapter to appoint a committee, composed partly of local alumni, to consider the question of establishing a *Traveler Endowment Fund*.

Next year there will be three issues of THE TRAVELER and every issue will be alive with news, if every loyal alumnus will help a little by furnishing a paragraph now and then and by contributing five dollars or more to the Endowment Fund. Let us revive the old fraternal spirit and put Cornell Acacia up in the front line of Acacia chapters, first by boosting THE TRAVELER so that its influence will be felt, then by active participation in a building program that will be a credit to our Alma Mater and to our beloved Fraternity.

L. A. WILSON.

### ECHOES FROM "708"

We were more than pleased to hear from Leslie Morrow who was a member back in the "Good Old Days" of 708. His words remind us of the Old Acacia Spirit that we so often hear the older boys speak of, and which has made possible our present position and achievements.

The following is a few reminiscences by "Les" which will be of considerable interest to the pioneers of the Cornell Chapter:

You fellows think you have had a difficult time during the war in connection with keeping the house alive and you are to be heartily congratulated on your accomplishments, but some of us recall similar experiences back in the days of "708."

I joined the fraternity in the fall it moved to 708 and arrived early to find Gay Wallenweber, Tom Bradley and myself the "bunch" and the job of landing investors for \$10,000 worth of bonds, purchasing furniture and rustling enough men to fill the house.

We sold bonds to butchers, bakers and every other sucker available and only the optimism of Gay Wallenweber put things across. Then we had to hire a cook and get men. Allen Jayne then showed up and helped land fellows of the calibre of "Steve" Wilson, "Tommy" Thompson, "Bert" Goff and others of the never say die gang who put Acacia on the road to success.

We had lots of work, serious disagreements as to policy, and withal Acacia spirit of the real kind. Many "parties" helped to rejuvenate our spirits and our dances at Rogues Harbor, etc., were real affairs.

During those days "Baldy" Keith was national treasurer and a charter member of all things Acacian. He helped us with advice and entertained us with humor. Some of the old gang will not be surprised to learn that I met him in New York last summer and found him a full fledged actor and stage director.

That first year was the most difficult to weather and following years found Acacia men plentiful and prospects were so rosy that we talked "new house" even then.

"Bob" Chamberlain soon arrived and we put every possible job on his shoulders and then quit worrying. He seemed to thrive on work and to be pretty bright even though he couldn't play "500."

Tommy Thompson and Steve Wilson were our star card players and could give us lessons in courting. "Poppy" Waite furnished us with music at all hours and I never hear an oboe without thinking of the old days. "Pop" Wilder and the original Hiram were our pets and we were a congenial and jolly crowd without the aid of the Senate.

I hear some things of the older men but you are probably more up-to-date than myself.

"Steve" Wilson is now Prof. of M. E. at A. & M. College in Oklahoma. He likes his work and enjoys the Indians. He is married and has at least one child.

"Tommy" Thompson is Technical Engineer for Detroit Edison Co., in Detroit.

"Nick" Carter is Research Engineer with the same company.

"Tom" Hdye is with the National Carbon Co. in Cleveland.

Gay Wallenweber has disappeared—he went South and the last news I had from him indicated his intention of going from Ft. Myers, Florida, to open a consulting engineer's office in Atlanta.

Armin G. Kessler who had the highest note ever heard by human ears is now managing the Farrell Foundry Co. plant in Buffalo. Same old "Kess."

I enjoyed my visit at the house last summer, liked the fellows and their spirit and wish them every success in their ambition to own a new home. Some of us are out of touch and are lazy, but always like to hear from Acacia even though we seldom express our appreciation.

You know our approaching grey hairs and the intervention of time causes many changes. Inseparables like Steve and Tommy, Bob Chamberlain and myself, etc., now write about once a year. In these letters—which occur about in May—we always say that we would like to have a real Acacia reunion in Ithaca in June, but, in some manner, things never occur as we wish.

I think the "Traveler" affords a needed stimulus to us and often starts us on renewed correspondence and always awakens pleasant recollections.

These are mere jottings of a busy

period and you can burn them, rehash them or forget them. Wishing you and all Acacians the best of luck, I am

Yours sincerely,

"LES" MORROW.

In Bro. A. W. Rittershausen we have a valuable addition to our editorial staff. The lack of information and news items of alumni, which would be of great interest to the older members, has often been pointed out. With Bro. Rittershausen as alumni reporter we hope that a great deal of information will be obtained. Already he has succeeded in getting in touch with a number of men as the items in this section indicate. Let us have your cooperation; if you have any dope send it on to "Ritt." Address, Youngsville, N. Y.

Walter Nuffort, 900 S. 16th St., Newark, N. J. Brother Nuffort was initiated into the Cornell Chapter in 1908, one year after the Chapter was founded. When he broke away from the University, he conducted classes and gave lecture courses at the Newark Y. M. C. A. He is now connected in an executive capacity with several meat chain store concerns. Brother Nuffort is active in Masonic work and is a member of several social organizations.

From his letter we glean that he is considerably interested in his home life. He has three children, two boys and one girl, the oldest of which is fifteen, and is doing his best and with apparent success with these as only a true and worthy Acacia Brother could do it.

Brother Nuffort says, "I consider the members of Acacia the finest type of American manhood today, as they are all college men and all serious minded men, which of necessity they should be. I would not take any amount of money for my connection with the Acacia Fratern-

ity, and I am ever ready to do my bit, if asked."

A recent letter received from Brother Rittershausen contains the following message:

Bro. H. Hand entered Cornell in 1913 and graduated in the allotted time with a B.S. degree, which according to some of the boys here is the best degree in Cornell. We at least submit that it covers a large field.

Bro. Hand was married April 2, 1918, to Miss Susan Kidder and is enjoying in its fullest expression. In the autumn of 1919 he located in Binghamton as special agent for the New York Life Ins. Co. and is filling that position successfully at the present time.

He states that they have an excellent Cornell club at Binghamton and that he holds the official title of Registrar. We send Bro. Hand our best wishes and hope him the best of success in the future.

*From Cornell Alumni News*

Albert A. Cushing, '17 B.Arch., is superintendent of construction for R. E. Williams, contractor of Buffalo, now building the new Central Park Methodist Episcopal Church in Buffalo. He lives at 14 Roanoke Ave.

Fred S. Rogers, '14 M.E., is assistant professor of machine design in the College of Engineering at Cornell. He lives at 948 East State St., Ithaca.

Edward M. Urband, '13 Arch., circulation manager of *The Architectural Record*, is commanding officer of the 303 Aero Squadron, 78th Division, 2nd Corps Area, which is now being organized in New Jersey, with headquarters in Newark. His residence address is Lenox Terrace, South Orange, N. J.

With the return of the postal cards announcing the annual banquet and the

Spring Day house party, there came numerous requests regarding the location of various of the old timers.

For two years the active chapter has been trying to get together the "dope" on the alumni and at present we find that we know little about the whereabouts of a great many of them.

One alumnus asked who, of the old men, were still around town,—the following is the list of our alumni who are connected with the university: "Bill" Andrae, "Doc" Bennett, James Bizzell, "Bob" Chamberlain, Roy Clark, "Ed" Cushing, "Dal" Dallenbach, Willard Ellis, "Vic" Gage, "Prof" Ladd, "Shorty" Lawrence, "Lou" Massey, Fred Rogers, "Sandy" Sanders, Charles Walker, "Jim" Vanderhoff.

Those in Ithaca but not connected with the University are: "Rol" Heath, "Cliff" Reed, Lawrence Rumsey, C. Tracy Stagg.

The latest "dope" on others of the alumni is:

Alexander, '16,—Cashier, Commercial State Bank, Triumph, Minn.

Beaumont, Prof. of Agronomy, Mass. College of Agriculture.

Bradlee, "Tom," '11,—Director of extension, Burlington, Vt.

Brinton, Chas.—With the Westinghouse Electric Co., East Pittsburgh, Pa.

Burnham, "Cliff," '14, County Flood Control Dept., Los Angeles, Calif.

Cameron, '09,—Salesman, Westinghouse Electric Co., Bluefield, W. Va.

Carter, "Nick," '13,—Detroit Edison Co., Detroit, Mich.

Deatriek, '17,—Faculty, University of West Virginia.

Hand, "Hank," '17,—Insurance, Binghamton, N. Y.

Harrington, Charles, '15, — Attorney, Plattsburg, N. Y.

Havens, "Bill," '16, — Engineering Department, Cleveland, Ohio.

Kessler, A. G., '08, — Farrel Foundry and Machine Co., Buffalo, N. Y.

McCartney, John, '09, — Veterinary Surgeon, Middletown, N. Y.

Nash, Jack, '16, — Engineer, Dallas, Texas.

Niven, L. A., '08, — With "The Progressive Farmer," Birmingham, Ala.

Nuffort, Walter, — Located in Newark, N. J.

Palmer, E. A., '09, — Manager of Rail-

way Department, Westinghouse Electric Co., Oakland, Cal.

Peacock, "Peke," '11, — Located at Bridgeton, N. J.

Rothenberg, '11, — Real Estate Broker, Pennsburg, Pa.

Ruby, George, '15, — In business at York, Pa.

Smith, A. N., '09, — With J. T. Ryerson and Sons, Chicago, Ill.

Suiter, "Cap," '16, — With J. H. & C. K. Eagle, Inc., Shamokin, Pa.

Wilson, L. A., '09, — On the Faculty of Oklahoma A. & M. College, Stillwater, Okla.

## CHAPTER DIRECTORY

The Directory Committee has made some progress since the last issue of THE TRAVELER and is now able to publish a substantial list of addresses that have been verified by return post cards.

Three lists are published in this issue. The first consists of those who have favored us with return post cards indicating that the address here given is correct.

The second list contains the names and last known address of those alumni who did not reply to our cards, and the third group consists of those whom we have not been able to locate within the last year.

You will serve the good cause if you will look over the complete list and report to us any corrections that should be made.

Be sure to notify the Chapter whenever you change your address, and send back every return post card that is sent to you, whether you can accept the invitation it carries or not.

The Directory Committee consists of Brothers Spencer, Livermore and Gillette. Brother Livermore will be here

next year and any communications addressed to him will receive his careful attention. The Committee is indebted to Brother Suiter for much valuable assistance in preparing the Directory.

LELAND SPENCER.

### *Alumni Addresses Verified to May 1, 1922*
