TOP ROW, Left to right—Paul S. Warner, John G. Roukis, Oakley S. Roy, Walter J. Dragoon, Joseph R. Herr, Frederick J. Scism, William C. Burnett, Leslie E. Belmont, Scott M. DePalma, Robert C. Howe, Gordon C. Mayo, John C. Hance.
 THIRD ROW, Left to right—Chestler L. Pohl, Dale Freilove, Robert D. Hoagland, Richard H. Teel, William D. Stalder, Joseph C. Curtis, Paul P. Curtis, John F. P. Simpkins, Charles M. Emery, Charles H. Asst, Dwight S. Miller.
 SECOND ROW, Left to right—Robert R. Fowler, Lester C. Howard, James C. Showacre, Arthur E. Ingraham, Hobart A. Abbey, Edward A. Gordon, Orrin Riley, Sanford B. Hatch, Arthur R. Heuser, Robert E. Strong, David S. Weeks.
 BOTTOM ROW, Left to right—Norman R. Neubauer, Edward K. Knapp, George H. Bassett, Robert N. Whitman, John G. Lauber, Roy S. Clarke, Jr., Prof. Gus F. Heuser (Chapter Advisor), Richard E. Showacre, Charles W. Deakney, Emerson Hibbard, Roy A. Halliday, Robert J. Bergren, Robert S. Mack.

CORNELL TIDINGS

By EMERSON HIBBARD

This year, as every year, we started out with a hectic two weeks of rushing during which the party mood didn't exactly carry us away. Therefore our first party was on that eventful day in October, the second to be exact, when, Cornell having defeated Navy, everyone was naturally in a happy mood. The party consisted of a hot dog roast and vic dance. However there were those who had other interests.

Two weeks later on the 16th, the majority of us went up to Syracuse to watch the Big Red squeeze the Orange. After the game most of the fellows accepted the invitation to attend a party given by the Syracuse chapter. Judging from the time some of them returned, notably Hunt and Lauber, it must have been an extremely good time.

On the following Saturday, the game between Cornell and Army took place. Spirits were slightly dampened by the outcome but the party at the house helped everyone forget his sorrows. A buffet supper started the affair which was attended by the parents of several of the fellows as well as their dates. Joe and Paul Curtis' parents came down to the game from New Hampshire; Jack Carpenter's and Art Ingraham's came from Buffalo; Norm Neubauer's came from Snider, N. Y.; and Bob Smith's mother came with Joe Wilford's parents from Williamsburg, Va. After the supper the pledges put on a skit entitled "Acorn Chapter, Nut House". Enough said! Then, after a couple of games, we got down to the more interesting part of the evening; dancing with the one-and-only (especially true for Bergren-Mungeer and Hatch-Ferguson).

The initiation of thirteen pledges took place on the weekend of October 30-31.

Therefore no social events were scheduled, but we had fun! Inasmuch as the pledges lived through the weekend, we celebrated with a nice banquet down at the Dutch Kitchen and then got back into more gracious living. Professor Clark and Professor Heuser each said a few words.

The high point of our social program thus far has been our Autumn Weekend House Party from which many of the brethren are still recuperating. Everything ran smoothly under the direction of Bob Strong.

On Friday evening, November 12, the party-ers went on a hayride and then returned to the house for dancing etc. Saturday morning everyone was up bright and early (11 a.m.) to wander around the campus. In the afternoon, of course, the Chapter and guests went to the Dartmouth game, and what a game it was! We had to impress the Houseparty guests, you know. After the excitement Ma Sutton dished up an excellent meal and everyone was off for the Savage Club Show. The Coronation Ball with music by Johnny Long was the highlight of the weekend. Shirley St. Onge, guest of Orrin Riley, was selected as the Acacia princess to represent the house in the Queen contest. The Knapps and the Kerrs made perfect chaperones, so near and yet so far!

The Autumn Weekend ended on Sunday afternoon when sleepy-eyed men of Acacia bid fond and long-lasting adieu and somehow managed to salvage enough energy to straighten the house before they collapsed completely.

We're now planning for a Christmas party and there are those who are counting the days until Junior Weekend.

1948 NATIONAL CONCLAVE

By WILLIAM STALDER

This year the stage was set for another National Conclave of the Acacia Fraternity. It was held in Chicago, Illinois, August 25th to the 28th, and was the scene of great activity and discussion. I was fortunate in being able to attend this meeting and I would like to tell you something about my impressions, and the work that was undertaken, at the Conclave.

Roy Clarke, our Venerable Dean and delegate, was unable to attend because of his job in Point Barrow, Alaska. In his stead, Richard Showacre, the Senior Dean, attended as delegate. I was sent as associate delegate. Professor Cotner came with us to act as Chapter Advisor, and three men who were going to attend the National Training School.

We left Ithaca on August the 21st, for Chicago. Five of us travelled together; Ed Knapp and his wife, Jim and Dick Showacre, and myself. Bob Whitman and Professor Cotner were to meet us at the Conclave.

We had a very pleasant trip from Ithaca to Niagara Falls and into Canada. Just before we crossed the border, Dick Showacre found that he had lost his wallet, containing all his money, identification, and credentials. This incident was a standing joke throughout the trip and a source of much concern to Dick. However, they never asked us for identification in the four times we crossed the border.

The first night of our journey we stayed in London, Ontario. Fortunately, Ed Knapp had wired ahead for room reservations. We left Ed's wife in Lansing, Michigan and proceeded on to Chicago.

Wednesday morning classes started at the training school with lectures and discussions given by such able men as: Charles Gerrett, George Croyl, E. R. Hyde (travelling secretaries); Paul

Brown, Ray C. Thomas, and Professors of Northwestern University.

George Croyl led the discussion on leadership and presented an excellent picture of what leadership means in a fraternity and how we may all contribute to its cause. One of the points he stressed was the care with which officers and leaders should be chosen. He pointed out that in selecting a V. D. we should select a man among men to follow the words of Acacia.

The next day we started off with a talk on chapter finances by an accounting and economics professor. The first thing he emphasized was that we should have financially-sound men in the fraternity. Secondly, we should run our business in a manner capable of taking care of these men. He stated that unpaid house bills, and unpaid building-fund pledges were the scourge of good chapter financial conditions. He explained just why, how, and in what way we could build a new house without putting too much burden on any one group or individual.

On Friday morning, the National Conclave was called into session by Lloyd H. Ruppenthal, President. The usual formalities were followed before we came to the important business at hand, the voting of pending bills and amendments. The most important of these was the question of whether or not followers of the Roman Catholic Faith should be admitted into Acacia. There was a very lengthy discussion on this, both pro and con, and upon voting the amendment was defeated. In passing, we would like to hear from some of the Alumni concerning their feelings on this matter. I am sure it will be brought up again, two years hence, and we would like to represent the majority thought of the chapter. Another question that was brought up for amendment was the

(Continued on next page)

HONOR ROLL

The following names are to be added to the Acacia Honor Roll as those who served in World War II. In the December, 1946 issue of *The Traveler*, an original list of 85 names was printed, in addition to the four who gave their lives in the name of their country. This makes a total of 117 men from the Cornell Chapter who were in some branch of the service. There still may be others whose names have been overlooked and if so, will you kindly get in touch with Paul Warner, Editor, so that we may make mention of same in some later issue of *The Traveler*, as in this way, we may be able to have a complete record of all those who served for use in the archives of the Chapter.

Abbey, Hobart A.
Bassett, George H.
Bemont, Leslie E.
Blodgett, Allen R.
Carpenter, Selleck J.
Elmendorf, Richard G.
Elmendorf, William R.
Emery, Charles N.

Whitman, Robert N.

1948 NATIONAL CONCLAVE

(Continued from page four)

clause prohibiting the use of intoxicating beverages within the halls of Acacia. This was discussed at some length but, when the vote was taken, it was defeated by a majority of 48 to 2. The Cornell delegation went on record as opposing this amendment. The manner of voting on new members was brought up but it was decided that we should not deviate from our present ruling which states that one black ball is all that is necessary to vote down a member.

Friday evening the Conclave banquet was held in the club rooms of the Furniture Mart. The meal was excellent and the after dinner speakers were superb. David Emberly, past National President of Acacia; Past Chairman, National Interfraternity Conference, and a former member of Columbia Chapter, gave the dinner address. Short speeches

were also given by John Mosley, Lloyd Ruppenthal, and Ray C. Thomas.

Saturday morning we elected a new National Treasurer, Marion H. Huber, and a new National Secretary, Roy C. Clark. I was able to meet both of them and they impressed me as very capable men and worthy of their positions. The Conclave adjourned at 12:30 Saturday.

I would like to leave a few thoughts with you. This Conclave was one of the high spots in my life. I found out just what Acacia means and stands for. I met fellows from every chapter in the United States, and, no matter where we were from there was one thing that bound us together—the fact that we were all Acacians. I only wish that every member of Acacia could attend a National Conclave. Then they would know the meaning of the phrase—"To strengthen the ties of friendship, one with another."

FALL RUSHING - 1948

By ROY A. HALLADAY

Our formal rushing this fall opened with all its glory and tradition, typical of the good old Cornell spirit, on the morning of Sept. 20th, the first day of registration. We started out in full force bright and early that morning, after gulping our four-course breakfast down in two swallows, in order to beat the other 52 Houses on the Hill to the punch. Correction please! Did I say bright and early? Well, we might have been rubbing the sand out of our eyes and propping our eyelids open with toothpicks in order to see where we were going at such an ungodly hour; but it was by no means bright as far as the weather was concerned. As a matter of fact, it was pouring so hard that the water was raging down the streets and sidewalks in all its fury. So, our sturdy crew of 27 strong, instead of proceeding in the normal or usual way, had to either swim or embark in amphibious ducks to establish beachheads on the doorsteps of our victims who were scattered far and wide over the Cornell campus.

The Rushing Committee which was appointed last Spring was composed of the following: George Bassett, Bob Bergren, Roy Halladay, and Bill Stalder—with Dick Showaere as our Chairman. For three days and nights before the first contact period began on Sept. 20th, the members of this Committee sweated and toiled to get the rushing program organized and set up so that we could operate with a maximum of efficiency and a minimum of confusion.

Through the contacts which we made during our Sub-Frosh week-end last Spring, and the recommendations submitted to us by our Alumni and some of the present members, we were able to obtain over 100 names of rushees to contact. This meant a lot of planning and work for the Committee: setting up an active and accurate filing system, drawing up schedules and charts, obtaining

addresses and religions of the various names submitted, mapping out or arranging the individuals to be contacted by areas so as to cover the entire campus with a minimum amount of travel; and many other duties too numerous to mention.

At last, through the untiring efforts of our Rushing Committee, a program was set forth whereby the splendid results obtained in the end were well worth the efforts of everyone concerned. This also proved the importance of pre-planning and setting up a well-rounded rushing program in order to obtain the best results in formal rushing.

Due to various reasons such as: wrong addresses, religious limitations, and failure to meet the entrance requirements into Cornell, the number to be contacted was cut down to about 60 names. At the end of our two weeks of formal rushing, we handed out, on Friday night, October 1st, 33 bids. Of these, 23 accepted. Nine bids were turned in Saturday noon, October 2nd, which was the dead-line established by the Inter-Fraternity Council for the turning in of bids together with the rest of the Houses at the Straight. The remainder of the bids which we handed out were turned in to the different members of our Rushing Committee during the two week period of grace which we extended for the benefit of those rushees who wanted to take a little more time in considering such things as: finances, the value of joining a fraternity, and the advantages of pledging Acacia over some other House. In addition to the 7 pledges held over from last Spring, this brought our total number to 30 pledges for the Fall Term of 1948.

Thus, through the splendid cooperation of everyone in the House, our members living outside, and our Alumni,

(Continued on next page)

INITIATION

By GEORGE BASSETT

INITIATION OCTOBER 24, 1948

The week-end of October 24 is a week-end that will not be forgotten by the men who were initiated into the ranks of Acacians on that date, or by the men who took them on their long and toilsome journey. On that week-end, we added the names of thirteen men to our roll book. Those initiated are as follows: Les Bemont, Arts, Ithaca, N. Y.; Walt Dragon, Agr., Albion, N. Y.; Bill Elmendorf, EE, Garden City, N. Y.; Dick Elmendorf, ME, Garden City, N. Y.; Chuck Emery, Agr., Mahommintown, Pa.; Bob Fowler, Agr., Homeward, Kansas; Joe Herr, EE, Lockport, N. Y.; Les Howard, Agr., South Dayton, N. Y.; Art Ingraham, Hotel, Ransomville, N. Y.; Jamie Kerr, CE, Bronxville, N. Y.; Oakley Ray, Arts, Altoona, Pa.; John Roukis, ME, Brooklyn, N. Y.; and Paul Warner, Arts, Bellerose, N. Y.

The 27 active members were disappointed that a heavy schedule and a full round of prelims prevented the usual full week of pre-initiation activities, but they made the best of a concentrated program beginning on the Friday before initiation. Before the time for the initiation came on Saturday, the actives and pledges alike were in the proper mood for what was to follow. Although

a few of the skits came a little too close to home for the comfort of some of the actives, they were enjoyed by the majority of the members. The grand finale, as far as the skits were concerned, came on Saturday night, when the pledges really outdid themselves with a few well written songs and a take off on some of our more "active with the opposite sex" actives. Paul Warner stood out in his role as "Mimi" and was ably supported by the rest of the pledge class. (where's your pin, Deakyn?) Special recognition should also go to Dick Elmendorf for the well-chosen song lyrics.

Sunday saw the climax of the whole initiation with the ceremony at the Masonic Temple and the Banquet at the Ithaca Hotel. After the delicious meal, cigars were passed and Bill Stalder took over as master of ceremonies. One of our alumni from the Engineering school, Roy Clarke, gave the main speech of the day, with remarks from Professor Heuser, Chapter Advisor, and Chuck Emery, president of the pledge class. The Initiation banquet ended to the strains of the Alma Mater, and each went his own way to rest or to prepare for the schedule that was awaiting him on the following week.

FALL RUSHING

(Continued from page six)

we came through our formal rushing this fall in flying colors with one of the largest pledge classes in the history of Acacia. Before signing off, I should like to take this opportunity to thank our 7 pledges from last Spring, who since

then have recently become initiated into our fold as new members, for their outstanding contribution to our successful rushing. It is through a spirit of cooperation such as this, and working together as a body, that we of Acacia can and will build up our Chapter here at Cornell in quantity as well as quality.

NEW MEMBERS

CHARLES M. EMERY Agr '50

"Chuck" is one of those fine all-around fellows always ready to help. They forced him to graduate from Mars High, Penn. in '44 because he was so popular and in so many activities that no one else had a chance. After an extended vacation in the Air and Marine Corps of 25 months, Chuck is here at Cornell running true to form. He is a member of the 4-H club, Ag Domicon, Cornell Young-Co-op, and has been elected to the office of Jr. Steward in Acacia.

OAKLEY S. RAY, Arts '51

"Oak" is from Altoona, Pa. He whizzed through high school under an accelerated course and landed in Cornell at an age when most of us were just graduating from grade school. He was president of the Senior Academy of Science organization and, also holder of several science awards. As a Pre-med student and psychology major, Oak believes in burning the midnight oil.

JOSEPH R. HERR EE '50

"Joe" was educated at the Lockport High School, Lockport, N. Y. He graduated in 1943 and received a Cornell State Scholarship. "Joe" actively participated in the dramatic club, band, and 4-H club. He enlisted in the A.S.T.P. and was stationed in Cologne. "Joe" sings in the Sage choir, is a member of the Westminster Society, and heads the Cornell Recording Service. All this and Hazel Halleck, too.

LESLIE E. BEMONT Arts '51

"Les" was born as a Canadian way up in Ste Anne de Bellevue, Quebec. He then moved to Ithaca where he went to high school. "Les" played football in '44, the year of his graduation. After serving two years in the army, he entered Cornell University in 1946. His stray moments seem to be spent around Balch at present.

RICHARD G. ELMENDORF ME '50

"Dick" is a big fellow from Garden City, L. I. He was graduated from high school in 1945 where he was a crew man. He sang in the Presbyterian Church Choir at home, and we really enjoy his singing here. Dick served in the navy as AMM 3-c for a year before coming to Cornell. We don't understand how he has been able to keep his pin this long.

JOHN G. ROUKIS ME '50

John admits he is from Brooklyn but he is still an alright fellow. He was graduated from Boys High School, Brooklyn in 1945 all set for a year's stretch in the navy. John is a member of the Rythm Club here in Cornell. He has already lost his pin, poor fellow.

LESTER C. HOWARD Agr '51

We don't know whether all men from South Dayton, N. Y. are as active in organizations as "Let" is or not. We doubt it because not many men could do all the work that he does. In his spare time he is majoring in Ag Extension here at Cornell. Let is president of the Young Co-ops, treasurer of the Grange, and also active in the 4-H, Round-Up Club, and a member of Wesley in Ithaca. It was the same story when he was in the service and in high school. In the service he was restricted to duties of First Sergeant in the Combat Engineers. That lasted for three years. In high school "Let" held class offices every year, was active in FFA, judging, soccer, and basketball. By the way, his high school was at Cherry Creek, N. Y.

WALTER J. DRAGON Agr '51

"Walt" is one of the very few majoring in Ag Engineering here at Cornell. Right now he is in the process of packing his grip and it isn't because he's headed for the Ag Eng building. Walt is a great hunter from Albion, N. Y. He

plans on bagging another deer this year and wants it bigger and better than the one he got last year. The Young Co-op, 4-H, and A.S.A.E. are some of his clubs. Back in Albion High it was FFA, 4-H president, and the judging team that kept him busy until 1942. The next five years he spent at home on the farm and also as mail carrier for some time. However, from now until '51 it is Cornell for Walt.

JAMES H. KERR JR. CE '51

"Jamie" is one of our married men. Yep, he married a wonderful girl by the name of Sue last August. They say a Marine in the 4th Div. always gets his woman. Jamie hails from Bronxville, N. Y. and was graduated from Kent School, Kent, Conn., in 1944. Football, hockey, baseball, Glee club, and choir kept him busy and out of mischief. He is in the five year program for civil engineers but he got the jump on the rest of them by going to Sampson for one and a half years.

ARTHUR E. INGRAHAM H Ad '51

"Art" will start shining about now. With basketball coming in for this year we expect to see an ace on the floor when we look at Art. He comes from Ransomville, N. Y. (wherever that is). Art was busy in school with the year book, newspaper, and choir. Now he keeps all Acacians laughing with his jokes, faces, and actions. In another ten years we will probably see Art on the stage.

ROBERT R. FOWLER Agr '51

"Bob" is one of our few members from way out west. Well, it isn't so far at that. It is Homeward, Kansas to be exact. He can sure tell us some stories

about the rugged west. Bob is built for the weather out there, because he is short and stocky. But he has a lot of vim and vigor packed in that body of his. The Navy helped to toughen him up and now the Cornell boxing team has taken over the job. Bob likes all sports and we expect to see him shine on the basketball court this season.

WILLIAM R. ELMENDORF EE '49

If garden city has any more men like "Bill", I think we ought to start a recruiting service in that town. Bill is one of the top men in the Electrical Engineering school in Cornell. Tau Beta Pi, Eta Kappa Nu, Pi Delta Epsilon are the honor societies that take some of Bill's time. The rest is spent in the capacity of Business Manager of the Cornell Engineer, and is in such clubs as the Outing Club. We want to know what Bill does with his spare time. We are certainly glad to have him as a brother Acacian.

PAUL S. WARNER Arts '50

Anyone who saw the play put on by this group of initiates will never forget Paul. If Jamaica High School in Belterose, N. Y. had Paul in their Senior play, we know it was a great success. We also know why Paul likes to ski so well. The reason is that he was in the Army Ski Troops. That sport and swimming will take up most of his spare time. Personally I think anyone majoring in economics would have very little spare time, but Paul has plenty of it just as he had in high school. Photography and Hi-Y were a couple of his activities. Paul has a Cornell Scholarship and we are just as proud of it as he is. I could go on to tell about that girl of his but maybe I had better sign off here.

The most valuable of all education is the ability to make yourself do the things you have to do when they have to be done, whether you like it or not.

—HUXLEY.

PLEDGES

WALTER E. COX, JR. Chem E '53

"Walt" is a quiet chap from Laconia, N. H. His activities in high school disprove his quietness, with participation in track, skiing, Hi-Y, Spanish Club, Science Club, Debating Society, as well as being active in the Church Fellowship. He was graduated in 1948 holding the McMullen Regional Scholarship at Cornell. His main interests here have been stamp collecting, reading, sports and sleeping.

DAVID S. WEEKS Agr. '52

"Dave", a Dairy Industry major, is the husky fellow that really plays football. He was graduated from Laconia High School, Laconia, N. H. in 1948. He was on the track, basketball and football teams, and was captain of football. Dave was active in the Dramatics Club and 4-H work. We will hear more from Dave when he gets this first year under his belt.

FREDERICK J. SCISM Agr '52

"Fred" just takes one look at the boys in bed and they get right up; they have found by sad experience he means business when he calls. Fred was graduated from Port Chester High School, Port Chester, N. Y., in 1948. Fred was a Varsity man on the basketball, football, and track teams. He was also a stagecraft man. His activities have been confined to his books since his arrival in Cornell; as tall as he is, he will get around.

WILLIAM C. BURNETT Chem E '53

"Bill" hails from over the west hill from here, in Burdette. Bill was graduated this last June from Watkins Glen High School, where he had held most of the class offices during his spare time between basketball and track. We think he will become a regular Acacian with all ease.

GORDON C. MAYO Chem E '53

Gordon is another lad from Laconia, N. H. He was on the football, ski, and wrestling teams, also an active man in the Dramatic club, Thespians, and Rifle Club. Gordon was graduated from Severn Prep in 1948. His chief activity in Cornell has been receiving telephone calls from girls who don't leave their names.

SCOTT M. DePALMA ME '53

"Scotty" hails from Altoona, Pa. Strangely enough he is quite proud of it (say we New Yorkers). He was graduated from Altoona High in June, 1948, after a very active four years. Scott was active in the Student Senate, asserted his authority in the Hall Patrol, flexed his muscle on the track, and expounded his musical talents in the band and choir. Here at Cornell he is trying his hand at fencing as a supplement to his course in Mechanical Engineering.

JOHN F. P. SIMPKINS Pre Vet '51

We believe John is one of Round Lake's most prominent sons. His high school career was spent in Albany Academy where he was vice president of the Beck Literary Society and president of his senior class. John was that indispensable man in the Glee Club, the accompanist. His athletic achievements were baseball, track, and varsity football. John achieved Cum Laude in his junior year in high school and we all expect him to do even more here at Cornell.

HOBART A. ABBEY ME '53

"Bart" hails from Salamanca, N. Y. During high school he was active in the Student Council and intramural athletics. After graduation in 1944, Bart took it easy for a while. He did some hunting and also some work (the work part is his own story). Then, Uncle Sam called and Bart answered by spending a year in

the field artillery. After his discharge from the service, he spent a year in the best state of the Union, Pa., working for a living. That became too strenuous and he entered Cornell this fall. We expect great things from Bart in the future. Bart's father was Charles N. Abbey '22.

JOHN C. HANCE Arts '52

John says he doesn't like pineapple. And we believe he has good reason not to. John hails from Honolulu, Hawaii. So far he isn't quite certain just what he will major in, but we know his father is with the Hawaiian Planters' Association, Experiment Station, Honolulu, Hawaii, and so believe "Skipper" may take some step in that direction also. He hit honor roll grades in Punahou High in Hawaii along with interests in photography, football, and track. We expect him to do the same here, only more of it. I might add that he is one fellow who can bat a ping pong ball so fast that it actually whistles at you. Jack's father was "Doc" Francis E. Hance '22.

CHESTER L. POHL Agr '51

"Chet" has to be a good man because he was born April 20, 1924. He has already proven to us that he is tops. Chet played basketball, baseball, and soccer for Vernon High in his hometown of Vernon, N. Y. He expects to help the house out in all its sports. Guard on the football team was his first successful accomplishment. Chet is in his sophomore year in the Ag School and can't quite figure out whether it is rougher or easier than his one year stay with the Army in Japan.

RICHARD L. HUNT Arts '52

"Dick" is a native Ithacan. Despite this fact he is one swell person. Neither the Ithaca weather nor his tour of eighteen months in the 217th Q.M. Sr. Bn. of the Army has dampened his spirits. Dick is majoring in Mathematics and as soon as he gets this first term tucked under

his belt we expect to see him out for track and dramatics just as he did in Ithaca High until his graduation in 1946. He was salutatorian of his class, an honor which he keeps hidden under a bushel basket.

JOSEPH I. WILFORD ME '53

"Joe" is one of these tall lanky fellows who can really handle that basketball. We're mighty glad to have him with us. Joe stepped right out of Matthew Whaley High School in Williamsburg, Virginia, into his first term as a Mechanical Engineer in Cornell. If he can build structures in proportion to his own height, we should have some real skyscrapers in the U. S.

ROBERT C. HOWE Agr '51

"Bob" hails from the north country around Watertown, more specifically Antwerp, N. Y. He is a fellow who enjoys hunting and fishing, especially the latter, in the St. Lawrence. We hear stories about the cold weather up there, and Bob verifies these stories. He has at least fifty different pipes to keep his hands warm. He will need them this winter because he is in Cornell's Ski Club. We also expect Bob to keep up with his basketball as he did in Antwerp High. Bob's in his sophomore year now and he says it is a snap.

ORRIN RILEY Arts '52

Orrin is one of those football men from Haverhill, Mass. He played football for Haverhill High for three years. That was in his spare time. Track Captain, school paper editor, president of his Junior and Senior class, chaplain in DeMolay. At New Hampton Academy he earned his letter in football and track, and was a member of the glee club and quartet. All of this plus his swell personality earned him a Cornell Club of New England Scholarship. Needless to say Orrin is a fast man with the women, or I should say woman be-

(Continued on next page)

PLEDGES

(Continued from page eleven)

cause he has a very lovely girl named Shirley who was voted our Queen for the Coronation Ball at Cornell this past Fall Weekend.

ROBERT B. SMITH ME '52

"Smitty" is one of the two red heads in the house. Hailing from Williamsburg, Virginia, Smitty likes that favorite sport of fishing along with sailing and photography. However all three of them had to stand aside for Stanton Military Academy until 1948. "Skip" stepped right out of the Academy into the Mechanical Engineering school of Cornell. Yep, wherever you see a green Plymouth you are bound to see Smitty. Since this editor is from Pittsburgh, Pa., he believes it's appropriate to tell that Smitty was destined to be the swell guy inasmuch as he was born there too.

KENT L. BUCK Agr '52

Kent, the "starry-eyed Maine-iac" with all the women, is one of the most outstanding athletes to hit Acacia in a long while. At Corinna Union Academy,

right next door to Stetson, his home town, Kent was not only vice-president of his class but Captain of football and baseball and Co-Captain of basketball. He was chosen on the Maine All-State football team and was good enough in baseball to pitch three innings against the Brooklyn Dodgers. We look to Kent to represent us in Varsity sports in the very near future. Kent holds a non-resident scholarship at Cornell.

ALLAN R. BLODGETT '50 EE

Allan "Mike" Blodgett is the latest addition to our pledge class. Mike turned in his bid at the end of November. While keeping up as a Junior in Electrical Engineering, he still finds time for many and varied extra-curricula activities. The Congregational Fellowship group and trying out for wrestling keep him active on the hill and downtown he is scoutmaster of a local scout group. "Mike" is strictly a local product, having attended Ithaca High, graduating in 1944. A two year hitch in the Army Field Artillery followed with a tour of duty in the Phillipines. One year at Sampson College sent him winging to Cornell and the engineering school. We are mighty proud to have "Mike" with us.

SPORTS

By JIM SHOWACRE

Athletic teams at Cornell are on the upswing this year, and paralleling the successes of the Big Red are the intramural teams of the Black and Gold. If this fall's football team is a good example, Acacia's name in the campus headlines will be a familiar sight.

Our touch football team was good enough to win its league with a 5-1-1 record. We lost in the tournament of league champions, but we still consider ourselves one of the top teams on the Hill, which saw over 80 teams competing. Incidentally, this year's intramural football program had the greatest total

and per capita participation of any college in the world.

As this is written, we are at the start of the basketball campaign, and the outlook for our entry is very encouraging. In volley ball and badminton, we hope to continue making a progressively better record as we have done since the war.

Our athletic prowess does not stop with intramural sports, either. We have many fellows engaging in varsity sports: football, Jack Carpenter and Joe Miller; crew, Dick Elmendorf; wrestling, Bob Hoagland; track, Joe Curtis and Ed Gordon; and hockey, Dick Teel and Joe Miller.

ABSENTEES

By ORRIN RILEY

Come February and Acacia of Cornell will lose an able leader in Roy S. Clarke, Jr., as then our Venerable Dean will receive his A.B. in Chemistry from the College of Arts and Sciences.

Roy first came here, from Washington, D. C., in November, 1945 after serving a couple of hitches in the U. S. Army. As a member of the infantry, he was stationed primarily in the European Theatre of Operations, and gained his honorable discharge in July of 1945.

Acacia won his choice in the Fall of 1946 and he was initiated into the Fraternity in March, 1947. For a while he was editor of *The Traveler*, then served as House Manager and Treasurer combined. As Venerable Dean this term, he represents the House in the Intra-Fraternity Council.

"The fellowship I have enjoyed here at Acacia has meant a great deal to me", says Roy. "I think the House has made miraculous strides in rising from a group of a half-dozen at the time of re-activation to an organization of fifty-odd members."

His worth-while advice and pleasant companionship will be hard to replace. We wish him the best of good luck and know that he will go far.

Roy A. Halladay of Clayton, N. Y. has the most sterling character a man could ever hope to possess. He is a living example of all that Acacia stands for, and when degrees are passed out in February, Cornell and Acacia will lose an accomplished personality.

Roy's collegiate career has been a long and varied journey. He took up Accounting for one year at Rider College in 1939, then switched to the Albany Business College until '41. At that time Uncle Sam claimed him for five long years. He's the sincere, modest type and would rather have none of his Army accomplishments printed, but we will

say that he was a Master Sergeant, participated in the battles of Okinawa, Saipan, and the Marshall and Gilbert Islands. For this he received the Bronze Star and the Good Conduct Medal. That's a pretty strong hint that he didn't loaf very much.

He entered these portals of knowledge in March, '46 and now has earned his B. S. from the I. & L. R. School. At Cornell Roy has followed his hobby, music, into the University Glee Club and Sage Choir and took part in C.U. R.W. activities. Acacia initiated him in November, '46, and this term he was on the all-star rushing committee that did such a notable job. He is a Master Mason.

We'll really miss his snappy convertible and the fact that he'd go out of his way to give a fellow a lift. Roy considers his being a member of Acacia as one of the high points in his life and we of Acacia consider it a privilege to have lived and worked with him.

ACTIVE SHORTS

The following members have had the honor of being accepted into honorary fraternities this fall.

WILLIAM R. ELMENDORF... *Tau Beta Pi*
CHARLES W. DEAKYNE... *Chi Epsilon*
ROBERT N. WHITMAN... *Eta Kappa Nu*

ALUMNI VISITORS

During the summer and fall the following alums have dropped in at the Chapter House for a short visit:

Henry T. Skinner, '30
A. Marcus Connelly, '33
Fay McClelland, Jr., '44
John P. Woodford, '42
Robert D. Flickinger, '42
Warren W. Hawley, '37
R. Stephen Hawley, '40
R. Claud Bradley, '23

THREE ACACIANS IN THE ARCTIC

By ROY S. CLARKE, JR.

Left to right: Charlie Deakyne, Roy Clarke, Charlie Adsit.

A year ago Charlie Deakyne published an article in *The Traveler* describing his experiences working for the U. S. Coast and Geodetic Survey during the summer of 1947 as a member of their hydrographic Survey party at Peard Bay on the Arctic Coast of Alaska. Deakyne's article and stories interested two other Cornell Acacians, Charles Adsit, and myself, to such an extent that we found ourselves working this summer with a soft ball game between the C. & G. S. party at Barter Island, Alaska.

Barter Island, a small island just off the Alaskan mainland, is on the North Coast of Alaska about sixty miles west of the Canada-Alaska border. We found ourselves on this ice surrounded island in the middle of June, with a summer ahead of us that was to contain periods of hard work, mild adventure, and generally interesting and educational experiences.

The purposes of the party was the collecting of data to be used by the Coast Survey in the preparation of navigational charts of that section of the Arctic coastal waters. It will suffice to say here that our main job was to be crew members of sounding launches, when these boats were made ready for use and the ice cleared enough to make depth soundings possible. The first few weeks after our arrival were spent in an effort to get the boats ready for the possible early departure of the ice. The boats were little more than mere shells and required much work; cabins had to be completed, engines installed, hulls scraped and painted, equipment installed, etc. The three of us spent our days at this type of work and our long Arctic evenings (we were having twenty-four hours of daylight at the time) exploring the island and taking in movies at the Army base on the island.

The first big event of the summer was the 4th. of July celebration. There was a soft ball game between the C. & G. S. boys and the Army, followed by a picnic sponsored by the Army. The next day, which was also a holiday (the 4th. was a Sunday), we had the Army as our guests at an Eskimo type celebration—boat races, foot races, blanket toss, tug-of-war, etc. Everyone had an enjoyable time and also learned a lot about Eskimo customs.

The next important incident came somewhat later in the year after the ice had opened up some. The water was clear of ice at least part of the time about a mile off shore, but beyond that there was still relatively solid ice. We had been able to get a lot of the inshore work done but had been held up generally by bad weather and the reluctance of the ice to leave.

For days we heard reports, many of them erroneous, of the progress of the

(Continued on page seventeen)

COMMENTS FROM THE EDITOR

By PAUL WARNER

The editor finds himself stepping into Acacia's hallowed halls, and into the responsibility of editing *"The Traveler"*. Because of the haste and relative inexperience of the editor, there may be a few omissions. However, he has been aided, advised, and encouraged throughout the confusion of going to press. The efforts of those who have been connected with *"The Traveler"* in the past, and the conscientious work of those who have cooperated in writing the articles that appear in this publication, are deeply appreciated and acknowledged.

We, of the staff, have been given the obligation of upholding the fine work that has been done in the past and the responsibility of giving you an improved publication in the future. With these objects in mind, *"The Traveler"* was put to press. We look to you, the actives and alumni of the chapter, for criticisms, information, and guidance—to help us attain our goal. We want to print articles that you enjoy reading. We want to reknit old friendships and

establish new, through the medium of *"The Traveler"*. It is only through your active interest that we will be able to accomplish what we have to do. Your letters and articles have made this issue a living, friendly one and we express our appreciation to those of you who have contributed. Keep them coming—it's a responsibility you can't overlook.

In the December, 1947 issue, we printed a mailing list of Acacians. There were a few omissions and mistakes in the list. This issue, however, we have printed a corrected, revised mailing list that we hope will rectify past errors. If any of you Alumni have changed your addresses, or know of someone who has, will you please mail us the much needed information.

We sincerely hope that you will have an exceedingly Merry Christmas and Happy New Year, and that you will all "strengthen the ties of friendship, one with another" through your magazine, *"The Traveler"*.

Let Us Hear from You!

The December, 1948 issue of *The Traveler* will reach you during the Christmas Holidays this year, if all goes well and according to plans. I wish to take this opportunity to thank Paul Warner and Orrin Riley for their splendid cooperation and assistance in getting all the material for *The Traveler* from the active Chapter on schedule. Especially, I want to congratulate them as this is the first time that the Editors of the Chapter have come through on the dot, because I realize that this has meant an extra effort on their part.

It has offered me much pleasure and gratification in making the final preparation and editing of this issue for all of you. Paul, Orrin and I trust that you may receive as much enjoyment from reading it as we have had in preparing it. After perusing the contents, do take a few moments' time and drop Paul or Orrin a line, offering possible suggestions to them for the improvement of future issues.

Personally, I wish to extend my greetings and good wishes to ALL at this time of the year. May your Christmas be a Happy One indeed, and, your New Year filled with Prosperity abundantly and without ceasing!

Fraternally yours,

R. CLAUD BRADLEY, Alumni Editor.

CHAIRMAN DIVISION OF PETROLEUM ENGINEERS

AMERICAN CHEMICAL SOCIETY, 1948-49

(Copied from *Cornell Alumni News*, Vol. 51, No. 6, Nov. 15, 1948, by permission)

WAYNE E. KUHN

Wayne E. Kuhn '30 PhD, manager of the technical and research division of the Texas Co., New York City, has been elected chairman of the division of petroleum chemistry of the American Chemical Society for 1948-49. Kuhn joined the Texas Co. in 1929 and has held his present position since 1938. He is holder of a number of patents and chairman of several national committees on technical work. He is a member of the American Petroleum Institute, the American Society for Testing Materials, the Society of Automotive Engineers, the American Institute of Chemists, the American Institute of Physics, the National Aeronautical Association, the Society of Chemical Industries in London, the National Farm Chermugic Council, the Army Ordnance Association, the American Association for the Advancement of Science, the Chemical Society of London and the Institute of Petroleum.

Dear Claud:

It was very nice to have your letter of recent date commenting on the write-up in the *Cornell Alumni News*. It is a release that was prepared by the American Chemical Society and I am quite surprised that it found its way into the *Alumni News*. In my opinion, most of these releases sound like an obituary.

You asked for additional information that might be of interest to some of the old gang. It is hard to know where to start or what to say in this regard, but possibly I can add a few random comments that would be of interest. In an effort to show a little scientific intelligence, I have succeeded in a dozen or so patents. Most of these were applied for during the time I was in active research work at Port Arthur, Texas.

Shortly after being transferred to New York, I was placed in charge of research work for the company and very soon afterwards made manager of the Technical and Research Division. As a matter of policy of my own making, I now take out no patents. I vent my excess energy in writing technical articles. Lately I have found a much better way of doing it, and, that is to hold an occasional press conference and let somebody else do the writing for me. The attached reprint is a good illustration of one such session. (The Petroleum Industry and Jet Propulsion.)

My work is handling all technical and research activities, or probably I should say that I'm in charge of the group that handles these activities. It comprises a total force of fourteen hundred in the division. Five research laboratories and three territorial offices are included in the division. The work is varied, interesting and completely without monotony. I find myself investigating, of necessity, almost every conceivable industry. Anything that moves must be lubricated.

It might be of interest to some of the chemical people that I have been very much interested in chemicals from petroleum. As a result, I was one of those responsible for the formation of the Jefferson Chemical Company. I am a member of the Board of Directors of this Company.

I spent considerable time in Washington during the war in connection with petroleum company interests and also on classified work for the services. I received an OSRD award as well as a Navy award personally in addition to Army and Navy awards for collective work.

The write-up was on the ACS, that is only one of several technical organizations in which I am active. Intentionally and otherwise, I seem to stick my nose into too many things.

I could not do much with these various activities if it were not for my wife. She gives me a hand at various and sundry things and even comes up with good advice occasionally. Maybe it is all good advice, although I do not always take it. (No different than any other man.)

I have a house full of one lively boy. He has more energy than ten monkeys. At present time he is in Junior High with his eyes definitely set on Cornell. In fact, he has his sights trained on the Cornell Band, being proud of the rascal,

I suspect he will have no trouble making it. He played a French horn in the Senior High School Band as a ringer while still in elementary school. Now of course he is a full fledged member. Currently, he is strutting around a bit because that band represented Stanford University at its recent game with the Army at the Yankee Stadium.

I have seen very few of the old gang from the Fraternity. John Fisher occasionally gets to New York and I have seen him briefly. It has been a long time since I saw Charlie Tucker and have had a note to myself to call him for about four months. Actually, I have scarcely been home for more than a few days since August. Probably the Acacian I hear from most often is Bob Kirby at Penn State. My activity in stamp collecting has increased rather than decreased.

Claud, whenever you are to be in New York, by all means drop up to see me. My office is on the 23rd floor of the Chrysler Bldg., across Lexington Avenue from Grand Central. Do try and drop me a note ahead of time as my days are completely filled with conferences and meetings, I am sometimes away from my desk for hours at a time.

Best regards to the "old gang."

Fraternally yours,

Wayne E. Kuhn

THREE ACACIANS IN THE ARCTIC

(Continued from page fourteen)

ship convoy that was on its way to Point Barrow and Barter Island. The boats finally reached Barrow somewhat behind schedule due to extremely bad ice conditions all along the Arctic coast, and two of the LST's (landing ship-tank) and an ice breaker headed eastward to us.

These three ships finally reached a point about ten miles west of the island slightly confused by a dense fog, bad ice conditions, and inadequate knowledge of the waters. Our boats had done

some work in that area just previous to their arrival, and the convoy, realizing this, requested that one of our launches come out and guide them in. Mr. Conerly, our Chief of Party, took his launch and after some difficulty located the two LST's and went aboard one of the ships to help from there. He left Deakynne in charge of the launch and with the responsibility of leading the two ships through the ice and fog to the beach. (The ice breaker remained out

Alumni News

Cameron, James R. '07, ME, lives at 2400 Fairfield Ave., Bluefield, W. Va., is a sales engineer. He served as president of the southeast chapter of the Society of Professional Engineers this year.

Rittershausen, August W. '19, AB, states that he thoroughly enjoyed visiting the fellows at the Chapter last December and that he hopes to get back to Cornell again this December as he has a daughter who is a freshman there. "Haven't seen Dick Mihalko in years, even though he lives only ten miles away" writes Rit. He says that there's no doubt but what all the Acacia hunters will be envious of his good luck in bagging a ten point buck on his hunting trip in late October in the vicinity of Lowville, N. Y., which dressed 223 lbs. Rit extends his good luck to all and to keep up the old drive for Acacia.

Tozier, Hayden H. Jr. '22 BS, is a county 4-H club agent in Dutchess County, New York. Hayden's 4-H Club baby beef members have won twelve out of nineteen grand championships in the 4-H Class at the Eastern States Exposition in the last nineteen years of showing. In September, 1948 one of his boys won the grand championship in the Open Class for his baby beef against all competition. This is the second time that one of his members has won in the Open Class. Wonderful showing, Hayden, keep up the good work, as you have done an outstanding job with your baby beef club members. Hayden's address is c-o Dutchess County Farm Bureau, Poughkeepsie, N. Y.

Campbell, Howard H. '23 BS, was a delegate from New York State to the annual meeting of the National Association of County Agricultural Agents at Chicago last November. "Hump" was President of the N. Y. State County Agents Association in 1946. His home address is 411 Mineola Blvd., Mineola, New York.

Bedell, A. Gordon '26 BS, writes that "The Traveler is sure a great news teller and I enjoy every issue immensely, so just keep them coming." Shorty is in the commercial poultry business near Kings Ferry, N. Y., raising White Leghorns.

Heuser, Gustave F. Sr. '28 BS, MS, PhD, attended the Eighth World's Poultry Congress at Copenhagen, Denmark, August 20-28, 1948. Gus was re-elected Secretary-Treasurer of the World's Poultry Science Association and Editor of World's Poultry Science Journal. As Chapter Advisor and as Sec.-Treas. of the Cornell Acacia Corporation, Gus is rendering a most invaluable service to the Cornell chapter.

Rose, Clinton W. '28 AB, is an engineer-geologist with the U. S. Army Engineers, at the Mt. Morris Dam and Reservoir project. Clent recently transferred to his new job from the Bureau of Reclamation at McCook, Neb. The new project that he is working on is a \$30 million job and will take five years to complete. His home address is in Ithaca, 1013 No. Tioga St.

Schneider, Burch H. '29 PhD, from article in *Scientific Monthly*, August, 1948: "The Doctrine of Ahimsa and Cattle Breeding in India." Burch was representative of the Howard Mission in Albania in 1927-29. He was at the Allahabad Agricultural Institute for five years and is now professor of Animal Husbandry, University of W. Va., Morgantown, W. Va.

Skinner, Henry T. '30 BS, is curator of the Morris Arboretum in Philadelphia, Pa. This is a big job and Henry is doing it mighty well as you would naturally expect.

Connelly, A. Marcus '33 AB, '35 LLB, is an attorney whose office is in Jamestown, N. Y. and he is doing general practice. Mark is still single and lives at his old home, R. F. D. 1, Ashville, New York.

Burton, Frederic C. '38 BCE, engineer in charge of construction for the African division of the Texas Petroleum Co., left the U. S. November 1st with Mrs. Burton and their sons, Frederic and Stephen, for an eighteen to twenty-four month tour with base operations of Accra, Gold Coast, British West Africa. He returned to this country last February after a five month field trip throughout West Africa and Equatorial Africa. His address is c-o Texas Petroleum Co., Box 526, Accra, Gold Coast, British West Africa.

Dutcher, Burt D. '38 BS, is with the Connecticut General Life Insurance Co., Hartford, Conn. Burt is supervisor of Group Accounting. He and his wife Pat and son Dodge live at 78 Capitol Ave., Hartford, Conn.

Bartlett, Thomas E. '40 BS in Hotel, is with the Arthur Anderson and Company Accountants and Auditors, 75 Federal St., Boston 10, Mass. Tom finished Bentley school in June, 1947. He has

an eight months' old son, Thomas Eastman Jr., born February 11, 1948. The Bartletts live at 17 Wellesley St., Weston 93, Mass.

Bradley, Robert C. '40 BS, is with New York Life Insurance Co., 17 S. High St., Columbus, Ohio. Bob is doing an outstanding job with the company in that he qualified for the Round Table Club in 1947 and hopes to make it again in 1948. In 1947 he ranked 18th out of over five thousand salesmen in his company by selling over a million dollars of insurance. He writes that he was very happy to learn what a wonderful job the Chapter has done this fall in pledging so many fellows and to know that everything was going along fine at the fraternity.

Sorace, Kenneth J. '40 EE, is development engineer with Lamson & Sessions Co., Cleveland, Ohio, is active in the Air Force Reserve unit in Cleveland, flying regularly at the Army Air Base in the city. Ken and family live at 3670 Normandy Rd., Shaker Heights, Ohio.

Fossum, M. Truman '40 BS, is back on full duty working with a staff of five graduate students and statistical assistants at Cornell in the pioneering job of applying economics to Floriculture and Ornamental Horticulture as has been done for other fields of Agriculture. Truman now has an apartment on Westview Terrace, Ithaca, N.Y.

Hagedorn, Alfred A. '40 EE, '46 ME, with his wife Beaty has recently completed a 12,000 mile sojourn since leaving Ithaca in June, and they are now living at Woodland Park, Colo., which has a wonderful view of Pike's Peak. Al writes that there is practically no engineering work to be done in that vicinity but that he is instigating a little activity along that line on his own and

(Continued on next page)

ALUMNI NEWS

(Continued from page nineteen)

that he will let us in on it later. He says, "if we still like it here as much next spring as we do now, we plan to buy a mountain ranch and settle down permanently".

McClelland, Fay Jr. '41 EE, now lives at 71 Prospect St., Nutley, N. J. and is working for du Pont Plastics Research in Arlington, N. J. Fay was back for class reunion in June and while there stopped at the house and saw Ma Sutton as none of the fellows were around. He writes that "I am greatly pleased at the way the chapter has come back after the war. The enlarged dining-room does look very nice. Fay says "We" now consists of Phyl and me, Phyllis Lucille, 4, and Duane Keith, 1½.

Carros, Robert G. '42, has just finished a very busy and successful season with his father at "Bob's Dairyland" which is on U.S. No. 1 in Westbrook, Conn., just before you pass the town line into Clinton. Bob writes that they plan to close up their business in late November until next spring and during this time he hopes to get back to Cornell for awhile.

Flickinger, Robert D. '42 BS in Hotel, is employed by the Cease Commissary Service, Dunkirk, N. Y. This commissary service offers food service to industrial plants in the western New York area. Bob began with the company last April and has worked as an assistant manager in three different plants in the area. At present, he is completing his training program at Trico

Products in Buffalo. Bob and Louise live at 411 Kinsey Ave., Kenmore, N. Y. He writes that he enjoyed seeing all the boys at the House when there for the Army game. According to Bob "they certainly have progressed since the day I opened the house in September, 1946. The house looks wonderful and am sure it's reaching the goal we have all dreamed of for a long time. I am anxiously waiting to receive the December, 1948 issue of *The Traveler*. Am sure the other fellows feel the same way about hearing from the old gang as I do."

Maker, Wilbur C. '42 DVM, is in general practice business with Dr. R. N. Shaw at Shrewsbury, Mass. Bill reports that he is getting along fine and likes his new set up. He was field veterinarian at the Eastern States Exposition, Springfield, Mass. in September.

Winkeller, Herbert D. '42, writes: "After 18 months in Korea, I feel that I should take out initial citizenship papers. Leah Jane and daughter Andy Lee is in Colorado." Herb is very optimistic in that he hopes to be back in the United States sometime within the next six months. His address is U.S.A. Hq. Co. 32nd Infantry, APO c-o P.M., San Francisco, Calif.

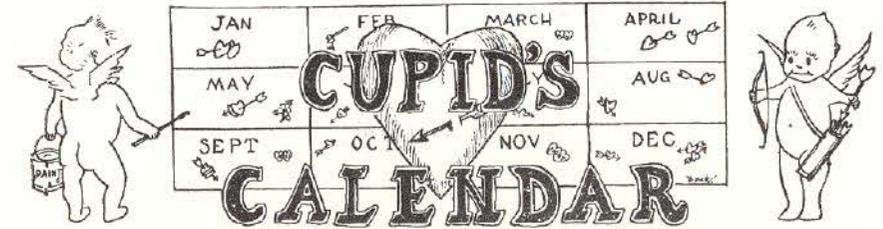

Cushing, Meredith R. '44 BEE, is manager of Friendly Ice Cream Retail Store in West Springfield, Mass. "Bud" as better known to all, hopes friends and alumni will stop in and say hello. Bud is the son of Albert A. Cushing '17 also a member of the Cornell Chapter. Bud was captain of the varsity football in 1943 and at the same time V.D. of Acacia.

Unless you try to do something beyond what you have already mastered, you will never grow.

—ROBERT O. OSBORN

Optimism is the faith that leads to achievement. Nothing can be done without hope.

THREE ACACIANS IN THE ARCTIC

(Continued from page seventeen)

in deeper water.) Several hours later the ships pulled in to the unloading beach and started the job of unloading with no loss of time.

The next thirty-six hours were busy ones for everyone on the island and on the ships. The ships were anxious to get on the way home and out of the Arctic ice as soon as possible, and their crews managed to get the cargo off the ships in record time. Due to lack of heavy equipment it required a lot of back-breaking work to handle our supplies as they were brought to us on the beach.

The next few weeks were occupied by going out on the launches whenever the weather and ice permitted and working around camp storing away the sup-

plies that had come in, as they were largely for the use of the party that will be up there next summer.

During this period Chuck Adsit was fortunate enough to have his launch selected as the one to make a reconnaissance trip to Demarcation Point, which is located just east of the Canada border. His boat had some little trouble getting through the ice, fog, and shoal water between Barter and the border, but it was an experience he enjoyed and will long remember.

We left Barter Island the end of the second week in September, grateful for a summer full of interesting experiences. We had seen a portion of the Arctic and had learned to realize some of the problems men face in living and working in it. However, I feel that we were all glad to be on our way back to civilization and school.

FINANCES OF THE CORPORATION

By DR. G. F. HEUSER

There is no financial report of the Corporation available for this issue of *The Traveler*, but there will be one prepared for the June, 1949 issue.

REPORT ON BUILDING FUND PLEDGES

Since the June, 1948 issue of *The Traveler*, the following alumni have paid their \$100.00 in full:

A. Marcus Connelly '33, Ashville, N. Y.
 Fay McClelland Jr. '41, Nutley, N. J.
 Roy S. Clarke Jr. '47, Washington, D. C.
 Arthur R. Heuser '47, Ithaca, N. Y.

A correction in June, 1948 issue—Earl Smith '35 should be Jerome Smith.

You will note that the response during the last six months has not been good. It is sincerely hoped that those alumni who still owe on their pledges will take care of this matter at an early date. There are over one hundred alumni whose pledges have not been kept paid up to date, and, of this number some have never paid any on their pledge. Your Secy.-Treas. regrets to report this, nevertheless it is true. Come on fellows and let's help change this picture, at least in so far as you individually are concerned. That "old ACACIA fire" is still tucked way in your hearts, give it a real reawakening and let us hear from you.

We have set as our goal that BIG ONE of hearing from all unpaid BFP holders, so that we may have an excellent list of those who have paid up in full for the June, 1949 issue of *The Traveler*. Men, we need your help, everyone of you. As it will be about six months before the next issue of *The Traveler*, won't you begin now making your plans so as to clear up the matter of your promise to the Chapter before or by then! I'm sure it will give you a thrill when this has been done, just as it has been an

honor and pleasure to be an Acacian.

Just send your check to Gus F. Heuser, Secy.-Treas. of the Cornell Acacia Corporation. Do your very best to pay it up in full, and, if the best is only part payment at the time, then I'm sure it will be more than appreciated.

Someone once said that he never heard from the Chapter except when they wanted money! Maybe that's a healthy condition, it shows that we are alive, growing and getting things done and, for which our chapter of Acacia need make no apologies. It is essential that we go ahead, and this can only be done through the whole-hearted cooperation of all, I am sure.

You will note elsewhere in this issue of *The Traveler* a report on House Improvements, which we can all agree is very gratifying indeed. There are still a few projects for which we will need alumni support, namely, modernization of the other bath rooms, reroofing the house, fixing up of the kitchen and service end of the house, enclosing in the porch under the end study room and taking care of the parking problem.

As Chapter Advisor, I have enjoyed working with the Active Chapter again this past year, and it certainly gives me a great deal of pleasure to report to you that the Actives are doing a wonderful job, in fact, a better job each year. They are carrying on that lighted torch of ACACIA which you carried in your day, and, still have a part in helping to make a reality "THE FRATERNITY" of your dreams, Far Above Cayuga's Waters!

HOUSE IMPROVEMENTS

By BOB BERGREN

Since last spring many a hammer has been swung and many a paintbrush has been wielded in the halls of Acacia at Cornell. Much of our rushing success this fall we can attribute to a slick looking house with a "homey" atmosphere. It was with a good deal of pride that we could take our rushees through the house. The alumni support, the work of Dr. Bradley, and the corporation board have gone a long way toward giving us a comfortable and good looking home.

Emphasis this past summer was placed on the second floor, the first having been completely redecorated the previous year. The major job which the corporation undertook was that of remodeling one of the bathrooms. Besides all new equipment, including a drinking fountain, an asphalt tile floor was put in and imitation tile was put on halfway up the wall. If anyone gets nicked shaving, they can no longer blame it on the lighting as each of the four mirrors has its own fluorescent lights.

In addition, Mr. Hall, our houseman, was hired for half the summer to do general work. He scraped and sanded the second floor hall and the floors of the rooms that required it. The front stairway was given a complete going over and he painted a large share of the study rooms in addition to three bathrooms.

The active chapter's part in this redecorating program was led by our able housemanager, Jack Carpenter. Jack has acted as liason man between the house and the corporation and has done a bang-up job. Jim Showaere has acted as chief carpenter for such jobs as fixing over Ma Sutton's storeroom, exchanging doors, etc. Top painter on one

big occasion was Bill Stalder who saw to it that the recreation room in the cellar was sprayed. It is now a flashy green and gray.

Some other additions to be classed among house improvements are a power mower and a radio. Bob Hammond aided us a great deal in obtaining the mower and through the efforts of Bill Wickham we bought a beautiful Stromberg-Carlson radio-phonograph.

Realizing that every bed in the house is occupied by the fellows, it was decided to purchase a number of folding cots to have available on football weekends. This has been done, and, now we are able to accommodate quite a number of alumni and visitors anytime. These cots are then stored away in some one of the closets off the Dormitory. This makes it better for the fellows in the house in that they do not have to give up their own beds.

A big item on the agenda is the remodeling of another bathroom. The plan, under Dr. Showaere's direction, is to start the work during Christmas vacation. The bath, located at the head of the front stairs is designed to be available as a powder room during parties and will add greatly to our shower facilities.

I know that all of the alumni who have been able to get back during the past years are as proud of the way the house looks as we are. The added facilities have better enabled us to accommodate guests and we again extend a cordial invitation to you to make yourselves at home whenever you are in Ithaca.

REMEMBER, the "latch-string" hangs open to you always, come and enjoy the fellowship of the fellows!

A fellow doesn't last long on what he has done. He's got to keep on delivering as he goes along.

—CARL HUBBELL

Greetings to the Alumni

By R. C. BRADLEY, President of the Corporation

Congratulations to all of you Alumni and Active members for your splendid help and kindness during the past year concerning the Chapter and House itself that Acacia at Cornell has grown so much and done so well. It demonstrates how much can be accomplished in a relatively short period of time when all cooperate and work together. This has been a great year for the Active Chapter in many ways, and with the support of all the old gang, 1949 should be a greater year than 1948.

There are still numerous things to be done about the House itself so that it may render greater services to its members in the future. Whatever is being done by the Corporation for the House from time to time is a result of every member's loyal support. As your President, I wish to take this opportunity to thank all for the assistance and help given us in getting the jobs done.

I sincerely trust that every member of our chapter, active or alumni, enjoys serving Acacia as much as I do. The practice of serving is familiar to all, and, I trust that the call for greater service may grow upon each of us more intensely as we go along. Upon a scroll on our Coat of Arms are two Greek words meaning "Human Service", the motto and the guiding principles of Acacia.

THE JOY OF SERVING

All Nature is a desire to serve.

The cloud serves, the wind serves, the furrow serves.

Where there is a tree to be planted, plant it yourself;

Where there is an error to correct, correct it yourself;

Where there is a task shunned by others, accept it yourself.

Be the one who removes the stone from the road, the hatred among souls, and the difficulties from problems.

There is happiness in being healthy and in being just; but there is also, above all, the beautiful, the immense happiness of serving.

What a sad world this would be if everything on it were finished, if there were no roses to be planted, nothing to accomplish!

Don't be attracted by easy tasks. It is so satisfying to do things others avoid!

But do not be wrong in thinking that there is merit only in performing difficult works; there are small services that are good services: to adorn a table, to order some books, to comb a child.

That one might criticize, that others might destroy, but let yourself be the one to serve.

To serve is not to ask for inferior ones. God, who gives fruit and light, serves. He could be called: The One Who Serves.

And He has His eyes on our hands and He asks us every day: Have you served today? To whom? The tree, your friend, your mother?

—GABRIEL MISTRAL

Christmas Party, 1948

By PAUL WARNER and ORRIN RILEY

On the sixteenth of December the house held its annual Christmas party. This year we invited twenty-five deprived children and tried to make their Christmas a little merrier. Each child was given a mother and a father for the evening—an experience many of us will not forget for a long while to come. The glee with which the kiddies accepted their foster parents was heartwarming to all. The playful antics of "Elmer the Bear" and a light Christmas story, on the screen, kept the children happy until Santa arrived. Gordon Mayo, in full costume did the honors as Saint Nick while Sue Kerr coaxed a few carols from the spectators. It was rewarding to see the happy expressions on the faces of our little guests, as they received their gifts. We knew then that our party was a success. After the excitement of opening the presents had died down, ice cream and cookies returned their spirits to a high pitch. As the first part of the evening's festivities drew to a close, "Mysto" Wilson, professionally, put on a good show with some magic tricks but the children put on a better one spontaneously. It was very satisfactory, indeed, to see these children leave happier than when they arrived. The house seemed quite empty without them, but we regained spirit, in short order, by singing Christmas carols.

About that time, the older members of the house began to arrive and add spirit to the occasion. They were; Professor and Mrs. Strong, Doctor and Mrs. Showacre, Professor and Mrs. Meserve, Professor and Mrs. Clark, Professor and Mrs. Ogle, Professor and Mrs. Andrae, Professor Heuser, Mr. Clifford Reid, and Mrs. Northrup.

The pledges had their chance to publicly humiliate the actives—and they

did it nobly. Their skit was a take off on wake-up time in the dormitory, entitled, "Give Me Five Minutes More". It was written and directed by Orrin Riley, assisted by Gordon Mayo. Bill Burnett was the wake-up man hampered by typical early morning habits of the actives. The loudest sound effects, in the form of snores, emitted from Dave Weeks. The humorous portrayal of the actives and the surprise ending when Joe Wilford shocked the audience with a shower of "paper" water, was very much enjoyed by all. The only habits the pledges didn't take into account were those that seem to crop up just before initiation. It might have been well for them to have thought about those bad habits, considering the consternation that appeared on the faces of some of the actives.

After the props used in the skit were cleared away, someone sprinkled some wax on the dining room floor and the party continued with dancing. Everyone agreed that the new Stromberg-Carlson we bought was well worth the investment. A serving table, in the den, backed up by the twinkling lights of the Christmas tree, sustained a colorful Curtis-Bassett punch and an ample supply of delicious cake. Em' Hibbard's superior job of decorating and his strategically hung mistle-toe added zest to the party atmosphere.

Bob Strong, our new Social Chairman, did an excellent job of organizing and directing the party. He did such a good job and the party turned out so well that a precedent has been set up that will be hard to equal in the future.

The party broke up slowly with the words; "Merry Christmas to all, and to all a good night".

Lay up your treasures in good will, for in no other form are your possessions more inviolate.

—BURKE.
