THE WILLIAM C. REBHUN AND SAMUEL GORDON CAMPBELL AWARD

Through an endowment established in 2000 by the Rebhun and Campbell families, the William C. Rebhun and Samuel Gordon Campbell Award recognizes a fourth-year student who, while on clinical rotations, has demonstrated a practical and reliable work ethic, a passion for discussing casework with colleagues, faculty, and staff, and a balanced and active life away from the veterinary college. These qualities were espoused by William C. Rebhun, (DVM, Cornell University, 1971, ACVIM, ACVO) and S. Gordon Campbell (BVSc, University of Glasgow, 1956, MVSc, Toronto University, 1959, PhD, Cornell University, 1964, Associate Dean 1980-1985) who were both well-known and respected teachers in the College of Veterinary Medicine, with a combined service to the College that spanned three decades. Both men shared a vision of veterinary medicine as an essentially human endeavor, tempered by practical thought, tolerant ideals, and passionate and regular discourse. They were adamant proponents that ideas must be discussed openly and that debate and disagreement were an integral part of the learning process. Both men also shared a keen belief that the intense academics of Cornell University must be balanced and informed by a full life away from the classroom and clinic. They shared a love of the practical aspects of farming, were avid athletes, and, more often than not, could be found

either with their families and friends or outdoors when not at the College. They met all people with an open hand and treated everyone with a sincere equality that cultivated a broad spectrum of friendships from all sides of the communities in which they lived. They also were adamant that all people should be treated with fairness. The recipient of this award also will have demonstrated an egalitarian approach to clinical work, meeting clients, patients, staff, fellow students, and faculty with equal respect and care. The Rebhun and Campbell families established this award to focus on the philosophies and traits that reflect the contributions of Dr. Rebhun and Dr. Campbell to veterinary medicine.

Students in any of the four veterinary classes can nominate a member of the 4th year class for this award. The recipient of the award is then chosen by the faculty awards committee from among those students nominated.
