

Tik Tok: Sustainable Agriculture Remix

Wake up in the morning feel like a farmer already
Got my gloves and I'm out the door, with my tractor ready
Before I leave, pack my lunch, with a sustainable snack
Cause when you see how I farm, you know I got a knack

I'm talking digital revolution
Enhancing my precision
Trying out crop mitigation

Trap cropping, keeping away those insects
So i can pay my rent rent
Tryna reduce that till—ageeee

Don't stop, cover crops,
Rotate corn and soybeans
Tonight, cereal rye
Clover that's crimson or white
Tick tock
We should stop,
Over irrigating crops, oh

Don't stop, cover crops,
Rotate corn and soybeans
Tonight, cereal rye
Clover that's crimson or white
Tick tock
We should stop,
Over irrigating crops, oh

Ain't got a care in the world with my money from SARE
It bought me lots of tile drainage so my plants aren't bare
And now my clients are lining up cuz they hear I got GAP
So now they can trace my products all the way back

I'm talking climate change ain't no joke joke
Plant medium for growth growth
Our food system is so woke woke

Now, now, we're trying to increase diversity
Cuz that makes soil healthy
That will create longevity
Cuz we want a legacy

Don't stop, cover crops,
Rotate corn and soybeans
Tonight, cereal rye
Clover that's crimson or white
Tick tock
We should stop,
Just using pesticides on our crops, oh

Don't stop, cover crops,
Rotate corn and soybeans
Tonight, cereal ryep
Clover that's crimson or white
Tick tock
We should stop,
Leaching nutrients from our crops, oh

Soil builds up, we break it down
But our combines keep on tilling

Quality of life
Stewardship of land and
Profit, over the long term

We need to have
Enough food for now
And even more for the future

The population
Is going to increase
From 7 to 9 billion

But what will we do when that happens

Don't stop, cover crops,
Rotate corn and soybeans
Tonight, cereal rye
Clover that's crimson or white
Tick tock
We should stop,
Just using pesticides on our crops, oh

Don't stop, cover crops,
Rotate corn and soybeans
Tonight, cereal rye
Clover that's crimson or white
Tick tock
We should stop,
Leaching nutrients from our crops, oh

Video Description: Our video is a parody of the hit song Tik Tok by Ke\$ha. We follow two women farmers who are trying to figure out how to farm sustainably.
