From: Nicholas Schmidt (John Buckland)
Address: Eden, Vlg.
Breed: C. 2. 1  No. 5 (1D)  Age: adult
Other Material: In about 50% condition took good but losing a couple a day out of 500.  For light
Lesion: Circular lymphomatosis (1), all the others are week on bone.

Footnotes

Urethral lymphomatosis (3)

1 - Liver, spleen, kidney, bone

Of S. Fabricius

2 - Liver, spleen

3 - Brain of S. Fabricius

Diagnosis: Urethral lymphomatosis, Circular lymphomatosis

Reported. Date: 6 - VIII - 48  By: 20SM

only to both
Date: 6 - VIII - 48  
Accession No.: 1121

From: Roger Foote

Address: Barker, N.Y.

Breed: Rock Red  
No.: 1 (A)  
Age: 14 wks.

Other Material: 260 cal./lit. 2 weeks ago  
from Wright. Has lost 3 with symptoms. Eats lightly, won't eat  
E. Lam., weak, thin, tame.

Postmortem:  
Usual lymphomatosis, very -  
lymphomatosis, right  
parotid, spleen, liver, right  
spleen, mesenteric, lymph

Diagnosis: Usual lymphomatosis, navel lymphomatosis  

Reported. Date: 6 - VIII - 48
