

WEEK OF JULY 29, 1990

STATION NOTES

• VEGETABLE FIELD DAY HELD •

About 65 individuals attended a Vegetable Field Day at the Fruit and Vegetable Research Farm on Tuesday, July 24. Those who came to this special day received an excellent briefing by our vegetable faculty and staff on research that is under way at the Station. Bob Becker is to be especially commended for the outstanding job he did in organizing this meeting. Also, the Field Research Unit, particularly Gerry Gibbs and Dale Frankish, did a superb job in seeing that the Fruit and Vegetable Research Farm was in excellent shape for this event.

Station faculty members enjoyed beautiful weather on Tuesday, as they guided Field Day tours. Clockwise from top left: Helene Dillard; Dick Robinson; Rosie Provvidenti and Mike Dickson; Anwar Khan; and Chuck Eckenrode.

CALENDAR OF EVENTS

Tuesday, July 31, 12:00 Noon
Pavilion

*Child Care Meeting for Station
Parents and Prospective Parents*

Wednesday, August 1, 4:00 pm
Director's Office

*Geneva Department Chairs'
Meeting*

PEOPLE, POLICIES, AND PROCEDURES

• *Training Workshop for TEM and SEM*

In the past, the Station Electron Microscopy facility has offered courses to individuals who were interested in using the scanning electron microscope for their research. We will offer another round of training courses for either, or both, the transmission or the scanning electron microscope, depending on interest. The two-hour courses will be offered at separate times. Each course will consist of approximately three sessions, two hours in length, with an additional two hour session to "check out" individuals on the microscope(s). If interested in attending one of these courses, please contact Brian Terhune at x332.

A LOST TIME ACCIDENT

FOOD SCIENCE AND TECHNOLOGY A 'MIRACLE'

Food Science and Technology did it again this year. They set a record by sending five teams to the July 14 "Miracle in the Park" team triathlon. The triathlon begins with a 6 mile runner, followed by a 20 mile biker, and ends with a 5 mile (2-person) canoe race. Believe it or not, every team crossed the finish line raising money to help stop world hunger. Simultaneously, massive amounts of carbon dioxide expelled by the individuals added greatly to Global Warming.

Bow to bow with the CTD team, who won by a mere 7 seconds, Carol Parsons and Bob Kime approach the finish line.

Don's All Stars, Juliana Morales, Carla Kuesten, Olga Padilla, and Harry Leichtweis.

Bob Kime's Farm Honey team captured second place in the Corporate Division. Members were Jim McFerson, Plant Genetic Resources Unit; Jan Nyrop, Entomology; Carol Parsons, Food Science and Technology; and Bob Kime, Food Science and Technology.

Terry Acree's Charm 1.0 team of Ed Lavin, Erik Olsen, Deborah Herring, and Terry, all of Food Science and Technology, finished a respectable fourth and less than five minutes behind their challengers. Charm 2.0 whose members were James Favier, Howard Marks, Ken Shure, and Johanna Bloss grabbed fifth place at the finish from the High Springs team of Patrick Lindner, Tom Moose, Julie Brede, and Don Cox.

Don Downing's All Stars, Juliana Morales, Harry Leichtweis, Carla Kuesten, and Olga Padilla, finished only two minutes behind High Springs, taking a seventh place in the corporate division. All participants had a wonderful time, and they are all to be commended on their performances.

Following the competition, the Station teams moved to Terry and Anne Acree's cottage where the recreation continued into the evening. Although rumor has it that Bob Kime will further tarnish his halo by recruiting Greg Lemond for next summer's event, Terry Acree has already challenged Farm Honey to a rematch. It is also hoped that other teams at the Station will be formed to provide even greater representation in this worthwhile event.

TENNIS LADDER

Matches played 7/18-7/25: Shelton def. D. Roelofs

Ken Bell	B&P	325
Ed Lavin	FST	240
Wendell Roelofs	ENT	361
Pim Larsson	FST	338
Tony Shelton	ENT	352
Donna Roelofs	ENT	325
Curt Petzoldt	IPM	206
Ed Woodams	FST	265
Alan Lakso	HS	399
Jiang Lu	HS	245
Jim Cummins	HS	233
