CORNELL ALUMNI NEWS

Vol. XXIII, No. 6

Ithaca, N. Y., November 4, 1920

Price 12 Cents

THE senior class has elected its more important and permanent officers. The president is Clyde Mayer, of Williamsport, Pa.; the secretary, Allan H. Treman, of Ithaca; and the treasurer, Charles C. Bailey, of Oakmont, Pa. After graduation Treman will remain life secretary, and Bailey will become the representative of the class on the Cornellian Council.

ALL FOUR CLASSES in the College of Agriculture have elected their officers for the current year. The presidents are, of 1921, Edward L. Rich, jr., of Catonsville, Md.; of 1922, R. E. Brown, of Ithaca; of 1923, N. H. Eason, of Schuyler Lake, N. Y.; of 1924, A. H. Exo, of Spencer, N. Y. Five seniors and five juniors were also elected to the Student Honor Committee.

THE MARRIAGE of a senior to his sophomore sweetheart is announced in the local press. On October 28 Carl Livingston, Arts '21, of New York City, was married to Georgia R. Barmon, Arts '21, of Buffalo. The ceremony was performed by a justice of the peace in Groton. Livingston is a back fielder on the football squad.

THE DEPARTMENT of Chemistry is carrying on research in ordnance for the War Department. The latest number of *Army Ordnance* thus speaks of the work going on under a plan of cooperation: "American science as well as American industry is taking an active interest in solving the problems heretofore devolving upon the Ordnance Department alone. Under arrangements entered into by General Williams with the technical staffs of several American universities, researches which may be of inestimable value to the Ordnance Department are now under way, and if the plan produces results which now seem possible, a considerable extension of the idea is contemplated." The institutions referred to are, besides Cornell, Yale, the University of Wisconsin, George Washington University, and the Massachusetts Institute of Technology. The investigations at Cornell center about explosives, and are enumerated in the technical journal as the catalytic nitration of toluene to TNT; the crystallographic and microchemical study of several high explosives, more especially of the red and yellow forms of ammonium picrate; the production of nitroaniline, the basis of TNT; the determination of the vapor tension of ether-

alcohol, acetone, and other solvents. The problems are all of such general character as to be of great scientific and economic importance.

PROFESSOR LULU G. GRAVES, of the Department of Home Economics, attended as president the annual meeting of the American Dietetics Association in New York last week. The association was organized three years ago under the direction of Miss Graves. Papers were presented by Professor Flora Rose and Miss Mabel Little, formerly director of the University dining halls.

FINAL MATCHES in the annual tennis tournament were played on October 25. By defeating Samuel S. Pennock, jr., '22, of Lansdowne, Pa., and G. H. Thornton '22, of Wayne, Pa., Leicester W. Fisher '21, of Staten Island, N. Y., and William T. Mallery '21, of Owego, N. Y., won the University championship in the doubles. The score was 6-2, 6-2, 4-6, 5-7, 6-4. Mallery had previously finished first in the singles. Cups go to the winners in both contests. Efforts are being made to promote interest in tennis by increasing the facilities for play. A club has been suggested, to be formed either by individual players or by fraternities; and there is expectation of securing more courts both indoor and outdoor. A committee, of which Manager Berry is chairman, has the whole question under consideration. Developments may be looked for as soon as the football season is over.

THE THIRTEEN sororities in the University pledged ninety-one new members during the rushing season which came to a close on October 25. Most of these are freshmen, though some are from the other classes, and a few are graduates. The distribution follows: Alpha Epsilon Phi, four; Alpha Omicron Pi, twelve; Alpha Phi, twelve; Alpha Xi Delta, one; Chi Omega, ten; Delta Gamma, eight; Delta Delta Delta, four; Delta Zeta, two; Kappa Alpha Theta, ten; Kappa Delta, four; Kappa Kappa Gamma, ten; Pi Beta Phi, five; Sigma Delta Phi, nine. Under the rules of the National Pan-Hellenic Association invitations to join the sororities are given only to women who have not been members of Greek letter sororities in preparatory schools. A charter has lately been granted by the Secretary of State to the Epsilon Chapter of the Sigma Alpha Iota Sorority of Ithaca.

THE CHRISTIAN ASSOCIATION, for the

benefit of students interested in various phases of religious education, has made arrangements for a number of lectures by visiting scholars of distinction. The first series of six lectures was begun last Wednesday by Dr. William J. Hinke, of Auburn Theological Seminary, who is discussing "The Prophets of Israel" from the historical and literary points of view. Though planned primarily for students in the Association's department of volunteer study, these lectures are open to all students and to the public.

DATES have been set for two of this season's intercollegiate debates. Cornell will meet Dartmouth at Ithaca on November 12, and Amherst at Ithaca on December 9. The question for debate with Dartmouth is, "Resolved, that the Sherman Anti-Trust Law should be repealed."

THE INTERFRATERNITY Soccer League has completed its organization. Seventeen fraternities and clubs make up three leagues; as follows: League 1, Pi Kappa Alpha, Cosmopolitan Club, Alpha Sigma Phi, Stuyvesant Club, Theta Xi, Sigma Pi; league 2, Sigma Phi Epsilon, Sigma Nu, Baker Tower, Zodiac, Theta Alpha, Alpha Psi; league 3, Alpha Gamma Rho, Lambda Chi Alpha, Beta Sigma Rho, Phi Kappa Sigma, Sheldon Court. The vacant place in the third league may be filled by the time this notice is in print. The schedule provides for forty-four games, from October 27 to November 16, on the lower Alumni Field. The games already played and the interest shown in practice give promise of a thoroughly good soccer season.

THE UNIVERSITY FACULTY has confirmed the award of the first Charles Lee Crandall Prize in the College of Civil Engineering to John Howard Stalker '20, of Montclair, N. J., and Joseph A. Thomas '20, of Ithaca, for their paper on "The Investigation of the Flow of Water Through Submerged Diverging Pipes," the prize of one hundred dollars being divided between the two authors; and of the second Crandall Prize of twenty-five dollars to Ernest W. Steel '20, of Philadelphia, for his paper entitled "A Brief Statement of the Water Laws." These prizes were founded in 1916 by the alumni of the College of Civil Engineering and named in honor of Professor Crandall, of the class of 1872.

Come Back November 13

Plans Being Perfected for Big Rally— Columbia Game An Attraction

The New York State Cornell Week which has developed from the idea of a Cornell Day for all former students in the State outside of New York City, is rapidly assuming the proportions of the largest reunion in Cornell's history with the exception of the Semi-Centennial Celebration in 1919. Acting President Albert W. Smith '78 has sent a letter to every Cornellian in the State supplementing the formal invitation issued last week asking every former student to cooperate in making the first New York State Cornell Day on November 13 an overwhelming success and urging further assistance during the week of campaigning to follow.

Judging from the favorable comment on the proposal to have an annual "Fall Spring Day," there is ample indication that Cornellians will readily respond to the suggestion. It is apparent that there has been no falling off of interest in Cornell on the part of New York State alumni, but in the majority of the cases New York Cornellians have only needed a special invitation to cause them to guarantee the success of a statewide reunion. Active committees are working in every Cornell center throughout the State, increasing interest in the reunion as a means of strengthening the ties of loyalty between former students and the University which many of them have not seen for many years.

The almost phenomenal success of the Cornell football team this fall, together with the assurance of a good game with Columbia on the day of the gathering, will do much to arouse interest on the part of alumni who have not seen a successful Cornell football eleven for many seasons. Arrangements are being perfected by the local alumni and by the University authorities in Ithaca to make the visit of the New York State Cornellians a memorable one, as will be the Cornell week throughout the State following the reunion.

The State Endowment Committee has undertaken the biggest job that has been faced by any college endowment organization in organizing every corner and town in New York. In order to insure the success of the sixty-odd meetings of Cornell alumni on Monday, November 13, several volunteer workers have gone out from Ithaca for the purpose of setting up local organizations and with the idea of assisting the local committees wherever their services can be of use. The Endowment organization is planning to fur-

nish speakers at each of the Cornell meetings on the Monday following Cornell Day, which will be the official opening of the statewide campaign.

Prof. Charles L. Durham '99 has been working during the last few week-ends with the New York City committee on operations of which Max Upson '99 is chairman. The New York committee is lining up large prospects with the idea of limiting their efforts to the soliciting of more substantial subscriptions from alumni and non-Cornellians in the metropolitan district. Professor Durham will be able to lend his services to the Endowment work for several days of each week until the close of the campaign on January 1, 1921. He will attend meetings and do personal work in several large Cornell centers where there may be a call for him to assist in the local campaign.

DENNY REAPPEARS

A person giving the name of R. L. Denny, the same used by a man mentioned in the ALUMNI NEWS of October 7 as operating as a Cornellian in Hudson, N. Y., and in Cincinnati, Ohio, and described in the issue of October 14, has now made his appearance in Washington. The following letter from an alumnus there has just been received.

"A man giving the name of R. L. Denny and corresponding to the description published in the ALUMNI NEWS of October 14 was in Washington, D. C., Friday night, October 22. He inquired where he could find any members of the American Society of Mechanical Engineers and had a hard luck story. He represented himself to be a Michigan '12 man and a member of Alpha Tau Omega. He wore a black maltese cross pin. He drove a Maxwell touring car, paint dull, somewhat dented, which had a bad squeak in the brake at the time."

Representatives of the local chapter of Alpha Tau Omega say there is no member of their fraternity by that name, but that some one has used the same name and story before in a similar way. Possibly after a while enough evidence will accumulate concerning persons who masquerade as college men to fleece others so that one of their prospective victims will see that they are put where they can roam no more.

THREE SOPHOMORES have been elected to the editorial board of *The Widow*: J. W. Purcell, of Evanston, Ill., and F. F. Stratford, of Jersey City, N. J., to the art department; and E. K. Stevens, of Newport, R. I., to the business department.

Invents Important Apparatus

Stewart's Aircraft Detector Helped to Win the War

(The following article, by Harold Chamberlin, Iowa '19, appears in *The Iowa Alumnus* for October. Stewart, a graduate of De Pauw, class of '98, studied three years in the Graduate School, taking the degree of Ph. D. in 1901.)

To Professor George W. Stewart, professor and head of the Department of Physics at the University of Iowa, the United States Navy ascribes credit for developing the acoustic receivers employed by the anti-aircraft station at the Pensacola Naval Base, the first completely equipped anti-aircraft station in the United States. This apparatus has "proved superior to all other types," according to official statements, and by tests has been demonstrated to be far superior to apparatus used for similar purposes during the war by the French and British.

In a book on "Navy Ordnance Activities" the success of this apparatus is related. It was while working for the Bureau of Steam Engineering during the war that Professor Stewart served as chairman of a committee of the National Research Council on the location of invisible aircraft. The acoustic portions of the machine had to be designed with extreme skill, for the problem was to catch sufficient intensity of sound to actuate the electrical parts of the apparatus.

Professor Stewart perfected acoustic receivers which magnified the sound one hundred times and which could detect the hum of aeroplanes at three times the distance possible with the naked ear. It was proved possible to separate two planes less than a degree apart, to detect the kind of motor in use on the plane, and to hear the sound of distant aeroplane motors in the midst of all kinds of near-by confusion, the noises being excluded by means of the peculiar design of receivers used. Using two listening stations, it is possible to plot the course of the aeroplane, to determine its speed accurately, and to regulate gun fire accordingly. This gives special advantages at night and in thick weather.

These detectors offer particular advantages in giving opportunity for effective use of searchlights against bombing aircraft at night. The rays of searchlights could be kept on bombers from the ground, following them by sound even when the eye lost sight of the machines, and attacking planes in the air, taking advantage of the searchlight beams from which the bombers

FOOTBALL TEAM PRACTISING BY FLOODLIGHTS

Copyright by J. P. Troy

could not escape, could fire on the bombers out of the darkness in comparative safety and drive them to earth.

In the perfected apparatus, Professor Stewart made for the first time in this country an application of a little known phenomenon in hearing called by him the "binaural difference of phase effect." The principle was also applied independently by workers in Europe and has proved so effective that it has formed the basis of the submarine detectors, geophones, and all other acoustic-detecting devices brought to perfection during the war.

The anti-aircraft station at Pensacola has the only complete system of its kind in the United States. The instruments there used are stationary, however. Professor Stewart is interested at the present time in the adaptation of similar apparatus to battle-line warfare by providing a means by which it may be transported about the front and used in connection with mobile artillery rather than in defence of a limited area about a city, fortified base, or other strategic point.

INTERCOLLEGIATE NOTES

THE COLUMBIA *Law Review*, in the endeavor to pay off its war debt, has established a book store for the sale of new and second-hand books in the basement of Kent Hall.

THE PENNSYLVANIA Board of Trustees plans within a year to enlarge Franklin Field to double its present capacity.

MAINE has this year a registration of 1227, of whom 414 are freshmen. Classified by colleges, there are 22 in the Graduate School, 504 in Technology, 496 in Arts and Sciences, and 231 in Agriculture.

THE SAGE CHAPEL preacher on Sunday, November 7, is the Rev. Dr. William Fraser McDowell, Bishop of the Methodist Episcopal Church, Washington, D. C.

TEACHERS IN HAWAII

Four Cornell men, including the deans of two colleges, are on the instructing staff of the University of Hawaii, which until this year has been an institution of college grade, and which became a university in October.

John M. Young, professor of engineering, took his M. M. E. degree at Cornell in 1904. To Arthur R. Keller, dean of the College of Applied Sciences and professor of civil engineering, was awarded the degree of C. E. at Cornell in 1903. Arthur L. Andrews, dean of the College of Arts and Sciences and professor of English, won three degrees at Cornell—B. L. in 1893, M. L. in 1895, and Ph. D. in 1902. Dean Andrews was secretary to President Schurman and Cornell University publisher during the year 1907-8. David L. Crawford, professor of entomology, was a graduate student at Cornell during the year 1912-13.

ENGINEERS HONORED

The American Society of Mechanical Engineers has recently honored two Cornell men. Dean Dexter S. Kimball, of the new College of Engineering, is chairman of a special committee on industrial engineering, and at the last meeting of the council of the society the report of Dean Kimball's committee was adopted; that immediate steps be taken "to formulate a practical program of industrial relations which will express the viewpoint and beliefs of engineers." The management section of the society was charged with carrying out a plan submitted by Dean Kimball's committee, providing that a committee on agencies of productivity be established to study invested savings, credit capital, organized labor, unorganized labor, employers, managers, society as a whole, economic and productive intelligence service. The committee requested the council to call upon the society's membership for active assistance "in building up a co-

operative movement between all organizations which are working for the improvement and upbuilding of industry."

John H. Barr '69, formerly professor of machine design at Cornell, was appointed the society's representative on the National Research Council for three years. Mr. Barr was for many years on the Board of Trustees of Cornell.

The Coffee House

It Belongs to Alumni, Faculty, and Undergraduates

Barnes Hall is this year a changed place. One notices the change even outside the building; the great ditch that surrounded it last summer has been filled up. Its purpose is done and the basement is as dry as one could wish. Not really dry, either,—the Cornell Coffee House is there,—but at least the floor and walls are dry, which they never were before. New doors have been put in; so there are entrances to the ground floor at both ends of the building.

One door opens into a private dining room with two long tables and a capacity of seventy-five persons. This room is intended for the use of any group which wants to meet together for coffee and sandwiches, or, eventually, for entire dinners. It is the first place on the campus, outside of the regular University dining halls, where a group such as one of the student committees, for example, can hold a luncheon or dinner meeting. Two smaller rooms have a capacity of twenty each for similar purposes, and all of them and the Coffee House proper are served by a central, well-lighted, and scrupulously clean kitchen on the same floor. The use of these rooms is free to any University group which requests them.

The Coffee House room is an attractive place. Small mission tables are arranged about a large, well lighted

room on the south side of the building, where coffee and doughnuts and "ham rolls" are served by student waiters from ten in the morning to eleven at night. Special home-made delicacies are being added to the menu daily. They are really served, too; undergraduates and Faculty have formed the habit of running into the Coffee House between classes for a sociable discussion and on the days of big games, numbers of alumni have come here to talk it over. Mr. Edwards says the rush time is between ten and eleven in the evening, but they are busy most of the day.

The west end of the same floor has been made into a large lounging room with a Victrola and plenty of easy chairs. Five small rooms were sacrificed for this one big one, and the leather furniture from the reading room on the next floor was brought down to make it comfortable. The walls are to be hung with pictures of Cornell athletes and varsity teams as they are contributed by fraternities and alumni organizations for the purpose. The whole ground floor, as Mr. Edwards puts it, "is for the social uses of undergraduates, Faculty, and alumni." It is well appointed, and is being used.

Upstairs in the general reading room, one notices new tapestry-upholstered furniture in excellent taste, and the air of quiet and comfort invites him to sit down and read if he has a minute to spare.

The whole building has undergone a transformation. The fifteen thousand dollars, ten thousand of which was contributed last spring by Faculty and undergraduates "to fix up Barnes Hall," has been well spent, and the work is being well administered. There still remains much work to be done on the upper part of the building to complete its rehabilitation, and that will be undertaken during the coming year. R. H. Edwards, secretary of the C. U. C. A., planned the alterations and makes it his job to see that everyone is comfortable. He is ably assisted in this last by Miss May Peabody, the "Barnes Hall hostess," who is in charge of the Coffee House. During the war Miss Peabody was stationed at the Washington Inn in London, and she seems to have brought much of the spirit which made the Inn so popular to her work in Ithaca. Miss Mary Castle, a graduate of the Boston School of Domestic Science, is in charge of the Coffee House kitchen and the preparation of food.

But to put the whole thing more truly at the disposal of those who use it, a committee of alumni, Faculty, and undergraduates has been appointed,

who "will be responsible for the policies of the Coffee House, the arrangement of special events, the decoration of the walls, and for social features in connection with this floor of Barnes Hall." H. L. O'Brien '21 is chairman of this committee. The Faculty members are Dean A. R. Mann '04, of the College of Agriculture, Romeyn Berry '04, and Professor Bristow Adams. Foster Coffin '12 and E. P. Tuttle '18 are alumni members, and J. B. McClatchy '20, L. R. Wells '20, H. R. Ashton '21, J. C. Atwood, jr., '21, H. I. Hettinger '21, R. W. Hooker '21, F. C. Lane '21, W. F. Cassidy, jr., '21, J. P. McClain '21, R. P. Rice '21, R. Siering '21, R. H. McCarthy '22, A. W. Wilcox '22, and C. G. Irish '22 constitute the undergraduate members.

The idea and the place are new, but it is being well received. The Coffee House is succeeding because it is being used; and that is the real test.

ROCHESTER CLUB EATS CLAMS

"The Cornell Alumni of Rochester held their clambake at Grandview Beach on the lake shore, Saturday. About forty attended and had a very enjoyable day. The committee in charge was headed by Chairman L. A. (Pop) Wilder '06 with these assistants: Louis B. Swift '12, Ray F. Fowler '08, Walter W. Post '11, Claude S. Smith '09. The Alumni discussed Cornell affairs in general and the planned drive for the Endowment Fund was also considered informally. President J. K. Quigley '03 of the Rochester Club is particularly interested in the drive and everything possible will be done in Rochester to increase the subscription from this city.

R. A. Taylor '12 of the Taylor Instrument Company, gave an impromptu political talk and Joseph F. Putnam '10 did a clever stunt in magic.

SPHINX HEAD ANNIVERSARY

In honor of the thirtieth anniversary of the founding of the senior society of Sphinx Head, meetings have been held in various parts of the country. The society celebrated its birthday on October 11, and the fact was duly noted in practically every city where there are as many as a half dozen Sphinx Head men. Reports have not been received from all points, but Chicago, Syracuse, Milwaukee, and Buffalo have already sent in accounts of interesting meetings.

The Chicago alumni celebrated with a dinner at the Chicago City Club on October 12. More than twenty men were present, among them L. G. Hallberg '10, D. F. Taber, jr., '15, F. S. Porter '00, J. P. Dods '08, C. C. Cheyney '11, J. C. Carpenter '07, T. R.

Wagner '18, O. M. Wolff '97, Erskine Wilder '05, N. L. MacLeod '11, W. G. Smith '92, R. G. Hammond '20, R. S. Byfield '17, W. G. Pietsch '96, E. J. Blair '05, H. H. Straus '20, and M. D. Vail '12. Wagner, Hammond, and Straus gave a detailed account of what has been happening in the last two years at Ithaca, and Taber, who had recently returned from a first hand view of the football situation, gave an up-to-date prophecy.

The Sphinx Head men of Syracuse gathered at the University Club in that city for dinner on October 16, a fitting date because the Cornellians were able to celebrate the striking victory which the cross country runners had won in Syracuse that afternoon. An interesting three hours was spent discussing Cornell problems. Among those who attended were William Butts '15, Charles Elliott '13, B. J. O'Rourke '10, J. G. Smith '03, H. B. Brewster '98, and H. J. MacWilliams '12.

There are not many alumni belonging to the society in Milwaukee, but they attended a dinner at the University Club on October 12 with almost a one hundred per cent roll call. Six men came together and they reported that the meeting was productive of so much enthusiasm and renewal of active interest in Cornell affairs that other sessions are being arranged for the future. Those present were L. L. Tatum '97, A. J. Sweet '01, E. T. Foote '06, D. P. Eells '07, B. E. Fernow, jr., '04, and R. B. Whyte '13.

The Buffalo meeting was held at the University Club in Buffalo on the evening of October 12. Eleven men attended, and every other member of the society who lives in or near Buffalo had a perfect alibi. Among those present were F. H. Battey '09, C. H. Brady '04, G. E. D. Brady '03, A. H. Cushing '17, Fritz Fernow '09, R. S. Kent '02, Winthrop Kent '15, C. F. Magoffin '07, W. A. More '13, J. C. Talcott '09, and L. C. Judson '10. The same result was attained in Buffalo as in the other cities, that every man present agreed that Cornell alumni meetings should be held throughout the country with greater frequency and with better attendance than has been Cornell's custom.

TO ARRANGE FOR CONCERT

The Cornell Association of Maryland is holding well attended luncheons every Monday at the City Club in the Munsey Building, Baltimore. At the meeting of October 25 the special attractions were Ray Van Orman '08, who is coaching the Johns Hopkins' football team; Barney O'Rourke '09, who is helping him; and Major Harry G. Bartlett '92. Major Bartlett is in

charge of the Marine Recruiting Office in Baltimore.

W. G. Distler '12, president of the Association, has appointed the following committee to arrange for the concert of the Cornell Musical Clubs to be held in Baltimore on New Year's Day: H. R. Gundlach '11, chairman; E. F. Brundage '03, J. F. Matthai '11, J. W. Iglehardt '14, W. F. Peterson '11, P. H. Zipp '05, W. E. Lee '11, R. F. Proctor '01, J. S. Gorrell '05, John Collyer '17, W. S. Wright '12, W. H. Fries '10, and W. G. Distler '12, ex-officio.

THE REGISTER

The Register for 1919-20 has lately appeared. It follows the lines maintained for the last six years. It fills 381 pages and lists 5,765 students, of whom 60.2 per cent came from New York State. Seventy students bear the name of Smith, thirty the name of Miller, twenty-eight the name of Brown, twenty the name of Johnson, seventeen the name of Jones, sixteen the name of Clark, sixteen the name of Martin. There are thirteen Adamases, ten Robinsons, eighteen Whites, thirteen Williamses, eighteen Woods. A map of the Campus is appended.

THE SECOND GENERATION

The Alumni Representative has prepared an interesting tabulation of Cornellians whose sons or daughters have entered Cornell this fall. The list is not complete, but it contains a sufficient number of names to indicate that an increasing proportion of the students who enter the University are direct descendants of Cornellians. It is evident that if the classification were extended to include brothers and nephews, not to mention cousins, the number would assume considerable proportions.

There are sixty students in the following list, all of them sons or daughters of Cornellians excepting Daniel Deckert, who is a great-grandson of Ezra Cornell, the founder. There is an Ezra Cornell entering this fall, the son of Channing B. Cornell '96, and great-grandson of the original Ezra Cornell. This freshman is the second Ezra Cornell who has attended the University. Ezra Cornell '87 died in Ithaca in 1902. Both Deckert and Ezra Cornell '24 are grandsons of O. H. P. Cornell '74.

Cornellians and their sons or daughters who have entered the University this fall:

Parent.	Son or Daughter.
Anderson, G. H. '91	Elizabeth
Barr, C. J. '93	Charles
Barton, F. A. '91	Harriet

Beal, A. C. '03	Anne
Bissell, F. O. '91	Frederick
Bliss, R. J. '85	Miriam
Bonyun, M. E. '97	Richard
Breed, A. M.	Eben and Ida
Brooks, F. E. '90	Marie
Brownell, Spencer '97	Spencer
Colson, F. D. '97	Mary

OBITUARY

Paul H. Tilton '80

Paul Henry Tilton, who was a sophomore student in science and letters at the University in 1877-8, died on October 24, 1917, while on his way to England. His home was formerly in Trenton, N. J. He was an artist.

William Daniell '90

William Daniell, who was a special student from 1886 to 1888, died at the Illinois General Hospital in Chicago on July 24, after an illness of several months. His home was in Calumet, Mich., but he had lived in Painesdale, Mich., for some time.

PUBLIC LECTURES during the week include "Loyalty versus Liberty" by Professor George L. Burr before the Ethics Club; "France Two Years After the Armistice" by Professor O. G. Guerlac before Le Cerele Français; "Human Development in the Stone Age" by Professor Nathaniel Schmidt in the course on the history of civilization; "Personal Recollections of Oersted and Ampère," a centennial talk commemorative of notable achievements in electrical science, by Professor Edward L. Nichols; "The Trend of Modern Developments in Electrical Engineering," as indicated at the recent annual convention of the American Institute, by Professor Vladimir Karapetoff.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly during the summer; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts, and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

Entered as Second Class Matter at Ithaca, N.Y.

Ithaca, N. Y., November 4, 1920

The death of Romeyn Berry's mother in Baltimore, Maryland, called Mr. Berry out of town while this issue was going to press. This explains the absence of Sport Stuff this week. In common with the rest of the University community, the ALUMNI NEWS extends the deepest sympathy to Mr. Berry.

HOME-COMING DAY

The University has set aside Saturday, November 13, as New York State Day. Cornellians resident in the State, primarily, but of course all other Cornellians also, wherever resident, are invited to come, bring their families, and spend the day on the Campus.

A reception in the Drill Hall and one of Tommy's justly celebrated buffet luncheons will form the center of the occasion. The Columbia football game, expected to be the closest fought contest of the home schedule, will occupy the focus of attention from 2 p. m. on.

The feature that ought to prove the most attractive, however, is the opportunity to see the institution running at its normal stride, when, during the day, the members of the Faculty and

the University officers will be "at home" to the visiting Cornellians in their offices and in class and lecture rooms.

There are many Cornellians who for years have "come back" faithfully to reunions without ever once seeing Cornell at work since their own various undergraduate courses closed. They have missed something of inestimable value as a source of inspiration, for the reunioner misses the thing that differentiates Cornell from many another beautiful resort where friends can congregate—the spirit of the place in action.

It is perhaps true that Cornell makes too little preparation for between-time guests, although at present these do not crowd the existing facilities. The person who has no chapter house or club to go to has, to be sure, almost a Hobson's choice of hotels, the motto of which might easily be, "The best is none too good." But a demand will produce good hotels enough, once Cornellians find out that Cornell is the place to bring one's eye-strain, heart-ache, head-ache, or just a normal body looking for a holiday from the world, the office, the family; or for the fellow who is going over the top and wants a little inspiration, perspective, fresh air, and fun before the work begins.

There are at least half a dozen classmates of each class resident in Ithaca, and someone to help you look them up. There are trains that will carry a man from New York to Chicago, or back, and let him breathe Cornell air for twelve glorious hours, yet perform the miracle of taking practically no time from his business. There are trains that will allow him twenty-two hours of inspiration without his being absent from his precious Broadway office more than one day. There are State roads that make the place accessible to at least five thousand Cornellians, who can make the round trip between sunrise and sunset. And there are at least twelve thousand who could partake of this fountain of youth, and who have not learned how to do so.

It is to these twelve thousand that the University extends this invitation to return for a day, to renew the old ginger, and to discover the way.

696TH ORGAN RECITAL

Bailey Hall, Thursday, November 4

Professor JAMES T. QUARLES, Organist
Toccata in F ----- *Bach*
Adagio in E ----- *Frank Bridge*
Sonata in A minor ----- *Mark Andrews*

ATHLETICS

The Football Schedule

Cornell 13—Rochester 6.

Cornell 55—St. Bonaventure 7.

Cornell 60—Union 0.

Cornell 42—Colgate 6.

Cornell 24—Rutgers 0.

November 6, Dartmouth at New York.

November 13, Columbia at Ithaca.

November 25, Penn at Philadelphia.

Cornell Downs Rutgers

The football team found in Rutgers last Saturday the most stubborn opponents of the year so far, and had to fight all the way to roll up the three touchdowns and a field goal that made Cornell the victor by a score of 24 to 0. Rutgers had a rugged line composed of powerful rangy players, who in some instances outweighed their Cornell opponents. The Rutgers line was well coached, and it was ever alert. As a consequence Cornell was unable to make much headway with the running attack, as it had in all previous games, and was compelled to resort to the forward pass to achieve a decisive victory. As a test in preparation for the Dartmouth contest on the Polo Grounds Saturday, the Rutgers game was invaluable.

The team that played Rutgers was about the same as that which had beaten Colgate, except that Finn was at left end instead of Gouinlock, who was not in condition to play. Finn was brought back for the punting and in general he made a creditable job of it, several of his kicks getting away for fifty yards or better.

For the first time this year the Cornell backs handled the ball loosely, several costly fumbles checking the offense just when it seemed to be going well. In general, however, the showing was encouraging, Cornell's play being characterized by the same fighting spirit, alertness, and up and coming drive that have been noticeable from the St. Bonaventure game on.

Rutgers gave the Cornell defence a sound test in the third period, when a fumble by Finn and later a short punt out from behind the goal line gave the New Brunswick outfit two chances to strike. The Cornellians rose to the test, however, stopping one drive on the two-yard line.

For Rutgers Captain Gardner proved the best ground-gainer. He managed to penetrate the Cornell line for several substantial gains, but except on the two occasions referred to above, Rutgers was never really dangerous.

There was no scoring in the first period, the teams feeling each other out and punting frequently. Cornell scored twice in the second period.

On Rutgers' forty-eight-yard line Kaw hurled a forward pass to Mayer, who ran to Rutgers' twenty-six-yard line before he was downed. A few rushes netted perhaps ten yards and Mayer then skirted right end for six. Kaw shot around right end for a touchdown and Mayer kicked goal.

Not long thereafter Kaw hurled another forward pass similar to that which had worked successfully before, and with even better results. The ball was thrown from Rutgers' forty and caught on the thirty by Mayer, who ran for a touchdown, also kicking goal. The third touchdown was also made possible by clever use of the aerial attack, two passes making better than forty yards. Held on the thirteen-yard line on the last down, Kaw circled left end for a touchdown. Mayer kicked another goal. In the last few minutes of play Carey, who had been substituted for Hoff at quarter, made a drop kick from the twenty-six-yard line. The line-up and summary:

Cornell	Position	Rutgers
FinnL. E.....	Winner
KnaussL. T.....	Raub
PendletonL. G.....	Lentz
BraytonC.....	Kahle
MinerR. G.....	Slyker
DodgeR. T.....	Daisley
MunnsR. E.....	H. Redmond
HoffQ. B.....	Beugleus
KawL. H.....	Vorhees
MayerR. H.....	Summerill
OlneyF. B.....	M. Redmond

Score by periods:				
Cornell	0	14	0 10—24
Rutgers	0	0	0 0—0

Touchdown: Kaw (2), Mayer. Goals from touchdown: Mayer (3). Field goals: Carey. Substitutions: Cornell, Hayner for Finn, Carey for Hoff, Baugher for Olney, Horrell for Brayton, Ebersole for Miner, Goetz for Pendleton; Rutgers, Gardner for Summerill, Kiev for M. Redmond, M. Redmond for Kiev, Maloney for Beugleus.

Referee: Cochems, Wisconsin. Umpire: Heneage, Dartmouth. Linesman: Kersburg, Harvard. Time of periods: 12 and 15 minutes.

Cross Country

The cross country team won an easy victory over Harvard last Saturday by the score of 28 to 112. The race was run over a six-mile course and was finished in the stadium. The first eleven men to cross the line were Cornellians. Seven men on each team counted. Harvard was weak but there is no question that Cornell has a much stronger team this year than last fall.

McDermott was the individual winner. He established a new record for the course of 33 minutes and 44 seconds

as against the best previous mark of 34 minutes, 24 seconds set by Wenz of Cornell in 1916. McDermott crossed the line about 125 yards ahead of his team mate, R. E. Brown. The Cornell pack took the lead almost at the outset and steadily forged ahead.

Cornell finished as follows: McDermott, Brown, N. P. Brown, Bonsal, Lentz, Dickinson, and Wardwell. Then came Richman, Irish, Cowan, and Ward, also of Cornell.

Mahon in twelfth place was the first Harvard man to cross the tape and Pratt of Harvard was next. Harper of Cornell followed and then came Bemis, Dexter, and Reyeroff of Harvard. Guest of Cornell was eighteenth and then came Winchester, Eaton, Bryan, and Bennett, all of Harvard.

Freshmen Defeat Wyoming

The freshman eleven scored an easy victory over Wyoming Seminary at Kingston, Pa., last Saturday, winning by a score of 24 to 6. Although Wyoming outweighed the Cornell yearlings, the latter completely outplayed the prep school eleven, using straight football for the most part but also employing the forward pass effectively. Each team scored in the first period and Cornell scored twice in the third.

Soccer Breaks Even

In its first league matches of the season the soccer football team got an even break, defeating Harvard at Cambridge last Friday by a score of 2 to 0 and losing by a similar score to Yale at New Haven on Saturday.

LITERARY REVIEW

An Up-State Editor

Memorials of Willard Fiske. Collected by His Literary Executor, Horatio S. White. I. The Editor. Boston. Richard G. Badger, The Gorham Press. 1920. 8vo, pp. xviii, 264. Price, \$3, net.

Willard Fiske was a many-sided man. Before he came to Cornell in 1868 to be librarian and professor of North European languages, he had been a student at Upsala, an employe in the Astor Library, a chess editor and expert, an attaché of two legations, an editorial writer, a post office clerk, and a bookseller; he was to become one of the great modern book collectors, and to enrich the Library of Cornell, where he spent fifteen happy years, with superb collections of books relating to Dante, Petrarch, Icelandic history and literature, and Rhaeto-Romanic literature. Through the munificence, moreover, of Willard Fiske and his wife, and the cooperation of Mr. Sage, Cornell possesses to-day one of the best working

libraries in the university world and an adequate endowment for its upkeep.

Every Cornellian, therefore, will be interested in the series of memorial volumes which Professor Horatio S. White, of Harvard, for seven years a colleague of Fiske here and for more than a quarter of a century a member of our Faculty, is now issuing as Mr. Fiske's literary executor. The first of these volumes, dealing with Fiske the editor, lies before us. It is made up of extracts from his editorial articles, poetry, and news collections in the *Syracuse Journal* between December, 1863, and August, 1865. The writing is a model of its kind—dignified, energetic, and varied, without stiffness or formalism. The range of subjects is wide: the death of Thackeray, the tricentenary of Shakespeare's birth, the death of Lincoln (written in less than an hour, a beautiful tribute many times reprinted), the history and topography of Syracuse, foreign affairs, European ignorance of America, the pre-Columbian discovery of America, American typography. He urges the colleges of New York State to combine into one great university, to "be located in the vicinity of that town which makes the most liberal contribution to its funds." He is enthusiastic over the bill to charter the Cornell University. He was a keen student of foreign politics. Concerning the Prussian theft of Schleswig he expresses these modern sentiments:

"Might will always be right in the eyes of absolutism. The condemnation of public opinion can have no terrors for men who believe that they are anointed by Heaven, and that they are privileged by the grace of God to rob, to oppress and to slaughter. But we may at least hope that somewhere in the illimitable future lies a day of terrible reckoning for these scourges of the people. We may hope that as history repeats her unjust acts, she will also repeat her just ones. In that case we may be sure that the scaffold of Charles the First is reserved for the merited chastisement of a Hohenzollern King, and the guillotine of Louis XVI for the condign punishment of a Hapsburg Emperor."

Two more volumes are planned, on Fiske the traveler and Fiske the lecturer. We shall eagerly await their appearance.

Books and Magazine Articles

Better Times, the diminutive sheet which has hitherto been the organ of the United Neighborhood Houses of New York, has now enlarged its scope and, beginning with the October number (No. 8), becomes the organ of all of the two thousand or more private charitable organizations and public de-

partments working for the improvement of social conditions in New York. These organizations have a combined budget of upwards of \$50,000,000 and are supported by the contributions of some 350,000 citizens. The paper will report regularly on the activities of these organizations and will point out social conditions which need improvement. Herbert C. Hoover is chairman of the Board of Advisers and Sponsors. George J. Hecht '17 continues to edit the sheet, and one of the associate editors is Harold Riegelman '14. The size of the paper has been increased from 8 pages of 4 by 6 inches to 32 pages of 5 by 7½ inches, and the slogan has been changed to "A Little Paper with a Big Purpose." The subscription price is \$2 a year or 25 cents a copy. The office is at 70 Fifth Avenue, New York. The October number includes a letter, reproduced in facsimile, from Governor Alfred L. Smith in which he expresses appreciation of the magazine and recalls his own frequent visits to the Riis Neighborhood Settlement some years ago.

In *The Weekly Review* for August 11 Professor James E. Creighton, Ph. D. '92, writes on "The President's Psychology." In the issue for September 8, under the head, "Four Eminent College Presidents Retiring from Office," President Thwing of Western Reserve discusses the administration of Dr. Schurman, who he believes would have attained success as a lawyer, a journalist, a medical diagnostician, or a preacher. In the issue for October 13 Jerome Landfield '94 writes on "Convalescence from Utopia," pointing out analogies between Russia and Mexico.

Horace Kephart '85 writes in *Outing* for July-August on "The Fisherman and His Tackle." To the issue for October he contributes two articles, "A New Bolt Action Rifle" and "Camping and Cooking in Italy." He continues to conduct the department of "Guns, Ammunition, and Equipment."

Dr. C. Robert Gaston '96 is the author of an article on "Projects in English Classics" in the *Journal* of the New York State Teachers' Association for June.

In *The Sewanee Review* for July-December, Professor Frederick C. Prescott's "Poetry and Dreams" is reviewed by T. P. Bailey.

Frank H. Fayant '99 writes in *The Unpartizan Review* for October-December on "To Increase Railroad Efficiency," describing the new Transportation Act.

In *The Scientific American Monthly* for October Professor Herbert H. Whetzel, '02-4 Grad., describes the new-

ly organized "Institute for Plant Protection," which is made up of plant pathologists, economic entomologists, and manufacturers, and which has been in existence since June 23 last.

In *Science* for October 29 Dr. C. Stuart Gager's (Ph. D. '02) "Heredity and Evolution in Plants" (Blakiston) is reviewed by Bradley M. Davis, of the University of Michigan.

GEORGE LIVINGSTON, chief of the United States Bureau of Markets, Department of Agriculture, and E. C. Linderman, of the North Carolina State Normal and Industrial College for Women, were among the speakers at the extension conference held at the College of Agriculture last week. The conference was attended by nearly one hundred women from twenty-seven counties of the State and by about two hundred and fifty men representing fifty-six counties.

THE CURRENT EVENTS FORUM last Sunday afternoon was designed as the last political meeting of the campaign. The speakers were members of the Faculty: Professor Keniston for the Republicans, Professor Durham for the Democrats, Professor Karapetoff for the Socialists and other groups. The addresses were explanatory, rather than argumentative, of the issues as interpreted by the different speakers. They were followed by some two-minute speeches from the floor.

EX-PRESIDENT SCHURMAN on October 24 spoke at the Broadway Tabernacle in the interest of the Roosevelt Memorial Church which is planned for Washington in commemoration of our soldier dead. Other speakers at the same meeting were Burr McIntosh and Francis M. Hugo '97. In a plea for world peace President Schurman said: "We said and believed that the terrible conflict was a war to end war. Were we duped by our hopes? Certainly the victorious nations are no happy family. The largest of our original allies has become the worst despot the world has ever witnessed. Yet wars may some time be prevented. And how? I answer, not by military alliance or concert of power, but by a combination of Christian principle and common sense, namely, by appeals to right and reason; by evolving a world court of justice; by provision for arbitration and conciliation; and by the establishment of a confraternity of nations, organized to anticipate and to remove by means of discussion and conference on the causes and occasions of war, and to bring to bear upon all international controversies the moderating, quieting, and healing influence of the moral and intelligent public opinion of the world."

ALUMNI NOTES

'78 BCE, '79 CE—Frank E. Bissell is chief engineer for the A. S. Hecker Company, general contractors, of Cleveland, Ohio. He lives at 10515 Wilbur Avenue.

'82—Charles Minshall has retired from active business, and is living in Washington, D. C.

'89—Nathan Loeser is practicing law in Cleveland, Ohio, with offices at 800 National City Building; he lives at 10214 Lake Shore Boulevard.

'90—Eugene M. Adams is a merchant in Kelso, Washington.

'91 CE—James W. Beardslee is chairman of the Highway Commission of the Republic of Panama. His address is Hotel Tivola, Ancon, Canal Zone.

'91-2 G—Dr. Edwin F. Northrup has resigned his position as assistant professor of physics at Princeton. He has been elected vice-president and technical adviser of the Ajax Electrothermic Corporation, of Trenton, New Jersey, a company which has been recently organized to manufacture the high frequency induction furnace which Dr. Northrup worked out in the Palmer Physical Laboratory.

'96—John N. Bergstrom is a paper manufacturer in Neenah, Wisconsin. He lives at 457 East Wisconsin Avenue.

'97—Robert T. Richardson is vice-president and secretary of O. W. Richardson & Company, of Chicago, wholesale and retail rugs, carpets, linoleums, draperies, furniture and shades. His mail address is 1024 Judson Avenue, Evanston, Ill.

'99 AB—Henry H. Foster has resigned his position as professor of law at the University of Oklahoma to become professor of law at the University of Nebraska, Lincoln, Neb.

'00 BS—Louis C. Graton is a geologist on the investigating staff of the Secondary Enrichment Investigation, a scientific study under the joint auspices of the American Copper Companies, the Harvard Mining School, and the Geophysical Laboratory of the Carnegie Institution of Washington, with headquarters in the Geological Museum, Cambridge, Mass. Graton's address is 182 Brattle Street, Cambridge.

'00 AB—Miss Amy C. Shanks, who was in a very serious condition for some time as a result of attempted suicide, is now out of danger and is recovering rapidly. She is now in Columbus, Ohio, where she will spend several weeks.

'01 LLB—The War Department has announced the appointment of William A. Turnbull, of Elmira, as a major in the Judge Advocate General's Department of the Regular Army, with assignment to duty at the headquarters of the First Corps Area in Boston. Previously to the World War, Turnbull was a practicing lawyer in Elmira, and was captain of Company L of that city; he also served as secretary of the Elmira Business Men's Association. He entered the service with the New York National Guard in April, 1917, and served in France as a major attached to the 27th Division. Since the demobilization of that unit he has served at various posts in this country.

'03 AB—Guernsey G. Borst is dean of the School of Education at Valparaiso University. He received the degrees of Doctor of Pedagogy and Doctor of Philosophy in 1911 and 1912, respectively, at New York University. For the past seven years he has been superintendent of schools in Danbury, Conn.; during the past year he has also been doing special graduate work in education at Teachers College, Columbia University. His address is Education Building, Valparaiso University, Valparaiso, Ind.

'04 CE—Robert C. Dennett is office engineer with the National Board of Fire Underwriters, 76 William Street, New York. He lives at 76 South Grove Street, Freeport, N. Y.

'05 AB, '08 LLB; '08 AB—The marriage of Stanley Doty Brown and Miss Margaret Jenks took place on October 23 at the home of the bride's parents, Mr. and Mrs. Jeremiah W. Jenks, 36 Gramercy Park, New York. After their return from their wedding trip Mr. and Mrs. Brown will live at 1 Lexington Avenue, New York. Brown is a member of the law firm of Sackett, Chapman, Brown and Cross.

'05 ME—Robert M. Falkenau has been elected treasurer of the Military Order of the World War, a national order similar to the Society of the Cincinnati and the Military Order of the Loyal Legion, composed of officers who served in the World War. Its first convention was held this year, and it already has over twelve thousand members. Falkenau is foreign trade representative of the Irving National Bank, of New York. He lives at 1 Edgewood Park, New Rochelle, N. Y.

'07 AB—Alfred P. Howes is president of the following corporations, with offices in the Woolworth Building, New York: the Howes Publishing Company, publishers of *The American Dyestuff Reporter*, the Pentz Publishing Company, publishers of *The Hardware Re-*

New York Cornellians:

If You're Going to the Columbia Game at Ithaca November 13th--

Secure your accommodations now on The Lehigh Limited, leaving Pennsylvania Station, 7th Avenue and 32nd Street, New York, at 8.10 P. M. Berths may be occupied at Ithaca until 8.00 A. M.

Or, for a daylight ride, use The Black Diamond on Friday, November 12th. It leaves Pennsylvania Station 8.50 A. M., arrives Ithaca 4.53 P. M.

Returning

The Lehigh Limited leaves Ithaca 11.40 P. M. arrives New York 8.26 A. M.

The Black Diamond leaves Ithaca 12.37 Noon. arrives New York 8.48 P. M.

Arrange your return trip at our Ithaca City Office, 300 E. State Street, opposite *The New Ithaca*.

view, and the Industries Publicity Corporation, an advertising agency. He lives at 213 Ridge Road, Rutherford, N. J.

'07 ME—Alfred D. Blake was married on September 22 to Miss Elizabeth J. Arnold, of Washington, D. C. He is managing editor of *Power*, published by the McGraw-Hill Company, Inc., of New York. Mr. and Mrs. Blake are living at 18 Constant Avenue, Westleigh, Staten Island.

'08 ME—Robert E. Friend is secretary of the Nordberg Company, Milwaukee, Wisconsin. He lives at 562 Bradford Avenue.

'08—Francis J. Bohan is with Van Schaack Brothers, chemical works, Chicago, Illinois.

'09 BArch—John W. Root has been made a member of the firm of Holabird & Roche, architects, with offices in the Monroe Building, Chicago.

'10 ME—Joseph M. Burns is Western manager of the searchlight department of the McGraw-Hill Company, Inc. His address is 1570 Old Colony Building, Chicago, Ill.

'10 CE—Frederick W. Hinek is a structural engineer with Buchman & Kahn, architects, 56 West Forty-fifth Street, New York. He lives at 359 East Twenty-fifth Street, Brooklyn.

'11 ME—Mr. and Mrs. Henry W. Ford are now living at 135 Linden Avenue, Flatbush, Brooklyn. Their second son, Clement Olcott Ford, was born on July 10. Ford is vice-president of the Agar Manufacturing Corporation, of Brooklyn.

'11 AB, '12 BS—Captain Jay D. B. Lattin has been transferred from the Cavalry to the Signal Corps, Regular Army. He is now with the 10th Field Signal Battalion, at Camp Funston, Kansas.

'11 ME—Julian P. Hiekok is in the stoker department of the Westinghouse Electric and Manufacturing Company, Lester, Pa. His residence address is changed to Third and Maple Avenues, Burnside, Holmes, Pa.

'12 ME—Cornelius H. Evans, 2d, is head engineer and assistant brewmaster for C. H. Evans and Sons; his address is 418 Warren Street, Hudson, N. Y.

'12 ME—Edward N. Hay, Estes engineer, may be addressed in care of the Corday & Gross Company, 1771 East Twenty-fourth Street, Cleveland, Ohio.

'13 BS—Gilmore D. Clarke is superintendent of construction with the Bronx Parkway Commission, Bronxville, N. Y. He has a daughter, Elizabeth Nelson Clarke, born on February 23. His home address is Pelham, N. Y.

'13 AB—Miss Agnes M. Dobbins is

principal of a school in Salt Creek, Wyoming, in the center of the oil region.

'13 BS—A son, Fred W. Barton, was born on April 17 to Mr. and Mrs. Philip B. Barton, of Castile, N. Y. Barton is principal of the High School, and teacher of agriculture.

'14 AB, '16 ME—George B. Thorp has left the employ of the Edgewater Steel Company, of Pittsburgh, and is now with the Weirton Steel Company, Weirton, W. Va. His present address is in care of the Y. M. C. A., Steubenville, Ohio.

'14 ME—Leo J. Brennan is the representative of the Precision Grinding Wheel Company, of Philadelphia, in New York, New Jersey, and Connecticut. His office is at 39 Cortlandt Street, New York, and he lives at Locust Lawn, Jamaica Avenue, Flushing, N. Y.

'14 BArch—Mr. and Mrs. Albert P. Dippold announce the birth of their son, Charles Salisbury, on October 2. In addition to his regular architectural practice, Dippold is architect for the Central Union Telephone Company's new buildings in Illinois, Indiana, and Ohio; the branch office is located at 212 West Washington Street, Chicago.

'14 CE—Joseph A. W. Iglehart is a member of the firm of Brooks, Stokes & Company, bankers, Baltimore. He has two daughters.

'14 ME—James Lefferts Landt was married to Miss Sallie Smith on October 13 at Chatham, N. Y. Landt was an instructor in experimental engineering at the University from 1914 to 1916.

'14 ME—A son was born on September 27 to Mr. and Mrs. Wendell E. Phillips, of Monterrey, Mexico. He has been named Wendell Edgar Phillips, jr.

'14 ME—Donald Alexander is with the Edward G. Budd Manufacturing Company, Philadelphia.

'14-16 G—The Rev. Hugh C. Stuntz, accompanied by Mrs. Stuntz and their son, William W., sailed from New York on October 23 for Valparaiso, Chile. Mr. Stuntz, who was formerly director of the Chicago branch of the Foreign Personnel Department of the Board of Foreign Missions of the Methodist Episcopal Church, was recently appointed secretary of the Board of Sunday Schools in Latin America. He will make a tour of South America, visiting many important cities, studying Sunday school conditions, and making arrangements for future work. During the war he was a Y. M. C. A. representative, later being commissioned a chaplain and assigned to the 166th Infantry of the Rainbow Division. Mrs. Stuntz was formerly Miss Florence Wolford, of

Ithaca; they were married in the fall of 1917.

'14 ME—After spending eight months at the Trudeau Sanitarium, Saranac Lake, to recover from the effects of pleural pneumonia contracted in France, George Morrison Williamson has gone to Golden, Colo., where he is taking a selective course in the School of Mines. He will not be able to take up his work for at least two years, but the latest report of his doctor states that he is in fine condition, and that if nothing unforeseen happens, he may never have any more trouble. He intends making his permanent home in the West. He writes of having met John M. Heath '15 and Adolph F. Zang '13, of Denver, and Herman Coors '13, of Golden.

'15 BS—Bertram H. Schwartz is steward of the Hotel Schenley, Pittsburgh. His home address is 10 West Ninety-third Street, New York.

'15—Miss Ruth H. Sharwell, daughter of Mayor and Mrs. William G. Sharwell, and Wilbur E. Braunworth, son of former Mayor Charles Braunworth, of Roseland, N. J., were married on October 23 at the Sharwell home in Arlington Avenue, Caldwell, N. J. Major Percy L. Braunworth '05 was his brother's best man. Owing to the recent death of the bridegroom's mother, only the immediate members of the two families were present at the reception which followed the ceremony.

'15 BS—J. Lawrence Bacon is working at the Millville, N. J., plant of the Whitall Tatum Company, glass manufacturers. His address is 512 Columbia Avenue, Millville.

'16 ME—Mr. and Mrs. W. H. Learn announce the marriage of their daughter, Maysie Pearl, to Harry Bainbridge Boies on September 11 at Skaneateles, N. Y. Mr. and Mrs. Boies are now living at 1215 Manor Avenue, Woodhaven, N. Y.

'16 BS—Ralph Esty Griswold and Mrs. Griswold are in Rome, Italy, where Griswold is attending the American School of Fine Arts, having received a fellowship in that institution in landscape architecture. Mrs. Griswold will also continue her studies in Italy.

'16 ME—John H. Vohr is employed at the Farrell, Pa., works of the American Sheet and Tin Plate Company.

'16 BS—Herbert M. Mapes is an assistant professor in the engineering department of the North Dakota State School of Science, a junior college and vocational school; he is in charge of the forge, wood, and machine shops. His address is in care of the State School of Science, Wahpeton, N. Dak.

tion Company.*

There is No Substitute for Sincerity

NO degree of cleverness in advertising can compensate for a lack of merit in the commodity or service advertised.

Believing this implicitly, we are resting our appeal for your consideration on no other basis than our ability and desire to serve you with the most scrupulous regard for your interests and your permanent satisfaction.

Before you decide upon your construction company, satisfy yourself not only of the fairness of its bid, not only of its experience, size and resources, but of its character and ideals.

Appraisals

Rapidly changing values have increased the importance of reliable appraisal work based upon knowledge of current costs. Our experience in this connection is at your service.

North-Eastern Construction Co.

Industrial, Residential and Public Construction

The Co-op. has not “slipped up” on its dividend payments in years

The 1919-1920 Dividend is paid to students in Ithaca from November first to the twentieth. To those who have left Ithaca we begin making out the checks or money orders on November twenty-second. Have we your address? There will be exchange on the check, but if you send your address to us we can send you a money order. Let us know at once.

The right kind of cross section paper

There must be a good reason for the increasing sale of Co-op. cross section paper. We think that it is the quality, because our biggest customers are those whose work demands accuracy. Tell the purchasing agent to write for a sample book and prices.

Do you order books thru the Co-op.?

As the time goes on the Co-op is going to improve its service to the Alumni. Many are ordering their books of us now and it should be worth while for more to do it. Have you tried the Co-op. since you graduated?
