Geneva, N. Y.

TODAY'S SEMINAR

The research program of the Division of Plant Pathology will be outlined by Doctor Reinking at the Station seminar to be held at 4:00 o'clock this afternoon in the Staff Room in Jordan Hall.

FOOD TECHNOLOGISTS TO MEET

The Western New York Section of the Institute of Food Technologists will meet at the Hotel Powers in Rochester this Saturday. Included on the program are Doctor Hand who will talk on the "Effects of Processing on the Nutritional Value of Food" and Doctor Moyer whose topic will be "The Relation of Yield and Quality of Processed Peas on Tenderometer Readings of the Raw Product".

CANNING CROPS PROBLEMS

The Research and Agricultural committees of the Association of New York State Cannerymen, headed by W. H. Sherman, Secretary of the Association, spent yesterday at the Station with representatives of the Station Staff and the College of Agriculture concerned with canning crops investigations. From Ithaca came Dean W. I. Myers, Dr. C. E. F. Guterman, Prof. H. C. Thompson, Prof. O. C. French, Dr. P. E. Ramstadt, and Prof. M. E. Brunk. The Station was represented by Doctors Heinicke, Hand, Reinking, Chapman, Professor Sayre, and Dr. Ben Clark.

IN NEW QUARTERS

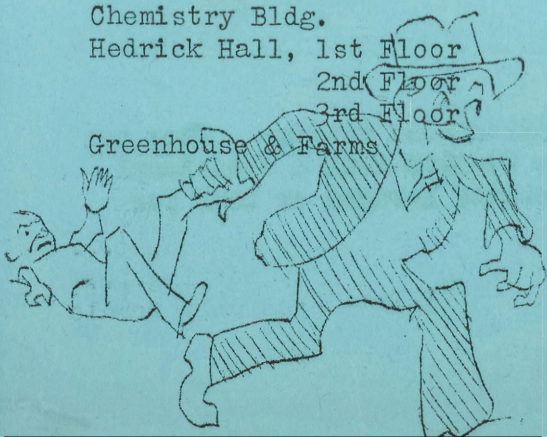

Bob Wesselmann has moved into new quarters. He now occupies the room adjacent to the Business Office, at one time the Director's headquarters. The "main entrance" to Bob's domain will be through the Conference Room--that is, unless there is a conference going on, when the approach will be through Bowen's office. And Bob's new 'phone number is 6462.

X-RAY UNIT HERE FRIDAY

In an effort to accomplish its purpose as efficiently as possible, and in order to obviate any undue delays, a schedule has been set up for the mobile X-Ray unit which will be at the Station on Friday morning from 10:00 A.M. till noon. The facilities will be set up in back of Sturtevant Hall and all Station workers are urged to have an X-Ray taken according to the following schedule. Secretaries have been asked to remind people in their sections at the appointed hour.

Sturtevant Hall	10:00 to 10:30	Miss Hogan
Jordan Hall	10:30 to 10:45	Miss J. Sperry
Entomology Bldg.	10:30 to 10:45	Mrs. Wharton
Chemistry Bldg.	10:45 to 11:15	Miss Chartres
Hedrick Hall, 1st Floor	11:15 to 11:30	Mrs. DeWall
2nd Floor	11:30 to 11:45	Miss Warren
3rd Floor	11:45 to 12:00	Mrs. Legnini
Greenhouse & Farms	11:30 to 12:00	

Lucile Holtby and Barbara Imhofe, who have been working with the unit on a voluntary basis, will further expedite the process by filling out the necessary cards on location. Wives and other members of Station families in this are are also welcome to use the facility Friday morning. No parking in the rear of Sturtevant Hall Friday A.M., please!

THANKS TO CERES CIRCLE

Ballads, epitaphs, and anecdotes that have acquired the status of folklore were recited by Professor Harold Thompson Monday evening before an appreciative audience of Ceres Circle members and their guests in Jordan Hall. The speaker's running commentary of wit and pathos added much to the evening's entertainment. Mrs. Einset takes this opportunity to thank everyone who helped with refreshments, flowers, and the other arrangements.

INVITED TO ITHACA

The Agricultural Circle at Ithaca has invited members of Ceres Circle to a tea at the home of Mrs. A. W. Winsor on Monday, May 9th, at 2:30 p. m. In order that the folks at Ithaca may have some idea of how many will be coming from Geneva and in order to arrange transportation, Ceres Circle members are requested to notify the wife of the head of their Division as soon as possible if they expect to attend this function.

BLOOD DONORS SOUGHT

Tomorrow, the Red Cross Bloodmobile will be at the Methodist Church in an attempt to collect 150 pints of blood from residents of Geneva. It seems like a small quota but some trouble has been experienced in the past in recruiting volunteers. As one of our loyal contributors put it, it's like saving for a rainy day. Let's store some away now, so we'll have it when we need it.

KLASSIFIED KORNER

Lost: one 30-60-90 triangle, one scale calibrated in inches, and one scale calibrated in tenths of a foot. Finder please return to Charley Stepanek.

ON THE ROAD

Professor Munn attended the Northeastern Seed Control Conference at the Department of Markets in Boston on Monday. Also on Monday, Ed Glass and R. W. Dean were in New York City conferring with Doctor Horsfall of American Cyanamid, regarding parathion injury. On Tuesday, Frank Lee addressed a meeting of the Railway Transportation Group in Ithaca. His topic was "The Transportation of Frozen Foods". And Helen Ferris is on her way to California. Her five-week itinerary includes Monterey, Los Angeles, and Washington, D. C.

THE NEWEST CLARK

After several anxious days caused by complications, a son was born Monday to Mr. and Mrs. Walter Clark, at the Geneva Hospital. The youngster was delivered by a Caesarean operation and will need to spend a few weeks in an incubator. But both Dotty and Junior (He hasn't been named yet) are coming along nicely now and our congratulations go to the new parents.

ROUND AND ABOUT

Several Station couples were in attendance at the Thompson Club square dance which was held last Saturday evening. The great amount of interest shown in square dancing might suggest a possibility for a Station Club activity...Don't know if Maud Hogan got sick of looking at the passersby or vice versa, but the glass windows in her office have been painted over. Now it looks like a frosted gold fish bowl... And over in Chemistry, they'll be rolling out the carpet any day now. The hall will sport a brand new rubber runner on a freshly varnished floor.

WELLS STUDENTS TO VISIT

Seven students at Wells College will visit the Station this Friday. They are Chemistry and Biology majors who will be looking at the Station from a vocational viewpoint. (To JDL: they'll either have to get their chests X-rayed or look for another guide.)
