Geneva, N. Y.

## RUSSIAN INFORMATION TEAM ARRIVES

An eight-man, high level Russian Agricultural Information team, plus interpreters, arrived at the Station this morning. They were met by Director Barton who gave them a brief talk outlining the work of the Experiment Station. Following Doctor Barton's talk they toured the pilot plant where the apple sauce line was in operation. From the pilot plant they went to the Rootstock Farm, and from there to the Canning Crops Farm.

The Russians are members of the USSR group of visitors to the U. S. under the Cultural Exchange of "Science and Information" personnel. They are the Russian counterpart of the American team which visited Russia recently.

## VISITOR FROM SWITZERLAND

Dr. Emil Zullig, Director and Instructor of a technical Training College of Advanced Studies for higher technical personnel and managerial posts in the fruit processing industry in Switzerland, arrived at the Station on Tuesday for a three day visit. Dr. Zullig is sponsored by the Europeans Productivity Agency and will be in the state for about three months. Dr. Zullig will spend his time here at the Station with Station Food scientists and pomologists and will visit processing plants in western New York and in the Finger Lakes area.

## DIRECTORS VISIT

The Experiment Station was visited Thursday by 12 Directors of the Extension Service from various parts of the United States. They represented the extension committee on organization and policy. The group heard a ten minute talk by Harold Soper, visited the Food Science Building and the Laurence Draper farm. They also toured the Canandaigua Farm and Home Center.

## SEEDSMEN AND PLANT BREEDERS VISIT STATION

Seedsmen and plant breeders from Experiment Stations and Seed Companies visited the Station on Tuesday. This was part of their Cornell Vegetable Variety Field Day and they toured the Plant Introduction plantings and the Vegetable Crops work.

## Honored

Karl Brase has received notification of his election as a Fellow of the American Association for the Advancement of Science. Congratulations !

## RECENT VISITORS

Mr. Harold F. Winters, from the New Crops Research Branch at the Plant Industry Station at Beltsville, Maryland, visited the Station on the 14th, 15th, and 16th of September. He toured the Plant Introduction planting here and also went to Hammondsport to see trials of European grape varieties and also the French Hybrid grapes.....

Dr. Barrett from the University of Illinois visited the Station last Thursday and Friday. He was primarily interested in grapes and pears and talked with Station pomologists.....

Dr. George S. Avery, Director of the Brooklyn Botanic Garden, visited the Station on Friday. He is interested in fruit work at the Station.

## HOME AFTER EUROPEAN TRIP

The Chapman's have returned from Europe. They arrived home Sunday and enjoyed their trip very much. They spent a day in London, then went directly to Vienna to the Congress where they met the Lienks and Smiths. Dr. Chapman reports that Sig's German has returned and that he could almost be taken for a native. After the Congress they went to Italy and visited Milan, Venice, Florence, and Naples. Then to Basle, Switzerland and finally a week in Paris. They came home by Jet, making the crossing in about 8 hours.
