# President Corson Responds To Desegregation Guidelines

University President Dale R. Corson has responded to guidelines established by the New York State Education Department which deal with the desegregation of facilities and programs.

Corson made the University's response to the guidelines in a May 29 letter to T. Edward Hollander, deputy commissioner for higher and professional education in the State Education Department. Deadline for response to the guidelines, which were issued March 1 to implement the State Regents Position Paper (No. 15) on "Minority Access to and Participation in Post-Secondary Education," was June 1.

The full text of the response said,

"This report is submitted in response to the March 1, 1973 Guidelines for the Desegregation of Facilities and Programs issued to implement the Regents Position Paper on Minority Access to and Participation in Post-Secondary Education.

### I. Desegregation of Facilities and Programs

This is to advise you that Cornell University does not have any segregated facilities and programs as defined in Section I.A. of the Guidelines. All University facilities and programs are available to all, without regard to the person's race, color or national origin.

Cornell has long pursued a policy of equality of opportunity, and, on October 16, 1969, the Executive Committee of the University Board of Trustees adopted the following policy statement emphasizing that policy to be set forth in University publications:

"It is the policy of Cornell University actively to support equality of educational opportunity. No student shall be denied admission to the University or be discriminated against otherwise because of race, color, creed, religion or national origin."

Current University housing policies govern all University residence halls, special-interest units and small-living units which provide that they be available to all students on a non-discriminatory

basis. Each application for the special-interest and small-living units contains the following statement (or slight modification):

"This unit is subject to standard University residential policy. Additionally, it does not discriminate with respect to race, color, creed, or place of birth in selection of its members, in its or in any other procedure."

Recently, the Office for Civil Rights has reviewed housing at Cornell and paid particular attention to one of our special-interest units. It was indicated to us that a special solicitation for that unit may have been inconsistent with the provisions of Title VI of the Civil Rights Act of 1964. However, such practice was discontinued and we have assured the Office for Civil Rights of its discontinuance.

Other facilities and programs at Cornell also were reviewed by the Office for Civil Rights. We are presently discussing our policies and procedures governing these facilities and programs with the Office for Civil Rights.

### II. Assurance of Non-Discrimination in Off-Campus Housing

A list of available off-campus housing accommodation is maintained by the Department of Student Housing. Before a listing is made, all

Alumni examine one of the exhibits at the Faculty-Alumni Forum in Barton Hall during Reunion last year. (For information on this year's forums, see Page 5.)

# Married Graduating Women Face Job Dilemma

Increased employment opportunities are presenting serious dilemmas for married and soon-to-be married graduating women who must choose between accepting their own best employment opportunity or following their spouse's career, according to John Munschauer, director of Cornell's Career Center.

"One graduating female student that I talked to turned down such an excellent job offer in her field that she was forced to actually question the value of her marriage," according to Faith White, recruiting coordinator at the Career Center.

"Although most of these women are putting their husband's career before their own, we have had cases where husband and wife graduates have decided to live in different cities to take advantage of outstanding job opportunities," Munschauer said. The effects of increasing female opportunities on traditional ideas about marriage will be very interesting to watch, he said.

"Although many recruiters are also interested in hiring minority group graduates, we have not had much minority student participation in the Career Center,"

Munschauer said. "We are working on improving our communications with minority students."

Much of the preoccupation with political activism among Cornell students, so prevalent in the middle and late 1960's, has subsided, according to Munschauer. Although the concern is still apparent, students seem to be much more willing to channel their interest through established institutions, he said. He pointed out that law school has become increasingly attractive to students interested in politics and government.

Approximately 265 companies recruited at Cornell this year as compared with about 224 in 1971-72, according to Ms. White. "We expect to schedule about 6,500 interviews this year as compared with 6,127 in 1971-72," she said.

Career problems for students graduating from Cornell in 1973 are more a test of students' ability to match their career expectations with the expectations of potential employers than a matter of the unavailability of good jobs, Munschauer said.

Due to the end of the draft and cutbacks in financial

aid resources at many colleges and universities, Munschauer speculated that fewer Cornell graduates will be going directly into graduate school in the next few years. Without the pressure of the draft, many students have expressed an interest in taking interim jobs that would allow them to reduce debts they might have incurred as undergraduate students before continuing their study, he said.

"I expect the decrease in the percentage of students going directly into graduate school to be most notable in the humanities and social sciences," he said. "However, most companies that hire liberal arts graduates — banks, merchants, insurance companies, etc. — are looking for career professionals rather than short-term employees. This is an example of the kind of conflicting employer and graduate expectation we have been experiencing recently," he said.

Of the 199 Class of 1972 graduates of the College of Arts and Sciences responding to a Career Center questionnaire, 129 or 65 per cent planned to go directly into graduate school.

## Dorm Named For Class of '18

University Halls 4, a West Campus dormitory at Cornell, will be renamed Class of 1918 Hall in recognition of the class's unrestricted 55th Reunion gift to the University.

Elbert P. Tuttle, president of the Class of 1918, will present the building to University President Dale R. Corson for dedication to the class tomorrow during Reunion Weekend. Members of the class attending Reunion will be invited to tour the building following the 11 a.m. ceremony in the main lounge.

In making the gift of some \$430,000, the Class of 1918 established an all-time record for Reunion gifts to Cornell. Excluding recent "challenge" grants, his amount is the largest gift to the Cornell Fund ever given by a class in a single campaign.

Tuttle, an emeritus Trustee and a 1923 graduate of the Cornell Law School, is a judge with the United States Court of Appeals, Fifth Judicial Circuit.

The dormitory being dedicated is one of six separate units constructed west of the Baker Complex in 1954. It houses approximately 225 students and is the fourth unit to be renamed in honor of a class. The others are named for the Class of 1917, of 1922 and of 1926.

## By Vice Provost Risley Position on AAUP Censure Explained

*Following is a statement by Robert F. Risley, vice provost at Cornell University, concerning Cornell's position on the recent censure of the University by the American Association of University Professors (AAUP).*

The censure of Cornell University by the American Association of University Professors (AAUP) at its annual meeting in St. Louis, Mo. in late April has received considerable attention, but the basic cause of the censure is not well understood by the general public.

The censure arose from a case involving a nonreappointment of an assistant professor on term appointment.

On February 1, 1970, Dr. Endre M. Tarjan was appointed an assistant professor without tenure at the Cornell Medical College for the period from February 1, 1970 through June, 1970. It was clear that his appointment was funded by outside grant money. In July, 1970, he received notice of appointment from July 1, 1970 to June 30, 1971. A letter from the dean of the Medical College stated that Dr. Tarjan's appointment was on a yearly basis.

During the fall of 1970, problems developed concerning federal funds which supported part of Dr.

Tarjan's salary. A memorandum was sent to Medical College division chiefs dated December 8, 1970 noting that some persons in the Department of Medicine might not have funding for the next year. This memorandum asked that notification be made by December 15 to persons who might not be continued beyond June 30 and that discussions be held with such persons by the division chiefs before December 15. Dr. Tarjan's name was on the list of those whose salary was in question.

The Medical College administration maintains that Dr. Norman Brachfeld, director of the Myocardial Metabolism Laboratory, did discuss this matter with Dr. Tarjan as requested. At the same time, Dr. Brachfeld also apparently expressed the hope that other support could be found. In January, 1971, one grant ended and Dr. Tarjan was transferred to the other grant which had supported part of his salary on a full salary basis. Dr. Brachfeld sought other sources of support but without success. During the spring of 1971, an ad hoc committee of the U.S. Public Health Service (PHS) reviewed the project on which Dr. Tarjan was working. As a result of this PHS review, the committee recommended changes

### Associate Agriculture Dean

## James Spencer Named to Post

James W. Spencer has been appointed associate dean of the New York State College of Agriculture and Life Sciences at Cornell. W. Keith Kennedy, dean of the College, announced Tuesday.

Spencer's appointment is effective July 1. He succeeds Nyle C. Brady, who will become the director of the International Rice Research Institute in the Philippines.

Spencer was appointed vice director of Cooperative Extension on Aug. 1, 1970, and has served as acting director since October, 1972. He has been a member of

the Cornell faculty since 1951.

Dean Kennedy also announced the separation of the office of associate dean and the office of director of research of the College. Brady has been director of research since 1965 and has been head of both offices since his appointment as associate dean in 1970. A committee has been appointed to search for a new director of research.

Kennedy said that the new associate dean will work closely with him and with George C. Kent, coordinator for planning and development, in the areas of personnel, budgets, planning,

and space as well as related administrative and fiscal matters.

Spencer also will work closely with all academic units and interdepartmental program leaders of the College in the area of budgetary requests and allocation of resources to carry out the College's teaching, research and extension programs.

A native of Ithaca, Spencer received both his bachelor's and master's degrees in civil engineering from Cornell. He obtained his doctorate in engineering-economic planning from Stanford University.

Before his appointment as vice director of Cooperative Extension, Spencer was involved in teaching, research and extension programs in the Department of Agricultural Engineering. He taught courses in highway engineering, and his research was primarily concerned with roadbed materials and the planning and programming of road improvements.

Until 1970, he coordinated annual in-service training programs for highway and public works officials. He developed educational materials for use in courses offered to highway officials through several community and agricultural and technical colleges of the State University of New York.

He has been a member of the Board of Trustees of the Town and County Officers' Training School of the State of New York. He is a registered professional engineer in New York.

During leaves from Cornell, Spencer was a lecturer in highway engineering and associate research engineer at the University of California during 1957-1958. He served as a member of a team of consultants to the Ford Foundation on engineering education at Universidad del Valle in Colombia during brief

## Gorge Trail Being Repaired

**GORGEOUS** — Workmen are busy in Cascadilla Glen, repairing the damage done by last June's flood. "We hope to have the work done in four to six weeks," said Richard M. Lewis, director of the Cornell Plantations.

periods in 1963 and 1966. In 1954, he was a field engineer for Donald J. Belcher and Associates in the study of engineering characteristics of soils related to selection of the site for Brasilia, the capital city of Brazil.

### Sage Notes

Speaker Duryea of the New York State Assembly has just received funding from NSF for 1973-74 for a program of Public Service Legislative Studies to be conducted by students and their professors. Formal proposals are invited and should include: (1) the objective; (2) an outline of the plan; (3) the expected significance to the country, New York State, and the community; (4) a clear and explicit discussion of the potential for legislative action; (5) a schedule of accomplishment; (6) milestones; (7) a budget and expenditure rate versus the calendar; and (8) names, addresses and phone numbers of the participants. The research is expected to be connected to the student's thesis.

A more detailed description of the application procedure is available in the Office of the Dean of the Graduate School or the Office of Academic Funding. The list of topics that may be considered is very wide ranging and essentially encompasses anything that the legislature is interested in where research of the type conducted by educational institutions might have an impact.

The program has neither a provision for tuition nor does it pay the student adequately so that the student could pay tuition from the stipend (about 500 hours at \$3.60 an hour) yet it does imply student status. Consequently there is the real possibility of difficulty finding funds for tuition should the work be done during the academic year. There are limited funds available for computing or other research expenses (usual maximum is \$300). The faculty advisor is given an honorarium of \$300.

All proposals should follow the usual Cornell procedure of submitting the proposal through the Department Chairman, Dean and Office of Academic Funding.

Theses submitted for degrees to be awarded in the next degree period should bear the date of award as August, 1973. The last date for filing all the necessary forms and the approved thesis with the Thesis Secretary is Friday, Aug. 24, 1973.

### CORNELL CHRONICLE

Published weekly and distributed free of charge to Cornell University faculty, students, staff and employees by the Office of Public Information, Arthur W. Brodeur, director. Mail subscriptions \$12 per year. Make checks payable to Cornell Chronicle. Editorial office 110 Day Hall, Ithaca, N.Y. 14850. Telephone 256-4206. Editor, Robert W. Smith. Managing editor, Kal M. Lindenberg. Photo editor, Russell C. Hamilton.

# Administrator Sought To Replace Sapakie

A seven-member search committee to nominate a candidate for the position of judicial administrator at Cornell has been appointed by President Dale R. Corson.

The position will become available in mid-July when Alan L. Sapakie, the present judicial administrator, will assume the position of director of university unions at Johns Hopkins University.

In his charge to the search committee, which will be chaired by Joseph B. Bugliari, associate professor of agricultural economics in the New York State College of Agriculture and Life Sciences, Corson said, "The effective administration of our campus judicial system is essential to the stability and functioning of our University community. The equitable enforcement of our Campus Code of Conduct and the ability to deal properly with actions against the University community require sensitivity and a sense of fairness and justice."

In addition to Bugliari, members of the search committee are Geoffrey V. Chester, professor of physics in the College of Arts and Sciences; Ann B. Pendleton, administrative aide at the Law School; Elizabeth D. Moore, a junior in the New York State School of Industrial and Labor Relations; Benjamin Nichols, professor of electrical engineering in the College of Engineering; Reuben A. Munday, staff writer in the Office of Public Information, and Alice Henry, a graduate student.

Since the Office of the Judicial Administrator was created in the fall of 1969, there have been two models of organization used: The judicial administrator as a part-time appointment held by a faculty member and supported by a full-time staff person; and the judicial administrator as a full-time appointment held by a non-faculty person.

Corson said, "I have no preference as to which model is used, and I would ask that you (the search committee) keep an open mind as you seek out candidates for the position. I do feel that a prerequisite should be that each of the candidates have had either direct or indirect experience as a member of the Cornell community."

Any interested candidates should contact Bugliari at 203 Warren Hall (phone 256-2194).

Corson announced that he plans to make an interim appointment, with the consent of the University Senate Executive Committee, until the beginning of the fall term. At that time he will submit his nomination to the full Senate for approval, in accordance with Senate legislation SA-122 as amended Oct. 29, 1972 by SA-165.

## Science, Technology and Society Bowers to Direct STS Program

Raymond Bowers, professor of physics and deputy director of the Program on Science, Technology and Society (STS) at Cornell, has been elected director of the program for a five-year term, effective July 1.

Bowers, elected by the Board of Trustees during the annual Commencement week meeting here, replaces Franklin A. Long, the Henry R. Luce Professor of Science and Society. Long has been director of STS since the program's inception in 1969 and will remain with the program.

STS is an interdisciplinary program which draws its students, faculty and research workers from all areas of the University. Program activities focus on problems of national and worldwide concern, such as science, technology and national defense, legal and moral implications of modern biology, values in a technological society and technology and democratic processes.

Bowers was born in London, England and attended the universities of London and Oxford. He received a bachelor's degree in 1948 and a doctoral degree in 1951.

Before coming to Cornell in 1960, Bowers was a research fellow at the University of Chicago from 1951 to 1954 and a research physicist for the Westinghouse Electric Corporation from 1954 to 1960.

On leave from Cornell between

Raymond Bowers

July, 1966 and September, 1967, Bowers served as a member of the Office of the Science Advisor to the President, working on problems of national science policy. He has continued his work in this area through national committees and the Cornell STS program. He has written several papers on this subject and was a member of the National Academy of Sciences study on "Technology Assessment" (1969).

His current research emphasis is on the social implications of current developments in electronic communications and computers. He is chairman of the Committee of Science and Public Policy of the American Association for the Advancement

of Science (AAAS).

Bowers' physics research interests are concentrated in several aspects of solid state physics. He has published more than 50 papers in these areas and has been a consultant to several industrial organizations. He is also vice chairman of the Solid State Division of the American Physical Society.

During his tenure at Cornell, Bowers has been a member of the Faculty Council and, in the summer of 1965, was executive vice chairman of the University Committee on Undergraduate Education.

## John Spencer Named Head Of Division

John F. Spencer has been appointed director of the Division of Unclassified Students at Cornell, effective July 1. He will retain his present position as associate director of admissions.

Spencer will replace Martin W. Sampson, who will turn his full attention to his duties as dean of Summer Session and Extramural Courses.

"As director of the Division of Unclassified Students, I will carry out the mandates of the division's administrative board and counsel students wishing to transfer from one division of the University to another," Spencer said.

The administrative board, which governs the Division of Unclassified Students, is made up of six faculty members from the University's schools and colleges, according to Spencer.

A native of Ithaca, Spencer holds bachelor of science and master of science degrees from Cornell.

He became a full-time employee at Cornell in 1963 as a research associate in communication arts. In 1965 he was appointed admissions counselor in the New York State College of Agriculture and Life Sciences and, in 1969, assumed his present position as associate director of admissions.

Spencer is one of Ithaca's three police commissioners and has been a member of the Ithaca Common Council. He is the newly elected treasurer of the New York State Association of College Admissions Counselors.

Spencer is married to the former Shirley House of Avon. They have two children, Linda 16, and John, 13. The Spencers live at 605 Mitchell St.

## International Track Meet Scheduled for Saturday

International track and field competition returns to Schoellkopf Field Saturday when a combined Oxford-Cambridge team faces Cornell-Pennsylvania in their 10th meeting since 1953.

The Englishmen, who last appeared here in 1965 and tied the Americans, 8-8 (only first place is counted in the 16-event program), arrived in the United States Wednesday and came directly here to prepare for the 3 p.m. meet that is a highlight of Cornell's alumni Reunion weekend. On June 13 they will oppose a combined Harvard-Yale team as Cambridge, Mass.

The most recent outing for the combined Cornell-Penn forces, in 1970 at London, resulted in a 12-4 decision for the Americans, biggest margin of victory in a series that is normally marked by tight competition; each team has won four times.

Though Penn's Bruce Collins, a world class 440-yard hurdler, and Fred Samara, a decathlon ace, will be competing in the NCAA championships, coaches Jim Tuppeny of Penn and Jack Warner of Cornell will still field a well balanced team.

Leading the Red and Blue will be sprinter Bernie Gansle, third in the 1972 IC4A 100; hurdlers Joe Abitante, Mark Mondschein and Pete Pozefsky; miler Denis Fikes, the indoor IC4A champ who ran 4:02; three-miler Peter Christ; triple jumper Willie Clark; long jumper Len Stachitas, last year's outdoor Heptagonal champion; high jumper Mike Sperger, runnerup in the outdoor Heps at 6-9; 235-plus javelin throwers Fred DePalma, 1972

**DEJA VU** — Hurlers wearing the "C's" of Cornell and Cambridge were seen in competition at Schoellkopf in 1965 when the combined Cornell-Pennsylvania and Oxford-Cambridge teams were here for a track and field meet during alumni Reunion. The same four universities will meet again Saturday at 3 p.m. at Schoellkopf.

IC4A winner, and Ray Mushinski, and Steve Raab, a 15-6 vaulter.

Top Cornellians are sprinter Earl Trent; quartermilers Mike MacNeil of Ithaca, Heps runnerup this year, and John McKeown, Heps 600 champ in 1972; half-milers Bob Anastasio, Heps outdoor 880 victor, and Pal Roach, who ran third at the Heps; miler Tom Patterson; distance runner Ray DeMarco, winner of the Heps three-mile title, and triple jumper Jim Leonard, two-time Heps indoor and 1972 outdoor winner.

Leading the British contingent, coached by Roy Carter of Cambridge, are sprinter Dave Roberts (Cambridge); Bob Steele (Oxford), a 4:02 miler who won the 1,500-meters in the 1970 London meet in 3:45.9; Bob Tait (Oxford) of South Africa, a 52-second 440-yard hurdler, Phil Lewis (Oxford), a 1:47 half-miler and Dick Gyles (Oxford), a 25-foot long jumper.

Outstanding track events appear to be the sprints with Gansle, Trent and Roberts, the 880 with Anastasio and Roach opposing Lewis and the mile in which both Fikes and Steele are capable of breaking four minutes. Long jumpers Stachitas and Gyles are expected to wage a tight duel.

The program takes in the standard American events, with the exception of the hammer throw and the mile relay. A 440-yard relay winds up the activities.

During the meet, McKeown will be presented the ECAC Merit Medal as Cornell's most outstanding senior student-athlete. In addition to his track exploits, he performed as a spectacular kick-blocking specialist and a pass receiver in football.

## Chronicle

All items for publication in the Cornell Chronicle must be submitted to the Chronicle office, 110 Day Hall, by noon on the Monday preceding publication.

# Chronicle Comment

*Chronicle Comment is a forum of opinion for the Cornell community. Comment may be addressed to Kal M. Lindenberg, managing editor, Chronicle, 110 Day Hall.*

## On Falcons and South Africa

Editor:

It was distressing to note that the Chronicle was able to make a large contribution last week to South Africa, in terms of favorable publicity. Once again we are shown that the American media operate to make all of us more interested in the animals of Africa than in the people. The Southern African Liberation Committee has had many fund raising events throughout the year. Its members have worked hard to help the African people of South Africa to survive. Yet there has been no article of a comparable value on the subject of that committee's work.

In connection with the article, I would like to bring forward a few relevant facts. First, it is hardly surprising that the South African

### I Would Like To Present A Few Facts

Airways is sponsoring this trip. They are still in the midst of a battle to retain rights to land in this country. Congressman Charles Diggs and others feel that since black Americans may not obtain a visa to South Africa with anywhere near the ease of white Americans — if at all — it is inappropriate to grant landing rights to the airline of that country. Every bit of favorable publicity helps South African Airways remain in the United States.

As these birds are to be

returned to nature in the Transvaal section of South Africa, it may be of interest to note the manner in which a non-white tourist would have to manage if he wished to benefit from the beauty of nature in the Transvaal. The following typical examples are taken from "The South African Holiday Guide Especially for Africans, Indians and Coloured" of the South African Institute of Race Relations.

1. If he wished to stay in Pretoria, capital of the Transvaal, he would find there are no hotels or modern restaurants open to him.

2. At the National Zoological Gardens, he would not be allowed in the grounds after 2 p.m. on Sundays or public holidays.

3. Most of the municipal parks are for whites only; one is for non-whites.

4. At the Fountains Valley Nature Reserve, non-whites may walk through, but most of the amenities are reserved for whites.

5. The Wonderbloom Wild Life Sanctuary is reserved for whites.

There is no doubt in my mind you would agree that the survival of the African people of South Africa is more important than the survival of the falcons. Still, in the priorities you have set for your articles, you are making a contribution to the survival of the falcons at the expense of the African people.

William I. White,  
Temp. Asst. Prof.,  
Chemistry

## Not Unprecedented, But Unusual Nevertheless

"The older the world grows, the less likelihood there is that an event in normal human affairs is *unprecedented*," Theodore M. Bernstein wrote in his book "The Careful Writer," advising caution in the use of the adjective.

Readers of Cornell Chronicle have reported three precedents for an event which was described in last week's issue as unprecedented, the awarding of doctoral degrees to a husband and wife at the same Commencement

ceremony.

Mr. and Mrs. T. A. Ryan in 1937, Mr. and Mrs. T. A. Ryan Jr. in 1968, and Mr. and Mrs. Stanley W. Jacklin in 1964 are three couples who had participated in such simultaneous receipt of Ph.D.s prior to this year's Commencement.

## Pres. Corson, Charlotte Young

### Two Receive Honorary Degrees

University President Dale R. Corson and Charlotte M. Young, professor of medical nutrition in the Graduate School of Nutrition, received honorary degrees from two other New York State institutions in recent weeks.

Corson received the doctor of laws degree from Hamilton College on May 27. Miss Young received the doctor of science degree from Syracuse University on May 12.

Corson's honorary degree citation read, in part:

"A scientific bent which was apparent during his school days in Kansas led him eventually into pioneering work in the world of synchrotrons and cyclotrons. Emboldened by success and distinction in that orderly world, he gradually ventured into the perilous life of academic administration on a path which led at Cornell ... to the presidency. In four distinguished years as the chief executive of Cornell he has brought reconciliation, stability and new vitality to a great university which was beset by internal divisions and financial distress. As head of a university that is both private and public, and because of the qualities of judgement and fairness which he brings to issues, he has become a principal voice in the formulation of public policy for the development of higher education in New York. It is a pleasure to show our respect and admiration for him as a man and as an educator by inducting him into the society of honorary alumni of this college."

Miss Young's honorary degree citation read, in part:

"...scientist, nutritionist, and distinguished teacher, you have led a life of service to others. Your outstanding contributions to research in applied human nutrition have been recognized throughout the world..."

"Your teaching career at Cornell University's Graduate School of Nutrition has spanned three decades, interrupted only long enough for you to serve as a consultant where you were needed most. You gave meritorious service to the World Health Organization in Guatemala, and you served the Agency for International Development in Peru."

"You have consistently set the highest standard of excellence for your colleagues, and demanded the very best efforts from your students. Your commitment to knowledge, your forthrightness and your contributions to the improvement of the human condition mark you as one worthy of honor."

# CHRONICLE Reunion Supplement

## Reunion Hosts Varied Events

As a service to Cornell alumni returning to the campus for reunion, Cornell Chronicle today prints a special section containing pertinent reunion data ranging from timetables to an in depth history of the Van Cleef Memorial Dinner.

It is the hope of the Cornell Chronicle staff and the staff of the Office of Alumni Affairs that this Chronicle special will prove to be a valuable and informative aid to those attending reunion activities.

The annual President's Cup Golf Tournament, an 18-hole tournament, begins on Thursday morning on the University Golf Course and continues through Friday. Trophies will be awarded Saturday at Cornelliana Night in Bailey Hall at 9:30 p.m. and will be inscribed with the winner's name and class. Even to nonparticipants, the tournament presents an opportunity to view the beautiful 18-hole University Course. Entry blanks are available from James H. Fenner, the University golf professional, and his staff at the course.

The 1973 Cornell Reunion alumni Tennis Tournament will begin on Friday at 10 a.m. at the Cascadilla courts. Registration for the tournament will take place at the courts on Thursday afternoon and Friday morning preceding play. There will be divisions of senior, mixed doubles, men's competitive, women's competitive, and consolation, providing that there are at least eight entries per division. Awards will be presented on Saturday evening at Cornelliana Night in Bailey Hall.

### Faculty - Alumni Forum

Alumni returning for reunions have almost universally been disappointed in the lack of faculty contact during the weekend.

A new dimension has been added to the reunion program which was planned to overcome the criticism — the Barton Hall Faculty-Alumni Forum.

Barton Hall has been arranged as an exhibit center for 34 departments of the University. Each department has a booth which will be occupied by faculty from 10 a.m. to 2 p.m. Friday and from 11 a.m. to 2 p.m. Saturday.

The concept, according to Frank R. Clifford, director of alumni affairs, is to present the University Faculty in an informal atmosphere by using Barton Hall as a focal point for the reunion program.

There will be more than 100 faculty present at the booths. However, Clifford said, "The success of the program rests with the alumni. The faculty signed on enthusiastically, but it is the alumni who must take the initiative to make it all work. We are confident it will be an enjoyable and enlightening experience."

### Reunion Forums

The Reunion Forum program for this year, above and beyond the innovative Barton Hall Faculty Forum, continues to reflect the University's desire to give a number of prominent members of the alumni body the opportunity to share the platform with distinguished members of the University faculty and staff.

The program is a varied one.

Thursday at 8 p.m. in Alice Statler Auditorium, there will be the Reunion Forums on "The Isles of Shoals." John M. Kingsbury, director of the Shoals Marine Laboratory, will present an illustrated talk about Cornell's unique and nationally recognized program in marine sciences.

Friday at 9:30 a.m., also in Alice Statler Auditorium, will be "Planning for a Rewarding Retirement." Richard G. Gottschalk, director, Cornell University Office of Estate Affairs, will present a slide/sound talk and moderate a panel discussion. Charles E. Treman, Jr., trustee, Cornell

University, and chairman, National Estate Affairs Committee, will be the meeting chairman. Other panel members include: George G. Reader, M.D., Livingston Farrand Professor of Public Health, Cornell University Medical College; Robert S. Smith, professor of farm finance; and Gordon F. Streib, professor of sociology.

Friday afternoon at 2 p.m., 3 p.m. and 4 p.m. Thomas W. Leavitt, director, will be host for illustrated talks and guided tours of the new Herbert F. Johnson Museum of Art. Seating capacity is limited and admission will be by ticket only. Tickets may be obtained without charge at the Barton Hall information booth.

Saturday at 10:15 a.m. in Alice Statler Auditorium will be the Reunion Forum entitled "The Public's Right to Know — The First Amendment and the National Press Council." John S. Knight, editorial chairman of Knight Newspapers,

## Welcome from Corson

Dear Cornellian:

It is a pleasure to welcome you to Reunion 1973.

Those of us who have the good fortune of being a part of the University on a daily basis, look forward to Reunions as a time when we can devote all of our energies to making your stay pleasant and memorable.

The five-year interval between reunions is a period of growth and change in the University that will be readily visible and might stimulate questions — or a desire to just talk to someone about it all. For this reason I urge you to attend the Barton Hall Faculty-Alumni Forum on Friday and Saturday to meet informally with the faculty and staff representing thirty-four University Departments.

We want you to enjoy yourself and, when you leave, to do so with a greater understanding of Cornell as well as pleasant memories of renewed and new acquaintanceships.

Sincerely,  
Dale R. Corson  
President

## ... and from Stanford

Fellow Cornellian:

It gives me pleasure to represent the Board of the Cornell Alumni Association in extending welcome to the 1973 Reunion.

As I reviewed the programs for the Weekend, I was impressed with the blend of social, educational, informational and athletic activities planned. Every facet of the University is actively involved this year, the alumni through the Saturday morning panel program "The Public's Right to Know" and the Savage Club, the faculty through the Forums, the students through the Cornell-Penn/Oxford-Cambridge Track Meet, and the President and administration through scheduled talks before the Alumni Association and Classes. It should all add up to an interesting and enjoyable experience for you.

Like every other alumni activity, successful reunions are based upon the tireless efforts of those who assume leadership roles, so I want to thank the Reunion Chairmen and their Committees for their efforts to bring classmates back to the Campus and, in so doing, bring them closer to the University.

Have a happy reunion!

Sincerely,  
Charles H. Stanford '47,  
President,  
Cornell Alumni Association

REUNION TENTS One of the large central tents located behind Mary Donlon Hall. These are open Friday and Saturday nights and all Cornell Alumni are welcome to join in the festivities.

## Savage Club To Perform At Reunion

Ithaca's Savage Club will perform at this year's reunion tomorrow (Friday, June 8) at 9 p.m. in Bailey Hall.

The Savage Club of Ithaca was formed in 1895 by a group of Cornell undergraduates who had performed for the original Savage Club of London in that year. The London group was founded in 1857.

The Cornellians who performed in England were members of the Glee Club and had accompanied the Cornell crew then competing in the Henley Regatta. The Ithacans and Savages were apparently delighted with each other, and when the Cornellians returned to Ithaca, they wrote the London group asking permission to form a Savage Club of Ithaca. The group became active in the fall of 1895, the only one in North America.

The group has members from Cornell, Ithaca College, and the Ithaca area. Membership is based on the ability of an individual to entertain the group when called upon by the president. Authors, artists, dramatists, and musicians have enriched the club with their talents for the past 78 years.

## Schedule of Reunion Tours

All Reunion tours leave from the west end of Barton Hall.

**Campus Tours:** Guided tours of campus. Undergraduate students, acting as guides, will accompany each bus to point out the old and the new, and to answer questions. The tour takes about one hour. The buses will leave Barton Hall at the following times:

Thursday: 2:30 p.m. Friday: 10:30 a.m., 11:30 a.m., 1 p.m., 1:30 p.m., 2:30 p.m., 3 p.m. Saturday: 10:30 a.m., 1:30 p.m., 2 p.m., 2:30 p.m., 3 p.m., 3:30 p.m.

**Cornell Plantations:** Chartered bus tours will drive through sections of the Plantations and the campus. The buses will leave Barton Hall at the following times:

Thursday: 3 p.m., 3:30 p.m. Friday: 9 a.m., 10:30 a.m., 2 p.m., 3:30 p.m. Saturday: 9:30 a.m., 1:30 p.m., 2 p.m., 2:30 p.m., 3 p.m.

**Sapsucker Woods:** An informal tour of the Cornell Laboratory of Ornithology and Sapsucker Woods. The buses will leave Barton Hall at the following times:

Thursday: 11 a.m., 2 p.m., 3:30 p.m. Friday: 1 p.m., 2:30 p.m. Saturday: 11 a.m., 1:30 p.m., 3 p.m.

**Wilson Synchrotron Laboratory:** An informal tour of the Laboratory of Nuclear Studies. The buses will leave Barton Hall at the following times:

Saturday: 10 a.m., 10:30 a.m., 11 a.m., 11:30 a.m.

## Class Photos

All class pictures will be taken on Saturday, June 9, during Reunion in Barton Hall. Please be prompt.

Law School, 11 a.m.  
1943, 11:10 a.m.  
1938 Women, 11:20 a.m.  
1938 Men, 11:30 a.m.  
1953, 11:40 a.m.  
1928 Women, 11:50 a.m.  
1963, 12:10 p.m.  
1968, 12:20 p.m.  
1958, 12:30 p.m.  
1918 Men, 12:40 p.m.  
1918 Women, 1:30 p.m.  
1913, 1:40 p.m.  
1948, 1:50 p.m.  
1923 Women, 2:00 p.m.  
1923 Men, 2:10 p.m.

## Messages

All messages, telegrams, and mail sent in care of alumni will be posted on the bulletin board in Barton Hall until the close of registration. After that, they will be held at the Willard Straight Hall desk.

## Schedule and Location of the Class Dinners

Alumni should consult the clerk at their class headquarters for times, transportation, and directions to class dinners. Class officer elections will be held at one of the dinners.

### Thursday, June 7

1913; Statler, West Lounge.  
1918; Barbecue, Hurlburt House.  
1933; Joe's Restaurant.  
1938 Men; Barbecue, Delta Phi.  
1938 Women; Barbecue, Delta Phi.  
1943; Loading Dock.  
1958; Barbecue.

### Friday, June 8

1909; Statler, Willcox Room.  
1913; Sage.  
1916; Statler Student Cafeteria.  
1918; Statler Auditorium Foyer.  
1923 Men; Statler Ballroom.  
1923 Women; Statler Ballroom.  
1928 Women; Statler Exhibition Hall.  
1933; Barbecue, Balch Courtyard.  
1938 Men; Noyes Center.  
1938 Women; Noyes Center.  
1943; W.S.H. Memorial Room.  
1948; Barbecue, Donlon Courtyard.  
1953; Big Red Barn.

1958; Barbecue, Enfield.

1963; Barbecue, Moakley House.  
1968; Barbecue, Dickson Courtyard.  
C.R.C.; Luncheon, W.S.H., Kimball Room.  
Law School; Statler; West Lounge, Sun Room, North Room, W.S.H., Elmhirst and Kimball Rooms.

### Saturday, June 9

1913; Sage.  
1918; Big Red Barn.  
1923 Men; W.S.H., Elmhirst Room.  
1923 Women; Statler, West Lounge.  
1928 Men; Statler Auditorium Foyer.  
1928 Women; Barbecue, Donlon Courtyard.  
1933; North Campus Union.  
1938 Men; Noyes Center.  
1938 Women; Noyes Center.  
1943; Barbecue, Crescent.  
1948; North Campus Union.  
1953; North Campus Union.  
1958; Statler Ballroom.  
1963; Noyes Center.  
1968; Turback's.  
Law School; Barbecue, Myron Taylor.

### Sunday, June 10

1923 Women; Breakfast, Statler Sun Room.  
1963; Brunch, North Campus House 10.

## Calendar of Events

### Wednesday, June 6

2 p.m. Herbert F. Johnson Museum of Art, open 10 a.m. to 5 p.m.  
 Barton Hall information booth opens.  
 Dormitories open and registration officially begins.  
 6 p.m. Barton Hall information booth closes.  
 Cocktails and buffet dinner in North Campus Union.  
 8 p.m. Reunion welcome by Frank R. Clifford '50, director of Alumni Affairs, North Campus Union.

### Thursday, June 7

Interactive Computing Demonstration, G-26 Uris Hall (Social Sciences), 10 a.m. to 5 p.m.  
 Herbert F. Johnson Museum of Art, open 10 a.m. to 5 p.m.  
 Tours of campus, Sapsucker Woods, and Cornell Plantations (see Page 6).  
 President's Cup Golf Tournament opens at University Golf Course.  
 Reunion Alumni Tennis Tournament registration at Cascadilla courts, afternoon.  
 Astronomy Observatory, open 10 a.m. to noon (if it is clear).  
 8:30 a.m. Barton Hall information booth opens.  
 Class headquarters open for registration.  
 5:45 p.m. Cornell University Library Associates annual dinner, ballroom of Statler Inn.  
 Dinners. Class dinners and barbecues (see Page 6).  
 6 p.m. Barton Hall information booth closes.  
 8 p.m. Reunion Forum, "Isles of Shoals," Alice Statler Auditorium. John M. Kingsbury, director, Shoals Marine Laboratory, will present an illustrated talk on Cornell's unique and nationally recognized program in marine sciences.

### Friday, June 8

Herbert F. Johnson Museum of Art, open 10 a.m. to 1 p.m.  
 Tours of campus, Sapsucker Woods, and Cornell Plantations (see Page 6).  
 President's Cup Golf tournament at University Golf Course.  
 Reunion Alumni Tennis Tournament, registration ends and play begins, 10 a.m., Cascadilla courts.  
 Astronomy Observatory open, 10 a.m. to noon (if it is clear).  
 Helen Newman Hall, open for family swimming (Children must be at least 4 1/2 feet tall. Bathing suits are available.) 2:30 p.m. to 5:30 p.m.  
 Barton Hall Faculty-Alumni Forum, 10 a.m. to 2 p.m.: meet and talk informally with more than 100 Cornell faculty members representing 34 departments of the University.  
 8 a.m. Cornell Association of Class Officers breakfast, West Lounge of Statler Inn.  
 Human Ecology Alumni Association breakfast, Elmhurst Room, Willard Straight Hall.  
 8:30 a.m. Barton Hall Information booth opens.  
 Class headquarters open for registration.  
 9 a.m. Reunion Youth Program. Information available at class headquarters or at North Campus Union.  
 9:30 a.m. Reunion Forum, "Planning for a Rewarding Retirement," Alice Statler Auditorium. Richard G. Gottschalk, director, Cornell University Office of Estate Affairs, will present a slide/sound talk and moderate a panel discussion. Charles E. Treman, Jr., trustee, Cornell University, and chairman, National Estate Affairs Committee, will be the meeting chairman. Other panel members include: George G. Reader, M.D., Livingston Farrand Professor of Public Health, Cornell University Medical College; Robert S. Smith, professor of farm finance; and Gordon F. Streib, professor of sociology.  
 10 a.m. Barton Hall Faculty-Alumni Forum.  
 11 a.m. Class of 1918 Hall Dedication, John S. Knight Lounge, Class of 1918 Hall.  
 Dedication of the Leon Ballord Allen Trail, Cornell Plantations (at Moakley House if raining).  
 11:30 a.m. Alumni luncheon in Barton Hall.  
 Noon. C.R.C. luncheon, Kimball Room, Willard Straight Hall.  
 2 p.m. Reception for Million Dollar Classes, West Lounge, Statler Inn.  
 Chemistry Department open house, Baker Laboratory (until 4 p.m.).  
 2, 3 and 4 p.m. Reunion Forum, Herbert F. Johnson Museum of Art. Thomas W. Leavitt, director, will be host for illustrated talks and guided tours of the new museum. Seating capacity is limited and admission will be by ticket only. Tickets may be obtained without charge at the Barton Hall information booth. Buses will leave from the west side of Barton at 1:45, 2:45 and 3:45 p.m.  
 3 p.m. Delta Delta Delta Corporation Meeting, 118 Triphammer Road.  
 4 p.m. Cornell Alumni Association Board of Directors meeting.  
*Continued on Page 8*

## Cornelliana Night

Former Cornell University Glee Club members, representing classes from 1903 to 1973, will sing a medley of Cornell songs at Reunion Week's "Cornelliana Night," at 9:30 p.m. Saturday in Bailey Hall. This will be the sixth year that the Alumni Glee Club as the group has come to be called, will perform. The Alumni Glee Club is under the direction of Thomas A. Sokol, director of choral music and professor of music.

Other events during the nostalgic and festive evening include the presentation of class awards and the trophies for the winners of the golf and tennis tournaments.

## Bus Service

"Reunion shuttle buses" will provide free transportation along the following route: Men's Dormitories on West Avenue, to Campus Road and Central Avenue, to Statler and Barton Halls, to Day Hall on East Avenue, to Goldwin Smith Hall on East Avenue, to Balch Halls, to Mary Donlon Hall, to North Campus Residential Halls, to Hurlburt House, and along University Avenue to the Men's Dormitories on West Avenue.

The buses will operate on the following time schedule, running

*Continued on Page 8*

## Some Items of Interest

### H.F. Johnson Museum of Art

The Herbert F. Johnson Museum of Art, made possible through the generosity of Herbert F. Johnson '22, was formally dedicated on May 23.

Located at the northwest corner of Cornell's Arts Quadrangle, the heart of the College of Arts and Sciences, the new museum rises six levels above the ground, providing panoramic views of Cayuga Lake and the hills and valleys surrounding Ithaca. Covering 20,000 square feet it contains 20 exhibition galleries distributed on six levels, two of them below ground. The new museum provides six times the exhibition space of the University's recently closed Andrew Dickson White Museum of Art.

Works by Albrecht Durer and Hans Holbein the Younger are included in the current exhibition, which will stress printmaking during its beginnings and development in Northern Europe in the fifteenth and sixteenth centuries.

Also on view will be large portions of the University's own art collections, which are particularly strong in Asian and American art and the graphic arts.

In addition, there will be works on exhibit by the faculty in the Department of Fine Arts, including sculptor Jason Seley's 10-foot tall equestrian statue, Colleoni II, made from automobile bumpers.

The new museum will be open during Reunion at the following times: Wednesday, June 6, 10 a.m. - 5 p.m.; Thursday, June 7, 10 a.m. - 5 p.m.; Friday, June 8, 10 a.m. - 1 p.m.; Saturday, June 9, 10 a.m. - 5 p.m.; Sunday, June 10, 11 a.m. - 5 p.m.

### Sapsucker Woods

The Cornell Laboratory of Ornithology is a world center for the study and appreciation of bird wildlife. Dedicated in 1957, the Laboratory is centered in the Lyman K. Stuart Observatory at Sapsucker Woods sanctuary, three miles northeast of the main campus.

Ornithology at Cornell owes its origin to the efforts of the late Professor Arthur A. Allen '08, and it was he who initiated the special tours to the Laboratory which have become a tradition on Reunion weekends. Throughout the year, visitors from all over the world cross the threshold of the uniquely designed Stuart Observatory, and many of them walk the four miles of well-marked trails that wind through the woods and fields of the 180-acre sanctuary. Within the Sanctuary, over 200 species of birds have been seen at one time or another and at least 60 species nest each year.

### Wilson Synchrotron

The Wilson Synchrotron Laboratory is the major research facility of the Laboratory of Nuclear Studies at Cornell University. The world's largest electron synchrotron — capable of accelerating electrons to an energy of ten billion electron volts

— is an integral part of the Laboratory.

Fascinating guided tours of this facility have been arranged for Saturday morning during Reunion.

### Cornell Plantations

The intrinsic value of its physical environment has been recognized by Cornell since its founding. The Cornell Plantations was established in 1944 as a continuation and expansion of the Cornell Arboretum and is the outdoor laboratory and arboretum enterprise of the University.

The Plantations is responsible for 1,500 acres. Its objectives are (1) to preserve as much as possible of existing natural resources for study and inspiration; (2) to enhance the natural setting by judicious planting of native materials, exotic species, and specially cultivated strains; (3) to maintain and develop these existing resources in support of instructional and research programs in the natural sciences, and (4) to stimulate awareness of the educational and aesthetic value of the University's natural surroundings.

Visitors who come in June can see azaleas in bloom in the Mary Rockwell Azalea Garden, a display of poisonous plants in the W.C. Muenscher Garden, wildflowers blooming in a section of the Rockwell Field Laboratory, rhododendrons growing in Mitchell Woods, and a variety of woody plants dotted throughout the Test Garden. Collections of viburnums, lilacs, tree peonies, and hedges can also be viewed at various points on the campus. The work of the Plantations is in evidence throughout Cornell's environs.

### Cornell Alumni News

To continue the spirit of Reunion, more than 45,000 alumni now read the prize-winning Cornell Alumni News. It keeps them in touch with classmates and other Cornell friends. Colorful and informative articles and picture stories on the work of the University written by faculty members and others; sprightly comment and interpretation of the passing scene by Bob Kane '34, John Marcham '50, the editor, and others; and reports on "personalities" in sports, the faculty, and the alumni appear throughout the year.

Every alumnus is a shareholder of the News, because every alumnus is a member of the Cornell Alumni Association which owns and directs the magazine. It is published by and for alumni, it has been published continuously since 1899.

### Reunion Central Tents

All alumni are invited to join in the festivities at the Reunion Central Tents. They will be located behind Mary Donlon Hall and will open at 8 p.m. and close at 2 a.m. Friday and Saturday evenings. There will be two live bands and other entertainment, free beer, dancing and places to sit. A visit to the tents is a must.

## Calendar of Events

Continued from Page 7

Board Room, third floor of Day Hall.

4:30 p.m. Alumni Glee Club rehearsal in Sage Chapel Reception for alumni, College of Architecture, Art, and Planning, Sibley Dome, until 6 p.m.

Dinners. Class dinners and barbecues (see Page 6)

7:30 p.m. Barton Hall information booth closes.

8:30 p.m. Central tents open.

9 p.m. The Savage Club Show, Bailey Hall

2 a.m. Central tents close.

### Saturday, June 9

Herbert F. Johnson Museum of Art, open 10 a.m. to 5 p.m.

Tours of campus, Wilson Synchrotron Laboratory, Sapsucker Woods, and Cornell Plantations.

Reunion Alumni Tennis Tournament, final play.

Astronomy Observatory, open 10 a.m. to noon (if it is clear).

Helen Newman Hall, open for family swimming (Children must be at least 4 1/2 feet tall. Bathing suits are available.) 2:30 p.m. to 5:30 p.m.

Barton Hall Faculty-Alumni Forum, 11 a.m. to 2 p.m. Informal conversation with faculty and departmental displays on view.

7:30 a.m. School of Civil and Environmental Engineering breakfast, Hollister Hall lounge (until 9:30 a.m.).

8 a.m. Cornell Women's breakfast, Statler ballroom. Lucy Jarvis '38, NBC television producer, will speak on the "Women's Role in Communications."

Chemical Engineering alumni breakfast, 128 Olin Hall.

Sibley School of Mechanical and Aerospace Engineering alumni breakfast, Upson lounge (until 9:30 a.m.).

Electrical Engineering alumni breakfast, Phillips Hall lounge (until 9:15 a.m.).

8:30 a.m. Barton Hall information booth opens.

Class headquarters open for registration.

9 a.m. Reunion Youth Program: information available at class headquarters desk or at North Campus Union.

School of Hotel Administration coffee hour, Statler Hall, office of the dean.

10:15 a.m. Reunion Forum, "The Public's Right to Know — The First Amendment and the National Press Council," Alice Statler Auditorium. John S. Knight, editorial chairman of Knight Newspapers, Inc., will moderate the panel program. The panel includes: Lucy Jarvis, NBC television producer; Congressman Barber Conable of the New York 37th District; Stuart Loory, executive news editor, NBC-TV, and professor-designate of the W. M. Kiplinger Chair in Public Affairs Reporting, School of Journalism, Ohio State University; and Roger Cramton, dean-elect, Cornell Law School, who is currently assistant attorney general, U.S. Department of Justice.

11 a.m. Barton Hall Faculty-Alumni Forum.

11:30 a.m. Alumni luncheon in Barton Hall.

11:45 a.m. Annual meeting of Cornell Law Association, luncheon in Statler ballroom.

Noon. Chimes open house, McGraw Tower (until 6:30 p.m.). Refreshments.

12:50 p.m. Annual meeting of the Alumni Association and The Cornell Fund, Barton Hall. Report to alumni by President Dale R. Corson, and alumni trustee election results.

2 p.m. Official registration closes.

2:30 p.m. Dedication of the shell, George Y. More, Collyer Boathouse.

3 p.m. Cornell-Penn/Oxford-Cambridge track meet, Schoellkopf Field. Tickets on sale in Barton Hall. Get-together of track alumni on Schoellkopf Field following track meet.

Dinners. Class dinners and barbecues (see Page 6).

6:30 p.m. Van Cleef dinner, Memorial Room, Willard Straight Hall. Dean Kermit C. Parsons, College of Architecture, Art, and Planning, will speak on the topic "Andrew Dickson White as Architect."

8:30 p.m. Central tents open.

9:30 p.m. "Cornelliana Night" in Bailey Hall.

2 a.m. Central tents close.

### Sunday, June 10

8:30 a.m. Sphinx Head Society, annual breakfast meeting in the Elmhurst Room, Willard Straight Hall.

9 a.m. Quill and Dagger Society, alumni breakfast in Faculty Lounge, Statler Inn.

10 a.m. University Memorial Service in Sage Chapel.

## Reunion Youth Program

Headquarters in the North Campus Union

Friday and Saturday, all ages check in at the North Campus Union at 9 a.m. with rain gear, sneakers, a sweater if needed and for those who are 4'6" tall or who can swim the length of the pool, bring a bathing cap. Teens might like to bring a tennis racquet. A cloth bag or knapsack for private possessions would be a good idea. Leave valuables such as watches at home. You might want a little "change" with you for the snack bar.

Activities include walks, games (indoor and out), swim parties, bus tours and trips to parks, crafts, movies and cartoons, and much more.

When a child arrives or leaves the program he is asked to check in and out with his counsellor. He may not leave the program unless with parents, or with a written permission from parents.

There will be 2 dorm counsellors per floor to babysit from 8 p.m. to 2 a.m. Parents are responsible to put small children to bed. There will be a T.V. room available in each building.

Children who have written permission to stay up after 9 p.m. may use this room. We suggest all children under 14 be in bed by 11 p.m. Our dorm counsellors will keep a check on this room but they are only responsible for the safety of your children while they are in their bedrooms or in the T.V. room. We do not assume responsibility for teenagers after the daily program ends at 8 p.m. No

children may go to the tent area unless accompanied by parents.

### Bus Service

Continued from Page 7

at fifteen-minute intervals:

Wednesday: 2:00 p.m. - 6:00 p.m.

Thursday: 8:00 a.m. - 11:00 p.m.

Friday: 7:30 a.m. - 11:00 p.m.

Saturday: 7:30 a.m. - 11:00 p.m.

## Varied Events

Continued from Page 5

Inc., will moderate the panel program. The panel includes: Lucy Jarvis, NBC television producer; Congressman Barber Conable of the New York 37th District; Stuart Loory, executive news editor, NBC-TV, and professor-designate of the W. M. Kiplinger Chair in Public Affairs Reporting, School of Journalism, Ohio State University; and Roger Cramton, dean-elect, Cornell Law School, who is currently assistant attorney general, U.S. Department of Justice.

### Cornell Women's Breakfast

A traditional part of the Reunion Weekend for Cornell women is the Cornell Women's Breakfast which will be held this year in the Statler Ballroom on Saturday morning, June 9 at 8 a.m.

The speaker will be Mrs. Lucy Jarvis '38, who joined NBC in 1960 and is a noted producer of award winning news specials and documentaries such as "The Louvre", "Bravo Picasso" and most recently "the Forbidden City". Mrs. Jarvis will speak on "Women's Role in Communications."

All returning women and Ithaca alumnae are cordially invited to attend this festive and informative event. Tickets may be purchased in Barton Hall on Friday or at the breakfast on Saturday morning.

### Alumni Luncheons

A traditional feature of the Reunion program, the alumni luncheons serve as a meeting place for all returning Cornellians. The luncheons will be held Friday and Saturday, June 8 and 9 at 11:30 a.m. in Barton Hall. Tables for the various classes will be reserved. The luncheons are catered by the Department of Dining Services and there will be an a la carte menu to choose from. Many classes will have their class pictures taken at this time. This year, immediately following the Saturday luncheon, President Corson will give his report to alumni.

### Alumni Meeting

A highlight of Reunion for many is the annual joint meeting of the Cornell Alumni Association and the Cornell Fund Board. Charles Stanford '47, president of the Alumni Association, and Hays Clark '41, chairman of the Cornell Fund, will each present a summary of the year's activities at the meeting to be held in conjunction with the Alumni luncheon Saturday in Barton Hall.

At the meeting also, University President Dale R.

Corson will give his report to alumni, and the result of the alumni trustee election will be announced. Another highlight of the meeting will be the presentation of the \$1,000 Excellence in Teaching Award. The award, given to a faculty member for excellence in engineering teaching, is this year being awarded jointly by the Cornell Society of Engineers and Tau Beta Pi, the scholastic honorary engineering fraternity.

### The Van Cleef Dinner

The following passages from "Behind the Ivy" by the late Romeyn Berry '04 (Cornell University Press, 1950) capture the spirit in which the Van Cleef Dinners were founded and which has prevailed at them ever since.

"Mynderse Van Cleef came from Seneca Falls, but he stayed in Ithaca after he graduated in 1874.

He was a Trustee, attorney for the University, president of the (Ithaca) bank, and all the other things that you can't escape when once you're that. He liked Class Reunions, organized, managed and attended all his own, and was rather put out when informed that formal Reunions were supposed to end with the Fiftieth.

"It was characteristic of the man that what he didn't like he did something about. When he found there were many Old Timers in town who like himself, had had their Fiftieth and now had no place to go, he rounded up the lot and invited them to dinner.

"After that, the Van Cleef Dinner became an annual affair...

"And now we come to the nubbin of the story! When Mynderse Van Cleef died, his daughters (Jeannette Van Cleef — Mrs. Arthur W. Booth — and the late Miss Eugenia Van Cleef) endowed his Reunion dinners for Old Timers. Nobody could stop him doing what he wanted to while he lived, and the girls fixed things so nobody should stop him when he wasn't around any more to attend to matters himself... It will always be the Van Cleef Dinner to which the ancients repair on Saturday evening to recall old days and to argue whether President White did, or did not, personally ring the Chimes after the Saratoga regatta of 1875."

Kermit C. Parsons, Dean of the College of Architecture, Art and Planning, will speak at this year's Van Cleef Dinner on "Andrew Dickson White as Architect."

The dinner will be held in the Memorial Room of Willard Straight Hall at 6:30 p.m. Saturday.

# 3 Professors Emeritus Appointed

## Randall K. Cole, Animal Genetics

Randall K. Cole was named professor of animal genetics emeritus in the New York State College of Agriculture and Life Sciences at Cornell, upon his retirement March 31.

A specialist in hereditary resistance to disease in animals, Cole has been a faculty member of the College's Department of Poultry Science for nearly 38 years.

He is a leading authority on genetic selection of chickens for resistance to Marek's disease, a highly contagious viral malady that takes a heavy toll of poultry in the United States and abroad.

A native of West Medway, Mass., Cole holds a bachelor's degree from the University of Massachusetts. He received both his masters and Ph.D. degrees from Cornell.

He joined the Cornell staff in 1935 as instructor in poultry husbandry while working toward his advance degrees. He was made assistant professor in 1940, associate professor in 1948, and full professor in 1950.

Cole taught the course in anatomy of the fowl for many years; more recently, he also taught genetics of the fowl. He devoted much of his time to research in poultry diseases, especially Marek's disease.

## Francis E. Mineka, English

Francis E. Mineka, former dean of the College of Arts and Sciences at Cornell, has been elected Class of 1916 Professor of English, Emeritus.

The action taken by the University Board of Trustees is effective as of Mineka's retirement on June 30. A member of the Cornell faculty since 1946, he was named to the Class of 1916 chair when it was established at the 40th reunion of the Class in 1956.

Mineka was chairman of the English department from 1948 to 1957 when he was elected dean. He served as dean until 1962.

An authority on nineteenth century English literature, he is the author of "The Dissidence of Dissent" (1944, republished 1972) and a co-author of "Masters of British Literature" (1958). In January, the University of Toronto Press published the final four volumes of an edition of the letters of John Stuart Mill. The first two volumes, Mill's early letters, were published in 1963.

Mineka joined the Cornell faculty in 1946 as an assistant professor. He was named associate professor in 1947 and professor in 1951. Mineka has also taught at the University of Texas.

## John W. Wells, Geology

John W. Wells was named professor of geological sciences, emeritus, by the Board of Trustees at the March 15-17 meeting.

Wells retired at the end of the spring semester. He has been a member of the Cornell faculty since 1948.

The Department of Geological Sciences is an intercollege department, under Cornell's College of Engineering and College of Arts and Sciences.

An authority on corals — the skeletons of sea animals — Wells was asked in 1971 by a team of scientists from Tel Aviv University in Israel to identify over 1,000 coral specimens collected from the Red Sea.

He has participated in many studies of atolls, including the scientific survey of the Bikini Atoll following the atom bomb tests in 1947 and a survey of the Marshall Islands' Atoll of Arno in 1950.

Wells, a native of Philadelphia, received his bachelor of science degree from the University of Pittsburgh in 1928 and his master of arts and doctor of philosophy degrees from Cornell in 1930 and 1933. Before joining the Cornell faculty, he taught at the University of Texas and Ohio State University.

## Kudos

The Cornell University Glee Club, under the direction of Thomas A. Sokol, professor of music at Cornell, has been selected "best equal voice choir" (men or women, but not youth choirs) in the national competition of the "Let the People Sing" international choral competition organized by National Public Radio (NPR), the British Broadcasting Company (BBC) and the European Broadcasting Union (EBU).

The Glee Club and the four winning choral groups in other categories of the national competition will have their entries submitted to the BBC and the EBU for entry into international competition.

The Department of Chemistry has awarded the annual Laubengayer Prizes for outstanding students in the introductory chemistry courses to three freshmen — Neal Daskal, Leonard Herk and Kenneth Roistacher.

According to Gordon G. Hammes, department chairman, "These prizes were established in honor of Professor A. W. Laubengayer on the occasion of his retirement in 1966, and reflect his interest in undergraduate students and his extensive activity in undergraduate instruction."

Each prize consists of a \$50

cash award.

Three seniors in the College of Arts and Sciences have been awarded playwriting prizes in two different competitions sponsored by the Department of Theatre Arts.

Marion Novick won first prize in both competitions, receiving \$100 in the Forbes Heermans competition and \$50 in the George A. McCalmon competition. Winner of second prize in the Heermans competition is Joel Saltzman. Richard Weinberg was second prizewinner in the McCalmon competition.

Gordon G. Hammes, chairman of the Department of Chemistry, announced that five undergraduates have been recognized for outstanding academic achievement.

Senior Janice D. Gorzynski is the recipient of the George Caldwell Prize of \$75, awarded annually to a senior chemistry major who has shown general excellence.

Alan G. Palestine received the \$75 Harold Adlard Lovenberg Prize, awarded to the junior chemistry major who has shown general excellence.

A 15-month subscription to Analytical Chemistry was awarded to Marc A. Feldman, and Merck Awards were presented to Stephen M. Ocken

and Alan E. Kilby.

Steven E. Jacobs a senior at the New York State College of Agriculture and Life Sciences at Cornell, has received the Mark of Excellence for radio reporting in region one of Sigma Delta Chi, the professional journalists society.

The award was made for a five-part series of broadcasts over WOWO, Fort Wayne, Ind., that Jacobs made on migrant workers and their problems in the midwest. The series will be submitted in national competition.

Robert J. Corey, a junior, and James R. Wells, a senior, have been awarded scholarships for their outstanding work in communication studies in the New York State College of Agriculture and Life Sciences.

The two will share the \$1,500 award made possible by an endowment fund established by Anson Rowe of the Cornell Class of 1907.

Monica E. McFadden, a senior in Cornell University's New York State College of Human Ecology, received the 1973 Edgar A. Whiting Award for outstanding contribution to the Cornell University Unions.

Kenneth A. McClane, a senior in the College of Arts and Sciences, has won the annual

## 200 Receive Degrees At Medical Center

The lawn of The New York Hospital-Cornell Medical Center was the setting May 30 of the Commencement ceremony for the Cornell University Medical College (CUMC), School of Nursing and Graduate School of Medical Sciences.

Dr. Rene Dubos, world famous scientist and author and professor emeritus at The Rockefeller University, gave the Commencement address.

The CUMC Alumni Association presented the 1973 Award of Distinction to Dr. Thomas Hale Ham, Class of 1931, for his notable achievements in the field of medical education.

University President Dale R. Corson conferred the degrees upon the 200 graduating students. Of these, 91 received their M.D.'s, 106 their bachelor of science degrees in nursing, and three their doctor of philosophy degrees in medical sciences.

The candidates for the degrees were presented to Corson by the deans of their respective schools: Dr. J. Robert Buchanan of the medical college, Dr. Eleanor C. Lambertsen of the nursing school and Dr. Thomas H. Meikle Jr. of the graduate school.

The traditional academic procession was led by University marshal Blanchard L. Rideout, professor of Romance studies, emeritus. The mace bearer was Herbert L. Everett, professor of plant breeding in the New York State College of Agriculture and Life Sciences.

Also participating in the program were Kenneth H. Hannan, president of The Society of the New York Hospital, and Dr. E. Hugh Luckey, vice president for medical affairs of Cornell and president of The New York Hospital-Cornell University Medical Center.

Dr. Lambertsen administered the international pledge of the nursing profession and Dr. Luckey administered the Hippocratic Oath to the new physicians.

Since its founding in 1898, CUMC, with the completion of this, its 76th Commencement, has graduated 4,971 physicians. The Cornell University-New York Hospital School of Nursing has awarded 2,161 degrees since 1941. From 1878 to 1941, when it was known as The New York Hospital School of Nursing, it awarded 1,563 degrees.

By Dorothy Nelkin

## Methadone Treatment Viewed

Methadone maintenance, the rapidly growing program whereby heroin addicts are weaned from the use of the illicit drug, is investigated with regard to its impact on society in a recently released study by a Cornell faculty member.

Dorothy Nelkin, associate professor of urban planning and development in Cornell's Program on Science, Technology and Society and the College of Architecture, Art and Planning, is the author of "Methadone Maintenance: A Technological Fix," a book which describes the program on a national scale and then zeroes in on Syracuse, a community where a methadone clinic is operating.

"I am interested in the methadone program," Mrs. Nelkin said, "primarily because it demonstrates the use of technology in an attempt to resolve an extraordinarily complex social problem." The clinically controlled administration of methadone, she explains in her book, obviates the addict's need for heroin and frees him from the daily struggle to obtain the drug, a struggle which often involves criminal activity.

But, Mrs. Nelkin points out, methadone does not help the addict get a job. It does not move him out of his neighborhood where drug trafficking may be the common way of life. It does not cure him of the psychological problems or emotional dependencies which drove him to drugs in the first place.

In short, methadone satisfies his body's physical craving — and stops there.

"I'm not against methadone," Mrs. Nelkin explained in an interview, "but it is a limited answer — and rather dangerous in terms of its social control implications." Several examples of the way "social control" operated in the Syracuse program appear in her book:

"Of the 71 persons admitted to the program, nine were awaiting trial and were offered conditional discharge if they entered a program, nine were on probation, and two were on parole when they applied. Thus some patients come to the program in order to avoid court action or to increase the possibility of a favorable judgment by

a court or probation officer."

And, "The precautions deemed necessary to prevent abuse — the daily urinalysis, the practice of withholding from the patient information concerning his dosage, and the ability of staff members to suspend a patient for reasons defined by the program — may conflict with the patient's perceptions of his own needs and rights. These practices can be justified as medical precautions, but in the light of the patient's vulnerability through his addictive dependence on the clinic dispensing the drug, they can, even with the very best intentions, become a coercive means of control."

In hours spent with program participants, Mrs. Nelkin found that they were treated as social outcasts in many situations. The program itself was based on the assumption that addicts have certain options, such as employment, open to them. But a social outcast, in fact, Mrs. Nelkin reports, may have no such options. One addict-turned-methadone-patient summed up the problem this way:

"I feel good about myself and am really trying to get myself together and really am anxious to go out there and do my thing and find a place where I can do my thing ... and be a contributing member of society. I'm hurt by people who, innocently perhaps, don't accept me. That I am a freak. Now in a sense I am a freak, but first I am a human being and I have feelings and I have applied for so many jobs and people aren't even kind enough to call up and say, 'We've already hired somebody for that position' ... after waiting a month or more for a telephone call."

According to Mrs. Nelkin, technology may exacerbate the problem of "dehumanization."

"This uneasy situation," she states in the book's conclusion, "is in a sense the result of the fragmentation that is characteristic of a technological approach, an instrumental method which deals with problems by breaking them down into manageable components."

## The 'Song' Remains

NOCTURNE — The sculpture "Song of the Vowels," between Uris and Olin Libraries, is shown here in this nighttime scene. Its creator, world-renowned sculptor Jacques Lipchitz, died May 26 in France.

Hockett Is Author

## Book Traces Birth of Language

When did man start talking? When did our ancestors first acquire the power of speech — which is also the power to remember, to consult, to plan ahead, to weigh alternatives, to

think, and is the most important factor in making human nature different from that of all other animals?

Probably only about 50,000 years ago according to Cornell anthropologist C.F. Hockett in his book, "Man's Place in Nature," published this spring by McGraw Hill.

Hockett's book traces the sequence of events that led to the birth of language, showing especially how two million years of tool manufacture and use may have paved the way. The book shows how the power of speech contributed, in turn, to various other unique qualities of man, most of all to the remarkable flexibility of humans.

Among other animals, the various communities of a single species live in pretty much the same way. "Among ourselves," he says, "it is otherwise. We speak several thousand different languages, marry and raise families in several dozen sharply different ways, have hundreds of different schemes of social, economic, and political organization and subscribe to thousands of different world views."

"This diversity within the species," he says, "can make for trouble when people of different ways of life come into contact. At the same time, the flexibility that has made the diversity possible is our only hope for the future."

Hockett is Goldwin Smith Professor of Linguistics and Anthropology in the College of Arts and Sciences at Cornell. The author of more than 100 articles and several books in his field, he has spent the past six years preparing this latest book.

He says the theme and title are taken directly from the work of the British biologist Thomas Henry Huxley, who in 1863 wrote: "The question of

questions for mankind — the problem which underlies all others, and is more deeply interesting than any other — is the ascertainment of the place which man occupies in nature and of his relations to the universe of things. Whence our race has come; what are the limits of our power over nature, and of nature's power over us; to what goal we are tending; are the problems which present themselves anew and with undiminished interest to every man born into the world."

Huxley's book was small, Hockett's book with the same title is large (over 700 pages) because, Hockett says, "although there are still many unsolved problems we have learned a great deal in the intervening century and can speak now in greater detail and with more sureness."

## Kudos

Continued from Page 9

George Harmon Cox Award of \$300 "for outstanding achievements in creative writing and related works."

He is also a co-winner of this year's Corson-Morrison Poetry Prize with Stephen Tapscott a graduate student in English. Each will receive \$100. An honorable mention citation was awarded Diane Ackerman, a graduate student in English.

Ellen Jampol and Steven Stern, both seniors in the College of Arts and Sciences, share first prize in the annual Moses Coit Tyler Essay Competition. Each will receive \$250.

David R. Markham, a senior in the College of Arts and Sciences, has won the University's annual Lieutenant David Chrystale

# The Senate Page

The Senate Page is the official bulletin of the Cornell University Senate. Publication is supervised by Michael E. Fisher, secretary of the Senate, 133 Day Hall, 256-3715.

Next Senate Meeting: Tuesday, Sept. 11, Kaufmann Auditorium, 7:30 p.m.

## Senate Calendar

Friday, June 22

Executive Committee, 4:30 p.m., Senate Office.

Friday, July 27

Summer meeting, Unions and Facilities Subcommittee, 10:30 a.m., Willard Straight Hall, North Room.

## Kudos

Continued from Page 10

Memorial Prize worth \$150.

The prize is awarded for the best essay on the theme of permanent peace and was established in 1945 by Chrystale's parents. He was a member of the Cornell Class of 1938.

Seven Cornell University students have won recognition in the competition for the 1973 Materials Handling Prize.

Students in the College of Engineering were asked to write on any aspect of the identification, control, movement or storage of objects, either animate or inanimate.

There were two first awards of \$300 each. One went to Jack M. Thompson Jr., a mechanical engineering senior. The other first award was shared by co-authors Scot McClintock, a junior in the New York State College of Agriculture and Life Sciences, and Keith Hanford, a senior in the engineering college.

The second award, consisting of \$100, went to mechanical engineering graduate student Eric Palmer. The judges also gave two third awards of \$50 each, one to Charles P. Heisig, a

David D. McCoy both chemical engineering seniors in the engineering college.

Cornell senior Steven Jay senior in agricultural engineering in the agriculture college, and the other to Charles P. Rudar and Schwartz has been awarded a three-year Winston Churchill Foundation Scholarship to attend Churchill College at Cambridge University in England.

Schwartz, a graduate of Cornell's College of Engineering, will be working toward his doctor of philosophy degree in plasma physics. The scholarship covers the cost of tuition and fees, living expenses and transportation.

Gordon G. Chang was awarded the 26th Annual Outstanding Male Senior Award by the Federation of Cornell Men's Club at the Commencement Week Glee Club Concert in Bailey Hall.

The award, inscribed bookends and a certificate, was presented by James F. Ritchey '54, president of the federation.

Among Chang's activities and accomplishments while at Cornell are recognition on the College of Arts and Sciences dean's list; service as a student

trustee; vice president of von Cramm cooperative living unit; member of the Cornell Senate; contributor to the Cornell Daily Sun; member of the steering committee of Cornell Ambassadors Student Speakers Bureau; member of the joint Trustee-Senate investment advisory committee; member of Aleph Semach, student leadership honorary, and a member of Quill and Dagger Society, senior men's honorary.

Three students in the College of Arts and Sciences have been named winners in the University's 1973 Barnes Shakespeare Prize Competition.

The first prize of \$150 went to senior Charles Thomas Rigg for an essay comparing the characters of "King Lear" and "Titus Andronicus."

The second prize of \$50 went to Suzette Matthews, a sophomore, and honorable mention went to Dena Goodman, a junior.

Three students in the College of Arts and Sciences have received Simmons Awards in German for 1973 worth \$25 each.

They are Bruce Landon, a junior, Kathleen Quant, a senior, and Carol Zuses, a sophomore.

The award, founded in 1942 by Dr. Lucretia V. T. Simmons, is presented annually to students "who have done the best work in German."

## Rock Concert Set for Tuesday

"Deep Purple," a nationally known rock group originally scheduled to perform at Cornell on June 2, has been rescheduled to perform here on Tuesday, June 12.

The concert, sponsored by the Cornell Concert Commission, is the first in a series of open air performances in Schoellkopf Stadium.

## Richard Kendall Carpenter, 23

Services for Richard Kendall Carpenter, 23, of Newfield, who died last Friday from injuries received in an automobile accident, were held Tuesday at the Newfield United Methodist Church.

Carpenter was born in Rochester, son of Mrs. Louise Ordway Carpenter, and the late Professor

Kendall Carpenter.

He worked as dispatcher for the Cornell Safety Division, and had previously served in the U.S. Navy in Vietnam, and had attended Tompkins-Cortland Community College.

## Taylor Merrell, 71

Taylor Merrell, who retired in 1968 as library superintendent of Olin Library, died May 24 in Tompkins County Hospital after a brief illness. He was 71. Before coming to Cornell in 1960, Merrell

was a salesman for Union Carbide. He lived at 67 Bush Lane and is survived by his wife, Margaret D. Stone Merrell.

## Maud Cowham Senior, 88

Mrs. Maud Cowham Senior, widow of John L. Senior, LL.B. '01, a cement executive and former Cornell trustee who died in 1946, died last Friday at her home, in New York City. She was 88 years old and lived also in Lenox, Mass.

Mrs. Senior was active in civic, educational and

musical circles in New York and in Lenox.

In 1950 she endowed the John L. Senior Professorship for American Studies at Cornell and the John L. Senior Memorial seminar suite in the Cornell Research Labor Library.

## Bulletin Board

### Panel to Discuss Freedom of Press

A panel discussion, "The Public's Right to Know: The First Amendment," will be open to the general public Saturday at 10:15 a.m. in Statler Auditorium.

The session, part of Cornell's alumni Reunion activities, will be moderated by John S. Knight, editorial chairman of the Knight Newspapers, Inc.

Panelists are Lucy Jarvis, National Broadcasting Company (NBC) television producer; Congressman Barber B. Conable Jr., representative from New York's 37th District; Stuart H. Loory, executive news editor with NBC television and professor-designate of the W.M. Kiplinger Chair in Public Affairs Reporting, School of Journalism at Ohio State University, and Roger Cramton, dean-elect of the Cornell Law School and former assistant attorney general in charge of the Office of Legal Counsel in the U.S. Department of Justice.

### Reunion Memorial Service at Sage

The Rev. John F. Walters will be the guest speaker at the Alumni Reunion Memorial Service at Sage Chapel on Sunday at 10 a.m.

W. Jack Lewis, coordinator of University religious affairs, will conduct the service and Harry Caplan, Goldwin Smith Professor of the Classical Languages and Literature, Emeritus, will deliver the memorial prayer.

Music will be provided by Donald R.M. Paterson, University organist, Judy Ogden, University head chimesmaster, and Linda Thurston Paterson, soprano.

Walters received his bachelor of science degree in biology from Cornell in 1958. Holder of a master of science degree in educational psychology from Fordham University, he has also attended Bellarmine College of Ascetical Theology and Loyola College of Philosophy and Letters.

Walters entered the Society of Jesus in 1960 and was ordained to the Roman Catholic priesthood in January, 1971.

### Open Meetings on Computing

The University Computing Board will hold two open meetings on June 14 and 21 in G-8 Uris Hall from 3 to 5 p.m.. The purpose of these meetings is to assess the computing needs of the campus and review alternative plans for increasing computing capacity. A statement of proposed policies for computer use was published in the May 10 Chronicle. A second paper outlining several possible strategies to increase computer capacity has been prepared and will be distributed to recognized user groups. Anyone wishing to obtain a copy should contact Mrs. Hazel Ruggia, 6-5033, in B-11 Upson Hall.

### Conferences Must Be Registered

All non-Summer Session conferences and workshops during the summer months must be registered with the Conference Office, according to Susan L. Sandro, conference coordinator.

The office, located in the North Campus Union, serves all University departments or persons who request assistance in planning conferences and is a centralized information source for conferences.

Further information may be obtained from Ms. Sandro by telephoning 256-6290.

### Statler Inn Hours

Statler Inn will be open for lunch June 7-8 and for dinner June 7-9. It will close for the summer June 10.

### CIUE Offers Small Grants

Cornell faculty planning developments in undergraduate education may apply for small grants from the Center for the Improvement of Undergraduate Education (CIUE), according to James B. Maas, center director and associate professor of psychology.

"The fact that only \$12,000 is available puts some realistic constraints on what can be supported," Maas said. "We are anxious to hear about all proposed innovations in order to obtain some perspective on the variety of innovative educational activities that are being planned; one function the center can undertake is to bring together people doing the same work."

For further information, Maas may be contacted at the CIUE office, 115 Rand Hall.

### 'Capt. Kangaroo' Hosts Food Expert

Elaine Rose Ruderman, food marketing specialist with the New York City programs of Cooperative Extension, will be the guest of Captain Kangaroo Show at 8 a.m. Monday on the CBS Television Network.

Ms. Ruderman will show children how to prepare their own party snacks from a variety of highly nutritious foods.

The recipes and ideas to be aired on the show are among those developed for use in training child care workers under a project sponsored by Cooperative Extension and the New York State College of Human Ecology at Cornell.

Ms. Ruderman recently conducted a 12-week training session for teachers held at New York's Henry Street Settlement Day Care Center.

# Calendar

June 7-23

## Thursday, June 7

Reunion Weekend. (See special supplement beginning on Page 5 for complete schedule).

## Friday, June 8

6 - 8 p.m. \*Steaks Royale in Statler's Main Dining Room.

## Saturday, June 9

Noon - 6 p.m. Open House in Library Tower. The chimes will be played at noon, 2 p.m., 4 p.m. and 6 p.m. Refreshments will be served.

6 - 8 p.m. \*Steaks Royale in Statler's Main Dining Room.

## Sunday, June 10

9:30 a.m. Ruhani Satsang - Divine Science of the Soul Yoga Loft II, Willard Straight Hall.

9:30 a.m. Episcopal Church at Cornell. Worship, Anabel Taylor Chapel. Church school and nursery care provided. All are welcome.

10 a.m. Reunion Memorial Service in Sage Chapel. Father John F. Walters, S.J., Cornell Class of 1958, will be the speaker.

## Monday, June 11

No activities scheduled.

## Tuesday, June 12

8 p.m. \*Concert: Deep Purple, Bill Preston and Family. Schoellkopf Field. Sponsored by the Cornell Concert Commission.

## Wednesday, June 13

8 p.m. Best Ten Slide Show. Sponsored by the Sierra Club. Audience participation: bring your best 10 slides. Ives 110.

## Thursday, June 14

No activities scheduled.

## Friday, June 15

No activities scheduled.

## Saturday, June 16

9 p.m. \*Ithaca Police Benevolent Association Ball. Barton

Hall. Sponsored by the Cornell University Safety Division. Tickets on sale at Willard Straight Hall and at locations in downtown Ithaca.

## AAUP Censure

*Continued from Page 2*

in the project which eliminated the work in which Dr. Tarjan was engaged, thus ending support for his salary from these funds as of June 30, 1971.

About May 11, 1971, it was known that the grant on which Dr. Tarjan had been working would be terminated. Dr. Brachfeld and Dr. Tarjan continued to seek other funds but were unsuccessful. Dr. Brachfeld was subsequently able to obtain funds to temporarily support Dr. Tarjan until September 30, 1971 and then arranged for him to work for the Muscular Dystrophy Association until December 31, 1971. At that point, all support ran out.

The AAUP censure action was based on the fact Dr. Tarjan did not receive *written notice* by December 15, 1970 and that he could not expect continuation beyond June 30, 1971 in accordance with the AAUP statement of principles. The AAUP investigating report concludes that lacking such written notification Dr. Tarjan's termination was "tantamount to a dismissal in contravention of the (AAUP) 1940 Statement of Principles on Academic Freedom and Tenure." The report also concluded that the financial emergency which the College administration said necessitated the

## Next Chronicle Is in August

With this edition, Cornell Chronicle suspends publication for the summer. The first issue of the 1973-74 academic year will appear on Thursday, Aug. 30.

Sunday 11 a.m.-4:30 p.m.; Monday-closed.

Olin Library: The Lafayette Collection at Cornell.

History of Science Collection: Recent Acquisitions. 215 Olin Library.

\*Admission charged.

Attendance at all events is limited to the approved seating capacity of the hall in which they are presented.

*All items for the Cornell Chronicle Calendar must be submitted to the Office of Central Reservations, Willard Straight Hall (either through the mails or by leaving them at the Straight desk) at least 10 days prior to publication of the Chronicle. The Calendar is prepared for the Chronicle by the Office of Central Reservations.*

termination was not sufficient to justify termination of Dr. Tarjan because other funds were available to the Medical College and to the University which might have been used to support him. The report criticizes the policies followed by the Medical College.

In the presentation of the University's case, it was the uncontested position of the Medical College and the University that Dr. Tarjan was given oral notice by December 15, 1970. It was pointed out that policy at that time did not require such notice to be in writing. It was also argued that the efforts to seek other funds to support Dr. Tarjan beyond June 30, 1971 should be considered to be good faith efforts to continue him if possible and not be held to modify the effect of the notice.

Special University by-law provisions govern appointment at the Medical College. These provisions are similar to those in most medical colleges. The story about the AAUP action in The Chronicle of Higher Education (Vol. VII No. 31, May 7, 1973) quotes a representative from the University of Oregon Medical School as opposing the censure and saying "Most medical school faculties will think he (Dr. Tarjan) was treated amazingly well."

In the Cornell response to the AAUP charges, it was pointed out that within the University by-laws and policy guidelines each college has an opportunity to establish its own appropriate policies and procedures regarding appointments, promotions, terminations, etc. The Medical College faculty and administration have been working on new procedures and in May, 1973 the General Faculty Council and Executive Faculty Council of the College developed a revised "Academic Personnel Appointments Procedure." These procedures should satisfactorily answer the questions raised by the AAUP in respect to notification of appointments and written notification of termination or non-renewal of appointments either by December 15 or with a minimum of six months notice.

The University by-laws and policies concerning appointments, promotions, tenure and dismissal covering the Ithaca campus are generally consistent with the AAUP 1940 "Principles." While each college or school has developed its own appropriate procedures adapted to its needs and size, these must not be inconsistent with the University by-laws and policies. As noted in Chapter VII ("Academic Affairs") of "Cornell in the Seventies - Goals, Priorities and Plans" (the newly adopted University long-range plan), the University administration and faculty will be seeking to further improve faculty personnel policies and procedures.

It should be understood that the AAUP censure action is based upon a case and practices at the Medical College. No issues have been raised concerning schools and colleges at Ithaca. In view of the revised policies and procedures developed by the Medical College, discussions will be undertaken with AAUP representatives seeking to have the censure action removed. It is hoped that this can be accomplished soon.

*(Note: The AAUP Bulletin for Spring, 1973 is published by the American Association of University Professors, One Dupont Circle, Suite 500, Washington, D.C. 20036, Jordan E. Kurland, associate general secretary. "Cornell in the Seventies" was published in the April 19, 1973 edition of Cornell Chronicle.)*

## Guidelines

*Continued from Page 1*

landlords are required to execute an application form containing the following statement:

"As a condition of my said premises being listed with Cornell University, I agree that I will not discriminate in the renting of said premises or in the terms or conditions of such rental on account of the race, creed, color, national origin or sex of the applicant."

### III. Enhancement of Minority Access

The primary focus of Cornell University's special opportunity program has been to increase the representation of minority students, who have been underrepresented in higher education. The following policy from my Statement on Minority Education issued in March 1971 represents Cornell's plan to expand the enrollment of students from minority groups:

"The University will continue to move toward a goal of having minority groups represented in all educational areas at Cornell at levels comparable to the general population, with each of the colleges and schools contributing to the implementation of the goal in accordance with its respective policies on four-year, transfer, and graduate students emphases.

Because of this institution's relationship with the State of New York through the statutory colleges, and the need to coordinate our efforts with expanding State programs, the term "general population" will be considered to be that of the State of New York, and encompass all sectors of the educationally disadvantaged minority population therein.

However, it must be made clear that attainment of the goal of proportional representation is dependent upon a more balanced participation in the attendant costs. Cornell University is committed to maintaining the program at present funding levels for entering students which, for the current year, resulted in a minority student population of undergraduates (including transfer students) and graduate students of 8% of the total incoming students. Because of the societal nature of the problem, our statutory unit composition, and the outlook for continued severe financial operating conditions, moving to a proportional representation level will depend upon the availability of substantially increased public funds."

Cornell's basic plan for recruitment and addition of members of minority groups as faculty and professional staff is set forth in our Affirmative Action Program, filed with and approved by the Compliance Officer of the Department of Health, Education and Welfare in March 1970. The goals originally submitted to the Department on a unit by unit basis are currently being revised and updated. These efforts are being coordinated by the University's Affirmative Action Officer, appointed in October 1971, to aid in monitoring and enforcing the Program."

*(Note: Copies of the State Education Department guidelines were printed in Cornell Chronicle for March 15, 1973 or are available at the Editorial Services section of the Office of Public Information. The March, 1970 Affirmative Action program was printed in the March 25, 1970 issue of the Chronicle.)*
