In the News this Week

Three Presidents of His Former Universities to Speak at Dr. Day's Inauguration . . . Football Squad Awaits First Game After Three Weeks of Practice . . . Johnny Parson Club Reopens Under Willard Straight Hall Management . . . University Suffers Loss in Death of Four Prominent Professors

SEPTEMBER 23, 1937

VOLUME 40

NUMBER 1

***A Message to Cornellians
from The Atlantic Refining
Company and its Dealers***

ONCE AGAIN we're broadcasting the football games. It gives us great pleasure to do so. We sincerely hope these broadcasts will bring as much pleasure to you.

Go to the games by all means if you can. But if you can't, tune-in one of the stations listed below and hear every bit of thrilling action the instant it takes place out on the field.

Enter Atlantic's eight big weekly Football Contests. Fun for the whole family; easy to do. A car and 59 other big cash prizes given away every week. Ask your Atlantic Dealer for details and entry blanks. And ask him about Atlantic's amazing Football Forecasts which have predicted the outcome of virtually every important college game in the country with *better than 80% accuracy*, exclusive of ties, for the past seven years. Drive in and pick the winners! There's real football fun in store for you.

THE ATLANTIC REFINING CO.

SCHEDULE OF BROADCASTS

Sept. 25	CORNELL-PENN STATE	Oct. 16	CORNELL-SYRACUSE
Oct. 2	CORNELL-COLGATE	Oct. 30	CORNELL-COLUMBIA
Oct. 9	CORNELL-PRINCETON	Nov. 13	CORNELL-DARTMOUTH
Nov. 25 CORNELL-PENN			

TOM McMAHON, COMMENTATOR

WESG (850 kc)	Elmira	WHEC (1430 kc)	Rochester
WFBL (1360 kc)	Syracuse	WIBX (1200 kc)	Utica
WGR (550 kc)	Buffalo	WNBF (1500 kc)	Binghamton
WOKO (1430 kc)		Albany	

These stations will broadcast the above schedule. Other stations will broadcast a few of the games. Ask your Atlantic Dealer for free booklet explaining the entire broadcast schedule.

PRICE, 15 CENTS

DAY'S INAUGURATION To Bring Many Visitors

Nearly three hundred acceptances had been received last week from guests and delegates officially invited by the University to attend the inauguration of President Edmund E. Day October 8, according to Woodford Patterson '95, secretary of the inauguration committee. Invitations were extended each of the 132 Cornell Clubs to send one delegate, to every Class secretary, the officers and directors of the Cornell Alumni Corporation and Federation of Cornell Women's Clubs, and members of the executive Council of the Cornellian Council. Besides these representative alumni, the University invited delegates from four undergraduate organizations, the Student Council, Women's Self-Government Association, Cornell Daily Sun, and Cornell Independents' Association; from most of the universities and colleges in the United States and Canada; from many learned societies and organizations concerned with education; and from the City of Ithaca, its Chamber of Commerce, and Board of Education.

The number of acceptances already received, Patterson says, indicates that the University's facilities for entertainment will be taxed to capacity by the invited guests and delegates, so that provision cannot be made for casual visitors. The University's guests will be entertained in Balch Halls, both for lodging and meals, the 325 undergraduate women regularly resident there being accommodated elsewhere from Thursday through Saturday, October 7-9.

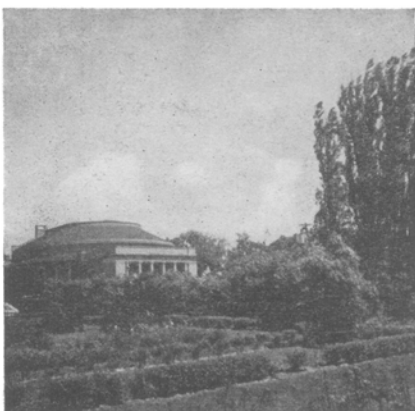

Presidents of the three institutions in which Cornell's fifth President spent the greater part of his academic life, as student, teacher, and administrator, have accepted invitations to speak at his inauguration. On Friday morning, October 8, in Bailey Hall, Dr. Day will deliver his inaugural address in the presence of Dr. Ernest M. Hopkins, president of Dartmouth College, of which the new President is a member of the Class of '05 and where he received the baccalaureate and Master's degrees and began his teaching career as instructor in economics; President James B. Conant of Harvard University, where Dr. Day received the PhD degree and rose to become head of the department of economics; and President Alexander G. Ruthven of the University of Michigan, where he organized and became the first dean of the school of business administration. Dr. Day will receive the symbols of his new office from Judge Frank H. Hiscock '75, chairman of the University

Board of Trustees, who will officially declare him inducted into office.

Besides the official guests, of whom the delegates representing universities colleges and other educational societies and foundations will march in the academic procession with the University Trustees and Faculty, tickets will admit to Bailey Hall the members of Trustee and Faculty families and students of the University, so far as they can be accommodated. Following the exercises luncheon will be served in Memorial Room of Willard Straight Hall for the invited guests of the University; and from 5 to 7 Friday evening President and Mrs. Day will receive in Willard Straight for the University's guests and members of the Board of Trustees and Faculty and their families.

Arrangements for the inauguration are in the hands of a committee appointed by Judge Hiscock, consisting of Frank E. Gannett '98, chairman, H. Edward Babcock, Charles H. Blair '97, Dr. Mary M. Crawford '04, George R. Pfann '24, and Jacob F. Schoellkopf, Jr. '04. This committee of Trustees added to its membership the Deans of all Colleges; Flora Rose, director of the College of Home Economics; Foster M. Coffin '12, Alumni Representative; and Patterson, Secretary of the University. Chairman of subcommittees are Dean Cornelius Betten, PhD '06, inauguration; Dean William A. Hagan, MS '17, entertainment and housing; Dean Robert M. Ogden '00, luncheon; Trustee Babcock, reception; and Dean Floyd K. Richtmyer '04, invitations.

MASTER OF THE CHIMES for the new academic year is Leon I. Blostein '38, of Ithaca. He has attained the job through three years of competition.

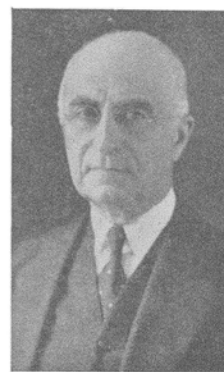

INAUGURATION HERE OCTOBER 8

Bailey Hall, photographed by Norman Herr '37 across the Lua A. Minns Garden on Tower Road.

FOUR PROFESSORS DIE From Four Colleges

Four Colleges of the University have suffered loss during the summer in the death of important members of their Faculties. Professor Albert C. Phelps, Architecture, died July 4 after an illness of nearly a year; Professor Peter W. Claassen, PhD '18, Entomology, August 16, from a heart attack; to be followed August 23 by Professor Hugh D. Reed '99, Zoology; and August 31 by Dean Herman Diederichs '97 of the College of Engineering.

Professor Phelps had been a member of the Faculty since 1899, when he came from practice in Joliet, Ill. to become instructor in Architecture. He was an authority on the history of architecture and was in charge of the

courses in that subject, becoming assistant professor in 1903 and professor in 1913. Since 1920 he had held the World War Memorial Professorship in Architecture. For a time he was lecturer at the Metropolitan Museum of Art, New York City; and during 1923-24 he was director of architectural tours for the Institute of International Education, Carnegie Foundation, and for the next six years, through 1931, he directed architectural tours for the Bureau of University Travel, Inc.

Born in Lockport, Ill., April 8, 1873, he received the BS at University of Illinois in '94 and the MArch in '03. He studied also at the Bavarian Technical School in Munich and frequently travelled and studied abroad. He was a Fellow of the American Institute of Architecture and a member of Tau Beta Pi and Phi Kappa Phi. Mrs. Phelps lives in Ithaca at 117 Eddy Street, and their son, George L. Phelps '26, at 426 West Surf Avenue, Chicago, Ill.

Professor Claassen was an authority on biology, especially in his chosen field of the plecoptera, or stone flies, a group of aquatic insects, and a popular member of the Faculty of Agriculture. Just before his last illness he had completed for publication A Catalogue of the Plecoptera of the World, and he had previously published A Laboratory Text in General Biology, Pecoptera Nymphs of North

America, and numerous articles in scientific journals. He became an assistant in Entomology and entered the Graduate School in 1915, having received the AB in '13 and the AM in '15 at University of Kansas. Returning to Kansas for a year as assistant professor of entomology, he came back to the Graduate School and as instructor in Natural History in 1917; received the PhD in '18; and was appointed assistant professor of Biology in 1919 and professor in 1925, after he had spent a year's leave as professor of biology in Tsing Hua College, Peking, China. He was born in Hillsboro, Kan., March 17, 1886, and for two years was a public school principal there. For two years before coming East he was assistant State entomologist of Kansas.

Professor Claassen was a member of the Entomological Society of America, the American Association of Economic Entomologists, and of Phi Beta Kappa, Sigma Xi, and Gamma Alpha. Mrs. Claassen and their two children, Sarah and Richard, live at 915 Highland Road, Ithaca.

Professor Reed, who died suddenly in Ithaca August 23, had been a member of the Faculty of Arts and Sciences since 1900, successively as assistant, instructor, assistant professor, and professor of Zoology. Since the retirement of Dr. Burt G. Wilder in 1910, Professor Reed had been his successor as chief of Zoology in the Arts College. Born in Hartsville March 4, 1875, he entered the College of Agriculture in 1895, received the BS in '99, won the Goldwin Smith Fellowship in Vertebrate Zoology in 1899-00, and received the PhD in '03. Among his contributions to the scientific journals were papers on sound transmitting organs in Amphibia, the poison organs and skin of fishes, the dermal rays of fishes, the fauna of the Cayuga Lake basin, melanosis in fishes, biological significance of the family, etc.

He was a Fellow of the American Association for the Advancement of Science and member of the American Association of Anatomists, American Society of Zoologists, Sigma Xi, Phi

Kappa Phi, Gamma Alpha, and Lambda Chi Alpha. Mrs. Reed (Madeline K. Church) '16 is the proprietor of William A. Church Co., formerly Andrus and Church, one of Ithaca's first print shops. With their children, William and Sarah, she lives at 214 Wait Avenue.

The whole community was shocked to learn, late August 31, that Herman Diederichs had died that afternoon at Clifton Springs Sanitarium, from a rare form of anemia which had puzzled his physicians for nearly a year.

Since the day, forty-four years ago, when the German immigrant boy walked fifteen miles from his home in Dolgeville to win a State scholarship with an examination he took at Herkimer, he had been continuously associated with Cornell—as student and athlete; as brilliant investigator and authority on experimental engineering; as a teacher and administrator in the College of Engineering; and as the long-time mentor of the University's athletics. It was appropriate that Professor Diederichs should be appointed in 1927 to the first John Edson Sweet Professorship of Engineering, established in memory of the first Director of Sibley College to be awarded "for distinguished service." Six years ago he became Director of the School of Mechanical Engineering, and last June took office as Dean of the College.

Always sympathetic with students' problems despite his gruff manner, he guided athletics as president of the Athletic Association from 1913 to 1925; was again elected president in 1932; served as chairman of the Trustees' committee which reorganized the athletic set-up; and had since been chairman of the Athletic Policy Board. Besides his professional activities and authorship of three standard engineering textbooks and many articles, and besides his consuming interest in athletics, he was an omnivorous and discriminating reader of fiction,

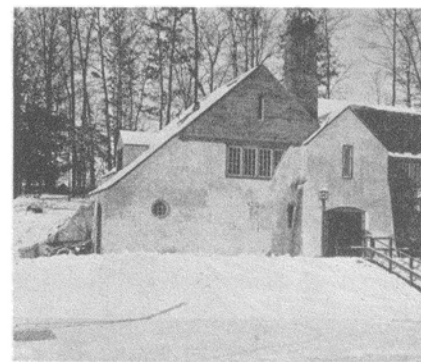

HERMAN DIEDERICHS '97

history, and biography; and since as a student he waited table and rustled customers for Mrs. Samuel Patch's boarding house on Aurora Street he had, unmarried, lived with the Patches, latterly in a new home which he built on Cayuga Heights Road, and there raised dahlias and other flowers that were the delight and envy of his friends.

He was a member of Sigma Xi (elected as an undergraduate), of many professional engineering societies, of Quill and Dagger, Tau Beta Pi, Kappa Phi, and Phi Sigma Kappa; was a vice-president of the National Collegiate Athletic Association; and among many other honors received in 1930, jointly with William D. Pomeroy '96, the Melville Medal of the American Society of Mechanical Engineers for "a thesis of exceptional merit."

CLUB HAS NEW MANAGEMENT

THE JOHNNY PARSON CLUB, "on the coast of Beebe Lake," with the opening of the University will be operated under new management, it was announced last week. Willard Straight Hall board of managers takes over the dining rooms of the building, formerly operated by the Athletic Association. A soda fountain is being installed, the rooms are redecorated, and the hours of service will be extended from 8 a.m. to 11 p.m., with special attention to late breakfasts, luncheonettes, and short orders. Milton R. Shaw '32, manager of Willard Straight dining rooms, explains that the new arrangement is "merely an extension of the Willard Straight service—to make Cornell a more human place."

Designed by Roger D. McPherson '21 and constructed by Jes J. Dall, Jr. '16 for the Athletic Association, primarily as a winter sports clubhouse, the building was named for Professor John T. Parson '99, Civil Engineering, to honor his influence in developing winter sports. It was first opened for Christmas, 1922, and just before that event was thus described by Romeyn Berry '04 in his ALUMNI NEWS column, "Sport Stuff":

"The Johnny Parson Club has a warming room where 246 persons can sit down and change their shoes at one time. It has a check room with a capacity of 967 overcoats and 1047 pairs of shoes. It has a hockey room, a little store, toilets,

349 75

and an open fire. There is a large, fully equipped kitchen and first-class restaurant that seats 96. There isn't a phonograph in the place and all the Powers of Darkness can't put one there. There is going to be one place in the world where one can sit down to good conversation and a four-inch sirloin steak without being assaulted and evicted by the 'Idaho Blues'."

Mrs. C. W. Southby managed the Johnny Parson Club restaurant for the Athletic Association since 1925, when she came there from the then-closed Coffee Shop in Barnes Hall.

GUIDE TO COLUMBIA

A valuable addition to *Columbiana* has appeared this summer in *A Guide to Columbia University*, by John W. Robson of the Columbia University Press, its publishers. The book makes about 225 pages, appropriately illustrated and bound in blue cloth, and sells at \$1.25. It was printed at the Cayuga Press in Ithaca, the printing plant of the Cornell Alumni News Publishing Corporation.

The volume takes the reader from the beginnings of King's College in 1754 through the various homes it has had in New York, and up to Morningside Heights; and describes each of the present parts of this great university. It will be interesting to many others than Columbia alumni.

PANAMANIAN HAIL ADAMS

Five Cornellians of Panama City, Republic of Panama, recently entertained Professor Bristow Adams, Agriculture Publications, who visited their city during his trip by tramp steamer around the world from west to east, south of the equator. He writes that he was tendered an informal dinner by Juan J. Amado, Jr. '36, Rogelio E. DeYcaza '34, Juan B. McKay '35, E. Antonio Perez, '36 Grad, and Horacio D. Sosa '19, and made a most interesting tour under their guidance of Panama City and its surroundings, including old Panama, now only a group of picturesque ruins since it was sacked and burned by the pirate Morgan more than 300 years ago. Professor Adams also visited De Ycaza's dairy farm, one of the best in the Republic, whose herd has been developed largely through the use of a Holstein bull purchased from the College of Agriculture.

After nearly two weeks in the Canal Zone and Panama, Professor Adams left Cristobal September 2 on the Dutch freighter, "Baarn," for eleven ports in Colombia, Ecuador, Peru, and Chile on the west coast of South America. Then he will cross the Andes and Argentina to Buenos Aires; travel up the east coast to Rio, and across the South Atlantic to Cape Town, South Africa; thence to Auckland, New Zealand, which he will leave in January to reach Ithaca for the beginning of the second term.

BOOKS

By Cornellians

A MODEL FOR MAN

Termite City. By Alfred E. Emerson '18, Professor of Zoology, University of Chicago, and Eleanor Fish. With a Foreword by William Beebe and end papers and thirty-seven illustrations by Keith Ward. Chicago. Rand McNally & Company. 1937. 127 pages. \$1.50.

From the day, some eighteen years ago, when Dr. Emerson took his first walk in a tropical jungle and William Beebe directed his attention to a large, earthen nest in a tree and suggested that termites offered a splendid field for research, Emerson has become, in Beebe's words, "one of the foremost authorities in the world on these amazing social insects."

Telling without gush or gusto the fascinating story of what goes on in one square mile of South American jungle, Dr. Emerson and Miss Fish describe in *Termite City* an amazing insect society that for a hundred million years has been a model that man, with all his superior attainments, can never hope to equal.

"Imagine a society that needs no hospitals nor homes for the aged! Likewise, this perfect social system does not have to be patrolled by policemen, nor kept in check by governments, judges, and lawyers, nor guided by teachers and preachers."

Again: "Have you ever stood on the sidewalk near an empty lot where excavations for a new building were being made? Have you not wondered how the man who turned on and off the motors in the large steam shovel knew where to put the teeth of his machine, where to move it next, how deep to dig? Or how the hundred men, working in different places at the same time, knew where to build the foundations of the structure?"

"This is marvel enough to keep one standing and gazing and wondering for many minutes. However, the excavator, the concrete-pourer, the riveter, all work by a plan, by blue prints and measurements which the architect has designed beforehand. The engineering feats of the termites are even more wonderful. They have no plans on paper before they start to build. They have no instruments with which to measure. They cannot see the structure they are building; they merely feel and smell it. Yet, in this tunnel alone, there were at least one hundred insects all working together: carrying, molding, and patting, without knocking one another down or getting in one another's way. The mending was entirely finished, furthermore, in about twelve hours."

The book is a remarkable example of

the best of scientific writing—accurate, informative, and above all, intensely interesting. Keith Ward's drawings not only supplement the text but have a decorative quality that, with the book's fascinating style, make *Termite City* attractive to inquisitive readers of all ages. Although designated a book for young people, Dr. Beebe's statement that "many a boy or girl will have to wait patiently for it while parents read and enjoy every word," has already been borne out in the experience of this reviewer's family.

FOR THE YOUNGSTERS

Things That Go. By Mary Geisler Phillips, Assistant in Home Economics. Chicago. Rand McNally & Company. 1937. 48 pages. \$1.00.

Mrs. Phillips designates her book "Stories for the Smallest Ones," and points out that the four- or five-year-old is primarily interested in the *motion* and *sound* of the familiar machines that he has seen at work. She devotes a brief story each to a child's experience with the automobile, the airplane, the telephone, the vacuum cleaner, the steam shovel, the sewing machine, the typewriter, and the freight train; and includes in each simple rhymes to simulate the rhythm and sounds of the machines.

Unless we are greatly mistaken, these stories and their many colorful drawings by Christine Chisholm will not only fascinate a certain four-year-old when he has them read to him over and over by his parents; but they will also serve to occupy for many happy hours his seven-year-old brother as he reads them himself.

The author is the wife of Professor E. Franklin Phillips, Apiculture, and the mother of E. Franklin Phillips, Jr., '29 Grad, formerly of the ALUMNI NEWS staff, and Howard G. Phillips '35.

AGRICULTURAL LESSON

(R. B. in "State and Tioga," *Ithaca Journal*)

Sally, our six-months-old heifer, has developed alarming butting propensities. It's all in a spirit of fun, to be sure, but that doesn't make you feel any less sick when you've just been butted unexpectedly for a five-yard loss. She doesn't charge, just sneaks up on you from the rear and gets home with a quick toss of the head. It's a serious matter when you consider that Sally, scarcely out of her bovine babyhood, weighs 200 pounds more than the biggest left tackle that ever stamped on an opponent's instep, and is fully twice as powerful.

We now learn that this butting phase is but the counterpart of teething in babies. Sally's horns are bursting through and are a source of constant irritation and annoyance. She is irresistibly impelled to pound them against something solid just as the teething infant must chew sav-

agely on rings, dolls and rattles when the little tuskies are working up into the open.

We now tether Sally where she may have a tree or a stout post on which to strop her budding horns when they itch. That's much better. We can now contemplate the beauty of the buckwheat with less danger of being socked in the pants for a field goal.

Darn it! Somebody ought to write a book about farming that tells you important things like that instead of rambolling on and on about phosphoric acid and legumes, crop rotation and dormant sprays.

PASS BAR EXAMINATION

Seventy percent of the Law School Class of '37 who took the June examinations for admission to the New York State Bar passed both parts, according to Professor William H. Farnham '18, secretary of the Law School; and eighty percent passed half or more. Opportunity is given again in October to take part or all of the examination.

Law School registration for the new year was last Friday and Monday, with classes beginning Tuesday, September 21, ten days ahead of the rest of the University. Enrollment figures were not available at press time Monday.

Professor Charles K. Burdick, who resigned as Dean of the Law School last winter and was away on sabbatic leave last term, has returned and will teach criminal and international law the first term, and constitutional law the second.

Professor Robert S. Stevens is now Dean of the School.

TRAIN TIMES TO CHANGE

With New York City's return to Eastern standard time next Sunday, September 26, the Lehigh Valley Railroad announces changes in the leaving times of its night trains to and from Ithaca and New York.

From New York, the night train will leave Pennsylvania Station daily at 9:40 p.m., one-and-a-half hours earlier than now; arriving at Ithaca at 5:15 a.m., with sleeper remaining open for occupancy until 8, as at present. This train will arrive at Rochester at 7:10 a.m. and at Buffalo at 8:10 a.m. To New York at night, trains will leave Ithaca daily at 11:51 p.m., arriving at 8:10 a.m.

The Black Diamond, both ways, leaves the same times as now: from New York at 11:10 a.m., arriving at Ithaca 6:38 p.m.; and from Ithaca at 1:07 p.m., arriving New York at 8:45 p.m.

Daily except Monday, train No. 17, carrying passengers, will leave Ithaca at 9:15 a.m., arriving at Rochester 12:01 p.m. and Buffalo, 12:30 p.m. From Ithaca to Auburn, daily trains will leave at 7:00 a.m., arriving Auburn 8:35 a.m., to make connection with the New York Central train arriving Syracuse 9:42 a.m.

About ATHLETICS

FOOTBALL SQUAD READY

With a team composed almost wholly of Sophomores, Cornell took a close decision, 13-7, from Penn State in its fourth game of last year.

This Saturday, September 25, a stronger Penn State eleven will provide a severe opening test for a Cornell team with a "fine line" and a "hard-luck backfield." The quotations are from Coach Carl Snively.

In three weeks of practice under unusually favorable weather conditions, Coach Snively and his five assistants have developed a rugged, powerful line, but they have encountered many difficulties in putting together a first-string backfield. Here's the coach's analysis:

"We will have a steadier, more rugged and a better seasoned team than last year. We will be decidedly stronger in our running game and I believe we will show a better defense on the ground. In kicking and passing we will be definitely weaker." He added that the team will have a fine morale and will be superbly conditioned.

Backfield losses include Captain John M. Batten '37, by graduation; Richard A. Baker '39, John W. Sheffer, Jr. '39, by the scholastic route; Thomas J. Farrell '40, by a severe knee injury sustained in a Freshman game; and (temporarily) William H. Moulton '39 of Norwich, Richard H. Morgan '39 of Norristown, Pa., and E. Vincent Eichler '40 of Utica by early-practice injuries.

Batten and Baker supplied last year's kicking and passing, and Farrell had been expected to succeed them this year, but his injured knee failed to respond to treatment.

Thus, Elliott H. Hooper '38 of Long Valley, N. J., will be pulled from his right guard post to punt, and passing will be done by Robert M. Rose '39 of Tonawanda and by Malvern W. Baker '40 of New Cumberland, Pa.

The probable starting backfield will include Rose at fullback (he was at quarterback last year) and Baker at right halfback (the tailback), with Eichler at quarterback (the blocking back) and Robert Boochever '39 of Ithaca at left halfback (the wing back). Boochever played right end until he broke his leg in the Yale game last year. Moulton may recover in time to supplant Eichler, whose hurts were light. Morgan's back injury will keep him out of action some time.

On the line, six of last year's seven veterans are sure to start against Penn State, barring last-minute injuries. There is some doubt about Captain Edward E. Hughes, II '38 of Pittsburgh, Pa. Hughes

twisted a knee early in practice and has given way to Samuel S. Stahl '38 of Peabody, Mass., who played end a year ago. Hughes is on the mend, however.

Jerome H. Holland '39 of Auburn, who frequently carries the ball on end-around plays, will be at left end; William W. McKeever '39 of Spring Lake, N. J., at left tackle; John C. Hemingway '39 of Syracuse at left guard; Hooper at right guard; Alfred F. Van Ranst '39 of Brooklyn at right tackle, and Carl F. Spang '39 of Quincy, Mass., at right end. Van Ranst, incidentally, has been used in some practice sessions at center, where he played as a Freshman.

If any break is made in that line, it will probably be made first at the tackles, where Curtis W. Lafey '40 of Pennsburg, Pa., on the left side, and Philip M. Tutts '39 of Brooklyn, on the right, are giving McKeever and Van Ranst considerable opposition. Tutts was ineligible last year.

The question of reserves will be important in the coming season, particularly in the backfield. Available now are George W. Peck '39 of Penn Yan; Karl J. Nelson '38 of Springfield, Mass.; Robert G. Meagher '38 of Utica; Charles M. Scholz, Jr. '39 of Elmira; Noah E. Dorius '39 of Casper, Wyo.; Robert F. White '39 of Cleveland Heights, Ohio; and Kenneth G. Brown '40 of Millerton. Peck, virtually a regular in 1936, underwent a knee operation last spring. He has apparently recovered.

Reserve ends include Herbert F. Hilmer '40 of Cincinnati, Ohio, Frederick G. Jaicks '40 of Hinsdale, Ill., and William C. Mogk '40 of Brooklyn; tackles, William H. Worcester '40 of Aurora, Ill., and Frederick W. Koch '40 of West New York, N. J.; guards, Alexander S. Roth '39 of Brooklyn, James E. Rutledge '39 of Highland Park, Ill., and Daniel E. Guilfoyle '40 of Englewood, N. J.; and centers, John Upson '39 of Arcade, and Louis Grossman '39 of Brooklyn.

Roth and Rutledge played considerable time at the guard posts a year ago. Roth this year has missed several days of practice because of illness.

In the final practice game last Saturday, the Varsity scored a 27-0 victory over the scrubs, with Baker throwing passes to Boochever and Spang for two touchdowns, Peck scoring another on a 75-yard run behind perfect blocking, and Nelson tallying on a 15-yard reverse off tackle. Two of the three points after touchdown were kicked by Rose, the third by Nelson.

* * *

This Penn State game is the tenth in the series begun in 1893. Each team has won four victories; the 1895 contest was a scoreless tie.

* * *

Spectators at Schoellkopf Field this year will be informed of the time remaining in the game by an electric clock

mounted on the south side of the field house. Developed by Western Union, it will be operated by Atlantic Refining Company, of which William M. Irish '90 is chairman of the board.

For non-spectators, Atlantic will sponsor radio broadcasts of all Cornell games over these stations:

WESG, Elmira; WFBL, Syracuse; WGR, Buffalo; WHEC, Rochester; WIBX, Utica; WBNF, Binghamton; and WOKO, Albany.

FOOTBALL MASCOTS

We are requested by members of the football squad, in connection with the picture below, to make it clear that the team has also another loyal mascot besides George Jessup, who sits with the compets at the extreme lower left of the photograph.

Jack (Fatty) Buell was busy while this picture was taken with his duties as captain of his own team, recruited at the Belle Sherman School in Ithaca, which he attends. He is the younger brother of Louise J. Buell '35, now employed in the Treasurer's Office; of Richard S. Buell '37,

a lawyer with Hodges, Reeves & Pantaleoni, 20 Pine Street, New York City; and Robert F. Buell '39 and Virginia Buell '41.

Both boys, we are assured, are on hand almost daily at Schoellkopf in fair weather and foul, to help along the Varsity team, this year and last; and it has no more loyal partisans.

ODDS AND ENDS

Football Notes: Pennsylvania is the oldest (in number of games played with them), Yale the youngest of Cornell's present football rivals. . . . The 1937 contests will be the forty-fourth with the Red and Blue, the fourth with the Elis. . . . Noah E. Dorius '39 of Casper, Wyo., is the youngest Cornell candidate. The Junior back is eighteen. . . . Heaviest is Curtis W. Lafey '40 of Pennsburg, Pa., at 232 pressed closely by Carleton B. Simon '40 of East Syracuse, at 230. Both are tackles. . . . Tallest is John P. Kolb '39 of Philadelphia, Pa., another tackle, who stands 6 feet 5 inches. . . .

Other Notes: Coach John F. Moakley broke his left arm during the summer.

He has recovered nicely. . . . Professor David B. Hand, PhD '30, Biochemistry, won his second successive Ithaca tennis singles championship early in September. . . . Glenn S. Warner '94 plans to retire to a farm near Ithaca when his football coaching days are over. The Temple mentor is starting his forty-third coaching year this fall. . . . Walter C. O'Connell '12, has opened a boxing and wrestling school for Ithaca youngsters, 8-14. He was in charge of the Beebe Lake swimming pool during the summer. . . . James Lynah '05, Director of Physical Education and Athletics, spent several weeks in Europe. . . . Season ticket books, for students, Faculty, and townspeople, are \$16 this year. They admit to all home games except polo, without extra charge; give priority for all games, in town and out; and holders get a reduction of \$1.10 each on their tickets for the football games at Yale and Princeton.

PROFESSOR WALTER B. CARVER, Mathematics, and Mrs. Carver sailed August 22 for several months in Europe.

THE 1937 FOOTBALL SQUAD, WITH COACHES, MANAGERS, AND COMPETS

Photo by Fenner

Left to right, Top row: Robert Boochever '39, Vincent A. Brennan '40, Edward I. Obler '40, James L. Rankin '39, Daniel E. Guilfoyle '39, Curtis W. Lafey '40, Arthur A. Moak '39, William C. Mogk, Jr. '40, George M. Walker '40, Robert G. Meagher '38, Henry A. Moransky '40, E. Vincent Eichler '40, Robert M. Rose '39, William H. Moulton '39.

Second from top: Manager William W. Conde '38; James H. Rowland, George K. James, assistant coaches; Eugene C. Batchelar, Jr. '39, assistant manager; Carl F. Spang '39, John D. Rooney '39, Frederick G. Jaicks '40, William H. Worcester '40, John R. Furman '39, John P. Kolb '39, John C. Hemingway '39, Alfred F. Van Ranst '39, Robert F. White '39, Anthony De Fino '40, M. Witmer Baker '40, Wright Bronson, Jr. '40, James M. Tatum, assistant coach.

Third row: George Cointe, assistant trainer; Dr. Harry A. Britton, physician; Frank Kavanaugh, trainer; Jerome H. Holland '39, James E. Rutledge '39, Raymond J. Simmons '39, Frederick W. Koch '40, Henry R. Linville, Jr. '39, Kenneth G. Brown '40, John Upson '39, George R. Johnson '39, James N. Trousdell '40, Samuel S. Stahl '38, Herbert F. Hilmer '39, Norman J. French '39, Head Coach Carl G. Snively, Max Reed, Mose Quinn, assistant coaches.

Next to bottom: Stephen P. Vinciguerra '40, A. Sidney Roth '39, William W. McKeever '39, Noah E. Dorius '39, Elliott H. Hooper '38, Captain Edward E. Hughes, II '38, Karl J. Nelson '38, Alexander Burke '40, Louis Grossman '39, Philip M. Turhs '39, Charles M. Scholz, Jr. '39, George W. Peck '39.

Bottom, seated: George Jessup; Compets Wallace, Alliaume, Dugan, Wardwell, Gilchrist, Hoffman, Briggs, and Martindale.

LONG ISLAND WOMEN ELECT

A constitution and by-laws were adopted at the second meeting June 9 of the newly organized Cornell Women's Club of Long Island, at the home of Mrs. Charles M. Reed (May Eisemann) '26.

Mrs. Eugene L. Lehr (Frances M. Howard) '27 is president. Chosen to serve on the executive board with her were Dorothy L. Powell '23, vice-president; Mrs. Reed, recording secretary; Mrs. Howard W. Robins (Elizabeth B. Emmons) '26, corresponding secretary; Elsie Cruikshank '34, treasurer; Mrs. Reginald Pratt (Winifred L. Sealy) '09 and Mrs. Laura Allison (Laura E. Speyer) '16, directors; Mary V. Duffy '30, chairman of membership committee; Mrs. John Jacobsen (Viola A. Stephany) '29, chairman of social committee.

WASHINGTON CLUB OFFICERS

Newly-elected officers of the Cornell Club of Washington for the current year are Dr. Robert S. Lamb '97, president; William S. Graham '16, vice-president; Earl S. deWitt '19, Woodward Building, Washington, D. C., secretary, succeeding Edward D. Hill '24; and Robert A.

donors.

Trustees of the new Fund are William P. Gruner '07, chairman; Alvin F. Griesedieck '16, treasurer; Shurley R. Irish '18, secretary; and McClain, Theodore A. Eggman '27, Henry J. Gerling, '99 Grad, Spencer T. Olin '21, and Perry Post Taylor '89.

Some twenty members of the Cornell Club of St. Louis attended a picnic July 10 at the home of Alvin F. Griesedieck '16 on the Meramec River. Harry R. McClain '02, president of the Club, presided at the business meeting. The by-laws of the scholarship fund of the Club were approved; and then the day was given over to games.

Concerning THE FACULTY

PROFESSOR MORRIS G. BISHOP '13, Romance Languages, has been awarded by the French Government the order, *Officier d'Academie*, "for services rendered to French influence." His most recent book is *Pascal: The Life of Genius*, published last year.

PROFESSOR FLOYD D. HARPER, PhD '32, Agricultural Economics, has returned from his stay in Porto Rico.

PROFESSOR PAUL T. HOMAN, Economics, has been on sabbatic leave in China with Mrs. Homan since February. While Japanese artillery and airplanes battered ancient Peiping, they hid in the north city. During a lull in the fighting an attache of the American embassy took an official car and went to their rescue. They were pictured in *Life*, making their escape.

PROFESSOR GILBERT D. HARRIS '86, Geology, Emeritus, paid a recent visit

these birds.

PROFESSOR PAUL H. UNDERWOOD '07, Surveying, participated in a two-weeks' conference of surveying teachers at Camp Marston, Ranier, Minn., in July.

PROFESSOR GEORGE L. BURR '81, Medieval History, Emeritus, who has spent the past year working in the library of the University of Pennsylvania completing a history of witchcraft, will be in Ithaca permanently this fall and live at the Telluride House, 217 West Avenue.

PROFESSOR FRANK B. HOWE, Agronomy, has been elected president of the Cayuga Heights school district for next year.

SIGMA XI ADDRESSES

Sigma Xi Quarterly for June, 1937, prints the addresses delivered at the Williams memorial celebration in Ithaca, April 23, by three of the founders, Dr. Frank Van Vleck, John Knickerbacker '86, and Professor Charles B. Wing '86; "Sigma Xi and the Unity of Science," the address of the retiring president, Professor Benjamin F. Kingsbury, PhD '95, Histology; and "Research As a Function of Universities," by Dr. Armin O. Leuschner of the University of California. The volume contains a photograph of Henry Shaler Williams and excerpts from his first presidential address, before Alpha Chapter, June 15, 1887. It also has a picture of the three founders standing beside the Sigma Xi memorial tablet in front of Sibley College.

STONEPOSTS NEWS

(*R. B. in "State and Tioga," Ithaca Journal*)

In the two weeks that we've been away the news has piled up to an alarming degree. It's almost gotten ahead of us. Perhaps you'll let us deliver you a load.

The red cow has, as we say, freshened. The result is little August Poffino. a

tick that funny way, you'll find it is the changing beauty of his surroundings that has a lot to do with keeping him in the business. We think we'll put in a little buckwheat every year (a dab here and there) just to make the August moon something to look forward to.

We started in the turkey business last June with ten little, newly-hatched turkeys. We still have ten turkeys and they are the same ones. This, we understand from disillusioned turkey raisers, is not bad—not bad at all. They are fine, upstanding turkeys but we are modifying our ambition to have them weigh twenty pounds by Christmas. If anyone of 'em weighs eighteen pounds by Christ-

mas he'll have to sprint these next four months.

The pigs on the other hand (Rip and Robbie) are well up to a Christmas schedule, if not ahead of it. There's an investment where you can just sit back and watch your capital grow, turning skim milk, corn shucks, and excess cucumbers that you can't give away into spare ribs, smoked hams, and sausages!

OBSERVATIONS ON WAR

(R.B. in "State and Tioga," *Ithaca Journal*)

It's an unpleasant thing to sit in a hot, damp, soggy office and read in the papers about nothing much except wars in Spain and China, and about more wars that are predicted for the week after next in other countries.

It's even more disconcerting then to go back to a hot, damp, soggy bedroom and read in Mr. John Fiske [Dutch and Quaker Colonies in America] about the Puritan fathers butchering the Pequots in blocks of ten and the rather complete job done by the French and Indians at Schenectady. There does not seem to have been any explanation for either incident beyond the basic, masculine instinct for fighting and killing; so understandable in cold, bracing weather, so inexplicable in the dog days.

The whole responsibility seems to lie with ladies of strong pacifist inclinations. There does not seem to be much hope of better things as long as ladies with strong, pacifist inclinations keep on having little boys who haven't any pacifist inclinations at all.

SOUTH CALIFORNIA ELECTS

Cornell Club of Southern California met for its annual banquet July 9 at the Mona Lisa Restaurant. Robert E. Alexander '30 was elected president, succeeding Frederick O. Schreiner '22. John B. Shaw '21 was elected secretary-treasurer in place of Alexander.

Morris R. Ebersole '00 led the singing, accompanied by B. Eugene Taylor '20 at the piano and Werner F. von Binzer '18, guitar. "Major Bollis," alias Gardiner Bullis '08, conducted an amateur hour, during which James A. Mullane '35 described Cornell's course in Hotel Administration; Burleigh A. Lum '13 remembered his own days at Poughkeepsie and compared the Connybear to the Courtney stroke. Sterling C. Lines '98 described the formation of the Savage Club; and Alexander, former Varsity end, told football anecdotes. The evening closed with two reels of motion pictures, sent by the Alumni Office.

James E. Mahon '12 gave the Club the use of his Topanga Canyon July 10. Horseshoe pitching and other sports were followed by a steak dinner.

ITHACA BUS STATION on Green Street is having an addition built, to increase the size of the waiting room and care for the increasing bus traffic.

ADOLESCENCE

(R. B. in "State and Tioga," *Ithaca Journal*)

Adolescence is a trying period to everyone except adolescents. Sometimes, we understand, even they don't like it very much.

We have been suffering from adolescence in our chicken department. For three successive mornings now we have been awakened at the first blush of dawn by disconcerting noises issuing from the barnyard. They sounded pretty dreadful and we rushed out to save loss of valuable chicken life clad largely in slippers, a pair of pants, and a shot gun. In no case did we discover any reasonable cause for the disturbance. Everything was peaceful when we got there; no blood and no corpses lying about. The mystery upset us a good deal.

The thing sounded as if a hen, about to publicize the production of an early morning egg, had been seized at the very start of her cackle by some varmint: ferret, skunk, or fox. The incipient cackle turned almost immediately into something between a scream and a squawk. The effect was bloodcurdling and there were moments, as we dashed to the barn, when we doubted if one shot gun constituted sufficient armament under all the circumstances.

This morning we did not wait to be summoned, but sneaked out at the crack of dawn (armed to the teeth, of course) and kept watch through a knot hole. The solution made us feel a little silly.

Some of our young roosters have apparently reached the age of puberty. Their voices are changing. They are learning to crow and their unsuccessful efforts produced the strange noises we told you about.

One lives and learns; even in the chicken business!

WIND EROSION

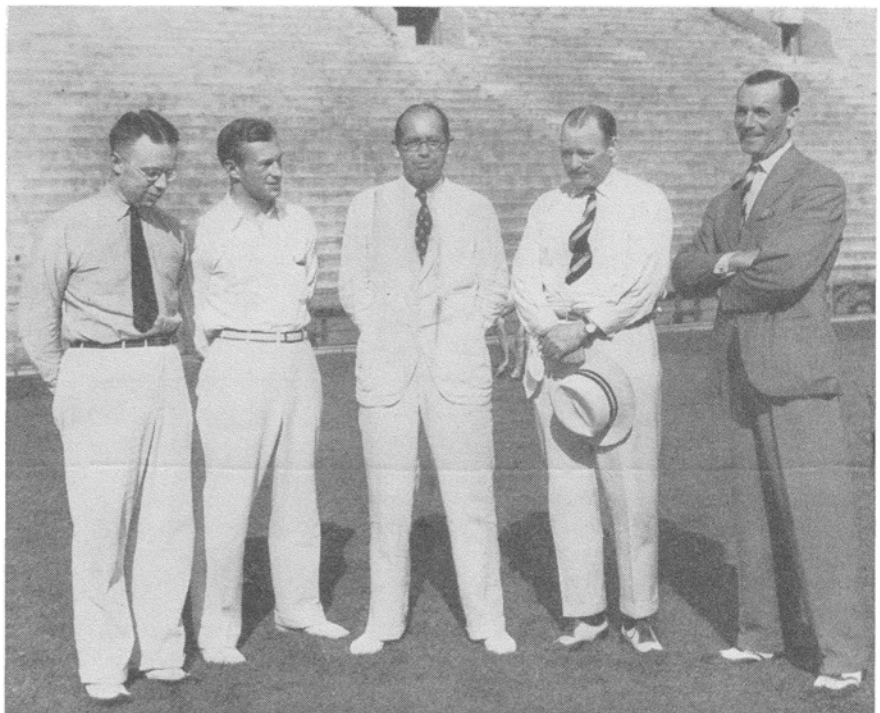

(R.B. in "State and Tioga," *Ithaca Journal*)

We can't qualify as an expert on soil conservation, but here are two pertinent facts about wind erosion that we can testify to from our personal knowledge.

From the quarter-mile running track at Schoellkopf Field three heaping cartloads of cinders blow away every year and have to be replaced. That means the whole track blows away every fifteen years.

Even those cut-out portions of the baseball diamond at Hoy Field—little inconsiderable ribbons of exposed earth firmly packed—have to have four to five truckloads of earth added in the fall to make up for what's blown away in a dry summer. If they don't get them, a ground ball begins to take peculiar hops and the third baseman's fielding average falls off to a point where the reporters hint he's been breaking training.

DIRECTOR S. C. HOLLISTER, Civil Engineering, and Professor Frank B. Howe, Agronomy, have been appointed by the State Planning Council members of an advisory committee on water resources.

PRINCETON AND CORNELL ATHLETICS OFFICIALS GREET THOSE OF OXFORD AND CAMBRIDGE

Henry S. Godshall, Jr. '36 (second from left), Assistant Director of Athletics, photographed at the Oxford-Cambridge, Cornell-Princeton track meet at Princeton in July, with Asa S. Bushnell (left) and Burnham M. Dell (next right), respectively graduate manager and director of athletics at Princeton; and Evan A. Hunter, honorary secretary of the Achilles Club, Oxford, and R. S. Woods of the Cambridge Athletic Association.

Printed by The Cayuga Press
ITHACA, NEW YORK

BEGINNING AT FORTY

With this issue, the ALUMNI NEWS begins its fortieth volume. From the popularity attained by a recent book of that name, it appears that many Americans agree that "Life Begins at Forty."

Certainly for the NEWS, as we write "Vol. XL" for the first page of this issue, the coming year and those that follow seem to promise a new era of the paper's usefulness to its readers and to Cornell. Never before, as in the past year, have so many readers written and said that they enjoy the paper; and that, after all, is the acid test. Concurrently and we believe as a result, the number of our subscribers has steadily increased, showing a larger net gain last year than for any similar period of which we have record.

But this is not to say that further improvements in your paper are impossible; nor that we shall not continue to improve it, with your help, just as quickly and as much as we are able. Two more changes, effective with this issue, we hope will increase the paper's usefulness and interest to all Cornellians.

One is the addition of William J. Waters '27, who rejoins the staff as a contributing editor after a lapse of five years. Associated Press correspondent for Ithaca and news editor of the Ithaca Journal, Waters will write primarily the department, "Athletics," for the ALUMNI NEWS. He has been a newspaper man all his life, starting as a student in high school with William E. Seely '17 on the Poughkeepsie Eagle-News and having been a member of the Journal staff since he was its Campus correspondent as a Senior. He held a State scholarship and is a former president of Sigma Delta Chi, professional journalism fraternity. He was an associate editor of the ALUMNI NEWS from 1927 to 1933.

Along with the more complete coverage of sports which the services of Waters will give our readers, we have reorganized our publication schedule with the cooperation of our printers, the

Cayuga Press, so that beginning this week the NEWS will be mailed from Ithaca a day earlier, on Wednesdays. From now on, it should reach at least those of our subscribers who are within a three-hundred-mile radius of Ithaca not later than Friday the week of publication. Thus we hope will be obviated for most of you the necessity of reading about this week's football game and other Saturday athletic events after the next week's games have been played, as was too often necessary with our previous Thursday mailing schedule. If any reader within a reasonable mailing area does not now receive his NEWS habitually before Saturday of publication, report of the day and time it usually reaches him will be used by us at once with the Postoffice Department to hasten delivery.

With continued support in additional subscribers, we hope before long to be able to make other important improvements in your paper: more pictures; possibly more pages; and perhaps an editorial innovation that we believe will greatly enhance the paper's interest and value to all alumni.

It is of interest now, however, as we begin this fortieth year of the weekly publication of the ALUMNI NEWS, to reprint from its first issue of eight folio pages the following statement of its objects, which remain today as they were then:

First, to reflect faithfully and especially for alumni the present life at the University—both in Ithaca and New York; among both Faculty and students. . . .

Secondly, to keep the alumni accurately informed concerning the attitude of the University body, students and Faculty, toward the various questions of University policy. Athletics will of course receive its due share of attention, and questions of general University economy will not be neglected.

Thirdly—and this is perhaps the most important of all—to keep the alumni informed as fully and as accurately as possible about the whereabouts and doings of Cornell men and women; and thus not only to foster the interest in classmates and Alma Mater, but also to increase the enthusiasm and loyalty of every Cornellian for the college on the Hill.

TO PUBLISH DONORS

The Cornellian Council will publish in its Bulletin late this month the 1937 Alumni Fund honor roll, comprising nearly 7,000 names of alumni, according to Archie M. Palmer '18, executive secretary. Besides the 6,423 alumni and others who gave \$140,629.01 to the Alumni Fund during the fiscal year which ended June 30, the honor roll will include names of those whose payments of 1936-37 subscriptions have come in since July 1 and before the Bulletin goes to press.

Robert P. Butler '05, president of the Council, has called a meeting of the executive committee in Ithaca the evening of October 8, following President Day's inauguration, to which the members have been invited by the University.

NOW, IN MY TIME!

By Romeyn Berry

Kenneth Roberts '08 was in New York last Thursday inscribing copies of his books for cash customers. It was the day of the primary elections and naturally the Cornell Club was deserted because the bar had to be closed by operation of law. So we strolled over to Doubleday Doran's Fifth Avenue store to watch a successful author in action.

The years and an expensive tailor have dealt kindly with Mr. Roberts. The original hair is there, and only a little more than the original waist-line. Those were unquestionably muscles that rippled under his form-fitting coat as for the 50th time that afternoon he wrote "With Regards—Kenneth Roberts" in a two-dollar-and-seventy-five-cent copy of Northwest Passage. Scores of middle-aged ladies twittered about him. For each, as he handed out a book now made priceless to the owner by his personal signature, he had a graceful, witty remark uttered with the salty twang of Arundel.

The scene reminded us of a comparable occasion when Mr. Roberts had sat in Zinck's signing checks for all the eager deputy sheriffs who twittered around him through a long afternoon. That was thirty years ago, on a day when an unexpectedly large Widow dividend had made, for the first time in months, Mr. Roberts's checks valuable to anybody but a collector of original manuscripts.

As the afternoon shadows lengthened and the line of ladies shortened, we thought the time had come when we might attract Mr. Roberts's attention without reducing his royalties. So we stepped up close behind him where he could hear plainly, and hissed to one of his assistants: "Do you suppose Mr. Roberts would be kind enough to inscribe our copy of his Drums Along the Mohawk?"

Evidently we said what it takes to attract the attention of a popular author! Mr. Roberts could not have leaped higher if we had stabbed an inch of hot needle into the seat of his fashionably cut trousers; and he instantly dropped the pedantic speech of the literary favorite to resume the more familiar diction of the truckman.

Leaving the last two purchasers of Northwest Passage flat on their low heels, we stepped out to see just how meticulously the excise laws are enforced in New York on the evening of a primary election.

NEW SECRETARY of the Ithaca YMCA is William E. Abbott '16, for nine years at Nyack and previously at Bridgeport, Conn. and Schenectady.

ON THE CAMPUS AND DOWN THE HILL

RETURNING STUDENTS and others who drive to Ithaca this fall will find West State Street newly and smoothly paved with brick and the car tracks removed for most of its length, and Stewart Avenue curve around the Knoll now a new and less tortuous macadam highway.

NEW ROAD, which we had hoped would always retain that delightful designation, is now completely relocated where it comes up the Hill to Central Avenue, eliminating the temporary bump that was there and aligning it with its continuation across Sage Green. At the Central Avenue intersection, where by actual count 10,000 cars passed from 7 a.m. to 10:30 p.m. one January day of a basketball game in the Drill Hall, a new traffic light has been installed. After the new fill has settled over the winter, Mr. Weatherlow tells us it will be paved and curbing, sidewalk, and boulevard lights installed by the Department of Buildings and Grounds. The whole road, from Stewart Avenue up the Hill near the men's dormitories, across the Campus, and around Hoy Field to the East Ithaca heating plant, has been dubbed by formal resolution of the Board of Trustees "Campus Road."

ITS USUAL PLETHORA of exhibits at the State Fair at Syracuse September 5-11 over, the College of Agriculture last week turned its attention to a full program of a variety of gatherings. Monday was corn and soybean field day; Tuesday, Wednesday, and Thursday, county agricultural agents came in for a "school" in Animal Husbandry; the annual egg grading and marketing school of the Poultry Department, Tuesday through Friday, brought adult "students" from several States; and the summer meeting of the New York Press Association, held in Willard Straight Hall Friday and Saturday, brought to Ithaca about 100 editors and managers of rural newspapers and their wives. Among the speakers to the newspaper folk were Coach Carl G. Snavely, Professor Walter King Stone, Architecture; Trustee Edward R. Eastman, editor of American Agriculturist; and Millard V. Atwood '10, associate editor of The Gannett Newspapers.

A FLOOD caused by the same meteorological conditions that brought the 1935 cloudburst inundated lower Ithaca, washed out the Tompkins County fair, and did considerable damage to Lake cottages early August 27. Cayuga Lake rose but little, however, and by the next day scattered debris and acres of mud were the only signs remaining. The twenty-four hours' rainfall was 5.44 inches, as compared with the record fall of 7.9 inches in July, 1935; but three

THE CHIMES are still silent, and students' cars are not yet so numerous as to make older drivers fearful; but young men are to be seen in groups on the Campus and in town—football players, Law students, the staffs of undergraduate publications, fraternity rushing chairmen, and the ubiquitous Student Agency men. Faculty families are mostly back in town from summer vacations, and their children off to school. The University opens next Thursday.

weeks later Hugh E. Weatherlow '06, Superintendent of Buildings and Grounds, said that the University's lighting plant in Fall Creek gorge needed more water for efficient operation. Principal damage of the flood to the University was to excavations being made, and in showing the inadequacy of many drains about the Campus, Weatherlow said.

VISITING YACHTSMEN, here for the twelfth district championship races of the International Star Class as guests of the Ithaca Yacht Club, started their first race on high water the morning of the flood, but the brisk south wind died before they were half around the course. They finished the regatta Friday and Saturday, however, with good winds; Professor Alexander D. Seymour, Architecture, sailing "Scylla," taking third in the ratings.

DELEGATES from thirteen States and Canada attended the twenty-sixth annual conference of the Governmental Research Association, in Willard Straight Hall August 30-September 2. Their general subject was the work of municipal and State research bureaus with respect to government.

DISTINGUISHED VISITOR on the Campus this summer has been Professor Sadao Yasuda, of Taihoku University in Formosa. After three months touring the agricultural experiment stations of America, he came from California in June, electing to spend the time he had planned for the postponed International Genetics Conference in Russia studying the work here in Plant Breeding, Plant Physiology, and Cytology.

PRINCIPAL CONTESTS at the polls in Ithaca last week were between Mayor Joseph B. Myers and Louis K. Thaler '25 for mayor; and Stanley C. Shaw, the incumbent, and Bert T. Baker '97 for Member of Assembly, both for the Republican nominations. After a brisk campaign waged entirely in the press, and with only 2,861 ballots cast, Myers was nominated to succeed himself by a plurality of 689; and Shaw carried every election district but one in Groton.

ALUMNI HQUSE at 3 East Avenue has had added to it this summer by the Buildings and Grounds Department a second-floor extension of its brick, steel, and concrete vault. The new addition, now nearly completed, will be entered from the second floor of the building and will house a new visible filing system especially designed for the Cornellian Council's financial records.

KAPPA KAPPA GAMMA initiated its new chapter house at 508 Stewart Avenue September 17 and 18 when it entertained the sorority's biennial convention of the Alpha Province. About a hundred delegates came from chapters at St. Lawrence, Boston, Syracuse, Toronto, McGill, Middlebury, and Cornell. Mrs. Mary G. Phillips, of the Home Economics staff, Province president, presided; and they were welcomed by Dean R. Louise Fitch, toured the Campus, dined at Willard Straight, and picnicked at Taughannock.

COLORED MOVIES of a chick developing inside the egg, made possible by the researches of Professor Alexis L. Romanoff '25, Poultry, late of the Russian White Army, and photographed by Elmer S. Phillips '32, Extension, have attracted the interest not only of alumni who saw them as part of the Academic Panorama during reunion week end and of Summer Session students for whom they were run twice. Time, newsmagazine, will shortly print a series of the "stills" in color, and at the International Baby Chick Association convention in Baltimore July 19-22 they were run seven or eight times to accommodate the hundreds of persons who crowded in to see them.

JAMES REARDON died of old age the middle of August at his home in Ithaca, and was followed September 7 by his widow, Mrs. Mary Bryan Reardon. "Jimmie" Reardon was one of the first of the "Campus cops". When he finished his University work at the age of seventy-seven, April 30, 1932, after thirteen years, first over most of the Campus and latterly at Willard Straight, the Chimes were rung especially in his honor. He was usually known as "Genial Jim."

RAY S. ASHBERY '25 last Saturday married Jean Bradley '37, in Sage Chapel. Most alumni know Ray as Alumni Field Secretary, handling many of the University's relations with Cornell Clubs and responsible mainly for Cornell Day; but many do not know that he is also a member of the Tompkins County Bar Association and practices law in Trumansburg, where they will live. Mrs. Ashbery the last three years has often appeared on the Willard Straight Theatre stage, as a member of the Dramatic Club.

NECROLOGY

'73—JAMES D. CARTER, December 25, 1936, in Aberdeen, Wash., where he had been in the life insurance business for many years. He entered the Optional Course in '69 and was here one term.

'80—GEORGE WILEY FREEMAN, October 29, 1936, at his home in Toms River, N. J. He entered Civil Engineering in 1876, remained one year, and for most of his life had been with the Engineers Office of the War Department. Early service as a junior engineer on railroad surveys and of Indian reservations in the West was interrupted when he recruited Company M of the Second Volunteer Engineers for the Spanish-American War and served as its Captain in Hawaii. During the World War he was a Major of Engineers, successively at Fort Leavenworth, Kans. and Camp Cody, N. Mex., and then became district engineer at St. Paul, Minn. and Chatanooga, Tenn. He designed and built the great Mississippi River dam below Minneapolis for the War Department.

'86 BS—FREDD HALL DUNHAM, December 20, 1936, in Batavia, where he had practiced law since 1887. From 1923 until his retirement in 1930 he was United States Commissioner, and had been police justice and justice of the peace. He entered the course in Science and Letters in 1882, from Attica.

'91 MME—CLARENCE LINUS CORY, August 2, 1937, in Agnew, Cal. He had been professor of electrical engineering at the University of California since 1892 and dean of the College of Mechanics from 1901 until his retirement in 1930. He had also been in practice as a consulting electrical and mechanical engineer in San Francisco since 1899. During 1917 and 1918 he was assistant director of the United States explosive plants, in charge of electric power supply. Brother, Harry T. Cory '93.

'92 Grad—VERNON LYMAN KELLOGG, August 8, 1937, at Hartford, Conn. Permanent secretary of the National Research Council in Washington from 1919 to 1931 and emeritus since that time, he was previously professor of entomology and lecturer in bionomics at Stanford University from 1894 to 1920 and assistant and associate professor in entomology at the University of Kansas from 1890 to 1894. He was director in Brussels of the American Commission for Relief in Belgium during 1915-6 and assistant to the United States Food Administrator from 1917 to 1919. He was the author of many books, among them *Herbert Hoover, the Man and his Work*, *Mind and Heredity*, and *Darwinism Today*.

'01 CE—HERBERT SEDGWICK WILGUS, July 6, 1937, in Delaware City, Del. He

was chief grade separation engineer of the New York State Public Service Commission at the time of his death, when he was on tour of active duty with the United States Army Reserve. Before the World War, he was chief engineer of the Pittsburgh, Shawmut, and Northern Railway, which position he resigned to join the army. During the latter part of 1918 he was major in the Corps of Engineers, attached to the 138th Engineers at Fort Harrison, Ind. Son, Herbert S. Wilgus, Jr. '26. President of the Association of Civil Engineers; Sigma Xi.

'11—EDWARD ALBION STIMPSON, June 10, 1937, at Long Beach. He was for three years a student in Mechanical Engineering.

'12 DVM—RUDOLPH RAY BOLTON, September 5, 1937, in Ithaca. While at Cornell he was a student assistant in the Department of Pathology and Bacteriology. In 1913 he became assistant professor of veterinary medicine in the Veterinary College at Ames, Iowa, in which position he remained until 1918, when he resigned to practice in Unadilla. A year later he became associated with the Sheffield Farms in which position he remained until his death. Son, Clarence E. Bolton, '26 DVM. Omega Tau Sigma; Sigma Xi; Gamma Alpha; Society of Comparative Medicine.

'13 BArch—JOHN WILLIAM PETERS, August 20, 1937, in New York City. At the time of his death he was with The Hayden Company, architects, 52 East Fifty-seventh Street, New York City. He had previously been with Herter Looms, also of New York City. During the World War he was a candidate for a commission at the Officers' Training School, Plattsburg, but was discharged on a surgeon's certificate of disability. Phi Kappa Sigma, Spring Day Committee, Masque.

'13—GARRETTSON DULIN, July 23, 1937, in Lexington, Ky. He was a student in the College of Arts and Sciences for one year. In 1912 he was with E. H. Rollins and Sons, in Los Angeles. Later he was vice-president of Hunter, Dulin and Company, and at the time of his death was president of Dulin and Company, investment securities, California Bank Building, Los Angeles, Cal. He was also a member of the board of directors of the Universal Corporation. Delta Kappa Epsilon.

'23 ME—AUSTIN TUTTLE, August 17, 1937, in Allentown, Pa. A statistical engineer with the Pennsylvania Power and Light Company, he had been in that firm's employ since his graduation, first in the Hauto plant and then in the Allentown plant, where he was in the office of the second vice-president. State Cash and Tuition Scholarships; University Band; F.O.B. Association.

Concerning THE FACULTY

PRESIDENT EDMUND E. DAY and his family moved into the rejuvenated President's House September 10. The President and David Day, his 13-year-old son, returned to Ithaca the previous Wednesday and David entered Boynton Junior High School. President Day was best man at the marriage of his older son, Emerson, senior in the Harvard Medical School, to Ruth Fairchild of Hanover, N. H., August 7.

DR. FARRAND, President Emeritus, will be at the University Club, New York City, until the middle of October, when the Farrand home in Brewster will be completed. Mrs. Farrand left on a six-weeks' cruise to Scandinavia September 17. Miss Louisa Farrand has opened a tweed shop in Mt. Kisco. She is the American agent for the Highland Home Industries of Edinburgh, Scotland, specializing in tweeds for men and women, and plans to open branches in several Eastern communities.

ALBERT R. MANN '04, who recently resigned as Provost to join the Rockefeller Foundation, was the guest of honor at the eighteenth annual farm dinner given by Jerome D. Barnum '12, Syracuse publisher. 300 agriculturists attended the affair. Governor Lehman and Dr. Liberty Hyde Bailey, former Dean of the College of Agriculture, were among the speakers.

DEAN DEXTER S. KIMBALL, Emeritus, was one of the honorary judges at the seventh convention of the Fisher Craftsmen's Guild, held in Detroit, Mich., August 31-September 3. George J. Davis, Jr. '02, dean of the college of engineering at the University of Alabama, and Embury A. Hitchcock '90, dean of engineering, emeritus, at Ohio State University, were also judges.

PROFESSOR WALTER F. WILLCOX, Economics, Emeritus, was sent by the State Department as a member of the official American delegation to the Thirteenth International Congress of Sociology, held in Paris, September 2 to 5.

PROFESSOR JOHN G. KIRKWOOD, Chemistry, who won the Langmuir Prize of the American Chemical Society for 1936 as "the most promising young chemist in America," has received appointment as associate professor of chemistry at the University of Chicago, beginning this fall. Receiving the SB degree at Chicago in 1926, he worked in physical chemistry at MIT, received the PhD in '29, and was appointed National Research Fellow there and later studied abroad as International Research Fellow. Coming to Cornell in 1934 as assistant professor of Chemistry, he continued his research in

the structure of matter through statistical methods and has taught advanced courses in chemical thermodynamics, statistical mechanics, quantum mechanics, and physical chemistry.

PROFESSOR ALEX M. DRUMMOND, Director of the University Theatre, is again this year one of the judges of the play competition in which the Bureau of New Plays, Inc. offers substantial prizes for the best plays submitted by college students and recent graduates between October 1 and December 15, 1937.

PROFESSOR FRANK O. ELLENWOOD, Heat-Power Engineering, attended the Tenth National Oil and Gas Power Meeting of the American Society of Mechanical Engineers at Pennsylvania State College, State College, Pa., August 18-21.

COACH CARL SNAVELY and his son, Carl, won the father and son tourney at the Ithaca Country Club recently with a low gross of 86. Professor Harold L. Reed, PhD '14, Economics, and his son, Kenny, shot 88, and Louis C. Boochever '12, Director of Public Information, and Louis Jr., were third with 90.

PROFESSOR FRANK B. MORRISON, Animal Husbandry, returning from six months' travel around the world, has much praise for the progressive spirit of the Philippines, where he spent a month making a survey of the livestock industry for the Government Bureau of Animal Industry, headed by Dean Gregorio San Augustin of the College of Veterinary Science, a former student of Professor Morrison's at Wisconsin. In India he spent three weeks travelling with Burch H. Schneider, PhD '31, now a member of the faculty at Allahabad Agricultural Institute.

DR. WILLIAM M. CURTISS, PhD '36, Agricultural Economics Extension, sailed July 14 from New York, via Europe, to teach at the University of Nanking, China, for two years. He relieves Glenn W. Hedlund, PhD '36, who has been on leave at Nanking the past year and returned to the Extension Service this summer.

PROFESSOR CHARLES E. PALM, PhD '35, Entomology, married Geraldine Gibson in Ottawa, Can., July 24. From a tour of Europe they will return to Ithaca about December 1. Mrs. Palm is the daughter of Dr. Arthur Gibson, Dominion Entomologist of Canada.

DR. DEAN F. SMILEY '16, University Medical Adviser, was elected vice-president of the New York State Association of School Physicians at the annual meeting at Saratoga Springs, which he arranged as chairman of the program committee.

DR. ALEXANDER L. DOUNCE, instructor in Biochemistry, married Anne E. Reddick, daughter of Professor Donald Reddick, PhD '09, Plant Pathology, August 20.

Concerning THE ALUMNI

'69 AB—John A. Rea, sole survivor of the University's first graduating Class, writes from his home, 1112 North Fifth Street, Tacoma, Wash., with his contribution to the Alumni Fund, that he expects to be present at President Day's first Commencement, next June; "and me ninety June 18, 1938."

'77 BS, '83 MS—To his many previous honors as a scientist has recently been added the election of Dr. Leland O. Howard to honorary membership in the German Entomological Association, Berlin. Retired in 1931 as principal entomologist of the United States Department of Agriculture, Dr. Howard is the author of many books and articles, has been honorary curator, department of insects, of the U. S. National Museum since 1895, and consulting entomologist of the U. S. Public Health Service since 1904. He received the PhD degree at Georgetown University in '96, and has been awarded honorary degrees by George Washington, Pittsburgh, California, and Toronto Universities, and received many other American and foreign scientific honors.

'94 CE; '96 PhD—Elon H. Hocker presided, as chairman of the executive board of the Research Corporation of New York, at a recent dinner in New York City at which the Corporation awarded plaques and \$2,500 each to Professors Percy W. Bridgman, of Harvard, and Ernest O. Lawrence, of University of California, in recognition of their research in physics.

'92 ME—Major Henry C. Nelson, of Pine Grove, Falls Village, Conn., who attended the 45-year reunion in June and plans to be in Ithaca for the Columbia football game, will take a trip around the world with Mrs. Nelson during the winter. He writes, "We have made reservations on a Japanese line from San Francisco, but the Chinese war may cause us to alter our plans later on."

'99 BS, '02 PhD; '03 AB—William A. Hilton, professor of zoology at Pomona College, returned in February from sabbatic leave spent on a trip around the world. He and Mrs. Hilton (Emily S. Boardman) '03 have two daughters.

'01 AB—Marcella M. Foley, of 1 West Street, Ithaca, retired in June as principal of the Herkimer High School, after 36 years of teaching and 34 years as principal. For distinguished service in the educational field she was elected a member of Kappa Delta Epsilon, honorary educational society.

'02 LLB—Senator C. Tracy Stagg has been appointed to the New York State Commission on the Administration of Justice. At present this Commission, of

which Prof. Charles K. Burdick, former dean of the Law School is also a member, is engaged in preparing a revised code of criminal procedure which will be presented to the legislators for action when completed.

'03 ME—William A. Heitshic is in the insurance business in Lancaster, Pa., where he lives on North Line Street.

'03 AB—Franklin L. Ferdon lives in Seattle, Wash., at 4710 University Way.

'04 ME—A. Morris Buck, engineering editor of the Transit Journal, was elected president of Eta Kappa Nu, electrical engineering honorary fraternity, July 1, after serving two terms as vice-president. Last May he presented a silver plaque, gift of the New York alumni, to Kappa chapter at Cornell, for having made the best record in the organization during the past year.

'05 AB, '08 LLB; '08 AB—Stanley D. Brown is the secretary of New York Tribune, Inc., publishers of the New York Herald Tribune. Mrs. Brown was Margaret Jenks '08.

'05 Grad—Thomas D. Campbell, who achieved a reputation just after the World War as the world's largest wheat grower, controlling 150,000 acres in Montana, was in the news again recently, when it was announced that with John J. Raskob he would undertake the irrigation and agricultural development of 286,000 arid acres in New Mexico.

'06 ME—George W. Roddewig sailed August 7 with Mrs. Roddewig and their eight-year-old daughter for Potosi, Bolivia, where he is general manager of Compania Minera Unificada del Cerro de Potosi. He expects to be away for three years.

'07; '37—Arthur B. Dodge is president of Dodge Cork Company, and lives at 306 East Orange Street, Lancaster, Pa. His son, James G. Dodge '37, was last year president of the Interfraternity Council and a member of the Student Council.

'07—Arthur Roeder, president of the Colorado Fuel and Iron Corporation, opened an office at 2 Wall Street September 1, in addition to his office in Denver.

'07 LLB—William E. Sill, senior associate counsel of the New York State Tax Department, retired September 1 due to ill health.

'07 ME—Edwin F. Britten, Jr., vice-president of the Monroe Calculating Machine Company for twenty years, was recently made president.

'08 Sp—Margaret R. Cuthbert, director of women's activities of the National Broadcasting Company, is one of seven prominent women appointed by the president of the National Federation of Business and Professional Women's Clubs to a "steering committee" to plan observance in 1939 of one hundred years of women's progress in business and the

professions. The New York and San Francisco Fairs will be used as demonstration centers. The committee includes also in its membership Frances Perkins, Secretary of Labor; Mrs. Carrie Chapman Catt, pioneer suffragist; Dr. Mary E. Woolley, former president of Mount Holyoke; Mrs. Ruth Comfort Mitchell, author; and others.

'08 LLB—A. Heber Winder, attorney, of Riverside, Cal., has been elected president of the California State Board of Education. He was appointed to the board last April by Governor Merriam.

'09 AB—Dr. Henry A. Callis, who in '06 was a founder of Alpha Phi Alpha, Negro fraternity, has been since 1930 assistant professor of medicine at Howard University. He received the MD degree at Rush Medical School, University of Chicago, in 1921. Last year he was vice-president of the American Federation of Teachers. He has two daughters, and lives at 2306 E Street, Washington, D. C.

'10, '12 BS—Jacob H. Weber is a dairy and food inspector in the New York State Department of Agriculture and Markets, working from the New York Office, 80 Center Street. His home is at 16 Lawrence Street, Yonkers.

'11 CE; '34 AB; '34—A. MANUEL FOX, former director of research of the Federal Tariff Commission, took office July 26 as a Commissioner, having been appointed by President Roosevelt for the term ending June 16, 1942. Member of the Commission staff since 1923, he has been in charge of the economics staff since 1924. During consideration by Congress of the Tariff Act of 1930, and again during the passage of the Trade Agreements Act of 1934 and its extension this year, he was a leading tariff adviser to the Ways and Means Committee of the House and the Finance Committee of the Senate. He has taught at University of Michigan, CCNY, and Catholic University of America; was for a time examiner for the Michigan State Tax Commission; and for four years was assistant to the general valuation counsel of the New York

Central Lines. As an undergraduate he was one of the founders of Beta Sigma Rho. His daughter, Myra C. Fox '34, is now a laboratory technician. Melvin J. Fox '34, his son, has made stage appearances as a member of Eva LeGallienne's repertoire company.

'12 BArch—Daniel D. Merrill began the practice of architecture at 11 East Forty-Fourth Street, New York City, May 1. He had previously been associated with Merrill, Humble, and Taylor.

'12 Sp—Paul Smith was recently appointed director of the bureau of milk publicity for New York State.

'13 AB—Prof. Esther C. Dunn, of the department of English, Smith College, recently contracted with The Macmillan Company for a book on Shakespeare in America, designed to show the American attitude toward Shakespeare in the past three centuries.

'14—Clarence F. Morse has been elected commander of Ithaca Post 221, American Legion. Morse has been active in American Legion work for the past fifteen years and a year ago served as adjutant.

'14 BSA—Principal cryptanalyst of the War Department is Lieutenant-Colonel William F. Friedman, who got into the work of making and deciphering codes as a result of interest in plant breeding, according to the Associated Press. Before the War, Friedman was in charge of a plant breeding laboratory on the estate near Chicago of the late Colonel George Fabyan, who had also assembled a staff to study the Shakespeare-Bacon ciphers. Friedman became interested, and in 1916, at Colonel Fabyan's suggestion, he turned his attention to military and diplomatic codes. Soon the Federal Government began to send him cryptograms for deciphering, and he enlisted June 1, 1918, and became a First Lieutenant in Military Intelligence, attached to General Headquarters, AEF. The size of Friedman's present staff is kept secret, and visitors are barred from the Munitions Building offices in Washington, D. C. where he works.

'15 ME—R. King Stone is with Hill and Tibbitts, automobile dealers, 1114 Vermont Avenue, Washington, D.C. His home address is Apartment 21, 1824 Belmont Road, N.W., Washington.

'16 ME—John S. Hoffmire, former sales representative in Ithaca of the Johns-Manville Corporation, has been appointed manager of the company's new unit in Buffalo.

'17 MSA—Cyrus G. Phillips, is Dean of the Porter School, R.F.D. 1, Fulton, Ga.

'17 AB—Charles D. Orme has been seriously ill for two years at the U. S. Veterans' Hospital in Augusta, Ga. A mental case, little hope is held for his improvement. He was commissioned Ensign in the Navy and served at Key West, Fla. during the War.

'17 BS—H. Andrew Hanemann, formerly market analyst and assistant director of the Bureau of Markets of the Pennsylvania State Department of Agriculture, is now assistant manager and treasurer of the Pennsylvania Farm Bureau Cooperative Association, Harrisburg, Pa. His home address is Third Street and Woodland Avenue, New Cumberland, Pa.

'17 AB—D. Roger Munsick is industrial sales manager of the Murphy Varnish Company, 224 McWhorter Street, Newark, N. J. His home is at 614 Prospect Street, Maplewood, N. J.

'18 ME—Wallace H. Collins is with the Shell Petroleum Company, and lives at 301 Sunset Road, Amarilla, Tex.

'18 ME—August Schmidt was recently granted a patent by the United States Government on a system of electrical distribution. The patent was assigned to the General Electric Company.

'19 AB—William P. Herman and his wife, Leila Livan, left for Europe early in September. Mrs. Herman will give a concert tour in Italy, and Herman will conduct. They expect to be gone a year.

'19, '20 AB—Andrew Jack, who has been in the insurance business in Maplewood, N. J., has become a partner in the firm of Mansfield and Swett.

'20, '21 AB—Dr. Milton H. Gennis, chiropodist, may be addressed at 321 Thompson Building, Tulsa, Okla.

'20 BS; '18, '19 BS—Mr. and Mrs. Bertram Y. Kinzey (Gertrude S. Sampson) '18 now live at 3406 Noble Avenue, Richmond, Va.

'20 AB—C. Edwin Ackerly is customer's man for Baker, Simonds and Company, investment bankers, 1132 Buhl Building, Detroit, Mich. He married Helen K. Smith of Detroit March 17.

'21 BS—James C. McGahan is a wholesale florist at 764 West Bay Street, Jacksonville, Fla.

'21 EE—C. Edward Fiske is a member of the president's staff of the Consolidated Gas, Electric Light, and Power Company, Baltimore, Md., where he lives at 407 Wingate Road.

'21—John K. Converse is in the Converse Rubber Company, manufacturers of rubber footwear, Malden, Mass.

'21—Ellis R. Meaker is president of Ivanhoe Foods, Inc., Auburn.

'21—J. Alden VanCampen is vice-president of the Corning Building Company, Inc., Corning.

'22, '23 BS—Dorothy L. Powell was married to George P. Flint of Great Neck July 12. Mr. and Mrs. Flint live at 43 High Street, Hempstead.

'23 WA—G. Whitney Bowen and Mrs. Bowen, of Livonia, will spend October in Austria.

'23 AB—Irving P. Turman is with the Securities Exchange Commission, Securi-

ties Exchange Building, Washington, D.C.

'24, '25 LLB—Charles E. Cassidy, first deputy public prosecutor in Honolulu, Hawaii, and Mrs. Cassidy have a daughter, born June 11.

'25 BS—Edward S. Foster, executive secretary of the New York State Farm Bureau Federation, was recently named by Governor Lehman to an "unofficial" committee to secure data for New York State's 1938 constitutional convention.

'25 Grad—Jeannette F. Oakey is now Mrs. Lester Bennett and lives at Brier View Manor, White Plains.

'25, '26 ME—Thomas C. Ingersoll is with the Bethlehem Shipbuilding Corporation, Sixth and Illinois Streets, San Francisco, Cal. His home is at 1802 Highland Place, Berkeley, Cal.

'25, '26 EE—Arlington W. Clark has a daughter, Barbara Howard, born March 29. Clark is managing director of Black and Decker Manufacturing Company, Terminal Warehouse, Toronto, Ontario, Can.

'26, '29 BArch—Sidney W. Little, who for eight years has been on the architectural faculty at Clemson College, S. C., will be associate professor of architecture at Alabama Polytechnic Institute, Auburn, Ala., this year. His address in Auburn is 131 Toomer Street.

'26 BS—John L. Shea, sales promotion representative of the Waldorf-Astoria Hotel since 1932, became executive assistant to Robert K. Christenberry, vice-president and general manager of the Hotel Astor, on September 15. Shea is a former president of the Cornell Society of Hotelmen and national promotion director of the Hotel Greeters of America. In a recent series of courses sponsored by the International Geneva Society, Shea lectured on hotel administration.

'26 AB; '27 AB—Two Cornellians found their best girls side by side in the "Private Lives" section of the August 23 issue of *Life*. Hope Gimbel, twenty-two-year-old daughter of Bernard Gimbel of Gimbel's department store, was pictured as engaged to David M. Solinger '26. She attended Bryn Mawr and the Sorbonne. Beside her was Joan Crawford, wife of Franchot Tone '27, who was recently sued for \$50,000 by a Hollywood stenographer, who said that Miss Crawford caused her to lose her job. The suit was withdrawn when RKO rehired her.

'27 ME—H. Elmer Wheeler is with the M. W. Kellogg Company, 225 Broadway, New York City, and lives at 405 West Twenty-Third Street.

'27, '28 ME—John F. Nelles married Catherine Carr of Maplewood, N. J., in July. They now live at 116 Coolidge Street, Irvington, N. J.

'27 AB—Ralph T. Seward was recently appointed executive secretary of the New York State Labor Relations

Board, resigning as regional attorney for the National Labor Relations Board in Southern California and Arizona to accept the position.

'27 AB—Malcolm B. Stark and Mrs. Stark have a daughter, Stephanie Martha, born August 14. The Starks live at 1 St. Paul's Court, Brooklyn.

'28 AB—Dr. John N. Shaw is engaged to Jane Levy of Shreveport, La. Miss Levy is a graduate of Mount Holyoke and did graduate work at the Tulane School of Social Work in New Orleans. Shaw is now a practicing physician in East Orange, N. J., and serves on the staffs of the City Hospital and the Presbyterian Hospital in Newark.

'28 BS—Albert E. Koehl, vice-president in charge of the Chicago office of Swafford and Koehl, 620 Michigan Avenue, is engaged to Elaine C. Buell of Omaha, Neb. Miss Buell is a graduate of the Katharine Gibbs School, Boston, Mass. The wedding will take place November 1, after which the couple will spend a month in the Hawaiian Islands.

'29; '36 BS—Frank W. Case is technical supervisor for the American Hotels Corporation, 570 Lexington Avenue, New York City. His assistant is Wallace W. Lee '36, who as an undergraduate worked at the Willard Straight Hall desk and was later at the Hartford Club, Hartford, Conn.

'29 ME—Donald W. Adams is employed at the Pennsylvania Railroad engine house, Wilkes-Barre, Pa.; his home address, 396 Carey Avenue, Wilkes-Barre.

'29 AB—Bernard H. Baum is engaged to Theresa Weisser of New York City. Miss Weisser is a graduate of the Scoville School.

'29, '30 ME—Newton E. Randall, who was married June 28, now lives at 15 Eastern Parkway, Auburn.

'29 BArch—Charles C. Porter, Jr. married Dorothy Burton of New York City May 28.

'29 ME—Frederick F. Mack is engaged to Dorothy Candee of Norwalk, Conn. Miss Candee was graduated from Smith College in 1932. Mack practices law in Norwalk.

'30 EE—Roswell A. Hall married Dorothy E. Brown of East Aurora July 30. Mrs. Hall is a member of the class of 1932 of the University of Buffalo.

'30 BS—Mary E. Schutt was married to William R. Beuret of Passaic, N. J., July 27. Beuret is a costs engineer, employed in Passaic. The couple spent a two-months' wedding trip in Europe, where they visited France, Holland, Switzerland, Germany, and Italy.

'30 BS—Arthur C. Stevens married Eleanor H. Crosby of Hartford, Conn., August 21. Mrs. Stevens was graduated from Wellesley in June. Stevens is a teacher at White Plains High School.

'30 ME; '30 CE—Newton C. Randall married Lenora P. Chappell June 28. Alpheus F. Underhill '30 was best man at the wedding. Mrs. Randall graduated from Mount Holyoke in 1932. Mr. and Mrs. Randall now live at 15 Eastern Parkway, Auburn.

'30, '32 CE—Will R. Clapp married Cecile V. Hodgman, of Stamford, Conn., August 20. Mrs. Clapp is a graduate of Mount Holyoke College.

'30—Max G. Bethge, of 11 Litchfield Road, Port Washington, is a chemist with Stein, Hall and Company, 285 Madison Avenue, New York City. He is now attending evening sessions at the Brooklyn Polytechnic Institute as a candidate for the BS degree in Chemistry.

'30 AB—Dr. George R. Alpert is now at the Children's Hospital, Denver, Colo.

'30 BChem, '35 PhD; '33 PhD—Albert A. Shuman and Mrs. Shuman (Eleanor Crombie), PhD '33, have a daughter, Ann Elizabeth, born July 4. Shuman is a research chemist with the Diamond Crystal Salt Company, St. Clair, Mich.

'31—Helen M. Wright is now Mrs. Helen W. Toole and lives at 20 Mechanic Street, Hudson Falls.

'31—William A. Tydeman is engaged to Adelaide Wortman of Long Branch, N. J. Miss Wortman is a graduate of the Trenton, N. J., Normal School and has taught physical education in the Trenton High School. Tydeman is now with Evans, Moore, and Woodbridge, Architects Building, New York City.

'31 BS; '32 AB, '33 AM—Doris Brown and William F. Hodge were married August 1 and now live at 209 Prospect Street, East Orange, N. J., Apartment 1.

'31 BS—Edward D. Ramage, formerly manager of the University Club of Rochester, now manages the Shaker Heights Country Club, Shaker Square Station, Cleveland, Ohio.

'31 AB, '33 AM, '36 PhD—Jeremiah S. Finch married Mathilde M. Effler of Albany July 22. Mrs. Finch is a graduate of Russell Sage College, and received the AM degree from Radcliffe in 1936. Finch is a member of the English department at Princeton University.

'31 AB, '34 MD—Dr. Frederick W. Rea married Virginia C. Cooke in New Philadelphia, Ohio, June 5. He and Mrs. Rea live at the Bernard Apartments, 8016 Detroit Street, Cleveland, Ohio.

'31 BS; '04 Grad.—Ellen Kuney was married to Joseph C. Whetzel, son of Prof. Herbert H. Whetzel, '04 Grad. Mr. and Mrs. Whetzel live in Williamson, where Whetzel is manager of the Grange League Federation produce auction.

'31 LLB; '29 BS—Jasper S. Costa and Mrs. Costa (Clarice M. Brown) '29 have a son, Leeds Woodhull, born August 22. The Costa home is at 35-61 Ninety-second Street, Jackson Heights.

A RESIDENCE OF YOUR OWN...

Designed to appeal to those who appreciate quiet, good taste and subtlety of unostentatious service... the Westbury offers an individual city residence in a distinguished location.

Every apartment has been newly decorated. One to seven rooms, some with serving pantries, for immediate occupancy, or later. Monthly, or on yearly lease furnished or unfurnished. Also transient. Two restaurants.

THE
Westbury

MADISON AVENUE AT
69th ST., NEW YORK CITY

Direction: Karl P. Abbott
Ross W. Thompson, Mgr.

'31—Helene B. Levenson is now Mrs. Frank Goldman, and lives at 153 Marietta Avenue, Passaic, N. J.

'31 PhD—William R. Hutcherson is professor and head of the department of mathematics at Berea College, Berea, Ky.

'31 MS; '88 PhB; '33 AB; '33 BS; '15 BS, '16MSA, '28 PhD—Leila A. Compton has just returned from a seven months' trip as temporary secretary to Dr. John R. Mott '88. She was in India for three months, Cairo for one month, and then returned through Palestine, Turkey, Bulgaria and Yugoslavia, Italy, France, and England. While in India she met Marion I. Glaeser '33, Helen Burritt '33, and Dr. D. Spencer Hatch '15. Miss Burritt was in Nagpur temporarily, conducting a nursery school, as a continuation of two-years' nursery school teaching in Australia. Miss Compton's address is 846 East Bowman Street, Wooster, Ohio. She says that she is going to try gladiolus raising in Mississippi as her next venture.

'32 AB; '24 LLB—Arthur J. Harvith (Horvich) since last March 22 has been employed in the legal division of the Reconstruction Finance Corporation; his address, 1917 I Street, N.W., Washington, D. C. Previously, he practiced law in Scranton, Pa., with the firm of Nogi, Harris & Nogi, of which Henry Nogi '24 is a member.

'32, '33 ME—Herbert F. Cox, Jr. is with the American Can Company, 230 Park Avenue, New York City. He devotes most of his time to equipment for manufacturing paper milk containers. He married in October, 1936, as noted in the ALUMNI NEWS November 26.

'32—Elsie R. Lichtman is now Mrs. Clarence D. Bendheim, and lives at 125 Lenox Road, Brooklyn.

'32, '33 ME—J. Henry Parker is with Rath and Strong, Inc., 80 Federal Street, Boston, Mass.

'32 MS, '33 PhD—Che Fang Feng is with the Central Cotton Improvement Institute, National Economic Council, Shao-ling-wei, Nanking, China.

'32 BS—Richard Pringle was recently appointed Seneca County agricultural agent. He had been assistant agent since April and was previously assistant agent in Cattaraugus County.

'32 ME—Mearick Funkhouser is in charge of the testing equipment for shock absorbers in the engineering department of the Delco Products Company, Dayton, Ohio. His home address is 416 Wiltshire Avenue, Dayton.

'32 BS—Demetrius E. Hadjis is superintendent of the agricultural department of the Thessalonica Agricultural and Industrial Institute (American Farm School) in Salonica, Greece. A letter from the school to Prof. Lincoln D. Kelsey tells of the scarcity of milk in Salonica and of Hadjis' trip to Yugoslavia to purchase ten cows on borrowed money. "He traveled

with his precious cows in the box car during the long tedious two-day journey. Lacking water he washed with milk, and, his food supply having been devoured by a cow, he also lived on milk. All the cattle dealers in town were on hand when the cows arrived and they agreed with Mr. Hadjis that it was the finest shipment that had ever come into Salonica."

'33 BS—Marjorie L. Chapman is now Mrs. Emmett M. Brown, and lives at 5210 Main Street, Williamsville.

'33, '36 BChem—Max P. Seyfried is with the Johns-Manville Company, Manville, N. J., and lives at 103 Mountain Avenue, Somerville, N. J.

'33 AB—Ruth E. Bedford was married to Clel Georgetta of Reno, Nev., July 25, at Triune Ranch, Nev. Mrs. Georgetta is now in her third year of law school at the University of Cincinnati. Georgetta, a practicing attorney in Reno, attended the University of Nevada, the University of Wisconsin, and the University of Washington Law School. The couple will live in Reno.

'33 AB—Lawrence A. Coleman, Jr. is engaged to Barbara Baldwin of Pelham Manor. Coleman is with Whitman, Ransom, Coulson, and Getz, New York City.

'33 BS; '37 MS—Elizabeth Lloyd and Lieut. John B. Davenport, Jr. were married in June.

'33, '34 CE—James W. Allen is with the United Airlines, Municipal Airport, Chicago, Ill., where he was recently transferred from Oakland, Cal.

'33—Edward H. Rogers is engaged to Gertrude Crouse of Syracuse. Miss Crouse was graduated from Vassar College in 1934. Rogers is with the Aridor Company in Chicago, Ill.

'34 BS—E. Stanley Yawger, who is a bacteriologist with the Crown Can Company in Philadelphia, Pa., attended the reunion of his Class in Ithaca in June.

'34 BS—Grace Josephine Bixby was married in Syracuse, June 25, to LeRoy H. Hall, who is a heating engineer with the D. L. & W. Coal Company.

'34 BS; '36 BS—Irma A. Sherman and Carlton M. Edwards taught school last year in South Otselec.

'34, '35 BS; '34 MS, '36 PhD—Viola A. Henry, since 1935 a member of the Extension staff of the College of Agriculture and writer of radio briefs for Station WESG, was married August 1 at her home in Norwich to Dr. John I. Miller, Kansas State '34, instructor in Animal Husbandry.

'34—Seward G. Smith is with the Lincoln Alliance Bank in Rochester, here he lives at 48 Cornell Street.

'34; '05 BArch; '04 AB—William M. North married Carolyn E. Brown of Barton, Vt., July 17. Mrs. North is a graduate of Colby Junior College and the New Jersey College for Women. North,

who is the son of Robert North '05 and Mrs. North (Gladys Miller) '04, practices law in Buffalo.

'34; '09 DVM; '37 DVM—F. Dorothy Stephenson, daughter of Dr. Roy L. Stephenson '09, and George G. Pickett were married July 3 in Malone. Pickett is assistant to Dr. H. J. Milks in the small animals clinic of the College of Veterinary Medicine. Mrs. Pickett is secretary to Dr. Milks.

'34 AB, '36 ME—James F. Hirshfeld has moved from Ithaca to 2530 Iroquois Avenue, Detroit, Mich.

'34 BS; '34 BS—Charles J. Strohm and Mrs. Strohm (Edith Washburn) '34, of 104 Woodward Avenue, Buffalo, have a son, John Michael, born April 7. Strohm is an inspector of perishable freight for the Buffalo Perishable Inspection Service.

'34 AB; '33 BS—Hiram McK. Denton is a foreman in forest pest control in the New York State Conservation Department. He writes, "I now have charge of white pine blister-rust control work at CCC Camp S-90, Speculator, where Abraham George '33 is superintendant. Major S. L. Dunlop, formerly captain in Cornell's R.O.T.C. unit also visits the camp periodically."

'34, '36 BChem—Howard R. Moon, Jr. is with the Goodrich Rubber Company, Akron, Ohio, and lives at 2467 Fourth Street, Cuyahoga Falls, Ohio.

'35 AE—George P. Torrence, Jr. last month joined the sales department of the Ingersoll Milling Machine Co. in Rockford, Ill., where his address is 1502 National Avenue. Since graduation he had been with the Link-Belt Co. in Chicago, Ill.

'35 AB; '35 BS; '14, '28 BS—Mary Willmott and Charles A. Taylor, Jr. were married June 23, in Breesport, where Mrs. Taylor has taught in the high school the last two years. Taylor, who is the son of Professor Charles A. Taylor '14, Agriculture Extension, is an assistant in Plant Pathology. They are at home at 115 Linn Street, Ithaca.

'35 AB, '36 AM—Maurice Gale will spend the next year teaching English in Puerto Rico.

'35 PhD—Arthur M. Crosman is on the staff of Washington Square College, New York University, New York City. His home address is Box 293, Demarest, N. J.

'35 AB; '34 AB—Louise R. Barth and Nathaniel B. Elkins were married July 11 in Huntington.
