What does an inventor look like?

In 1850, Samuel Kier built a one-barrel "teakettle" refinery in Pittsburgh. There, through his own genius, he first distilled petroleum and became America's pioneer oil refiner. But how times have changed.

Today, a new product is rarely *one* man's creation. The better products get, the harder it is to improve them. Now, many men of many skills must work together in research centers on projects planned long ahead.

For example: two years ago we saw the need for a new kind of motor oil that would fully meet the demands of precision-built, high-compression automobile

engines. Among other things, this special oil must flow with full pressure at zero temperature—yet give full protection at 400 degree heat.

One man would never have the skills, time, devices or money to cope with such a complex problem. But at our Brea research center a team of Union Oil engineers solved it. And Union was the first to give the West this better lubricant.

Naturally we're proud to add new Royal Triton 5-20 motor oil to our many firsts. We think this new Union Oil product is one more proof that the best *progress* comes from an economic system that

gives the best *incentives*. American *free, competitive enterprise* provides these incentives as no other system ever has.

UNION OIL COMPANY OF CALIFORNIA

INCORPORATED IN CALIFORNIA, OCTOBER 17, 1890

This series, sponsored by the people of Union Oil Company, is dedicated to a discussion of how and why American business functions. We hope you'll feel free to send in any suggestions or criticisms you have to offer. Write: The President, Union Oil Company, Union Oil Building, Los Angeles 17, California.

Right now it appears that our new store won't be ready for Fall opening and that we will be in our temporary quarters in the Old Armory for a couple more months.

Of course we are disappointed, for we wanted to be all ready when the Cornellians return to the Campus, but we are going to have a big self-service Book Department installed in the new store for the opening and the other Departments will operate in the Old Armory.

We are going to have a lot of new items for Cornellians this fall—new Glassware, new Mascots, new Shirts and Jackets. We even have a new Cornell Umbrella and those popular six-foot Woolen Scarves in Cornell colors.

We even have something for very new and very young Cornellians—a pair of Booties in Cornell colors in a decorated plastic box. We'll mail them anywhere postpaid for \$1.50.

Sorry we don't have more room to list other items, but we answer all inquiries promptly.

CORNELL ALUMNI NEWS

CORNELL ALUMNI FUND UNRESTRICTED GIFTS FOR EIGHT YEARS (Amounts in thousands)

Alumni Fund Exceeds \$400,000 Two Classes Set New Totals

MORE THAN 1000 Cornellians, as members of their Class committees, and some 350 more in organized areas of New York State solicited their Classmates and Cornell neighbors for gifts to the Alumni Fund in the year which ended June 30. The result, announced by Willard A. Kiggins, Jr. '21, president of the Fund, was \$467,749 for the University's unrestricted use, given by 13,809 contributors.

Of this total, \$67,602 was in credits for payments made on unrestricted pledges to the recent Greater Cornell Fund. \$400,147 was in annual gifts toward the general budget of the University.

Chart Shows Comparison

Gifts made directly to the unrestricted Alumni Fund in the last eight years are shown graphically on this page. The \$400,147 for 1952-53 is \$82,900 more than the \$317,247 given in 1951-52. It is nearly up to the high record of \$407,611 set in 1947-48. Solicitation by Class committees for the Alumni Fund was

suspended then for the Greater Cornell Fund campaign. This campaign, from 1948-51, brought \$12,500,000, principally in capital gifts. The chart shows that gifts to the unrestricted Alumni Fund dropped markedly in the two-and-a-half years until Class committees went to work again for the Fund in January, 1951.

Executive Secretary H. Hunt Bradley '26 points out that the 13,809 contributors of last year were 1121 more than in 1951-52. Their number approaches the record of 14,210 contributors in 1947-48.

Two Classes Break Records

The largest amount ever given to the Alumni Fund by any Class was the \$67,479 reached by the Forty-year men of '13. This Class organized after a successful record for its Thirty-five-year Reunion five years ago, to enlist the active interest of more members by instituting annual dues and sending the ALUMNI NEWS with a regular Class column to all members. Its Alumni Fund commit-

tee under chairmanship of Joseph C. J. Strahan surpassed by more than \$15,000 the previous high record of \$52,392 set in 1952 by the Class of '12, and attained 168.7 per cent of the \$40,000 Alumni Fund goal of Forty-year Reunion Classes.

Men of '18, with Paul C. Wanser as Alumni Fund representative, set a new Thirty-five-year Reunion record with 120.9 per cent of a \$35,000 goal, collecting \$42,330. This beat the previous record of \$41,218 set last year by '17 men. Men of this year's eight Reunion Classes for whom a total goal of \$150,000 was set went 16 per cent over their objective with gifts totaling \$174,450. Their new gifts of \$158,563 made 39.6 per cent of the total \$400,147.

Table Shows Record by Classes

The Alumni Fund record for 1952-53 is tabulated by Classes on the next two pages. It shows behind the two leaders that '23 men were third, giving \$30,355. Following came the men's Classes of '28 with \$16,579; '16 with \$16,012; '10 with \$15,852; '22 with \$13,637; '12 with \$12,977; '15 with \$12,849; '17 with \$12,809. Highest five of the women's Classes were '26 with \$1626; '24 with \$1287; '23 with \$1096; '27 with \$1065; and '22 with \$951. Leaders of the elder Classes were '00 with \$3404; '98 with \$3226; '97 with \$2413; '96 with \$1106; and '93 with \$1075.

Bradley reports that 124 persons gave \$500 or more directly to the Alumni Fund last year and that their total gifts were approximately \$145,000.

The tabulation shows that 22.7 per cent of all living members of Classes gave to the Fund: 21.7 per cent of the men and 30.3 per cent of the women since '00 and 30.6 per cent of the earlier Classes.

Among the men's Classes, '13 had the highest percentage giving, 43.5. Next was '01 with 37.5 per cent, then '14 with 32 per cent, '28 with 31.8 per cent, '17 with 30.2 per cent. '13 led all women and all Classes in percentage of members giving to the Fund with 97.5 per cent who gave to the Fund. Next were the women's Classes of '14 with 66.2 per cent, '12 with 63.9 per cent, '03 with 63.7 per cent, '07 with 53.2 per cent. In the Classes of men and women combined, '93 led with 42.7 per cent participating, followed by '97 with 42.2 per cent, '95 with 39.7 per cent, '98 with

28.9 per cent, '96 with 31.3 per cent.

Regional Committees Call on Neighbors

Included in the Class records are gifts totaling \$16,671 from 1179 alumni in forty-three areas of New York State where committees were organized for the second year of an experiment to solicit personally the Cornellians in their areas. These committees of volunteers called on 63 per cent of the Cornellians known to live in these areas, with the result that 51 per cent of them all gave to the fund.

In the Bainbridge territory, where Dr. Joseph M. Flannery '18 was chairman, and in Morrisville with George A. Spader '19 as chairman, and Painted Post under Charles L. Parsons '26, every resident alumnus gave to the Fund. Chairmen in six other areas reported that their committee members had called on every known Cornellian: Eddy E. Foster '29 for Alfred; Mrs. Llewellyn S. Mix (Constance Avery) '48, Cayuga; Fred E. Wayne '49, Lyons; George T. Franklin '17, Ovid; Lester M. Cooper '18, Oxford; and George B. Harris, Jr. '46, Wellsville.

In 1951-52, committees worked in fourteen areas and 74 per cent of the alumni they called on gave to the Fund. In the year just ended, 80 per cent of the Cornellians seen by committee members contributed.

Engineers Work at Buffalo

CORNELL AERONAUTICAL Laboratory in Buffalo has entered the industrial co-operative program of the College of Engineering. It is the sixth organization to participate in the cooperative plan with industry, by which selected upperclassmen in Engineering get actual work experience in industrial plants. The plan, developed here and managed by Professor Everett M. Strong, Electrical Engineering, started in 1947 with Philco Corp., through the joint interest of University Trustee Larry E. Gubb '16, chairman of the Philco board, and Dean S. C. Hollister of the College of Engineering. Besides Philco, the Aeronautical Laboratory joins General Electric Co., Air Reduction Co., Procter & Gamble Co., and American Gas & Electric Service Corp.

Since the plan was initiated, 122 have completed the program. Forty-six students are currently enrolled. Interested students in the regular five-year courses of the Schools of Electrical and Mechanical Engineering are selected for the plan in the spring term of their second year. Those accepted spend the next summer here, taking their regular fifth-term courses in a special fourteen-week summer term. During the fall term, they go to work in the assigned industrial organizations. In the spring, they return to the Campus for the regu-

lar sixth term, go back to industry the following summer, resume University studies in the regular fall seventh term, spend the next spring away, and complete their fourth curriculum-year in the summer. Thus in the fall they are ready to take their fifth year in the regular fall-spring pattern and to graduate with their Classmates, but they have utilized three summer vacations for the equivalent of a year's experience in industry.

The first students selected for spon-

soring by the Aeronautical Laboratory are Irwin M. Jacobs '56 of Marion, Mass., and John L. Hayes, Jr. '56 of Washington, D.C., Electrical Engineering; and Joel B. Peterson '56 of Summit, N.J., Mechanical Engineering. Their study-work program began this summer at the University. The Laboratory will sponsor three additional students each year so that following the first year, there will be three Engineering students continuously engaged at the Laboratory. The students will receive salaries

during their employment and the Laboratory will pay the University \$350, covering tuition costs, for each student-spent at the University.

Senior Societies Meet

SENIOR SOCIETY alumni organizations elected officers at their annual Reunion breakfast meetings Sunday morning, June 14.

Seventy-four Sphinx Head members attended the meeting in Willard Straight Hall. Dean of Men Frank C. Baldwin '22 was re-elected president for a second year and Dr. W. Forrest Lee

'06 and Charles E. Dykes '36 were re-elected vice-president and treasurer, respectively. Robert B. Tallman '41 was elected secretary to succeed John A. Krieger '49, who has resigned as Alumni Field Secretary of the University. Alumni Trustee Elbert P. Tuttle '18 spoke on his duties as general counsel of the US Treasury Department.

Quill & Dagger breakfast in Statler Hall had seventy-eight members attending. All officers were re-elected: Thad L. Collum '21, president; Alumni Secretary R. Selden Brewer '40, secretary; and Professor Charles V. P. Young '99, Physical Education, Emeritus, treasurer. The society voted to make annual grants

of \$300 a year to the University Archives to assist Professor Young's collection of material for a pictorial history of the University. He reported that he had received a number of advance subscriptions for the projected book in connection with the annual "roll call" of the society.

McConnell '21 Joins Board

JAMES A. McCONNELL '21 (above) has been appointed to the University Board of Trustees by Governor Thomas E. Dewey for five years to June 30, 1958. His appointment is subject to confirmation by the State Legislature.

He succeeds Trustee Myron C. Taylor '94, who resigned at the expiration of his term, June 30, and was elected Trustee Emeritus by the Board. Taylor was first appointed a Trustee by Governor Alfred E. Smith in 1928 and has been reappointed by successive Governors of the State for five-year terms. For many years he was a member of the Medical College Council, and in 1939-40 he served on the Trustee committee on funds for the endowed Colleges.

McConnell is executive vice-president of the Cooperative GLF Exchange, with offices in Ithaca, to which post he was elected last October after fifteen years as general manager, where he succeeded the late H. Edward Babcock, former chairman of the University Board of Trustees. McConnell has been with the GLF since 1922; is a director of Tompkins County Trust Co., Lehigh Valley Railroad, Empire Livestock Marketing Cooperative, Foundation for American Agriculture, Northeast Farm Foundation, American Feed Manufacturers Association, and Foundation for Economic Education. A member of the University Council, he was vice-chairman of the committee to raise funds for the Babcock Memorial Professorship in Nutrition.

He entered Agriculture in 1917 from Mansfield, Pa., State Normal School, was in the Navy for six months in 1918, and received the BS in February, 1921.

He is a member of Kappa Delta Rho and Alpha Zeta.

Mrs. McConnell is the former Lois Zimmerman '20. Mrs. Frances E. Car-

roll (Jean McConnell) '43, Joseph A. McConnell '46, and Mrs. Robert V. Manning (Carroll McConnell) '53 are their children.

Men's Dormitories Get Underway

CONSTRUCTION began in mid-July of the long-awaited men's dormitories on the site of the old temporary buildings between the West Avenue dormitories and Stewart Avenue.

Contract for construction of the six buildings was let to C. E. Youngdahl of Long Island City, whose son is Ira C. E. Youngdahl '53. Jamieson - McKinney Co. of Ithaca, of which Frederick L. Brown, Jr. '12 is president and treasurer, has the contract for plumbing and heating. Architects are the New York City firm of Henry O. Chapman, Jr. '22, Evans & Delehanty, and the site plan was developed by Professor Frederick W. Edmondson, Jr. '36, Landscape Architecture. Glen S. Guthrie '37 of the Buildings & Grounds Department is clerk of the works to supervise construction for the University and architects.

The six four-story buildings, of brick and native stone, will provide living accommodations for 1350 men students in 2,400,000 cubic feet. Cost for construction and equipment will be \$4,200,000, provided from University funds to be repaid from rentals in thirty-five years, with interest at 3.75 per cent. The dormitories are expected to be ready for use in the fall of 1954.

The buildings will have rooms for one and two students, with a common lounge on every floor and in each building a large social room on the ground floor with entrance at the west side, a women's powder room, and facilities for

simple refreshments. Adjoining will be small housekeeping apartments suitable for a resident couple in each building. For use of students living in both the new and present dormitories, the building nearest to the present group will have a snack bar with kitchen and a recreation room, and two laundry rooms will be equipped with washers and dryers.

The new buildings and present dormitories together will have rooms for 2180 men. Freshmen are given first choice for University rooms, and from past experience it is estimated that about 1200 of the 1500 Freshman men will request them. With only one of the temporary buildings in the West Avenue area now left for students, the Department of Residential Halls will house Class of '57 men this year in that temporary dormitory, five others on Kline Road, in five former Faculty residences on the Campus, in Cascadilla Hall, and in the present men's dormitories.

After long study and preliminary planning, construction of new dormitories was authorized by the Trustees last October, for three to be built with University funds and three more to be planned. In January, the Board approved an alternate proposal to apply for a Federal loan to build six units. In April, it was decided that the University would finance the entire construction and equipment. In the meantime and after preliminary bids were received, nu-

merous changes were made in plans, specifications, and plot plan.

Doctor Wins Study Grant

FIRST RECIPIENTS of Lowell M. Palmer Senior Fellowships in the Medical Sciences include a member of the Medical College staff, Dr. Charles A. LeMaistre '47, Medicine. Lowell M. Palmer Fund supporting advanced fellowships to provide assistance to young men and women who have proved their ability as medical teachers and scientists was established by gifts from Carleton H. Palmer, former board chairman of E. R. Squibb & Sons, in memory of his father. The Fellowships are administered by the Medical College, with Professor Walsh McDermott, Medicine, chairman of the selection committee which also includes Dr. Geoffrey Rake, medical director of E. R. Squibb & Sons, vice-chairman, and representatives from other medical schools. Five other fellowships were awarded this year. Tenure is for two years. Dr. LeMaistre has a grant of \$8,000 a year. His field is chronic bacterial infection.

Architecture Alumni Elect

SEVENTY alumni attended the Reunion breakfast of the College of Architecture and annual meeting of the Architecture Alumni Association, June 13 at the Johnny Parson Club.

The Association elected Searle H. von Storch '23 of Scranton, Pa., president for 1953-55. He succeeds C. Frederick Wise '39 and becomes, ex-officio, a director of the Cornell Alumni Association. Mrs. von Storch is the former Helen Nichols '24 and their children are Searle K. von Storch '50 and Gretchen von Storch '52. Vice-president of the Architecture Alumni Association is Philip Will, Jr. '28 of Chicago, Ill. Robert B. Tallman '41 of Ithaca is secretary-treasurer, and Elmer J. Manson '35 of Lansing, Mich., was elected a director. Harry V. Wade '26 was appointed to the Alumni Association committee on Alumni Trustee nominations.

At the meeting, Dean Thomas W. Mackesey announced the first grant of the \$1000 Francke H. Bosworth, Jr. Memorial Fellowship for graduate study in Landscape Architecture. The grant is a gift from Gilmore D. Clarke '13, former Dean of the College, and Michael Rapuano '27, partners in the New York City firm of Clarke & Rapuano. It memorializes Professor Bosworth, who was Dean of Architecture from 1920-28, retired in 1940, and died April 27, 1949. First recipient of the Fellowship will be Gino P. Jennewein of Larchmont, architecture graduate this year at University of Pennsylvania.

New Men's Dormitories Construction Starts—Architects' drawing by Chapman, Evans & Delehanty shows the six new buildings being constructed adjoining the present men's dormitories, to house 1350 more men beginning the fall of 1954, giving total rooms for 2180 men in the area. Of brick and native stone, they will be ranged around a grass court which extends west, toward Stewart Avenue, on an axis from the World War I Memorial cloister. This is shown at lower right in the drawing; at left is the Psi Upsilon house. Professor Frederick W. Edmondson, Jr. '36, Landscape Architecture, was consultant on the site plan.

"Why Don't You Do Something About Professor X?"

By PRESIDENT DEANE W. MALOTT

New York Herald Tribune published this contribution by President Malott opposite its Sunday editorial page, June 21, under the title, "The Red Probes and Professor X." It has since been printed in a leaflet by the University, and is reprinted here because of its interest to all Cornellians.

A UNIVERSITY PRESIDENT'S mail is an amazing daily grist of assorted pressures and problems; a tribute to the democratic process in the frankness of its criticisms and accusations. Scarcely a week passes without some request to join a board or advisory committee for some worth-while organization designed to "Do Good," somehow, some place, or for somebody. The invitation is couched in such protective terms as to assure freedom from ever being asked for anything but the use of one's name, although if accepted, there will surely follow a continuing flow of mail, all offering enticing opportunities for use of inexhaustible amounts of time, energy and pace-setting money.

Stream of Invitations

There is the continuing stream of invitations to attend academic jamborees of installation, inauguration, dedication, and centennial celebration, which if accepted would keep the poor administrator marching in interminable processions down academic hallways to the dismal strains of "Pomp and Circumstance." With the number of institutions of higher learning, and of those attaining a century or more of service, it may become necessary to have a special university factotum who will spend his entire days swathed in academic regalia, with a benign countenance denoting a vast, if bored, profundity.

The mail, too, brings constant reminders of the athletic situation. Three winning football games almost surely will send into the mail sacks urgent reminders of the immediate necessity for salary increases for the coaches; while three defeats in a row will bring to the fore those apostles of doom who could have told long ago that the coach was no good, and in fact, had so warned one's predecessor.

Always A Speech

Odds has it that in the first six letters in the Monday morning mail, there will be an invitation to speak, or at the very least to extend "a word of greeting." These invitations are not so flattering as one would at first suspect. There is frequently no suggestion or concern as to the topic to which one should address himself; and chances are that the presi-

dent's position on the program will be in the place of honor, as the final event, after an interminable time has been taken up by a slow and unskilled banquet service, and by a glee club from somewhere with an enormous repertoire of encores.

Today, however, in the fear of Communism, and with more and more investigating committees, the mails are flooded with letters from alumni and other friends challenging the president "to do something about Professor X."

Who Is Professor X?

Who is Professor X? He appears in various guises and is dominated by many urges. He may be that social scientist who honestly and diligently inquires into all forms of social organization, in the course of which he may frequently express some doubt about the existing order of things in democratic America. He may, on the other hand, merely be attempting to gig his students into practice in the art of thinking and analysis.

He may be a sort of academic exhibitionist, daring his colleagues and the world in general to curb his traditional

right to free speech. He may be one of those intellectuals who as an undergraduate student joined various leftist groups, gained a reputation as a "free thinker," and in his mature years continues to be dogged with the reputation of a somewhat dangerous character.

He may be a physical scientist, large numbers of whom, horrified by the havoc they have wrought in human society through the creation of the atomic bomb, feel an urge now to do all in their power to sterilize this product of their own handiwork.

Then, too, Professor X may be a fighting liberal, a zealous crusader, championing the underdog, working in behalf of minority groups, hunting for the utopia of a world organization and international unity.

There is probably here and there a professor who is a Communist and who would seek if he could to overthrow the United States government and the American way of life. Any one is abysmally uninformed, however, who thinks there is any great number of Communists among university teachers.

But,—“Why *don't* you do something about Professor X?” It is clear, so it is vigorously argued, that he is harmful to the public relations of the university. It is reported that he is costing countless thousands in diverted gifts and bequests, while prospective students are alleged to be selecting other and more conservative institutions. Some university trus-

To Improve Jet Engines—Graduate School of Aeronautical Engineering is studying for the US Air Force Air Research & Development Command unsteady conditions between moving and fixed blades of compressors and turbines in turbo-jet aircraft engines. Discussing the research are (left to right) Nelson H. Kemp, PhD '53, who held a fellowship of the National Science Foundation; Director William R. Sears of the School; and Professor Nicholas Rott. The study seeks to understand what happens to air in its passage between the fixed and moving blades of a compressor for delivery to the combustion chamber, to improve the efficiency of jet engines. *Goldberg, Photo Science*

tees fret and worry over the expression of any idea inconsistent with the philosophy of William McKinley.

Why not do something about Professor X? But what?

What Should Be Done?

Should those who in this unstable day voice dissent be classed as enemies of society? Are all who depart from the ranks of the so-called conservatives to be muffled or fired? If so by whom, and judged by what standards?

I am not a social scientist, but from my own conservative point of view I have an uneasy feeling that the American way of life, the freedom which we all hold so dear, cannot and will not return to the simple "free enterprise" of our founding fathers. Our problem, rather, is to preserve as much freedom, as much initiative, as much self-reliance as we possibly can in view of our present state of society, our material standards of living, our burgeoning population, and our international responsibilities.

Our only hope, then, is to preserve free speech, the right of independent thought, the right of dissent, without danger of being cast into the gloomy framework of treachery or evil intentions. I am not really concerned about Professor X, singly or in his relatively small group. He may be addled, he may be unwise in his utterances, he may be dangerous in a limited way and in limited scope. He certainly may be wrong in his beliefs.

Who Is To Judge?

But who is to say? Heretics have been persecuted throughout history. Truth somehow prevails. We cannot be fearless in the face of truth yet fear the effect of heresy.

From investigation, incrimination, and attack, a miserable dissenter may here and there be brought to heel. There may be tracked down a few professors, who, in the early 1940's, espoused some aspects of the Russian cause.

But these investigations may go to such lengths that professors out adventuring on the frontiers of the social sciences, or in any other discipline, will fear to express themselves; they will succumb to the temptation to play it safe, else in some unforeseen day, in another framework of social and political attitudes, their words may be used to the detriment of their careers.

Professors Must Profess

The teaching profession must not be driven from its traditional stronghold of free speech to a position where it will fear to stand up and be counted. With academic tenure goes the responsibility for a clear and forthright definition of one's views. These professors of ours must have the right to profess; they must not be scourged from the public forum,

else eventually only conformists will enter the teaching profession, leadership in the realm of ideas will wane, and the universities will sink to mediocrity.

(Continued on page 48)

Gibson '08 Heads Council

EDWIN T. GIBSON '08 (above) has been elected chairman of the Cornell University Council and twenty-three alumni have been added as members. Gibson succeeds University Trustee Francis H. Scheetz '16, who has been chairman of the group, now numbering 310 Cornellians throughout the country, since it was established in 1950 to assist in the long-range development of the University. Scheetz is now first vice-chairman. Other officers are Henry L. O'Brien '21, second vice-chairman, and Mrs. George H. Hill (Dorothy Lampe) '26, secretary. The Council will hold its third annual meeting in Ithaca, October 2 and 3, the arrangements committee headed by John P. Syme '26.

Elected an Alumni Trustee of the University last year, Gibson was chairman of the Council's corporation committee which developed the plan of University cooperation with business and industry through the Cornell University Associates. He is vice-chairman of the planning and development committee of the Board of Trustees. After retiring as executive vice-president of General Foods Corp. in 1951, he served as deputy and acting administrator of the Defense Production Administration in Washington. Recently he has been associated with the General Assembly of Columbia University. He served two terms as president of the Cornell Club of New York. Gibson played Varsity football three years; received the LLB in 1907; is a member of Phi Kappa Psi, Phi Delta Phi, Savage Club, and Quill & Dagger. He lives in Bronxville; is the father of Edwin C. Gibson '53.

New members of the University

Council are John C. Wilson '06, William J. Thorne '11, Walter O. Kruse '12, Howard J. Carey '13, Frederick E. Norton '13, Charles E. Carey '15, H. Follett Hodgkins '15, Howard C. Will '15, Francis O. Case '16, William S. Vanderbilt '17, Joseph L. Eastwick '18, Norman E. Elsas '18, Theodore L. Eschweiler '19, Edgar M. Queeny '19, Sigurd B. Swanson '21, Milton G. Dexter '24, Walter W. Buckley '26, Max M. Savitt '26, L. Irving Woolson '26, Bertel W. Antell '28, Edward G. Johnson '28, James P. Stewart '28, and Joseph E. Griesedieck '40.

Ernest R. Acker '17 was elected to the administrative board of the Council, representing the Alumni Fund, and Charles C. Coleman '12 and Mrs. Thomas T. Mackie (Helen Holme) '26 were also elected to its membership.

More Classes Start NEWS

CLASSES of '16 and '21 men start new columns of Class news with this issue on pages 57 and 58. These make ten men's Class organizations which now send the ALUMNI NEWS to their members, with their own correspondents writing their Class columns.

This plan of Class group subscriptions and Class columns in the NEWS is patterned after that started many years ago by Princeton and Dartmouth classes, which they credit for their effective organizations. At Cornell, it was begun by '19 men in 1947 and in the six years it has been adopted by nine other Classes whose regular columns now appear under "News of the Alumni." Several more Classes are nearly ready to start.

Sending the NEWS to all members and thus keeping them informed about their Classmates and the University has greatly broadened the interest and support of members for Class programs. It has also brought renewed personal enjoyment to hundreds of alumni in their relations to the University and with their Cornell friends and Classmates.

Most Classes that buy group subscriptions pay for them from annual Class dues which they collect from their members. Some are also financing other Class activities from their dues. Complete information about the plan can be obtained from the ALUMNI NEWS office.

Get Harvard Degrees

ADVANCED DEGREES were awarded to sixteen Cornellians at Harvard, June 11. The MA was received by Peter Goldman '51, James D. Livingston '51, Theron S. Piper '52, Alan D. Silvera '52, and Stephen J. Tauber '52. The MBusAd was granted to Carl Ching-te Wu '42, William G. Papsco, Jr. '46, Dayton E. Livingston '51, and Richard L. Ver-

kouteren '51. George L. Kustas '44 and Irwin Spear '45 received the PhD, and Frederick Blumberg '50 and Richard L. Ottinger '50 were awarded the LLB. Jack G. Clarke '52 received the LLM; Barbara Lee '48, the MEd; and Earle N. Rothbell '50, the MD.

Thirty-five Years Ago

September, 1918—The statue of Ezra Cornell is now in position midway between Morrill Hall and McGraw . . . First Lieutenant Edward M. Urband '13 drove down his second enemy plane, August 19. . . Daniel A. Reed '98 has been nominated for Congress on the Republican ticket in the Fortieth Congressional District. The district is normally Republican.

Ten Years Ago

September, 1943—The Widow has gone into hibernation. Publication is suspended for the duration; the office file of bound volumes is deposited in the University Library; Mrs. Fanny Ogden Smith retires, October 1, after thirty-two years of service. She and Business Manager Jacqueline Frost '45 of Ithaca plan to keep the downtown office open until then. Founded in 1894, The Widow was the only student publication to keep going through the last war, when it was published irregularly, whenever the editors were able to collect enough cartoons, comedy, and advertising for an issue. This year there are still a few jokes lying around, but editors, paper stock, and advertising are scarce. . . . Houseparties bloomed wanly in the mid-summer heat last month. Delta Chi, Phi Delta Theta, Sigma Alpha Epsilon, and Sigma Chi, seizing the opportunity before the threatened occupation by the Army, joined for a party, with imports and all the trimmings. Members of some half-dozen other houses, already fallen to the AEF, joined in, along with some Naval guests. . . . Cornellian "cats," if any, may be interested that the University alumni list includes two Glenn Millers, a Harry James, a Benny Goodman, four Artie Shaws, a Kay Kyser, a Glenn Gray, and a Charlie Barnett. There is a Krupa, too, but not Gene; and we have plenty of Dorseys, but no Tom or Jimmy . . . A recent New York Sun column, "Who's News Today," calls Delmar G. Roos '11 "the jeep's daddy." According to The Sun, reports of the jeep's success in the Sicilian campaign must make Roos say happily, "that's my baby." In the first World War he designed special staff cars for General Pershing and worked on the Liberty motor.

Now In My Time!

Comyn Perry

A SUBSCRIBER wrote, "Whatever became of the Totem Pole and where did it come from, anyway?"

Being a little foggy on totem poles at the moment, your historian attempted to avoid laborious research in hot weather by putting the same question to a couple of Trustees and also to an equal number of high-powered executives occupying subordinate positions of responsibility in the administration of the University. All four replied in substantially the same terms: "What totem pole?"

But be assured we learn from other sources that all's well with the Totem Pole. It now stands, thirty-five feet high, on a site of honor and respect in the Arnot Forest, twenty miles south of the Quadrangle. It's been there since 1927 and is in a reasonably good state of preservation considering all it's been through.

The Totem Pole arrived on the Campus in 1902 through the good offices of the late Bernhard E. Fernow, Dean and Director of the School of Forestry, who, in 1899, had been one of a group of scientists who visited Alaska and explored its unknown resources, backgrounds, and chances of development as the guests of E. H. Harriman, the railroad tycoon. In a long-deserted village of the Tlinket Indians, they had found a striking collection of totem poles and it was one of these which found its way to Ithaca.

Too large to go in the museum, the Totem Pole was first set up in the angle where the driveway left Central Avenue to circle 'round in front of Sage College. After a brief sojourn on that site, it was moved to a spot near the northeast corner of the Old Armory where it was protected by a circular iron-pipe fence, and where it remained undisturbed until 1922. Then it was found to stand in the path of the elaborate system of trenches which had to be dug to house the pipes which were to carry steam (and now do) from the East Ithaca Heating Plant to the entire University. So the Totem Pole was removed by practical men without the use of anesthetics and allowed to lie prone beside its former location through the winter of 1922-23. In the spring it was picked up and placed on a pile of used lumber back of the old Heating Plant, where it remained until 1927 when it was removed to

the Arnot Forest as indicated.

We are glad to report that the Totem Pole suffered little from its years of abandonment and neglect. True, some of the grotesque beaks, snouts, and devil marks which protruded from it and doubtless meant much to the Tlinket Indians, but nothing at all to the Department of Buildings & Grounds, had been broken off, but a group of young women on the University staff did some effective repairs as a labor of love, and restored some of the original primitive colors, until now the Totem Pole looks much as it did when it reached Ithaca. Standing there in one of the dark aisles of the Arnot Forest, it would be calculated, we'd suspect, to frighten horribly any trespassing 'coon hunter who came upon it suddenly in the night.

The Arnot Forest? That's a tract of 1750 acres down in the Jackson Hollow country under Irish Hill, where Tompkins, Tioga, and Chemung counties come together. It's one of Cornell's many outdoor laboratories which now extend far beyond the skyline. It was owned and lumbered off more than a century ago by the late Mathias H. Arnot of Elmira, whose heirs conveyed it to the University in 1927 as a laboratory. It's being used for experimental studies in reforestation, water conservation, forest cropping, and the trial of new types of trees which might possibly take the place of the chestnuts which are gone and the elms which are menaced.

The second growth was pretty well along in 1927, and the tract had become an almost inaccessible wilderness, but during the depression a CCC camp was established there and the boys, under scientific direction, did wonders in reducing the fire hazard and creating new trails and service roads without destroying the wild characteristics of the area. Studies that have been going on down there now for more than twenty-five years promise, we are told, findings which may prove useful in restoring some of the outraged and eroded hillsides of America.

The Arnot Forest is pretty wild and no place for picnics, but it's valuable to more than the forest people. The botanists, ornithologists, and zoologists use it to their advantage and in the situation we've been talking about, it has proved an appropriate and merciful sanctuary for an innocent Totem Pole that in its old age had the misfortune to get in the way of the Committee on Campus Development and the Department of Buildings & Grounds.

INTELLIGENCE

Emerson Hinchcliff '14

BLUEBERRIES exist in the Ithaca area, too. Exist is the word, because they don't really live, the puny little Preliminary things. You have to go Blueberry miles (to the top of Connecticut Hill) to find them, Report and then they are so small, dry, and seedy that I don't even mind hearing people call them huckleberries. I leave shortly for the Litchfield Hills in Connecticut, where the highbush blueberries grow, and hope and pray that the season may not be entirely past. Then I run over to Boston to check up on the cranberry crop, so you will probably hear from me later. I wanted to get this interim report in before the approaching deadline.

* * *

You will surmise that we have spent most of the summer in Ithaca, and very nicely, too. There have been Summer only a couple of really hot in Ithaca spells, and they could be tempered by swimming in Beebe or at Enfield. In fact, it has been so cool that there have been almost no picnics; what there were were very nice. It has been fine golfing weather.

My previous experience with an Ithaca summer was in 1943. It was during V-12 days, when the University was running three terms. I had a full teaching schedule, it was hot, my wife had a broken leg, and my recollections are not wholly happy ones. Now I can't see why more alumni don't follow the example of the widow of a 1911 man who has come to Summer School, is living in the dorms, and is thoroughly enjoying her courses in English literature and in painting. There is always plenty going on of lectures, plays, dances, etc., for idle time.

Attendance is down a bit at this year's Summer Session. I've heard that it is true elsewhere, as well. Perhaps it is due to the possibility that some of the post-war earnestness and drive on the part of teachers to get in summer study may have declined. Easier travel in Europe may have had an influence. In any event, there is never any shortage of accommodations here at this season, so come along next year.

I must recount a little testimony as to the beauty of Ithaca. A friend from Bogotá, Colombia, came here with his son, who needed a little extra work in Cascadilla School to get into Sibley next fall. The father so fell in love with the place that he stayed ten days himself. One Sunday morning, they tramped the Campus and down into Fall Creek gorge and after dinner I took them

swimming. Papa was dozing as I drove up the Mecklenburg Road on West Hill to a spot where you get a stunning view across the valley to East Hill and the Campus. When I nudged him awake he took one look and gasped: "My God!" Coming from a man who knows the Andes and the Alps, it was quite a compliment!

Hinsey Medical Center Head

DEAN JOSEPH C. HINSEY (above) of the Medical College has been appointed Director of The New York Hospital-Cornell Medical Center. He succeeds Dr. Stanhope Bayne-Jones, for the last six years President of the Joint Administrative Board of the Center, who retired, June 30, to become civilian technical director of research of the Army Medical Research & Development Board. Speaking for the Board of Trustees of the University and the board of governors of The Society of The New York Hospital, John Hay Whitney, chairman of the Joint Administrative Board, said that Dr. Hinsey will be responsible for the formation of policies and an over-all program for the Center. Dr. Hinsey will give up his duties as Dean of the Medical College and professor of Anatomy to devote full time to the direction of the Medical Center. He says, "I am still in the employ of Cornell, and devoted to its progress."

A native of Ottumwa, Iowa, Dr. Hinsey received the BS in 1922 and the MS in 1923 at Northwestern University and the PhD at Washington University school of medicine in 1927. He was awarded the honorary DSc by Northwestern in 1951. Following an instructorship and assistant professorship in neuroanatomy at Washington University school of medicine, 1924-28, he was assistant and associate professor in neuroanatomy at Northwestern medical school, 1928-30, and professor of anatomy at Stanford from 1930-36. At Stanford, he was faculty representative in athletics. He joined the Medical College in 1936 as professor of Physiology and head of that Department. In 1939, he became professor and head of the

Department of Anatomy and has held that responsibility since he became Dean of the Medical College in 1942. Since 1942, he has been a Faculty representative on the University Board of Trustees and he has also been Associate Dean of the University Graduate School.

During World War II, Dr. Hinsey was consultant to the committee on neurosurgery of the National Research Council and directed research dealing with nerve injuries and with crash injuries in military airplane accidents. Out of the latter program has developed much of the present-day work in safety in air travel, a field in which the New York Hospital-Cornell Medical Center continues to play an important role. Dean Hinsey was president of the Association of American Medical Colleges in 1950 and has been chairman of its executive committee since 1947. He is a trustee of Sloan-Kettering Institute and the China Medical Board, national president of Nu Sigma Nu medical fraternity, and a member of the board of managers of Memorial Hospital in New York City. He served on the committee to survey medical education sponsored jointly by the American Medical Association and the Association of American Medical Colleges in 1948-53 and was a member of the President's Commission on the Health Needs of the Nation in 1952. He is a member of the committee on professional services and publications of the National Foundation for Infantile Paralysis and of the advisory committee on medical education and research to the Medical Director of the Veterans Administration, and was active in starting the National Fund for Medical Education which is devoted to better financing of medical schools.

Dr. Hinsey is a member of Phi Delta Theta, Phi Beta Kappa, Sigma Xi, Alpha Omega Alpha, and other social, medical, and scientific societies and has contributed extensively to medical journals. He has been elected an honorary member of the Cornell Classes of '13, '20, and '22. He and Mrs. Hinsey are ardent followers of Cornell athletic teams. Their daughter was Elaine Hinsey '49, whose husband, Donald P. Reynolds '52, is in the Law School, as is their son, Joseph Hinsey IV '53.

British Offer Grants

MARSHALL SCHOLARSHIPS for Americans to pursue graduate study at any British University will be awarded for the first time for the academic year 1954-55. Established by the British Government "as a gesture of thanks for Marshall Aid, in gratitude for America's generous and far-sighted program for European recovery," twelve scholarships will be granted annually, each for a two-year period which may be extended to

three. Each award will be £550 a year in value, with £200 a year extra for married men. Transportation will be provided to and from any university in the United Kingdom.

US citizens, men or women under twenty-eight years old, graduates of accredited American colleges or universities, are eligible. Scholars will be selected for "distinction of intellect and character, as evidenced both by scholastic attainment and by other activities and achievements," with preference given to candidates who combine high academic ability with the capacity to play an active part at the university of their choice.

Applications for 1954-55 scholarships must be made by November 1, 1953. Details of the awards may be obtained from British Information Services (Education), 30 Rockefeller Plaza, New York City 20.

Adds To Movie Photos

UNIVERSITY THEATRE collection of motion picture "stills" has received 1100 photographs from George F. Dembow, vice-president of National Screen Service Corp. in New York City. The gift came through his son, George F. Dembow, Jr. '54. The photographs, of actors and scenes from American films produced since World War 2, were used by NSS in its publicity work for the major film companies. They fill an important gap in the collection, according to Professor Walter H. Stainton '19, Speech & Drama, and will be of considerable historical importance.

The University Theatre collection now numbers about 8000 stills covering the motion picture industry since its beginning at the end of the 19th century. Especially fine is its collection from films produced in Ithaca between 1914 and 1921.

Courses for Executives

BUSINESS and industrial executives are enrolling for special courses on "Human Relations in Administration" which the School of Industrial & Labor Relations will offer this fall and winter. November 1 through 25 and again January 17 through February 12, 1954, the School will conduct intensive courses of four weeks each for not more than twenty executives from business and industrial firms. A fee of \$750 covers the cost of instruction, books and other study materials, and five luncheons and two dinners a week where discussions will be held. Other meals and living costs are extra.

Members of the Industrial & Labor Relations Faculty and invited visiting lecturers and discussion leaders will conduct classes and clinics, Mondays to Sat-

urday noons, on the practical aspects of leadership within the company, human relations, employee relations, and related subjects. This year's courses are patterned after a similar course given successfully for fifteen participants from as many companies last January and

February. Details of the program, with names of those who attended last winter and application forms for this year, are contained in a booklet which may be obtained from the School of Industrial & Labor Relations, Cornell University, Ithaca.

Trustees Appoint Deans and Faculty

BOARD OF TRUSTEES at its Commencement Day meeting approved several administrative and Faculty appointments and promotions.

Consumption, Vaile and Canoyer, published in 1938; and Economics of Income and Consumption, Canoyer and Vaile, published in 1951.

Helen G. Canoyer (above), professor of marketing and economics at University of Minnesota, is appointed Dean of the College of Home Economics, to succeed, September 15, Dean E. Lee Vincent, who is retiring after six years at Cornell. Miss Vincent will teach and write as a member of the staff of Pennsylvania College for Women at Pittsburgh. A member of the Minnesota faculty since 1928, Miss Canoyer received the BS there in 1925 and later also the MA and the PhD. She has been a member of the graduate committee of the school of business administration. In 1942, Miss Canoyer served as economic analyst in the Food Section, Consumer Program of the WPB in Washington. In 1944-45, she was economist in the distribution division of the Bureau of Foreign & Domestic Commerce in the Department of Commerce, and in 1945-46 was assistant chief of the Division of Research & Statistics, Office of the Alien Property Custodian. In Minneapolis, she was editorial chairman of the Marketing Association Journal and is a past president of the Association. She also helped organize and has been active in the affairs of the Minneapolis Economic Education Conference for Homemakers. Her books include Income and

Professor Sanford S. Atwood (above), Plant Breeding, is Dean of the Graduate School for a five-year term, succeeding Professor Charles W. Jones, PhD '32, English, whose term expired June 30. Professor Atwood has been a member of the Faculty since 1944 and head of the Department of Plant Breeding since 1949. He will continue for the time being as Department head. He has served on the general committee of the Graduate School, the library committee of the College of Agriculture, the board of managers and governors of Willard Straight Hall, the board of directors of Algonquin Lodge, and the board of directors of Cornell-in-China. Professor Atwood received the BA, MA, and PhD at University of Wisconsin. From 1937 until he came here, he was an agronomist with the US Regional Pasture Research Laboratory in State College, Pa. A fellow of the American Society of Agronomy, the New York Academy of Sciences, and the American Association for the Advancement of Science, he is widely known for his work in improving forage crops and has written extensively on the subject. He has been a consulting editor for the American Journal of Botany and is a member of Phi Beta Kappa, Phi Kappa Phi, Sigma Xi, Alpha Chi

Rho, and many professional societies.

New Director of the Summer Session is Professor Lloyd H. Elliott, who has succeeded Professor Frederick H. Stutz '35, Secondary Education. Professor Elliott came to the University in 1948 as assistant professor of Rural Education, was promoted to associate professor of Secondary Education in 1950, and became associate professor of Educational Administration in 1952. He has been active in surveys and as a consultant for public schools. In 1950-51, as adviser on curriculum to the State Department of Education of North Carolina, he was instrumental in shaping a broad program to strengthen the State's public schools. Professor Elliott is a graduate of Glenville, W. Va., State College and holds the MA from West Virginia University and the DEd from University of Colorado.

Changes in Purchasing Department

George S. Frank '11, Manager of Purchases at the University since 1921, resigned from the position July 1 and has been appointed to serve as special consultant until he retires next June 30. Assistant Manager John Jordan, Jr. '29, who has been with the Purchasing Department since 1930, has succeeded Frank as Manager of Purchases. Assistant Manager Philip J. Krebs '33, seventeen years with the Department, has taken over Jordan's duties.

Alfred L. Baldwin, professor and chairman of psychology at University of Kansas, will join the Faculty, September 16, as professor of Child Development & Family Relationships and head of the Department. He received the AB in 1935 and the MA in 1936 at Kansas and the PhD in 1941 at Harvard. Since 1950, he has been a consultant to the Veterans' Administration.

Two Come to Law School

William T. Dean, associate professor of law at New York University since 1947, became associate professor of Law, July 1. A 1937 graduate of Harvard, with the JD from University of Chicago and the MBA from Harvard School of Business Administration, he was assistant legal adviser in the Fuel Section of the Office of Price Administration, an intelligence officer with the Board of Economic Warfare, and a special attorney in the Boston office of the Anti-Trust Division of the Department of Justice. Enlisting as an Army private in 1943, he became a captain before his discharge in 1946; was control officer at the San Francisco Port of Embarkation, then historical officer with the 96th Infantry Division in Leyte and in the War Department's historical division in Washington. He taught at the University of Kansas law school in 1946-47. Professor Dean won the American Bar Association's Ross Prize in 1947 for an

essay on "International Legislation." He is co-author of Illinois Annotations to the Restatement of Torts and is preparing a casebook on The Conflict of Laws.

Appointed assistant professor of Law is Harry G. Henn '43, who has been with Whitman, Ransom, Coulson & Goetz in New York City since he received the LLB With Distinction at the Law School in 1943. He is author of Magazine Rights: A Division of Indivisible Copyright and has contributed to professional journals; is a member of the UNESCO copyright panel; and from 1944-47, was a director of Volland & Sons, Inc., New Rochelle. He graduated at NYU in 1941 and received the DJS there last year.

Join College of Agriculture

Carlton E. Wright, PhD '43, returned to the Campus, August 1, as associate professor of Food Information in the Office of the Director of Extension. From 1944-47, he was director of the New York State Institute of Agriculture at Cobleskill; in 1947-48, he was director of research and publications for the American Vocational Association in Washington, D.C.; and since 1948, he has been Extension economist in marketing with offices in New York City.

Charles G. Sibley, assistant professor of zoology at San Jose, Cal., State College since 1949, will come here October 1 as associate professor of Ornithology. He received the AB in 1940 and the PhD in 1948 at University of California.

Clifford O. Berg, a member of the

Ohio Wesleyan faculty since 1947, joins the Department of Entomology as associate professor of Limnology, September 1. He received the AB in 1934 at Luther College, the MS in 1939 and the PhD in 1949 at University of Michigan.

Faculty Promotions

Promoted to professor are P. Paul Kellogg '29, Ornithology & Biological Acoustics, and Drs. Claude E. Forkner, Clinical Medicine, Preston A. Wade '22, Clinical Surgery, and John A. Evans '35, Clinical Radiology, at the Medical College in New York. Promoted to associate professor are Fred W. Ocvirk and Robert E. Bechhofer, Mechanical Engineering; Nicholas Rott, Aeronautical Engineering; Mary B. Wood '37, Economics of the Household & Household Management; Robert L. Aronson, Industrial & Labor Relations; Malcolm C. Peckham '50, Pathology & Bacteriology, Veterinary College; Mary Klein, Surgical Nursing, Kathleen Newton, Nursing, and Henderika Rynbergen, MS '38, Sciences, at the School of Nursing in New York; and at the Medical College, Drs. William J. Grace '42, E. Hugh Luckey, and George G. Reader '40, Medicine; Aaron Kellner, Pathology; Charles J. Kensler, PhD '48, Pharmacology; Milton L. Kramer, Charles H. Wheeler '35, and Byard Williams, Clinical Medicine; George F. Egan, Ernest W. Lampe, Norman Treves, and Willet F. Whitmore '42, Clinical Surgery (Urology); and Harry W. Burnett, Clinical Radiology.

Alumni Attend Seminar—Attending a week-long seminar at the School of Industrial & Labor Relations for business executives on health, welfare, and pension plans beginning July 27, were (left to right) Donald S. Pond '34, assistant director of personnel services, Carrier Corp.; Andrew P. Murray '33, personnel director, Greenbriar & Cottages, White Sulphur Springs; James M. Davidge '34, personnel assistant, New York State Electric & Gas Corp.; Anton B. Lind '26, personnel manager, Beacon Milling Co.; and G. Gilson Terriberry '15 of The G. Gilson Terriberry Co., New York City, who was lecturer in the course.

Photo Science

Summer is Busy at University

THE CAMPUS showed its usual summer "busyness" during July and August with the regular Summer Session, many conferences, and energetic activities of the Department of Buildings & Grounds. There was a drop in enrollment at the Summer Session, July 27-August 15: 1237 students in comparison with last year's 1508.

Buildings & Grounds force is busy on two major remodeling projects that are expected to be completed this fall: the complete reconstruction of two floors of Barnes Hall for a bigger and better Campus Store, and the conversion of the President White House into an art museum, dormitory for women graduate students, and office for President Mallott. On the two new building operations, Teagle Hall for athletics and the six men's dormitories, underground utility lines were laid. First floor of the south wing of Sage College has been renovated to add rooms for women students and staff and two cottages in the Circle are remodeled. The reroofing of the University Library, begun last season, was completed.

A new apple storage and sales building is being completed at the University orchards on Dryden Road. The building has general storage for 22,000 boxes of fruit, seven small experimental storage rooms, an air-conditioned laboratory, and a sales room. A wing was added to the General Electric Advanced Electronics Center at the East Hill Airport. Rooms in McGraw Hall were remodeled for the expanded program of the School of Business & Public Administration and a new laboratory and dark room was added in Lincoln Hall for the Aerial Photographic Studies Center. Extensive redecoration is done in Balch, Clara Dickson, Prudence Risley, and Cascadilla Halls and the Circle cottages. Department workers also repointed the stonework of the University Library and Barton Hall.

Triphammer Bridge was closed briefly to traffic in July for Standard Engineering Corp. to repair the stringers supporting the deck. This was done by the City of Ithaca and after it was finished, the Department of Buildings & Grounds renewed its steam line over the bridge.

First annual executive development program of the School of Business & Public Administration, July 13-August 22, for lawyers, engineers, and other specialists to prepare them for management positions, was attended by eighteen. John J. Corson, manager of the Washington office of McKinsey & Co., management consultants, directed the six-week course, assisted by other guest specialists and members of the Faculty. The heavy schedule had the students at

work six days a week. Mornings were taken up with seminars; afternoons, with lectures and reading sessions. The group lived together in the Psi Upsilon house.

Schools, Meetings Run Continuously

Another first this summer was a Sales & Management School for Retail Florists, July 19-22, which brought some 500 of them to the Campus. Among the many specialists who spoke were Joseph E. Howland, PhD '45, garden editor of *House Beautiful*. School of Industrial & Labor Relations offered four seminars for executives on subjects of current concern to industrial, labor, and government organizations. These intensive one-week courses were on health, welfare, and pension plans; personnel selection and placement; conference leadership; and communications and community relations. They were limited to twenty-two students each. Visitors from government and industry supplemented Faculty instruction. Seventy-eight bankers attended the Banker's School of Agriculture, August 17-21. Registration for the school, which began in 1946 and is the first of its kind in the country, was the highest ever. Fifty-nine other bankers, either graduates of the school or executives of rural banks, participated in a Bankers Seminar in Statler Hall, August 16-17.

Others among the almost continuous summer conferences were a New York State Society of Newspaper Editors meeting, School for Highway Superintendents, New York State Conference for Homemaking Teachers, Work Conference for School Administrators, Poultrymen's Get-together, New York State Attendance Association Conference (The truant officer, villain to generations of errant school children, is being replaced by the professionally trained attendance teacher.), and the Institute of International Relations under the auspices of the American Friends Service Committee (Theme: "How American Foreign Policy Looks to Our Friends Abroad." One of the speakers: Homer A. Jack '36, Unitarian minister from Evanston, Ill.).

Summer Session extracurricular program was extensive and interesting. It included four evening concerts and many lectures. Professor Mario Einaudi, Government, spoke on "Europe after Stalin," and Visiting Professor John H. Franklin, History, discussed "Book Burning" in American History." Professor Arthur A. Allen '08, Ornithology, Emeritus, gave four illustrated lectures; Alfred S. Romer, director of the museum of comparative zoology at Harvard, spoke on "Redbeds Fossils and the Evolution of Land Animals," and Frank

Banquet Speaker—Donald McMaster '16, vice-president and general manager of Eastman Kodak Co., Rochester, spoke at the closing dinner of an Institute conducted by the School of Industrial & Labor Relations, June 29-July 2, for about eighty-five persons sent by their companies to get latest information on employee-training.

Warner, president of the New York Folklore Society, lectured on "Folk Songs of the Eastern Seaboard."

Summer Players of the University Theatre added much to the entertainment of students and visitors with three commendable productions in the Willard Straight Theater. They opened successfully with Lillian Hellman's "The Autumn Garden," July 17 and 18. Most of the cast who appeared in the recent Laboratory Players' production were on hand to repeat their fine performances. George Bernard Shaw's "Overruled," presented with a curtain raiser, the medieval farce "Master Pierre Patelin," July 31 and August 1, seems to have scored the best with audiences and critics. In the Shaw satire in which two happily-married Englishmen by coincidence engage in harmless, extra-marital escapades with each other's wives, John G. Lind, PhD '51, English, played Gregory Lunn; Roderick Robertson '50, Juno; Mrs. Lind (Eleanor Ringer), Grad, Mrs. Juno; and Grayce Burian, Grad, Mrs. Lunn. The four had good direction from William D. Hammack, MA '50, and his assistant, Betty B. Burkhalter, MEd '53. Productions of W. Somerset Maugham's "The Circle," August 7 and 8, closed the Players' season.

Chicago Club Officers

CORNELL CLUB of CHICAGO, Ill., at its annual meeting, July 2, elected Richard D. Culver '36 its president. Benjamin H. Weisbrod '14 and John H. Brodt '13 were elected vice-presidents; Shirley C. Hulse, Jr. '37, secretary; and James S. Perkins '33, treasurer.

On The Sporting Side

By "Sideliner"

Football Prospects

COACH GEORGE K. JAMES, the forty-eight-year-old thin man, is preparing with vigor and enthusiasm for the start of his seventh year as head coach of Varsity football. Seven is a number peculiarly associated with fortune, and there is more than a little significance to the role it will play for Coach James and his football team in 1953.

The year 1952 was a poor one for the highly successful Mr. James, who has won 35 games and lost 19 in his six years as head coach. It is his eighteenth on the Cornell coaching staff. His team won two and lost seven last year. The two wins were against Columbia and Dartmouth and the season ended with a wrenching loss to Penn, 14-7. The best football played all season was shown against Penn and an enthusiastic star war born, Guy H. Bedrossian '55, whose valiant fullbacking on Thanksgiving Day deserved to be for a winning cause.

Sophomores Must Carry the Ball

In any case, Coach James begins the season '53 after his poorest, and one of the poorest in Cornell history, and he must depend on Sophomores to bring Cornell football out of the shadows and into the light of new loveliness and they are, worse luck, Sophomores who have not had the chance to work into the Varsity atmosphere through spring drills. So it would not be surprising if the slender coach were a little trepidatious as he approaches September 26 and Colgate, Rice Institute the following week, and Navy, the third. The weeks to follow are equally as rigorous: Yale, Princeton, Columbia, Syracuse, Dartmouth, and Penn. But the opening three are exceedingly tough for a young team. In fact, Coach James feels strongly that the Colgate game will be a tip-off on the whole season. He is pointing with unusual deliberateness to this one, especially after the 14-7 loss of last year. Colgate publicity sounds the most blatant note of confidence heard from there in eleven years.

Rice has been selected by a poll of sports writers as the outstanding team in the Southwestern Conference. And according to Coach Jess Neely, "it should be our best team since 1949." Rice won the Southwestern title in 1949. Navy had its best team in seven

years last season and expects a better one this year. It looks as though Coach James's Sophomores are going to be facing calculus problems when they are better able to cope with elementary algebra! By the time they get to the Ivy part of the schedule, they could conceivably be discouraged, broken men; looking as old as Juniors and as adept as alumni!

But there is no such predictive dirge coming from the coaches' office at Schoellkopf. This busy little hive, whirling movie projectors and fast talk making it sound like a combination of ladies' bridge day at the club and a sewing machine factory, echoes a brighter, gayer tune. One of the reasons for this reminiscent outlook is administrative and is due to the return from Korean service of Major Louis J. Conti '41 of the US Marine Air Corps, who has reassumed his position as line coach and director of scouting. The other assistants are all on duty too: Arthur B. Boeringer, Robert L. Cullen, Patrick J. Filley, Harold F. McCullough '41, and John J. O'Neill.

To go with the aforementioned Bedrossian, there are the halfbacks from last year: J. Albert Sebald '54, Anthony D'Agostino '54, Lloyd R. Walters '54. There are good Sophomore halfbacks in the persons of E. Richard Meade, Richard C. Jackson, and Daniel F. Begin. Begin, a star on the 1951 Freshman team, was ineligible last season. And at quarterback, there is the already celebrated William DeGraaf '56, the very talented T-quarterback on the 1952 Freshman team, who should add lustre to this all-important key position. Herbert J. Bool '54 has the experience at this post, but presumably not the glitter of the youngster DeGraaf. Both have their attributes, however, and their purposes in the plans of Mr. James and both will be utilized.

The ends are good. The veterans are Thomas S. Rooney '55 and Frank K. Hummel '54. They will be abetted by Sophomores Stanley V. Intihar, Richard F. Stoffe, and Bruce V. Brenner, and by Richard S. Mathewson '55 who was injured in pre-season practice last year and did not play.

Veteran tackles are Captain William I. George '54, Charles K. (Poe) Fratt '54, James K. Van Buren '55, and John H. Gerdes '54. Freshman tackle Alex-

ander A. Lazzarino busted out in June, so William J. Purdy will be the only Sophomore of proved ability. Guards are Stanley Tsapis '54 and Leonard J. Oniskey '55. Both are experienced. Both are talented. Sophomores Lee A. MacKenzie and John R. Trueman will be helpful. Dennis J. Murphy '55 is the center from last season, and this position is a problem. The coaches are trying to figure a personality from another position to help Murphy with his job.

The squad convenes September 2 for pictures, physical examinations and uniforms. Practice will begin on Hoy Field the morning of September 3. Coach James has invited forty-seven men to report. This is the lowest since 1942. The return to one-platoon football is responsible for this. For the first time, the players will live off Campus until the University opens. They will sleep and breakfast at the old Preventorium on Taughannock Boulevard, about ten miles from the Campus. This will keep the boys together and available for evening sessions. Coaches and trainers will stay with the squad while they are there, September 2-17.

Coach Gives the Answers

These questions in connection with the rules changes and other related subjects were put to James and answered by the coach:

Q. What changes are you planning in coaching methods?

A. Coaching techniques and organization will be entirely changed. In the last five years, the coaches became more or less specialists in their training and teaching. This year, the assistant coaches will be called upon to work on all phases of the game.

Q. How will you divide your players who have used up their time in first and third quarters; second and fourth?

A. Since the coach is solely responsible for substitutions, I plan to make up a chart that will be checked by one of the managers who will have this chart available at all times. I am also planning to use a separate bench for players who have been substituted and will not be eligible to re-enter the game until the end of the quarters or the four-minute periods at the end of the second and fourth quarters.

Q. Will you continue the same "T" formation? Please explain.

A. I contemplate no change in our offense; in fact, I plan to use more of an open style of football than we have used in the last five years. This, naturally, is due to the type of player we will have on the squad this year.

Q. What is your present feeling about the one-platoon system?

A. When the new rules were first passed, I was very definitely against the change. Since then, I have talked with quite a few of the college coaches who have had a chance to study the one-platoon in spring practice and, surprisingly enough, some of those coaches who were against the rule changes are all for the present rules. I still think the new rules will prevent quite a few boys from playing college football and this has been one of my biggest objections. Small squads will be easier to work with, as the one-platoon system will force the coaches to concentrate more on teaching the few boys who will be playing in the games. This year, instead of inviting

sixty-five players, my squad will be limited to forty-seven.

Q. What changes are contemplated in use of personnel: guards into ends, ends into backs, etc.?

A. In past years, we have at times shifted personnel, such as guards into ends, etc., but this year we may be forced to change more than we have in the past. Coaches will have to select the best all-around athlete, rather than concentrating on the specialized type of athlete.

Q. Can you say anything about DeGraaf and the backs in general?

A. DeGraaf, as well as the other backs, with one exception, will be inexperienced but aggressive. Inexperienced men make more mistakes until they become adjusted to the type of football being played in colleges today.

Q. What about the line?

A. The line matches up about 50-50 with defensive and offensive players. Each one has been trained either on offense or defense and our problem again is to train these players both ways. Our line will be a little slower developing than the backs.

Q. Is there anything different about this squad as compared to the others you have had?

A. Yes, there will be a definite difference brought about by the rule changes. Where before we tried to find specialists for certain phases of the game, this year we will be forced to train the players to play both offense and defense.

Q. What about schedule?

A. Unfortunately, this year we play three of our strongest opponents at the beginning of the season. This will be a burden on the entire team, as three weeks of preparation is not enough time to match the strength and experience of teams like Colgate, Rice, and Navy. At present, I am planning to prepare two teams to meet this opposition, since we don't have boys that are physically equipped to play a whole game against such strong opponents. By the middle of the season when we meet Yale, Princeton, Columbia, Dartmouth, etc., I believe the experience gained from playing strong opponents will help us.

The schedule:

Sept. 26 — Colgate at Ithaca
Oct. 3 — Rice at Ithaca
Oct. 10 — Navy at Baltimore
Oct. 17 — Yale at Ithaca
Oct. 24 — Princeton at Princeton
Oct. 31 — Columbia at Ithaca
Nov. 7 — Syracuse at Ithaca

Nov. 14 — Dartmouth at Hanover
Nov. 26 — Pennsylvania at Philadelphia

New Captains, Managers

COMMITTEE on Elections & Awards ratified the following elections for 1953-54: Baseball, Donald P. Jacobs '54, captain; William D. Gohr '54, manager; Rowing, Peter W. Sparhawk '54, commodore; George R. Crook '54, manager; 150-pound rowing, Robert L. Hill '54, commodore; Bernat Rosner '54, manager; Track, MacAllister Booth '54, captain; James D. Buchan '54, manager; Golf, Thomas E. Peterson '54, captain; A. Richard Triebel, manager; Tennis, Clyde F. Barker '54, captain; John A. Golden '54, manager; Polo, Peter K. Johnson '54, captain; Norman W. Brand '56, manager; Lacrosse, Herbert J. Bool '54 and David M. Bradfield '54, co-captains; Robert E. Smith '54, manager; Sailing, Peter W. Eising '54, captain and manager.

The committee formally accepted sailing as a sport for which the "C" will be given.

Grumman '16 Gives Courts

GIFT of \$110,000 from Alumni Trustee Leroy R. Grumman '16 came to the University in July to provide squash courts. They will supplement the recreational facilities for men which will be provided in Teagle Hall, now under construction. A building with six courts and a gallery for spectators is being designed by Chauncey A. Thompson '25, architect in the Buildings & Grounds Department of the University. It will be erected near Bacon Cage and Schoellkopf Hall and is expected to be ready for use in January. The courts will be for use by all men students and intramural teams and it is hoped that squash

instruction may be included in the Physical Training courses.

Grumman is chairman of the board of Grumman Aircraft Engineering Corp. of Bethpage. He was elected Alumni Trustee this year for a five-year term starting July 1. He came to Sibley College with a State Scholarship in 1912 from Huntington High School and received the ME in 1916. His company has designed and manufactured fighter planes for the Navy and Grumman received the President's Medal for Merit in 1946, the Daniel Guggenheim Medal in 1948, the honorary Doctor of Engineering of Brooklyn Polytechnic Institute in 1950, and in 1952 was elected an honorary fellow of the Institute of Aeronautical Sciences. He is a member of Tau Beta Pi, Eta Kappa Nu, and Sigma Alpha Tau.

Mrs. Grumman was Rose Werther '19. David L. Grumman '56 is their son.

Early Football Rules

LONG-LOST rules of "Cornell football," which for many years kept other colleges from playing Cornell, were recently sent to the University by Malcolm E. Smith '23 of Falls Church, Va. He discovered a printed folder of the rules in an old letter written to his father from Ithaca, September 23, 1879, by the late Eugene A. Landon '80. Smith's father, then in Rochester, had inquired about the peculiar Cornell rules and Landon sent them to him. He explained, "I would state that in place of the rubber ball No. 6, spoken of in Rule 6, we now use a Rugby ball 12 inches in diameter and leather covered. The original cost is a little more, but the ball is more durable besides being heavier and hence fairer in a wind. The old-fashioned rubber ball will wear out very quickly, especially if used on rough ground or near buildings."

The enclosed "Football Rules" are signed by a Committee of Daniel F. Flannery '76, William P. Pickett '78, and Robert H. Treman '78. They read:

1. The goal posts shall be 30 feet apart, at least 15 feet high, with a cross rope 10 feet high.
2. The number of players in all class games shall be limited to 20 men on a side.
3. To win a game three goals out of five shall be necessary. To secure a goal the ball must pass between the goal posts, over the cross rope and touch the ground.
4. The choice of "goal" and "kick off" shall be determined by the captains. After a goal has been won sides shall be changed, and the losing side shall have the "kick off." The side having the "kick off" shall not advance in front of the line on which the ball is placed. The opposing side shall not approach this line nearer than 40 feet. At the beginning of each goal the ball shall be fairly kicked from the ground and not "babied."
5. Each captain shall choose an umpire for his side, and the captains shall together choose a referee.
6. In class games a No. 6 ball shall be fur-

First Intercollegiate Football Game—Cornell Era reported that "400 students stood on the cold, damp field and watched with intense interest the football game between Cornell and Union," November 12, 1877. Union won, 24-10. The field was on the present site of Edmund Ezra Day Hall, near the corner of the present Tower Road and East Avenue. Sage College is seen in the background of the picture and the former home of Professor Charles Babcock, Architecture, is at right.

nished by the challenging class and become the property of the victors.

7. The ball may be kicked or batted, but not thrown nor taken from the ground with the hands.

8. A ball shall not be held by any player unless he has made a "fair catch."

9. A ball having been caught on the "fly," i.e., having been caught from the person of any player since it touched the ground, shall constitute a "fair catch."

10. A player having made a "fair catch" shall be entitled to a "free kick." A "free kick" entitles a player to a space of 20 feet back of where the catch was made and 10 feet wide, from which space the ball may be kicked or batted but not placed on the ground. Or a player having made a fair catch may continue to hit or kick the ball while running, but will not be allowed to hold it.

11. A ball having been caught behind the goal after having passed between the posts and over the cross rope may be returned in the same manner.

12. When a ball passes out of bounds the referee, standing on the foul line with his back to the field, shall throw it in at least 10 feet from the point where it went out, and in a line perpendicular to the bounding line. The ball so thrown in may be batted or kicked but not caught.

13. In case of a foul on the field of play the referee shall throw the ball at least 12 feet into the air from the place where the foul occurred, when it will be subject to the rules of Article 12.

14. No tripping, shoving, pulling, striking or hacking will be allowed under any circumstances, but shouldering will be allowed. Any person who persists in violating this rule shall, after having once been warned by the referee, be ruled out of the game.

15. No one shall be allowed to have projecting nails, guttapercha or metal plates on any part of his shoes.

Cornell Football Association was organized in 1870, and in 1873 the Faculty ruled that "All baseball and football games [are] forbidden within 300 feet of the Campus buildings. One caught playing within this area shall be fined \$3 or suspended from the University for not less than a term." The Cornell Era in 1875 said: "Most colleges adopted the Rugby rules in football, but Cornell men insisted on employing a hybrid set of rules which combined soccer and Rugby with the broader manifestations of a free-for-all. This soon became known as 'Cornell football.'" For years, it was played only between Class teams, because other colleges would not play under the Cornell rules. In 1877, Syracuse tried to schedule a game, but refused to play when the Cornell team replied that they would play in Ithaca under their own rules. Finally, in 1887, new rules were adopted more in conformity with those of other colleges, and Cornell's first intercollegiate game was November 12, 1887, with Union, on the Campus, which Cornell lost, 24-10.

To Broadcast Games

CORNELL will be represented this fall for the third time in as many years in the National Collegiate Athletic Association's football television schedule. Last

year, it was the Yale game at New Haven, and in 1951, both the Yale and Princeton games were shown.

This year, the Cornell-Princeton game at Princeton, October 24, will be part of a new idea, called a panoramic program. Parts of four games will be shown on the NBC Television Network two Saturday afternoons, October 24 and November 17. The broadcast will flash from one game to another and attempt to pick up the most interesting parts of each. A monitor at a central point will be looking at the telecasts of the four games played at widely-separated places. The control of the switch from one game to another on the screens of the nation will be in his hands.

The October 24 games to be seen along with the Cornell-Princeton contest are Arkansas-Mississippi at Memphis, Tenn., Illinois-Syracuse at Champaign, Ill., and Iowa-Indiana at Iowa City. Because of the differential in time zones, Cornell-Princeton will come on first, along with Arkansas-Mississippi.

Radio Broadcasts

Play-by-play accounts of all nine Varsity football games will be broadcast by Sam Woodside and Don Martin of University Radio Station WHCU on a "Cornell Football Network," as they were last year. Besides WHCU, with a frequency of 870 kilocycles, the AM network will include at least WGY, Schenectady (810), WSYR, Syracuse (570), WHLD, Niagara Falls (1270), and probably other stations in New York State. The broadcasts will also be carried on the thirteen FM stations of the Rural Radio Network which cover up-State New York and upper Pennsylvania: WHLD-FM (98.5 mc), WFNF (107.7 mc), WVBV (95.1 mc), WRRR (103.7 mc), WVCN (105.1 mc), WWNY-FM (100.5 mc), WMSA-FM (105.3 mc), WRUN-FM (105.7 mc), WVCV (101.9 mc), WFLY (92.3 mc), WHVA (104.7 mc), WQAN-FM (92.3 mc), and WHDL-FM (95.7 mc).

New Campus Guide

VISITORS' GUIDE to the University has been prepared by the Director of Public Relations & Information, W. Robert Brossman. It is a pocket-sized folder with a new map of the Campus by Professor Herbert T. Jenkins, Civil Engineering, an alphabetical key to buildings and other points of interest, some pictures, and a brief description of the University.

For those who come to the Campus, an information office for visitors is established just inside the East Avenue entrance of Day Hall, Room 253. It is in charge of Fatanitza Schmidt '26, editor of University publications, and here

too can be obtained the Announcements of the various Schools and Colleges.

The new Guide for Visitors will be mailed without cost to alumni who direct their requests to the Office of Public Relations & Information, Day Hall, Ithaca.

What About Professor X?

(Continued from page 40)

Thinking citizens must stand behind the principles of freedom of thought and of expression. Implicit is the freedom to make mistakes, to search through error for truth, to express postulates which have not common acceptance.

Academic freedom cannot be preserved by academicians making speeches to each other. It must be maintained by the will of the American people who trust their universities as the citizens of this republic have always trusted, and relied upon, education as a basic tenet of our American culture.

We might remember that there are no conformists in the totalitarian segments of the modern world.

MONDAY, SEPTEMBER 14

New York City: Cornell Women's Club send-off party for Freshmen women, Hotel Barbizon, 6:30

TUESDAY, SEPTEMBER 15

Ithaca: Freshman Camps start

FRIDAY, SEPTEMBER 18

Ithaca: Freshman orientation program starts

SUNDAY, SEPTEMBER 20

Football, Rice Institute, Schoellkopf Field, 2

SUNDAY, OCTOBER 4

Ithaca: Sage Chapel preacher, Dr. Paul Weaver, president, Lake Erie College for Women, Painesville, Ohio, 11

On the Campus . . . And Down the Hill

Freshmen who will come to the University this fall received at their homes in mid-August a twenty-eight-page special edition of The Cornell Daily Sun. Prepared by the Sun staff and mailed with cooperation of the Deans' Offices, the "Special 'Cornell Traditions' Issue for the Class of '57 and Families" contains numerous articles by members of the Faculty and students which give a pretty thorough understanding of what Cornell is all about. It also has a lot of advertising. The new Cornellians will be quite thoroughly indoctrinated before they leave home. It is estimated that at least a dozen separate mailings have gone to all 2000 of them, including the Freshman Desk Book and communications from the Registrar, their Colleges, the Deans of Men and Women, Willard Straight Hall, CURW, University Safety Division, ROTC, Interfraternity Council, Women's Self-government Association, and Independent Association.

William W. Niemeck '55 of Linden, N.J., continues his pre-medical studies this year with free tuition at the University of Goettingen, Germany, and as a guest of the Fridtjof Nansen International Student House there. He won a scholarship which was established in 1951 in appreciation of the assistance given by Cornell students toward opening the Fridtjof Nansen House shortly after World War II. It was the idea of a Norwegian, Olav Brennhovd, who is now director of the house, to help restore international understanding after the war. The Rev. A. Lee Klaer, Presbyterian student pastor here, led in collecting contributions from student organizations. Niemeck played football and baseball, was on the Freshman rifle team, and was vice-chairman of an Independent Council housing-survey committee.

Earthquakes which destroyed the community of Ithaca, Greece, led to appointment of a citizens' committee in her sister city to consider a proposal that the American Ithaca might be made the center to collect contributions for relief from all over the nation. Members include Professors Walter F. Willcox, Economics, Emeritus, and Morris Bishop '14, Romance Literature; John P. Floros '36; Trustee Harry G. Stutz '07, editor of the Ithaca Journal; Michael R. Hanna, manager of University Radio Station WHCU; and Former Mayor Bert T. Baker '97, who is an honorary citizen of the Greek city. In a letter to the Journal, Professor Bishop,

who spent last year in Greece, wrote: "I think that a good many of us Ithacans feel a sentimental desire to show our sympathy for the other Ithaca, 3000 years old. The founders of our own city chose or accepted the name of Ithaca because it was a symbol of homecoming, of peace after wandering. We are fortunate in the rich undermeanings of our name, and I think we should be grateful."

New editor of the Cornell Countryman is Dana G. Dalrymple '54. Associate editor is Arthur J. Dommen '55; managing editor, Stephen M. Sandler '55. Kenneth L. Bell '54 is business manager and David K. Bandler '55 is advertising manager.

First supersonic flight at the Aeronautical Laboratory in Buffalo was made this summer by the Laboratory's chief test pilot, John C. Seal. He flew faster than the speed of sound in a steep dive made from 43,000 feet in an F-86 sabre-jet as part of Laboratory research for the Air Force. Seal holds the 1952 Octave Chanute Award of the Institute of Aeronautical Sciences for his contributions in developing precise piloting techniques in the field of stability and control, flutter and structural loads determination.

Ag-Domecon president for 1953-54 is James F. Ritchey '54, assisted by Nathaniel Talmage, Jr. '54 as vice-president, Cherie J. Woodcock '55 as secretary, and Joseph P. Matejka '55 as treasurer.

Dr. H. Herbert Crum '97 has retired after fifty-two years of medical practice in Ithaca and will make his home in Key West, Fla. After he received the Bachelor of Letters degree in 1897, he attended Cleveland Homeopathic Medical College and returned to Ithaca in June, 1900, to enter practice with Dr. H. B. Besemer. As city health officer after the typhoid epidemic of 1904, he had much to do with the development of sewers and a safe water supply in Ithaca, and he held that job, along with his practice, until 1921.

George F. Doll, who served many generations of Cornellians as a College Town haberdasher, died August 15. Early in the century, he was manager of Louis C. Bement's store on Eddy Street, then opened his own place on College Avenue, and retired in 1944. Mrs. Doll lives at 411 College Avenue.

Pictures of Varsity lacrosse players in action illustrate the "Bruising Game for Bruisers" in the February, 1953, issue of Classmate, published by The Methodist Publishing House. Cover picture is of Guy T. Warfield III '51, ready for play. His father is Guy T. Warfield, Jr. '25.

Mailing Room for distribution of Cornell Bulletins and other publications of the State Colleges has been moved from its cramped location of many years in the basement of Roberts Hall to the newly-reddecorated quarters in Stone Hall that were formerly occupied by the Agriculture Library.

Civil Defense ground observer post, atop the Plant Science Building, is in charge of Paul H. Kirchner '50, who was in the Army Signal Corps in Japan and is on the staff of the General Electric Co. Advanced Electronics Center at the Airport. Chief observer is John L. Munschauer '40, Director of the University Placement Service.

At American Institute of Cooperation meetings at University of Missouri in Columbia, August 9-13, were several members of the Faculty and Kermit R. Graves '54 from the Cornell Campus Cooperatives, Mrs. Keith Norton (Shirley Sagen) '52 from the Campus Grange, Hazel L. Bowdren '55 from the 4-H Clubs student organization, and Joseph P. Matejka '54 from Ag-Domecon Council.

First recipient of a \$300 scholarship given here by the Order of Ahepa (American Hellenic Educational Progressive Association) was Nicholas E. Cholakis of Beacon, second-year student in the Law School from Kenyon College. The award is for students from New York State of Greek birth or descent.

Mohawk Airlines extended its regular flights from Albany to serve Pittsfield, Springfield, Worcester, and Boston, Mass., beginning August 1. Mohawk received an award from the National Safety Council for not having a passenger or crew fatality in 1952.

Daniel Alpern Awards of a medal and \$100 each for Seniors in Industrial & Labor Relations went to Mrs. Nicholas Duda, Jr. '53 and Jack Golodner '53. They are given for scholarship and leadership. Mrs. Duda, wife of a Law School student and mother of a two-year-old daughter, led her Class in the School with an average of 88.48. She is a member of Delta Delta Delta and Phi Kappa Phi. Golodner had an average of 84.88. He is a member of Tau Epsilon Phi and Phi Kappa Phi and was secretary-treasurer of the Industrial Relations Research Association.

The Faculty

President **Deane W. Malott** and Mrs. Malott, on a vacation trip to Alaska, were entertained by members of the Cornell Club of Juneau with a reception at the home of Robert Boochever '39, a dinner given by Edward J. O'Brien '37 at his Baranof Hotel, August 6, and breakfast with members of the Club the next morning. Among the alumni they met were Ezra B. Cornell '23, great-grandson of the Founder, who now lives in Juneau. On their way home, the Malotts were guests at a dinner given by the Cornell Club of Western Washington in Seattle, August 24.

Sports section of the New York Herald Tribune, August 2, carried a picture and outlined the accomplishments of **Robert J. Kane '34** as "one of the youngest athletic directors in the Ivy Group, at forty-two, yet one of the oldest in point of service." It was noted that Kane had started his tenth year, July 1, as University Director of Physical Education & Athletics, having succeeded **James Lynah '05** in 1944. The dispatch recited his accomplishments as a Varsity sprinter, noted his numerous chairmanships of Eastern and National sports leagues and some of the problems he faces as the present chairman of the NCAA football television committee.

Professor **Charles C. Winding**, Chemical Engineering, sailed his boat, "Polly Mer," representing the Ithaca Yacht Club in the Thistle Class regatta of the Niagara Frontier District on Seneca Lake at Geneva, August 8 and 9. He won one of the three races and amassed 62½ points to take seventh place in the regatta behind the winner's 76.

Trustee **Horace C. Flanigan '12** is general chairman of the 1954 Greater New York March of Dimes campaign for the National Foundation for Infantile Paralysis. He is president of Manufacturers Trust Co.

Dane L. Baldwin '09 retired as librarian of the University's Hart Memorial and Goldwin Smith Hall Libraries, July 1. As a teacher of English and librarian, he has been at Cornell for forty-one years; was for many years treasurer of the Phi Beta Kappa chapter.

Three Botany professors went far afield this summer. Professor **Frederick C. Steward** visited laboratories of plant physiology and took part in symposia in England; Professor **Arthur J. Eames**, Emeritus, taught on a Fulbright Lectureship at University of Sydney, Australia; and Professor **Harlan P. Banks, PhD '40**, did research and taught for a month at University of Minnesota.

Marjorie MacBain '27 has returned to the University as administrative secretary to **Robert B. Meigs '26**, who is Secretary of the Corporation. She lives on King Road, West, RFD 4, Ithaca. For the last five years, Miss MacBain has been assistant to the dean at Connecticut College for Women.

Reorganization of the University's financial offices, July 1, brought the promotion of **James E. Simpson**, **Robert T. Horn '39**, and **Ralph A. Miller** to become Assistant Treasurers on the staff of Treasurer **Lewis H. Durland '30**, and of **Edwin R. Roberts** to become Assistant Auditor under Auditor **James B. Trousdale '22**. Simpson is secretary of the Board of Trustees investment committee and Horn is also on the investments staff. Miller has charge of financial matters relating to students: collection of tuition and fees and payment of loans, scholarships, prizes, and veterans' benefits. Roberts supervises internal audits and the accounting of foundation and commercial grants for research and annuity funds.

Professor **George H. Healey, PhD '47**, English, (above), has been appointed honorary curator of the William Wordsworth Collection in the University Library, the largest source of Wordsworth material in this country. The Collection was originally presented and has been increased to 2000 items by Trustee **Victor Emanuel '19**. Professor Healey is the author of Wordsworth's Pocket Notebook and the first collected edition of Daniel Defoe's letters. He succeeds as curator the late Professor **Leslie N. Broughton, PhD '11**, English, Emeritus, who died March 3, 1952.

Professor **Max E. Brunk, PhD '47**, Marketing, is working in the marketing and facilities research branch of the Production & Marketing Administration in Washington, D.C., on sabbatic leave from July 1 to next January.

During the summer, Professor **Maurice C. Bond, PhD '28**, was a member of a commission established by the Puerto Rican Government to advise on improvements in wholesaling and retailing foods to reduce the need for importation.

Former Alumni Trustee **J. Carlton Ward, Jr. '14** was elected, July 1, president and director of Vitro Manufacturing Co., Vitro Corp. of America, and Vitro Chemical Co. The companies, with offices in New York City, develop and manufacture chemicals

and pigments and process uranium-bearing materials. Ward has been chairman of Thompson Industries, Inc., of Boston, Mass.

New York Times, July 2, pictured the Agriculture Advisory Committee at a meeting with President Dwight D. Eisenhower and Secretary Ezra T. Benson. Pictured in the group were Agriculture Dean **William I. Myers '14**, chairman of the Committee, and Trustee **Albert K. Mitchell '17**.

Professor **Robert E. Cushman**, Government, received a Fulbright grant to lecture on "Civil Liberties in America Today" at the 1953 Conference on American Studies at Oxford University in England, July 12 to August 15. The Conference was for British students and for teachers in secondary schools and colleges.

On sabbatic leave this year, Professor **Arthur H. Burr**, Machine Design, sailed from New York, August 8, with Mrs. Burr and their three children, for Brazil. He was invited to spend the year at the Brazilian Institute of Aeronautics in Sao Jose dos Campos in the State of Sao Paulo, helping to reorganize its courses in machine design, drawing, and engineering mechanics.

Professor **Stanley W. Warren '27**, Farm Management, spent seven weeks this summer at the *Universidade Rural do Estado de Minas Gerais* at Viscosa, Brazil. He was asked to advise with professors there on research in agricultural economics.

From meetings of the American Veterinary Medical Association in Toronto, Canada, Dean **William A. Hagan, MS '17**, Professor **Myron G. Fincher '20**, Veterinary Medicine, and Professor **Hadley C. Stephenson '14**, Therapeutics & Small Animal Diseases, Emeritus, attended the International Veterinary Congress in Stockholm, Sweden, August 9-15. Assistant Librarian **Mia Reinap** of the Veterinary College attended the International Medical Librarians' meeting in England during the summer.

Veterinary Professors **James M. Gillespie**, Bacteriology, and **Robert E. Habel**, Anatomy, are in The Netherlands for this year. Professor Gillespie is working in the State Serum Laboratory in Amsterdam and Professor Habel is at the Institute of Veterinary Anatomy at University of Utrecht.

Colonel **George T. Crowell, USAF**, who has commanded the Air Force ROTC here since it became a separate unit in 1949, was detached and ordered to the August class in the Air War College at Maxwell Field, Ala., and confirmed in permanent rank. Graduate of Austin College, Texas, he was commissioned in 1940 and received numerous decorations for service in the Eighth Air Force in England, where he commanded the 55th Fighter Group.

Professor **George W. Trimberger**, Animal Husbandry, sailed June 23 for a six-week tour of Europe as agricultural specialist with the Sherwood Eddy Seminar Group of American students.

Conrad Longmire and **Albert S. Eisenstein** are visiting professors of Physics for this academic year. Longmire, who has been in the theoretical division of the Los Alamos Scientific Laboratory since 1949, will do re-

search in the Laboratory of Nuclear Studies and teach a graduate course in theoretical physics. Eisenstein will teach in the advanced Physics laboratory and do research in the physics of solids. Since 1946, he has been at University of Missouri, where he directed electronics research conducted for the Office of Naval Research.

On a sabbatic leave, Professor **John W. McConnell**, Industrial & Labor Relations, and his family sailed, June 13, for six months in India. He received a Fulbright grant to teach industrial relations at the University of Patna in Bihar Province.

An \$18,000 research grant was awarded to Dr. **Charles D. West**, Medicine at the Medical College, by the American Cancer Society, July 1. The grant is for a three-year investigation at the Memorial Center for Cancer and Allied Diseases of the influence of hormones on certain types of cancer.

Eric Borel has arrived from Switzerland with a grant from the Rockefeller Foundation to work with Professor **James B. Sumner**, Biochemistry & Nutrition, on enzyme studies. He received the PhD last year at the Federal School of Technology, Zurich.

Professors of Law **Michael H. Cardozo** and **Horace E. Whiteside '22** were appointed to the committees on international law and law revision, respectively, of the New York State Bar Association.

Professor **Faith Fenton, Sp '22**, Food & Nutrition, is chairman of a subcommittee on experimental cookery of the Committee on Foods of the National Academy of Sciences—National Research Council. The committee serves as an advisory body to the Quartermaster Corps Research & Development Board.

Jeanne S. Brown, graduate of University of Wisconsin, will replace Mrs. **Jane Ellison** as assistant director of CURW. She has just received the MA in religious education at Northwestern.

Marriage of Professor **Agnes M. Carlson, MS '50**, Institution Management, and **Richard F. Foley**, who is completing work for the PhD in the Vegetable Crops Department, took place June 6 in Ithaca.

"The Ravine," by Professor **John A. Hartell '24**, Architecture, received the B. Forman Co. Prize for the "oil of outstanding creative significance" in the 1953 Rochester-Finger Lakes Exhibition at the University of Rochester.

Third edition of *Chemistry and Methods of Enzymes*, by Professor **James B. Sumner**, Biochemistry, and **G. Fred Somers, PhD '42**, formerly on the Faculty of the School of Nutrition and now associate director of the agricultural experiment station of the University of Delaware at Newark, has been published by Academic Press of New York City. The book, first published in 1943, has met wide acceptance as a text on enzymes.

Joseph Marsella, who entered the employ of the University in 1908, a year after he came from Italy, retired from the Department of Buildings & Grounds, July 1. One of his first jobs here was to help hoist the

Cornellians in Kentucky—Five alumni gather at Division Headquarters in Fort Campbell, Ky., and plan a Reunion of Cornellians detailed to the 11th Airborne Division and other military units there. Left to right are Lieutenant-colonel Andrew B. C. Nicholls '40, 711th Airborne Ordnance Maintenance Company; Lieutenant (jg) David O. Stanley '46 of Clarksville Base; First Lieutenant Albert N. Abelson '48, 408th Airborne Quartermaster Company; First Lieutenant Jack G. Huddleston '51, 711th Airborne Ordnance Maintenance Company; and First Lieutenant William S. Wesson '51, 408th Airborne Quartermaster Company.

bells back into the Clock Tower after the Chimes were rearranged and enlarged in 1908, and he recalls working for Andrew D. White and President and Mrs. Livingston Farrand in the grounds and gardens of the President's House. Captain Nicholas Marsella '38, USA, and Mrs. David F. English (Emma Marsella) '47 are his children.

John G. Linn, PhD '51, English, married Eleanor M. Ringer, Grad, in the chapel of Anabel Taylor Hall, June 21.

Professor **Lawrence B. Darrah, PhD '43**, Marketing, Agricultural Economics, and **Peter L. Henderson, PhD '52**, of the US Department of Agriculture have developed a new refrigerated egg-display case that keeps eggs at the ideal temperature (between forty-five and fifty-five degrees) in stores. It has a capacity of 168 dozen. In Rochester and Painted Post, store sales increased 8 per cent when this case was used.

Folklore Writers

NEW YORK FOLKLORE Quarterly for Summer has articles by Professor **Otis F. Curtis, Jr., PhD '40**, Pomology, Geneva Experiment Station, and **Margaret H. DeLong '51**. In "The Curtis Collection of Songs I," Professor Curtis introduces eighteen of the some 500 songs collected in a scrapbook by his grandfather, the late Rev. William W. Curtis. The scrapbook was inherited by his father, the late Professor **Otis F. Curtis, PhD '16**, Botany. Miss DeLong writes on "Churching: Troubled Times in Trumansburg."

In the department, "Folklore in the Schools," Mrs. **Marion Chesebrough Thompson, PhD '53**, sets down lore col-

lected by her students at Cortland State College for Teachers; and in the section, "Epitaphs," her husband, Professor **Harold C. Thompson**, English, gives inscriptions collected by one of his classes. A shorter contribution, "A Southern Version of the Dream Contest," is by **Raven I. McDavid, Jr.** of Western Reserve University, who was formerly in the Division of Modern Languages.

Professor Norton Dies

PROFESSOR **Leland Bard Norton, PhD '34**, Entomology, died at his home on Snyder Hill Road, Ithaca, RD 2, June 10, after a long illness. He was forty-three years old.

Professor Norton received the BS at Hamilton College in 1928 at the age of eighteen, the first of his age to graduate there. From 1934 until he joined the Entomology Department at Ithaca about eight years ago, he was on the staff of the Geneva Experiment Station. He was promoted to associate professor of Insecticidal Chemistry in 1946 and to professor in 1950. Professor Norton's teaching and research at the University dealt mainly with the chemical properties of insecticides and insecticide residues on plants. He contributed about thirty articles to scientific journals. He was a member of Phi Beta Kappa, Sigma Xi, Gamma Alpha, American Chemical Society, and American Association of Economic Entomologists. Mrs. Norton is the former **Katherine Wheeler, MA '39**.

NEWS OF THE ALUMNI

Addresses which appear in these pages are in New York State unless otherwise designated.

Class columns headed by Class numerals and the names and addresses of the correspondents who write them are principally those of Classes which have purchased group subscriptions to the NEWS for all members.

Personal items, newspaper clippings, or other notes about Cornellians of all Classes are welcomed for publication.

* * *

'90 BL; '92—Edmund F. Brown and Mrs. Brown (Mary Relihan) '92 celebrated their fifty-ninth wedding anniversary, June 21. They reside at 601 South Fourth Street, Columbia, Mo.

'93 Reunion—Sixty-one of our ninety-eight remaining Classmates with known addresses wrote in April or May that they would, hoped to, or would be unable to be at our Sixty-year Reunion. Finally, 16 came which with 13 extras (wives, grandchildren, relatives, or friends) gave us a total of 29. One co-ed (ever-faithful Mary Fitzpatrick) out of 17 co-eds still living, was their sole representative. Many letters of greetings were received, however, and excerpts from many of them have been mimeographed and sent to each member.

Several Classmates were detained by business; one, the "Methuselah" of the Chemical Manufacturers Association, of which he had been president for 20 years, could not be spared from their annual convention.

Another, still very active in his electrical manufacturing concern, had to attend the convention of the AIEE. Still another was receiving his Doctor's degree at Hamilton. The Archivist of DePau could not get away from his duties. Three, still active in their law practices, had to be in court. Several of us, however, dropped our business affairs, coming from California, Florida, the Middle West and nearer-by points. Averaging well over 80 years of age, we are loath to lay down the mantle and rust out rather than wear out. So; the "O. L. D." (Order of Living Dogs), the Honor Society of '93, is still going strong. (*"For to him that is joined to all living there is hope: for a living dog is better than a dead lion"*—Eccl. IX, 4)

Our Class Dinner was enjoyably spent in the Risley Hall Dining Room, Friday evening, after which we had our Get-Together in one of the Risley parlors assigned us as '93 headquarters. W. W. Hyde ably led the meeting and others added reminiscences of past years and finally the Class Secretary was elected. The Alumni Luncheons gave further opportunity for becoming reacquainted. Unfortunately, rain interfered with the ball game, but the Class photograph was finally taken Saturday evening in Risley Parlor.

Our Classmate, Dr. Arthur W. Booth, was missed at the very enjoyable and sumptuous Van Cleef Dinner held on Saturday night, but Mrs. Booth presided, their son being a most gracious master-of-ceremonies.

Class of '93 Breaks Sixty-year Reunion Record for Men—Pictured at Class headquarters in Risley Hall are, left to right, **Standing:** Ward Barnum, Louis F. Wing, George E. Howard, Spencer L. Adams, Reginald R. Keays '95, John D. Mickle, Walter L. Eastman, Walter W. Edwards, John B. Tuck. **Middle Row:** Walter W. Hyde, Charles B. Howe, Mrs. Howe, Mary R. Fitzpatrick, Mrs. Boehm, Miss Hyde, William H. Boehm, Alanson D. Morehouse. **Seated on floor:** Juliet McIntire, Margaret Howard, and Charles Howard, Howard's grandchildren; and Alanson D. Morehouse II, grandson of the Class secretary. Classmates at Reunion but not pictured were Stuart D. Boynton, Hermon M. Freeman, and Ernest I. White.

C. Hadley Smith

Professor George Healey, PhD '47, was the speaker, giving a most humorous rendering of parts of Andrew Dickson White's recently discovered Diaries.

The Rally at Barton Hall, lasting till midnight, was attended by most of our members and thoroughly enjoyed, with Class bands, masquerading, burlesque, Glee Club, and a fitting word of greeting by President Deane W. Malott.

Our engineer Classmates were, of course, particularly interested in the dedication of Kimball and Thurston Halls, a far cry from our old Sibley and the CE Building reigned over, respectively, by Thurston and the "Great Mogul" Furies.

Most of us utilized every opportunity during the all too short two days to visit old classrooms and the many other points of interest, including rooming houses where student days were spent, there then being no men's dormitories. My abode for two years housed at the time two future Deans of Engineering, Iowa State and Wisconsin, another who became a pioneer telephone engineer, author, inventor, and noted consultant, a future Alaskan railroad magnate, a later head of Rochester's leading machinery manufacturing company, two prominent Chicago lawyers, and three or four lesser lights, all in seven rented rooms. A visit to the Regional History Collection presided over by Mrs. Edith M. Fox '32 was an eye-opening experience. Those with pertinent records or other desired material should send them to Mrs. Fox rather than have them destroyed later by disinterested persons.

This September issue of the ALUMNI NEWS is being sent to each non-subscriber of the Class of '93. "Cornellians have long been a potent influence everywhere. . . . Stay on the team, Cornellians always." (President Malott's Commencement Address.)

—Alanson D. Morehouse

'96—George H. Whitfield, eighty, completed, July 11, a 1600-mile bicycle trip to Lawrence, Kans., which he began May 30 in Washington, D.C. He was pictured in the July ALUMNI NEWS when he stopped at the University just before Class Reunions. A newspaper story from Lawrence reported that he would travel by railroad back to his home, Aberdeen Hall, 3415 Thirty-eighth Street, N.W., Washington, D.C.

'97 AB—Ninety-first birthday of **Helen M. Knox** was celebrated with a party given by Mrs. Wesley R. Tilden (**Lorraine Frederick**) '48 of 351 Oakdale Drive, Claremont, Cal. Among those invited were Dr. Paul Flory, PhD '34, Mary C. Markham '93, and Mrs. Charles Mann (**Caroline Judd**) '06.

'98 Reunion—Twenty-five members of the Class of '98 returned to Ithaca for the Fifty-five-year Reunion. The only Class affair was the Class dinner held at Prudence Risley on Friday evening, June 12. Most of those who were at Ithaca also attended the Van Cleef Dinner on Saturday evening June 13.—Andrew J. MacElroy

'98 PhD—Washington University in St. Louis, Mo., awarded the honorary Doctor of Science to **Benjamin M. Duggar**, discoverer of aureomycin, at its commencement, June 10. Since 1944, he has been a consultant in mycological research and production at Lederle Laboratories, Inc., in Pearl River.

Fifty-five-year Class of '98 at Reunion—Left to right, **Standing:** D. A. Williston, Sidney E. Whiting, William F. Devendorf, John H. Wynne, William McK. Smith, Isaac Platt, Andrew J. McElroy. **Seated:** Allen E. Whiting, Mrs. Edith Barnum Jacobus, Fred W. Midgley, Mrs. Mabel Mead Marsh, Henry W. Merrihew, Mrs. Florence Williams Robbins, Wilton Bentley.

'00 CE—William C. Spiker, Box 11, Mountain View, Ga., has retired except for consulting and advising on engineering.

'01 Reunion—An off-year Reunion of the Class of 1901 was culminated by a dinner at Statler Hall, where there assembled approximately thirty Classmates and their wives in extremely pleasant fellowship. The committee in charge of the occasion appointed by Archie Morrison, the Class president, who unfortunately could not attend, consisted of Harvey Couch, Samuel Root, and the secretary of the Class, Katherine Buckley. Many letters from Classmates who could not join the Class this year were received, all expressing their good wishes to those present with many a taste of sad and happy events in their lives.

Irving Dodge presented a photo of his finished mural for the Edward Alexander gift for the Class which is to be given to the University and placed in Willard Straight Hall as a Class memorial of the first Spring Day. This event was initiated by the Class of 1901 as an advertising stunt to aid the Musical and Drama Clubs in their effort to produce a performance to raise money for University athletics, which at that time were at a very low ebb.—H.J.C.

'03 Men's Reunion—In mid-June, a group of sixty-odd elderly gentlemen—odd in numbers if not in eccentricities—all members of the Class of 1903, assembled at Sage Hall for their Fifty-year Reunion; and they proved to be the handsomest, the most genial, the most courtly, the looniest bunch of antique humanity ever to grace the halls of Sage.

Beginning their memorable get-together in quiet dignity, they progressed through various stages of hilarity to the climax on Saturday night after the Class dinner and the enjoyable Rally at the Drill Hall.

On Sunday, these youngsters were in a meditative mood as they started pensively for home and normalcy.

At the Saturday night dinner, there were some serious interludes to show our respect

for the memory of those of us who had gone, and to send telegrams of regret and concern to the members of the Class who, because of ill-health or for other good reasons, were unable to attend. We were addressed

briefly by President Malott, whom we as a group met for the first time. We liked him.

All during the three Reunion days, we were happy to welcome many members of other Classes who dropped in to chat, to sing, and to enjoy such refreshments as were available; and if you know Kid Kugler, chairman and sole member of our Refreshment Committee, you will realize that there was no lack of sustenance. You did a swell job, Kid!

Those present but not shown in the Class picture were John H. Bosshart, John C. Fox, Louis F. Light, Chester T. Reed, and Martin Travieso. It is now too late for them to be photographically recorded. But, gentle reader, look at the rest of us! Did you ever see a finer looking crowd of humdingers? You did not!

A fond memory of the party: Bunny Mott singing as sweetly as in his undergraduate days. What Class can produce a warbler to match him? And what a chorus! The rafters did not ring; they pealed! Another: The heart-warming handshakes and fond embraces between close friends of younger days; close friends still.

We had a good time!—Edward Burns

'05 ME—Colonel Edward J. Blair retired, April 1, closing a forty-eight-year career in the Chicago Transit Authority, where he became chief engineer and special engineer. He and Mrs. Blair now reside in Tryon, N.C.

'06 AB—Time magazine noted the retirement of Professor Jesse E. Wrench, who

Fifty-year Reunion Group of '03 Men—From left to right, **Back rows:** John B. Smith, Samuel G. Thayer, James J. Clark, John H. Weidman, William A. Heitshu, Raymond P. Morse, Allen B. Ripley, Edward Burns, Whitney Merrill, Stuart Hazlewood, Daniel E. Fulton, Audenreid Whittemore, Walter Drey. **Fourth row:** Edward J. Snow, William Katzenstein, Dan S. Bellinger, Charles S. Doron, John H. Wells, John C. Musgrove, A. W. Stone, Cornelius D. Bloomer, Donald M. Rounds. **Third row:** Henry E. Epley, David E. Burr, Lee F. Hawley, John Randolph, Clarence B. Kugler, Jr., William W. Tucker, Edgar D. Sebring, Fred S. Yale, George H. Turner, Robert L. Hutton, Robert W. Palmer, Edwin B. Nell. **Second row:** Selden H. Hall, Fred I. Brown, Ernest D. Hendricks, Thorsten Y. Hendricks, Blair M. Boyd, John C. Pearson, Edward R. Cuncliffe, Herbert D. A. Donovan, Frank E. Wood, Charles N. Pimco, Charles E. Mott. **Front row:** John H. Photo Science

ended forty years of teaching history at University of Missouri in June. His home is at 1815 University Avenue, Columbia, Mo.

'08 Men's Reunion—The outstanding feature of the 1908 Forty-five-year Reunion was the attendance of seventy-four men, which made an all-time record for Forty-five-year Classes. Those in attendance but not in the Class picture were Robert F. Chamberlain, Clyde F. Craig, Harold D. Humpstone, Ralph R. Lally, Harry M. Nelson, Nial Sherwood, Earl Sunderville, Ray Van Orman, Oscar D. VonEngeln, Percy O. Wood, and Edmund L. Worthen.

If all those who, during the winter and spring, had signified their intention of coming back for the Reunion had been able to get there, the record would have been much higher. This group who were not able to get to Ithaca after planning to do so included Andy Andrews, Warner Baird, Tommy Baldwin, Jack Benjamin, Sidney Bevin, Jay Boardman, Oliver Brude, Henry Burr, Lyall Decker, Edwin Earle, Jr., Ed Hall, Dr. William Hartigan, Frank Hayden, Charles Hedges, Dr. Arthur Hoag, Norman Hodges, William Huber, Armin Kessler, Art Kuschke, DuPont Lee, Clarence Lounsbury, John Lynch, Carl Meyer, Sereeno Miller, Herbert Mitler, Kenneth Page, Larry Ryan (died in May), Carl Schmidlapp, John Sloat, Conant Van Blarcom, William Wait, Harold Wilder, Stewart Williams, George Wonderly. These 38, together with the 74 who came, were the result of an intensive campaign for attendance.

The campaign to make a record attendance was carried on with New York as a headquarters. Meetings were held every two months for two years at the Lotus Club, which included the attendance of George N. Brown, Charles R. Cullen, Ed Hall, John Hartung, Dave Embury, Eddie Gibson, Dr. Art Hoag, Philip Hoge, Rick Lally, Bert Lamberton, Mark Landis, Bill Mennen, Herb Mitler, Walt Radley, Morris Rosevear, Seth Shoemaker, Howard Simonds, Harold Sliter, Robert Spencer, Johnnie Taussig, Herb Trube, and Erlich Wolfe. In addition to the circular letters that went out to the Class, the above members put on a campaign of writing personal letters, making phone calls, and using telegrams.

In Ithaca, those who came alone had

'08 Men at their First-year Reunion—Mark H. Landis contributes this picture of a group of '08 men taken at Percy Field in 1909 after the parade to the Reunion baseball game. Landis is at left, then Samuel B. Eckert, William G. Mennen, George C. Hanson, Charles Burns, Stephen L. Vanderveer, Joseph N. Pew, Jr., Roger T. Holloway, and Clifford M. Husted. Landis writes: "At Rothschild's, we purchased the most risqué bathing suits then worn by the ladies. When we appeared on the streets of downtown Ithaca, there was some question of our being allowed to get into the parade: indecent exposure of 'shapely shanks.' Enroute to Percy Field by trolley car, Charlie Burns dove into the creek from the running board as we crossed the bridge to Percy Field. He was able to swim to the bank, not being waterlogged by what he wore. How times have changed! Of this group, Hanson, Burns, Holloway, and Husted are gone but not forgotten. Of the survivors, Mennen, Pew, and I were at our Forty-five-year Reunion."

headquarters in Mennen Hall. Those who came with their families were quartered elsewhere, such as in Cascadilla Hall, Willard Straight, Statler Hall. A tent was provided in front of Mennen Hall where all comers were entertained. Bill Mennen presented each '08 Reunioner with an attractive green and white plastic bag containing an assortment of his company's toilet articles.

The Class in a body attended the alumni luncheons in the Barton Drill Hall on Friday and Saturday noons, and after the Friday luncheon attended the Moakley House dedication at the University golf course. Practically all visiting alumni attended this ceremony.

The Friday night banquet was held in

Willard Straight Hall. Seth Shoemaker presided. The principal speeches were made by our own Eddie Gibson, University Trustee, and by Charlie Cullen who gave an account of his travels in South America and Europe. Morris Rosevear gave an account of a number of the replies he had had from Reunion letters he had written. Mark Landis led the singing at this meeting and Melvin Goodwin handled the piano. These two also did the same at the Saturday banquet. At this meeting, a friendly "Grandpa" competition was announced. Bill Mennen lead the field with 16 grandchildren, Clarence Baer ran second with 13, and Ray Ferguson scored third with 7. If anybody else has done better, let us know.

Saturday night's banquet was held in

Class of '08 Sets New Forty-five-year Reunion Record—Left to right, **Back row:** Edwin S. Boegehold, George P. Jessup, Sidney D. Gridley, Harold M. Sliter, Clifford Clark, Alfred Crew, Jr., Marion J. Hartung, Leon M. Brockway, Daniel H. Sanders, Max W. Davis, Harry K. Wilson, Mark H. Landis, Melvin B. Goodwin, Edward T. Gibson, Henry T. Kent, Jr., Fred A. Postel, Robert J. Spencer, Arthur Joseph, John W. Holt, Clarence E. Baer, William E. Harries. **Middle row:** Morris B. Rosevear, Bruno C. Lechler, Carl T. Hewitt, William Hotchkiss, Hackett H. Downes, O. Howard Simonds, Alvin L. Gilmore, Floyd C. Stephens, Seth W. Shoemaker, Dean L. Kelsey, Maxwell M. Upson '99, William G. Mennen, Joseph N. Pew, Jr., Philip Hoge, Arthur G. Bierma, L. Ray Ferguson, Lyell Storer, Samuel L. Boothroyd, Ralph C. Schwarz, Oliver S. Bruce, Jr., J. Edgar Davidson, William L. Lance, Walter L. Radley. **Front row:** John S. Ridenour, William H. McCaully, Clarence T. Siepp, Robert E. Friend, George N. Brown, Donald Stewart, Haig M. Boyajohn, H. Phelps Gage, Thomas M. Jackson, Herbert L. Trube, Coach John F. Moakley, Burton J. Lemon, John W. Taussig, John M. Prophet, Jr., David A. Embury, I. Erlich Wolfe, Harold W. Robbins, George D. Bills, Jr., Charles R. Cullen.

Photo Science

Statler Hall, with Johnnie Taussig presiding. The speakers were President Deane W. Malott of the University, University Trustee Maxwell M. Upson '99, and our own Joe Pew. Bill McCaulley gave some of his stunts, and Bill Lance demonstrated that in the past 45 years he had developed a fine lyric tenor. Jack Moakley was the guest of honor at the banquet, and Herb Trube and Max Davis acted as a committee to escort him to and from the affair. As it rained in the afternoon, the Class photo had to be taken at this banquet and Morris Rosevear and Don Stewart handled the matter. Don also helped out with the local arrangements. Most of the men stayed in Mennen Hall until Sunday morning.

—Seth W. Shoemaker, Life Secretary

'08 Women's Reunion—The women of 1908, twenty strong, had a most delightful Forty-fifth Reunion from Thursday, June 11, to Sunday, June 14. The accommodations at Anna Comstock Hall enabled us all to be together for the high spot of the Reunion, namely, the exchange of personal news since our Reunion in 1948.

We enjoyed a dinner together at Risley Hall on Friday evening and breakfast Saturday morning. The lunches at Barton Hall on Friday and Saturday gave us an opportunity to meet friends from contemporary Classes, always a major objective of Reunions.

We were delighted to have the planned trip around the Campus, to note the changes, and to see for ourselves Cornell's response to the challenges of the present and her far-reaching plans for the future. The Glee Club concert which twenty of us attended was most satisfying with its songs of our day and its amusing skits.

Our Class dinner at Statler was everything we could have wished. The dinner itself and the service were superb. Our program was simple, but one that meant much to all of us: reports on personal news from each one present. We appreciated very much the brief visit to our dinner of President Malott.

The President's report to the alumni on Saturday gave us an opportunity to hear an inspiring speaker on an inspiring topic, Cornell.

The Rally at Barton Hall was, as always, an entertaining event, especially in the contributions of the Glee Club, the speakers, and the march of the Reunion Classes.

The continued enthusiasm of Cornell alumni for Cornell must be very gratifying to those at the University who have taken such pains to make the Reunions red-letter days for all of us. Our appreciation and thanks to all of the officers and staffs are heartfelt.—Marion D. Jewell

'10 ROY TAYLOR
Old Fort Road
Bernardsville, N.J.

Oliver Ponsomby-Jones (above) was permitted to spend but a single year in Ithaca as a member of the Class of 1910. That was not long enough to impress the memory of a quiet, retiring, English boy upon the recollection of many of his Classmates; but enough to do something lasting to the boy.

In the summer of 1907, Oliver's family, after a brief sojourn in the States, moved on to New Zealand to take up a government leasehold and raise sheep. The boy went with them without any formal ceremonies

of removal from the University, and for many years had been on the list of those marked "lost." But lately, a copy of the ALUMNI NEWS seems to have reached him and to have fanned to a flame the long-dormant spark of nostalgic memories of Cornell that a single year in Ithaca had sufficed to implant. He writes that he wishes to be restored to the active list and hopes to get back for the Forty-five-year Reunion in 1955 and will surely make the Fiftieth in 1960.

The Ponsomby-Jones family seems to have prospered in the sheep business, for in 1950 Oliver turned its active operation over to his boys and moved in from the range to town to engage in some serious fishing, which is said to be incredibly good "down under." He now lives at 511 Victoria Mansions, Christchurch, New Zealand, where he would welcome with enthusiasm a call from anybody with whom he could talk of old days at Cornell.

Oliver joined the "Anzacs" at the outbreak of World War I and saw active service with that brilliant and terrible organization, but received wounds in one of the early engagements of the Gallipoli campaign which forced his medical discharge but were not severe enough to affect his health in after life, once he'd recovered. He came home sufficiently restored to resume sheep raising, to serve as a police magistrate, and for two terms as a member of the Provincial Legislature.

The Ponsomby-Joneses have two sons and now eight grandchildren equally divided between boys and girls.

Oliver's name has now been restored to the active list of the Class. If he returns for the oncoming Reunions as he plans, he can be assured of a rather special welcome. His presence would nail down for 1910 the Long-distance Cup, for Christchurch, New Zealand, has been found to be as far away from the Clock Tower as it is possible to get.

'11 FRANK L. AIME
3804 Greystone Avenue
New York 63, N.Y.

Marshall (Merry) Van Derhoef, ME, Geneva, erstwhile roommate of Hank Kimball and Whisper Heath, had a first-hand taste of World War II: after a divorce, he married a French girl and in 1922, took her to Paris. Lived there several years, then moved to the village of Bonnes, Dept. of

Charante, between Bordeaux and Pau, not far from the pre-Roman Carcassonne on one side, Biarritz on the other, and close to the wife's native town. They bought a farm and though rank amateur farmers, enjoyed the farm and the people. Finally bought a hotel in the village. Things went along nicely until the Boche arrived and took over. Merry says it was still not so bad; he left them alone and they ditto, but they always were checking on non-French people. The Boche permitted travel, but one was continually having to get his card stamped by the police. Hotel was full of officers and things got worse. About this time, his wife disappeared and he never heard from her again. So, early 1944, Merry arranged, finally, to ship for New York on an American Export Line ship, the only line running, through the US Consul in Bordeaux who had a friend, the medico on board. Merry checked out, abandoned his property, and went mostly by train to the ship at a port near St. Nazaire; quite a trip for that year. Spent time in New York, then took a job at Hotel Seneca at Geneva, owned by Sam Nestor who was in our Freshman Class. Been inactive four years due to trouble with his back, but looks forward to active work in the same old spot soon. Merry used to like to visit Taughannock Falls. One day, with Dix and some others, he was investigating the rock wall ten feet up from the bottom and fell into the drink! What language! He can cuss in at least two languages now; Hooker Doolittle, in three!

'11 men attending the Reunion this year were (to noon Saturday): L. R. Brown, A. J. Dillenbeck, H. W. Dix, Geo. S. Frank, H. R. Gundlach, H. D. Hadley, R. P. Heath, D. A. Howard, H. R. Lafferty, R. V. Morse, Sam Nixon, J. K. Rewalt, B. B. Robb, and yours truly. Six '11 women attended.

June items from Ithaca: Thurston and Kimball at dedication time were the neatest-looking testing labs you ever did see; this condition probably lasted 'til after Commencement; Tom Blake's boy, Charles H., was accepted for this year's Freshman Class; spent this summer on a freighter back and forth to Dakar and other African ports; Geo. S. Frank is on half time prior to retirement in July, '54, will live out near the golf course, spend part time in private consultation, part with C.U. where he will have an office; John L. Jordan, Jr. '29 takes over as Director of Purchases; Bill Thorne is one of six Syracuse alumni among thirty-eight elected this year as new members-at-large of the University Council, whose 150-member group was set up in 1950 to aid in long-range development of C.U.; Pete Gallagher was in China for quite a stretch many years ago for Socony-Vacuum, of which Geo. V. Holton is board chairman; Bill Christy, who always sat up front in lectures, had the pleasant habit, Sophomore year, of taking his little dog along, had him relax at master's feet until time to go. Big guy, little dog. One day during a lecture in Sibley, Professor Kimball finished a little early, 10 or 15 minutes to go. Looking down front for a moment, he saw the dog yawning. "Gentlemen," he said, "this is too much, even for the dog. Dismissed"; rained cats and dogs Friday night in time, as usual, to catch the Glee Club concert break-up; it was a swell concert; never saw so many beautiful trees; Bailey is becoming

too small; Olin looks as if it had belonged for years; Sibley, Franklin, Morse, and Lincoln seem off the beaten path in June; **Bob Morse** was elected to succeed W. Glenn Norris as president, Dewitt Historical Society; **Hank Kimball** was being considered at one time as crew coach after John Hoyle, the boat-builder-coach. When the Old Man died, he took his secrets with him. They thought maybe Hoyle knew them, but he didn't; Hank was credited with knowing at least some of them and he could bellow too! You remember they chose Lueder, finally; **Herb Ashton** and his wife Jean and two sons in Ithaca for Baccalaureate and Commencement; one son Francis graduated from Swarthmore the week before Reunion, the other **Bob** from C.U. with '53 the week after. Now eight degrees in that family! '43 tent had the big crowd, practically everybody on the slope Friday night; you could have folded the others. Why? Yep, same old reasons!

J. R. Smith, Col. U.S. Army, Ret., Alexandria, Va., is a stay-at-home; nevertheless, registered at Georgetown U., Washington, for a PhD in political science. First son, Capt. Robt. Lee Smith, West Point '46, recently returned from Germany; second son, Lieut. James R. Smith, returned just prior to the truce after 11 months in Korea. One grandson and prospects.

Howard S. Warner, Houston, Tex.: you might look up **Asa C. Chandler** too: 6315 Vanderbilt.

E. P. (Highball) Wilson writes he is busy with Houston affairs; "nice to read about old friends in the NEWS," sends his best regards to all of them. Highball has been H. K. Ferguson's Houston representative for years; build you anything.

'12 BArch—**George B. Cummings** was elected secretary of the American Institute of Architects at their annual convention in Seattle, Wash., June 16-19. He is a Fellow of the Institute and lives at 79 Front Street, Binghamton.

'12 BChem — **John H. Montgomery** (above) has been elected president of Fritzsche Brothers, Inc., of New York City, an eighty-two-year-old essential oil and chemical firm which he joined twenty-seven years ago. Previously, he was vice-president of Antoine Chiris Co. He is also vice-president and a director of F. B. Realty Corp. and Fritzsche Brothers of Canada, Ltd. His family includes three children and six

grandchildren; he lives at 67 Eagle Rock Way, Montclair, N.J.

'13 M. R. NEIFELD
15 Washington Street
Newark 2, N.J.

At June 1, just before our 40th Reunion, the official count of '13-ers in the Alumni Office was 829. Of these members of the Class, we have had for some time no trace or forwarding address for 53. It could very well be that some of these are deceased. There were 303 known deceased members of the Class. These taken together gave a total of 1132, which presumably is the number of members in '13 at time of graduation. This does not mean, of course, that all these graduated, for many of them didn't. It means that many had formally been enrolled in courses leading to degrees, whether they stayed a short time or went on to receive sheepskins.

Joe Strahan reports that 333 contributed to the record total which '13 turned over to the Alumni Fund. More than 100 contributed who did not come back to Reunion. At the Reunion there were 205 men and 22 women. That makes 227 out of 829 '13-ers who were glad, and 602 who were sad.

"It was a great pleasure for me to get back to the Reunion and I enjoyed every minute of it. I thought it was well organized and well thought out. I am already looking forward to our 45th."

—**Col. Clark J. (Larry) Lawrence**, Va.
"I am very glad I went back to the Reunion and I enjoyed every minute of it. That was largely due to the splendid way the whole thing was run."

—**Carroll Trego**, Detroit, Mich.
"It was one honey of a Reunion."

—**Marcel K. Sessler**, Lyme, N.H.
"We 'girls' are rather overwhelmed with the marvelous treatment we received. I still feel a bit badly that we were not allowed to pay our way, at least for our share of the dinner and the corsages and the beautiful silver tray; it was sort of like 'all this and heaven, too.' Thank you very much for us all."—**Agnes Henderson Hoff**, Turners Falls, Mass.

"I agree with you that the wives and lassies helped make the party and we must have all of them next time."

—**George Rockwell**, Wolfeboro, N.H.
"Having waited for forty years to attend a Reunion, it was a blow to be felled by a virus. I've had two phone calls from '13-ers who went up from here and the 'meat' of the topic appeared to be that there had just never been a Reunion like this one."—**Ethel (Sunny) Brooks Clift**, New York City

"I did not go to Reunion because I have not been well, and I was afraid I could not stand all the excitement. I am sorry I did not go, as apparently the experience was heart-warming and inspiring. If I am still tottering around, I will try to make it next time."—**Agnes Dobbins Watt**, Newark, N.J.

"At the bottom of the Class Dinner Questionnaire was a space for comments. At the time I couldn't think of anything to adequately express my thoughts on Cornell Reunions, so I left it blank. However, when I awoke this morning in Sage Hall, I had my comment. I did not have time enough to give it to you before leaving with **Al Norton**, who had the thoughtfulness to go out of his way to drop me here (Bradford,

Pa.) for a short visit before flying back to Oklahoma. Here is my comment:

As I recall Rip Van Winkle slept for twenty years,
But I, Sam Collins, have slept for forty years
Before awakening on the Campus of Cornell.

Fellow Cornellians, take a tip from me:
Just snooze a bit, for five or ten.

Don't sleep for forty years before you
Awake, on the Campus of Cornell.

I feel that I am back in the Class of 1913."

—**Sam Collins**, Tulsa, Okla.

'14 ME—"I'm on an Explorer's Club-Museum of Natural History trip through the Congo with the world's authority on African birds, Dr. James P. Chapin," writes **Charles R. Vose**. They have covered the country from Lake Tanganyika to Lake Edward and have met all the scientists in the Congo and many of the native chiefs. His address is Box 217, Bukari, Kivu, Congo Belge.

'15 CHARLES M. COLYER
123 West Prospect Avenue
Cleveland 1, Ohio

Here we are again! 1953-54 series of ALUMNI NEWS coming up, and we are all one year older: most of us 60 or thereabouts. The passing years are narrowing the bracket on us, but we gotta hang on until our Fortieth Reunion, June, 1955. We should all resolve to that effect.

Lawyer **Frank Holmes** inquires as to the date of our fiscal year for dues and ALUMNI NEWS subscription. **Walt Priester** rules as follows: "I believe that we have always called the end of our fiscal year November 1, and it might be a good idea the next time you write a NEWS column that you call this to the attention of the members of the Class and also put in a little blurb about our still being short of our goal of 400 dues-paying members." He says "we need another 40 or 50 dues-payers so that we would not have to write another letter."

Dick (J. Dickson) Pratt sends a chatty note from 1453 California Avenue, Wahiawa, Oahu, T.H., in response to one of Walt Priester's touches for dues. He writes: "I was glad to get a letter from Walt reminding me that I have not sent my \$5 in as a subscriber to the 'Alumni - News - for - all - Fifteneers' campaign. I am happy to enclose my check. Walt says you would like to know something about each 'Fifteener' who writes to you. I do not know exactly what to write because I am not sure what is on the record. In any event, I have been with the Hawaiian Pineapple Co. for over thirty years, and, as you may know, this company packs the Dole brand of pineapple which is nationally advertised. At the present time I am Manager of the Wahiawa Plantation Division situated on the Island of Oahu. It is a plantation of some 14,000 acres of pineapple, and we have a complete mechanized operation. Any time you happen to be in the Islands, I shall be very pleased to show you around our plantation and to see that you have the opportunity to see our cannery which is situated in Honolulu. You probably know that we have a large group of Cornell alumni in the Islands, and I am sure that, if they knew I was writing to you, they would wish to send their Aloha to you and Walt along with mine."

P. F. Halsey says: "Have been with the Newport News Shipbuilding & Dry Dock Co. since graduation. During World War II was V.P. and Gen. Mgr. of its subsidiary, the North Carolina Shipbuilding Co., at Wilmington, N.C.; now Superintendent at Newport News. Two sons, both chemical engineers, one practicing and the other in the Navy. Can boast of only three grandchildren."

Rickey (Jack) Horner writes from Laconia, N.H.: "Have been much interested (and amused) at your 1915 Baby Contest. Guess I'm very much out of the running due to such stiff competition, but I am proud, nevertheless, of my four grandchildren and I know I will be proud of my fifth, due in a couple of weeks. As for myself, am in temporary (I hope) retirement due to my heart kicking up on me twice in the last two years, but am feeling just fine again. In the meantime, am thoroughly enjoying this beautiful 'Lakes Region' area in which I live, and keep pretty busy in and around my new home and my camp on the Win-nisquam."

Bill (Clarence) Hayes must be a grandfather. He wrote us in June that he was "expecting." Bill is in the brokerage line: Bacon, Stevenson & Co., 39 Broadway, New York City.

Arthur Palmer is practicing medicine at 667 Madison Avenue, New York City 21.

Alex (Alexander M.) Beebe, President, Rochester Gas & Electric Co., writes an open letter to the editor of the New York Herald Tribune in reply to an editorial of the paper endorsing State development of Niagara Power, July 22.

'16 HARRY F. BYRNE
123 William Street
New York 7, N.Y.

June 13 last, the gift of the Snack Bar in the Moakley House was presented to the University by the '16 Class. It provides food and catering service for the House. Through the courtesy of **Larry Gubb**, the Class also presented a TV set to Jack Moakley; Philco, of course, the very sight of which would make a TV addict drool. Present and participating were Gubb, **Franz Scheetz**, **Bub Pfeiffer**, **Royal Bird**, **Harry Caplan**, **Ted Jamison**, **Charles Eppleur**, **Pat Irish**, **Red Zeman**, **Harold Bache**, **Van Hart**, **Gregg Landres**, **Lew Hart**, **Harlowe Hardinge**, **Chief Gahnkin**, **Karl Fernow**, **Ed Carman**, **Ernie Elder**, **Birge Kinne**, and **Herb Snyder**.

Leroy Grumman was recently elected to the Board of Trustees of the University, joining with our own **Larry Gubb** and **Franz Scheetz** on that august body.

With this issue of the ALUMNI NEWS, the Class starts its experiment in sending the News to all members of the Class, whether they have been subscribers or not. We trust it will bring pleasure to all of you, and that we will be hearing of you and from you.

Sanford Lansing is president of Socony Paint Products Co., at Metuchen, N.J. **Francis Hunter** has been on chilled safari in the Aleutians, popping off Kodiak bears up there. **Allen Frick** and **Mrs. Frick** just returned from the Grand Tour of South America, down the west coast, across the lakes at Tierra del Fuego, and up the east coast, settling back at 318 Lincoln Avenue, Ridgewood, N.J. **Frank Thomas** has given up on apartment living and can be found

at his new home at 10 Chestnut Street, Garden City. **Bob Dahn** has taken up residence in West Palm Beach, Fla., at 219 Greymon Drive, with Mrs. Dahn and their boxer pup, "Cleopatra," already a neighborhood character. **Dave Visel** is also a Floridian, now at West Turner Street, Clearwater. **Paul Sanborne** is a retired flour broker, and can be found mostly at Lake Placid Club, Lake Placid. **Elmer (Buddy) Holmen** has moved to 257 South Elm Drive, Beverly Hills, Cal. **Joe and Mrs. Inness**, just returned from a trip to the east coast countries of South America, back home at 39 Fifth Avenue, New York City 3, or at Maple Street, Woodstock.

Alex (Bill) Anderson, he of the famous steel guitar, having reached big-league stature as a musical composer, as an avocation only, is now a member of ASCAP, with royalties rolling in, we hope. He has published many outstanding Hawaiian songs of worldwide popularity. **Joaquin de la Roza** is the inventor of a process for converting bagasse (sugar cane waste) into newsprint, a process which bears his name.

The 1916 Chair is progressing famously, and should be ready for use come 1956 Reunion.

The writer, **Frank Thomas**, and **Birge Kinne** will try to keep you informed in the News of what gives with '16. I can be found at 123 William Street, New York City 38; **Frank** at the address above; and **Birge** at 420 Lexington Avenue, Room 2304, New York City 17. Send your chit-chat along to one of us.

'17, '21 WA—**Daniel C. McCoy** is with Frigidaire Division of General Motors Corp. in Dayton, Ohio, where his address is RD 2, Box 319.

'17 ME—**William W. Robertson** purchased the Oldsmobile dealership in Bradford, Pa., in September, 1951. His address is 127 Kennedy Street, Bradford, Pa.

'18, '21 AB—Vice-president and a director of Van Strum & Towne, Inc., investment counsel, **Leicester W. Fisher** writes that he was unable to make the Reunion because of an all-day "must" business meeting. He resides at 645 Shadowlawn Drive, Westfield, N.J.

'19 ALPHEUS W. SMITH
705 The Parkway
Ithaca, N.Y.

REPEAT PERFORMANCE DIVISION (*Department of Golf*): The Bergen County (N.J.) Cornell Club holds its annual meeting and golf tournament in early summer. Once again, the golf champ turned out to be **Clyde Christie**. Vacation plans included a month's trip with wife and daughter to the West Coast and the Canadian Rockies, with a side trip to visit in Dallas, Tex., fraternity brother **Robert Bowles**, whom Clyde had not seen since 1919.

DAVY HOY EN GROS DIVISION (*Department of California*): Last July, the Boy Scouts of America held their National Jamboree at Irvin's Ranch, near Newport Beach in Southern California. The tent city housed 48,000 from the U.S. (all 48 States) and from 15 other countries. Registrar was **Percy L. Dunn**.

ONWARD & UPWARD DIVISION (*International Department*): Grant Advertising, Inc., 655 Madison Ave., New York City, has taken the first step in the expansion of

New York operations by appointing **Hugo C. R. Vogel** (above) as vice-president in charge. Former director of the agency's international division, Hugo has had 22 years' experience in domestic and international advertising. He joined Grant in 1946 as manager of the London office and was given the job of expanding overseas operations by setting up shops in Johannesburg, Cape Town, Madras, Calcutta, New Delhi, Bombay, and Hong Kong.

'20 WALTER D. ARCHIBALD
110 Greenridge Avenue
White Plains, N.Y.

Here's a picture to make you fishermen envious. These are the two fellows we intrust our Class funds with, the chairman of our Class Group Subscription Committee and our Class Treasurer. **Joe Diamant** (right, above) was in a jovial mood when he wrote your reporter, so I'll repeat his letter: "The enclosed photo shows part of a day's catch of small-mouth bass that **George Stanton** and I got last month at Cape Vincent in the Thousand Islands. We had four days of wonderful fishing. If more 1920ers would pay their Class dues this year, we might be able to fish for a whole week next summer! Incidentally, we swore to cut up for bass-bait the first guy who asks for an audit of the Class funds." How's that from our Class Treasurer? But your reporter will forgive them if they invite him to go on that whole week's trip next year!

Seriously, however, George gives us an encouraging report regarding the success of our Group Subscription Plan. The response from our Classmates, with some assistance from forty underwriters, makes it

possible to continue for another year sending the ALUMNI NEWS to every Classmate whose address is known, whether he has paid his dues or not. But of course, the more who pay their dues, the less will be the demand upon the underwriters.

Had lunch with our Vice-president, **Dick Edson**, the other day and he would like suggestions about what kind of garb we should have for our 1955 Reunion. No, it's not too soon to think about it. Less than two years away now. So write me about your suggestions, and give me some personal dope for this column at the same time.

President **Don Blanke** is starting to make plans for our big Fall Dinner. It will be held in New York sometime in October or November. The next issue will give you full particulars.

Eddie Cadiz had a serious operation early this summer, but at last report he had made a fine recovery and was hard at work again. Take it easy, Ed!

C. Hobart Sherwood of 7 Mitchell Ave., Yonkers, was married, June 19 in the First Reformed Church, Hastings-on-Hudson, to Miss Gwendolyn Grossman of Bronxville. A wedding trip to Cambridge Beaches, Bermuda, followed and their present address is 1328 Midland Ave., Bronxville.

Henry G. Cundell has moved to Florida, but he hastens to tell us that he has not retired. Temporarily, his address is 440 Ribault Ave., Daytona Beach, Fla.

'21

GEORGE A. BOYD
80 Maiden Lane
New York 38, N.Y.

Well, here we are, as forecast in the July Class Newsletter. In making his debut as a columnist, your former editor announces his very simple policies: to alternate his biographical sketches impartially as between engineers, lawyers, medics, farmers, architects, and just plain Arts students, BMOH's and the run of the mine like myself. After thirty-two years, all distinctions have vanished. We are all 1921ers, destined to feel a closer bond as the years pile up.

For the first column, the field is wide open. Let's start with our vice-president, **Robert O. Davison**, known familiarly as Obie. In the days when I watched him speeding down the cinder path, intercollegiate 220-yard champion and a veritable Mercury, I used to think him the handsomest man in the Class. Traces of this still survive in the noble ruin behind the desk at 31 Nassau Street in New York City, headquarters of Kelco Company's Eastern Division. (No offense intended; aren't we all?)

Obie is in neither steel, oil, machinery, nor in stocks and bonds; he is in seaweed. Don't get a mental picture of his being all fouled up. On the contrary, he is uninhibited in his job and in the collateral function of being a director in the Dairy Industries Supply Association. How come, seaweed and ice cream? Well it's like this: From the giant kelp that grows in the coastal waters of Southern California is made a powder, which in water forms viscous solutions. As a stabilizer in ice cream, it prevents the formation of large ice crystals and produces a smooth, velvety texture. Again, it keeps the fine cocoa fibers in chocolate milk separated and suspended. This is not an advertisement, so we shall skip cheese spreads, salad dressing, bakery icings, shav-

ing cream, toothpaste, paper and textile sizings, oil well drilling muds, and literally dozens of other uses. But you get the general idea.

Obie's motto should be "*Per asperam ad Neptune*," which being interpreted means, "Through hard ways to the kelp." After an initial experience of building hydroelectric works in upper New York, he went with various pump companies in an effort to put his ME degree to practical use. The great depression of 1929-1933 was hard on pump manufacturers. I should know; I lost my shirt in Worthington stock. So, after a brief stay with Pennzoil Co., he came to Kelco in 1934.

Obie married Marion Bassett (yes, Marion) in 1925. An eighteen-year-old daughter is starting her sophomore year at Miami University in Ohio. At home in Westfield, N.J., he indulges in bowling and golf. But my lasting memory of Obie as an athlete is as of the night of the Cornell-Michigan track meet in the Drill Hall. Bristow Adams was officiating for the first time in white tie and tails. The score was tied, and only the relay race remained. Excitement was at fever pitch. Obie, running the second leg, with **Johns, Felter**, and **Kurt Mayer**, pulled the fat from the fire. The Sun headlined: "The old days are back!" Doubtless Obie will never experience a similar thrill unless, some day, he dredges up a mermaid among the kelp!

Our worthy Class president has been making spot news. Within a period of thirty days centering around June 30, **Willard A. Kiggins, Jr.** was (1) re-elected president of the Alumni Fund for his second year, (2) elevated to the presidency of A. H. Bull Steamship Co., where he will "continue to carry on its traditional policy of improving its services to Puerto Rico," and (3) elected a director of the Corn Exchange Bank Trust Co. Quite evidently, the Class Council knew what it was doing at the Reunion two years ago, when it picked a comer!

'23 Men's Reunion—The Alumni Association tells us that although we did not break the Thirty-year Class record, our number was only second to the all-time high total. The 1923 men turned up 152 strong and being dressed in their white Eisenhower mess jackets and overseas caps, earned the reputation on the "Hill" as being the Class with the largest number of restaurant waiters ever to be found in Ithaca at the same time.

Acting on recommendations from 150 Classmates consulted on what the Thirty-year Reunion should provide, the committee planned and executed a completely unregimented Reunion. We did not march and no one was required to be at any place at any particular time. The result was, according to reports, a better mingling of these "middle-aged men" and a lot of time spent on the benches at our Reunion tent with, of course, the ever-present tin can in every hand.

There were two organized activities: the banquet Saturday evening, at which there was not one speech but a lot of singing and music, and the highlight of the meeting, the buffet supper at the Statler Club. This was a joint venture of the women and men of our Class and drew an attendance of close to 250. The wives and husbands of the women and men of our Class, together with a great many children of all ages, attended

this session and the reports have been uniformly favorable. We have been urged to attempt it at future Reunions.

Although the weather prohibited the taking of a Class picture, there were at least fifty cameras shooting at us most of the time we were there. Al Mogensen took new movies to complement the two films he made of our Ten-year Reunion. The combination of movies and personal shots should preserve for posterity at least some impression of our Thirtieth.

There was only one sad item to mar the pleasure of this week end. At this meeting, announcement was made of the tragic death of Ed Luque in an accident in Texas, April 28.—Charles F. Kells

'23 Women's Reunion—"We are the belles of '23 you've heard so much about—

The youngsters they all laugh at us when the family album's out.

We wore our dresses to our knees, our stockings rolled below,
Our bosoms flat, our hair a rat, our waistlines didn't show.

As we go prancing all the wolves in town go, 'Wow, wow, wow, wow!'

We were the belles of the '20's—but we're in our fifties now!"

Anne Hoehler Stotz's lyrics, sung by a "Tiller Girls" chorus at our Class banquet, set the theme for our Thirty-year Reunion, the best yet according to experienced reuners. We broke a record again by having the largest number of women back for a Thirty-year Reunion; 63 registered with two or three more who neglected to get their names down on the official list. From Thursday when the first arrivals came in 'til Sunday when Clara Dickson's halls echoed the footsteps of the last to leave, the hours were much too short.

People drifted in all day Friday. Louise Stevens Fenner and Frances Vaughn Pringle did yeoman service at the '23 booth in Barton. Dot DeLany, Reunion chairman, helped Doris Wadsworth Toole and Adele Dean Mogensen issue the blue pocket stoles that made such an effective costume over our white dresses. The '23 table at lunch was like "Musical Chairs" as we moved up or reshuffled to make room for each newcomer to the pleasant din of chatter.

Friday evening we joined the '23 men at cocktails and supper in Statler Hall. Many had spouses or offspring along and it was a gay and crowded gathering. Gladys Barkley Wigsten and Charlie Churchill had charge of the party. Early diners got away for Senior and Alumni Singing but many others lingered till time for the Glee Club Concert. Bailey was packed. Maybe it was the atmosphere of the occasion, but the men's voices never sounded better, solo, chorus, Handel, or Cornell songs; a thrilling program that kept us unaware of a thunderstorm outside.

The weather did *not* cooperate with the Reunion committees. It poured Friday night and was cool and raw on Saturday. The rain discouraged much "tent-hopping," though some braved the mud and weather for a little beer and music into the morning hours. Others gathered in Clara Dickson where Dot and Alice Mouronval produced beer, soft drinks, and popcorn.

Saturday began at 6:30 a.m. with Fran Talbor Pratt blowing a bugle call on a kazoo up and down our corridor. Such energy!

"Tiller Girls" of '23 Dance at Reunion Banquet—Dressed as "belles of the '20s" before the portraits of Gertrude Nye and Andrew D. White in the Prudence Risley dining room are, left to right, Helen F. Northup, Evelyn Folkes Orton, Edith Severance Andrews, Frances Rice Darne, Wilhelmina Foulk Hottle, Gertrude Mathewson Nolin, Mary Snyder Foscue, Elizabeth T. Warner. The Class set a new women's attendance record for Thirty-year Reunion.

Fenner

We groaned, but most of us made the All-Cornell Women's Breakfast at Willard Straight where Mary Donlon '20 took our breath away with figures on what it costs to run the University: over 20 million dollars a year operating expenses! After the big Alumni Luncheon at noon and the parade of the Classes, we posed for our Class picture in Barton while the '23 men serenaded us.

Our Class banquet in Risley with Gert Hicks Drake in charge of arrangements high-lighted the week end. Winifred Bly Robson brought all the flowers and Dot Sullivan Caldwell and Florence Foster Durkee helped Anne Stotz with the program. Lacking a piano, Florence headed a snappy band of five kazoos and a ukelele and Mary Butler Davies led the singing. Carolyn Slater Treman, Class president these many years, presided over the brief business session that resulted in the following elections: secretary, Doris Toole; president, Gert Mathewson Nolin; treasurer, Louise Fenner; next Reunion chairman, Florence Durkee; Alumni Fund representative, Helen Northup; and news correspondent, Lucile Wyman Bigelow.

With serious matters finished, Carolyn turned the program over to Anne, who put us in the mood right away by donning a 1923 suit and cloche and then proceeded to make awards to some of our illustrious members. Florence Durkee with 6½ grandchildren received the Oscar for the greatest contribution to the younger generation. Carolyn with three Cornell children was awarded the Oscar for the greatest influence for good on children. Lois Osborne, our adopted Classmate, as the most traveled person present was named "23 Ambassador at Large." Adele Mogensen and Gert Lear Worth split the prize for having lived in the most States: a pot of glue to stick them down. Evelyn Ihrig Swift from Texas received the prize for coming the greatest distance and shared with Alice Mouronval and Helen Schreiner Laborde the award for never missing a Reunion. A questionnaire brought to light the "Old-Fashioned Belle of '23," Gert Worth. Dot DeLany reported the work of a unique survey to find the "Queen of '23 in '53" which, with a

name pulled out of a fishbowl, resulted in crowning Mary Chipman Britting.

Then came the floor show with "Tiller Girls" in evening dresses of the '20's (see picture). This carefully selected (on the basis of who could get into the dresses) and trained (½ hour) chorus sang and did precision (?) dancing and answered a number of encores till time ran out and we headed for the Alumni Rally at Barton. This was the last official gathering, but smaller ones far into the night broke up reluctantly as we realized our Thirty-year Reunion was over.—Gertrude Mathewson Nolin

'24 Men—Gordon D. Hardin, 406 Hillcrest Avenue, Louisville, Ky., is a manufacturer's representative. He is agent for several equipment manufacturers in the chemical, gas production, and gas transmission fields. He reports he is still unmarried but "manages to get some fun out of life." More power to you, Gordon!

Charles W. Skeele, who lives in DeRuyter, is a colonel and commanding officer of the 1st Air Reserve District, which has headquarters in Harrisburg, Pa.

Mead Montgomery is vice-president and treasurer of M. A. Mead & Co., Chicago. He lives at 1440 Sheridan Road, Highland Park, Ill. Your correspondent would welcome additional information about what cooks with you, Mead.

Walter Welti, who is head of the vocal music department, Utah State Agricultural College, Logan, Utah, is past vice-president of the National Association for Opera and lieutenant-governor for Utah of the National Association for Singing Teachers. How about a song for our 30th Reunion next year, Walter?

Dr. Raymond L. Taylor, who is Associate Administrative Secretary of the American Association for the Advancement of Science, informs us that he is a grandfather! Mrs. Taylor was Francena Meyer '25. First grandchild is Susan Van Cortlandt Taylor, born June 18, 1953. Susan's father, Alan Barclay Taylor, attended William & Mary, where he received a BA in 1948. His wife is a University of Nebraska graduate. Dr. and Mrs. Taylor expect to go to Ithaca for the 30th Reunion next June, and will be present when their daughter, Joan Dunham

Taylor, receives her AB. Joan is a Fine Arts major at Cornell.—D. B. Williams

'24 BS—A. Elizabeth Beal has resigned as instructor in education and assistant supervisor of elementary student teaching at Western Reserve University, to become school psychologist and consultant in remedial reading for the Berea, Ohio, board of education. She owns her home at 10227 Newkirk Drive, Parma Heights 29, Ohio.

'24 BS—Mrs. John W. Larcomb (Margaret Kenwell) of 186 Irving Way, Columbus 14, Ohio, writes that her daughter Frances graduated at Ohio State University in 1952 and now teaches second grade in Brooklyn, Ohio. Mrs. Larcomb and Mrs. Agnes Hall Moffat '21 are program chairman and chairman, respectively, of the Ohio State University Women's Club poetry group.

'25 ME—Theodore H. Booth of Woodland Drive, Lewiston, is director of manufacturing of the Carborundum Co., Niagara Falls.

'25 AB—The Rev. Whitney M. Trousdale received the honorary degree of Doctor of Divinity at the June commencement of Tusculum College at Greeneville, Tenn. His home is at 6745 Greene Street, Philadelphia, Pa.

'26, '27 BS—Accountant William Y. Naill has returned to his home on RD 1, Hanover, Pa., after two and one-half years in the Army. He was called from the Reserve and spent ten months in Korea as assistant division ordnance officer of the 7th Infantry Division.

'26 AB, '30 MD—Dr. David Soloway of 201 Elm Street, Valley Stream, has been practicing there since 1940. His oldest son, Roger, enters the University this fall.

'26 CE—Time magazine for June 1 carried an article about the Uris Brothers, 575 Madison Avenue, New York City 22, "who in the last five years have become the world's biggest builders of office buildings." The brothers are Harold Uris, "the detail man and boss of construction," and Percy, "the dynamo and dreamer of the combination." They will erect two twenty-story buildings on the site of the old Pennsylvania Railroad Broad Street Station in Philadelphia, Pa.

'26 AB, '28 EE,—Donald W. Exner, supervisor in charge of electrical power system development at Boeing Airplane Co., is chairman of the AIEE subcommittee on aircraft electric power systems and a member of the subcommittee on aircraft electrical insulation. His son is Donald W. Exner, Jr. '56 and his daughter, Elizabeth, is married and teaches first grade in Seattle. Exner lives at 6236 Thirty-fourth Avenue, N.E., Seattle 5, Wash.

'27, '28 EE—John S. Fisher has been president since 1948 of General Metals Powder Co., 130 Elinor Avenue, Akron 5, Ohio, electrolytic powdered copper and compressed friction materials. He is married, has two daughters, and lives at 614 Vinita Avenue, Akron 20, Ohio.

'27 AB—Associate actuary, William J. November, has been appointed vice-president of the Equitable Life Assurance Society. He was formerly second vice-president and has been in the actuary's department since 1927. His home is at 110 Station Road, Great Neck.

'28 AB, '31 MD—**Dr. Adalberto Barroso-Bernier** has moved his offices from Nahima to the Putnam Building, Manistique, Mich., where he practices with Dr. James Fyvie, urologist. His oldest daughter enters Marquette University in Milwaukee this fall.

'29 CE—**Roland K. Blakeslee** of 145 Westford Circle, Springfield 9, Mass., is product engineer of Diesel Fuel Injection Division, American Fosch Corp. He has two sons age 11 and 8 and is on the governing board of the South New England Section of the Society of Automotive Engineers.

'29 AB—In addition to being manager of sales service for the Mutual Broadcasting System, **Alma Graef Harris** has been treasurer of the New York chapter of American Women in Radio and Television and president of the P.T.A. She resides at 910 West End, New York City 25.

'29 AB, '35 LLB—**Robert L. Griffith**, former assistant to the president of Delta Air Lines of Atlanta, has been appointed chief of the enforcement office of the Civil Aeronautics Board in Washington. Since 1951 he has been attorney-adviser to the Office of Price Stabilization. He resides at 5213 Twenty-sixth Road, North Arlington 7, Va.

'29 BS—**George F. Homan**, P.O. Box ★ 393, Riverhead, is a major in the Quartermaster Corps, US Army Reserve, attached to the QM Base Depot, Long Island City. He sees **Philip J. Parrott** '41 regularly, who is also a major in the same unit.

'29 EE—**John D. Russell** of RD 2, Franklin, Pa., has been appointed manager of engineering at Joy Manufacturing Co. He and Mrs. Russell and their four children spent their vacation in Florida fishing with **Charles T. Hapgood** '31.

'29, '30 CE—**Alpheus F. Underhill** is a partner in Fudge & Underhill, architects and engineers, 105 West Church Street, Elmira.

'30 PhD—Chairman of the division of biology at California Institute of Technology at Pasadena, **George W. Beadle** has been awarded the gold medal of the Emil Christian Hansen Foundation, Copenhagen, Denmark, for his research in biochemical genetics. Given only eleven times since its inception in 1914, the Medal is accompanied by a prize of 5,000 Danish crowns. Professor Beadle has also received the Lasker Award of the American Public Health Association and the Dyer Lectureship Award of the National Institutes of Health.

'30 AB—**Benjamin F. Carpenter, Jr.** returned to Whitehall this year as editor of the Whitehall Times, after six years in encyclopedia work. His address there is 60 Williams Street.

'30 AB—**Benedict P. Cottone** has joined the law firm of Lucas & Thomas, 1025 Connecticut Avenue, NW, Washington, D.C. He was general counsel of the Federal Communications Commission and a special assistant to the US Attorney General.

'30 AB, '34 MD; '39 AB—**Mary Floyd Hirshfeld**, fourth child and second daughter, was born, April 30, to Dr. **John W. Hirshfeld** and **Barbara Babcock Hirshfeld** '39 of 109 West Upland Road, Ithaca. Dr. Hirshfeld practices surgery in partnership with Dr. **Henry B. Sutton** '16.

'30, '31 BS—Forester **Charles E. Mason** is with the New York State Conservation De-

partment and is located at 622 North Main Street, Herkimer.

'31 CE—President for 1953 of the Hawaii section of the American Society of Civil Engineers is **George C. Wallace**, above, in charge of the division of sewers of the City and County of Honolulu. He is also operations officer of the Territorial Civil Defense Agency and has his office in City Hall, Honolulu, T.H.

'32 AB—Mrs. Joseph M. Davis, Jr. (**Frances Reinhart**) is planning a trip from her home at 10654 Overland Place, Los Angeles 34, Cal., east to Ithaca in October. She has two children, Sheila, eight, and Joseph III, four, and would like to hear from Cornellians who travel west.

'32 AB—**William N. Sanchez** of 500 Main Street, Chatham, N.J., is with J. Lewis Fiacre & Son, real estate, in Maplewood, N.J.

'33 AB—Dr. **Vito Barbieri** has his home and office at 5 South Broadway, Dobbs Ferry, which he built in 1949. With his medical practice in Dobbs Ferry, Hastings, Ardsley, and vicinity, he is school physician for the Ardsley School of 1000 pupils. Four babies born to his patients in the first half of June prevented his attending the Twenty-year Reunion of his Class. Dr. and Mrs. Barbieri have two "future Cornellian" sons, Bill, ten, and Ed, seven.

'32 MA, '33 PhD—Dr. **Adrian F. Reed** has been promoted from associate professor to professor of anatomy in the school of medicine at Tulane University, New Orleans, La. He is a specialist in gross anatomy and neuro-anatomical research.

'34 AB, '36 ME, '37 MME—Fourth child and first son, **James Hirshfeld**, was born, January 12, to **James F. Hirshfeld** and Mrs. Hirshfeld of 2530 Iroquois, Detroit, Mich. He is the grandson of the late **C. Floyd Hirshfeld**, PhD '06, and **Elizabeth Winslow Hirshfeld** '01.

'32 MA, '35 PhD—**Charles A. Choquette**, professor of romance languages at Colgate University, Hamilton, has been named department chairman. He joined the faculty there in 1927 as an instructor.

'35 BS—**Theodore C. Woodruff** (above) has been appointed the first manager of the newly-created farm department of First Trust & Deposit Co. of Syracuse. Previously he was in charge of the Farmer's Production Credit office in Mexico, N.Y. As manager of this new department, he will travel throughout Central New York to expand

the bank's loan service to farmers. He and his family live in Mexico.

'35 MA—Dean of the faculty and director of summer school at Wilmington College, Ohio, **Graydon W. Yapple** has been granted a Fulbright Scholarship to lecture from October to June of next year at the American University, Cairo, Egypt. He will teach methods of research, educational tests and measurements, guidance, and child psychology.

'36 AB—**William C. Bauer** is a loan guaranty attorney in the New York regional office of the US Veterans Administration and a lieutenant-colonel in the Air Force Reserve. This year he was elected a vice-president for Air, Department of New York, and a member of the national Air Force affairs committee of the Reserve Officers Association of the US. He resides at 1422 Hancock Street, Brooklyn 27.

'36 BS—**Schuyler R. Hafely**, landscape architect, was recently the subject of a "Presenting Modesto Personalities" column in the Modesto, Cal., newspaper and also was interviewed on Radio Station KBOX. He has served as consulting landscape architect to the Housing Authority of Stanislaus County, Cal., the County of Stanislaus, and Modesto city schools; and has taught evening classes in home landscaping at Modesto Junior College. Hafely's address is PO Box 387, Modesto, Cal.

'36, '37 AB—**Barry Howard** of 255 Ashland Avenue, Buffalo 22, married Kaete Baumann, June 28, 1952, and last May 20 they had a daughter, Candace.

'36—In 1943, **Ruby Rice** was married to Elbert L. Little, Jr. who is professor of dendrology at Universidad de Los Andes, Merida, Venezuela, c/o Facultad de Ciencias Forestales. They have three children, twin boys, seven and a half, and a girl, five and a half.

'37 **ALAN R. WILLSON**
State Mutual Life Ins. Co.
Worcester, Mass.

Every male member of the Class of '37 whose address is known has been receiving the ALUMNI NEWS for three months now because of our Class subscription plan. Forty-five members have agreed to underwrite any losses in the cost of subscriptions and, to date, 155 men have sent their \$5 to **Dick Graham** at 160 Broadway, New York City. To insure the success of the plan, however,

Your Big Red Team . . .

An improved team—playing colorful, spirited and interesting football from start to finish—playing a splendid schedule . . .

26—PENNSYLVANIA at Philadelphia (\$5.20 Box and \$3.90)

(Thanksgiving Day)

APPLICATIONS FOR ALL GAMES ACCEPTED NOW

THE CORNELL UNIVERSITY ATHLETIC ASSOCIATION

BOX 508

ITHACA, NEW YORK

we need 300 subscription-paying members. How about you?

\$5 is not a tremendous amount of money, yet it will certainly buy you a lot of memories and bring you up to date on all your Cornell Classmates. As **Ed Zalinski** puts it, "I don't know about you, but reading the column about the Class of '37 in the last few issues has really rung the bell. It has brought me up to date on a lot of friends I have wondered about over the years, and through it I have been able to renew some fine friendships. I have had a number of letters from other '37ers who are also delighted to be in touch once again. Not only that, but the magazine has brought me up to date on what is happening in Ithaca, and I feel as though I am on the team again."

If you have sent in information about yourself or other Classmates and it has not yet appeared in this column, please be patient. We are printing the initial backlog alphabetically, and when that has been completed we will use other items as they come along. Fevins sake, don't stop sending in material; your correspondent will soon run out of ideas if you don't feed him the info!

Frank A. Parsons of 57 Adams Place, Glen Ridge, N.J., is a planning engineer for the toll systems of AT&T at 195 Broadway, New York City. He is married, with one boy and one girl, and was a lieutenant colonel with Army Ordnance during the war.

Charles H. Peters has recently moved from Collingswood, N.J. to 229 Race Avenue, Lancaster, Pa. Chuck writes he recently changed his business affiliation to

the US Asbestos Division of Raybestos-Manhattan, Inc. at Manheim, Pa., where he is now chief industrial engineer. Chuck and his wife are newcomers in Lancaster, but he will no doubt soon become active in the YMCA and other civic enterprises, as he was in his former home. If you are down his way, drop in and say hello.

Gerald Philipp is sales engineer for the F. W. Schiefer Machinery Co. in Rochester, where he lives at 301 Crestwood Boulevard. He and his wife have one boy and three girls, and Gerry is a member of the local school board and an official in Boy Scout activities.

Henry L. Priestley lives, with his wife and daughter, at 135 Orchard Street, White Plains. He is a metallurgical engineer with Union Carbide & Carbon Corp. in New York City. Hank is interested in the local Community Chest and is active in the Civilian Defense program.

James S. Reid and his wife live in Apt. 3 at 1317 Fort Stevens Drive, N.W., Washington 11, D.C. Jim is an attorney and assistant trust officer for the Hamilton National Bank of Washington; is a member of the American and District of Columbia Bar Associations, George Washington Law Association, and D. C. Bankers' Association. In addition, he finds time to be treasurer of the Cornell Club of Washington.

John Frederick Reilly is a general attorney for the Delaware, Lackawanna & Western Railroad Co. in New York City. Lives at 360 First Avenue, New York, with his wife and two boys. He was a first lieutenant in the Army CIC during the war, and is presently a member of the New York Rail-

road Club and Justinian, an honorary legal society; also finds time to serve as an instructor in transportation law at CCNY.

H. Brainard Risley, DVM, maintains his office at his home on Carmel Hill, Bethlehem, Conn. He is married, with two boys and two girls. He served with the 372d Bomb Group as a captain during the war.

Walter H. Robinson of 1506 Wagner Street, Wantagh, Long Island, recently joined the New England Mutual Life Insurance Co. as an underwriter in one of its New York City agencies. He is married and has a four-year-old son; is currently active in the Wantagh Citizens Committee as well as being a member of the American Electroplaters Society. Walt served as a lieutenant in the Air Corps during the war and writes that he would like to hear from other Classmates who are Long Islanders.

Pliny Rogers is a mechanical engineer with Hope Natural Gas Co. of Clarksburg, W. Va., where he lives at 139 Ridenour Street, with his wife and three daughters. He is a member of the West Virginia Society of Professional Engineers and belongs to the American Gas Association. He served as a radarman aboard the USS Roxane during the war.

'38 PhD—Professor **Elizabeth Van Buskirk**, Greek and Latin at Elmira College, presided at the national convention of Alpha Xi Delta, June 7-12, at Pasadena, Cal. She is acting president of the sorority.

'38 AB—**James W. Moyer** is a physicist at General Electric Knolls Atomic Power Laboratory in Schenectady and lives with his wife, **Nedra Blake Moyer '38**, and their

four children on Ridge Road, RD 7, Scotia.

'39, '43 BSME—**Robert S. Chamberlain**, who is in the lumbering business on Ox-tongue Lake, Ontario, Canada, writes that their fourth child, Nola, was born November 12, 1952. They have three girls and one boy, grandchildren of Professor **Robert F. Chamberlain '08**, Electrical Engineering, Emeritus, and Mrs. Chamberlain.

'39 AB—**Chester A. Roig, Jr.** is district geologist with the Texas Co., San Antonio, Tex., where he lives at 232 West Hermosa Drive.

'40

R. SELDEN BREWER
Alumni Office, Day Hall
Ithaca, N.Y.

Ralph Loomis writes from Warsaw, N.Y., that he is practicing veterinary medicine there with his wife, the former **Grace Kinney '42**. They have three sons, James 10, Bill 8, and Eugene 3.

On July 1 of this year, **Solomon Garb** was appointed assistant professor of Clinical Pharmacology at the Cornell Medical College. He resides at 87 Barrow Street, New York City.

Norm Briggs, after spending two years as sales representative of the Fairchild Engine Division at Wright Field, Dayton, Ohio, has just returned to the home plant on Long Island. He has a son Robert, 4, and the Briggs family live at 112 Bryan Avenue, Amityville.

Bill Bardo, assistant superintendent in the Group Division of Aetna Life Insurance Co., is living at 73 Cambridge Street, West Hartford, Conn.

Otto Glasser, who married Norma W. ★ Mayo in 1943, has two daughters, Charlene Lee 9, and Carole Jeanne 6. He is a Lt. Col. Pilot, USAF, and a Director of Research & Development in the Headquarters Division of USAF. Otto received his Master's degree in Electrical Engineering from Ohio State University in 1947. The Glasser family live at 6230 North 30th Street, Arlington, Va.

Ray Harris is a physician, specializing in cardiovascular diseases. He has three children, Anita 4½, Laura 2½, and Jonathan 9 months. He is assistant medical director of the Ann Lee Home and the Albany Home for the Aged, and is president of the Senior Citizens Center of Albany. His address is 17 Parkwood Street in Albany.

Paul Lutz, who married Alberta Colwell in 1942, has two boys, Paul, Jr., and Gary. He is in business with his father in Prattsville as a GLF agent buyer.

Arthur Galston returned from a Guggenheim Fellowship in July, 1951, after having spent a number of years in Stockholm, Paris, and Sheffield, England. He is now associate professor of biology at Cal. Tech. in Pasadena, Cal. He married **Dale Kuntz '41** and they have two children, Billy 7, and Beth 4.

Warwick McCutcheon is production superintendent of the B. F. Goodrich Tire Plant in Oaks, Pa. He has three boys, 9, 6, and 1, and the family live at 3022 Joshua Road, Lafayette Hill, Pa.

John Weiner has just recently acquired another resort hotel in Miami Beach with his brothers, **Julius '28** and **Mack '36**. They now run the White Roe Lake Hotel in New York and the Plymouth and Adams Hotels in Miami Beach. His mail should be ad-

ressed to White Roe Lake, Livingston Manor.

Morgan Sinclair spends his time at X-Ray diffraction, metallurgical and chemical work with Douglas Aircraft Co. at El Segundo, Cal. With the arrival of Jon Morgan Sinclair last February, he is now the father of three children. In addition to Jon are Peter 13, and Tina 9. In off-hours, Morgan is active with the local sports car undertakings there; in 1951-52, he was president of the local chapter of Sports Car Club of America. He resides at 869 Woodacres Road, Santa Monica, Cal.

With the fall season about to get underway, we hope to see increased activity among the Class of 1940. Very shortly, 1940 men will receive word regarding a Class get-together in Ithaca at the time of one of the forthcoming football games. In the meantime, send latest news of yourself to: Class of 1940 Column, Room 541 Day Hall, Ithaca.

'41—**G. William Six** is chief draftsman for Moffatt & Nichol, Inc., consulting engineers, and lives with his family, including two sons age five and two, at 4617 Colorado Street, Long Beach 14, Cal.

'41 BS—**Burt D. Dutcher** and Mrs. Dutcher of Cross Road, Darien, Conn., are featured in Pan American Airways advertising as typical tourists of Europe. Their pictures have appeared in Saturday Evening Post, Holiday, Time, and the New Yorker: snapshots in color of the couple at scenic spots of their tour. He is an assistant manager of New York Life Insurance Co.

'42 AB—**Fred Antkies** has become vice-president and a partner in the firm of George McKibbin & Son, publishers, and continues as vice-president and advisor of Montauk Mills. He was married in 1944, has two daughters, and resides at 270 Fox Meadow Road, Scarsdale.

'42 BME—Last December, **Stanley R. Brodhead** finished a twenty-one-month recall to active duty as a major, USAF, and became assistant to the director of engineering and contracts, Bridgeport-Lycoming Division of AVCO Manufacturing Corp. He and his wife and three children live at 700 Mill Plain Road, Fairfield, Conn.

'42, '43 BEE—**Robert W. Sailor, Jr.** has been made a project engineer at Philco Corp. in Philadelphia, Pa., where he is engaged in development of government electronic equipment. He and Mrs. Sailor and their son, Robert Warren Sailor III, "Cornell 1973," have moved into a new home at 50 Orchard Lane, Levittown, Pa. Sailor is the son of the late **R. W. Sailor '07**, for many years editor of the ALUMNI NEWS, and Mrs. Sailor (**Queenie Horton**) '09 of Ithaca.

'42, '47 BArch—**Boris L. Oxman** was released from a second call to active duty, April 22, having served two years at Fort Leonard Wood, Mo., and in North Korea. "In Tokyo last Christmas," he writes, "I saw **Allen J. Harmon '48**, also an architect, who was busy supervising construction of several buildings for a group of US movie distributors in various parts of Japan." Oxman is working with Louis Shulman, architect, before setting up his own office. His home address is 61 Sylvan Avenue, Bergenfield, N.J.

'43 Women's Reunion—We had a most successful Reunion, in spite of rainy weather,

with 66 girls registered at Barton Hall. Forty-two of us joined forces at the Class banquet Saturday evening in Balch IV dining room, and elected the following Class officers to carry us through the next five years: president, Peggy Pierce Elfvin; secretary, Caroline Norfleet Church; treasurer, Mary Elizabeth Taylor; Alumni Fund representative, Miriam Freund Hurewitz; ALUMNI NEWS correspondent, June Gilbert Klitgord. Betty Keller and Barbara Prescott Arnold came all the way from California to be at Reunion, and we are very proud of Mary Alice Dietrich, who just earned her Doctorate in science education at Cornell. And the mothers are doing very well too! Mary Close Bean, Carol Bowman Ladd, Mary Klauder Tabet, and Ruth Russell Faulkner all have four children, and three kiddos seemed to be a very popular number. Many girls wrote in who could not be at Reunion. Peg Dilts, who had just received her Masters in social work, was unable to be with us due to an important job interview. Marian Conkling Arms wrote from Guatemala where her husband has been assigned by the DuPont Co. for a three-year stay. A wire was received from the Philippines from Mary Foster Schworer, who lives in Ilo Ilo with her husband and three daughters. Ruth Hillman Bennett wrote from Poland, Ohio, where she is very busy with four boys, Junior League, Cub Scouts, and Delta Gamma alumnae affairs. If any of you gals have moved or married, please send your new name or address to Mrs. John Church, Walker St., Lenox, Mass. She is trying to compile a new list of current addresses. Many thanks go to Grace Wood Munschauer who did a wonderful job as our Reunion Chairman!

—June G. Klitgord

'43 AB, '50 PhD; '49 AB—**Robert P. Conger** and Mrs. Conger (**Josephine Kretz**) '49 of 183 Kinderkamack Road, Park Ridge, N.J., had a son, Robert Woods Conger, May 29. Conger has left US Rubber Co. for General Laboratories in Passaic, N.J.

'43 AB—**Dr. Bertram J. Oppenheimer** and Mrs. Oppenheimer had their second child, George Seth, February 6. He is chief resident in medicine at Montefiore Hospital, Bronx, and resides at 50 Ritchie Drive, Yonkers 5.

'44, '46 AB—**Blancke Noyes**, son of **Jansen Noyes '10**, married Margaret T. Talbott, June 13. His brother, **Jansen Noyes, Jr. '39**, was best man. Father and two sons are in the firm of Hemphill, Noyes & Co., 15 Broad Street, New York City 5.

'44 AB—Besides her regular duties as secretary to the staff veterinarian of the San Diego, Cal., Zoo, Mrs. William B. Harwell (**Edalee Orcutt**) has become a fostermother to three baby gorillas. Her story and picture appeared in the July issue of Glamour magazine under the title, "Babes in the Zoo." She and a psychologist not only care for the gorillas but also study their behavior, mental capacity, and development.

'44 BChemE—**Richard Turner Wilson** was born, October 6, 1952, to **G. Turner Wilson, Jr.**, staff assistant in the office of the executive vice-president, Standard Oil Co. He and Mrs. Wilson live at 911 Arbor Street, Glenview, Ill.

'45, '47 BSinAE—Manager of the engineering division of Henry H. Ackerman &

*For over 80 years
Quality and Dependability*

NATIONAL has a background of over eight decades in producing quality malleable, heat-treated malleable and steel castings—ideal materials for economy and dependability in manufacturing automotive, agricultural and other equipment.

SEE

A 16mm Technicolor film. Narrated by Edwin C. Hill, this 27-minute film tells how malleable iron is made...tested...used...how its production economy, ductility, machinability, toughness will give you a better finished product. Available for group showings.

NATIONAL'S unparalleled experience—coupled with a continuing metallurgical research program, rigorous quality control standards, and completely mechanized foundries in strategically located cities—is at your disposal.

Sales offices and engineering facilities are located at all five plants listed below.

'51 BS—**Albert A. Voorhess** of Liv- ★ ington Manor was commissioned in the supply corps of the Naval Reserve in October, 1952, and is stationed in Oslo, Norway, where he is assigned to MAAG—Norway-American Embassy.

'38 MS, '53 PhD—Professor **Jesse W. Jones** has been appointed director of agricultural teaching at Clemson College, S.C., where he has been teaching since 1946.

'52 Men: **JOHN C. LANKENAU**
217 West Avenue
Ithaca, N.Y.

For several months while stationed at ★ Fort Sill, Oklahoma, 2d Lt. **O. Frank Rich-**

ter produced the television show, "Front and Center." He is pictured below discussing a script with a member of the cast. The show featured the talents of servicemen and their families stationed at Fort Sill. Frank, who was the first producer of the show, joined the Public Information Office in March and the first program was presented in early April. After visiting his parents in Silver Spring, Md., Frank expected to sail for the far East.

AF Lt. **Edwin Biederman, Jr.** is presently stationed at Thule AFB and is serving as assistant petroleum officer. Eddie has also been teaching a course in Arctic Survival and has been directing the choir. He reports rather wistfully that he is the only Cornellian at Thule, which is 809 miles from the North Pole: M & S Sqdn., Box 604, APO 23 c/o PM, New York City.

Bernard L. Shapiro, a student at NYU school of medicine, married Janie Sue Rinsky early in June. The best man was **Paul Schien '52** and '56 MD and the ushers were Lt. **Stephen Kaye '52**, **Lewis B. Ward '52**, and **Joel F. Lehrer '52**.

Lt. **Eric Freidus** is survey officer with ★ the 103rd Field Artillery Battalion: HQ 103FA Bn, 43d Inf. Div., APO 112 c/o PM, New York City.

In a letter from **Sergio S. Machado**, he very kindly extended an invitation to a Cornell student to spend a vacation in Brazil at his home in Rio de Janeiro at the Copacabana Beach. While he was a student in Engineering at Cornell, his father was a member of the Brazilian Treasury delegation in US. When his father returned to Brazil, Sergio transferred to *Escola Nacional de Engenharia*, from which he graduated this year. He hopes to do graduate work at Cornell.

Charles D. Graham, Jr. has been granted an extension of his Fulbright Scholarship for a second year and hopes now to receive a PhD in metallurgy from the University of Birmingham in fall of 1954. Mrs. Graham (**Alison Bliss**) '52 is working as a research assistant to a "bearded lecturer" at the University who is engaged in a study by questionnaire of British local government. Their address is 32 Tixall Rd., Birmingham 28, England.

Robert Brenner is a medical student at the University of Buffalo. His address is 58 Blaine Avenue, Buffalo 8.

John J. Auleta, Jr. writes that he is employed by Shell Oil Co. at the Wilmington Refinery as an engineer. In June, 1952, John married Betty Arlene Sanderson of Bath. Recently, on a trip to California, they met **Sam Rodgers '52** and **George Sutton '52**.

PFC **Fred VanRiper** is now stationed ★ in Heidelberg, Germany. His address is A. G. Div. Hq., USA REVR, APO 403 c/o PM, New York City.

AF Lt. **Morton S. Parker** is enrolled ★ in electronics officer training program at Keesler AFB, Miss.

Otto W. Pedersen writes that he is Director of University Food Services at Kent State University, Kent, Ohio; address: 1504 South Lincoln St., Kent, Ohio.

PFC **Earl Pollack** is with the 25th ★ Infantry Division in Korea and can be reached by writing CDM 27th Inf. Reg., APO 25 c/o PM, San Francisco, Cal.

Stephen J. Tauber received his AM in organic chemistry in June from Harvard

Wedgwood Cornell Chinaware

The popular Cornell Chinaware, imported from England, is used in many Cornellians' homes. Dinner Plates have twelve center designs, of familiar Campus buildings. Your choice of either Mulberry or Staffordshire Blue, and of either the Cornell Border in color, illustrated at right above, or white moulded Wedgwood Patrician pattern, shown at left. Sold in assortments only, at \$30 a dozen, or \$3 each for less than six plates to one address, delivered prepaid.

Teacups & Saucers come in Blue or Green, all alike with Cornell Border. They are \$40 a dozen sets, or \$4 for less than six sets.

From head to toe

Your friends, the glycols, help shampoo your hair, smooth your skin, and even improve the fabrics of the clothes you wear

FEW OF US would recognize a glycol if we saw one. Yet practically all of us are in constant and pleasant association with this man-made family of chemicals which are known to chemists as the dihydroxy alcohols.

SMOOTH AND PLEASANT—That pleasant feeling you get from many modern skin lotions, sun-tan creams, or shaving creams—that's the work of some of the glycols. The latest shampoos don't leave your hair dry and brittle—thanks to the same glycols.

THE FIRST MAJOR USE of glycols was in "Prestone" one-shot anti-freeze. Today, everywhere you turn glycols are at work for you. One is a vital ingredient in a new, man-made textile fiber. Others keep liquid mixtures, such as medicines, cosmetics, and hair tonics, from separating in the bottle. They keep tobacco fresh and moist, cellophane soft and pliable, and also are used to make your car's new improved hydraulic brake fluid.

FROM OIL AND GAS—These busy aids to better living are obtained from petroleum and natural gas. Certain of the glycols in turn are used to purify the natural gas that serves so many of us in our homes and at work.

UCC PRODUCES GLYCOLS—As pioneering leaders in the field of petroleum chemistry, the people of Union Carbide produce great quantities of glycols in many forms—and hundreds of other chemicals that make ours a better world in which to live.

STUDENTS and STUDENT ADVISERS: Learn more about the many fields in which Union Carbide offers career opportunities. Write for the free illustrated booklet "Products and Processes" which describes the various activities of UCC in the fields of ALLOYS, CARBONS, CHEMICALS, GASES and PLASTICS. Ask for booklet E-2.

UNION CARBIDE AND CARBON CORPORATION

30 EAST 42ND STREET  NEW YORK 17, N. Y.

—UCC's Trade-marked Products of Alloys, Carbons, Chemicals, Gases, and Plastics include—

SYNTHETIC ORGANIC CHEMICALS • EVEREADY Flashlights and Batteries • NATIONAL Carbons • ACHESON Electrodes • PYROFAX Gas

ELECTROMET Alloys and Metals • HAYNES STELLITE Alloys • PREST-O-LITE Acetylene

DYNEL Textile Fibers • BAKELITE, KRENE, and VINYLITE Plastics • LINDE Oxygen • PRESTONE and TREK Anti-Freezes
