VOL. XXXIII, No. 2

ITHACA, NEW YORK, OCTOBER 2, 1930

PRICE 12 CENTS

New Lecturer

Dr. Georg Hevesy Chosen to Present George Fisher Baker Current Series on Chemical Subjects

The George Fisher Baker non-resident lecturer for the present term is Dr. Georg Hevesy, professor of physical chemistry in the University of Freiburg, Germany. Professor Hevesy is a Hungarian by birth, having been born in Budapest in 1885. He first attended the University of Budapest, then the Technische Hoch-

GEORG HEVESY

schule of Berlin, and later the University of Freiburg, where he received the degree of Doctor of Philosophy in 1908. After two years as assistant in the Technische Hochschule of Zürich, he carried on advanced research at Karlsruhe in Professor Haber's laboratory in 1910, and from 1911 to 1914 he held a research fellowship in the University of Manchester, working in the laboratory of Sir Ernest Rutherford. During this period he also carried on research work at the University of Liverpool in the laboratory of Professor Donnan.

He was then called to a position in the Radium Institute of Vienna, and in 1920 became a member of Bohr's Institute of Theoretical Physics at Copenhagen. In 1926 he was called to the professorship of physical chemistry at the University of Freiburg. While con-

nected with Bohr's Institute he carried out, in cooperation with Dr. Coster of Holland, a brilliant research that led to the discovery of the new element hafnium.

His many and diverse investigations have lain in the fields of inorganic chemistry, physical chemistry, electro-chemistry, radio activity, and the separation of isotopes, and his researches are characterized by brilliancy of conception, unique experimental attack, and convincing thoroughness.

During the coming term he will lecture on five different topics, as follows:

1. Chemical analysis by x-rays and its applications.
2. Rare earth elements and atomic structure.
3. The chemistry of hafnium.
4. Electrolytical conduction and diffusion in solids.
5. Separation of isotopes.

Sports Show Loss

Football Only Activity to Record Profit, Athletic Association Statement Reveals

The financial statement of the Athletic Association as of August 31, made public by Romeyn Berry '04, Graduate Manager, shows a net operating loss of over \$18,000. Football, as in former years, was the only sport to show a gain. A profit of \$105,270.47 was more than absorbed by the losses in the eleven other sports in which Cornell athletes engaged, and by the cost of operation and maintenance of the extensive plant. The major losses were sustained in track and by the Navy, which were respectively \$30,365.73 and \$28,814.74.

A loss of \$10,127.30 in winter sports is attributable largely to the fact that the new toboggan house cost \$10,000.

C. U. A. A. FINANCIAL STATEMENT

ACCOUNT	COST	RECEIPTS	LOSS	GAIN
Football	92,590.84	197,861.31		105,270.47
Baseball	20,978.36	9,733.82	11,244.54	
Track	37,777.46	7,411.73	30,365.73	
Navy	41,392.43	12,577.59	28,814.74	
Basketball	11,805.41	7,754.09	4,051.32

Soccer	2,820.79	100.00	2,720.29	
Hockey	2,583.46	465.10	2,118.36	
Lacrosse	4,616.78	545.25	4,071.53	
Tennis	3,558.71	436.06	3,122.65	
Fencing	3,563.89	525.00	3,038.89	
Winter Sports	16,818.41	6,691.11	10,127.30	
Plant Operation, Maintenance & Repair	23,701.65	1,316.00	22,385.65	
General Account	43,654.35	44,715.68		1,061.33
			124,379.02	106,331.80
				18,047.22
			124,379.02	124,379.02

Operating Deficit

1. The item of cost in all team accounts includes guarantees and distributive shares paid to visiting teams.

2. The Navy Account includes cost of, and receipts from, the observation train at Ithaca and of observation trains tickets at Poughkeepsie.

3. The general account is credited with such general items of receipt as membership and winter sports tickets (none of which are credited to any sport), Spring Day Circus, donations, etc. It is debited with such items of disbursement as interest on indebtedness, administration salaries and expenses, new construction; etc.

4. The Winter Sports Account is charged with the cost of the new Toboggan House.

ATHLETICS

ELEVEN WINS OPENER

The football team, armed with a powerful running attack and a well screened aerial offensive, crushed Clarkson Tech, 66-0, in the opening game September 27, on Schoellkopf Field.

A heavier team, with more players in reserve than last year's eleven, started against the Engineers, and in six plays after the kickoff had scored its first touchdown. The score at the half was 53-0.

The game proved little, for Clarkson was badly outclassed. The Red and White displayed a more versatile attack than is usual for an opening game and used more than two complete teams, including many sophomores.

Three second year men started with Handleman, a veteran, in the backfield and were responsible for the early scoring. Viviano ran the kickoff back to Cornell's forty-five-yard line. Handleman made two yards. Beyer went through left tackle for fifteen yards. Smith tried the other tackle for another fifteen yards. On the next play, both teams were off-side, but Viviano, on two plays, scored, going through the line for twenty yards on the first try and over the line on his second. Captain Hunt, kicking from placement, missed the goal.

From then until half-time, the process was repeated. The backs reeled off long gains off the tackles and around the ends, missing another touchdown when Handleman fumbled on the goal line, Hill, end, recovering for Clarkson.

The scoring of eight touchdowns in the first half was featured by Beyer's twenty-five-yard run around Clarkson's left end for a touchdown and two long forward passes that resulted in tallies. The first pass came in the first quarter, with Cornell on Clarkson's thirty-yard line. On fourth down, Handleman tossed to Smith who went over for the score.

The second came in the second quarter. Beyer's pass to Smith gained twelve yards and put the ball on Clarkson's thirty-five-yard line after an exchange of kicks. Beyer then passed to Lueder, end, who barely caught the ball as he went over the line.

The goal kicking was erratic, with four men trying the placements. Captain Hunt made three.

Second and third string players went out for the second half and failed to continue the pace. Cornell had made twenty-two first downs in the opening half, but in the second the Red and White got only six. Only one first down was registered in the last period, as the attack failed to function.

Clarkson's offensive showed better coordination, and the Engineers got three

first downs in the third period, but at no time did they threaten to score.

The game showed a more versatile aerial attack by Cornell. The Ithacans completed eleven out of twenty-two forwards for 187 yards. One pass was allowed when the Clarkson defense interfered with Lueder. The passes were of all varieties, with the shorter, screened passes off the ends and over the center of the line being the most effective.

The line showed strength throughout, and the play of the ends was above par. The line opened holes with regularity.

Of the backs, the three sophomores who started, Viviano, Beyer, and Smith, played exceptionally well in their first varsity start. Of the replacements, Pentecost showed speed and agility in open field running.

Only one sophomore started in the line, George at left tackle. The rest of the line-men were veterans, either of the varsity or of the squad. The strength and number of the reserves are encouraging.

The line-ups:

CORNELL (66)	Pos	CLARKSON (0)
Lueder	LE	Hill
George	LT	Morrow
Tullar	LG	Fremouw
Rickert	C	Morrow
Hunt	RG	Staby
Rothstein	RT	Plummer
Young	RE	Couper
Smith	QB	Brooker
Viviano	LH	Lehner
Handleman	RH	Zimber
Beyer	FB	Delaware

Score by periods:

Cornell	26	27	6	7-66
Clarkson	0	0	0	0-0

Touchdowns—Handleman 3, Viviano 2, Smith, Beyer, Lueder, Pentecost, Cornish.

Points after touchdowns—Hunt 3, Handleman, Lundin, Larsen (all placement kicks).

Substitutions—Cornell: Gordon for Viviano, Viviano for Gordon, Cornish for Viviano, Borland for Lueder, Lundin for George, Hackstaff for Tullar, Brindley for Hunt, Falk for Brindley, Penny for Rickert, Wallace for Penny, Larsen for Rothstein, Martinez-Zorrilla for Young, Claggett for Martinez-Zorrilla, Pentecost for Beyer, Ives for Smith, Skokos for Handleman.

Clarkson Substitutes: Lamb, Tarbell, Graeber, Spaulding, Fuller, Lamoni, Benton, Manning, Boyle, Van Camp, Bennett, Hudson.

Referee, Benzoni; umpire, Miller; linesman, Pendleton; field judge, Mansfield. Time of periods: 15 minutes.

NOMINATED FOR CONGRESS

Professor Julian P. Bretz has been nominated by the Democratic Party as its candidate in the coming elections for member of Congress. He will oppose Gale H. Stalker, Republican incumbent, of Elmira.

DEAN R. LOUISE FITCH in May had a radio debate with the Dean of Women at Wells College from the National Broadcasting Station in New York, on the advantages to women of large vs. small colleges.

JUDGE POUND '87 RENAMED AS CANDIDATE FOR BENCH

Cuthbert W. Pound '87, Trustee, former professor of law, and now associate judge of the New York State Court of Appeals, was renominated for another term by the Republican Party at its state convention September 26.

Judge Pound has been associate judge of the court since 1915. His first full term of fourteen years is expiring this year.

Judge Pound was admitted to the bar the year he graduated and began the practice of law in his native city, Lockport. He came to Cornell in 1895 to teach, leaving in 1904. He was justice of the Supreme Court from 1906 to 1915.

CONTINGENT BEQUEST MADE

A contingent gift of \$250,000 is made to the University in the will of Richard Leslie Palmer '87, who died August 21. The fund will be available only if his widow and two surviving sons die without issue. If Cornell receives the fund, it is to be used for dormitory construction.

HURT CELEBRATING SUCCESS

Robert Pollock '32, Elmhurst, recently suffered a severe concussion of the brain when he fell from an awning support on Dryden Road. Pollock had just passed a make-up examination. He jumped to grasp the support, but it gave way and he fell to the sidewalk striking the back of his head.

Large Building Operations

Value of Buildings Now in Process Totals Nearly Six Millions—A Thousand Workers Busy

Cornell is in the midst of building operations which will total close to \$6,000,000 when completed during the next two years. Foremost among the new buildings are the War Memorial Group of men's residence halls and Boldt Tower, which will house 116 men students for the first time. Extensive grading and landscaping operations have been in progress all summer and have contributed notably to the architectural beauty of the group located on the slope to the west of the campus.

The largest project nearing completion is the \$1,400,000 Plant Industry Building. When ready for occupancy in the next month or so, various departments, now scattered all over the University, will be housed there and will provide class room and research facilities regarded as the finest available.

Plans are in preparation for new buildings for the College of Home Economics and the Department of Agricultural Economics for which appropriations of \$985,000 and \$650,000 were made by the Legislature last spring. It is anticipated that bids will be let in the near future for these structures.

The new heating plant costing \$180,000 and duplicating the former facilities will be ready for operation when cold weather sets in. The new 225-foot stack, already completed, has changed the sky-line of East Ithaca. Located near the heating plant is the new laundry building authorized by the Board of Trustees last year. All the University laundry as well as that of the women students will be handled in the new plant.

Dredging operations in Beebe Lake have been completed with the removal of 85,000 cubic yards of silt and debris, making the lake from six to ten feet deep. A stone arch bridge at the head of the lake, joining the two shores, is being built and will be ready next month.

Returning students find the rapidly expanding department of Music permanently housed on Wait Avenue in a completely remodeled structure adjoining Balch Halls. Additional class rooms, made necessary by the enlarged Faculty and the development of new courses, will be ready later in the fall. A good-sized auditorium is having a sound-proof stage installed, which will be linked up with Station WEAI and will serve as an additional studio for the broadcasting of a large number of musical programs.

In the Library alterations have been made and new stacks furnished which will provide for an additional 10,000 volumes.

A force of several hundred men are making rapid progress in the construc-

tion of Myron Taylor Hall. Working on schedule, the excavations are completed and concrete has been poured for the foundations. The University quarry is working at full blast furnishing native stone which will feature the larger part of the group.

In Fall Creek Gorge, much work is under way. An abandoned brick power house which provided the first electricity to the city has been razed and removed from the gorge. Large iron pipes which ran the length of the upper gorge and which served as conduits for the power house are being lifted over the 200-foot chasm. In place of this relic of early water-power days a walk will be constructed which will blend into walls of stratified rock. This walk will serve as a memorial to the late Mrs. Sackett, who for many years shared with the Colonel a deep appreciation of the beauties of Cornell's natural setting and who was keenly interested in making the gorges accessible to visitors.

In addition to these major projects the usual summer remodeling and renovating operations have been under way throughout the University. The quarters of the Department of Psychology have been completely remodeled, providing additional laboratory facilities. In Rockefeller Hall an additional room has been provided for a mammoth x-ray machine presented to the University. A new roof and parapet wall have been provided for Rand Hall, and the parapet of Morrill Hall has been completely renovated. The chimney of Sibley College, which was struck by lightning early in July, is also undergoing repairs. It is estimated that close to 1,000 men are working on the various improvements.

RAY S. ASHBERY '25
Alumni Field Secretary

JUST LOOKING AROUND

Nothing more, you would say, can shock this broad-minded community. Yet it has been shocked, and that severely, by the ominous deeds of a distinguished professor. In the course of the examination of a candidate for an advanced degree he requested a truce of the proceedings. He drew from his hip pocket a silver flask; he unscrewed the top, and without a by-your-leave or a here's to-you, he put the vial to lips, up flask, back head, and gurgle-gurgle. The candidate looked with wild surmise—is my examination of a sort to put examiners in need of restoratives! On the faces of the fellow-professors dismay mingled with reprobation, and alarm with envy. All gazed spell-bound; in universal silence the professor brought his bottle to the carry, wiped his lips, took a long breath for a chaser, returned top to flask and flask to hip. "We were, then, dealing with the topic—" said he to the goggling candidate for a degree. The examination proceeded amid general inattention.

This professor is, it seems, lost to the common sense of shame. In his study, at the sedatest dinner parties, and soon, no doubt, in street cars and before his classes, he keeps himself going with swigs from a silver flask. The swigs are, to be sure, only milk, prescribed by the doctor for stomach trouble, but if a man is today dependent on prescription milk, may it not tomorrow be prescription gin?

Mrs. Doran, wife of the Prohibition Commissioner, has published a volume of recipes for prohibition cocktails. She appeals to those whose desire is for the abandoned gayety of fast society without infraction of the law. Such respectable revellers, after one too many camomile tea cocktails, may wish to set out for a round of the night clubs. Let them adopt the professor's device; let them be seen in the dives of debauchery, furtively pouring milk from a silver flask. With luck, they may even get arrested.

RUNDSCHAUER

MRS. MARIE COLLINS SWABEY, Ph.D. '29, has just published, through the New York University Press, a volume on Logic and Nature.

IN The Graduate Magazine of the University of Kansas for June Professor Frank H. Hodder, recently of Cornell, reviews Stuart Henry, Conquering Our Great American Plains: a Historical Development. The review is accompanied by a portrait of Professor Hodder. Mrs. Hodder was formerly Miss Annie F. Moon '91.

BOOKS

MODERN CULTURE

A History of Modern Culture. By Preserved Smith. Volume i. The Great Renewal, 1543-1687. New York. Holt. 1930. 22.4 cm., pp. xii, 672.

The present volume is the first of four in which the author proposes to treat the culture of Western Europe and America in the last four centuries. So far as we know no other such comprehensive work has ever appeared. It is a praiseworthy undertaking; and if we may judge of the whole by the first volume, it bids fair to be carried to completion with distinguished success.

The first volume extends from the appearance of Copernicus' *De Revolutionibus Orbium Coelestium* to the outbreak of the English Revolution. The author's bibliography for this period fills forty-five pages.

After an introductory chapter we have a treatment in four parts. I. The Sciences. II. The Humanities, with chapters on philosophy, political theory, historiography, and Biblical and classical scholarship. III. Social Control, with chapters on education, religion and the churches, free-thought, superstition, persecution and tolerance, and laws. IV. The Spirit of the Times, with chapters on morals and manners, literature, art, and the character of the age.

The age handled in this volume was of fundamental significance for the world. Liberty and despotism, reason and authority, religion and science, superstition and skepticism strove desperately, with the result of large gains in general for the progressive and liberal side. In science the achievements of this age "were probably greater than those of any other equal period of time." In literature, likewise, its gains were momentous. "Probably no age of the world, not even in the fifth century B.C., has equalled it in the solidity of substance and in the perfection of form of its best creations." The age which produced Shakespeare and Milton, Corneille, Molière, and Racine, Cervantes, and the greatest Dutch and Polish poets may rightly be regarded as unique. It was still the epoch of the grand style in life. "A conviction of the dignity of man and of the work of his acts still illuminated human thought."

Professor Smith does not content himself with generalities. He goes into great detail, yet with firm command of his resources. The consequence is an admirable proportion. Without effort, too he contrives to produce an eminently readable work. Those who read this volume will eagerly await the others.

A STANDARD WORK

Annual Bibliography of English Language and Literature. Volume IX. 1928. Edited for the Modern Humanities Research Association by Misses E. Seaton and M. S. Serjeantson. Cambridge. Bowes & Bowes. 1929. 21.8 cm., pp. viii, 228. Price, 6s. 6d. net.

This publication has now achieved a high degree of excellence and has come to be indispensable. For the first five volumes the American titles were contributed by Professor Clark S. Northup '93. His successor is Professor Leslie N. Broughton, Ph.D. '11. The extent of American activity in this field may be inferred from the fact that Professor Broughton now regularly supplies half of all the material.

The items, 3580 in number, include books, articles, and reviews, systematically arranged by centuries, subjects, and authors. There are 201 Shakespeare items; 74 items are included under Comparative Literature. Under the Nineteenth Century there are 685 items; under the Twentieth Century, 486. The index fills 17 pages. The typography is excellent. The work has been executed with intelligence and good judgment.

BOOKS AND MAGAZINE ARTICLES

In The Philosophical Review for July Professor William C. Swabey, A.M. '18, of New York University writes "On the Reality of Things." Professor Walter B. Pillsbury, Ph.D. '96, of the University of Michigan, reviews the late Professor Edward B. Titchener, *Systematic Psychology: Prolegomena* edited by Professor Harry P. Weld. Professor G. Watts Cunningham, Ph.D. '08, reviews Heinrich Ratke, *Systematisches Handlexikon zu Kants Kritik der reinen Vernunft*. Professor Allan G. Widgery reviews H. G. Creel, *Sinism*, and L. Adams Beck, *The Story of Oriental Philosophy*. Professor Harold R. Smart, Ph.D. '21, reviews Emile Meyerson, *Identity and Reality*, translated by Kate Loewenberg.

In the May Bulletin of the New York Public Library Robert W. G. Vail '14 wrote on "The Ulster County Gazette and Its Illegitimate Offspring." His paper was commented on in The New York Times Book Review for May 18.

In the New York Times Book Review for May 18 Charles Johnston reviewed The Book of Bird Life by Professor Arthur A. Allen '08. In the issue for August 10 Professor Preserved Smith, *A History of Modern Culture* was reviewed by Charles Willis Thompson. James French Dorrance '03, *Forbidden Range* was also reviewed.

In the March number of The American College of Surgeons Bulletin Dr. Maurice Dubin '12, superintendent of the Mt. Sinai Hospital in Chicago, writes on "A Plan for Increasing the Number of Autopsies."

OBITUARIES

CHARLES A. BREWER

Charles Arthur Brewer, since 1918 auditor in the comptroller's office, died suddenly of a heart attack at his home in Ithaca on August 19. He was born in Ithaca on June 21, 1880, the son of William H. and Rhoda Brewer. He graduated from the Ithaca High School and soon afterward entered the employ of the Ithaca Street Railway Company. Later he held for a number of years a similar position with the Ithaca Gas and Electric Light Company, and served for some time as city chamberlain. He is survived by his wife, two sisters, and a brother.

STEWART T. THORN '88

Seward Thomas Thorn died in Clyde, N. Y., on February 29, 1928. He took a term in science and letters.

STEPHEN F. ADEE '90

Stephen Forman Adee, head of the telephone company in Delhi, N. Y., and former mayor, died there on August 27, following an operation. He was born in Davenport Center, N. Y., on August 22, 1865, the son of George and Frances M. Adee. He took a year in the optional course. He was a member of the New York State Bar and for some years conducted an extensive lumber business, and was prominent in political and fraternal circles in Delhi. His wife, two daughters, and a son survive him.

PERCY J. SMITH '95

Percy James Smith, formerly associated with the British American Tobacco Company, died in Chicago on December 6, of diabetes. He received the degree of B.S. and was a member of Phi Delta Theta.

WILLIAM WILLIS '97

William Willis, a member of the firm of W. P. Willis and Company, woolen importers in New York, died suddenly at his home in Wainscott, N. Y., on August 23, of a heart attack. He was born in Flushing, N. Y., on November 24, 1874, the son of William P. and Sarah Davenport Willis. He attended Cornell for five years, received the degree of M.E. in 1898, and was a member of Sigma Phi. His wife, three daughters, and a son survive him. He was a brother of Frederick Willis '01.

CORNELIUS H. TANGEMAN '01

Cornelius Hoagland Tangeman died on December 18, 1928, after a long illness. He was born in Hamilton, Ohio, on August 21, 1878, the son of George and Cora Hoagland Tangeman. He took one year of arts. He was in the automobile business until his retirement, due to ill health. A daughter, Mrs. Violet Tangeman Cottrell, survives him.

THE CLUBS

PARTIES FOR FRESHMEN

Many of the alumni clubs have this fall given send-off parties for members of the new freshman class. The alumni office sent the lists to the various clubs, and in almost every case the freshmen responded in a way that indicated their appreciation of the courtesies.

The Cornell Club of Syracuse entertained thirteen young men at a dinner at Drumlins Country Club on September 10. John B. Tuck '93, president of the Club and Alumni Trustee, presided.

The Cornell Club of Milwaukee gave its party on the same evening, entertaining not only the entering freshmen but a goodly proportion of other undergraduates. About twenty-five of the students were present. In the absence of the president, F. Van Epps Mitchell '23, secretary of the Club, presided at the luncheon.

Twenty-five sub-freshmen and forty-five other undergraduates accepted the invitation of the Cornell Club of Buffalo, for luncheon on September 12. Parton Swift '98 was the principal sepeaker.

The Cornell Club of Western Pennsylvania entertained its delegation on the same day, with sub-freshmen and undergraduates invited to luncheon. The speakers were John W. Todd '06 and John H. Scott '09.

The Cornell Women's Club of Rochester had a meeting on the evening of September 15 at the D. A. R. Building in Livingston Park. The meeting took the form of an informal reception, and was well attended.

The Cornell Women's Club of New York entertained a group of the women entering from the Metropolitan District on the evening of September 17. The party was held at the Club rooms in the Hotel Barbizon. Mrs. Monroe S. Goulding (Laura Joachim) '09, president of the Club, greeted the new class. The Class of 1929 staged a radio program depicting a typical day in the life of a Cornell woman. Several other stunts were interspersed with songs.

The Cornell men of Rochester opened their luncheon season on September 17 in honor of sub-freshmen and undergraduates. Professor Bristow Adams, fresh from his trip around the world, was the principal speaker. His main theme was the significant part which Cornell is playing in world affairs. He stated that of all the cities and countries which he had visited during the last year, there was only one where he did not find that Cornell men were in leading roles.

A feature of the Rochester luncheon was the displaying on the walls of the Club room seven rectangular Cornell

banners, each of which had been presented by a city in which the Cornell Club of Rochester had been in competition in the Cornellian Council Roll Call campaign last spring. Rochester challenged seven other cities for supremacy, the prizes to be Cornell banners, and in each case was the winner.

JAMES H. EDWARDS '88

ATTEND BOTANY MEETING

A group of thirteen Cornell botanists and their wives returned last month from England, where they attended the Fifth International Botanical Congress at Cambridge. There were 1,200 delegates at the meeting from fifty-eight different countries.

The Cornell group included Ernst C. Abbé, Jr., and Mrs. Abbé, Professor Arthur J. Eames and Mrs. Eames, Assistant Professor Forest M. Blodgett '10, Professor Walter H. Burkholder, Ph.D. '17, Professor Donald Reddick, Ph.D. '09, and Mrs. Reddick, Professor Lester W. Sharp and Mrs. Sharp, Professor Herbert H. Whetzel, '02-4 Grad., Mrs. Whetzel, and Cynthia Westcott.

NAMED TO COMMISSION

William H. Woodward '96 has been appointed to the engineering board of the St. Lawrence Power Development Commission. He was formerly associated with the United States Board of Engineers on waterways and was consultant on the ship canal project from the Great Lakes to the sea.

DEAN DEXTER S. KIMBALL of the College of Engineering has been appointed a member of the honorary board of judges of the Fisher Body Craftsman's Guild. His duty will be the supervision of the awarding of University scholarships given by the guild.

Noted Engineer Dead

*James H. Edwards '88, Trustee Fifteen Years,
Pioneered in Structural
Steel Work*

James Harvey Edwards '88, Trustee for fifteen years, died August 14. He was chief engineer of the American Bridge Company and was one of the notable figures in the development of structural steel engineering.

He was born at Oxford, N. Y., June 19, 1864. His first training was in his father's foundry. At his graduation from Cornell, he wrote a thesis which critically analyzed the deficient bracing of the lenticular or Berlin parabolic truss then popular for highway bridges. In 1888 he went to work for the Berlin Iron Bridge Company as a structural draftsman.

He was appointed chief engineer in 1897, and through his genius in design the company rapidly developed the steel-frame industrial building. In 1900 Mr. Edwards was appointed structural engineer of the newly-formed American Bridge Company which absorbed the Berlin company and in 1901 became assistant chief engineer. Three years ago he was made chief engineer.

During the quarter-century he was with the company he was in charge of all building work. In 1916 he was placed in charge of the building program of all components of the United States Steel Corporation. He became interested in fusion welding and created new forms of structural design and detail suited to welding. The American Welding Society, in which he was a vice-president and head of its structural steel welding committee, a year ago awarded Mr. Edwards a medal.

He was also a member of the American Society of Civil Engineers, the American Iron and Steel Institute, and the American Railway Engineering Association.

Speaking editorially, The Engineering News-Record said:

"Structural engineering has lost a man whom it can ill spare. For forty years James H. Edwards has been a leader in the development of steel structure; he played a large part in creating the steel mill building, and during the past decade he was the practical idealist who did more than any other man to bring fusion welding to recognition as a reality in building work. He labored quietly, unobtrusively, and in a kindly manner . . . In large measure, the life of J. H. Edwards reached the ideal which is every engineer's goal."

MISS JESSIE P. ANDRESEN, for many years secretary to the Dean of the Cornell Medical School in New York, on July 1 was appointed secretary of administration of the School.

CORNELL ALUMNI NEWS

ITHACA - NEW YORK

FOUNDED 1899

INCORPORATED 1926

Published for the Cornell Alumni Corporation by the Cornell Alumni News Publishing Corporation.

Published weekly during the college year and monthly in July and August; thirty-five issues annually. Issue No. 1 is published in September. Weekly publications ends the last week in June. Issue No. 35 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 35 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance is desired.

Checks and orders should be payable to Cornell Alumni News. Cash at risk of sender.

Correspondence should be addresses—

WE SEEM TO BE

GROWING LARGER

THIS announcement that the registration at this period is the largest in the University's history leaves us cold. It is probably a fact, subject to the usual adjustments for duplication, and is to be compared with the October 1 figures of 1925-26, which seem to be about four hundred lower. Unless unusual deductions are discovered later Cornell is in for the largest attendance in any year so far.

This anomaly, in the face of hard times and increasing requirements for entrance, must be explained on the assumption that the selection of students has begun to show results in the number of old students that are qualified to return. It is probable also that the general tendency toward more skillful teaching plays its part, a skill that develops naturally when the students have greater aptitude.

We cannot conscientiously thrill over a mere increase in numbers. If, on the other hand, the increase is honestly due to the admission of a higher grade of

student and the consequent increased effectiveness of the academic life of the community, we can then point with justifiable pride to any reasonable increase. It indicates an increased capacity on the part of the University to properly teach properly prepared students, and is an achievement of note rather than a giving in to the mere common popularity of collegiate education for the sake of social prestige.

AN INTERESTING RETROSPECT

It is interesting, under the gentle, unfaltering movement of time, to become gradually one of a diminishing group of oldest inhabitants of the Cornell Campus.

Recently in Foster Coffin's office in Morrill Hall I found a photograph of a group of Psi Us taken about 1881. It included Professor Hjalmar Hjorth Boyesen and it stood on a case in the alumni work-room within a few feet of the location of the desk from which Professor Boyesen used to deliver his very popular lectures on Goethe's "Faust" and kindred subjects. He died long since and I have wondered if his disembodied spirit, at midnight when Morrill Hall is dark and still, ever comes to hover over the place of his former triumphs, where students and Ithacans crowded his lecture room and listened to him with the adoration that he loved so well.

This photograph is a notable relic of early Cornell days; for it includes Mr. Schuyler who was the first Treasurer of the University in the days when the Trustees traveled a rocky road up a steep grade, unable to see over the top to the pleasant level stretches of the present time. Also it includes Goldwin Smith who was so constant throughout life in his loyalty to the ideals of Ezra Cornell and Andrew D. White.

Fifty-five years ago I had the privilege of sitting regularly in the class room of Professor Willard Fiske while he spoke informally and interestingly of some of the simpler works of Goethe and Schiller. He was not only a great scholar, but was a man of unfailing human sympathy; he was justly a notable figure in the Cornell of the 70s. Recently I went into his transformed class room and, by chance, found a photograph of Professor Fiske lying on a desk almost exactly above the place where I used to sit long ago. I was told that it was there for identification. Alas, that Willard Fiske's photograph should need identification in this room! How time rushes along!

It was Professor Fiske who gave the priceless Dante, Petrarch, and Icelandic collections to the University Library.

Students of today ought to look often at the excellent portrait of Professor Fiske that hangs in the Library Lobby.

A. W. S. '78

Registration Mark Set

University Enrolls 3,631 Old and 1,730 New Students, Gain of 195 over Last Year

According to figures from the Presidents office, the largest registration in history, 5,361, an increase of 195 students, was recorded last week with the reopening of the University. Of the total, 3,631 were old students and 1,730 students who had never previously matriculated.

The new students showed the largest gain, providing an increase of 128 over the 1929 figure of 1,602. There were sixty-seven more old students, last year's figure being 3,564.

Registration occupied new and old students alike the first three days of last week, and classes were inaugurated on September 25.

The Campus came to life earlier than last week, however. The early arrivals were editors and managers of publications, football candidates and "competes," and students preparing for entrance and make-up examinations.

Old students found a number of physical changes brought about by the progress of the building program.

A number of changes were also noted in the Faculty. Dean Dexter S. Kimball of the College of Engineering will be on leave the first semester, and Professor Herman Diederichs '97, director of the School of Mechanical Engineering, will act as dean. Dean William A. Hammond and Professor Millard C. Ernsberger '08 have been given the rank of professors emeritis.

THE VIRGIL PILGRIMAGE

A number of Cornellians were included in the five hundred teachers who made a Virgilian Pilgrimage this summer, celebrating the two thousandth anniversary of the birth of the poet Virgil. Among them were John C. Rolfe, Ph.D. '85, professor of Latin at the University of Pennsylvania, Ina E. Genung '91, Mary R. Fitzpatrick '93, Marion Pratt '01, Evangeline D. Rose '04, Ida J. Bouck '09, Minchen Rusack '12, Esther F. Andrus '14, Cora J. Gratwick '18, and Elizabeth Roberts, A.M. '30.

The Pilgrimage followed the wanderings of Aeneas from the site of ancient Troy to Rome, passing in sight of all the places where Aeneas landed, and making actual visits at the more important places: Delos, Carthage, Crete, and Sicily. Landing at Naples, they visited Virgil's tomb at Posilipo and the Sibyl's cave at Cumae. After spending seven days at Rome, where they were entertained by the Italian and American Academies, the Governor of Rome, and Parliament, and the leaders were decorated by the Ministry of Instruction, they went to Virgil's birthplace at Pietole.

THE WEEK ON THE CAMPUS

WITH the largest registration in history or pre-history, the University got under way last week. Most of the departments of instruction, the undergraduate clubs, the local stores, and the organizations for doing something to the students, had installed some innovation designed to be mightily efficacious. One may dwell upon the changes or upon the sameness, to suit one's taste. In the new laboratory the same truths are found again, in the redecorated frat-house new Freshmen are beguiled by the same old line, tiny spots of new construction spot the ancient hills, and new faces peer from under the same old hats.

PRESIDENT FARRAND, addressing the Class of 1934 (some of whom were born during the World War, God bless my soul) dared to depart from the flattering commonplace customary to such functions. "In this nation of ours," he said, "we are certainly not characterized by self-discipline. We are rather a loose acting people, extreme in our judgments, self-indulgent, not ready nor willing to take the medicine that we prescribe for others nor to play our parts either in confusing world situations or as individuals. An enormous responsibility thus rests on the men who have had the opportunity of a college education."

WITH THE BEST WILL in the world, we cannot tell you the present status of the rushing rules. They are apparently completely altered every year and completely disregarded. To judge from a caustic editorial in the Sun, "the recognized brains and brawn of the campus" assembles before the doors of the most desirable freshmen at 6:30 of the first registration morning. "The prey comes fearfully forth to take its morning bath. At the first click of the door latch the rushers come to attention, and a dozen pairs of eyes follow the movements of the freshman while he treads the interesting path from his chamber to the bathroom. The scene changes but little with the passing minutes, until as the hour of eight approaches, the boys crouch, ready for the spring. Then comes the usual dénouement; the freshman, who strangely enough seems to think that registration is more important than the fraternity guff, moves off for his own little line and leaves the button boys in the lurch."

SPEAKING OF ADVICE to freshmen, the Sun picked up some of the best from the Yale Daily News: "Don't let upperclassmen convince you that you are undermining the well-being of God, Country, and Yale if you disregard the time-honored tradition of hat wearing. The class of '33 went hatless without there being any

appreciable decline in the prestige of either God, Country, or Yale. Don't fall for every sales racket around the campus. Remember that you are under the handicap of being considered a gullible goat. Don't believe more than a third of what is told you about the value of extra-curricular activities. Take a 40 per cent discount on all speeches about the opportunities offered for experience, making friends, and deriving social prestige and then go out for the activity you really enjoy, even if it happens to be reading, playing squash, or going to the movies."

THE CONCERT PROGRAM announced by the department of Music is the most pretentious within our memory. The University Series will consist of two symphony orchestras, those from Detroit and Cleveland, Iturbi, pianist, Martinelli, tenor, and Heifetz, violinist. In addition four of the world's greatest string quartets will make up a Chamber Music Series. These are the Roth, Lener, Budapest, and London quartets. And a student can attend the five functions of the University Series for \$3.50!

ELABORATE PLANS have also been made for the Sage Chapel Choir, under the direction of Professor Paul J. Weaver. The Choir will sing at the morning services, and in the afternoon about six special musical vesper services will be substituted in the course of the year for the regular Sunday afternoon service. At these special services several new works will be sung as well as some of the most important of the compositions written for church use.

THE FIRST ART exhibit of the year is already on display in the Morse Hall galleries. It is a showing of the work of the students in the College of Architecture last year. The feature of this exhibit is the combined work of three Japanese students, Takanoku Ajiki, Grad., Takayoshi Yoda, Grad., and Shigeo Hirata, '30, which tied for first place in a nation-wide competition sponsored by the American Academy in Rome. The title of the problem is "A Sanctuary to President Wilson"; it is a union of the work of the sculptor, the painter, and the architect. Other noteworthy work in the exhibit is contributed by Helen Trefts, '30, E. B. Brauner '30, son of Professor O. M. Brauner of the College of Architecture, James W. Grimes Jr., and Mrs. Elizabeth Mason, Grad.

THE CORNELL LIBERAL CLUB, an organization of earnest young men and their elders (including some gentlemen of the cloth), which meets to discuss such vast subjects as social justice and the duties of the intellectual, has been promoted to

the rank of a national menace. Riley M. Heath '12 of Ithaca, speaking before an Owego Club, is reported as sounding the tocsin of alarm with warning that "there is at the present time an organization in Ithaca for the establishment of atheism. The organization seeks to establish control by the minority over the majority. It is opposed to the Constitution. And, still worse, it is financed from Russia." Mr. Heath is a candidate for the Supreme Court of New York State.

WILLARD STRAIGHT HALL is to have a new hostess, Miss Eleanor Irish '28. Mrs. Maynard Cassady, wife of the associate executive of the C. U. R. W., is the new secretary of the Y. W. C. A. Miss Eleanor Simonds is assistant to the dean of Women.

PROFESSOR JULIAN P. BRETZ, this department's candidate for Congressman, will be opposed by the present incumbent, Gale H. Stalker of Elmira, Republican. Professor Bretz has published his conviction that the Prohibition Amendment should be repealed, whereas Mr. Stalker is co-author of the Jones-Stalker five-and-ten law, and dryer than the Desert of Gobi. Tompkins County voted six to nothing against the repeal provision at the Republican State Convention, so students are planning confidently to take American History 83 in the spring term. Judge Cuthbert W. Pound '87 of Lockport, trustee of the University, has been renominated for associate justice of the Court of Appeals on the Republican ticket, and it is expected that he will be similarly nominated by the Democrats. J. Gordon Flannery '15 has been nominated by the Republicans for county judge of Dutchess County.

CARRYING LIVE POULTRY with heads hanging downward is cruel and should be prohibited by legislation, holds Professor Vladimir Karapetoff of the College of Electrical Engineering. He has taken up the matter with the S.P.C.A.; he suggests a prize for a device which will permit the carrying of live poultry in a more humane manner.

"THERE IS NO designated section for Freshmen. They may sit anywhere. That Freshman section business is another ancient tradition that has gone sour. It was all right as long as the upperclassmen supervised it. Without supervision it's just disorderly and troublesome. Customers don't go to football games any more just to see the latest thing in hick high school rough housing. No freshman ever got his vest full of pin holes because of the wise cracks he made at early season football games."—Advertising of the C. U. A. A.

Obituaries

[Continued from page 16]

HERBERT C. BRADLEY '01

Herbert Chapman Bradley, formerly with W. B. Conrad and Company in New York, died on February 15 at Gravenhurst, Ontario, after a long illness. He was born in Montclair, N. J., on November 24, 1878, the son of Edwin A. and Mariana Gulick Bradley. He took two years of civil engineering and was a member of Phi Kappa Psi. His wife, Mrs. Gertrude Armitage Bradley, two sons, and a daughter survive him.

WILLIAM R. MOTT '05

William Roy Mott, from 1909 to 1923 a research chemical engineer with the National Carbon Company, died in Decorah, Iowa, on January 3, 1929, of pneumonia, following sleeping sickness. He was born in Decorah on February 11, 1880, the son of James W. and Bertha Christen Mott. He received the degrees of B.S. and M.S. from the University of Wisconsin, and took a year of graduate work at Cornell. His wife, Mrs. Agnes Stromsodt Mott, a daughter, and his mother survive him.

BAURY DE B. BRADFORD '06

Baury deBelleraipe Bradford, formerly associated with the Boston Elevated Railway, died recently in Cambridge, Mass., of pneumonia. He was born at Portsmouth Navy Yard, N. H., on March 2, 1881. He took a year of engineering.

EDGAR W. MALONEY '08

Edgar William Maloney, a member of the engineering firm of Parsons, Klapp, Brinckerhoof, and Douglass in New York, died on April 7, 1929. He was born in Rensselaer Falls, N. Y., on June 13, 1883, the son of William B. and Florence Parsons Maloney. He received the degree of A.B. from St. Lawrence University in 1905, and took two years of civil engineering at Cornell. He was a member of Phi Sigma Kappa. From 1920 to 1925 Maloney was division engineer with the New York Water Power investigation, in charge of field and office studies of existing plants and related problems. He was a former secretary of the Power Division of the American Society of Civil Engineers. His wife, Mrs. May Thayer Maloney, survives him.

HOWARD M. HENDERSON '14

Howard Montague Henderson, vice-president and general manager of Peter Henderson and Company, seedsmen in New York, died on August 18 in Hollister, Calif., of injuries received in an automobile accident. He was born in Hackensack, N. J., on May 21, 1891, the son of Mrs. and Mrs. Charles Henderson. He took two years of agriculture and was a member of Phi Kappa Psi. He had since been with the seed company, which was founded by his grandfather.

His wife, two daughters, and his father survive him.

THE ALUMNI

'85 BS—The date of the death of Mrs. Anna Botsford Comstock, erroneously given in the last issue of *The Alumni News* as August 31 should be recorded as August 24.

'96 ME—William W. Ricker this year became president of the Powdered Fruit Juice Company at 535 Fifth Avenue, New York. Since 1907 he has been treasurer of the Guarantee Construction Company. He lives at 236 East Seventy-second Street, New York.

'97 PhD—Professor Alexander Meiklejohn, chairman of the Experimental College of the University of Wisconsin, was one of the American delegates to the International Congress of Philosophers which was held at Oxford in September.

'99 BArch, '08 MSArch—Frank Eurich, Jr., has opened a new office for the practice of architecture at 2539 Woodward Avenue, Detroit.

'05 AB—Charles C. Nitchie has left the New Jersey Zinc Company, with which he has been associated since graduation, to take up sales promotion work in industrial optical instruments, with the Bausch and Lomb Optical Company. He lives at the Ambassador Apartments, 86 South Union Street, Rochester, New York.

'06 LLB—H. Roger Jones, for the past five years head of the legal department of the Coral Gables Corporation, Coral Gables, Fla., is now assistant attorney-general for the State of Connecticut. His address is New Hartford, Conn.

'07 MD—Daniel R. Reilly is county health commissioner of Cortland County, N. Y. His address is 89 North Main Street.

'07—Carleton Reynell has recently been appointed general purchasing agent of the Worthington Pump and Machinery Corporation, at 2 Park Avenue, New York.

'09 PhD—Burton J. Ray is secretary and treasurer of the Camp Manufacturing Company, manufacturers of lumber and shooks. He lives in Franklin, Va.

'11 ME—George H. Zouck is chief division engineer of the Franklin Railway Supply Company, Inc., at 60 East Forty-second Street, New York.

'12 BSA, '18 MSA, '23 PhD—Eugene C. Auchter, who is in charge of horticultural crops and diseases at the University of Maryland, spent three months abroad this summer visiting research institutions and horticultural industries in several countries. He attended as official representative the International Congress of Subtropical Agriculture in Belgium, the International Horticultural Congress at London, and the International Botanical Congress at Cambridge. He has been appointed as the

American representative on the executive committee for future international horticultural congresses.

'12 AB—Arthur C. Newberry has moved from Cleveland and has bought a house at 160 San Leandro Lane, Santa Barbara, Calif.

'13—Birch Addington after an absence of two years has rejoined the Benjamin Electric Manufacturing Company of Des Plaines, Ill., and is now manager of their railroad department at 111 North Canal Street, Chicago.

'13 AB—Basil B. Elmer, who recently purchased a seat on the New York Stock Exchange, has become a partner in the firm of Phelps and McKee, at 25 Broad Street, New York. His partners are H. Sellers McKee, Harvard '13, Luke C. Doyle, Yale '10, George Nettleton, 3d, Yale '15, and Paul Cushman, Harvard '13.

'14—Frederick C. Backus is an architect at 360 Delaware Avenue, Buffalo. His home is in East Aurora.

'14, '15 AB—Albert G. Ignalls is associate editor, in charge of science, of *The Scientific American*. He lives at 7 Holly Street, Cranford, N. J. A son, Jeremy Graham, was born on May 30. He has a daughter, Joan, who is seven.

'16 AB—A daughter, Katharine Anne, was born on September 6 in Porterville, California, to the Rev. and Mrs. John K. Burleson. Mrs. Burleson was Gwendolen English '16. They have two other daughters and three sons. They live at 714 North E Street.

'16 AB—Francis G. Brink is a captain on the military staff of the Louisiana State University. Two students of his recently came first and second in the National Rifle matches at Camp Perry, Ohio. Captain Brink is a nationally known marksman and former coach of an American Olympic team. Mrs. Brink was Florence T. Roos, Grad. '15-16.

'17—Hugh M. Elmendorf, who is a captain in the Air Corps of the U. S. Army, has recently been transferred to the Aeronautical Bureau in Washington, where he will be in charge of training activities. He served with the infantry during the World War and in 1921 transferred to the Air Corps. Since then he has been commander of the Ninety-fifth Pursuit Squadron, one of the Army's crack outfits.

'17, '19 AB—D. Roger Munsick is director of the technical and industrial sales departments of the Murphy Varnish Company, at 224 McWhorter Street, Newark, N. J. He lives at 604 Prospect Street, Maplewood, N. J.

'18, '20 AB—Archie M. Palmer, who is associate secretary of the Association of American Colleges, delivered a radio talk on September 11 over the Columbia Broadcasting System, on choosing a high school course with the aim of preparing for college. The address was given under the auspices of the National Radio Home-Makers' Club of New York.

 reserved. Distribution begins November 5.

Application Blanks

Application blanks with a bulletin of complete information were mailed about Sept. 15 to all alumni and former students residing in the United States at their addresses as registered in the office of the Alumni representative. New or additional blanks will be mailed on request.

Priorities

Applications are filled in the following order: 1. Members of the Athletic Association. 2. Alumni who are not members. 3. Undergraduates who are not members. 4. All others.

Within the same class applications are filled in the order of their receipt on a straight-forward, impersonal, first-come-first-served basis.—Applications should be filled promptly.

Alumni Membership in the Cornell Athletic Association

1. Gives you first call in the location of seats at all games in Ithaca and abroad and on observation trains at Poughkeepsie, Derby, and Ithaca.
2. Gives you personal, adequate, detailed, and timely information about all athletic events and ticket sales.
3. Brings you periodically the confidential letters.
4. One joins by sending his name, class, address, and his check for \$5.00 to

The Cornell University Athletic Association
Ithaca, New York

'18 LLB—William J. Gilleran and his family sailed in August for San Juan, Porto Rico, where they will reside permanently. He will be resident partner there for Rounds, Dillingham, Mead and Neagle, lawyers in New York with whom he has been associated since 1919. His address is Gonzalez Podin Building.

'18 BS—Frances E. W. Searles has been since September 1 Home Bureau manager of Monroe County, N. Y., with offices at 25 Exchange Street, Rochester. She returned to the extension service after two years of business in Batavia.

'18, '20 AB—H. C. Strawn Perry on June 2 became assistant trust officer of the Peoples State Bank of South Carolina, in Charleston, one of the largest banking institutions in the State. He was formerly assistant trust officer with the Florida National Bank in Jacksonville. His address is 3 Water Street.

'19 AB, '23 MD—Alfred E. Fischer was married on September 16 in New York to Miss Selma Fuld, Wellesley '29. After a Western trip, Dr. Fischer will return to his new office at 73 East Ninetieth Street, where he is engaged in the practice of children's diseases.

'19—Philip A. Derham is now manager of the body department of Dusen-berg, Inc., in Indianapolis. He lives at 3538 Washington Boulevard.

'20 AB—A third son, Richard James, was born on August 8 to Mr. and Mrs. Millerd G. Larkin. Mrs. Larkin was Elizabeth A. Signor '20. They live in Plattsburgh, N. Y.

'21 BS, '25 PhD—Miles H. Cubbon now lives at 29½ Lincoln Avenue, Amherst, Mass. He is assistant professor in the department of agronomy at the Massachusetts Agricultural College.

'21 ME—Basil Bobrovnichy is with the New York Edison Company at 4 Irving Place, New York. He lives at 72 Seaman Avenue.

'21—John J. Bradley, Jr., is with the Detroit Lubricator Company. He lives at 8905 East Jefferson Avenue, Detroit.

'22 AB, '26 MD—Frank M. Falconer is a physician at 55 East Sixty-sixth Street, New York. He is on the Out Patient Department Staff of the Roosevelt Hospital, is an associate in medicine at the Cornell Clinic, and is on the medical staff of the American Telephone and Telegraph Company. He is also parish physician of St. Thomas's Chapel, and is on the examining staff of the Arts College at Columbia. He lives at 400 East Fifty-eighth Street.

'22 AB—Katherine F. McKay '22 was married on August 7 to Malcolm S. Eakin. Their address is R. F. D. 4, Box 208, Pittsburgh.

'22 AB—Edward V. Cushman is supervising principal of the Sherburne, N. Y. central rural schools.

'23 AM—Vicente V. Furbeyre is a chemist and factory superintendent at

Pilar Sugar Central, Capiz, P. I. A son was born on June 12.

'23 AB—Charles E. Rhodes is an instructor and graduate student in mathematics at the University of Cincinnati.

'23 ME—Ralph J. Parker is an industrial engineer with the John B. Stetson Company. His address is 5515 Wisahickon Avenue, Philadelphia.

'23 BS—Chan Sung Liu is vice-director in the department of reconstruction, Bureau of Agriculture and Forestry in Kwangtung Province, Canton, China.

'23 BArch—John S. Parker is now with Marc Eidlitz and Son, tenth floor, 100 East Forty-second Street, New York.

'24 ME—Charles L. Hathaway has left the Southern California Edison Company and is now a test engineer for the power plant of the Miami Copper Company at Miami, Ariz. He lives at the Y.M.C.A. there.

'24 MS—Lewis H. Renshaw has a farm at R. F. D. 6, Easton, Md.

'25—Sidney I. Dower is with the Mohawk Optical Company. He lives at 24 Devon Road, Rochester, N. Y.

'25—Sanford W. Benham is a concrete engineer in the research department of the Johns-Manville Corporation in Manville, N. J.

'25 AB—Taylor W. Gannett is now American vice-consul at Havana, Cuba.

'25—A son, Richard Edward, Jr., was born on September 9 to Mr. and Mrs. Richard E. Mueser.

'25 BS—Mrs. Edith H. Zaiser has announced the marriage of her daughter, Edith M. Conrad '25, to Harold W. Frevert on June 28. They are living at 47 Elm Street, Elizabeth, N. H. He graduated in 1921 from Iowa State College and is now a chemical engineer with the Holland Tunnel.

'25 AB—George H. May is in the sales division of the dye stuffs department in the Du Pont Building, Wilmington, Del. He lives at 1407 Delaware Avenue.

'26 AB; '28 AB—Arthur Markewich '26 and May Elish '28 were married in Brooklyn on April 18. Attending the wedding were Myra Tolins '28, Eleanor G. Glassgold '28, Zena Duberstein '28, and Mrs. Henry Gichter (Isabelle Saloman '29).

'26 BS—Leland P. Ham is advertising manager of The Breeder's Gazette at 1 Dexter Park Avenue, Chicago.

'26 AB—Mr. and Mrs. Henry A. Patten of New York and Sound Beach, Conn. have announced the engagement of their daughter, Francis M., to E. Myron Bull '26. He graduated from the Yale Law School in '29 and is now with the firm of Hughes, Schurman and Dwight in New York.

Combination book offer \$5.00

The Publishers of three books have combined to make you a very attractive offer. You can hardly afford to miss this. "Courtney and Cornell Rowing," "Sport Stuff," and "Concerning Cornell" (leather edition)—all for \$5.00 postage paid. These are all good books for your library.

Bronze Cornell Shield mounted on an oak board \$3.75

Last week we told you how we came to make this low offer. You save two dollars. The price is f. o. b. Ithaca. The five inch shield is the correct size for the average room.

Cornell Bookplates

Bookplates are selling fast. The drawings on the bookplates are of familiar places about the Campus. You identify your books and also have a pleasant reminder of Cornell. The bookplates are \$1.50 per hundred. We print your name on them for \$1.50 extra per hundred. The printing costs \$2.00 for two hundred.

Banners \$3.75 to \$7.50

Pennants \$1.25 to \$1.75

Pillow covers \$5.00

Send for a copy of the "Gift" folder. The designs are shown and the various sizes given in the folder. The CO-OP has always sold high grade felt goods. Graduates should continue to trade at the CO-OP.

THE BELLS OF CORNELL

Edited by ALBERT W. SMITH '78

An exquisite little book edited by Uncle Pete (Albert W. Smith '78) which gives the history of the Cornell chimes and some verse by himself and others.

The book catches the spirit of the chimes perfectly in its varying moods. It is beautifully done.

June 10, 1930

Dean Albert W. Smith
13 East Avenue
Ithaca, New York

Dear Dean Smith:

I don't know when I have read anything descriptive of Cornell which absorbed my attention as did your little volume on *The Bells of Cornell*. It is delightfully done and thoroughly interesting.

We are all your debtors for putting in permanent and charming form this account of one of the best of Cornell's traditions.

Sincerely yours,

Livingston Farrand
