

BIOGRAPHICAL SKETCH

Meghna Bhambore was born in Nagpur, the Orange city of India. Right from the beginning, Meghna was always interested in creative pursuits. Hence she decided to pursue her education in architecture from Visveshverya Regional College of Engineering, Nagpur, India. After graduation, she worked as an architect and designer for two years in Mumbai, India. To further her education, she decided to pursue graduate studies at Cornell University, with concentration in interior design and facilities management. Meghna currently works as an Architect in Philadelphia.

To my Mummy, Papa, Rashmi, Anand and Nitin

ACKNOWLEDGEMENTS

I would like to thank my advisor Prof. Sheila Danko for her guidance. Her comments and suggestions have been of great help in shaping this thesis. I would like to thank Prof. William Sims for being on my committee and for his enlightening comments.

I would like to thank my faculty and classmates at Cornell to help me make the most of my graduate education and help further my knowledge.

I would like to thank my parents for supporting me throughout my life. I would like to thank my sister Rashmi and her husband Anand without whom my graduate education would not have been made possible. I would like to thank my husband Nitin for his everlasting encouragement and support.

TABLE OF CONTENTS

CHAPTER ONE: INTRODUCTION

1.1	Overview: The creative problem-solving process and the physical environment	1
1.2	Understanding creativity	3
1.2.1	The four approaches to creativity	4
1.3	The creative problem-solving process as a basis for understanding organizational creativity	5
1.4	The nature of the creative problem-solving process	6
1.4.1	Essential components of the creative problem-solving process: Divergence, Convergence, Teamwork	7
1.5	Impact of the organizational physical environment: Understanding servicescapes	9
1.5.1	Dimensions of the organizational physical environment	10
1.6	Enhancing the creative problem-solving process: Social components	12
1.7	Enhancing the creative problem-solving process: Physical components	13
1.8	Proposed research	18

CHAPER TWO: METHOD

2.1	Case introduction	19
2.2	Procedure: Narrative case methodology	21
2.2.1	Studying creativity and physical environment through narratives	22
2.3	Data collection	23
2.4	Narrative analysis	33
2.5	Building validity and reliability	34

CHAPTER THREE: RESULTS

3.1	Introduction	37
3.1.1	Narrative: “ <i>The Tacit Dimension</i> ”	38

CHAPTER FOUR: DISCUSSION

4.1	Research findings:	47
4.1.1	Creative problem-solving environments as externalized cognition - Knowledge management	48
4.1.2	Creative problem-solving environments as visual metaphors - Symbolic communication	51
4.1.3	Creative problem-solving environments as catalyst - Functional support	54
4.2	Limitations of the study	58
4.3	Implications for future research	59
4.4	Summary	61
	BIBLIOGRAPHY	62
