

#### Dedications

The Class of 1989 has dedicated this yearbook twice, not to lessen the honor and respect paid to each recipient, but because we owe so much to so many. Indeed, this book barely begins to thank all those who deserve it so richly for teaching us and helping us through our four years here.

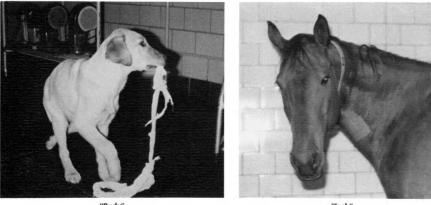

#### Dr. Wayne S. Schwark

The Class of 1989 is proud to dedicate this yearbook to Dr. Wayne S. Schwark. We are grateful for his outstanding lectures in Pharmacology and Toxicology and especially thank him for taking a personal interest in us and for initiating and organizing the Clinical Pharmacology course. From him we gained both a fundamental and a clinical pharmacological education, and for this we are indebted to him. We are pleased to honor him in this way and hope that he continues to educate and enlighten many classes to come.

We need another and a wiser and perhaps a more mystical concept of animals. Remote from universal nature, and living by complicated artifice, man in civilization surveys the creature through the glass of his knowledge and sees thereby a feather magnified and the whole image in distortion. We patronize them for their incompleteness, for their tragic fate of having taken form so far below ourselves. And therein we err, and greatly err. For the animal shall not be measured by man. In a world older and more complete than ours they move finished and complete, gifted with extensions of the senses we have lost or never attained, living by voices we shall never hear. They are not brethren, they are not underlings; they are other nations, caught with ourselves in the net of life and time, fellow prisoners of the splendor and travail of the earth.

- Henry Beston, The Outermost House

Bonkers"

In the learning of the art and science of veterinary medicine, the Class of 1989 has had the assistance of many animals. From the initial stumbling approaches of our first year, many of these animals have given us their extraordinary patience and even affection as we endeavored to learn from them. Some gave their lives.

We dedicate this yearbook to the creatures who have taught us so much: anatomy, auscultation, palpation, surgery. Thank you, Buddy and Josh; Bonnie and Bonkers; Linus and Lucy; Monday through Friday — the list is very long, and even so is incomplete — the Foundations course animals; the donated cases that were kept to study; the animals we used in Anatomy but never met; the turtles, rats, and dogs used in Physiology; junior surgery dogs, ponies, sheep; the blood donors; our senior year patients. To all of them, the Class of 1989 is grateful.

But words on a page mean nothing to animals. This dedication will only have meaning if it is translated into actions — even if only more people think to perform those small, "extra," gentle acts of kindness that we have seen now and again in our years here.

Josh surely enjoyed the occasional carrots and apples offered by budding anatomists.

Mac probably enjoyed getting out for the SCAVMA picnic.

It's unlikely that the radiology dogs enjoyed being anesthetized for our technique sessions, but you know that they love the "Ho-ho's" and ice cream sandwiches that Mr. Ryan insists on providing for them.

More than a few junior surgery patients got that extra TLC before their final hour.

May those students who follow us continue to improve the quality of life of their first real charges. May we always remember with respect these fellow residents of the earth and the lessons they taught us.

Where to Find Me in Ten Years: Somewhere warm and sunny.

## ANDREA LYNN LOONEY

#### Hometown: North Troy, New York

Best Times: Junior surgery; the cafeteria morning coffee lines; senior year; Cinemopolis; the Moosewood and enjoying Ithaca's culture to the fullest!; a multitude of "five minutes" spent smiling and laughing with my "family" of the past four years - my class, faculty, staff and (of course)

patients. Worst Times: Drinking the morning coffee, certain exams which made me realize I often had a place at the left hand side of the bell curve. Words to Leave By: "Among the hills, when you sit in the trees' cool shade and share their peace, say, 'God rests in reason.' And when the storm comes with lightning to shake the forest, say, 'God moves in passion.' As you are but a leaf in the forest, so too move in reason and passion." - Kahlil Gibran, The Prophet

Future Plans: Companion or small animal practice in the Northeast. Thanks to: Dad, Mom (the best parents a kid could ask for), Freebie (the cat), Cookie Monster (the dog), Jennifer (the sister), Heidi. Where to Find Me in Ten Years: An album cover? ## **STEVEN A. OSOFSKY**

Hometown: Nanuet, New York Best Times: Yet to come.

Worst Times: Junior surgery.

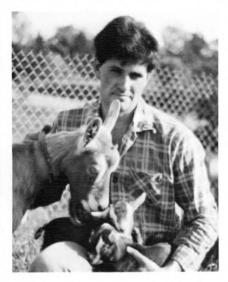

**Words to Leave By:** "The beauty and genius of a work of art may be reconceived, though its first magical expression be destroyed; a vanished harmony may yet again inspire the composer; but when the last individual of a race of living things breathes no more, another heaven and another earth must pass before such a one can be again." — William Beebe

Thanks to: Dad — I couldn't have done it without you. Special thanks to "Pood."

Where to Find Me in Ten Years: I doubt you'll be able to.

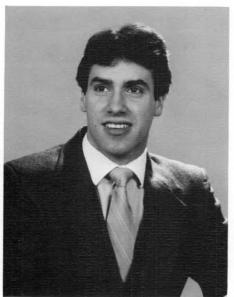

#### **ERIC J. PARENTE**

Hometown: Clark, New Jersey

Best Times: Crew/Crew parties, staying at Earl's cabin, Superbowl Sundays, last day of Colorado Symposium.

Worst Times: New Year's Eve '87/'88 struggling with a colicky pony that wanted to die.

Words to Leave By: Every year it gets better - let's just hope it stays that way

Future Plans: To work with large animals in the Northeast and stay close to family and friends.

Thanks to: An overwhelming thanks to my parents and brother who have not only supported me, but encouraged me through my endeavors into veterinary medicine. Every day I become more proud to be a part of my family. Also thanks to many friends who have turned a lot of work into a lot of fun.

Where to Find Me in Ten Years: Good question.

board-type material memorization.

Words to Leave By: Don't sweat the little things in life, and remember, it's mostly little things.

Future Plans: Run a progressive small animal practice in San Juan, Puerto Rico.

Thanks to: Family and friends.

Where to Find Me in Ten Years: In a little house taking care of the baby while my wife is out with the boss.

IK.

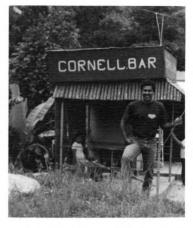

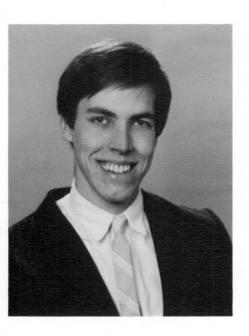

### KURT SANDERSON SCHULZ

Hometown: Glen Ridge, New Jersey Best Times: Most of it. Worst times: A little of it.

Words to Leave By: "If you do feel a little worried, don't worry about being worried. You're heading out on an adventure and you can always change your mind along the way and try something else. I know lots of people who have done that and none who regrets it. What some people I know do regret is the severing of connections between what they imagined themselves doing and what they've ended up with. You want work that is rewarding and altruistic, that is worth doing for its own sake, not just for the price it commands." — Tracy Kidder Future Plans: Adulthood.

Thanks to: Ma and Pa.

#### **RUTH ANN MARSHALL** STEWART

Hometown: Wallingford, Connecticut Best Times: Weekends in Connecticut with Stewart and the cats; flying Cherokee N5235W any time, especially with classmates; horrifying other diners on drinking missions by talking shop with friends; skits. Worst Times: Sundays on I-84 headed west, sophomore year, exam weeks

Words to Leave By: "Every time I have gone up in an aeroplane and looking down have realized that I was free of the ground, I have had the consciousness of a great new discovery. 'I see,' I have thought. 'This was the idea. And now I understand everything.'" — Isak Dinesen Future Plans: Small animal practice in the same state as my husband. **Thanks to:** Robert B. Stewart, NYS highway workers — for keeping NYS Route 17 pothole-free, Piper Aircraft — for making the commute fun sometimes

Where to Find Me in Ten Years: At the controls of a small airplane.

#### **ROBERT JAMES TOOLE**

Hometown: Cazenovia, New York

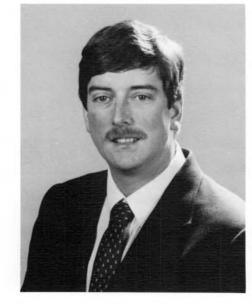

Best Times: Intramural sports, learning veterinary medicine, just being a part of the great Class of '89.

Words to Leave By: We can all make a difference in this world. Let's try to do the best job we can!

Future Plans: Mixed animal practice.

Thanks to: My wife, Karol, for her support and understanding through some of the difficult times.

Where to Find Me in Ten Years: Probably Cazenovia, New York

### **ANNE-BARBARA ULRICH**

Hometown: Greenlawn, New York Best Times: Most of those dull, yucky classes everybody else probably hated. Worst Times: Any time of day or night in ICU.

Future Plans: A small animal/exotic practice with good people and humane hours.

Thanks to: Jim and Paul, for putting up with the vet-mom! Where to Find Me in Ten Years: Somewhere in the Southern Tier.

#### Hometown: Hawthorne, New Jersey

Best Times: The farm, dinner at Babbot acres, Bible study, birdwatching, The Pillars, studying for Applied Anatomy, good times with friends. Words to Leave By: "All this also comes from the Lord Almighty, wonderful in counsel and magnificent in wisdom."

- Isaiah 28:29 Future Plans: Small animal, small ruminant, avian and exotics in some combination.

Thanks to: Mom and Dad and the rest of the family for their love, support and encouragement.

Where to Find Me in Ten Years: Watching wildlife.

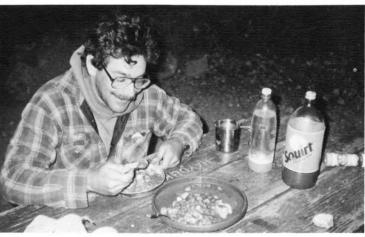

## **DAVE VAN METRE**

#### Hometown: Omaha, Nebraska

Best Times: Hiking the Grand Canyon, hanging out on "The Beach," backyard BBQ's, hanging out on the porch, the Halloween parties, the nights in Fort Collins at the '87 Symposium. Thanks to: Mom, Dad, Jim, Aggie, Bubba, and Mr. Coffee.

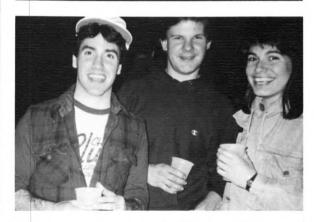

## **CYNTHIA WALDRON**

Hometown: Utica, New York Best Times: Senior year, surgery lunches. Worst Times: Freshman year. Words to Leave By: Do unto others as you would like them to do unto vou. Future Plans: Live happily ever after.

Thanks to: Glen, for all your love, support, patience and understanding. You're a wonderful person, and I'm very lucky to have you.

#### **STEPHANIE FULKS** WESTERMAN

Best Times: Last day of classes (I can't believe it!). Junior surgery (Noodlebake), the 3rd year skit, pregnancy, those rare conversations where we DIDN'T talk about vet school, the Life of Bryan and Foundations of Clinical Sci.

Worst Times: Almost slicing Randy's hand in Large Animal Anatomy ("Oh, scalpels are sharp!"), the jr. surgery pony necropsy, what they don't teach about C-sections.

Words to Leave By: Take the time to snuggle your pets, love your friends and family, read those "non-vet" books you love. Vet school will end some day - your life goes on. Don't forget to live it!

Future Plans: Loving and living. Thanks to: Jeff — for patience, love and understanding; Bryan — for showing me the joy in every day; certain classmates for help above and beyond; and Sassafrass, Charmine, Dickens and Elvis.

Worst Times: Thirty-five-hour shifts on surgery, Anatomy exams, Pathology exams, second semester junior year. Words to Leave By: "If I can't dance I don't want to be part of your revolution." — Emma Goldman Future Plans: Small to mixed animal practice, work overseas and then ....

Thanks to: Two close friends who happen to be my parents, Kaye and Roy; Sage; Cleo; Victoria and Mildred. To friends for helping me stay sane. To the gentle and not so gentle folks who taught me in the clinics. Where to Find Me in Ten Years: Beats me - ask my folks or the AVMA directory.

## CHERYL T. YASUDA

Hometown: Pearl City, Hawaii by way of Japan; Waukegan, Illinois; Pearl City again; Gambrills, Maryland and Japan again.

Best Times: Potluck dinners; intramural soccer, hockey, volleyball and softball; the skits; trying to stop laughing in class with Trish, Nancy and Mary B.; conversations with Trish at the top of the stairs. Worst Times: Trying to master nine "ologies" at once.

Words to Leave By: "Don't be dismayed at good-byes. A farewell is necessary before you can meet again. And meeting again, after moments or lifetimes, is certain for those who are friends." -- Richard Bach. See vou later, friends.

Future Plans: Mixed or small animal practice somewhere near the ocean. **Thanks to:** More and Dad, for making it possible; Peter and David; our teachers — from faculty to techs, and the animals, too; Trish, for a home, dog support, gripe sessions, sharing a kindred sense of humor (warped), etc.; my friends, who made it fun; the Rieves, for putting up Henle and me all the time and Ken, for more than I can list.

Where to Find Me in Ten Years: If you know, please let me in on it!

## **AMY ZAHN**

Hometown: Cherry Hill, New Jersey

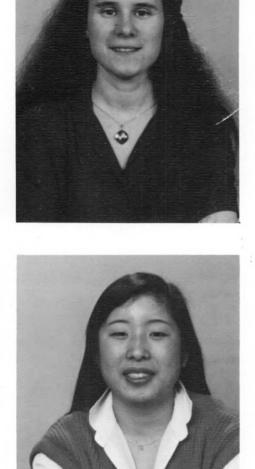

Best Times: Skiing at Diana's in Vermont (watching Trish C. dance to "Brick House"); running with Kurt; dancing at parties; visits from David S. and Diana B.; potluck dinners, having the Plantations as a backyard, walking on the Commons with Jet, at midnight, in the snow, during finals, before Christmas.

Worst Times: Studying freshman year, coming home to find the garbage carefully arranged in the living room and yet another one of my housemates' belongings chewed, taking my Applied Anatomy exam after everyone left, switching rooms with Mike, trying to get my father to fill out a GAPSFAS form on time.

Future Plans: Horse ownership.

Thanks to: Ma and Pa - for being supportive, sending packages and not disowning me for bouncing checks, Marya and Anne - for hours of studying together, Lorna and Mike — for buying light bulbs, and Jet for always being there with a wag in her tail. Where to Find Me in Ten Years: Barefoot in the kitchen or wearing

hiking boots in the Alps.

Note on p. 128, 4th caption

You had to have been at a certain late night yearbook session.

"I've never seen a purple cow ...." especially not on a yearbook cover. I've never edited a yearbook before, either. I figured that this was going to be tough. Good think I had no idea *how* tough!

I'd like to thank *everyone* who worked on the book, because every little bit really did help. I hope everyone's name appears in the credits. I'm sorry if anybody got left out; I wasn't taking attendance. Some people worked *particularly* hard. Heartfelt thanks go to Daneen Aromando, who typed almost all of it (almost all at least twice due to editing), and who was unfailingly supportive; to Chris Gong, who was there at the beginning *and* the end: to Karen Hirsch, Keith Clement, L.L. Frazier, and Terri Hlaing, who turned up when things were desperate; to Hayley Weston and Barb Wohlfahrt, who took on the big job of raising funds; and to Andi Looney, who took a big load off my shoulders by taking care of sales.

Thanks are also due our advertisers, companies and private individuals alike. The Yearbook simply would not exist without their generous support.

As a purple cow would be something special, memorable, I hope this yearbook becomes something special to those who peruse it, or skim it, or just pull it off the shelf every now and then to glance through it again. I hope it fulfills its purpose, which is to help the Classes of '89, '90, '91, and '92 remember our time here at the NYSCVM — the people, the places, and the experiences, which are certainly worth remembering. Maybe it will help others remember us, too.

It is usually the editor who writes a thank you to the staff for all of its help. Our editor has done such. But, it is more appropriate in this case to thank the editor. Cheryl Yasuda gave up most of her free time and a lot that was not free. If not for her efforts in spite of the paucity of help, this book would not be. Thank you, Cheryl. Your efforts are well appreciated. May we never forget Laughter, Tears, Wonder, Play, and Love, for they are the real "gold" we seek. God speed, my friends.

# The Image is Worth a Thousand Words...

Let's face it, when all is said and done, you demand consistent high quality images from a reliable and affordable radiographic system. Bennett X-Ray is dedicated to not only meeting those demands, but surpassing them.

Throughout the years, Bennett has been a pioneer in the Veterinary marketplace by continually developing the most accurate state-of-the-art, UL listed generators. For instance, the Auto-Tech 80 Programmable generator automatically measures the anatomical region of interest and sets the optimum technique. Auto-Tech can be customized for your practice, is simple to operate, and the only patented generator of its kind on the market today.

The COMPU-mAs generator is another one of a kind. COMPU-mAs eliminates the numerous steps required with a conventional generator permitting operator to concentrate on proper patient positioning and care. With COMPU-mAs, optimum mA and shortest time is automatically calculated and set. Infinite resolution is achieved with over 230 mAs selections for today's and tomorrow's film/screen technology.

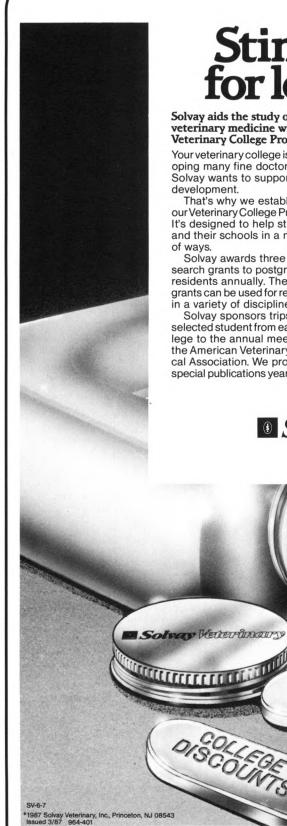

Bennett does not stop with the generator, but provides a full line of quality Veterinary radiographic systems. Select from a variety of systems comprised 100 percent of components that meet or exceed federal compliance standards. Certified components and collimator assures lower radiation dosage and increased image contrast for maximum operator safety.

Bennett upholds the guarantee of a secure investment and years of outstanding performance, with the industry's most comprehensive warranties. Only Bennett offers a 7/7 protection warranty (7 year generator/7 year pro-rated tube warranty).

When all is said and done, Bennett X-Ray provides the consistent high quality images you demand at an affordable price!

## **Stimulants** for learning

#### Solvay aids the study of veterinary medicine with its Veterinary College Program.

Your veterinary college is developing many fine doctors. And Solvay wants to support that development.

That's why we established our Veterinary College Program. It's designed to help students and their schools in a number of ways.

Solvay awards three research grants to postgraduate residents annually. These grants can be used for research in a variety of disciplines.

Solvay sponsors trips for a selected student from each college to the annual meeting of the American Veterinary Medical Association. We provide special publications year 'round, including Clinical Symposia and Dermatology Reports.

Other Solvay contributions include a comprehensive handbook about the business considerations of opening a practice; special discounts for your college pharmacy on all Solvay veterinary products; and cooperative research ventures between Solvay and interested investigators in the colleges.

These are the main elements of our Veterinary College Program now. And we hope to add even more in the near future. We believe stimulants for learning are very good medicine.

#### Thanks To All Our Friends At Cornell's Vet College!

Our sincere thanks to the students and staff of the Diagnostic Lab, and to members of Large Animal, Medicine, Obstetrics, and Surgery. You've helped us keep the sire herd healthy and productive.

And best of luck to the new graduates, especially those entering large animal practice. We're looking forward to working with you in maintaining good reproductive results in Northeast dairy herds.

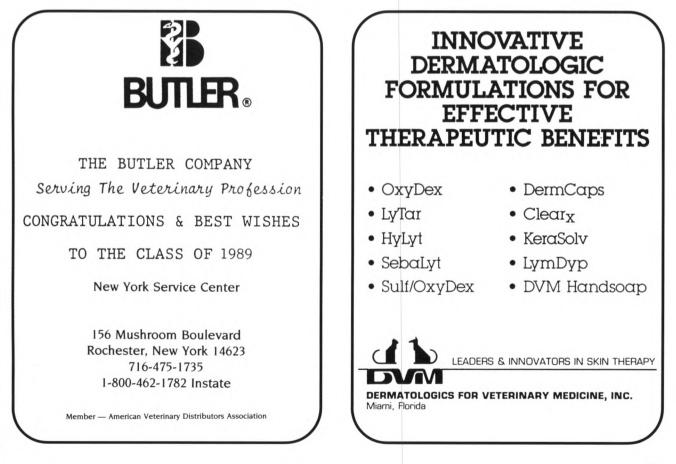

#### Our investment and commitment to you...

After graduation ceremonies, where do you turn for disease control information? Norden, of course. We at Norden support our veterinary clients every way we can. Our knowledgeable field staff, customer service centers and veterinary services department are always available to answer questions. They'll provide you with the latest research and the latest products.

You can be sure of Norden's dedication to you, the veterinarian of tomorrow. No company works more closely with veterinarians. And, because our products are sold only through veterinarians, no company promotes your role in animal health management like Norden does.

As you grow in your education and practice, Norden will be with you every step of the way.
