ALUMNI NEWS

How many years ago did you graduate from college?

- 20 years** That was the year that American introduced the DC•3, the plane that for more than a decade, in peace and war was known as America's "Queen of Transport."
- 15 years** That was the year American established the first "college" for airline crews at Ardmore, Oklahoma, still the most important training school of its kind in the country.
- 5 years** In these last five years alone, American Airlines, America's leading airline, has carried almost 30,000,000 passengers, more than in the previous 20 years combined.

Throughout the years, college graduates have led the swing to modern air transportation because they have had the vision to see the countless opportunities and benefits that air travel makes possible. Today, in terms of both business and vacation trips, these advantages are greater than ever on American Airlines, America's leading airline.

Amicus Familiae

Amicus Familiae . . . friend of the family, is a phrase we've contrived to describe an important aspect of Mr. Bascom Torrance's job. As Vice President and Chairman of the Trust Investment Committee, Mr. Torrance has in various ways, and on numerous occasions, been the trusted friend of many families. He and his associates reflect clearly the stature of an organization which, in the management of personal and corporate assets, ranks at the very top.

The Trust Company provides a wide range of helpful services, not the least important of which is our Investment Advisory Service. For individuals with available funds of \$75,000 or more, this complete, continuing management is a good bargain in the truest sense of the word. If you're interested, we would like to send you a free copy of "HOW TO GET THE MOST OUT OF YOUR INVESTMENTS." It's a straightforward word-and-picture story of how this Investment Advisory Service works.

DIVISIONS

...the new world of dynamics

In man's hands lies the control of the atom . . . unbelievable power to shape the future of the world.

Five operating divisions and a subsidiary are developing and producing nuclear powered submarines and aircraft; supersonic fighters and bombers; commercial air transports; atomic research; medical and power reactors; telephonic, radio, radar, television, and electronic equipment; electric motors and guided and ballistic missiles.

Thus, General Dynamics, through a *dynamic systems concept*, is creating a posture of leadership in the atomic age.

MAY 1, 1956

Faculty To Have Voting Trustees

CHARTER OF THE UNIVERSITY, which is embodied in the Education Law of New York State, has been amended to give the Board of Trustees four more voting members. Three will be from the University Faculty in Ithaca and one from the Medical College in New York. They are to be elected by the Trustees from nominations made by the respective Faculties. The new Trustees will supplant the present Faculty representatives who are elected by the Faculties to meet with the Board and its executive committee, but do not vote. A bill to accomplish the change was introduced by Assemblyman Ray S. Ashbery '25 and Governor Averell Harriman signed it April 11.

The Ithaca Faculty recommended to the Trustee meeting, April 14, that its present Faculty representatives be continued as Trustees for staggered terms ending June 30 in successive years, to bring subsequent elections for five-year terms from each July 1, as the law now provides. For these elections, the Faculties will nominate at least three candidates for each Trusteeship to be filled. Present Faculty representatives from Ithaca are Professors Lloyd P. Smith, PhD '36, Physics; Robert E. Cushman, Government; and A. Wright Gibson '17, Director of Resident Instruction in Agriculture; from the Medical College, Professor David P. Barr '11.

Faculty Often Requested Vote

Voting membership on the Board of Trustees has been requested several times by the University Faculty, beginning when Faculty representation was first proposed to the Board by President Jacob Gould Schurman in 1912, probably the first such proposal for an American university. In his President's Report for 1911-12, President Schurman noted that the faculties of Oxford, Cambridge, and of German universities were also the governing bodies and he concluded:

What is needed in American universities today is a new application of the principle of representative government. The faculty is essentially the university; yet in the governing boards of American universities the faculty is without representation. The only ultimately satisfactory solution of the problem of the government of American universities is the

concession to the professoriate of representation in the board of trustees or regents.

The Board in January, 1913, appointed a committee of Trustees Frank H. Hiscock '75, Ira A. Place '81, Mynderse Van Cleef '74, and Thomas B. Wilson to consider the President's recommendation. At the invitation of this committee, the University of Faculty at a special meeting in February, 1915, appointed a committee of Professors Dexter S. Kimball, Walter F. Willcox, Edward L. Nichols '75, George L. Burr '81, Veranus A. Moore '87, and Frank Thilly to confer with the Trustee committee. At a special meeting March 29, 1915, the Faculty voted, 76-5, that it wished to be represented on the Board of Trustees and 74-2 that it desired its representatives to have a vote. The Trustee committee reported to the Board in January, 1916, recommending "That the Faculty of the University be invited to select three representatives who shall sit at meetings of the Board and of the General Administration Committee and have full powers of Trustees except that of voting . . ." The Board at its meeting April 29, 1916, adopted a resolution substantially in this form, providing for a three-year trial. The plan was continued in 1919, with a representative elected by the Medical College Faculty added in 1938. The Faculty in June, 1916, elected as its first representatives Professors Kimball, Willcox, and John H. Comstock '74.

Professor Willcox recently wrote of the beginning of the plan for the University of Michigan publication, Senate Affairs. He said, in part:

Dr. Schurman became President of Cornell in 1892 after having been seven years on the Faculty. He had been thoroughly imbued with Canadian, Scotch, and German ideas about the importance of the faculty as a governing body and those ideas of his had grown stronger at Cornell. During the first years of his Presidency, one member of the Board of Trustees, Henry B. Lord, a business man by profession but a scholar at heart, adopted instinctively the point of view of the Faculty on any question of educational policy, and for that reason was a tower of strength to Schurman. When Lord died, no one was left on the Board but business men who furnished little support to the President in dealing with educational problems. This led Schurman to ask himself, "Why can't we add Faculty representatives?" His plan was for three Faculty

representatives to be elected by the University Faculty for a specified term. It was discussed by the Trustees and long and bitterly by the Faculty. Finally, in 1916, both sides agreed to try it for a three-year term; then both sides agreed to maintain it, and it has been continued with minor changes until now.

The University Faculty has made numerous official requests for voting representation on the Board of Trustees. A Faculty resolution requesting the vote was considered by the Board in 1921 and the Board decided that the time was not opportune. In February, 1934, receiving a Faculty resolution which asked for voting privileges and also that Faculty representatives be eligible for the principal Board committees, the Trustees declared themselves "in full agreement" that Faculty representatives should vote, but did not think the time propitious to amend the Charter. In response to similar Faculty resolutions presented to the Board in January, 1952, a committee of Trustees and Faculty was appointed to discuss the matter. This committee approved the proposal "in principle," and in June, 1954, the Board requested its executive committee to explore the necessary changes in the Charter and report to the Board. At its meeting in June, 1955, the Board voted to seek the amendments and they were approved last January for submission to the State Legislature.

State Supports Colleges

NEW YORK Legislature appropriated \$11,090,575 for operating the State divisions of the University in the fiscal year which began April 1. This does not include a statutory salary increase for State employees, not yet allocated, which will apply to most staff members in these divisions.

Direct appropriations for teaching, research, Extension Service, and maintenance of the State College of Agriculture amount to \$6,373,168; Home Economics \$1,393,202; Veterinary College \$1,042,222 (including \$10,000 for expenses of moving into the new plant); School of Industrial & Labor Relations \$920,010; for research and training in the School of Nutrition \$100,000; for operating Barton Hall and Bailey Hall \$67,342; for research and maintenance at the Agricultural Experiment Station

in Geneva \$1,160,202. From the land scrip fund administered by the State comes \$34,429.

The State budget also appropriates \$2,000,000 for a new classroom and office building for the School of Industrial & Labor Relations, which is being planned to occupy the site of James Law Hall, and for remodelling the adjoining Moore Laboratory, now occupied by the Veterinary College. It is hoped that work on these buildings for the I&LR School may start after the Veterinary College moves to its new plant at the end of Tower Road, this summer. \$500,000 is provided for Poultry Department research buildings; \$150,000 for a building for study of virus diseases of poultry at the Veterinary Virus Research Laboratory; and \$70,000 for improvements to the water supply system at the Geneva Experiment Station.

Federal appropriations for research and Extension in Agriculture, Home Economics, and the Geneva Experiment Station may be increased this year; but if they are not and without the State salary increases yet to be allocated, the total of State and Federal appropriations for operating the State divisions of the University is \$13,101,250.

Armstrong Expands Aid

ARMSTRONG CORK CO. will support a two-year scholarship for an upperclassman in the University, starting next fall. This will be in addition to the Armstrong Graduate Science Fellowship established this year, which is held by Gerald A. Peterson of Minneapolis, Minn.

Armstrong started its program this year with scholarships in ten institutions and fellowships in two. Next year, it will double the number of each, and Cornell is one of three which will have both. Recipients are chosen by the institution, with approval of the Company. Scholarships are for young men in the last two years who plan to enter business or industry and fellowships are for Doctoral candidates in chemistry or physics. Recipients get cost of tuition, fees, and books, up to \$1100 a year, and fellowship holders also receive a stipend of \$1500 a year. Their schools, if privately supported, have a grant of \$500 a year for each.

The institutions receiving scholarships and fellowships are selected by Armstrong Cork Co. on the basis of the number of their graduates it employs. The Company has 262 colleges and universities represented among its employees, and Cornell is among the first twenty, with twenty-one alumni. They are Hugh A. Williams '14, division industrial engineer; Frederick J. Muth '21, assistant controller; Louis L. Bentley '29, manager, Closure Plant; John

White Memento—Papers of President Andrew D. White, which are being edited by Professor Robert M. Ogden '00, contain some interesting references to this antique Venetian well-head which has stood for more than fifty years near the north door of Sage Chapel. President White wrote from Venice, April 9, 1902, to Willard Fiske in Florence that he was "greatly inclined to buy one of these rather handsome well-heads which one finds here" to send to the University. He asked if Fiske would also like to have one purchased. When Fiske declined the suggestion, White wrote him, April 12: "Quite likely you are right as to the perishable nature of Venetian well-heads in our trying climate, but I hope not and have yielded to the temptation to buy and ship a rather handsome one which I believe will convert you to my view when your foot shall next be planted on your native heath and you shall behold it with its enclosed copper receptacle filled with growing flowers. . . ." He suggested an inscription to Professor Moses Coit Tyler "which my wife and I cooked up during coffee on the Piazza this afternoon."

May 26, 1902, Treasurer Emmons L. Williams acknowledged to President White receipt of "statement for carved antique well-head shipped by you as gift to Cornell University," and August 2, Williams reported that "it was received in apparent good order yesterday." October 6 and November 24, 1902, Professor Charles Babcock, Architecture, submitted designs for mounting the well-head on pedestals and said in one letter, "I have my doubts as to the propriety of putting the well-head out of doors. Our climate will be very hard on it."

Through the years, the Italian limestone of the base and carved well-head have become badly weathered. The cap around the planting pocket is of more enduring sandstone.

Hochgrebe '53, decorator, Advertising & Promotion Department.

Student Wins Rome Prize

ROME PRIZE in landscape architecture, for a year's study at the American Academy in Rome starting next fall, has been won by the top student in Architecture courses. He is Eric A. Svenson '55, who will receive the BArch in June. He is the son of a builder in Weston, Conn. Before he came to the College of Architecture in 1951, he had designed three residences which his father built. One was a \$65,000 home for Douglas Edwards, radio-television news reporter; the others were in the \$30,000 class. Svenson won the Paul Dickinson Prize for the best Freshman record in Architecture, the Skidmore, Owings & Merrill Scholarship of \$1000, and the Baird Prize in design. He is the first of the thirteen Cornellians to win the Rome Prize in landscape architecture who did not specialize in that field. Five have won the Rome Prize in architecture.

The American Academy in Rome was established in 1894, to further the fine arts and classical studies in the United States, principally by granting fellowships to outstanding young Americans for independent work there. Awards of about \$3000 include a stipend, travel, studio and residence at the Academy.

Cornellians Make Careers in IBM

INTERNATIONAL BUSINESS MACHINES Corp. for many years has attracted career-minded college men and women, especially in its administrative and engineering divisions. It is not surprising, therefore, that many responsible positions in this company are filled by Cornellians. The company has record of 140 Cornell alumni in its organization.

William L. Lewis '22, vice-president in charge of purchasing, went directly after graduation to a position in IBM's technical research department at Endicott. Through the years, he has served in posts of increasing responsibility, including that of general manager of engineering and production. He received his present appointment in 1953. F. John Wesley '28 works with the executive vice-president of IBM in the New York City offices as general coordinator of new product development. He began his association with the company in 1929 as a member of systems service in New York, and has since acquired wide experience in the applications of IBM machines.

Henry T. Rowe '27, director of information, is a veteran of twenty years of newspaper experience. He began his IBM career in 1946 as a special assistant to the executive vice-president, was named advertising manager the following year, and director of information in 1954. Under his direction, IBM accomplishments in all areas are publicized through all media of communication. His son is Henry T. Rowe, Jr. '55. Richard M. Wight '44 is administrative assistant to Rowe.

A Cornellian with a particular interest in the field of college relations is William M. Hoyt, Jr. '36. His responsibilities were recently widened to include the administration of personnel policy and

coordination of training programs throughout the engineering department, as well as administration of engineering recruitment. He is manager of engineering personnel in the New York City office of the director of laboratory operations. Hoyt first went to IBM at Endicott as a plastics engineer.

Alumni directly involved in development of IBM's line of electronic data processing machines are contributing to commercial and scientific progress. Among the leaders is Jerrier A. Haddad '45, director of advanced machine development, who followed his graduation as an electrical engineer with laboratory and engineering positions in IBM. He was prominently identified with the development of the 701 electronic data processing machine, a large-scale electronic "brain." Mrs. Haddad was Margaret Van Hamlin '45. William P. Heising '44 works with the big computers as assistant manager of the electronic data processing service at IBM's New York headquarters. This service aids in the solution of engineering, business, and scientific problems and serves as a training ground for existing and projected data processing installations throughout the country.

Clifford D. Smith, Jr. '45, who started as an assistant sales representative in Tulsa, is now manager of the Time Equipment Product Planning Department, with headquarters in New York.

Geoffrey Knight '20, who joined IBM as a patent attorney in 1942, was appointed manager of the Endicott patent department ten years later. He is a member of the Washington, D.C. and New York State Bar Associations. Albert R. Hodges '30 is a patent attorney for IBM

William L. Lewis '22—Vice-president in charge of purchasing is pictured at his desk in the IBM World Headquarters, 590 Madison Avenue, New York City.

in New York. He and Mrs. Hodges (Katherine Rogers) '32 have a Freshman son, David.

Cornell is represented among IBM's branch office managers by Melvon A. Beesinger '34 of the Philadelphia downtown office and by Curtis B. Alliaume '40 of the Hagerstown, Md. office. Both have outstanding sales records with the company.

Francis G. Paul '44 started with IBM after he received the BME in 1946 and has held many positions of responsibility. As coordinator of special products, reporting directly to the vice-president in charge of manufacturing, he is now manager of manufacturing for new facilities being built in San Jose, Cal. David J. Culbertson '48 coordinates application of IBM production control systems to electronic data processing ma-

Information Officers—Henry T. Rowe '27 (right) is director of information for IBM. With him in his New York office is his administrative assistant, Richard M. Wight '44.

Works on Electronic "Brain"—Jerrier A. Haddad '45, director of advanced machine development, helped to work out the new 701 electronic data processing machine.

Hotelman Runs Cafeteria—George Nixon, Jr. '49 manages the employee cafeteria at recently-opened IBM plant in Kingston.

chines at all plants. Mrs. Culbertson was Helen Eaton '50.

L. Raymond Smith, Jr. '50 is responsible for design changes on electronic circuitry for the IBM 650, a medium-sized electronic "brain" intended to meet the needs of customers in the areas between small business and big business. Joseph C. Logue '44 is a development engineer at the Poughkeepsie Laboratories, working on transistor circuitry and applications. He has taught technical courses in the IBM schools. Melvin B. Diegert '51, associate engineer at the Endicott plant, numbers among his achievements the development of a 10-inch cathode ray tube. Mrs. Diegert was Mary Wagner '51. Robert D. Courtright '43 manages the ferrite core manufacturing department at the Poughkeepsie plant. The School of Hotel Administration is represented by George Nixon, Jr. '49, cafeteria manager at the Kingston plant. Mrs. Courtright was Beverly Bryde '42 and Mrs. Nixon was Katherine Vogt '49.

The list could go on and on. The company notes that Cornellians are making a sizeable contribution to the progress of IBM, while carving out worthwhile careers for themselves.

For New Animal Studies

TRACER LABORATORY for using radioactive materials in biological research is being set up in the Zoology Department in Stimson Hall with the help of a \$20,000 grant from National Science Foundation. The grant will contribute toward laboratory equipment and a three-year research program conducted by Professor William A. Wimsatt '39 and his assistants on the physiological make-up of bats and other mammals.

One special piece of equipment designed by Professor Wimsatt, who has been doing research on bats since 1940, is a portable "cave" for hibernating bats, with a section for "hot bats," ones injected with minute quantities of radioisotopes. The insulated box will have the same forty-degree temperature and high humidity as the natural cave environment.

Radioactive tracer techniques open many new areas of biological research, Professor Wimsatt explains. The laboratory will be used to study several problems that have never been thoroughly investigated in hibernating mammals. The bats' state of suspended animation during hibernation makes them valuable sources of information. The research group will study blood changes that occur between the hibernating and the active states, will follow the function of the bat's thyroid gland throughout the year's cycle, and will investigate a possible connection between the bat's superior resistance to radiation damage

"Dear '55,

The Alumni News is anxious to hear from members of the June class. Won't you drop us a line and let us know where you are, how you are, and what interesting things you are doing? . . ."

This cartoon and caption by Everett G. Opie '54 appeared in the Pacific Stars & Stripes, February 25, 1956, and is reprinted by permission. Private Opie is a member of the Pacific Stars & Stripes staff in Tokyo; his duty includes travelling through the Far East finding funny things to draw. His work is in The New Yorker Album, 1950-55, and in two pocket books, Howls of Ivy, and Best from True. His mother, Mrs. Ollene Opie, is chaperone at the Delta Delta Delta house in Ithaca.

and its low metabolic rate during hibernation. Studies will also be made on the development of thyroidal function in the unborn bat and on how pregnant mammals pass immunity against diseases to their offspring.

Record Rare Bird Calls

ORNITHOLOGISTS at the University have succeeded in recording for the first time the voices (including their mating duets) of two very rare birds, the whooping crane and the trumpeter swan.

The whooping crane is North America's second-rarest bird and is nearly extinct. The trumpeter swan ranks fourth. Both species call in duets, the female adding her voice to the trumpeting of the male. The Laboratory of Ornithology had already recorded the rarest species, the ivory-billed woodpecker. Number 3, the California condor, is believed to be silent.

Professor Arthur A. Allen '08, Ornithology, Emeritus, and his son, David G. Allen '49, recorded the cranes at the Aransas Refuge in Texas this winter, and James M. Hartshorne '46 recorded the swans at the Red Rock Lakes Refuge in Montana. The Allens studied the cranes' habits for four days through binoculars, then placed life-sized decoys,

painted by William C. Dilger '46, near a blind at a fresh-water pond where two parents and their full-grown young came to drink. They waited three days in the blind. Then the male crane, discovering rivals in his private pond, charged to within a few feet of the decoys with raised wings and trumpeting calls. Hartshorne spent two weeks in below-zero weather to record the trumpeter swans. The remnants of their population congregate in the Montana refuge, near holes in the ice which are kept open by warm springs. As the mating season approaches, the birds become quite vocal.

What Makes Prosperity?

WRITING on "State of the Nation" in Farm Economics for February, 1956, Professor Frank A. Pearson '12, Agricultural Economics, and Dean William I. Myers '14 of the College of Agriculture have a section on "The Source of Prosperity." That section follows:

Opinions of the origin of prosperity have changed with passing time. Formerly prosperity was assumed to originate in the country. If farmers were prosperous, the nation was prosperous. With the passing of the horse and buggy and the declining importance of agriculture in the economy, the theory that prosperity originated in the city became popular. Full employment and high wages meant higher prices for farm products and increasing consumption of food. This consumer-income theory has become a little shopworn.

The newest theory is that somebody in Washington has control of the nation's economic throttles. Someone pulls certain stops and increasing employment, rising wages, and better business flow out of the horn of plenty. This theory is intentionally propagandized by the bureaucrats concerned and particularly by political parties in and out of power. When all is well, nary a rumble is heard across the nation. The "ins" pat themselves on the back and take the credit. If all is not well, a storm of protest arises, its intensity depending on the number of distressed who believe that their misery, real or imagined, is under the control of Washington. The out-of-power party points an accusing finger at the "ins," inferring that they pulled the wrong stops and made a mess of things.

Horace Greeley advised young men to go west. The grandsons of those who followed this advice are being told to face east for information on the changing role of the legal activities surrounding agriculture which have grown like the Tower of Babel, higher and higher, accompanied by dissension and confusion. An excellent illustration of the babel of tongues is the chaotic confusion surrounding agriculture. The Atlantic Coast milk producers quarrel with the Wisconsin dairymen; the New York poultrymen cannot understand the Corn Belt farmers, and so on, *ad infinitum*. Out of the confusion, a few ideas are crystallizing. Washington controls the stops, a new hand should take over the throttle or new electronic controls should be installed. This is the response of ten million farmers to deflation today. It will be the response of fifty million urbanites to unemployment tomorrow except for the geographic difference that most of them will have to face south and southeast to watch Washington. The urbanites' position will be similar in that neither a change in the hand that is

supposed to control the throttle nor a change in the stops will solve their problems.

While 160 million people have vague impressions that Washington controls the ebb and flow of prices, employment, and production, what are the reactions of Washington's politicians and economists? They face west with their right ears sensitive to every northern economic vibration and with their left ears in tune with the south. They watch and record every movement of their constituents. What do the people think? How many homes will they build? How many autos will they buy, and so on, *ad infinitum*.

The American people greatly overrate the power of Washington to influence the rate at which the good things flow out of the "Horn of Plenty" and underrate themselves. They should replace the telescopes with which they have been watching Washington with reflectors so they can watch themselves.

Western Club Elects

CORNELL CLUB OF WASHINGTON at its annual meeting, March 22 in the Benjamin Franklin Hotel in Seattle, elected John B. Strander '47, president; Lynn P. Himmelman '33, vice-president; James W. Ellison '49, secretary; and Carl P. Irwin '49, treasurer. Arthur W. O'Shea '29 was appointed chairman of the Club scholarship committee.

Students To Run New Hotel

CORNELL will be transplanted this summer to the new Santa Maria Hotel opening June 1 on the shore in Ocean City, Md. Fourteen undergraduates in the School of Hotel Administration will get required summer practice in the operating crew, directed by H. Thomas Middlebrook II '57 as manager. He is a graduate of University of Missouri and had considerable hotel experience before he came to the University. Head chef will be Richard Aschwanden '56, who graduated from hotel schools in Switzerland, has worked as chef in Europe and this country, and has been preparing fine foods since he was twelve. Other Hotel students will work in the Santa Maria kitchens and in the front of the house.

"The Captain's Table" dining room, modelled after the Statler Club Rathskellar at the University, was planned and designed by Paul R. Broten '47. Professor J. William Conner '40 of the Hotel School and manager of the Statler Club and Statler Inn has been consultant in the building and equipping of the new hotel and will spend his month of vacation there as managing director. The advertising firm of Needham & Grohmann, headed by H. Victor Grohmann '28, designed a trademark featuring the ship Santa Maria which brought Christopher Columbus to America. Even the hotel's telephone number, 1492, carries out the theme! And the Santa Maria will house a summer branch of the Cornell Club of Maryland.

Now In My Time! *Corney Rice*

ATTENDANCE at baseball games isn't what it used to be. Retired professors worry about that who once played a pretty competent third base themselves in the turn of the century and recall the crowded stands at Percy Field, once the willows had turned green and the tulips were in full bloom.

Your reporter doesn't worry—much. Undergraduate interest in baseball hasn't diminished, we're pretty sure. It's just that the students who once occupied the seats are now themselves playing the game in scores of intramural leagues. You can sit in the old steel stand at Hoy Field and hear them on Upper Alumni screaming indignant protests over a close decision at the plate. That's a change that President Schurman, and most everybody else, advocated fifty years ago; but now that it has come about, some aren't so sure. We're still for it, but rejoice that we were present in the flesh, and not playing first base for the brothers somewhere else, when Cooney Rice '07 stole home against Princeton. We're also grateful that no fraternal obligations deprived us of witnessing that other historic episode when with two out and three on in the ninth, Heatley Green '01 laid down a bunt which so astonished the Chicago catcher that he threw the ball over the first baseman's head, out of the park, and into Lake Street, thereby scoring the four runs for Cornell that the situation demanded.

That steel stand on Hoy Field is the same one that formerly paralleled the third base line at Percy Field. It was designed in the consulship of John Senior '01 to seat 2000 customers and once did. It now provides space for but 1932. Customers—the male ones, anyway—run broader now when they sit down! But nowadays, 1932 seats suffice for a baseball crowd with all those intramural contests going on, although they are commonly and hopefully supplemented by a row of knockdown bleachers. And yet, those seating arrangements would not have begun to take care of the spectators when the University's enrollment was one-third of what it now is.

That steel stand is an ancient structure as antiquity is measured in a young University. It appeared at Percy Field in 1907, and for seven years did double duty. It was taken

apart every summer and moved from third base to center field, where it became the north stand at football games; twice as long and half as high. From 1914-22, however, it was left undisturbed and functioned for baseball alone. Augmented by the covered stand and the wooden bleachers, it was usually enough, although for Spring Day and the alumni game at Reunion, the overflow had to stand up back of ropes which were supposed to keep it out of the playing area, but seldom did. After the wooden stands burned down, the steel stand moved up to the newly-created Hoy Field in 1922 and has continued to function there adequately, with the aid of a periodic paint job.

From all this, you should be able to glean what has happened to college baseball and sense the changes that the steel stand has looked down upon in the half-century of its existence. It has seen some of the most discussed and spectacular episodes in Cornell's athletic history—some of which actually occurred! It has seen baseball administered without financial loss, and sometimes when the weather was propitious at Spring Day and Reunions, with a modest profit in an era when it did not have to compete for the student trade with other worthy activities, including baseball itself in its intramural manifestations.

The new way is the better way, as even the old professors who played third base will admit. Just the same, your reporter is glad, and is not alone in that feeling, that he went to college when he did and not now. When April became May at Percy Field ten days before it did in the Quadrangle, it was something to sit on the bleachers in the sun and absorb memories which have endured. One went mainly because everybody else did and there was nothing else to do. The track team shared the field with baseball, and the hurdles went up with the concluding out. Mr. Courtney had cut his rowing squads to the bone and the discards could appear in the stands without fear.

With the years, one forgets many truths that consecrated teachers taught him. But there always remains to comfort the ancient of days in the twilight the recollection of the time that Cooney Rice stole home and the other time when Heatley Green laid down that four-run bunt.

BOOKS

Scientists and Sciences

SPIDER, EGG, AND MICROCOSM: Three Men and Three Worlds of Science. By Eugene Kinkead. Alfred A. Knopf, New York City. 1955. ix + 244 pages, \$4.

The New Yorker editor and science writer has adapted for this book the "profiles" he wrote for his magazine on three Russian-born scientists and their work. He writes of spiders as they are seen and studied by Alexander I. Petrunkevitch, retired Yale professor of zoology; of the avian egg and its foremost authority and proponent, Professor Alexis L. Romanoff '25, Chemical Embryology in Poultry Husbandry; and of the microscopic animals studied and photographed by Dr. Roman Vishniac.

Of special interest to Cornellians, of course, are the account of Professor Romanoff and his work and the book's Introduction by E. B. White '21. But the reader of it all is lost in wonder with White, who writes "that to go with Petrunkevitch on the track of a spider, to gaze with Romanoff at the avian egg, to magnify with Vishniac the shape and beauty of the microcosm, is the same sort of experience as taking a walk in the spring woods."

How Leo Frank '06 Died

NIGHT FELL ON GEORGIA. By Charles & Louise Samuels. Dell Publishing Co., New York City. 1956. Paper, 222 pages, 25 cents.

This is an account of the bizarre trial and conviction, forty years ago, of Leo M. Frank '06 for the murder of fourteen-year-old Mary Phagan, who worked in the Atlanta pencil factory where he was superintendent; and of his lynching after the Governor of Georgia commuted his sentence from the death penalty to life imprisonment. The authors recount an amazing story of the circumstances of Frank's trial, which attracted nationwide attention. They indicate that his conviction, no less than his violent death, was incited by mob influence; although they note that "experts are still undecided" as to Frank's guilt.

Frank entered Sibley College from Brooklyn in 1902 and received the ME in 1906. He was vice-president and treasurer of the Morse Stephens Debate Club, coached debating teams and spoke on the Congress stage; played basketball on his Class teams. His attorneys brought former teachers from the University and Classmates as character witnesses at his trial and appeals for clemency were sent to Governor John M. Slaton by Presi-

dent Jacob Gould Schurman, by students, and by Cornell Clubs and many other groups all over the country. October 11, 1923, more than eight years after he was lynched, the ALUMNI NEWS briefly reported that "a Negro swore on his deathbed that another Negro had killed the girl of whose murder Frank was accused."

Knox B. Burger '43 is editor of Dell First Editions, "original books at reprint prices" of which this is one.

Speech Handbook

HANDBOOK OF SPEECH IMPROVEMENT. By Professor Charles K. Thomas '21, director of the Speech Clinic in the Department of Speech & Drama. The Ronald Press Co., New York City. 1956. v + 135 pages, \$2.75.

A teacher of speech for thirty years, Professor Thomas has constructed a most valuable handbook and drillbook for those whose speech lacks accuracy, distinctness or naturalness, or suggests the patterns of a foreign language. The book is based on the principle that speech sounds have to contrast clearly with one another if the speech is to be intelligible. The sounds are identified by the symbols of the International Phonetic Association in the form most commonly used in the United States. More than 350 exercises are given to improve speech difficulties except those caused by structural malformation or functional disorders.

Professor Thomas is a fellow of the American Speech & Hearing Association, the professional organization of speech correctionists. He is the author of the standard work, *An Introduction to the Phonetics of American English*, and has written many articles in professional journals and others such as *The American Mercury* and *Parents Magazine*.

American History Source Book

GRAPHIC SURVEY OF AMERICAN HISTORY. By Philip Dorf '24. Oxford Book Co., New York City. 1955. vxi + 430 pages, \$2.40.

The author of *The Builder: A Biography of Ezra Cornell* has prepared this compact and complete history of America as a high school text. It encompasses the growth of the country from its very discovery to "Early Rumbles of the 1956 Campaign" and tells not only the "what" but the "why" and "how" of the American idea. The book is profusely illustrated with cartoons designed by the author, following in this his earlier successful textbook, *Visualized American History*, and the book on *American Institutions* which he did for the Armed Forces Institute.

The fifteen chapters of the present book are grouped into seven units, with

reviews of chapter highlights and questions and tests covering each unit. The book lists and gives sources of "Memorable Phrases in American History" and includes the full texts of the Declaration of Independence and of the Constitution and Amendments with explanatory notes on each section. It is minutely indexed.

Faculty Appointments

BOARD OF TRUSTEES at its spring meetings in Ithaca, April 13 & 14, approved additions and promotions in the Faculty. Unless otherwise noted, the changes become effective July 1.

John G. Seeley, PhD '48, professor of floriculture at Pennsylvania State University, will return here June 1 as professor of Floriculture and head of the Department of Floriculture & Ornamental Horticulture. He was instructor in Floriculture from 1941-43 and 1945-48, and assistant professor in 1948-49. He was formerly assistant agronomist with the US Department of Agriculture Bureau of Plant Industry rubber investigations in Waynesboro, Ga. and chemist in charge of the rubber materials laboratory of Wright Aeronautical Corp., Paterson, N.J. He won the Alpha Zeta Award as the best senior in agriculture at Rutgers, where he received the BS in 1937 and MS in 1940. He received the 1949 Leonard H. Vaughan Memorial Award of the American Society for Horticultural Science for the best paper on a floriculture subject.

G. Conrad Dalman, engineering section head at Sperry Gyroscope Co., was appointed professor of Electrical Engineering. He received the BEE in 1940 at CCNY and the MEE in 1947 and DEE in 1949 at Polytechnic Institute of Brooklyn. He has been instructing evening graduate classes at both institutions. Before joining Sperry in 1949, he was with RCA Victor Division from 1940-45 (three years as manufacturing development engineer in charge in the special purpose tube factory) and with Bell Telephone Laboratories, Inc., from 1945-47 in the electronic tube development group.

John Sherry, lecturer on laws of inn-keeping in Hotel Administration since 1935, will become professor of Hotel Administration. He has been counsel for the American Hotel Association and for leading hotels, including the Hilton chain; has written extensively and been a contributing editor of *Hotel Management*. He received the BS at Columbia in 1926 and LLB at NYU in 1931.

Appointed associate professor of Biochemistry is Martin Gibbs, who has been associate and plant physiologist at Brookhaven National Laboratory since 1947. Last year he was visiting professor of botany at University of Penn-

Plan for Engineering Buildings & Others—Scale model of the south end of the Campus shows location of new buildings soon to be started and of those projected to surround the quadrangle that used to be Sage Green. The buildings shown are: **A.** New south wing of Statler Hall given by the Statler Foundation. **B.** Phillips Hall. **C.** Mass of proposed Mechanical Engineering building. **D.** Kimball & Thurston Halls. **E.** Mass of proposed Civil Engineering building (supplanting the Old Armory). **F.** Part of Myron Taylor Hall. **G.** Part of Anabel Taylor Hall. **H.** New Gannett Medical Clinic, gift of Frank E. Gannett '98 Foundation. **I.** New administration & library building for Engineering, gift of Walter S. Carpenter, Jr. '10. **J.** Olin Hall. **K.** Part of Willard Straight Hall. **L.** Barnes Hall. **M.** Sage College. Plan for the Engineering College Quadrangle was made by the firm of Lawrence B. Perkins '30 & Philip Will, Jr. '28, who designed Phillips Hall and are architects for the Carpenter building, soon to start. The model was made by the Department of Buildings & Grounds, assisted by Architecture students.

sylvania. He received the BS in 1943 at Philadelphia College of Pharmacy & Science and the PhD in 1947 at University of Illinois.

Jean-Jacques Demorest, associate professor of French at Duke, was appointed associate professor of Romance Literature. A member of the Duke faculty since 1948, he lived in France and received the BA and MA in 1940 at Ohio State University, where his father is professor of French, and the PhD in 1949 at Princeton. He published a study of Pascal in 1953 and has been working on a palaeographic and stylistic study of the variants of Pascal's *Pensées*. His war novel, *Les passionnés ont vécu*, is on press. Professor Demorest enlisted in the Free French forces in 1941, fought in Libya, Tunisia, and Italy, and was discharged as a lieutenant. He received the *Légion d'honneur*, *Médaille de la Résistance*, and *Croix de guerre*. In 1954, he was chairman of the seventeenth century group of the Modern Language Association.

Edwin L. Resler, Jr., PhD '51, will return to the University as associate professor of Aeronautical Engineering. For several years he has been associate research professor at the Institute for Fluid Dynamics & Applied Mathematics at University of Maryland. From 1948-52, he was a research associate in the

Graduate School of Aeronautical Engineering and in 1951-52, he taught graduate courses in Physics and Gasdynamics. During the war, he was in Navy V-5 and V-12 programs at Bethany College and Notre Dame, where he received the BS in 1947, and was assistant engineering officer at the Miami Naval Air Station.

George P. Hess will become assistant professor of Biochemistry, August 1. He received the AB in 1948 and PhD in 1950 at University of California, for two years was a junior research biochemist there, and for the last two years has been a fellow of the National Foundation for Infantile Paralysis at MIT.

Charles C. Russell of the public relations bureau of the Portland Cement Association, Chicago, Ill., and former director of public relations and head of the department of journalism at Arkansas Polytechnic and Howard College, comes June 1 for a year as acting professor of Extension Teaching & Information. He will take over the teaching duties of Professor William B. Ward, who will be at University of the Philippines at Los Banos. During Professor Ward's absence, Professor George S. Butts '25 will be acting head of the Department of Extension Teaching & Information.

Harold Bierman, Jr. of University of

Chicago will be visiting associate professor of Accounting in the Graduate School of Business & Public Administration for 1956-57. Thomas Gold of the Royal Greenwich Observatory in England will be visiting professor in the Department of Physics and the Graduate School of Aeronautical Engineering next year. During the fall term, Brian Harrison, professor of history at University of Hong Kong, will be visiting professor of History and of Southeast Asia Studies.

Board Approves Promotions

Promoted to professor are Norman D. Daly, Fine Arts; Chandler Morse, Economics; Marc Szeftel, History; Harry Pollard, Mathematics; Stuart M. Brown, Jr. '37, Philosophy; Boyce D. McDaniel, PhD '43, Philip Morrison, and Robert L. Sproull '40, Physics; Michael Cardozo, W. David Curtiss '38, Peter Ward '39, and Ernest N. Warren '31, Law; Robert D. Miller, PhD '48, Soil Physics; Albert A. LaPlante, Jr., PhD '49, Entomology; Lester C. Peterson, PhD '42, Plant Pathology; Dean R. Marble '26, Poultry Husbandry; Eva L. Gordon '29, Rural Education; Foster L. Gambrell, Entomology, and Benjamin E. Clark '40, Seed Investigations, at the Geneva Experiment Station; and Drs. Walter F. Riker, Jr. '43, Pharmacology,

Sukiyaki Dinner in Tokyo—Architect Albert R. Martin '23 and his family are entertained by fellow-Cornellian architects during a trip around the world. Left to right are Shigeo Hirata '31, Kanichi Kurita '25, Mrs. Tokisuke Yokogawa, Martin, Gumpei Matsuda '23, who arranged the dinner, Mrs. Martin, Tokisuke Yokogawa '21, and Michael Martin.

and Samuel W. Moore, Clinical Surgery, at the Medical College in New York.

Advanced to associate professor are David Novarr, English; John B. Rawls, Philosophy; Albert W. Overhauser, Physics; Gordon F. Streib, Sociology & Anthropology; Howard A. Schneiderman, Zoology; Robert E. McGarrah, PhD '51, Mechanical Engineering; Harry G. Henn '43, Law; Bernard F. Stanton '49, Farm Management; William F. Millier '45, Agricultural Engineering; Walter L. Griffeth, Agronomy; Harry R. Ainslie, Animal Husbandry; Lawrence S. Hamilton, Forestry; John A. Naegele '49, Entomology; Richard C. Andreasen, PhD '51, Floriculture; Charles W. Cares, Ornamental Horticulture; Robert C. Cetas, PhD '52, Plant Pathology; Helen L. Wardeberg, Elementary Education; Francis M. R. Isenberg, Richard L. Sawyer, PhD '53, and Raymond Sheldrake, Jr., PhD '52, Vegetable Crops; Joseph D. Burroughs, MS '51, Child Development & Family Relationships; Aimee N. Moore, Institution Management; Evelyn E. Stout, Mary V. White, and Frances E. Young '31, Textiles & Clothing; and Drs. David E. Rogers '48, Medicine, Charles T. Olcott '16, Pathology, and Margaret Dann, PhD '32, Pediatrics, at the Medical College.

Californians Start Club

CORNELL CLUB of Santa Barbara, Cal., was organized at a dinner in the Miramar Hotel there, March 27. Rufus E. Bixby '13 was elected president and A. Raymond Cornwall '05, secretary-treasurer. Also present were Spencer L. Adams '93, Colonel Edward Davis '96, Rudolph E. Prussing '04, who brought greetings from the Cornell Club of Chi-

cago, John A. Berger, Jr. '12, C. Mavro Warren '15, Victor L. Klee '16, Roy W. Cheeseman '17, John K. Boos '22, Charles A. Storke '32, William P. Gawzner '38, owner of the Miramar Hotel, and Robert I. Hoyt, MA '41.

President Bixby is with County National Bank & Trust Co. and Cornwall's address is 680 San Ysidro Road, in Santa Barbara.

Western Electric Repays

WESTERN ELECTRIC CO. will provide scholarships of \$800 for two students in Engineering next year and contribute \$600 for each as an unrestricted grant to the University. Recipients will be selected by the scholarship committee of the College of Engineering; the company's only stipulation is that they be citizens of the United States. It is planned to award the Western Electric Scholarships here to fifth-year students.

For twenty-five years, Western Electric Co. has given apparatus and equipment to colleges and universities for instruction and experimental use. Expanding its program of aid to education, the company next year will give 125 scholarships and accompanying grants. This is announced as "in recognition of the contribution that America's colleges and universities have made through their graduates to the progress of the Company. Today more than 6000 college graduates are employed in Western Electric plants, distribution centers, and installation areas across the nation. Some 3000 of these are graduate engineers, many of whom have figured importantly in history-making achievements, such as production of the first commercially made transistor and of the Nike guided missile system."

Two of Western Electric's Cornel-

lians, Harold E. Irish '16, merchandising manager, and Rollin H. McCarthy '22, assistant engineer of manufacturing, brought the announcement of their company's scholarship gifts to the University.

Gives Sphinx Head Awards

THE UNIVERSITY has received another gift from Spencer L. Adams '93 of \$20,000, to endow scholarships for two male students in their last year of undergraduate study, with preference given to members of Sphinx Head in good scholastic standing and having a demonstrated financial need. If no Sphinx Head members qualify, the scholarships may be awarded to non-members who have evidenced interest in the welfare of the University by participation in extra-curricular activities. It is expected that income from the gift will make possible one \$400 grant next fall and two of the same amount each year thereafter. The University scholarship committee will determine recipients.

Adams, a retired attorney, gave the University several years ago \$40,000 to endow two annual scholarships of \$800 each to qualified students in the College of Arts & Sciences. Long known to his Classmates as "Prexy," he received the AB in 1893. He was a captain in the Cadet Corps, manager of the Glee, Banjo & Mandolin Clubs, and a member of Sphinx Head. He received the LLB in 1895 at Yale and practiced law in Chicago, Ill., for forty years; was twice president of the Cornell Club of Chicago. He retired in 1935, then traveled extensively before returning to his ancestral home in Skaneateles, and since 1947 has lived at 967 Garcia Road in Santa Barbara, Cal.

Instrumentalists Play

CHAMBER MUSIC series this year closed with a concert in the Willard Straight Theater, April 3, by Joseph Fuchs, violinist, Lillian Fuchs, violist, and Artur Balsam, pianist. Two works by Mozart were performed: "Sonata in G major, K. 379," for violin and piano, which featured Joseph Fuchs; and "Duo for Violin and Viola in B flat, K. 424," so excellently performed by the Fuchses that the audience cheered. Miss Fuchs displayed splendid technique in "Sonata No. 1 for Viola and Piano," by the contemporary Czech composer, Bohuslav Martinu. Fuchs and Balsam gave a fine performance of "Sonata in D minor, Opus 108, for Violin and Piano."

Next year's concerts will open with the Kroll String Quartet, October 30, and the Hungarian Quartet will play November 27. Making its first American tour, the Vienna Octet of strings and woodwinds

will give a concert February 25. Seven members of the Octet occupy first-chair positions in the Vienna Philharmonic Orchestra and one with the Vienna Symphony Orchestra. The Budapest String Quartet, in its tenth appearance at the University, will play March 10.

To Help Old Dogs

STUDY on the aging of dogs will be conducted at the Veterinary College with a grant from the Mark L. Morris Animal Memorial Foundation of Topeka, Kans.

Purpose of the research, which will be conducted by Dr. Roger J. Panciera, MS '55, and supervised by Professor Charles G. Rickard '43, is to evaluate the special problems of older dogs. It will also attempt to determine whether dogs age at the same rate and in the same way in different climates. Ultimately, the studies hope to find ways for better care of old dogs and possibly for prolonging the life span.

The Morris Foundation sponsors research on dogs and cats in several other universities and research centers. Its president is Dr. Mark L. Morris '26 of Topeka. A former veterinarian in Raritan, N.J., he was from 1926-50, director and president of the Raritan Hospital for Animals and from 1940-52, of Raritan Laboratories, Inc. He was a charter member of the American Animal Hospital Association and has written numerous scientific articles on nutrition.

For Botany Teachers

SUMMER INSTITUTE OF BOTANY, for teachers from small colleges, sponsored by the Botanical Society of America with a \$31,400 grant from the National Science Foundation, will be held at the University, July 2-August 11. Fifty teachers will receive tuition and a stipend of \$300, with additional allowance for dependents if required.

Professor Harlan P. Banks, PhD '40, who will direct it, says the Institute has two aims: to give teachers the latest professional information and to encourage them to start or continue research projects in their own departments. Lectures and demonstrations on the latest developments in their particular fields will be given by twelve visiting lecturers from twelve different universities, including Professors Ernst C. Abbe '28 of University of Minnesota and Arthur W. Galston '40 of Yale.

Eighty-five applications from thirty States had been received through April 15, Professor Banks says. Screening the applicants with him are Professors Harriet B. Creighton, PhD '33, of Wellesley, president of the Botanical Society, and Ralph H. Wetmore of Harvard.

Planning Class Works on Waikiki

IN THE GLOOM and snow of an Ithaca winter, a class of seventeen City & Regional Planning students have worked out in Franklin Hall a Waikiki Beach of the future, designed to retain Hawaii's aloha spirit while accommodating more than twice as many tourists. Professor Frederick W. Edmondson, Jr. '36, Landscape Architecture, conceived the project when he visited Hawaii last year and learned of a ten-year plan to boost the number of tourists from 100,000 a year to 280,000, but found concern about congestion and deterioration in the major tourist asset, Waikiki Beach. His students have incorporated their ideas in a fourteen- by six-foot scale model of the redevelopment, which will be shipped to Hawaii for display; and they are getting up a brochure on the project.

The work began with a summary of the Waikiki situation by Professor Edmondson, who brought back dozens of photographs of the beach as is. The class formed groups to study the economy, geology, government, history, and other data, consulting other University divisions such as in meteorology, law, business, and geology. Redividing, groups of

students tackled the various problems of redevelopment: traffic, recreational areas, land use, utilities, construction problems, and financing. They plotted their proposals on plastic overlays fitting over a large aerial photograph of today's beach.

The students came up with these suggestions for improving traffic conditions, a major problem on Waikiki: a highway north of Waikiki to carry through traffic around the beach area; a new bridge across the Ala Wai Canal, replacing two present bridges and connecting with the thruway by a cloverleaf; curving streets to service the beach area only; overpasses to allow bathers to reach the beaches without crossing traffic, as they must now; and a number of multi-story garages to solve parking congestion. The students retained present hotels, but located new ones so as to keep clear as much of the ocean view as possible. Buildings for professional and commercial use are in one central area and large park and beach areas are set out.

To finance the long-term project, the class recommends a new agency, the Hawaiian Tourist Development Authority, with power to plan similar developments

Waikiki Beach of the Future—Students work on a model of Hawaii's famous Waikiki Beach designed by a class in City & Regional Planning to accommodate more tourists. At left, Chandraladda Bunyamanob '56 of Bangkok, Thailand, checks an air photo; next is James R. Bell '56 of Honolulu. David J. Russell, Grad, of Calgary, Alberta, Canada, Professor Frederick W. Edmondson, Jr. '36, Landscape Architecture, and Donald W. Clifford, Grad, of Brockton, Mass., are working on Diamond Head. Henry M. Cochran '56 of Bethlehem, Pa., and Peter Q. Eschweiler '55 of Milwaukee, Wis., are at work on the beach and bay. The 14 x 6 foot model has a scale of 100 feet to the inch, with laminated cardboard sheets duplicating the topography. The blue sea, complete with waves, is translucent plastic sheets, the color graduated to show depth. Houses are made of stiff paper; hotels and office buildings, of transparent colored acetate, cardboard, and corrugated plexiglass. A lacy plastic earring (left center) is a marina restaurant, in the middle of a round pond. Wire screen represents masses of banyan trees and map tacks are palms.

Goldberg '46, Photo Science

in the entire Territory. The Authority, financed by revenue bonds, would acquire title to land, clear or improve it, and lease it to private enterprise for developing. A legal maximum on the Territory of Hawaii's debt limit would prohibit its handling the project, the students learned, and no Federal aid is available for such programs. No single private group could afford so large an enterprise.

Academic Delegate

THE UNIVERSITY will be represented at the inauguration of Lawrence L. Pelletier as president of Allegheny College, Meadville, Pa., May 11, by P. Richard Thomas '42 of Meadville.

Fraternity Pledges

FIFTY-THREE fraternity chapters at the University pledged about 867 Freshmen and other students after two weeks of formal rushing, which opened February 12 and closed February 25; and about 110 more in the next week. Second-term rushing was initiated this year. After three weeks of organized rushing in the fall of 1954, about 800 men were pledged. Rushing and pledging this year was organized by the Interfraternity Council under chairmanship of Lawrence J. Scott '56 of Easton, Pa.

Pledges through March 3 are listed below. They are Freshmen unless designated otherwise by Class numerals.

ACACIA: John M. Bacon, Hamburg; Richard T. Berudt, Seekonk, Mass.; Stephen D. Browne, Avon; Leonard H. Copeland, Elizabeth, N.J.; Jeromy T. Czerniejewski, Hamburg; Charles H. Field, Galway; Donald S. MacVean, Valley Stream; Richard G. Talboys, Maywood, N.J.; Ronald F. Tesarik, Toledo, Ohio.

ALPHA CHI RHO: Edward G. Ayres, Cleveland, Ohio; Robert M. Bird, New York City; Thomas N. Cooper, Pittsford; Donald S. Creal, Jr., Canajoharie; Ted C. Eves, Melrose Park, Ill.; Noel J. Fenton, Mamaroneck; Philip M. Glassey, Cazenovia; Jeffery L. Kittredge, Port Washington; Don A. Leon, Poughkeepsie; Frederick H. Meyer, Jr., Lynbrook; H. Raymond Morey, Ithaca; Edward H. Ungleich, Liverpool.

ALPHA CHI SIGMA: Stuart D. Alexander, Brooklyn; Rolf F. Barth, Jackson Heights; Dante L. Catullo, Yonkers; Michael E. Green, Brooklyn; Bernard C. Gross, Brooklyn; James D. Guthrie, Raynham Center, Mass.; Samuel E. Henes, Wellington, Ohio; Richard A. Patch, Morrisville, Vt.; Robert A. Prener, Valley Stream; Stephen L. Rosen, Yonkers; Philip C. Rotoli, Rochester; Jonathan Royer, Bethesda, Md.; Herbert B. Scher, Yonkers; Thomas L. Singman, Baltimore, Md.; Douglas A. Stevenson, Wilmington, Del.; Thomas H. Wirth, Syracuse.

ALPHA DELTA PHI: Calvin Carr, Worcester, Mass.; Bruce W. Dean, Babylon; Robert I. Dodge III, Chappaqua; Richard H. Dyer, Jr., Chatham, N.J.; Thomas G. Erickson, Winnetka, Ill.; Daniel W. President in Los Angeles

EDITOR: When you are as long gone from the Campus as I (twenty years), the visit of the President of Cornell to the neighboring metropolis is a real event. We scurried around by telephone and found 100 willing diners for the Biltmore dinner in Los Angeles, March 27. We could hardly believe it until we saw him greeting alumni before the dinner, and he did just that: greeted each guest.

The dinner was excellent, but the after-dinner speech was what we had come for. President Malott put us all at ease by declaring that Cornell's business is to make alumni. Next, he took us on a personally-conducted tour of the Campus, pointing out the new buildings and winding up with the projected Library addition where Boardman stands now. With his answers to alumni questions, he left no doubt in our minds that here was one who knows Cornell. He even touched on spring football practice and said that it will stay abolished.

The meeting started with the "Alma Mater" and ended with the "Evening Song." President Malott's address left no doubt in our minds that he is a loyal adopted Cornellian who has Cornell uppermost in his mind, wishing for it the greatest good, unswerving in his loyalty, and running it with a firm hand on the wheel as long as he is able.

—FREDERICK R. HIRSH, JR. '26

A Cornellian Makes Good

EDITOR: The evening of January 20, 1956, column eight of the Wilmington Journal Every Evening, began:

"Northern Delaware today started digging out of a seven-inch snowfall, heaviest of the winter so far. Slamming across the nation from Texas to New York State, the big storm paralyzed metropolitan traffic, closed schools, grounded planes, etc. etc."

But it didn't keep the members of the Cornell Women's Club of Delaware from assembling at the University Club, with their husbands and friends, for their annual Founders Day dinner. We've gone up the Hill to take our finals the last week of January when the icy wind blew up from Cayuga, and it took twenty minutes of our precious two

Alumni Meet at West Coast Plant—North American Aviation Co. employees Jan Rus '50 (second from left) and Donald S. Grant '49 (right) greet Marshall Lapp '54 (left) and Meredith C. Gourdine '52 (second from right), graduate students at California Institute of Technology, when they toured the company's plant in Downey, Cal. Gourdine, US broad jumper in the 1952 Olympic Games, is a consultant in guidance analysis to North American Aviation. The Cornellians met at the console of a flight simulator for airplanes and missiles.

hours and a half just to thaw out our fingers, when if the thermometer climbed up *above* zero, everyone thought spring had come. We should stay home for seven inches of snow!

Dr. Jerome H. Holland '39, our speaker for this occasion, with his very charming wife arrived on schedule from Dover, Del. Known to all Cornellians as "Brud" Holland, this former All-American end at Cornell is now president of Delaware State College. In speaking of Delaware State College, Dr. Holland told how he was endeavoring to attain a cosmopolitan faculty, and said also, "I have opened the doors to *all* students." I listened, puzzling over the sense of familiarity the words brought, the feeling of having heard this before.

We have been told countless times that much of Cornell's early success could be traced to the ingenuity of Andrew D. White in assembling from all points of the globe one of the most amazing faculties of all time. And any one of us could recite in his sleep how Ezra Cornell stood on his pasture land, looking across the valley and down to blue Cayuga, and said, "I would found an institution where any person can find instruction in any study."

And then I realized that here was a Cornell graduate who was worthy of the name. Here was the Cornell idea. Here were combined the ideals of both of our

great leaders, our Founder and of our first President, in this fellow-Cornellian who has become a prominent Delawarean, also. And one couldn't help being a little proud!

—ELSIE MILLER BETTY '34

More Students Apply

ADMISSIONS OFFICE, April 7, had received 9553 applications from prospective new students for next fall. This compares with 8839 applications at the same time a year ago and 7839 in 1954. It is estimated that there will be places for about 3025 new students: approximately 1600 Freshman men, about 550 Freshman women, and about 875 who come with advanced standing.

By May 1, the College admissions committees, except Home Economics, will have finished selecting candidates and notified applicants of their selection or rejection. It is expected that all candidates for Home Economics should have word by mid-May. Accepted students must notify the University not later than May 26 that they will come, to be sure of a place next fall. This date was set by agreement of more than 100 colleges and universities, to allow candidates accepted by more than one time to make their choices. Decisions may be made before May 26, of course.

On the Sporting Side - By "Sideliner"

Win Baseball Openers

BASEBALL TEAM started its season with victories over Sampson Air Force Base and Union College on Hoy Field, Friday and Saturday, April 13 and 14. Pitcher William DeGraaf '56 of Clifton, N.J. was given credit for both, although he pitched to only one Union batter. The count over Sampson was an easy 12-2, but it took a rally in the tenth inning to catch up and pass Union for a 4-3 triumph.

The weather was cold and unbaseball-like Friday for the Sampson game, but nicely conducive Saturday for the Union game.

Coach Royner Greene had to play these two games without regulars Richard A. Shigekane '57 of Hilo, Hawaii, first baseman, ill with the measles, and Jay M. Reynolds '58 of Lake George, shortstop, who was incapacitated by being hit in the face with a ball during practice, April 11. Their substitutes, James W. Suiter '57 of Sunbury, Pa. at first base and Robert J. Flynn '58 of Ithaca at shortstop, performed in auspicious style. In fact, Suiter was leading the team in hitting, with three hits in five chances and no errors. Flynn is likewise doing well, with three hits in eight tries and no errors in the field.

Win in Tenth

Another neighborhood youngster was the hero against Union. John V. Marchell '57 of Myers Point on Cayuga Lake was put in the game in the tenth when there were two outs and Billy DeGraaf was taken off third base to replace pitcher Jeffrey L. Wiese '58 of Yorktown Heights who was having trouble. Captain John R. Anderluh '56 of Niagara Falls took over third and Marchell was sent to right field. In the last half of the tenth, Cornell came to bat with Union leading, 3-2. DeGraaf was thrown out on an attempted bunt, Catcher John G. Simek '56 of Binghamton walked, and Captain Anderluh hit a screaming single to left field. Simek must have anticipated it, for he was off and moving and went clear to third, although he is not a notably speedy runner. The throw to third, attempting to catch Simek, prompted Anderluh to go to second. Leftfielder David E. Mott '56 of Upper Montclair, N.J. capitalized intelligently on this situation by belting a hard one which the pitcher knocked down but could not stop, and it went for an infield single. Simek came home on it to tie the score at 3-all. Marchell then came through in splendid style by

making a scratch hit to center, too deep for the second baseman and too far in for the center fielder. Anderluh came from second to home for the necessary margin, a frantic overthrow to third base by the Union second baseman providing the opportunity.

John H. Perkins '56 of Niagara Falls, twenty-four-year-old transfer student, pitched effectively for nine innings, but was taken out for a pinch hitter. He pitched a five-hit, 2-run game and fanned six. From the third to the seventh, he retired thirteen batters in a row. It was relief hurler Jeff Wiese who gave up the run in the tenth on two hits and a walk to put the visitors in the lead after five scoreless innings. DeGraaf went in and retired the side.

Teams Do Well

It was an absorbing game played by what appeared to be a couple of pretty fair college teams on a beautiful and only somewhat crisp spring afternoon. The box score:

CORNELL (4)

	AB	R	H	PO	A	E
Flynn, ss	4	0	1	1	4	0
Meade, cf	5	0	0	2	0	0

Thompson, p	0	1	0	0	2	0
Totals	35	3	7	*28	9	4

*-One out when winning run scored.

a-Walked for Perkins in 9th.

b-Fanned for Grinnell in 7th.

Cornell	010	100	000	2-4
Union	011	000	000	1-3

RBI—LaVigna, Janulionis 2, Perkins, Mott. 2B—Drescher, Suiter. SB—Flynn, Shigekane. SH—Yates, Flynn, Perkins, Mott. DP—LaVigna, Drescher, Yates. LOB—Union 8, Cornell 12. HO—Grinnell, 4 and 2 runs in 6 innings. Thompson, 4 and 2 runs in 3½; Perkins, 5 and 2 runs in 9 innings. Wiese, 2 and 1 run in ¾, DeGraaf, 0 and 0 runs in ½. SO—by Grinnell 2, Thompson 1, Perkins 6. BB—Grinnell 5, Thompson 2, Perkins 4, Wiese 1.

Winner—DeGraaf. Loser—Thompson. WP—Grinnell 2. U—Wegerski and Gee. T—2:45.

Sampson was played under bleak conditions. There were snow flurries early in the day and it was wintry cold all through the contest. Sampson made six errors, Cornell two, but the players seemed to bear up better than the spectators. At the start of the game, there were approximately 600 people in the Hoy Field stands. At the conclusion, it was nearer sixty. Bill DeGraaf went the whole route and allowed but two hits and struck out eleven. He gave up five walks. The Red nicked the Sampson hurlers, Mason and Kurillo, for five hits and were given eight bases on balls.

Lacrosse Team Wins

LACROSSE TEAM defeated Union, 14-7, on Upper Alumni, April 14. It was the first win of the season. The opening regular game was dropped to Rutgers, 16-7.

Attack star Daniel K. Jemison '56 of Versailles, playing his own Indian game just a little bit better than the others, scored 5 goals. Four of them came in an exciting second-half rally which overcame Union's half-time lead of 6-5 and finally submerged the visitors. Midfielder Robert W. Black '57 of Baltimore, Md. was runner-up in scoring with 3 goals. Ronald C. Farnsworth '57 of Concord, Mass. and Bruce A. Clark '57 of Garden City both played well at goal tending with seven and five saves, respectively. The summary:

CORNELL (14)	UNION (7)
G—Farnsworth	Stack
D—Purdy	Armstrong
D—Merkle	McDonough
D—Brogan	Holbrook
M—Golos	Kim
M—Shirley	Mactucci
M—Black	Davis
A—Grumman	Causey
A—Jemison	Brettschneider
A—Murphy	Thurber
Cornell	1 4 5 4-14
Union	2 4 1 0-7

Cornell goals—Jemison 5, Golos, Murphy, Black 3, Shirley, Hess, Hoffman 2.

Union goals—Causey 2, Waite, Mactucci, Kim 2, Thurber.

Cornell substitutes—Chater, Engle, Gorgas, Frisch, Seiler, Hinchliff, Jarvie, George, Polk, Clark, Hoffman, Hess.

Union substitutes—Ince, Waite, Rosenkrantz, Hart, Glass, Weeks, Klein, Toschi, Kansas.

Two Win Honors

ALBERT W. HALL '56, captain of track team and holder of the intercollegiate record for the thirty-five-pound weight throw, was selected by The Cornell Daily Sun as "Athlete of the Year" for 1956. The six-foot-one-inch, 205-pound Senior in Agriculture from Hanson, Mass., set new thirty-pound weight records four times during the 1956 season, the best being his 63 feet 3¼ inches made in the

Heptagonal Games at Bacon Cage, March 3. He is also one of the best men in the country with the sixteen-pound hammer, the equivalent outdoor event. His best throw is 186 feet 2½ inches. Hall is a member of Alpha Gamma Rho.

Georges L. Cointe, dean of Cornell coaches with twenty-two years of service, has been appointed to the Olympic athletic training staff for rowing for the games in Melbourne, Australia, next November. He has been fencing coach at Cornell since 1934 and has served voluntarily as trainer of the crews the last twelve years.

He is a native of Paris, France; received the Bachelor of Arts as a physical education major at Military School of Joinville, Le Point, France, and later was fencing master at the Artillery School in Fontainebleau. He came to this country after World War I and coached championship fencing teams at Evander Childs and Flushing high schools before coming to Cornell in 1934. His record with his Cornell fencing teams has been outstanding. His 1955 team won the Eastern three-weapon championship and his foil trio won the Eastern title again this year. A member of the 1955 team, Richard W. Pew '55, is now leading the epee competition for the 1956 US Olympic team.

Coach Cointe has contributed his time to rowing for the last twelve years due to an interest born of lending a helping hand to his friend, R. Harrison Sanford, at a time of need and fostered since by a great enthusiasm for the sport of rowing and the boys connected with it. "I am delighted and honored with this Olympic assignment, but it will reach true eloquence only if our Varsity eight is the US representative at Melbourne," Coach Cointe remarked after he had learned of his choice by seeing it in a newspaper, April 16.

"C" Awards

VARSITY C's have been awarded by the Department of Physical Education & Athletics to these members of winter sports teams:

BASKETBALL

Donald H. Hughes '56, Max H. Mattes '56, E. Richard Meade '56, Charles G. Rolles '56, Raymond D. Zelek '56, Milton L. Kogan '57, Philip A. Monroe '57, Phillip W. Marriott '58, Lawrence D. Pearson '58, Irvin Roberson '58, Charles D. Robinson '58.

WRESTLING

William W. Jemison, Jr. '56, Robert A. Lynch '56, Charles P. Gratto '57, Phillip C. Griffen '57, Raymond S. Smethurst, Jr. '57, Glenn H. Wise '57, Blair H. Campbell '58, Carmon J. Molino '58, Richard F. Vincent '58.

SWIMMING

Lewis Klotz '56, Robert E. Manelski '56, Louis A. Abel '57, Ross T. Bell, Jr. '57,

Lawrence B. Caldwell '57, Charles R. Corner '57, Stephen P. deGot '57, Jon Harris '57, Douglas A. Love '57, Peter H. Wolf '57, Donald E. Wudtke '57, James W. Foster '58, Edward P. Hammond III '58, Everett D. McCooley, Jr. '58, George D. Mathias '58.

FENCING

Dennis C. Caverly '56, Joseph S. Crisanti '56, Donald F. Cyphers '56, Carl Fabian '56, Jack W. Lowe '56, William W. Post, Jr. '56, Ralph O. Gabler '57, Frederick F. Knowlton '57, Thomas F. Paterson '57, Barry J. Tepper '57, Richard B. Cole '58, William T. Cotton '58, Frank R. Wiley '58.

RIFLE

John R. James '56, Frank E. Jeffery '56, Michael D. Nadler '56, Thomas L. Poulson '56, James V. Hardman '57, Herschel H. Loomis, Jr. '57, John C. Strickler, Jr. '57, Walter R. Wills '57, Paul Haas, Jr. '58, Walter W. Whitman '58.

SKIING

William P. Dake '56, Richard P. Ferrick '56, Stuart L. Jacobson '56, Stuart G. MacDonald '56, David M. Stainton '56, William L. Lockwood, Jr. '57, Julian M. Strauss '58, Wilfried T. Weber '58.

Women's Sports Honors

WOMEN'S ATHLETIC ASSOCIATION has elected as president for next year Patricia J. Roth '57 of Jenkintown, Pa. Katherine L. Hogue '58 of Baltimore, Md. is vice-president; Virginia Chase '57 of Pelham, secretary; Carol J. Vincent '57 of Bellevue Manor, Del., treasurer; and Norma J. McClellan '57 of Louisville, Ky. is general sports manager. Miss Roth is in Arts; the others are in Home Economics.

At the annual banquet, April 18, WAA awarded its red-enamelled gold C pendant for sports achievement and service to Seniors Betty A. Oshman of Mt. Vernon, Diana W. Scudder of Manhasset, and Margaret G. Shipman of Alliance, Ohio; and to the Juniors who are officers and Eileen P. Leader '57 of Albany and Carole C. Mesmer '57 of Fayetteville. C awards were also given to Ann O. Coakley and Marian K. Solleder, instructors in Women's Physical Education.

Sorority Pledges

THE FOURTEEN SORORITIES at the University pledged 275 women at the end of two weeks of formal rushing which began February 8. Unless otherwise designated, the following pledges are Freshmen.

ALPHA EPSILON PHI: Marcia S. Beilin '57, Reading, Pa.; Barbara B. Benioff, Allentown, Pa.; Carolyn S. Blostein, Horseheads; Susan F. Cohen, Buffalo; Amy P. Cole '58, New York City; Katherine Davis '58, New York City; Cecily Goldman, Detroit, Mich.; Judith A. Goldman, Mt. Vernon; Ellen Hotchkiss, Brooklyn; Arlene Jacobowitz, New York City; Janet E. Katz, Albany; Risa A. Krouner, Albany; Barbara Lebhar, New Rochelle; Tamara G. Livingston, New York City; Iris B. Marcus '58, Bronx; Judith Nochimson, Pompton Lake, N.J.; Jane Oliphant, Great

Neck; Susan Plavin '58, Brooklyn; Arlene C. Rosenwasser '58, West Orange, N.J.; Rachel E. Rudin, New York City; Carole Sahn, New York City; Evelyn B. Schulman, Rochester; Nora L. Smokler, Detroit, Mich.; Carol S. Spitz, New Rochelle; Barbara R. Symansky, Albany; Ilene H. Tamarkin, York, Pa.; Susan J. Tonkonogy, New York City; Toni L. Vogel, Philadelphia, Pa.

ALPHA OMICRON PI: Margaret E. Easter, Buffalo; Jacqueline A. Grant, Liberty; Elizabeth E. Iliff, Hillsdale, N.J.; Ruth M. McKendry, Pleasantville; Marilyn A. Musho, Yonkers.

ALPHA PHI: Mary J. Blankenstein, Pittsburgh, Pa.; Carolyn L. Cary, Whitestone; Ruth J. Daniel, Omaha, Neb.; Marian de Chazeau, Ithaca; Valerie L. Gilardi, Margate City, N.J.; Norma I. Hansburg '57, Brooklyn; Carol J. Hardy, Rochester; Linda M. McHugh, Aneram; Susan E. Saul, Media, Pa.; Ann B. Schmeltz, Oakmont, Pa.; Eleanor M. Seelert, Manchester, Conn.; Diane H. Smith, East Moriches; Nancy L. Stone '58, Schenectady; Patrick L. Tetzlaff, Pittsburgh, Pa.; Mary D. Thornton '58, Wellesley Hills; Barbara L. Urban '58, Great Neck; Patty L. Williams '58, Vestal.

ALPHA XI DELTA: Mary M. Avery '58, Mahwah, N.J.; Gertrude E. Baker, Freeville; Lois M. Bates '58, Pittsfield, Mass.; Betty V. Du Mond, Walton; Gail J. Gutekunst, Golden; Helga M. Kuehnell, Buffalo; Joan E. Mowll, Bear, Del.; Beverly A. Steele, Geneva; Rose M. Urfer, Butler, N.J.; Nancy A. Vogel, Rhinebeck; Helen G. Watrous, Warsaw.

CHI OMEGA: Phyllis M. Corwin, Clifton Springs; Norma C. Dean, Salisbury, Mass.; Geraldine A. Hoaglin, South Lansing; Dorothy C. Jungclaus, Flushing; Patricia A. Lynchalk '58, Ithaca; Margaret M. MacLachlin '58, Sidney; Betty J. Mollgaard '58, Milwaukee, Wis.; Mary N. Nagle, Cressona, Pa.; Sara H. Peters, New York City; Rosalie G. Phelps '58, Princeton, N.J.; Jane E. Pond, South Bethlehem; Carol A. Rafferty, Packanack, N.J.; Marilynn C. Rives '57, Fayetteville; Jean A. Schaninger, Schenectady; Nelle M. Spahn, Hillsdale; Linda L. Walter, Larchmont; Dorothy H. Willman, Ithaca.

DELTA DELTA DELTA: Mary C. Bardwick '58, Homewood, Ill.; Margaret M. Benoit, Albany; Carolyn J. Burtless, Seneca Falls; Catherine C. Clark, New Hartford; Barbara E. Crouse, Utica; Diane E. Davis, Wayland; Jayne M. Diehl, Mechanicsburg, Pa.; Mary A. Drake, Portsmouth, Ohio; Norma J. Edsall '58, Delmar; Mabel F. Fisher, Mt. Kisco; Linda L. Johnson, Havertown, Pa.; Nan L. Jones, Augusta, Me.; Nancy H. Knight, Seneca Falls; Susan A. Kunkle, York, Pa.; Pamela A. Laurensen, Falls Church, Va.; Eleanor L. McKenna, Buffalo; Josephine M. Nealon, Scranton, Pa.; Barbara A. Parsons, Marcellus; Mary E. Ross, Lewisburg, Pa.; Helen M. Schneider, Wilmington, Del.; Natalie Shulman, Floral; Louise F. Stilwell, Merrick; Sallie Whitesell, Broomall, Pa.

DELTA GAMMA: Ann Acklin, Lancaster, Pa.; Ruth A. Anderson, Chicago, Ill.; Dorothy L. Anderson, Lake Forest, Ill.; Blanche J. Casey '58, Utica; Sonya L. Chambers '58, Ashland, Ohio; Diana A. Drake, Poughkeepsie; Sally C. Eaton, Needham, Mass.; Peggy A. Flynn, White Plains; Judith M. Gaffert, Winnetka, Ill.; Doris K. Goudsmit '57, Youngstown, Ohio; Francis Goudsmit, Youngstown, Ohio; Sally K. Johnston, Wauertown; Susan M. Kerr, Riverside, Conn.; Patricia Mayglothing, Brooklyn; Wilma J. McKibben, Erie, Pa.; Sylvia V. Pancotti, Scarsdale; Elizabeth S. Parsons, La Jolla, Cal.; Linda Pauff, Hartsdale, Diana M. Paul, Evanston, Ill.; Dale Rogers, Montgomery, Md.; Gail E. Stanton, Montclair, N.J.; Sharon L. Walther, Port Washington; Linda A. Wellman '57, Auburn; Sally A. Wheaton '55, South Corning.

Calendar of Coming Events

Thursday, May 3

Ithaca: Golf, St. Lawrence, University Course 3

Goldwin Smith Lecture by Leo Silberman of Oxford University, "Business Enterprise in an Underdeveloped Country: Uganda," Anabel Taylor Hall, 4

Friday, May 4

Ithaca: Hotel Ezra Cornell opens, Statler Hall

Engineers' Day, all Engineering buildings, 2-5 & 7-11

Freshman tennis, Ithaca College, Cascadilla Courts, 4:15

Freshman track meet, Pennsylvania State University, Schoellkopf Field, 4:30

Women's Athletic Association presents Water Ballet, Teagle Hall, 8:15

Saturday, May 5

Ithaca: Cornell Day

Society of Hotelmen annual meeting, Statler Hall, 9

Luncheon for Cornell Day "chauffeurs," Willard Straight Hall, 12:30

Track meet, Pennsylvania & Harvard, Schoellkopf Field, 2

Baseball, Brown, Hoy Field, 2:30

Golf, Harvard, University Course, 2

Lacrosse, Dartmouth, Upper Alumni, 2

Freshman Lacrosse, Hobart, Upper Alumni Field, 2

Tennis, Navy, Cascadilla Courts, 2

Hotel Ezra Cornell banquet, Statler Hall, 7

Women's Athletic Association presents Water Ballet, Teagle Hall, 8:15

Hotel Ezra Cornell ball, Statler Hall, 10:30

Glee Club & Savage Club present "Songs & Savages," Bailey Hall, 8:30

Party for Cornell Day "chauffeurs," Moakley House, 10:30

New Haven, Conn.: Carnegie Cup Regatta, Yale & Princeton

New York City: 150-pound rowing, Columbia, Harlem River

Sunday, May 6

Ithaca: Sage Chapel preacher, The Rev. Robert H. Bonthius, chaplain, Vassar College, Poughkeepsie, 11

Concert, University Orchestra, Bailey Hall, 4:15

Providence, R.I.: Cayuga Waiters at intercollegiate sing at Pembroke College, Alumnae Hall, 2

Monday, May 7

Ithaca: John L. Senior Lecture, Professor Foster R. Dulles, Ohio State University, "The American Image of Europe," Olin Hall, 8:15

Tuesday, May 8

Ithaca: I&LR two-day conference on "Current Problems in Labor Relations & Arbitration" begins

Freshman tennis, Ithaca College, Cascadilla Courts, 4:15

Wednesday, May 9

Ithaca: Golf, Syracuse, University Course, 3

Freshman golf, Ithaca College, University Course, 3

Lacrosse, Hobart, Upper Alumni Field, 4:15

Tennis, Syracuse, Cascadilla Courts, 4:15

Freshman baseball, Syracuse, Hoy Field, 4:30

Freshman lacrosse, Syracuse, Upper Alumni Field, 4:30

Annapolis, Md.: Baseball, Navy

New York City: '39 Men's dinner, Cornell Club

Thursday, May 10

Ithaca: Schiff Lecture, Professor Viktor Lowenfeld, Pennsylvania State University, "The Significance of Art for Education," Olin Hall, 8:15

Laboratory Players present Moliere's "The Imaginary Invalid," Willard Straight Theater, 8:30

Friday, May 11

Ithaca: Freshman baseball, Pennsylvania State University, Hoy Field, 4:30

Law alumni Reunion reception and dinner, Statler Hall, 6

Octagon Club presents "Finian's Rainbow," Bailey Hall, 8:30

Laboratory Players present "The Imaginary Invalid," Willard Straight Theater, 8:30

Hamilton: Freshman track, Colgate

Clinton: Freshman tennis, Hamilton

University Park, Pa.: Freshman lacrosse, Pennsylvania State University

Saturday, May 12

Ithaca: Spring Day crew races, Beebe Lake, 9:30

Spring Day parade, after races

Golf Intercollegiates, University Course

Law association annual meeting, Myron Taylor Hall, Moot Court Room, 10:30

Tennis, Princeton, Cascadilla Courts, 2

Baseball, Army, Hoy Field, 2:30

Jazz concert, Library Slope, afternoon

Octagon Club presents "Finian's Rainbow," Bailey Hall, 8:30

Laboratory Players present "The Imaginary Invalid," Willard Straight Theater, 8:30

Spring Day dance, Barton Hall, 10-2

Washington, D.C.: EARC Sprint regatta, Potomac River

West Point: Heptagonal track meet

Princeton, N.J.: EARC 150-pound regatta, Lake Carnegie

Lacrosse, Princeton

Sunday, May 13

Ithaca: Sage Chapel preacher, Dr. Ephraim Fischhoff, director, Hillel Foundation, Yale, 11

Golf Intercollegiates, University Course

Concert, Professor John Hsu, Music, 'celist, Barnes Hall, 4:15

Laboratory Players present "The Imaginary Invalid," Willard Straight Theater, 8:30

Monday, May 14

Ithaca: I&LR two-day Industrial Mental Health Conference begins

Golf Intercollegiates, University Course

University Lecture, Visiting Professor John Ise of Goucher, "No Time to Live: a Nonconformist Reflects on the Life of Our Time," Olin Hall, 8:15

Tuesday, May 15

Ithaca: Freshman baseball, Ithaca College, Hoy Field, 4:15

Syracuse: Baseball, Syracuse

Wednesday, May 16

Ithaca: Lacrosse, Syracuse, Upper Alumni Field, 4:15

Freshman tennis, Colgate, Cascadilla Courts, 4:30

Class of '86 Memorial Prize public speaking contest, Willard Straight, 8

Concert, University Orchestra, Barnes Hall auditorium, 8:15

Geneva: Freshman lacrosse, Hobart

Thursday, May 17

Rochester: Joyce R. Frankel '52, "Six Weeks in Europe by Camera," at Cornell Women's Club meeting, home of Mrs. Mary Kelly Northrup '38, 40 North Country Club Drive, 8

Friday, May 18

Ithaca: Freshman golf, Ithaca College, University Course, 3

New York City: Baseball, Columbia

Manlius: Freshman baseball, Manlius

Saturday, May 19

Ithaca: Freshman tennis, Hamilton, Cascadilla Courts, 2

Princeton, N.J.: Baseball, Princeton

Track meet, Princeton

Syracuse: Rowing, Syracuse

Hanover, N.H.: Tennis, Dartmouth

Philadelphia, Pa.: Lacrosse, Pennsylvania

LeRoy: Concert by A Capella Chorus, Memorial Auditorium, 8:30

Sunday, May 20

Ithaca: Sage Chapel preacher, President Franklin C. Fry of The United Lutheran Church in America, 11

Concert, University Concert Band, Library Slope, 2:30

Monday, May 21

Ithaca: Freshman baseball, Manlius, Hoy Field, 4:30

New York City: Class of '98 luncheon, Cornell Club, 12

West Point: Tennis, Army

Correction for Voters

BALLOTS for the election of Alumni Trustees must be received by the University Treasurer not later than noon Monday, June 4, rather than July 4 as stated in our last issue. The incorrect date was, of course, a printer's error. As noted, election result will be announced at the annual meeting of the Alumni Association, June 9.

Ode to The Sun

SPEAKING at the annual banquet of The Cornell Daily Sun, Professor Morris Bishop '14, Romance Languages, ended his address with this verse, written for the occasion and delivered with appropriate gestures:

I think that almost everyone
Admires The Cornell Daily Sun.
While other papers rise and fall,
The Sun does not descend at all.
Where is today The New York World?
Its pages are forever furled.
The New York Sun does not exist;
It's deadlier than The Federalist.
And who, of all the men who scan script,
Recall The Boston Evening Transcript?
And yet The Cornell Daily Sun
Will never bow to anyone.
It scorns the censure of the city
And every Faculty committee;
It does not heed the discontent
Evidenced by the President.
"Sic semper," says The Sun, "tyrannis!"
So floreat Sol Cornelianus!

An Undergraduate Observes

By David L. Hye '57

Campus Elections

3702 STUDENTS found their way to seven Campus polling places, April 12, to elect ten representatives to the Student Council and members of Class Councils. About 62 per cent of eligible undergraduates voted.

James C. Drennan '57 of Pittsfield, Mass., Barbara A. Redden '57 of Elizabeth, N.J., Philip D. Gellert '58 of Hillsdale, Sally A. McFarland '58 of Rocky River, Ohio, Dexter S. Kimball '59 of Elyria, Ohio, and Dale Rogers '59 of Montgomery, Md., were elected presidents of their respective Class Councils.

Frank R. Clark '57 of Westfield, N.J. was unanimously elected president by the Student Council for 1956-57. In the earlier Campus elections, Richard J. Metzgar '58 of Groton, chosen to be second vice-president of the new Council, received the most votes, breaking his 1955 record of 586 with 637 votes this year.

Leighton Q. Lamberg-Karlovsky '57 of Oxford, Conn. has been elected president of the Arts College Council for next year, Mark A. Chesler '57 of Laurelton will head the Industrial & Labor Relations School Council, and Edwin L. Boardman '57 of Bernardsville, N.J. is president of Ag-Domecon Council, representing students in Agriculture and Home Economics.

Cover picture of the ALUMNI NEWS last October 1, showing a boy and girl on the Library slope, taken by Eli R. Shuter '56, was judged as the one "best depicting college life" in the annual picture competition sponsored by Kappa Alpha Mu, the National Press Photographers Association, Encyclopedia Britannica, and Association of College Unions. Shuter, Ross L. Wagner '56, and Byron Golden '58 were among 138 photographers from forty-three colleges and universities who submitted their work. All three Cornellians had pictures chosen for exhibit from among 803 entries.

Donald T. Farley, Jr. '55 of Bronxville has won the Hannibal C. Ford Fellowship of \$4000 for advanced study in Engineering next year. The Fellowship was given to the College of Engineering in 1953 by Ford Instrument Co. to mark the fiftieth anniversary of the graduation of its founder, Hannibal C. Ford '03. Competed for nationally, it is to encourage promising young engineers to do original scientific work. A fifth-year stu-

dent in Engineering Physics, Farley stands first in his Class. In 1954, he was co-captain of the Varsity cross country team and won the two-mile championship in the indoor Heptagonal Games; this year, has been helping to coach distance runners. He was president of Delta Chi and is a member of Tau Beta Pi, Sphinx Head, and Phi Kappa Phi.

Cornell bridge teams finished first and second in the North Atlantic District (New York & New Jersey) in the annual intercollegiate bridge tournament. Fourteen colleges and universities were represented in the North Atlantic District.

Commemorating Woodrow Wilson, born 100 years ago, an exhibit in the University Library traced the former President's academic and political career. The display included Wilson's books and magazine articles, reproductions of important documents, photographs, and a handwritten Wilson letter from the University's Noyes Collection of Americana.

Kathryn M. Helm '58 of Shaker Heights, Ohio, was chosen IFC Sweetheart from among seven finalists at the Interfraternity Council dance in Barton Hall, April 14. Barton was decorated on a circus theme for the annual dance.

STUDENTS on the Campus in shirtsleeves, tulips sprouting on the sunny side of the women's dorms, and uniformed Girl Scouts selling cookies in fraternity houses called attention to the fact that the weather had finally caught up with the calendar. The group pictured above was photographed on the terrace of Willard Straight Hall two weeks ago, on a day when clear, warm weather gave promise that spring might finally be hovering in the offing.

Phi Kappa Psi captured first place in the men's division and Kappa Delta, first among the women's entries, in the seventh annual barbershop quartet contest sponsored by the men's activities committee of Willard Straight Hall. "The Notecrackers," a professional quartet from Rochester who have been finalists in international SPEBSQSA contests for several years, judged the competition. Upon inquiry, we find that SPEBSQSA stands for Society for Preservation & Encouragement of Barber Shop Quartet Singing in America.

Interfraternity Council president for next year is Robert B. Stanwood '57 of Deerfield, Ill. and Chi Phi. Robert M. Taylor '56 of Nyack and Pi Kappa Alpha was elected vice-president; Francis L. Jacquette '58 of Manhasset and Chi Psi, secretary; and James M. Edgar '58 of Chatham, N.J. and Alpha Delta Phi is treasurer. President this year has been Robert A. Gerhardt '56 of Philadelphia, Pa. and Beta Theta Pi.

Robert C. Boffa '57 of Staten Island was elected chairman and president of Willard Straight Hall for next year. Anthony B. Cashen '57 of Hudson is coordinator of committees, Edgar H. Vant '58 of Pittsburgh, Pa. is secretary, and Nancy J. Hecht '58 of Rochester is the fourth member of the board of managers' executive committee. The board of thirteen members and twenty newly-appointed co-chairmen of operating committees will take office at an all-Straight banquet, May 10.

International visitors to the university have recently included Bahder Djohan, president of the University of Indonesia, who was observing Cornell's Southeast Asia Program; Feyodor Orekhov, New York correspondent for the Russian newspaper, Pravda, who came to gather material for an article on American agricultural methods; and three Russian scientists from the Lebedev Physics Institute in Moscow, who visited the Laboratory of Nuclear Studies. They came from an international meeting at University of Rochester and were also to visit University of California.

Rodney S. Rougelot '55 of Lafayette, La. and Herschel H. Loomis, Jr. '56 of Wilmington, Del. have been designated by the Chief of Naval Personnel to receive the Society Gold Medal with Key Replica. The purpose of the Medal is to impress upon undergraduate engineering students the importance of engineering to national security. It is awarded annually by the Navy Department to thirty students from among those nominated as outstanding engineering students in the fifty-two colleges and universities that have Naval ROTC units.

THE FACULTY

Lawrence B. Perkins '30 and **Philip Will, Jr. '28**, partners in the Chicago, Ill. and White Plains architect-engineering firm, Perkins & Will, are visiting critics this term in the College of Architecture. Their problem for Seniors in Design is their firm's high school in Chappaqua, now being built. Their firm designed Phillips Hall of Electrical Engineering, and has been retained to make preliminary plans for a new high school in Ithaca.

New freshman English textbook, *The Province of Prose*, by Professor **William R. Keast**, English, and Robert E. Streeter of University of Chicago, has been published by Harper & Brothers, New York City. Among its models of style, the book includes essays by the late Professor **Carl Becker**, History; the late Professor **Henry A. Myers, PhD '33**, English; Professor **David B. Davis**, History; and E. B. White '21 of *The New Yorker*.

Professor **Gustave F. Heuser '15**, Poultry Husbandry, is chairman for the 1956 Nutrition Conference for Feed Manufacturers to be held November 8 & 9 in Buffalo, sponsored by the Departments of Animal and Poultry Husbandry and School of Nutrition in cooperation with American Feed Manufacturers' Association.

A twig from a pear tree in Peter Stuyvesant's New Amsterdam orchard has been added to the University's History of Agriculture collection by Dr. **Erl A. Bates**, adviser on Indian Extension, who got it from the New York Historical Society. "It was more than 300 years ago that the famous Dutch Governor of New Netherlands planted the first pear tree in this State in his 'bouwerie,' near the present junction of Third Avenue and Thirteenth Street in New York City," Dr. Bates said. "He bought the tree in a tub as a gift for his bride, Judith Bayard, whom he married soon after assuming the governorship on orders from his long-time employer, the Dutch West India Company." The pear tree was there until 1867, when, according to *The New York Times* of February 27, it succumbed to "a collision of vehicles," Dr. Bates finds.

Professor **George A. Everett '99**, Extension Teaching, Emeritus, writes from his home at 4 Lawrence Avenue, Potsdam, that he is "still making cherry canoe paddles for Abercrombie & Fitch. Just now waiting for the trout season to open; a little later, for the St. Lawrence River bass and 'lunge.'" He misses his students and other friends at Cornell.

In answer to the question, "Can the Navy rowing crew, champions in the 1952 Olympic Games, come back in 1956?" by *Sports Illustrated's* Jimmy Jemal in his "Hotbox" column for March 16, Rowing Coach **R. Harrison Sanford** was quoted: "If it's ever going to happen, this is the crew to do it—a fine crew of strong men. But I don't think they can come back. They

have been away too long. Several are married. All are used to a different life. I doubt that they can reach the peak necessary for college competition." Another negative answer was offered in the same column by Fred H. Guterman '42, who said: "The identical Navy crew of 1952 will not win the qualifying race for the 1956 Olympics, but if 'loaded' with other Naval Academy selectees from recent years, this crew could push brilliant, young and up-and-coming crews, particularly Cornell, to the peak necessary to whip the Russians." Guterman, former Varsity coxswain, often acts as a rowing referee.

R. Selden Brewer '40 (above), whose resignation as General Alumni Secretary was recently announced, will become a special representative in Ithaca for Massachusetts Mutual Life Insurance Co., July 1, when he leaves the University. His appointment was announced by Harry C. Copeland, Jr. '40, general agent in Syracuse. Charles H. Schaaff '27 is vice-president of the company, whose home office is in Springfield, Mass. In Ithaca, Brewer will work with Lauren E. Bly '38, district manager, and his associates, Carman B. Hill '49 and Walter M. Schlaepfer '51. Brewer became Alumni Field Secretary in 1948 and three years later was appointed General Alumni Secretary, succeeding **Emmet J. Murphy '22**. In that post, he has been ex-officio secretary-treasurer of the Alumni Association; has been secretary-treasurer of the Federation of Cornell Men's Clubs since 1946 and secretary of the Association of Class Secretaries since 1947. Until this year, he was secretary of the Class of '40.

Professor **Howard B. Adelman '20**, Zoology, is working in Europe on a study of Marcello Malpighi, seventeenth-century embryologist. Under sponsorship of the American Philosophical Society, he will spend most of his time at University of Bologna, where Malpighi taught before his death in 1694. He will also visit the Royal Society in London and a number of Italian libraries in search of original manuscripts. Professor Adelman, a member of the *Institute International d'Embryologie*, has collected more than 1800 volumes on em-

bryology, including some of the fifteenth century. He is the author of *The Embryological Treatises of Hieronymus Fabricius of Aquapendente*, published in 1942. His new book will include not only extensive biographical material, but a discussion of the place in history of Malpighi's treatises.

Professor **Carl W. Boothroyd, PhD '50**, Plant Pathology, is on sabbatic leave at University of Minnesota, where he is teaching a course on the ecology of plant pathogens and also doing research on diseases of cereal plants.

Exhibit of drawings by Professor **Allen Atwell '47**, Fine Arts, was held at the White Art Museum, February 1-29. It included drawings he made in 1953-54 while traveling throughout India on a Ford Foundation Fellowship to study contemporary Indian painting.

A daughter was born, March 24, to Professor **Howard E. Evans, PhD '49**, Entomology, and Mrs. Evans (Mary Dietrich) '43.

Professor **Victor Lange**, German Literature, took part in the CBS radio program "Invitation to Learning," April 8. He discussed Heinrich Heine's *Travel Sketches* with Walter Cohen, critic and lecturer, and Lyman Bryson, moderator.

Concert pianist **John Hunt**, who was visiting professor of Music here in 1952-53, married Varuni Pieris in Kensington, England, March 1. Now a member of the Royal Academy of Music in London, Hunt recently completed a recital tour through the Scandinavian countries.

Ray R. Kriner, PhD '52, resigned as professor of Entomology, March 31, to join Central Chemical Co., Hagerstown, Md.

Professor **Faith Fenton, Grad '22-'23**, Food & Nutrition, left Ithaca last month for a four-month stay at the University of Cairo, Egypt, where she will help plan a curriculum in home economics and teach courses in food and nutrition. She plans to return in September, after visiting Near East countries.

Second edition of *Mental Disorders in Later Life* contains a section on "Food for the Later Years" by Professor **Clive M. McCay**, Nutrition. The book is published by the Stanford University Press.

Second in Science PhD's

CORNELL ranked second among the twelve institutions which awarded more than half (5748) of all science Doctorates (11,407) from 1946-50, according to a recent publication, *Baccalaureate Origins of Science Doctorates Awarded in the United States, 1936-50*. From 1946-50, the University awarded the PhD to 599 persons majoring in the natural sciences. University of Wisconsin was first with 689 such degrees. The study is published by the National Research Council, 2121 Constitution Avenue, Washington, D.C.

News of the Alumni

Addresses which appear in these pages are in New York State unless otherwise designated. Class columns headed by Class numerals and the names and addresses of the correspondents who write them are principally those of Classes which have purchased group subscriptions to the News for all members. Personal items, newspaper clippings, or other notes about Cornellians of all Classes are welcomed for publication.

'01—**Arrey Doerffling** sends this multiple picture of himself which he says was taken about a year ago on Broadway by means of mirrors. "I still keep in touch with some of my Classmates in and near New York who seem to be long livers like myself," he writes, saying that he plans to be at the Fifty-five-year Reunion of his Class in June. He has attended Reunions regularly for several years; says he greatly enjoys reading every issue of the News. Doerffling lives at 1140 East 13th Street, Brooklyn.

'05 AB—**Franklin Edgerton** is professor emeritus of Sanskrit at Yale University. He lives at 1007 Sheridan, Laramie, Wyo.

'06 **E. T. Foote**
4100 North Lake Drive
Milwaukee 11, Wis.

While the column for the ALUMNI NEWS is being written by President **Al Mellowes'** assistants, all correspondence pertaining to Reunion should be addressed to the Headquarters Office, 2501 East Wood Place, Milwaukee 11, Wis.

Your Reunion committee of **Jack Wilson, Ed Foote, Al Mellowes**, and their wives spent a very pleasant week end in Evanston the latter part of February with **Edith and Curt Welch**. Naturally the principal topic of conversation was the Fiftieth Reunion, though the Class contribution this year to the Alumni Fund received considerable attention.

Dudley Montgomery, president of Madison Transportation Co., joined his Classmates in Milwaukee for the annual meeting of the Cornell Club, February 22. His daughter is a resident of Milwaukee. Dudley says because of the start of the vacation season he is afraid he will not be able to be at our Fiftieth. We still hope to get him there.

Not many of his Classmates realize that President **Al Mellowes** probably made the first electric household refrigerator in this country. Quoting from the Frigidaire Bul-

letin of June 3, 1955: "Forty years ago this spring in Fort Wayne, Ind., **Alfred Mellowes** built a refrigerator which was to revolutionize household refrigeration. Mellowes, an alumnus of Dayton's Steele High School, created an electric refrigerator which could be used successfully in the home. This refrigerator, the predecessor to the modern refrigerator, was unique for it was the first model to contain the entire cooling unit in the bottom of the cabinet. In 1916, Mellowes and a colleague moved to Detroit and set up the Guardian Refrigerator Co. These refrigerator pioneers created a great deal of interest among persons in the manufacturing field. One of these persons was **William Durant**, then president of General Motors. Durant saw many possibilities in the Guardian and purchased the company as a personal investment. Following Durant's purchase of the Guardian Company, its name was changed to Frigidaire. A short time later Durant sold his interests in the business to General Motors."

Clarence Howland writes from La Jolla, Cal. that he had hoped for years to make the Fiftieth Reunion, but serious illness will prevent his doing so. We hope he has a speedy recovery.

The Rev. **Frank B. Crandall**, recently appointed ritualist of Phi Gamma Delta, has been making official visits to chapters in Ohio and Indiana in the interest of ritualistic and ceremonial matters.

Jack Wilson, who has heretofore written the columns for the ALUMNI NEWS, has been too modest to tell you his life history. These notes being written by someone else, it can now be told. After finishing school, he accompanied the late Professor **Carl Thomas '95**, Marine Engineering, to Fore River Ship Building Co., where he spent four years in the designing and construction of steam turbines for ship propulsion. His work took him to Japan and similar work for the Japanese Navy. He returned from Japan through Siberia, Russia and Europe. In 1910, he joined Cutler-Hammer, Inc. in Milwaukee to develop and manufacture a gas meter conceived and patented by Professor Thomas. He remained with Cutler-Hammer until his retirement in '55. In 1910, he married **Helen Stone '06**, a daughter of the late Professor **John L. Stone '74**, Agriculture. They have three sons: **Jack, Jr. '35, Carleton P. '38, and Thomas B. '42.**

'08 ME, '13 AM, '14 PhD—Harvard Uni-

versity has announced the appointment of Professor **Edwin G. Boring** as the first Edgar Pierce Professor of Psychology. A member of the Harvard faculty since 1922, he has been director of the psychological laboratory there for twenty-five years. From 1913-18, he was an instructor in Psychology at Cornell. He and Mrs. Boring (**Lucy Day**), PhD '12, live at 21 Bowdoin Street, Cambridge 38, Mass.

'10 **Roy Taylor**
Old Fort Road
Bernardsville, N.J.

Word comes from **Fred Bentley** that he has seen 38 years of service with the YMCA, the last 18 years of which have been in White Plains, which he says is fast becoming a boom town. He claims to have the world's finest wife, two grown children, and six grandchildren. A letter addressed to YMCA in White Plains will reach him. **Frisky Kneeland** says he is fast becoming a grandstand quarterback. Your correspondent saw him last at the Cornell-Princeton game in Ithaca last fall. His judgment seemed good but we came out six points behind—probably he wasn't in top condition, that day.

Laurie Squire reports that he is enjoying retirement and that he visited **Sellew Roberts** at Kent, Ohio, this past summer and plans to see **Harold Hastings** in Detroit very soon. He further states that **Frank Knapp** is on his way back from Saudi Arabia via Europe, touring the same countries he and I covered on a bicycle in 1909. **Bill Ryan** advises that he is still at the same job he has had for the last 20 years: technical mgr. of Water Service Laboratories, which firm specializes in water treatment problems. Bill has no present plans for retirement and adds "which is all right with me."

Harry Menges is secretary-treasurer of Beighley Hardware & Tool Co. at South 6th & Bingham Sts., Pittsburgh, Pa. He has three sons, all Cornellians: **Robert Menges '37, Edward Menges '41, and William Menges '45.** Dr. **Maurice J. Dooling** has retired after forty years spent in the field of public health. His address is 1909 Bellevue Ave., Syracuse 4. (Doctor, you might have picked 1910 as your address!)

From **Sam Stocker** comes word that he is leaving Kirkwood, Mo. and migrating to Virginia, where he will be temporarily located on Rt. 2 at Troutville, while he builds a house near the junction of Routes 11 and 220 about ten miles north of Roanoke, Va. His permanent address will be Cloverdale. **Bill Humphrey** writes from his home in Blue Hill, Me.: "Not much to report except a slowing down due to age. Am still busy however, designing houses, etc. for the grand folks in this locality. Also have an outstanding antique shop in Blue Hill."

In reply to a card asking for a bit of news, **Boyd D. Gilbert** of Adams Center writes: "In 1911 I started with the Bureau of Soils, as a soil scientist. Was County Agricultural Agent for eight years, farmed

CLASS REUNIONS IN ITHACA, JUNE 8 & 9

'96, '01, '06, '11, '16, '21, '26, '31, '36, '41, '46, '51, '53

for twelve years, fourteen years as soil conservationist with Soil Conservation Service; in all, twenty-five years with the US Dept. of Agriculture. Retired in 1947, then for three years taught veterans in the On-Farm program. Am interested in Scouting, gardening, and writing. My wife died in 1947. Have no family of my own, but my nephew and four young children, two boys and two girls, live with me."

To quote a short note from **San Griffis**: "Dear Roy—Here's the big news. I am in Hobe Sound, Fla. in the sunshine. Sometimes sitting and thinking—mostly, just sitting." Good Luck, Stan. **Tom Farrington** is figuring on retiring sometime this year and hopes to join the Cornell grads in Florida at that time.

By Frank L. Aime '11

3804 Greystone Avenue, New York 63, N.Y.

Like a lot of other New Englanders, **Harold E. (Ducky) Drake**, ME (above), 292 Chestnut St., Gardner, Mass., has had a busy, full life but thinks modestly it "isn't much of interest." After Ithaca, he went into the family business as salesman at Gardner, making and installing domestic heating equipment, Royal Steam Heater Co. On his father's death, he became manager. In '16, he married Mildred Davis. The only degree he has accumulated since graduation is master plumber, as the business now is entirely heating & plumbing contracting. He's not retired but is taking things easy, with son Jay in the business. "I've not hit any jackpot, but still keep ahead of the sheriff. I've had a very happy and uneventful life." Other activities are trustee and director, several local banks; trustee, Greenwood Memorial Pool, Monadnock Trust (Boy Scout camp) and various offices in the First Congregational Church. Uneventful, Ducky? He says that now he doesn't part his hair any more, he's thinking of growing a beard like **Johnny Bacon's**. Son Jay, Yale, was with paratroop engineers in Holland and Germany, is now Captain Active Reserves. Daughter Martha, Simmons College and MA from Ohio U. Both are married; 2 grandsons. "Perhaps I can sell Cornell to them, I didn't seem to have much luck with my own kids."

After his 2-year tour of Europe and real experiences in USA, West Indies, and other picture-book places, **Pierce M. Wood** ME is spending quite a bit of time with the Harold Drakes at Gardner until he can find a farm "where the only noise he hears will be that which he makes himself."

You men should soon receive your copy of the Class Biographical History. Hope you enjoy it. We hope too you won't be able to resist coming back to the 45th to see a big crowd of '11 men in person. Your chances will never be so good. Some more coming are: **Andy Niven**, **John Rewalt**, **Ducky Drake**, **Roy F. Rope**, **N. L. Stafford**, **C. C. Trump**, **Bill Thorne**. Give a thought to Bill as this is Alumni Fund time again. Sorry to report **Phil Day** has returned from England to Australia, so we won't have the pleasure of seeing him at Reunion. He sends regrets.

'12 ME—**Samuel W. Andrews** is president of H. G. Acres & Co., Ltd., Consulting Engineers, Niagara Falls, Ontario, Canada. The firm has handled contracts throughout Canada and in the West Indies and Pakistan. Andrews lives in Niagara Falls at 2012 Corwin Avenue.

'12 AB—**Karl E. Pfeiffer**, 314 St. Dunstons Road, Homeland, Baltimore 12, Md., completed forty years of service last summer with the Department of Forests & Parks of the State of Maryland. The Department gave him a surprise party and presented him with a gift in recognition of his long service. Shortly thereafter, he and Mrs. Pfeiffer (**Anne Bullivant**) '12 celebrated their fortieth wedding anniversary by taking a holiday through the Canadian Rockies.

'13 **Harry E. Southard**
3102 Miami Road
South Bend 14, Ind.

After reading this and other 1913 columns these days, it would seem that we might be called "The Retiring Class of 1913." Who would think that our brash Class of 43 years ago could ever be so named! But read on, and you'll see.

Demy (John M.) Demarest retired last September and moved into a new home, by the sea, at Piney Point, Marion, Mass. Demy had been executive assistant to the president of Utica Drop Forge & Tool Co., Utica. Previously he had been vice-president and works manager of Marion Power Shovel Co., Marion, Ohio, and plant manager for Wright Aeronautical Corp. over all their plants in Paterson, N.J. Also he had spent two years with the War Production Board in Washington, D.C. and ten years with International Business Machines Corp. Demy, when he retired, thought he was going to do some loafing, but within a few weeks he became connected with Francis Associates, a group of consulting engineers, and now he is busily engaged in classified work for the government, all of which shows you can't keep a good man idle, or something.

Then have just found out that **Ambrose Ryder** retired way back in 1952 as vice-

president of Great American Indemnity Co., New York City. The Ryders live in Mahopac, which is close by their home town of Carmel, where the Ryders grew up. Ambrose states his hobbies are house chores, yard chores, do-it-yourself chores—and recovering from do-it-yourself chores. (How true!) In spite of all that, he has found time to write a book, *Where Is Where*, which has been described as a revolutionary development in the designation of locations. One critic has stated that it will probably rank as the most important aid to location of places, insofar as the general public is concerned, since the invention of the compass.

It should be mentioned here there have been eleven Ryders from Carmel at Cornell. **Hillyer Ryder** was '72, the first four year Class. His next younger brother, **Clayton**, was life secretary of the Class of '79. His youngest brother, **Stephen**, was '86. Clayton had two sons at Cornell, **Earle A. '11** and **Morton '15** and '18 MD. Then Stephen had two sons at Cornell, our Ambrose '13, and **Leland '16**. And Earle had one son at Cornell, **Theodore '42**; Morton had one son, **Clayton II '45**; Ambrose one son, **Edson '42**; and Leland one son, **Merritt '38**. Now there is a Cornell clan! Let's see, I sort of got lost in the shuffle, but I believe that makes four generations of Cornellians. And not just one branch, but parallel lines of descent. Can any others match this record of Carmel at Cornell? Congratulations to all. Mr. "Powers-that-be" at Cornell should take note of this.

A note from **Unc (R.B.) Whyte** states that he's retired from MacWhyte Co., Kenosha, Wis. He and Mrs. Whyte have been taking it easy in Bokeelia, Fla. (population 50). They spend a few weeks in Kenosha in the spring and the fall, then all summer in Birchwood, in northern Wisconsin, and back to Bokeelia for the winter. Sounds all right to me. By the way, if I remember a-right, seems to me, Unc, that you won the —er— "mug" at our 35th Reunion for having the greatest number of grandchildren—eight. I believe by the time our 40th came along, you had thirteen grandchildren. A fine record. But watch out, Unc, the race is still on and you have some strong competition. At our 40th, when you could count thirteen, **Walt (Walter O.) Wilkie**, RD 1, Amsterdam, was a close second with eleven grandchildren. Now Walt has fifteen, ten boys and five girls, and no telling how many more by the time of our 45th Reunion in 1958. Are there any more competitors in this race? If so, let me hear from you and give me your qualifying score.

That's all for now. More later.

'14 **Emerson Hinchliff**
400 Oak Avenue
Ithaca, N.Y.

While I never ask for money, I can applaud those who do, so let's all get behind **Stub Shaner** and the Alumni Fund and behind **Doc Peters** in his request for Class dues. An incidental in connection with the dues is that they bring you the Class column. Newsy dues!

Harold Riegelman's picture was in the Herald Tribune again, April 4. This time it was because he had, as counsel to the Citizens Budget Commission, taken a crack at New York Mayor Wagner's so-called

"economies" or "savings" in his budget. Hal said: "No claims of economy can be justified on the basis of not buying a second mink coat." Last Dec. 6, I saw him with Mrs. Wagner; she was honorary chairman of a luncheon of the American Association for the United Nations, Hal being the male active co-chairman.

Mead W. Stone sailed April 11 with his wife for a two-month European tour. Mead is a vice-president in charge of the business development department of the Meadow Brook National Bank, West Hempstead, Long Island. He and **George Kuhlke** foregather every Monday at the luncheon of the Mineola-Garden City Rotary Club. I know of several of us '14ers in Rotary and there must be lots more. Speak up!

Elmer Snyder, of 1915 Harvard Ave., Fresno, Cal., retired June 30, 1955, from the US Dept. of Agriculture, after more than forty years of service. He is now doing grape advisory work for Leonard Bros., table grape growers in Fresno, and other growers in California and Arizona. Elmer is the recipient of a Superior Service Award from the Department for research and guidance since 1915 on all phases of grape production, variety evaluation, propagation methods, and breeding of superior new varieties; important contributions to the Western grape industry.

Frank Sullivan keeps popping up. Heard Eric Severeid mention the "Sage of Saratoga" a few weeks ago on the radio, recalling particularly his description of English and French sounds; e.g., the Duchess snubbing shopkeepers and the hum of a model posing in the nude. Severeid was deploring the decay of sounds. Now Francis, in the February Woman's Day, tells us how to worry. He cries: "Worriers of the world, unite! You have nothing to lose but your minds." He continues: "... quit worrying about the things that really bother you and substitute a remote worry that calls for some attention but will not bust any of your important arteries or start your adrenal glands secreting juices they ought to be saving up for a rainy day." What has me worrying is his last paragraph: "Then you will have to fall back on some old, everyday type of worry, like your health or how you are going to put your daughter through Vassar." So far as I know, Frank was never married, so why is he worried about Vassar?

On the Ithaca scene, **Morris Bishop** got a big hand after a fine speech at a distinguished Sun banquet last week. **Sellman Woollen** is rejoicing over the safe arrival of his third granddaughter, Janet Lee Lancaster, at his daughter's in St. Louis, October 19, and of his fourth grandson, Walter A. Miles, Jr., at his Baltimore daughter's, February 24. I get a glimpse of **Ced Guise** occasionally, but never have had a report on his trip to the Philippines, Hong Kong, etc., last summer. Should really get together with another emeritus professor, **Montgomery Robinson**, to learn about his three-year stint in the Philippines as director of the Cornell project at Los Banos at the University of the Philippines' College of Agriculture. That must be a very worthwhile project and it certainly gives my Ag friends a chance to travel.

Bub Pfeiffer '16, secretary of that promising young Class, was in town the other

day and I spoke of that promising young Putney (Vt.) farmer, **Sam Howe '16**. Within the week I had a letter from my former Sun pal. He was harvesting sea shells on Sanibel Island, Fla., and was, as usual, righteously worked up about a problem.

'15 Daniel K. Wallingford
*Glasco Turnpike, East
 Woodstock, N.Y.*

Alvin Cadiz, 22 Highland Avenue, Sea Cliff, writes: "I still get back to Ithaca a couple of times a year. Have a son, **David '58**, in Architecture. Every year is about the same; business at the same old stand and then to Florida in January and February. It would be great to meet Classmates down there where we have plenty of leisure. I generally go to Delray Beach. Let's get together. (A good idea, Al. Next fall in one of the November issues let's run a list of Classmates who will be in Florida, name, address, and when they will be there.)

Following the mailing out of **Bill Kleitz's** letter last fall, a deluge of news items poured in. We are still using these items in the order in which they were received except in a few cases when we receive an item that must be used soon or not at all.

From **John Pennywitt**, Box 211, Mantonk: "We live by the sea all year round except for considerable travelling, visiting, salmon fishing and duck hunting. Wallingford in ALUMNI NEWS says what does one do to keep busy? I have too much to do. Besides the above we have four grandchildren. I make benches and stools out of drift wood (got two planks of solid mahogany off the beach last fall); I am a director of the Red Cross and also publicity director. We were in Florida and at a plantation in South Carolina during the winter. To **Ed Dixon**: hope you are well Ed, glad to know that the Reunion was solvent. Regards to that crazy **Colyer**, although he can't be any crazier than I am. I still drink every day and am in the best of health; now weigh 204 (only four pounds to go). We seldom go to New York City; it is a horrible place and most of the Broadway shows are terrible."

Lloyd A. Craver, 167 E. 79th Street, New York 21, writes: "We now have four grandchildren. Our son **John F.** and his wife **Elizabeth Anne Hunsberger Craver**, both '52, have a son and a daughter. Our daughter **Anne Craver Sammons '43** and her husband **Robert Howard Sammons**, have a daughter and a son. I am co-chief of the dept. of medicine, Memorial Center for Cancer & Allied Diseases, New York; was selected to give January lecture of American Radium Society in Houston in April, '56. I enjoy week ends and seven-week vacations at our beach house, Gilgo Beach, Long Island, with all of the recreation this uncrowded spot provides.

Meyer Drechsler, 163 W. 17th Street, New York City 11, reports that he is just an average citizen; has a wife, two children, and three grandchildren. **Beverly H. Coiner**, 807 Ivy Lane, San Antonio 9, Tex., writes: "Having a damn good time in retirement; hunt ducks, doves, and deer in season and can still take it. Never see any Cornellians, but got a terrible kick out of the Reunion. Will be a regular fixture at them from now on."

C. P. (Seepy) Clark, Hilltop Homestead,

Skaneateles, writes: "It is easier to dig up six dollars than interesting news. As per Wallingford's check list of Nov. 15 (1955), I don't often travel further than Ithaca, 50 miles, have not bowled for ten years, don't play golf, chew tobacco or play bridge, have not retired—can't afford to, don't want to and will not have to except for physical reasons. I have a Great Dane dog named Tee Fee. I have finished adding to Cornell alumni—five. Twelve third generation prospects. It is the younger generation that makes the news. Which, to quote from **Harry Morse**, is as it should be. Our youngest, **David W. '52**, was married last fall to **Judith Zucker '53**. The bride is a daughter of **Myron Zucker '25** and **Isabel Schnapper Zucker '26**."

Louis C. Webster retired as county veterinarian, Ontario County, last fall, is now manager of Dried Milk Products, Inc. He lives in Pike.

'16 Harry F. Byrne
*141 Broadway
 New York 6, N.Y.*

For The Ladies of '16, from Secretary **Micky Irish Moore**:

"Our 40th Reunion! Does it seem possible that it is really to happen this June? Our chairman, **Marion Gushee Gourley**, has been making plans for months and all signs point to the best ever. A large number (25 per cent right now) have indicated they will be present. Everyone is urged to arrive on Thursday and stay until Sunday so there will be plenty of time to visit familiar places and enjoy quiet visits with old friends. Anyone driving and willing to bring others is urged to so indicate to our chairman. Anyone needing transportation is urged to do the same, and Marion will be the clearing house.

Iris Bassett Coville and **Elsie Botsford Maroney** are working on a costume. **Gladys Swartley Schollenberger** is planning the decorations for our Class dinner and **Ann Kerr Wing** will be one of the hospitality committee to welcome you. **Helen Taber Hood** is to help with old pictures, while I am busy gathering information about each of us by means of questionnaires.

The program will be fine, and of top importance will be the '16 Class dinner for men and women on Friday evening, at which time the 1916 Chair will be presented to the University. Our own banquet will take place on Saturday evening. It would not be complete without **Gertie Bates's** rendition of 'The Working Girl.' Enthusiasm is running high so add to it by advising Marion that you will be one of us come June next."

John Vohr '16 has checked in for the 40th, by letter from his home at 817 Ogden Dunes, Gary, Ind. John is the long-time superintendent of the giant Gary Steel Works, owned by "Big Steel," and the largest steel mill in the world. He has two Cornell men on his staff, **John Walsh '31** and **Ray Ali '38**. He also gives with the following: "Any new graduates who would like to eat rather well and live comfortably would be wise to write me;" so put your grandchildren hep.

'17 Men—**Halsey Miller '11** just phoned that he had arrived home from the Virgin Islands where he had a fine visit with **Dunbar Hinrichs**, whose latest book is The

Fateful Voyage of Captain Kidd. Dunbar sent word that he would be with us for our Big 40th in '57.

Just had a line from **L. V. (Windy) Windnagle**, 431 N. E. Laddington Court, Portland 15, Ore., in which he said "See you in '57."

Judge **Marve Dye**, N.Y. State Court of Appeals, whose home is at 206 Edgemere Drive, Rochester 12, writes: "I can't take it any longer. Those three musketeers 'Els, Lud and Herb' have me in the corner. Gladly I say 'Yes' to The Call of '17 for the 40th in '57."

Just heard from **Wheeler Milmo** of Canastota, who is a New York State Senator. He was one of the guests at the annual dinner given by the Cornell Club of Albany for Cornellians in the State Legislature and other governmental departments.

Bill Bellis reports that the Glee Club gave a great concert for New Jerseyites which he attended. Bill's address is 111 N. Walnut St., East Orange, N.J.

Elbridge S. (Eb) Warner is ready to greet a big crowd of 1917ers at another "off year" Reunion dinner this June. Please let him know if you prefer the 1917 dinner on Friday night, June 8, or Saturday, June 9. Eb's address is 3813 Euclid Ave., Cleveland 15, Ohio. Write him at once, so plans can be made to have a private dining room and an attractive, informal program.

—**H. R. Johnston**

'18 AB—The Rev. **Charles E. Karsten** has been rector of the Zion Episcopal Church in Dobbs Ferry for the last thirty-two years. He is president of the board of examining chaplains of the Diocese of New York and chief examiner in theology; is honorary senior chaplain of the 410th Engineer Brigade with the rank of lieutenant colonel. December 6, he presented for Ordination his third son, the Rev. Beverly B. S. Karsten, assistant minister at St. Stephen's Church, Wilkes Barre, Pa. The Karstens have two other sons also in the ministry: the Rev. Charles E. Karsten, rector of Olivet Episcopal Church, Franconia, Va., and the Rev. J. deLancey Karsten, rector of the Church of the Good Shepherd, Forrest City, Ark. A daughter, Mrs. Anna Karsten Iredale, is married to a minister in Ardmore, Pa. Upon retirement in 1963, the Rev. and Mrs. Karsten plan to build a church near their summer home in New England.

'18 CE—**Richard E. Weber** is president of Weber Construction Co. in Schenectady, where he lives at 133 Wall Street. He writes that he has been "in the heavy construction contracting business since 1927 with time out for 3½ years with the Army Engineers in World War II—with 2 years in the Persian Gulf Command." Weber is the father of **Richard E. Weber, Jr. '52** and **Susan A. Weber '57**.

'19 **Mahlon H. Beakes**
6 Howard Street
Larchmont, N.Y.

Lowell S. Huntington, Lomet Meadows, Westford, wrote a heart warming letter to **Lloyd Bemis** giving news of himself and his fine big family. Lowell is now serving his 25th year as school principal in Westford and is justly proud of his six sons, five of whom attended Cornell. His sons **James, Robert '46, Donald '51, and Peter '55** are operating farming enterprises close by

his home and the other sons are teaching, **David '47** at University of Maine and **Edward '52** at Sydney Central School. Their family get-together at New Years found twenty-five present including eleven grandchildren. In his letter, Lowell says, "Cornell has contributed greatly to this family and has a warm place in our hearts as evidenced by the children's T shirts with Cornell on the front. We seem better able to contribute young folks to Cornell than dollars, but maybe the dollars will come more readily someday." Just keep the young folks coming along, Lowell, that's more important than the dollars! Congratulations to you for raising such a splendid family.

Dr. Benjamin Diamond, 8 Grymes Hill Road, Staten Island 1, reports that he is still practicing dentistry in Staten Island. His wife Annabelle, who graduated from New York University (BA '29) has again become interested in study and after twenty-five years is now working for the Masters degree in education. His son, Robert, is at New York University while his other son, **William**, is a Freshman at Cornell in Arts & Sciences.

George A. Spader of Morrisville is in his 32d year as horticulturist at the New York State University Agricultural & Technical Institute at Morrisville. George mentions his wet and uncomfortable attendance at the Yale-Cornell game in New Haven last fall along with **Ted Plass '20** and Mrs. **Plass (Louise Hamburger) '19**.

Daniel H. Heller of Feura Bush is still farming and breeding Guernsey cattle. He is also appraiser for the Federal Land Bank of Springfield, Mass.

Eugene J. Hasselbeck 315 Berryman Drive, Snyder 21, writes that he is still with the National Aniline Division, Allied Chemical & Dye Corp., Buffalo; however, after many years as research and control chemist, then operating supervisor, and finally operating superintendent, Gene reports that he has just recently been made superintendent of supervisory training—or as he says, "just call me Prof." Sounds like a pretty hefty assignment, something like the assignment **Ed Carples** is working on for N. Y. Telephone Co.

Ralph G. Starke lives at 260 Holmes Road, Pittsfield, Mass. Last October, we chronicled the arrival of Ralph's second grandson, born in Burlington, Vt. to Ralph's lovely daughter, **Emilou Starke Piper, MA '52**, whose husband teaches English at University of Vermont. However, shortly thereafter, Ralph's son, **R. Marvin Starke** and his wife, the former **Billie Robbins**, both '52, had their second child, a daughter. Quoting Ralph's letter "Four grandchildren in two years! Time is not creeping up on us. It has enveloped us like an avalanche, but the grandmas seem to be doing very well thank you. Marvin continues as assistant to the vice-president, Eastern Division, Hilton Hotels. Pop continues to wrestle with an investment portfolio of \$80,000,000." (Ralph is manager of the bond department of Berkshire Life Insurance Co.).

'20 **Orville G. Daily**
604 Melrose Avenue
Kenilworth, Ill.

Tra-La-La! Oh, here we are at the merry month of May. (Like heck we are. This is really the 8th of April and I'm sitting

here on the Gulf of Mehico trying to keep my mind on my work.) Writing this column is one expensive assignment. I couldn't write about the bees and the flowers and stuff sitting in 15 inches of snow, so for atmosphere and mood I was hustled off to the land of orange blossoms and blondes—not at the expense of the 1920 treasury, I hasten to add.

This gave me a chance to catch up with a few of our 1920 brethren to whom constant sunshine and balmy breezes are an everyday occurrence. They live in Florida every day, permanently. Think of it!

As we dreamily drive down the West Coast, we stop for lunch at Dunedin, a suburb of Clearwater and the new home of **Herb Blanche**, who retired last April after thirty years in landscape architecture and as general supt. of the Finger Lakes State Parks Commission. Herb now spends his time developing new plant species for Florida and records them by color photography. Herb's two daughters are Cornellians, **Nancy** and **Marie**, both Class of '45. This is a good place to mention the four grandchildren by which Herb hopes to make a three-generation Cornell parlay. When you're that-a-way, push Herb's door bell at 801 Virginia St., just off route Alt. 19.

Next we flipped a Buffalo nickel to see if we'd go 'round about Tampa to see **Chet Kurtz**, but he "lost," so we gumshoed through the Gulf beaches down to Pass-a-Grille to try to pick up **Sheldon Sayles**. All we found there was our next door neighbor from Kenilworth—a surprise, but no novelty.

Over the Sunshine Skyway from St. Pete to the mainland, where we had some legitimate business to transact (and make the deduction legal). X marks the spot here where **Dr. Ted Trousedale** is still practising medicine. Also the home of the grand old man of the girdiron, that man of steel, physically and vocationally, whose visiting daughter from South Africa changed his Reunion plans last June, **Bill Colvin**. (Tried to reach Bill by phone from Sarasota and later from Naples, but got the "no-answer" routine.)

You don't have to take a swamp-buggy to get over to the East Coast any more—the Tamiami Trail is well-blazed, and if you go like blazes you can make "the beach" in two hours. Hope there's time to look up **Ed Hall, Harold King, and Lou Siegel** in Miami, and a moment to chin with **Charlie Ten Eick** on the way north at Hollywood, or **Bill Wohlwend** at Ft. Lauderdale. **Hank Cundell**, whom we mentioned a few weeks ago, is still gentleman realtor in Pompano Beach. He can see the Intracostal from a reclining position on his porch and watches the "white men" from the North sprawled on their boatdecks trying to sop up some sun.

If you ever get within an orange-throw of Ft. Pierce, don't fail to see **E. W. (Pete) Lins**, our genial vice-pres. in charge of fireballs. Since 1920 Pete has had a Horatio Alger rise in the citrus industry. He is now manager of the Eastern Division of American National Foods, which has over 5000 farmers and regional cooperatives and is currently marketing under the well known Blue Goose trademark. In addition to many trade and civic interests, Pete is an avid avocado and lime grower in his own right with groves in Dade County, and still has

"A new era is beginning..."

"As I review the progress in aeronautics within so short a span, and marvel at the complex aircraft of today, I call it an achievement little short of miraculous.

"Today, electronically-guided planes take off and land without human touch. Lethal sky missiles seek and destroy invisible targets with uncanny precision. And still other fantastic achievements in both man-controlled and pilotless flight are now in the offing.

"When men go to the moon and planets, electronically-controlled skycraft will take them there. Aviation maps will be studded with stars as well as with cities. New developments in aeronautics will go on and on. Success opportunities and careers will continue to develop for ambitious young men in this exciting field where a new era is beginning."*

LEE De FOREST

Appropriately qualified to speak for aeronautics and other fields in which his own scientific achievements play an important part, Dr. Lee de Forest gives helpful counsel to young graduates headed for successful, rewarding careers.

His expression, "a new era is beginning," has particular significance at Northrop, world leader in the design, development and production of all-weather and pilotless aircraft.

At Northrop, permanent positions are available that offer full play for individual talent and ambition. Here the graduate engineer will find interesting assignments for which he is best fitted. Surroundings are attractive, co-workers congenial, opportunities for advancement unceasing, the compensation good.

For detailed information regarding specific openings in your field of specialization, write Manager of Engineering Industrial Relations, Northrop Aircraft, Inc., 1001 East Broadway, Hawthorne, California.

NORTHROP

Pioneers in All Weather and Pilotless Flight

**A statement by
Dr. Lee de Forest,
pioneer in radio.*

Who brews the flavor in beer today?

Ballantine ...that's who!

Yes, only Ballantine has that famous real beer flavor! Smooth and satisfying, light and bright, that's Ballantine Beer for you. Enjoy the refreshing brewed-in flavor of Ballantine Beer!

The liveliest taste in town!

Ask the man for BALLANTINE BEER • YOU'LL BE SO GLAD YOU DID!

Pres., Carl W. Badenhausen, Cornell '16 Vice Pres., Otto A. Badenhausen, Cornell '17

P. BALLANTINE & SONS, NEWARK, N. J.

time to hobby with flowers, fishing, and a never-dying interest in Cornell. When you see how fast you can go on the sands at Daytona Beach before your car flies apart, don't forget to wave to **Pete de Coningh** as you go by. Before leaving the State, you'll find it worth while to see the beautiful Univ. of Florida campus at Gainesville and say hello-goodby to **Floyd Northrup**.

Terrific treat is in store for '20-ites around Philadelphia and New York later this month, a de-luxe outing called "A Day on the Delaware" arranged by **Sam Alt-house**, our genial vice-pres. in charge of the "Fun-after-Fifty" dept. A "fish-eye" view of industries from Morrisville (U.S. Steel) to Wilmington (Dupont) from a 65-ft. Diesel yacht, with lunch, beer, golf later, cocktails and dinner at a country club, and general good fellowship galore. Classmate **Harold Brayman**, Dupont's director of public relations and president of the Cornell Club of Delaware, is assisting in the arrangements. Saturday, May 26, is the date and there's room for just fifty Classmates. More details next issue, but in the meantime get your reservation in. New Yorkers call **Walt Archibald**, Worth 2-7715; Pennsylvanians call Sam Althouse, Swarthmore 6-2312.

CORNELL

By George A. Boyd '21
80 Maiden Lane, New York 38, N.Y.

This time there will be no report from me on the pre-Reunion dinner in the Cornell Club of New York, April 11. I sailed

out of the harbor that morning. Let's see, where am I supposed to be now, May 1? Ah, yes, in Hamburg, with Essen and the Ruhr just ahead. But what will chiefly interest you fellows is that a pre-Reunion dinner will be held in Rome, May 17, 18 or 19, the participants being **Roger D. MacPherson**, **S. J. (Scotty) Scacciaferro**, and myself. **Kig** says that we must perform the usual ritual of throwing coins in the fountain of Nemi, but his second (and better) thought was that one of us would end up in the fountain.

Roger MacPherson was briefly mentioned in our last issue, since which a letter has been received, explaining his whereabouts. Last October, Mac started a Rome office for the New York architectural firm of Litchfield, Whiting, Panero, Severud & Associates. Mac is primarily a hospital architect. Among his current projects being handled out of the Rome office are a large hospital, medical and health construction program for the Government of Iraq at Baghdad, and contracts for work in Iran and Burma. He, wife, Elaine, and dachshund, Lisa, nearly froze last winter in Apartment 5, Via Antonelli 4, Rome.

Sports columnist Red Smith doesn't like the unofficial Olympic point scoring system devised by **Alan Gould**, then sports editor of The Associated Press, back in 1924. "If Russian gymnasts finish 1-2-3-4 on the pommel horse, the Soviet rolls up a lead that can survive shattering defeats on the track in the main area. Looks as though Russia will win in Cortina [it did] and probably in Melbourne because Alan got an idea thirty-two years ago." The Class rallies to the defense.

Dr. Walter B. Townsend, who will be remembered as living in Goldwin Smith, in a little room close to Lecture Room B, where Sammy Orth held forth on Business Law and the Dramatic Club staged their performances in the pre-Straight era, still possesses a non-receding hairline. During ten years of treatment for polio, Walt spent most of his time outdoors and has planted over 3000 trees on his 50-acre estate. Cornell visitors to California are always welcome at Blue Mountain Rancho in Colton. The view from Walt's hilltop is said to be much like that from the Campus, except for the absence of the Lake. Highway 99 goes within a mile of the Rancho.

Arthur C. Lansing has been an independent consultant since 1954 in the general fields of chemistry and chemical engineering. We are glad to note that among his special fields is whisky ageing. (Come to Reunion, Art!) Arthur's address is 323 West 6th Street, Royal Oak, Mich. Prior to launching out on his own, he was with Reichhold Chemicals, Inc. He has several publications and patents to his credit.

Dr. Floyd R. Parks practices surgery in Los Angeles, Cal. After three and one-half years in World War II, he has been "rather pushed" putting three sons through college and medical school. Floyd's oldest son, John, a graduate of Dartmouth and of Harvard Medical, is a teaching fellow in psychiatry at the latter institution. Floyd, Jr. went through Dartmouth and Johns Hopkins Medical, and is now interning in surgery at The New York Hospital. William is in his fourth year at Harvard Medical. Daughter Jeanne is finishing Los Angeles High School, the while contemplating either

Cornell or Wellesley. "I'm all out of breath—but I would like to get to our next Reunion." So be it!

'22 CE—Howard E. Whitney is a construction engineer in Montrose, Pa. His address there is P.O. Box 96.

'24 Duncan B. Williams
30 East 42d Street
New York 17, N.Y.

Albert J. (Al) Blackwood wrote in December as follows: "I have just returned from a seven-week business trip through all of South America—for Esso Research—accompanied by my wife—Pauline McIntyre '24. We just managed to avoid the recent political troubles in Buenos Aires and Rio, which might have delayed us; since the first thing they do when trouble develops is to close the airports to international travel. The highlight of our trip was a visit to the Inca city of Cuzco in Peru and to the lost city of Macchu Pitchu (on a few days of vacation mixed in with business!). We flew a total of 14,800 miles, crossing the high Andes five times. Prices varied widely in different countries; for example, regular caddie fees for 18 holes—single bag—ranged from 40¢ to \$5 U.S. equivalent. Meals and hotel bills were in the same wide range." Al lives at 1005 Boulevard, Westfield, N.J.

Dr. Putman F. (Put) Jones has been named to the newly-created post of dean of graduate faculty at University of Pittsburgh, a position he will assume July 1. The appointment was announced by Chancellor-elect Edward H. Litchfield, Dean of the School of Business & Public Administration at Cornell. As reported in the ALUMNI NEWS of November 1, 1954, Put is at present associate dean of the undergraduate college and acting dean of the graduate school.

In announcing his appointment to the new position, Dean Litchfield has asked Put to "develop this new position into one of broad leadership in graduate research and instruction." This is in line with new University objectives to strengthen and further develop its programs at levels of advanced study. In addition to his work at Pitt, Put has written a number of successful short stories and has been a contributor

to various scholarly and professional publications. He is a member of Phi Beta Kappa.

As reported in the ALUMNI NEWS of February, 1954, Max F. Schmitt was named president of The Wool Bureau, January 1 of that year. In his present capacity, Max directs the activities of a staff of specialists in publicity, research, advertising, education, economics, and merchandising. These programs are conducted on behalf of the wool growers of the United States, Australia, New Zealand, and South Africa, as well as other segments of this country's woolen industry. Max's participation in alumni activities began in 1924 when he became field representative for the Cornellian Council. For two years, he called on alumni in all sections of the country, selling them on the value of unrestricted annual contributions to the University.

Since graduation Max has been: secretary of his Class; president of the Association of Class Secretaries; president of the Cornell Club of Westchester County; president of the Federation of Cornell Men's Clubs; chairman of the Committee on Alumni Trustee Nominations; director of the Cornell Alumni Association; chairman of the Committee on Class Reorganization; treasurer of the Cornell Club of New York; chairman of the 1940 New York Glee Club Concert Committee; and in 1942 he wrote the Handbook for Class Secretaries. Currently he is: president of his Class; vice-president of the Cornell Club of New York; governor of the Cornell Alumni Association of New York City; member of the Cornell University Council.

For ten years prior to becoming head of The Wool Bureau, Max was affiliated with J. Walter Thompson Co. and Foote, Cone & Belding, as account executive for important companies. Between 1930 and 1943, he directed the advertising, publicity, and sales promotion of Collins & Aikman Corp.; and during this period was a member of the public relations advisory committee of the National Association of Manufacturers. Max secured his basic training in business and advertising with Rolls-Royce and Canada Dry, and with Young & Rubicam.

'25 Leo K. Fox
107 East 48th Street
New York 17, N.Y.

Curtis Publishing Co. has announced the appointment of Henry M. Chestnut, 148 Hewett Road, Wyncote, Pa., as superintendent of manufacturing. Henry, a native of Philadelphia, joined Curtis in 1937. Prior to this promotion, he was chief engineer and assistant manager of the engineering division.

John Courtney reports that he is now settled in Florida. His new address is 7004 Venetian Way, Lake Clarke Shores, West Palm Beach. He invites the Class members to drop in for a spot of tea any time they come that way.

Fred M. Morris is associated with Roll-A-Line, Inc., of Tulsa, Okla., handling advertising and sales promotion. His company's product is known as "The Aristocrat of Copy Holders."

Dr. Grant Guillemont is engaged in the practice of internal medicine in Niagara Falls, where he lives at 545 Fourth Street.

SPRINGTIME IS STEIN TIME!

Here's a serviceable souvenir, and just the thing for springtime beer parties. A Cornell beer stein, executed by fine craftsmen in true Bavarian style, complete with pewter lid. The Cornell Shield, bear and Clock Tower are done in a colorful relief design on this 20 oz. imported stein.

Ithaca, N.Y.

GUARANTEE To the Class of '26

I promise that if you attend the 30th Reunion on June 8 and 9 I will not pass among you with applications for life insurance! This is not too noble a gesture on my part. The Standard Life takes only good risks (we hope), and from my observation of the deportment of my loving Classmates at Reunion they don't exactly fall into this category. The Reunion is going to be pure enjoyment for the Class of '26, if not good business for life insurance companies.

Harry V. Wade
PRESIDENT

Standard Life

INSURANCE COMPANY OF INDIANA

HARRY V. WADE '26, President—H. JEROME NOEL '41, Agency Manager
ANDREW B. BICKET '30, Agent's Service Manager

INDIANAPOLIS, INDIANA

His son, **John '58**, is a second year pre-med student at Cornell.

Dr. Alvin O. Severance spent five weeks in Europe last year as a consultant in pathology to the US Army Surgeon General. As a result, he missed the 30th Reunion last June. Alvin is pathologist for the Baptist Memorial Hospital in San Antonio, Tex. His son, **Richard C. '58**, also is a second year pre-med student at Cornell and is an active member of the cross-country squad.

Walter Southworth is now general counsel with Mack Truck, Inc. He recently moved to Countryside, Summit, N.J. His daughter, **Ann** is a Sophomore in Arts & Sciences at Cornell.

We recently reported that **William S. Loucheim's** firm, Bobrick Dispensers, Inc., was a leading manufacturer of soda dispensing equipment. To set the record straight, it should have been reported that Bobrick Dispensers, Inc. manufactures "soap" dispensing equipment.

'26 **Charles B. Howland**
505 N. Swarthmore Ave.
Swarthmore, Pa.

William H. Jones distinguished himself with the wrestling team when we were undergraduates. Obviously, this background, plus some incidental courses in Engineering, prepared him for his subsequent career. Bill has just recently been appointed vice-president—purchasing and service operations, Philadelphia Electric Co. July 1 this year, he will celebrate his thirtieth year with the company. Bill reports that he will be in Ithaca for Reunion in June, even though he may have to leave a little early for his daughter's graduation the same week end at Dennison College, Ohio.

Seth Jackson is living at 4125 N. Randolph St., Arlington, Va. He is administrative officer in charge of the safety program for 15,000 employees of the US Forest Service with headquarters in Washington, D.C. June 1, 1955, he received an honor award for superior service from Secretary of Agriculture Benson "for effective leadership in organizing, developing and following through on safety plans and programs which have reduced loss of lives, serious injuries and human suffering."

David P. Kuntz is living at 4009 Cleveland St., Kensington, Md. He is with the Atomic Energy Commission. Dave reports that his son, **Stephen**, is in the Class of '57 and so he hopes to reach Ithaca for Reunion.

Donald R. Ferris is another candidate for Reunion activities. He lives at 191 Main St., Wenham, Mass. ("20 miles north of Boston," he says). Don is spending his time, when not on his 25-foot vessel "Zanie," distributing Gulf Oil Co. products.

Robert H. Daley is a partner in the architectural firm of Greife & Daley, Payne Building, 811 Lee St., Charleston, W. Va. Bob is a past president, secretary-treasurer, and director of the West Virginia chapter of the American Institute of Architects. He has three children, Robert House, Jr., 22; Cynthia, 18 (who may transfer to Cornell); and Mary Susan, 12. He'd "sure like to make it back to Reunion this spring."

'27 AB, '28 MA—**Greta L. Osborne** spent two months in Greece last summer, visiting her brother, Colonel **Eric R. Osborne '30**, and his wife, the former **Doris Vanderhoef**

A picture of a week's dictation

It's all on 5 DICTABELT records—exclusive dictation records of the Dictaphone TIME-MASTER dictating machine. They're unbreakable, filable, mailable, visible while you dictate and perma-

nent—can't be erased or changed. Their real cost is less than any other dictating medium.

For more information, write Dictaphone, Dept. IV, 420 Lexington Ave., N. Y. 17, N. Y.

C. K. Woodbridge, Chairman of the Board, Dartmouth '04.

DICTAPHONE CORPORATION

DICTAPHONE, TIME-MASTER AND DICTABELT ARE REGISTERED TRADE-MARKS OF DICTAPHONE CORPORATION

'30. Colonel Osborne is G4 officer for Greece, with the Joint US Military Assistance Group. Traveling both ways by ship, Miss Osborne stopped off at Naples, Messina, Sorrento, Pompeii, and Gibraltar. She toured Greece by car, visiting Corinth, Marathon, Delphi, and Eleusis. Miss Osborne is a teacher at the Packer Collegiate Institute in Brooklyn, where she lives at 87 Columbia Heights.

'27, '28 BE—Gerald P. Rhodes and Mrs. Rhodes (Miriam Wade) '28 operate a turkey farm in Clarence Center. Rhodes reports that he is also "a purveyor of the art of story-telling." He writes: "After seven years of enjoyable and exciting story telling to groups of children, old and young, in school and out, have seen a hobby assume professional stature, if not status. My assembly program of original stories, extemporaneously told, created as I tell them, has held thousands of children spellbound. . . . I get as much pleasure telling the stories and watching the expressions and responses of the listeners as they do hearing and seeing the stories dramatized."

'28 H. Stanley Krusen
60 Whittredge Road
Summit, N.J.

NOTICE: '28 Class Dinner will be at the Cornell Club of New York, Tuesday, May 8, at 6 p.m. Be sure to plan your business trip to New York so that you can attend the dinner.

Connecticut: Sherman R. Knapp, ME, who is president of Connecticut Light & Power Co., headed the Governor's Flood Emergency Committee which has just suggested 29 steps to the General Assembly to repair the flood damage to municipalities and State property in the amount of \$35.2 million.

Georgia: H. Sol Clark, AB, LLB '30, 109 East 44th St., Savannah, Ga., has a son, **Fred S. Clark '58.** Besides being a leading lawyer of Savannah, Sol is president of the Savannah Bar Association, founder of the Savannah Legal Aid Office. He has been Assistant City Attorney for Savannah and is presently a member of the Georgia Industrial Loan Advisory Commission. He was chairman of the County Board of Public Welfare for seven years and has headed fund-raising campaigns for the March of Dimes, Heart Association, and United Jewish Appeal. He has just received the Distinguished Service Award from the Georgia Grand Lodge of Masons for compiling the Georgia Masonic Code.

Massachusetts: Howard C. Weeks, AB, 37 Woodridge Road, Wayland, Mass., is purchasing agent and merchandise manager for Dennison Manufacturing Co. and is a director of Dunn Paper Co., Port Huron, Mich. Weeks is married to the former **Karin Hermanson '28.** They have two children. Mrs. Weeks is active in the Wayland League of Women Voters and is secretary of the Wayland Junior Towne House.

Michigan: Dr. Adalberto Barroso-Bernier, MD '31, lives at 547 Michigan Ave., Manistique, Mich. A specialist in general surgery and neurology, he is married and has four boys and one girl. He is also chairman of the medical staff at Schoolcraft Memorial Hospital, a lecturer on political economy, and president of the Rotary Club. He has a daughter, a junior at

Marquette University. His boy, Edward, is an excellent track star at the age of sixteen, and is considered one of the best basketball guards in the Upper Peninsula. He is wavering between Cornell and Annapolis.

New Jersey: Wayne E. Dorland, 40 Rock Spring Road, West Orange, N.J., is a publisher with Industry Publications, Caldwell, N.J. He is married and has two girls.

Joseph Weintraub, AB, LLB '30, has just been appointed by Governor Meyner as a judge of the Superior Court. Joe was previously a member of the New York-New Jersey Waterfront Commission which has been in the headlines for months.

New York: Joseph P. Binns, AB, has been appointed a member of the executive committee of the Empire State Building Corp. He is executive vice-president of the Waldorf-Astoria and a vice-president of Hilton Hotels Corp. Binns was a colonel in the Army Air Forces in World War II. He recently married Mrs. Catherine Gregg Dautmit in the chapel of the Madison Avenue Presbyterian Church, New York City.

Sidney Kingsley, AB, the playwright, has signed a five-year television contract with CBS as a producer, writer and director. Kingsley is the author of "Men in White" which won the Pulitzer Prize, "Dead End," "Detective Story," "The Patriots," "The World We Make," and "Darkness at Noon."

Pennsylvania: N. Townsend Allison, BS, lives at 321 Sunset Drive, Pittsburgh 35. He is associated with Stouffer Corp. of Cleveland, Ohio, in the restaurant business. He is married and has two boys.

'28 AB—Mrs. Theodore Angell (**Louise Emery**) lives at 100 Monson Road, Wilbraham, Mass. and is the mother of two daughters: Mrs. Judith Angell Rothen, a graduate of Bates College; and Jessica Angell, a student at Rochester University. Mrs. Angell is the daughter of the late **Albert E. Emery '98** and Mrs. **Julia McClune Emery '04** and the granddaughter of the late **Wilbur F. McClune '72.**

'30 BS—**Benjamin H. Detwiler** has been elected president of Borden's Farm Products of New Jersey, Inc. and chairman of the company's Middle Atlantic fluid milk region. He has been with the company since 1930 and has been vice-president of the farm products division in New York City since 1950. His address is 49 Beacon Hill Road, Port Washington.

'30—**C. Cornell Remsen, Jr.,** Millbrook Road, New Vernon, N.J., has been appointed director of the patent contract department of International Telephone & Telegraph Corp. He joined IT&T in 1942, after a period of private law practice and service with the US Patent Office as an examiner. In 1952, he was named assistant director of the patent contract department.

'32 AB—Mrs. **Selma Fine Goldsmith** (above) is one of sixteen civilian employees in the Federal government to receive a Rockefeller Public Service Award for outstanding public service. The awards, which are given annually, are designed to enable the recipient to study at a college of his or her choice in this country or abroad, or to spend time in some comparable educational activity. A government economist for the last eighteen years, Mrs. Goldsmith is business economist and chief of the income sec-

tion of the national income division, Office of Business Economics, US Department of Commerce. She directs the preparation of national income estimates and is also in charge of developing plans for evaluating and coordinating income data from such sources as Federal income tax returns and field surveys of family income. In 1955, she received the Department of Commerce Meritorious Service Medal for her "original contribution in the construction of new measures of consumer purchasing power as a guide to market development." Mrs. Goldsmith, who lives at 3640 Appleton St., Washington 8, D.C., will use her award to study the methodology used in developing estimates on income size distribution in Great Britain and Canada. **Dean William I. Myers '14,** Agriculture, is a member of the committee on selection for the awards.

'33 BS—**Evelyn Rahm** returned, April 23, from a two-year tour of duty in Brazil with the US Public Health Service. Her address is 2501 Locust Street, Denver 7, Colo.

'35 BS; '34 AB—**Chakratong T. Tongyai** and his wife, the former **Nobuko Takagi '34,** are pictured above in Bangkok, Thailand, where they live at 920 Uropong Lane. Tongyai is an entomologist in the rice department of the Ministry of Agriculture

and holds the rank of Special Class Official, the highest rank in the Thai civil service. Mrs. Tongyai, who entered government service in 1936, teaches English and is an administrative official at Chulalongkorn University in Bangkok. In addition to her rank as Special Class Official, she is also a full professor at the University, having received this appointment by Royal Command. She is the first woman in Thailand to have attained either of these positions. They entertained Director **A. Wright Gibson '17**, Resident Instruction in Agriculture, and Mrs. Gibson on their recent trip to Southeast Asia.

'35 AB, '37 MA; '38, '39 BFA—Lieutenant Colonel **Judson D. Wilcox** is in the Weapons Testing Division, Armed Forces Special Weapons Project, the Pentagon, Washington, D.C. He writes that he and his wife (**Ruth Rogers**) '38 "bought big old house at 117 Oxford St., Chevy Chase 15. Md. Moved in and started blowing fuses (both kinds) left and right. Temperature alarm on deep freeze goes off loud and clear in the wee small hours. Neighbors probably wonder what they have done to deserve our presence in their midst. Ruth's output of portraits, landscapes, etc. continues despite moves, children, typhoons, and husband's critiques (all factors equally devastating)."

'36 *Henry Untermeyer
54 East 72d Street
New York 21, N.Y.*

The letter that Class President **Andy Schultz** sent early in April detailing plans for the 20th Reunion should swell the attendance figures beyond the 110 mark. That's the number who have already reported to Reunion Chairmen **John Humphrey** and **George Lawrence** that they'll be back this June.

Want to know who some of them are? Included is **Robert K. Story**, 111 Farmington Avenue, Farmington, Conn., who promised to line up **Glenn Whitman** during his recent trip to Baltimore. Bob reported that **Chuck Lockhart** would be back also. **Joe Lorenzo**, 33 Temple Street, Williston Park, says it will be worth while if he even has half the fun he had at the 15th. **A. Scoville, Jr.** of Gold Club Lane (what an address!), Nashville 12, Tenn., now writes that he has lined up **Don Hart** for a June return to Ithaca.

Yes, they are coming from all over. From Fairmont, Minn., **J. P. King** writes from 102 Homewood Drive that he will take time off from his work in the frozen food business (he's now with Stokely-Van Camp) to head for the Campus. **F. W. Brower**, 421 Ponfield Place, Ridgewood, N.J., has signed up. He's with the special devices division of Austin Co. in New York as senior project engineer.

From Ohio they are coming back. We had a note from hard-working lawyer **T. R. Colburn**, 2832 Weybridge Road, Shaker Heights 20, Ohio. His wife is the former **Constance Parry '36**, and their four children keep them so busy that they "occasionally" have time to talk to each other. Better bring your wife back to Ithaca so you can catch up on family conversation. **Dan Moretti**, 91 Prospect Street, East Orange, N.J., is coming back. Dan, besides being president of Forest Hill Coal & Oil Co. is part owner of the Swim Club in Livingston, N.J. **Edgar Altholz**, 21 Terrace Drive, Great Neck, is coming back. He's one guy I'm after to help out once in a while with this column. Ed is associate editor of Machinery magazine and reports that he keeps bumping into Cornellians all the time. When they are '36, Ed, jot a note about them to your harrassed Class columnist.

Bill Babbington, 905 Whitney Drive, Aiken, S.C., took the time to drop me a detailed note. With his wife, **Barbara J. Wilson '36**, and three children, Bill is combining Reunion with a three-week camping trip. After he leaves Ithaca, Bill and his entourage will be heading for the Adirondacks. He reports that he's been with Dupont since 1952 and is now assistant section director of research of the Savannah River Laboratory. That's where the AEC fools around with H bombs. For recreation, Bill reports that Aiken has offered some fine high-goal polo this winter, and being in the heart of wonderful horse country, Bill gets a chance for quite a bit of week end riding. Looking forward to seeing you back, Bill. We had a note that **John S. Myers** of Albuquerque, N. Mex., has just been signed by University of California to work at the Los Alamos Scientific Laboratory. John formerly was on the staff of MIT. Bet you and Bill Babbington could sure talk "shop" back at Reunion.

Bill Budington has been transferred by Westinghouse from Baltimore to Buffalo. You can contact him there at 98 Deepwood Drive, East Aurora. One final note of interest. We saw a letter from **Edmund R. MacVittie** written from P.O. Box 3617, Balboa, Canal Zone, to Dr. **Milton I. Roemer**, 2345 Rae Street, Regina, Saskatchewan, Canada. It was a letter in behalf of the Alumni Fund drive. Imagine the Class work organization behind that letter! The good doctor responded to Ed's appeal and reported he has been director of medical and hospital services in the Provincial Government since 1953, following service in Geneva.

More good news about returning Reunionites will follow.

'36, '37 AB—Mrs. **Olive Bishop Price**, a foreign affairs officer with the US Information Agency in Washington, D.C., reports that she received a "nice promotion in November, 1955 to assistant chief, Near East Branch, Centers Division, Information Center Service, USIA. Took a 'busman's holiday' in December and January to Mexico to see the country and to see the Agency's offices in the field." Mrs. Price's address in Washington is 1727 Massachusetts Ave.

'38 *Stephen J. deBaun
146 Waverly Place
New York 14, N.Y.*

Well, here we are, finally bounding into spring, although it hasn't looked like it in these parts until just now. How about bounding through some address changes? **John Miller**, Leversee Rd., Rt. 50, Troy; **Ray Miller**, Poland; **Bill Miller**, dir. of food services, Tulane U., New Orleans 8, La.; **John Mitchell** (Lt. Col.), 67 Bullard Loop, Ft. Leavenworth, Kan.; **Chuck Monnier**, 35 Sherman Terrace, Madison, Wis.; **Harry Monson**, Welding Eng. & Equipt. Co., 261 James St., Syracuse 2; **Bob Moody**, 22800 St. John Ave., St. Clair Shores, Mich.; **George More**, 11 W. Eagle, Buffalo 2; **Charles Nearing**, 10 Judson St., Canton; **Johnny Neff**, 3259 Daliford Rd., Shaker Hts., Ohio; **Whitey Nelson**, Sachem Rd., Weston, Conn.; **Clare Nichols**, 1062 Mohegan, Birmingham, Mich.; **Chet Nitchie**, 1 Prospect Creek, Baltimore 4, Md.; **Joe Noback**, R.R. 12, 2305 E. Rockway Lane, Milwaukee, Wis.; **Marshall O'Neil**,

Cornellians Gather at The Greenbrier—Ezra Cornell III '27, great-grandson of the Founder, and Mrs. Cornell were welcomed by Cornellians on the executive staff of The Greenbrier Hotel, White Sulphur Springs, W. Va., during a recent visit to the resort. In front, from left, are Andrew B. Murray '45, William R. Smith '55, Mrs. Cornell, Cornell, and E. Truman Wright '34, vice-president of White Sulphur Springs Co. In back are Richard E. Holtzman '41 and Howard C. Donnelly '47.

The rougher the service,
the greater the need for

PEARLITIC MALLEABLE CASTINGS

Cast pearlitic
malleable steering
gear housing—by
NATIONAL

In mines and quarries . . . on the big construction jobs—that's where trucks take the worst beating. And that's also why many off-highway truck manufacturers have turned to pearlitic malleable castings—by National—for heavy duty parts. For truck builders know that pearlitic malleable has high ultimate strength . . . resists wear and fatigue under heavy loads and impacts.

And there are lots of other "plus" advantages in pearlitic malleable castings—from National. For example, they possess excellent non-seizing properties . . . can be either liquid or air-quenched . . . can be given a smooth finish. Perhaps most important of all, pearlitic malleable machinability index ranges from 80 to 90 (B1112 steel=100).

Pearlitic malleable castings—from National—can often reduce manufacturing costs, weight and assembly time . . . can increase quality and sales potential of your product.

AA-2911-B

NATIONAL MALLEABLE and STEEL CASTINGS COMPANY
Cleveland 6, Ohio

The nation's largest independent producer of malleable and pearlitic malleable

26 Oak St., Hudson Falls; **Jim Outhouse**, R.R. 3, N. 9th Rd., Lafayette, Ind.

The '38er who was profiled in the March 3 & 10 issues of *The New Yorker* magazine was **Emory Cook** who, as previously reported here, has been making a name for himself in hi-fi circles. As *The New Yorker* put it: "Cook's restlessly experimental nature accounts in large measure for his eminence in the young and rapidly growing high fidelity industry . . ." His story is worth reading, if you have the back issues around somewhere.

Ran into **Johnny Riggs** in a local bistro last week. He and his family were en route to Nassau for a vacation—lucky pups. A note from **Morris Bittker**: "I have recently returned to Yale (Law School) after spending four months in Italy with my wife and two children (Susan, 5, Daniel, 2), where I lectured on American tax and corporate law under a Fulbright grant. Last fall Prentice-Hall published my *Cases on Federal Income, Estate, and Gift Taxation*.

Hal Sheppard has been farming up around Elba for the last 11 years and says he finds plenty to do operating a 600-acre vegetable, grain, and dairy set-up. He and his wife have six children (5 g, 1 b). The 1 b is 14 and headed for Cornell. **Cliff Lunders** is an instructor in vocational agriculture in East Aurora. **George Frees** is banquet manager for the Essex House Hotel in NYC.

Martin Beck has been selling radio & TV time with the Katz Agency since 1939. He has two youngsters (a girl, 12, a boy, 9). Martin says he regularly sees **Len Roberts**,

Hal Segall, and **Herb Goldman** "all with hair thinner and waist lines thicker." **Hal Sawyer**, mgr., Vinyl Products Division, DuPont Co., writes: "Three children—third, a daughter, Carol, born Aug., 1954. Wife, Sue Betty, and I had a wonderful week end at Homecoming this year. Saw **Bill** and **Mary Arnold**, **Bob Smith**, **Bud** and **Edie Balliere**, **Ralph Donahue**, etc."

Joe Pendergast notes: "Built new house in '54, have been field representative for the American Guernsey Cattle Club since July 1, 1950. . . . Twin boys, 5 years old. Look like good football material for the Big Red around 1968. . . ." Joe lives at 11 Rose St., Cobleskill. **Bill Stroud** left industrial relations at Glenn L. Martin Co. in 1948 and returned to direct the operations of Star Tobacco Co. in Wilkes Barre. He has three children (1 g, 2 b) and lives at 494 Rutter Ave., Kingston, Pa.

Next issue: What '38er has settled in the Australian "bush" country and is looking forward to next Olympic Games there?

That's all this time around. Keep coming through with both news and dues.

'39

Aertsen P. Keasbey, Jr.
141 West 19th Street
New York 11, N.Y.

Again a reminder of the Class dinner, May 9, at the Cornell Club of New York. Any of you out-of-towners who are around then, make sure you come. I have a great many questionnaires here so will get at them and pass the news on to you.

Sid Martin is a partner in the Osborn Laboratories of New York and lives in

Chateaugay. Sid is a DVM and has one son and three daughters. **Gordon Dye** of Scranton, Pa., has been appointed general manager of the Scranton branch of New York Life Insurance Co. He joined the company as an agent in Pittsburgh in 1945 and was named agency instructor of this branch in 1951 and assistant manager in 1953. Gordon has four children and is the son of Professor **J. A. Dye, PhD '25**, Veterinary Physiology.

Paul Schaaf is a construction superintendent for Dravo Corp. and lives in New Orleans, La. He has a son and two daughters. Dr. **Edwin Robinson** is a surgeon in Rochester and instructor in the Rochester University School of Medicine, Strong Memorial, Rochester General, and Highland Hospitals. He served in the Korean War in the Medical Corps. Ed has two boys. **Al Dugan**, who is Class Alumni Fund Representative, lives in Bronxville. Al is administrator-director in Grace Chemical Research & Development Co. He has two sons and one daughter. **Charles Hall** is sales manager for Badger Northland, Inc., manufacturers of farm equipment. He lives in Appleton, Wis.

Dick Sunstein lives in Waban, Mass. and has a son and a daughter, who will be ready for Cornell in three years. Dick is in his own business of developing, building, and remodeling homes. He is married to **Marian Goodrich '39**. **Carl Spang** lives in Wellesley, Mass. and has a daughter and a son. He is vice-president and chairman of the board of Needham Manufacturing Co., makers of food machinery. Carl is a mem-

ber of the Cornell Club of New England and New York.

Pete Moody says he is making geophysical surveys for oil and gas in Mexico, where he is chief geophysicist for Seismograph Service Corp. of Mexico. Pete has one boy and one daughter and is married to **Janet Schade '39**. **Charles Collingwood** can be seen on CBS-TV as the host on "Adventure" every Sunday afternoon.

Dave Pollak, who is vice-president of our Class, is living in Marion, Ohio (this I am not too sure of since he is so well known around Cincinnati). Dave has three sons and is a member of the Cornell Club of New York and the University Club of Cincinnati. **Tom Snowden** lives in St. Marys, Pa., and is manager of electronic development for Speer Carbon Co. Tom is a senior member, Institute of Radio Engineers. He has one son and two daughters.

'40 *John L. Munschauer*
Placement Service, Day Hall
Ithaca, N.Y.

George Crawford graduated from Sibley and is a renegade engineer. He is in the insurance business and has just opened a branch office for Connecticut General in Morristown, N.J. The Crawfords have a six-year-old girl and have just completed a new home in Sparta, N.J.

Major **Matthew J. (Joe) Freda** of the US Air Force is stationed at Dover AFB in Delaware. He writes: "We have two children, Joseph M., 4 years and Mary H., 1½ years, and are semi-permanently settled at Dover, Del. having just built a new home here."

Here's a terse note from **Bob Johnson**: "3 sons, 1 daughter, new house." The new house is at Haywood Avenue, Wynnewood, RFD 1, Bound Brook, N.J. Bob, a civil engineer, is construction superintendent at Bakelite Co.

Three news notes and three new homes! What tremendous purchasing power in our Class. Advertisers are foolish to waste money in the big national publications when they can get a direct line to dynamic '40 right here in the ALUMNI NEWS! We not only buy lavishly but hold important positions and do big things. For example:

Bennett Woods, whose wife is the former **Vivian Kasden '41**, lists his address as 514 Boulevard, New Milford, N.J. The Woods have two children, Barbara Anne, 12, and Elaine Frances, 9.

Michael Whitaker Peters was born July 5, 1955. His father, **Art Peters**, is an importer. Address: 62 Boulder Trail, Bronxville.

Ralph T. Cerame is president of the Rochester Industrial Supply Co. and is the father of two girls. His address is 3425 St. Paul Boulevard, Rochester.

Bill Ayers, 3105 Via La Selva, Palos Verdes Estates, Cal. is superintendent of US Steel's Rolling Mills in Torrance. With the addition of David who was born a year ago April 15, Bill now has five children.

Ken Soras is chief project engineer of Lamson & Sessions, Cleveland, Ohio. A father of 3 children, he flies his own Bonanza for business and pleasure. Incidentally, Ken would like to hear from **Al Hagedorn** and **Bob Petrie**. His address is 22639 Douglas Road, Shaker Heights 22, Ohio.

Roy Pettersen is supervisor of production

engineering, transportation motors at General Electric Co., Erie, Pa. To reimpress the prospective advertiser with our purchasing power, Roy is also the proud owner of a new house and a small farm in suburban Erie. The Pettersen family consists of one wife, one boy (8), and one dog.

S. A. Kriegsman, Jr. is vice-president and general manager of Coca-Cola Bottling Co. of Redding, Cal. Here is an interesting note from him: "I just sponsored **T. C. Koo '40 (ME)** to come back to the US from Taiwan. He will be employed as assistant maintenance engineer for US Plywood Corp. Redding will be his home as the division he will work for is located in Anderson, about ten miles away. The Aid for Refugee Chinese Intellectuals, Inc., is co-sponsoring him with me."

'41 BSinAE (ME)—Robert C. Ross, 146 Forest Hills Road, Rochester 10, is an industrial engineer with Eastman Kodak Co. He is married and has three daughters, Barbara, Jackie, and Christine.

'41 BSinAE (ME)—A son, Edward Allen, was born, March 17, to **Victor E. Serrell** and Mrs. Serrell. The Serrells' address is Greene Valley, Pittsford.

'42 AB—James A. Kiernan, Jr., 410 Prospect Avenue, Cranford, N.J., writes: "Our three children, Jimmy 11, Mia 7, and Kristina 3, finally burst the seams of our small house and forced us to move to a 'new' house (class of 1920) with a little more room. Remodeling kept us busy all fall except for a trip to Providence to watch our team conquer Brown. I was recently appointed head of the Synthetic Vitamin A Department for Merck & Co., Inc., Rahway, N.J. Have been engaged in sulfa and vitamin production for Merck since 1946."

'43 BSinAE (ME)—Charles A. Colbert, 2124 Beechwood Avenue, Wilmette, Ill., is Western sales manager for Robert Gair Co., Inc., manufacturers of folding cartons. He has two daughters, 4½ and 2 years old.

'43 BS—Robert J. Manovill reports that he has two sons, David, 3½, and Philip, 1½. Manovill writes: "My wife, Susanne, is the daughter of Rudolf F. Schaeffer, formerly member of the German Department. Have left government service and am now in the real estate business in this growing Washington, D.C. suburb. Received the MA degree from American University last summer." Manovill's address is 11601 Gail Place, Wheaton, Md.

'43—Dr. John J. Van Ness, who practices dentistry at 216 West State Street, Ithaca, reports that he has been "recently accepted by the American Academy of Dental Medicine and regularly attend seminars held by the New York section in New York City."

'43 Women—Here we are, back again! Let us go on with our list of change of addresses: Mrs. Pearne Billings (**Helen Isaly**), 103 Knollwood, Fayetteville; Mrs. John Bottorff (**Ann Nash**), 1532 34 St. NW, Washington 7, D.C.; Mrs. Royal Delp (**Mary Frank**), 3036 Fashion Ave., Long Beach 10, Cal.; Mrs. James Dietshe (**Margaret Sturgess**), W. Daven Hover Rd., East Syracuse; **Harriet Fonda**, RD 1, Fonda; Mrs. Watson Eldridge III (**Alice-Marie Hadley**), 1130 Boulevard, Westfield, N.J.; Mrs. William Hagan (**Barbara Styles**), 8643 Monsanto Dr., Cincinnati 31, Ohio; Mrs.

Paul Kenner (**Anne Kline**), 32 Cedarwood Rd., Rochester 17.

Mrs. Paul Kingsley (**Rembert Brimm**), 80 Forest Grove Dr., San Francisco, Cal.; Mrs. T. W. Matkins (**Barbar Nash**), 9001 S.W. 52d Ave., Miami 43, Fla.; Mrs. A. Pierce Middleton (**Jane Scofield**), St. Pauls Rectory, Brookfield Center, Conn.; Mrs. Clarence Mitchell, Jr. (**Mary Kolar**), P.O. Box 397, Tucher, Ga.; Mrs. John Munschauer (**Grace Wood**), 105 Comstock Rd., Ithaca; Mrs. Oliver Purnell, Jr. (**Margaret Hodges**), 23 Davis Ave., Rockwell, Conn.; Mrs. Michael Ross (**Mildred Schulman**), 10 Margaret Rd., Sharon, Mass.

Bernice Schwartz, 946 E. 181st St., New York 57; Mrs. Borden Smith (**Alice Chamberlin**), Main St., Newfane; Mrs. Robert Underwood (**Nancy Jessup**), 605 Iris Dr., Manchester, Tenn.; Mrs. John Waugh (**Julia Cowles**), R.R. 1, Old Bridge, N.J.; Mrs. Joseph Weinberger (**Edith Newman**), 11 Findley Ave., Hartsdale; Mrs. Wm. Young, Jr. (**Annette Jackson**), 2514 Halcyon Dr., Alexandria, Va.; Mrs. Arthur Arms (**Marian Conkling**), 4422 Sweetbriar St., Baton Rouge 6, La.

These girls have new street addresses only: **Miriam Van Gelderen**, Pope Star Route, St. Helena, Cal.; Mrs. Charles Ostrander (**Gracia Byrne**), 154 Titus Rd., Ithaca; Mrs. Allan Michels (**Patricia Feeley**), 150 Stark Ave., Penn Yan; Mrs. Diego Bermudez (**Barbara Potters**), 471 Hoeffner, Los Angeles 22, Cal.; Dr. **Clara L. Lutz**, Route 2, Box 346 B, New Orleans 23, La.; Mrs. John Church (**Carolyn Norfleet**), 8 Lee Road, Lenox, Mass. (Same house, says Carolyn!)

Last, but not least, I would like to urge all of you girls of the Class of '43 to send in your contribution to the 1956 Cornell Alumni Fund. **Kay Rogers Randall** is our new Class representative and she is working so hard to bring our Class up from the bottom of the heap, so to speak. She cannot do it alone! It is up to each and every one of you, and I do mean you, to lend your support. So, do send your contribution, no matter how much it may be, to the Alumni Fund Office, Ithaca. Make checks payable to "Cornell University," and don't delay! The drive ends June 15, and let's hope that '43 Women have met their quota by that date!—**June G. Klitgord**

'44 AB, '46 MD—Dr. Andre S. Capi (Capidaglis) practices radiology at 300 North Twentieth Avenue, Hollywood, Fla. He is married and has two sons and a daughter.

'44, '46 BS—John M. Lloyd is general manager of the Hotel Californian in Fresno, Cal. The hotel is part of the Handelry Hotels chain, of which **Paul R. Handelry '43** is managing director.

'44, '43 AB—Louis B. Webster is general foreman-technical with the Solvay Process Division, Allied Chemical & Dye Corp., Syracuse. He and Mrs. Webster (**Marion Frone**) '44 have two daughters, Marjorie and Ann. Address: RD 1, Cato.

'45, '44 AB—A son, Kevin, was born to Dr. and Mrs. Benjamin E. Longenecker, Jr. (**Theodora Uelzmann**), February 25. The baby joins Kristen, 6, and David, 4. Address: 4301 Kutztown Road, Temple, Pa.

'46 Men—The big 10th Reunion is just around the corner and under the able lead-

ership of **Park Metzger**, 277 So. Buffalo St., Buffalo, it promises to be one of the best yet. Make up your mind now to get back to Ithaca "or bust" on June 8 & 9.

Here are the men that have already signed up: **Jack Rasch**, 50-15 244th St., Douglaston; **Stu Snyder**, 508 Demong Dr., Syracuse 3; **Bob Hubbard**, 4011 Clematis Ave., New Orleans, La., who incidentally has four children and is a residential contractor; **Chuck Jamison**, 7609 Maple St., Prairie Village 15, Kan.; **T. F. Madden**, 1946 Lowrie St., Pittsburgh 12, Pa.; **Wendell Kent**, 1117 W. Williams, Champaign, Ill., and Mrs. Kent; **Paul Russell** and wife, 20 Curtis Rd., Saugus, Mass.; **Fitz Randolph**, 22 Wexford Rd., DeWitt.

Herb Hawley, Perry Center; **Chuck Swerdlove**, 844 N. Broadway, Yonkers, still single; **Dick Selby**, 1207 Alpine Rd., Cleveland Heights 21, Ohio; **Dick Turner**, 2 Ridgley Ter., Jamestown; **Gordon Spencer**, 114 So. 6th St., Perkasie, Pa.; **Ray Duffy**, 49 Century Rd., So. Weymouth, Mass.; **Sewell Shuger**, 7019 Deerfield Rd., Baltimore 8, Md., who reports that he has three young ones and is a partner in a paint works; **Jerry Finch**, 76 Scott Ave., Elmira; **Bill Mutschler**, 2622 Milford Drive, Pittsburgh 34, Pa.; **Bill Lubin**, 22 Silver Spring Rd., West Orange, N.J.; **Art Van Vleet**, 97 Morningside Dr., Elmira.

Al Boorstein, 225 E. 74th St., N. Y. 21; **Sheldon Yasner**, 642 Mountain Rd., S. Orange, N.J., who says he hasn't seen a soul in years; **Dick Ozaroff**, 110-20 71st Ave., Forest Hills 75; **J. Kissick**, 705 Delaware Ave., Erie, Pa.; **Bob Edwards**, 551 Fifth Ave., N.Y. 17; **Jim Johnstone**, 305 Hamilton Rd., Wynnwood, Pa.; **Jim Moore**, 200 Glenco Rd., Glencoe, Ill.; and all the way from Box 1058, West Palm Beach, Fla., **Hank Jewett**.

Theodore J. Bliss, 3315 Old Wm. Penn Hwy., Pittsburgh, Pa., is an electrical engineer at Westinghouse. His wife is the former **Jane Bowers '48**, and they have two children, Carol Susan and Stevie. **Theodore M. Riehle, Jr.** has been elected vice-president in charge of production for Master Rule Manufacturing Co. of Middletown, of which he has been a director for the last two years. **William M. Schmick** has been appointed product manager for automotive products in S. C. Johnson & Son, Inc., Racine, Wis., makers of Johnson's Wax products.

Looks like we have a good start in bringing the old gang back together for too short a week end. As of this writing, the number of fellows who could not commit themselves are too numerous to list. We sure hope that when you read this you all will have signed up for one of the best Reunions that will hit Ithaca. We'll see ya on the Hill in June.—**Bill Beale**

'47 Men—Here are a few notes about Hotelmen: **Charlie Butler** is general manager of the Hotel Biltmore and assistant to the president of Realty Hotels, Inc. Bless me, he's been named chairman of the hotel industry's campaign for the greater New York \$3 million appeal of the National Foundation for Infantile Paralysis. Then, **Jim McLamore**, in partnership with **Dave Edger-ton, Jr.**, has several Burger King restaurants in Miami and is planning the construction of six more. Jim is also president

of the Miami Restaurant Association. You can write him at 3090 NW 36th St., Miami, Fla. Better not leave out the news that **Andy Peters** now has the address of 222 Broad Street, Red Bank, N.J.

Good, long letter from **Mike Ware** in San Antonio, Tex., from which I'll quote: "I have been in the cattle business here . . . now in plastic coatings business . . . also represent about 50 major manufacturers for the South Texas area . . . also trying to operate a manufacturing business in Mexico. . . . I have two fine boys, and a girl who is now almost eight . . . run Beagles in the winter (my bitch was State Champion in '55 and will make her AKC Field Championship soon) . . . in the summer I coach the divers for the San Antonio Aquatic Club, and we have won the State AAU meet for 2 years . . . other than that plus my church work (I am a licensed Lay Reader in the Episcopal Church) I have hardly a thing to do." I am flabbergasted, Mike. Incidentally Mike's business letterhead reads Promex, Inc., PO Box 6773, Alamo Heights Station, San Antonio.

On a recent Midwestern trip I called **Herb Roth** in Dayton, Ohio from Detroit, trying to snare him for a Cleveland meeting that night. Strategically placing the call at breakfast time so that I would be sure to disrupt the entire family. I was definitely surprised to find that I had struck moving day. The Roths are now blissfully happy in a onetime farmhouse (I think) with the address of 205 Dell Park Ave., Dayton. Herb and his wife, Si, have three children: Doug, 5, Janet, 4, and Dave, 2. Needless to say, Herb didn't get to the Cleveland meeting.

In Chicago I had an all-too-brief chat with **John Gnaedinger**, but managed to blurt out congratulations on his recent marriage, reported last issue. From the way he circulated among the good Cornellians there, I gather that John has cemented some fine friendships in the Chicago area.

Traveling onward to Detroit, my pal, **Ken O'Day**, managed to keep me occupied with a drink or two until way past the usual hour. He had some help from two "older" Cornellians. Ken is a Ford employee and regaled the group with a grand dissertation on the club activities of a bachelor in Detroit; seems he is the ringleader in the Junior Chamber of Commerce and umpteen other groups. Think I'll keep him in mind to run my Alumni Fund meeting in Detroit next year. Watch out, boy.

Forgot another Hotelman, one **Bill Hamilton**. He's in Milwaukee, Wis. with a new job of manager of training and communications at General Electric, X-Ray Department.

Closing off, I'll mention **Lansing Tryon** now at 20 Hiram Rd., Framingham, Mass. He has just joined Raytheon Mfg. Co. as asst. research staff member to do research on transistor circuits. Married in 1948, he has two children: Steven (1950) and Martha (1951). Also a ? on the way.

Lest we forget: Please scribble some notes about yourself and send them to the News or to me.—**Barlow Ware**

'47 AB—Mrs. **Sylvia Kianoff Shain** writes: "We bought a home in Haddonfield, N.J. [306 Chapel Avenue] and have two children, Abbe, 4½, and Steven, 1½. I often see **Barbara Bateholts Smith '47**,

Golf has changed

who lives in nearby Erlton. We would like to contact other Cornellians in this vicinity."

'47 BS—Mrs. **Emily Palmer Kroeker** and her two children, John, 5, and Anne, 2, are living at 11 Haverling Street, Bath, while Mrs. Kroeker's husband, Captain Edwin J. Kroeker, is in Korea with the US Medical Corps.

'48 BSinAE—**William C. Arthur, Jr.** is vice-president of Anderson Corp. of Worcester, Mass., where he lives at 71 Berwick Street. Last January he was elected a director of the Worcester Community Chest.

'48—**John C. Colman** (Harvard MBA '51) was married in Highland Park, Ill., February 19, to Jane B. Schoenfeld, daughter of **James H. Becker '17**. **Charles C. Colman '12**, father of the groom, was best man and John's sister, Mrs. Robert V. Bachman (**Dorothy Colman**) '44, attended. Young Colman is with the chemical division of Borden Co. His present address is 37 Prentiss Street, Cambridge 40, Mass.

'48—A son, Thomas Frederick, was born, February 16, to **Frederick E. Jenks** and Mrs. Jenks (**Marilla Oaks**) '45 of North Rose. Jenks works with the retail lumber firm of Oaks & Son.

'48 AB—**Clinton C. Laux** is sales promotion manager and public relations manager of US Life Insurance Co., New York City. He and Mrs. Laux (**Florence Draugel**) '48 live at 515 Madison Avenue, Plainfield, N.J.

'48 Women—**Louise Van Nederyn** Atteridg and husband **Paul '46** hit the jackpot, Nov. 28, 1955, when twins Susan Joanne and Barbara Joan joined the Atteridg family. The twins have a sister Ellen, 6½, and brothers Ted, 3½, and Johnny 17 months. They have just bought a house with nine bedrooms (could they be planning to fill them all?). The new address is 130 Clarewill Avenue, Upper Montclair, N.J.

Polly Karb sends word that she has recently returned from five months visiting England, France, Austria, Italy, Yugoslavia, Spain, and Tangiers. Polly's address is 63 Ellery St., Cambridge, Mass. A son, Jonathan Fincher, was born to Dr. **Daniel M. Hays, MD '44**, and **Esther M. Fincher Hays, '48** and '51 MD, in September, 1955. The Hays live at 350 S. Fuller Ave., Los Angeles, Cal. **Kris Paulus's** address is Box 599, Cincinnati, Ohio.

Eileen Peck has a new job as of Sept., 1955. She is chief dietitian at Arnot Ogden Memorial Hospital. She writes she has a one room apartment and a Siamese cat and is not sure the apartment is big enough for both of them. Her address is 421 W. First St., Elmira. A daughter, Carol Elisabeth, was born, Sept. 24, to **Betty De Lano Donauer** and husband Dr. Robert M. Donaur, who is an assistant medical director with Prudential Life Insurance Co. Their address is 26 Locust Drive, Summit, N.J. A son, Sidney J. Stein III, was born March 11, 1955 to **Suzanne Holstein Stein**. She has a daughter, Ellen, five years old. The Steins' address is 860 Mercer St., Albany.

I would like to add my own news that **Daniel Kilbourne Hosie** was born Oct. 28, 1955. He has a sister, Cynthia, 4½ yrs., and a brother, Johnny, 2 yrs.

A big thanks to all of you for your nice notes and cards. Keep writing, please, and your news will appear shortly. Just for the

record, my address is 1 Dartmoor Drive, East Northport.—**Sylvia Kilbourne Hosie**

'49 Women—By now you all have read (and probably re-read) your copy of Class Secretary **Anne Horan's** wonderful April newsletter. Many thanks, Anne. We appreciate all the hard work which goes into one of those publications. Why don't you fill in the news blank attached to the newsletter and send it back to Anne right away?

A recent Lord & Taylor ad in The New York Times informed us that Miss **Ginny Steele** of Mademoiselle was to present a fashion show April 3, 4, & 5 at said store—the first spring showing of fashion fabrics—a vacation wardrobe, styled by McCall's Patterns and shown in the April Mademoiselle magazine. The latest address we have for Ginny is 30 East End Ave., Apt. 3L, New York City 28. **Frankie (Lown)** and **Max Crandall** have a son, **Maxon Ray Crandall III**. Young Max made his appearance, March 13. The Crandalls' address is 5 Brookside Rd., Darien, Conn. Mrs. **George Hall (Sue Potter)** also announces the arrival of a son, **Timothy George**, February 22. The Halls' address is Westfield, Pa.

I was surprised and pleased to receive a note from **Elizabeth Timmerman Marr** (Mrs. Donald M.). She and her family are now living at 2730 Robins St., Endwell, Endicott, only a stone's throw from Binghamton. Elizabeth tells me that John Howard arrived March 4. He joins his elder brother, Peter Richard, who is now 2. Husband **Donald, MBusAd '48**, changed jobs in November and is now with IBM as librarian. **Bernie Gray** writes from California to say that she has a new address: 123 El Camino Real, San Mateo. She explains that her new abode is practically next door to her former one, and that the move was prompted by the attraction of a heated swimming pool! **Bernie** visited **Lois (Birrell)** and **Bill Morrill** in Washington recently.

The **Jack Gilberts' (Inger Molmen)** are in the process of moving to Buffalo from Chestertown, Md. Jack '49 is with W. H. MacFarland, Consulting Engineer. I'll report the new Buffalo address as soon as I have it. A familiar '49 face at a recent AAUW meeting turned out to belong to **Barbara Loring Cureau**. She and her husband, **Robert '49**, and three daughters live at 51 Howard Ave., Binghamton. Bob is with Socony-Mobiloil, in marketing. Daughters are Polly, just 2 months old, Cindy, 2½, and Susan, 4½. Barb tells me that **Nancy Adams Anderson** is living in Madison, Nebr. Her husband, **Earl '49**, is a Presbyterian minister. The Andersons have three sons.

Did you look for this column in the last two issues of the NEWS? No news, so no column. Please send news of '49ers to me at 47½ Kneeland Ave., Binghamton.

—**Dot Rynalski Manser**

'50 Men—The healthy medic above is **Frederick R. Adams**. Space problems made it impossible to print the entire picture, but his C.O. and another Army leader were on either side of Fred at the time, pinning captain's bars to the shoulders. A press release which accompanied the picture says Captain Abrams entered the Army in June, 1954, after graduation from Cornell Medical School. His wife, the former **Alice**

Englehard '50, is with him in Denver. Fred's assignment is with Fitzsimons Army Hospital.

John Maloney, chairman of our record Fifth Reunion last June, still has 43 pairs of shorts, 20 of stockings, and eight hats which can be had for, respectively, \$3, \$1, and \$1. Write John at 425 Terry Road, Syracuse 4, and enclose a check. The shorts are a jazzy red, the socks white and knee length, and the hats are tartan plaid golf caps. The Class needs the money. The Reunion went \$36.13 into debt. John also reports he lost the list of persons who signed up for the Class picture. If those who ordered one would drop him a post card, he'll see that a picture is sent to them.

The annual letter has gone out from **Manley Thaler**, Class Alumni Fund Chairman. "Our Class goal for this year is \$2420. . . I hope you can contribute something since our Class established a record as having the highest number of donors during the last year and it is our aim to establish a new and higher donor number this year."

An October, 1955, issue of The New Yorker magazine had a "Profile" on Mickey Walker, former welterweight and middleweight champion of the world. Classmate **Ian Elliot** of the ALUMNI NEWS writes me: "Somewhere in this article there is mentioned the fact that one of Walker's sons, Michael, is a Cornell graduate and presently an architect in California. Looked it up and found that a Classmate fits the description: **Michael Walker**, who received the BArch in 1951." Unfortunately, Cornell's alumni files do not have Walker's address. West Coasters, please note.

—**John Marcham**

'50 Women—Valentine's Day saw the arrival of Bruce Henry, five pounds, two ounces, at the home of **Tom ('49)** and **Jean Pirnie Clements**. "This is our third holiday child," writes Jean, "with Susan, four, on Lincoln's Birthday, and Donald, two, on Christmas. It makes cake decorating easy!" The Clements live at 34 Pinewood Avenue, Saratoga Springs.

The smallest envelope in the world arrived in my mail the other day, bearing glad tidings from **Tom** and **Pat Gleason**

Kerwick. A tiny card adorned with a mischievous imp announced the birth of David Farnsworth, March 27, the Kerwicks' third offspring. The eldest is Ann, who will be 5 in June, while her younger brother Timmy is 3½. The Kerwicks have more or less recently moved west to Sunnyvale, Cal. (where they live at 1151 Remington Drive), and Pat notes somewhat cryptically, "Can't say we miss Rochester too much—love this area."

And here is still more news in the Baby Department: A daughter, Linda Catherine, was born December 15 to Mrs. Frank M. Chubb (**Berta Hall**), who lives at 27 Cedar Street in Binghamton. **Clare Ferguson** has been stable manager at the Groton Hunt Club, Groton, Mass., for the past year. Before that she spent almost two years working her way out to the West Coast and back. She stopped off in Wisconsin, Colorado, and California, en route, staying just long enough in each place to earn the money to continue the trip. An ambitious project! **Terri Ralph Ullrich** writes that Don is now a first lieutenant in the Medical Service Corps and that they are moving shortly to a new post at Fort Meade, Md.

Another cheery note from California: John and **Carol McMillan Lawes** write that "The view from our new home is out of this world—if it isn't smoggy. On our half-acre we have eight lemon trees, four avocado, two peach, two plum, and a southern magnolia, this last a bit of nostalgia from our days in Virginia." The new home is at 237 Honolulu Terrace in Whittier. John is West Coast technical representative for the Virginia Cellulose Department of Hercules Powder Co.

When you look in vain for news of the women of '50 in these columns (as has happened all too often in recent issues), there is but one explanation: no one has sent me any news items. Need I say more? My address is still 340 East 53d Street, New York City—and effuse thanks to those few stalwarts who do write me about their activities.—**Marion Steinmann**

'51 **Women**—News is mightily scarce. I guess we're all saving up for Reunion when we can really have some fine old gab sessions.

I did have a nice newsy note from **Ellen Bohall Andrews** of 2005 20th Road, N. Arlington, Va. She and Hal are mighty pleased with their new location, but she'd enjoy seeing any of you gals in the area. I expect to hear from some of the old Ithaca gang with a few birth announcements soon, eh girls?

Speaking of birth announcements, Mibs sent a cute one concerning the latest addition to the Follett household. Don and **Mibs Martin** Follett became the proud but busy parents of another son, Stephen, March 8. Mibs comment is "at least doubles for tennis but she sure is out numbered."—**Marybeth Weaver Ostrom**

'52 **Men:** **Murray R. Wigsten**
"High House" Haslingfield
Cambridgeshire, England

The encouraging response to our continual pleas for funds, monies, gratuities, grafts, rakeoffs, slush buckets, and pork barrels has brought stacks of greenbacks rolling into the everbulging Class coffers.

A minor by-product of this deluge has been a statement, or oftentimes a reiteration, of addresses of wandering Class members; we hasten to pass a host of same on to you.

Alphabetically, then, **Don Bates** is living at 60 Bedford Ave., Middletown, while **Valentine Dabols** has settled at 848 Gough Street, San Francisco 2, Cal. Valentine has acquired a little Chevrolet, and has hummed over the hills and through the vales of northern California for many a pleasant hour. **John Daly** sings in the shower at 32 Melody Lane, Westbury, before popping off to settle strifes for the industrial relations department of Long Island Lighting Co. **Harley Frank** continues to patronize the underground tube between 87 Marchmont St., London W.C. 1 and the London School of Economics; no doubt at the instigation of those penurious English, he hopes the Class council will explain its current use of Class funds, and I'm sure many of us will agree that a full investigation is called for.

Jim Graves may be sought out through the post office at East Andover, N.H. **Richard Helfman** is now a senior at Chicago Medical School, is engaged to Susan Sherman of that city, and commutes to class from 1701 Albermarle Rd., Brooklyn. **Dana Johnson** imbibes coffee at 604 Eggert Rd., Buffalo 15; **Ray Ketcham** turns it down at 98 Oak St., Hudson Falls.

Robert Kochli has sunk a mailbox along RFD 1 down in Harrisonburg, Va.; **Alan Krause** numbers his address and days at 13720 Shaker Blvd., Cleveland, Ohio. **David Macdonald** lists 59 Lakewood Dr., Glencoe, Ill. as his address, but adds curtly that he's in the Army, and "will not be heard from for 16 months."

R. P. Mandel, Jr., of Ithaca and Waseca, Minn., speaks for all of us by including in his suggestions for Class activities "Party, with Treman buying." Bart, in Boston, maintains a worried silence. **Arthur Mange** has been hard at work with the Army, and, "barring a catastrophe, will be discharged from the Army next March." He goes on to out-Horatio Alger: "In nineteen months of service I have worked myself up steadily from private to private first class." Nice going and good luck Arthur P. Mange; how well do we remember the thrill of our Temporary Corporal stripes. **Michael Mazarella** now at 3 White Beech Court, Trenton, N.J.; **Robert Milkey** is a DVM in Granby, Conn.; **Robert Newman** has a new address at 27 Norton Ave., Ridgefield Park, N.J. **Jack (Seward) Ogden** is with Home Life and writes a mean policy in the den of his home at 416 Burns St., Forest Hills. **Donald Reynolds** has gone the way of all flesh and is with P&G Drug Products, samples provided at the door of 1841 Yorktown Rd., Cincinnati 37. **Gerald Rood** is in his first year at Harvard Business, and tots up ledgers at 82 Hancock St., Cambridge, Mass. **Mark Stratton** lives at 15 Maynard Court, Ridgewood, N.J. **Frank Veith**, 711 West 171 St., NY 32; and last for now, **Richard von Bergen** is living in Jeffersonville.

Marriage, like Death, has taken its inevitable toll. **Rolland Monroe** married Barbara Russell of Newburgh last October and is living and working in Newburgh. Living—242 Grand St. Working—Paramount Theaters, Edmonton, Alberta, Can-

ada saw the wedding of Ellen Moren and **Herb Doree** last summer, and Wall Street sees Herb five days a week now as he treks to work for E. F. Hutton Co. and learns the ups and downs of stockbroking. The Doree family revels, seven days a week, in the following extensive address: Apt. 5-0, Bldg. 2, 73-63 Bell Blvd., Bayside 64. Out in sunny Dayton, Ohio, **Demosthenes Arvanites** shares 9 Mossyak Drive with his wife, the former Holly Adler, and son Douglas David. Son Douglas began using safety pins, August 14, 1955. Last and far from least, **Raymond Farrish** and his wife (**Ruth Levy**) '54 are living at Wormwood Hill Road, Mansfield Center, Conn.; Raymond is a graduate assistant and is working for the MS in ag economics at University of Connecticut, while his wife will receive the home economics MS this year.

'52 **Women: Mrs. Ralph M. Starke**
240 Milton Road
Rye, N.Y.

At last, some of you reluctant correspondents have found time to bring us all up to date on what you've been doing. **Sue Spiers McLean** wrote that she had to start as far back as Aug. 7, 1954, when she married Howard McLean, a Duke graduate. They were in Erie, Pa., where Howard was with General Electric. Then the inevitable: the Army required Howard's services so they are now at Fort Eustis, Va. (5514 York Circle, Warwick, Va.). They enjoy being close to Williamsburg and having such spring-like weather the year around. Even more so they enjoy having someone like Carol, born June 1, '55, in the family.

Denise Cutler Kimball and her husband **Kent, MD '55**, will be at 405 East Sixty-ninth Street, N.Y. 21, until he finishes his internship in medicine at The New York Hospital, July 1, and then they'll be Navy bound. Their daughter Kathryn Eleanor (Kathy) passed away very suddenly and unexpectedly, December 2, '55, at the age of fourteen months. Denise is a dietitian at The New York Hospital.

Mrs. George Forester (B. J. Church) has been living in Portland, Ore. at 2326 North East Seventeenth Avenue since August. George is a student at Reed College, with Cornellians **Warren Susman '49** and **Maria Guiricio, PhD '55**, among his teachers. John-Scott Forester is 3, and David is 21 months, but B. J. finds time to be a teacher herself. She finished her graduate work at University of California in Berkeley last year. Now she teaches social studies, part of the core curriculum, to the eighth and ninth grades at Park Rose Junior School. Naturally, she has become interested in many school activities and teaches creative dramatics on Saturdays. All this and she managed to take some evening courses at Portland State. They plan quite an exciting trip in June; it will be their first trip East since graduation and will give them a chance to visit B. J.'s home in Troy.

'53 **Men: Samuel D. Licklider**
Box 247, Cornell Med. Col.
New York 21, N.Y.

I share with the rest of the men of '53 who knew **Lee Banigan** a deep sense of regret at his passing. As stated in the April 1 ALUMNI NEWS, Lee's plane was reported missing, January 23, out of Formosa; Feb-

ruary 23, the Air Force declared him officially dead. He had been in Korea since June, 1955.

It is not always precise in these times whether we are at war or whether we are at peace. In either event, Leon Francis Banigan, Jr. died in uniform and therefore in service of his country and so we add to his Necrology these words: Greater Love Hath No Man. To his wife, **Barbara Gavin Banigan '55**, we of the Class of '53 extend our sympathy.

As you know Lee was Reunion Chairman, having been selected for this post with his fine undergraduate record of school activities in mind; our Class's loss is double. In his absence Women's Reunion Chairman **Anne Buck** has carried on admirably. **Gilbert M. Kiggins** has been assigned to take over as Reunion Chairman.

Robert B. Squires (Box 31, Massena) claims son, Robert, born July 23, 1955. Bob is with Homestead Dairies up in Massena, site of the seaway and power development on the St. Lawrence River.

Due to have finished active duty in March, Lt. **Vernon B. Derrickson, Jr.** (128 Hazel Rd., Dover, Del.) expects to manage the Towne Point Motel in Dover. In Germany, he managed the 5th Corps Officers' Club in Frankfurt.

In the Congregational Church of Naugatuck, Conn., on the afternoon of Saturday, February 11 (a beautiful afternoon in Naugatuck for two young people that day), Lt. **Alfred Jackson, Jr.** married Judith Ann Norwash of Vassar College. Fred finished his law degree in Ithaca last June and has been assigned to the Judge Advocate's Office, Lockbourne AFB, Columbus, Ohio.

W. Kennard Lacy's been doing a real good job keeping down the weeds up Otsego County way and was accordingly honored on behalf of the Northeastern Weed Control Conference, February 1.

Here, to close, is a letter chock full of news from **Bob Corrie**. Writes Bob, "**Hib Robberts** is working for All-State Insurance Co. in Rochester; **Mel Atwater**, who has a boy one-year-old, is working for General Motors outside of Buffalo; **Ray Borton** is doing graduate work at Michigan State; **Gordon Dennis** is getting the Masters in Business Administration at Cornell and **Neil (Connie) Jones** is getting the Masters in business administration at University of California at Berkeley." (With flow like that, Bob ought to take over this column someday.) Also "When I was in Boston last week end, I ran into **Mark Cooley**, who is now taking pre-med at Boston University. Mark left Cornell after his first two years to join the Navy." And "My life this past year has been as interesting as one can expect while you are going to graduate school. I find the work in finance and banking somewhat similar to the work I was exposed to as finance officer in the Army. My big news is that I have been awarded the International Match Fellowship here at the Wharton Graduate School of Finance & Commerce. I see **Phil Harvay '55** and **Frank Affeld '52** quite often." Bob's address is 226 Baldwin Hall, U of P, Phila. 4.

Saw **Bob Bickley** back from North Africa cycling along Central Park West the other day, looking none the worse for his dealings with the Arabs. And **Steve Greenberg** and his wife are back from Europe.

OWNER-MANAGER
BRUCE A. PARLETTE '32

'53 Women: Mrs. D. Livingston
136 Tillotson Road
Fanwood, N.J.

Claire Nagel is secretary to the advertising manager of Sales Executive Weekly, a magazine published by the Sales Executives' Club of New York. Her address is 109 East 73d St., New York City 21. Our Class president, Sonny Blosser Sengelmann, has a son, Mark, born Nov. 9, 1955. She, Henry, and Mark live at 3306 Leighton Rd., Columbus 21, Ohio. Barbara Ellen Palestine was married to Marvin Waxman, Dec. 17, in Jackson Heights.

Dec. 24 marked the arrival of Karen Joanne Phillips, daughter of Ray and Joanne Ernst Phillips. Ray is a Navy pilot, and after being at Hutchinson, Kan., they have recently been transferred to Maryland. Jan Button, 2430 Channing Way, Berkeley, Cal., is working on the PhD in physics. She reports she is really enjoying Berkeley and San Francisco.

I received a letter from Irene Selmer Griffith, which has caught me up on a lot of people. Irene claims there's nothing new with herself—that is, with two children something always is, but not statistics-wise. Roslyn Miserentino Kerr (Harry '51) had a boy in January. Their new address is 310 S. Aurora St., Ithaca. Harry is teaching Public Speaking at Cornell. Gertrude Kehm Ash (Bill '53) has moved to 502 Hudson St., Ithaca. They are expecting a new playmate for 15-month-old Amalee this summer. Bill is working for the Master's degree, and is teaching in the Poultry Dept.

Carolyn Canaday Swarts has been married a year-and-a-half now. Her husband, Richard, is an engineer with Boeing. They are in Seattle, Wash. Carolyn was a YWCA teen-age director; is now a full time housewife. Charles and Betsy Chipman Busch celebrated daughter Katharine's first birthday in March. They have a new house on RD 2, Ithaca. Nancy Helm is also in Ithaca, attending Law School.

Ellen Swingle Haynes writes from 820 Tower St., San Diego, 15, Cal. They love Southern California—and who wouldn't, with borders of poinsettias and calla lilies, also oranges, lemons, and tangerines? Stephen was one year old in January, and Dick '51 is teaching and counseling at Lemon Grove Jr. High School. He hopes to finish his Master's this summer.

'54 Men: Lt. Alvin R. Beatty
533 Third Avenue
Albany, Ga.

If the adage that no news is good news is true, our Classmates are universally enjoying health, wealth, and wisdom. Can't keep the column going without some specifics though, so how about some of you putting pen to paper now!

Received two letters recently worthy of quoting in full. Al Sebald writes: "The end of March will mark my seventeenth month at Ft. Lee, save a three-month tour in Louisiana on Operation Sagebrush. I'm presently with the 594th QM Co. (Subsistence Depot), which is in the 528th Bn. and 3d Grp. Also in the 528th Bn. is John Johnson, (now 1st Lt. and soon to get an early out) who is Exec Officer of the 510th QM Co., and Jerry Green, who just recently assumed the job of Battalion Adjutant.

CORNELL CHAIR

Shipped direct from Gardner, Mass., express charge extra. If you wish gift shipment, get cost at 30 pounds shipping weight from your local Railway Express office and add to your remittance. Your card can be enclosed; send with order.

For Your Home or Office

You'll be proud to show your friends the new Cornell Chair. With its authentic Emblem of the University in full color, it is popular with all Cornellians.

The chair is sturdy and comfortable, built by New England craftsmen of selected northern hardwood. It is finished in satin black, with light mahogany arms and finely striped in gold. Obtainable only from Cornell Alumni Association.

\$31.50 each, express charges collect. My shipping address
is (please PRINT):

Name.....
Street & No.....
City.....State.....

Multi Cornellians are members of the 3d Grp.: **Dick Maslow, Chuck MacAdams, Don Marion**, to name a few . . . Until a few weeks ago **Clay Miller**, wife Sue, and son Hank lived in an apartment right across the court from 1913A Chuckatuck, our place. (Petersburg, Va.) As you can assume from that sentence, I am married. **Connie Dimock '57** and I were married, September 3, in Anabel Taylor Chapel. We're planning to return to Ithaca this fall, Connie to finish undergrad work and I'll start out in Law School. About a month ago while competing as a member of Ft. Lee's track team in the Knights of Columbus games in Madison Square Garden, I was met with a lusty cry from the stands and, looking up, who should I behold but **Spero Davis**, who is stationed at Ft. Wadsworth or Ft. Hamilton."

Life has never been wetter—er, better—for **Fos Cunningham**. His letter: "In spite of imminent sclerosis of the liver, I am foolishly opening myself to certain complete destruction at the hands of visiting Cornellians by revealing my hiding place: Paris. I have been here since August and have had a few with: **Dick Ross, Bob Livingston, Al Eckhardt, Ron Gebhardt, Doc Rufe, Murray Wigsten '52, Bill Kerr, Paul Sampson, Dick Kerwan, and Marley Halvorsen**. Have seen **Johnson Winship, Don Hertan, Dick Shusler, and Rog Rothbaler**, and enjoyed the American colony of Paris with expatriates **Jane Rippe and Ann Morrissey**." The scene of all this revelry is 5 Ave Boudon, Paris 16. There Fos extends a warm hand and cold glass to all vagrant Cornellians, (yes, even co-eds), bidding them welcome to the far side of paradise, in the "do-nothing, wine-soaking worthless-ness of this always interesting gigantic bistro."

Bill Potter is a student Naval aviator in training at Kingsville, Tex. for antisubmarine aircraft. He hopes for an assignment at Quonset Point, R. I., after finishing there. Recently returned from overseas and now at Hq. Indianapolis Recruiting Main Station is **Ed Drewsen**. **Thomas Guthery** was discharged last June, attended summer school at Ohio U., and then gave up the scholar's regimen for the farmer's. He's raising Hereford cattle and Hampshire cattle and Hampshire hogs on a 1200 acre farm in Marion County, Ohio. Next project: bulldozers. **Doug Rogers** graduated from QM School at Ft. Lee in March, while **John Hammond** is that rare bird, an Army pilot, having completed the aviation tactics course, the Army Aviation School, Ft. Rucker, Ala.

Bud Combes has invested in a new Mark V Jaguar. He writes that his new project has presented "undreamed of financial possibilities for parleying a small fortune into a shoestring." The small fortune was gained as a budding architect for Perkins & Will of White Plains.

'55 Men: Richard J. Schaap
324 West 84th Street
New York 24, N.Y.

So much news has been pouring in lately that I don't even have to foul around and pad the space with inanities.

One of our most faithful correspondents, **Otto Schneider**, sends word from Fort Bliss, Tex., where he is continuing his Artillery

training. Otto notes that recent arrivals at Fort Bliss include **Lincoln Reavis** and **Roy Neuvoehner**. An even more recent arrival at Fort Bliss was a baby girl, Bernice, for **Thomas Irwin** and his wife, the former **Candy Scholl '54**.

David West, with an assistantship in the Department of Conservation, Fernow Hall, notes that he's aiming for his Doctorate in Ithaca. He hopes to have the sheepskin by 1959, "when most everyone else of '55 has scattered far and wide."

Lewis Strauss, whom I shipped to Germany in my column last month, is actually being shipped to Paris by the Army. Seems that the Department of Defense's orders hold priority over mine. Lew married **Lucy Roberts '56**, March 25.

Kelly Marx penned a postcard from Haiti recently. His ship was on a three-week training cruise in the Caribbean. **Peter Cusack** is with Company Q, 2d Training Regiment, Fort Dix, N.J. A fellow recruit is **Bryan Gosling**.

Stephen Sandler writes from his Quartermaster Corps station, the Ingrandes Quartermaster Depot, seven miles north of Chatekeroult (Vienna), France. **Paul Sampson '54** is also stationed at Ingrandes.

With the Army's usual efficiency, Kansas City, Mo., reports that several '55ers have graduated from the officer basic course at Fort Lee, Va. This group includes **Mason Alexander, Henry Buncom, Benjamin Pulling, Fred Mohr, and James Metz**, son of **Reynolds Metz '28**.

Richard Sonet is the gunnery and legal officer aboard a ship based at Norfolk, Va. His home address is 45 East End Avenue, New York City. **James Rosecrans** is on active duty at Aberdeen Proving Ground, Md.

That's about enough now. I'll hold some information in reserve for the next issue. Keep up the correspondence and I can continue to take it easy.

'55 Women: Sue Spooner
19 Bank Street
New York 14, N.Y.

Congratulations to **Mel Davison** for her fine newsletter and congratulations to **Dick Schaap** for making his last column so clever that the rest of us might as well resign! As you may well have seen, **Sally Alger** married **John Browning '55**, April 14. Latest word on attendants include as bridesmaid **Nancy Livingston**, who at last report was again a student at Katy Gibbs. How's that for all the authentic facts? Will be expecting fuller reports soon.

A long letter from **Patricia Wells** leaves no doubt that she's fond of her student life in Germany; address, Munchen, Deutschland, Theresienstr. 89/IV, bei Breuer. Travels have taken her just about all over the continent and plans included much more travel and possibly a job before booking return passage to the US.

Lt. and Mrs. Blair Edenfield (**Christine Petermann**) announced an increase in family, not quite in time for income taxes. David Lewis Edenfield arrived March 14, and will be wearing khaki until June when Papa leaves the ranks of the great khaki fraternity; address, 422 Jackson Circle, Fort Lee Apts., Ft. Lee, Va. The happy parents and young 'un hope to stay in the South, where Blair is looking for a "dairy farm opportunity."

OUR CORNELL

Eight distinguished alumni write
about their University.

Mailed postpaid for \$1 from
Cornell Alumni Association
Merchandise Div.

18 East Ave. Ithaca, N. Y.

A long newsy one from **Barbara Ramsey** describes life as a home demonstrator, home economist, trainee, traveler, etc. which has currently landed her in Binghamton, a convenient commuting distance from the world famed parties and intellectual activities of an upState university. Barb trained in air-conditioned Pittsburgh for the summer of '55 and is currently getting an inside view of Binghamton's contribution to the "Mrs. America" contest. Should connection arise with the "Miss America" festivities, I'm sure she will notify you all through Mr. Shaap's journalistic random facts. Barb also writes that **Jacqueline Covert** was married to John M. Keeler, November 5, 1955; addresses, Keeler, Glens Falls; Ramsey, 5 Crandall St., Binghamton.

Sue Geckner, 307 Carr Dorm, University of North Carolina, Chapel Hill, writes that she is studying sociology at UNC with a major in recreation leadership. Sends her greetings plus an invitation to those in the area or planning such activities to drop in. She is also the third person to ask me for **Jane Rippe's** address. She's in Paris, a quiet, cultural village somewhat north of the metropolis of Monaco; don't have the exact address.

Jane Morgan has moved in with **Ann Wiggins** and **Pat Herrington** at 245 East 72d St., New York City, and spends her working hours training with Guaranty Trust Co. She works mainly with the tangible aspects of the stock market and the required details of major transactions.

Now that you've finished with income tax returns and other inconveniences, would love to hear from you.

NECROLOGY

'83 AB—**Mary Riggs Diefendorf**, 34 South Williams Street, Johnstown, in March, 1956. She was a former school teacher and author of *Historic Mohawk*, published in 1910.

'98 PhB, '03 PhD—**Christabel Forsythe Fiske**, 1708 Osage, Bartlesville, Okla., January 30, 1956. She was professor emerita of English at Vassar; was the author of *Epic Suggestion in the Imagery of the Waverly Novels*.

'98 CE—**Charles Underhill Powell**, 42-23 165th Street, Flushing, March 26, 1955. As chief engineer of the Queens Borough Topographical Bureau from 1902-42, he planned many of the borough's streets and parkways and devised the street numbering system now used throughout Queens. He was a trustee of Queens County Savings Bank and former president of the Municipal Engineers of the City of New York.

'00 PhB—**William Scott Taylor**, 313 Court, Penn Yan, March 9, 1956. He was an attorney with the firm of Reynolds & Reynolds, Wilkes Barre, Pa., from 1934-46.

'05 MD—**Dr. George Albert Newton**, March 20, 1956. He practiced medicine at 50 Brooklyn Avenue, Freeport, for fifty-six years.

'06 ME—**Lawrence King Lynn**, 425 Kimberly Avenue, Asheville, N.C., in March, 1956. He retired in 1950 after twenty-seven years as Pittsburgh (Pa.) sales representative for Westinghouse Electric Corp. Phi Sigma Kappa.

'06—**Homer Samuel Sackett**, 712 South West Salmon Street, Portland 5, Ore., March 4, 1956. He was a consulting timber engineer and former president of the American Wood Preservers Association.

'10 AB—**William Fletcher Russell**, president emeritus of Teachers College, Columbia University, March 26, 1956. He joined the college in 1925 as professor of education; was appointed dean in 1928, succeeding his father, the late James E. Russell '87, and became president in 1949. He retired in 1954 and was deputy director of technical services of the Foreign Operations Administration, later named the International Cooperation Administration. His address was 409 West 117th Street, New York City 27.

'12, '16 ME—**Nathaniel Frucht**, December 25, 1955, at his home, 146 Westminster, Providence, R.I. He was a patent attorney.

'13 AB—**Arthur Shiverick**, Woods Hole, Mass., October 14, 1955. He retired last year as president of Tobey Furniture Co., Chicago, Ill. Delta Upsilon.

'14 AB—**Hamilton McCurdy Lufkin**, 2119 Iglehart Avenue, St. Paul 4, Minn., March 22, 1956. Since 1939 he had been a mechanical engineer with the Minnesota Department of Highways.

'16 BS—**Gilbert McKean Montgomery**, White Oak Farm, Glen Moore, Pa., March 30, 1956. He was with Landscape Experts, Inc., Morton, Pa. Phi Kappa Sigma.

'16—**Lester Clare Rearwin**, December 19, 1955. He operated a farm in Belmont for more than thirty years; was a former secretary of the Angelica Dairymen's League.

'17 BS, '21 PhD—**Laurence Joseph Norton**, 1108 South Lincoln Avenue, Urbana, Ill., February 3, 1956. He was head of agricultural economics at University of Illinois. From 1933-36, he was vice-president of the Farm Credit Administration in Washington, D.C. and of Production Credit Corp., St. Louis, Mo.

'19 AB—**Mrs. Helene Harbers Harris**, in March, 1956. She lived at 3500 Forest, Wilmette, Ill.

'26 EE—**Francis Joseph Grignon**, March 21, 1956. He lived at 3329 150th Place, Flushing. Wife, Mrs. Dorothy Eulenstein Grignon '28; daughter, Mrs. Nancy Grignon Worsnon '52.

'29 EE—**Thomas Steven Bills**, 5111 Allan Terrace, Washington 16, D.C., February 20, 1956. He was with the applied physics laboratory at Johns Hopkins University. Theta Kappa Phi.

'51, '52 BCE—**First Lieutenant Wesley Floyd Bigelow**, as the result of an airplane accident, February 19, 1956. He was a jet pilot instructor at Laredo Air Force Base, Laredo, Tex. His home was in Yorkshire. Seal & Serpent.
