

SCAFFOLDS Fruit Journal*Index, Volume 9, 2000***No. 1, March 20**GENERAL

- ❖ New year of Scaffolds Intro
- ❖ Apple In-Depth School manuals available
- ❖ Preparing your airblast for the season's work

No. 2, March 27DISEASES

- ❖ Using new strobilurin fungicides

GENERAL INFO

- ❖ Planning pest management supply needs
- ❖ Airblast calibration

FIELD NOTES

- ❖ Hudson Valley apple scab update

No. 3, April 3INSECTS

- ❖ Prebloom oil strategies in pear and apple
- ❖ San Jose scale biology and control

DISEASES

- ❖ Black rot and white rot cankers

FIELD NOTES

- ❖ Hudson Valley apple scab update

No. 4, April 10DISEASES

- ❖ Brown rot of stone fruits

INSECTS

- ❖ Pear psylla and pear midge

FIELD NOTES

- ❖ Hudson Valley apple scab update

No. 5, April 17INSECTS

- ❖ Early season (Prebloom) pest management
- ❖ Mirid bugs

No. 6, April 24INSECTS

- ❖ Getting the most for your pollination dollar

DISEASES

- ❖ Apple scab fungicide considerations
- ❖ Mildew fungicide considerations

FIELD NOTES

- ❖ Hudson Valley apple scab update

No. 7, May 1INSECTS

- ❖ Peach pests

CHEM NEWS

- ❖ Provado Section 18 for stone fruits approved

DISEASES

- ❖ Peach diseases initiated after petal fall

No. 8, May 8INSECTS

- ❖ Petal fall insect management considerations

ERRATUM

- ❖ Tree Fruit Guideline changes

DISEASES

- ❖ Apple disease management at petal fall

CHEM NEWS

- ❖ Confirm 24c label approved

No. 9, May 15INSECTS

- ❖ American plum borer and dogwood borer in apples

No. 10, May 22INSECTS

- ❖ Managing internal Lepidoptera in apples
- ❖ Plum curculio control thoughts

DISEASES

- ❖ Disease management in hail-damaged orchards
- ❖ Fabraea leaf spot on pears and quince

continued...

No. 11, May 30INSECTS

- ❖ Early summer insect review
- ❖ Codling moth degree day model update
- ❖ Rose leafhopper

No. 12, June 5INSECTS

- ❖ Obliquebanded leafroller

DISEASES

- ❖ Disease update – Fire blight, cedar apple rust, apple leaf spot diseases

No. 13, June 12INSECTS

- ❖ Apple maggot and spotted tentiform leafminer

CHEM NEWS

- ❖ New Lorsban restrictions coming

No. 14, June 19INSECTS

- ❖ San Jose scale
- ❖ European corn borer
- ❖ Spray timing

No. 15, June 26INSECTS

- ❖ Insect bites – Green aphids, woolly apple aphid, potato leafhopper
- ❖ Dogwood borer

DISEASES

- ❖ Fire blight

No. 16, July 3INSECTS

- ❖ Insect bites – Apple leafminer, variegated leafroller, sparganothis fruitworm, peachtree borer sprays due

No. 17, July 10DISEASES

- ❖ X-disease in cherries and peaches

INSECTS

- ❖ Beneficial insects

FIELD NOTES

- ❖ Hudson Valley insect activity

No. 18, July 17INSECTS

- ❖ Comstock mealybug biology and management
- ❖ Apple maggot biology and management

GENERAL INFO

- ❖ N.Y. Fruit Pest Control Field Day announcement

No. 19, July 24INSECTS

- ❖ Apple boring beetles and Japanese beetles

No. 20, July 31GENERAL INFO

- ❖ Botanical insecticides

INSECTS

- ❖ Dock sawfly

No. 21, August 7INSECTS

- ❖ Summer insect control

No. 22, August 14GENERAL INFO

- ❖ N.Y. Fruit Pest Control Field Day 2nd Notice

INSECTS

- ❖ Woolly apple aphid

No. 23, August 21INSECTS

- ❖ White apple and rose leafhoppers

continued...

No. 24, August 28UPCOMING PEST EVENTSPEST FOCUSINSECT TRAP CATCHES**No. 25, September 5**INSECTS

- ❖ Year end insects

DISEASES

- ❖ Bacterial spot in the year 2000

No. 26, September 11INSECTS

- ❖ Tree fruit arthropod pest review

No. 27, September 18INSECTS

- ❖ Comparison of pest events 2000 to 1999 and the calculated "Normal"

No. 28, September 25INSECTS

- ❖ Final Report - Graphs showing development of pests monitored in Geneva and Highland.

INDEX

- ❖ Index of Scaffolds Volume 9. 2000.
